FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 2 1/2 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

ATLANTA, GA

WHEN: Nov. 21; at 1 pm.
Nov. 22; at 9 am. (identical session)

WHERE: Room LP-7,
Richard B. Russell Federal Building,
75 Spring Street, SW., Atlanta, GA.

RESERVATIONS: Deborah Hogan,
Atlanta Federal Information Center.
Before Nov. 12: 404-221-2170
On or after Nov. 12: 404-331-2170

PHILADELPHIA, PA

WHEN: Dec. 17; at 1 pm.
Dec. 18; at 9 am. (identical session)

WHERE: Room 3306/10
William J. Green, Jr., Federal Building,
600 Arch Street, Philadelphia, PA.

RESERVATIONS: Laura Lewis,
Philadelphia Federal Information Center,
215-597-1709

Rules and Regulations

Federal Register
Vol. 50, No. 209
Tuesday, October 29, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

7 CFR Part 403

[Docket No. 0033A]

Peach (Fresh) Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Peach (Fresh) Crop Insurance Regulations (7 CFR Part 403), effective for the 1986 and succeeding crop years. The intended effect of this rule is to: (1) Prescribe procedures for insuring peaches on an "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (2) specify the weather perils insured against and add as a cause of loss the unavoidable failure of irrigation water supply; (3) limit the insured's share of an indemnity on crops transferred before harvest; (4) change the method of computing indemnities when acreage, share, or practice is underreported; (5) change the insurance period, crop year, cancellation and termination dates, and filing dates; (6) provide prices for computing indemnities based on tree value; (7) specify acreage excluded from insurance when certain designated conditions exist; (8) allow inspection of unharvested acreage at the time of damage; (9) add provisions for reporting the practice and number of bearing trees; (10) provide production guarantee coverage; (11) eliminate the Amount of Insurance Table; (12) remove the middle coverage level limitation applicable to processing peaches; (13) add a provision to provide a coverage level if the insured does not select one; (14) include "misshapen fruit" as fruit eligible for quality adjustment; (15) change the method of computing indemnity payments; (16) add definitions for "Actual price per bushel," "Average yield," "Cyclone," "Freeze," "Frost," and "Loss ratio"; (17) amend the definition of "Harvest"; and (18) add sections concerning "Determinations" and "Notices". The authority for the promulgation of this rule is contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC, 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512–1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is May 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) an annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the peach policy are:

1. *Section 1.*—Delete "adverse weather conditions" and specify the weather perils, in addition to, the failure of the irrigation water supply because of unavoidable cause after insurance attaches as insurable causes of loss. This change eliminates excessive moisture as a cause of loss and interrelated uninsurable losses because of insect and disease damage.

2. *Section 2.*—Add a clause to change the method of calculating the insured's share of an indemnity on crops transferred before harvest. This limits the insured's indemnity to his interest in the crop at the time of loss.

Add a provision to exclude acreage from insurance if the farming practices carried out are not in accordance with the farming practices for which the premium rates have been established.

Add a provision to exclude acreage from insurance when the peaches are harvested by the public.

Allow insurance before the fourth growing season if the orchard has a recorded production of 100 bushels per acre or more. This change eliminates the "minimum production" requirement and the amount of insurance table.

Add a provision to exclude acreage from insurance when acreage is planted with a vine or tree crop other than peaches.

Add a provision to provide FCIC the right to inspect and determine uninsurable acreage.

Add provisions for irrigated practices and the reporting of such practices.

3. *Section 3.*—Add a provision to report the number of bearing trees. This allows tracking any changes in tree number and assures necessary adjustments to the APH yield.

4. *Section 4.*—Provide coverage in the form of production guarantees contained in the actuarial table in place of dollar amounts of insurance.

Delete the Amount of Insurance table from the policy and its related provisions. Add a provision to reduce

the production guarantee if certain stand requirements are not met.

Delete the provision to hold processing peaches to the middle coverage level. Add a provision for a coverage level if the insured does not select one.

Provide prices for computing indemnities on the actuarial table for fresh and processing peaches. These prices will be based on an "on tree" value. The minimum price election concept will be continued (SEE: Section 9.c.(3)).

5. *Section 5.*—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis. Coverages will, therefore, reflect the actual production history of the crop on the unit. Insureds with good loss experience who are now receiving a premium discount are protected since they will retain any discount under the present schedule through the 1990 crop year or until their loss experience causes them to lose the advantage, whichever is earlier.

Remove the provisions for the transfer of insurance experience and for premium computation when insurance has not been continuous. Deletion of the Premium Adjustment Table eliminates the need for these provisions.

6. *Section 7.*—Change the insurance attachment date from January 10 to December 1. This provides insurance against damage which could occur in December.

Add a provision to end the insurance period if the peaches are not harvested timely.

Add a provision to end the insurance period at loss adjustment time.

7. *Section 8.*—Add a new section to provide FCIC the right to inspect any unharvested damaged peaches which the insured chooses to no longer care for. This inspection will be more accurate because it is closer to the time of damage.

8. *Section 9.*—Change to provide a more accurate indemnity payment.

Change to allow computations on both production and fresh market peaches when grown together.

Change the method of computing the indemnity when acres are underreported. The production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the indemnities when acres are underreported and will reduce the complexity of calculations.

Change to provide that the total production to be counted for a unit will include all appraised production plus any production harvested prior to appraisal. This change emphasizes the appraisal, which in actual practice is the primary method of determining the production to count.

Add "misshapen fruit" as fruit eligible for quality adjustment.

Add the requirement that all damaged fruits be inspected by us if quality adjustments are to be made and specify the methods, for making these adjustments.

These changes are consistent with other crop policies operating under APH which state the specific methods of determining quality adjustment.

Include a provision for production destroyed without our consent. Also provide that any acreage not inspected by us prior to the completion of harvest will be considered appraised at the full guarantee. Since production to count is determined from appraisals on the tree prior to harvest, this change will allow us to make our inspections prior to completion of harvest.

Allow all "unharvested production" to count as production to count. The production guarantee is based on "on tree" production therefore any unharvested production must be considered production to count.

Change to count the appraisal on any acreage except when the "actual harvested production" exceeds the appraisal. Appraisals made prior to harvest when the fruit is still sizing can lead to understated production to count. This provision will allow FCIC to account for full production based on harvested records.

9. *Section 15.*—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

Change the cancellation and termination dates to November 30. This change is made to more closely conform to the insurance period and crop year which begins on December 1.

10. *Section 16.*—Change the filing date for contract changes from September 30 to August 31. This change was made to coincide with the change in the cancellation and termination dates.

11. *Section 17.*—Add "Actual price per bushel" and "Average yield" definitions to clarify use of the terms in sections 4.b. and 9.c.

Redefine "Harvest" to emphasize that production determinations will be based solely on "on tree" appraisals.

Add definitions for the terms "Cyclone," "Freeze," and "Frost" to clarify their use in section 1.

Add a definition for the term "Loss ratio" to clarify its use in section 5.

12. *Sections 19. and 20.*—Add sections for "Determinations" and "Notices," respectively.

On Thursday, August 8, 1985, FCIC published a Notice of Proposed Rulemaking in the **Federal Register** at 50 FR 32073, to revise and reissue the Peach Crop Insurance Regulations (7 CFR Part 403), effective for the 1986 and succeeding crop years. The public was given 30 days in which to submit written comments on the proposed rule.

No comments were received in direct response to the proposed rule. However, on September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, DC, for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the proposal to restrict unit division by removing unit division guidelines from policies. Those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by

current contract holders if the proposed regulations become effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records of production after the close of harvest of marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The peach program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under a GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not a viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed unit division change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.

—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current standard insurance policy language defines "unit" as:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term. The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986. Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

With the exception of minor changes in language and format, the proposed rule, amended as outlined above, is hereby adopted.

List of Subjects in 7 CFR Part 403

Crop Insurance, Peaches.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Peach (Fresh) Crop Insurance Regulations (7 CFR Part 403), effective for the 1986 and succeeding crop years, to read as follows:

PART 403—PEACH (FRESH) CROP INSURANCE REGULATIONS

Subpart—Regulations for the 1986 and Succeeding Crop Years

Sec.

403.1 Availability of peach crop insurance.
403.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
403.3 OMB control numbers.
403.4 Creditors.
403.5 Good faith reliance on misrepresentation.
403.6 The contract.
403.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

Subpart—Regulations for the 1986 and Succeeding Crop Years

§ 403.1 Availability of peach crop insurance.

Insurance shall be offered under the provisions of this subpart on peaches in counties within the limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 403.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for peaches which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect a coverage level and price at which indemnities will be computed from among those levels and prices contained in the actuarial table for the crop year.

§ 403.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 403.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 403.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the peach insurance contract,

whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager is cases involving not more than $100,000.00, finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the idemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Requests for relief under this section must be submitted to the Corporation in writing.

§ 403.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the peach crop as provided in the policy. The contract shall consist of the application, the policy, and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 403.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the peach crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1986 and succeeding crop years, a contract in the form provided for in this subpart will come into effect as a continuation of a peach insurance contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1986 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Peach (Fresh) Insurance Policy for the 1986 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Peach Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We will provide the insurance described in this policy in return for the premium and compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Frost;
(2) Freeze;
(3) Hail
(4) Tornado;
(5) Cyclone;
(6) Drought;
(7) Wind;
(8) Lightning;
(9) Flood;
(10) Fire;
(11) Earthquake;
(12) Volcanic eruption;
(13) An insufficient number of chilling hours to effectively break the dormant period for the crop year; or
(14) If applicable, failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches;

unless those causes are excepted, excluded, or limited by the actuarial table or section 9f(5).

b. We will not insure against any loss of production due to:

(1) Disease or insect infestation;
(2) The neglect, mismanagement, or wrongdoing by you, any member of your household, your tenants, or employees;
(3) The failure to follow recognized good peach farming practices;
(4) The failure or breakdown of irrigation equipment or facilities;
(5) The failure to follow good peach irrigation practices;
(6) The impoundment of water by any governmental, public or private dam or reservoir project;
(7) Split pits regardless of cause; or
(8) Any cause not specified in section 1a as an insured loss.

2. Crop, acreage, and share insured.

a. The crop insured will be any of the types or varieties of peaches which are grown for the production of Fresh or Processing Peaches (except processing peaches in California) on insured acreage and for which a guarantee and premium rate are provided by the actuarial table.

b. The acreage insured for each crop year will be peaches grown on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured peaches at the time insurance attaches. However, for the purpose of determining the amount of indemnity, your share will not exceed your share on the earlier of:

(1) The time of loss; or
(2) The beginning of harvest.

d. We do not insure any acreage:

(1) If the farming practices carried out are not in accordance with the farming practices for which the premium rates have been established;
(2) From which the peaches are harvested by the public;
(3) On which the trees have not reached the fourth growing season after being set out unless such acreage has produced at least 100 bushels of peaches per acre;
(4) Planted with a vine or tree crop other than peaches;
(5) Which we inspect and consider not acceptable; or
(6) Of a type or variety of peaches not established as adapted to the areas or excluded by the actuarial table.

e. If insurance is provided for an irrigated practice, you must report as irrigated only the acreage for which you have adequate facilities and water, at the time insurance attaches, to carry out a good peach irrigation practice.

f. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of acreage, share, practice, and number of bearing trees.

You must report on our form:

a. All the acreage of peaches in the county in which you have a share;
b. The practice;

c. Your share on the date insurance attaches; and

d. The number of bearing trees.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any peaches grown in the county. This report must be submitted annually on or before January 10. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by January 10, we may elect to determine by unit the insured acreage, share, practice, and number of bearing trees or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. If the number of bearing trees (fourth growing season and older) is reduced more than 10 percent from the preceding calendar year, the production guarantee may be reduced 1 percent (through adjustment to your average yield) for each 1 percent reduction in excess of 10 percent.

c. Coverage level 2 will apply if you do not elect a coverage level.

d. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

5. Annual premium.

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share on the date insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

c. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1984 crop year under the terms of the experience table contained in the peach policy in effect for the 1985 crop year, you will continue to receive the benefit of that reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1990 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1985 crop year;

(4) Once the loss ratio exceeds .80, no further premium reduction will apply; and

(5) Participation must be continuous.

6. Deductions for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you, or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance period.

Insurance attaches for each crop year on December 1 and ends at the earliest of:

a. Total destruction of the peaches;

b. The date harvest of the peaches (by variety) should have ended;

c. Harvest of the peaches;

d. Final adjustment of a loss; or

e. September 30 of the crop year.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us written notice of:

(a) The dates of damage; and

(b) The causes of damage.

(2) You must give us written notice if during the period before harvest, the peaches on any unit are damaged and you decide not to further care for or harvest any part of them.

(3) If you are going to claim an indemnity on any unit, you must give us notice:

(a) At least 15 days before the beginning of harvest;

(b) Immediately, if damage occurs within the 15 days prior to harvest or during harvest; or

(c) By September 30, if harvest will not begin by this date.

b. You must obtain written consent from us before you destroy any of the peaches which are not to be harvested.

c. We may reject any claim for indemnity if you fail to comply with any of the requirements of this section or section 9.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the peaches on the unit;

(2) Harvest of the unit; or

(3) September 30 of the crop year.

b. We will not pay any indemnity unless you:

(1) Establish the total production of peaches on the unit at the time of harvest and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Multiplying this result by the price election;

(3) Subtracting therefrom the dollar amount obtained by multiplying the total production of peaches to be counted (see section 9f) by the larger of the price election or the actual price per bushel of peaches; and

(4) Multiplying this result by your share.

d. If a unit contains insured acreage of both fresh and processing type peaches, the dollar amounts of insurance and production to count as established in 9.c. above will be determined separately for each type and then added together to determine the total amounts for the unit.

e. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

f. The total production to be counted for a unit will include all appraised production plus any production harvested prior to appraisal.

(1) Mature peach production may be adjusted downward as a result of a loss in quality because of hail, wind and misshapen fruit. Any production which is disposed of without being inspected by us will be considered undamaged. The amount of production will be determined for:

(a) Peaches grown for fresh use by:

(i) Dividing the value per ¾-bushel carton of the damaged peaches by the price per ¾-bushel carton of U.S. Extra No. 1 two-inch peaches; and

(ii) Multiplying this result by the number of bushels of such peaches.

The applicable price per ¾-bushel carton of U.S. Extra No. 1 two-inch peaches (if not available, the next larger size for which a price is available) will be the applicable average F.O.B. shipping point price reported by the Market News Service of the United States Department of Agriculture for 7 consecutive days commencing with the day harvest of the variety begins.

(b) Peaches grown for processing by:

(i) Dividing the value per bushel of the damaged peaches by the price per bushel of undamaged peaches; and

(ii) Multipying this result by the number of bushels of such peaches.

The applicable price per bushel of undamaged peaches will be the average price for processing peaches determined for 7 consecutive days commencing with the day harvest of the variety begins.

(2) Appraised production to be counted will include:

(a) Potential production lost due to uninsured causes and failure to follow recognized peach farming practices;

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause, destroyed by you without our consent or not inspected by us prior to the completion of harvest; and

(c) All unharvested production.

(3) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production is exceeded by the actual harvested production.

(4) We reserve the right to delay any appraisal of damage until the extent of damage can be determined.

(5) If you elect to exclude hail and fire as insured causes of loss and the peaches are damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire".

g. You must not abandon any acreage to us.

h. You may not sue unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

i. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however,

pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is no due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** semiannually on or about January 1 and July 1. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

j. If you die, disappear, or are judicially declared incompetent, or if you are an entity other an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the persons determined to be beneficially entitled thereto.

k. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance.

For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the corp year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to farm.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale, or other disposition of all peaches produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records applied, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the farm for purposes related to the contract.

15. Life of contract: Cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Therefore, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to us, satisfactory production records for the crop year or the contract will be cancelled for the next year; or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster. (If this subsection (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due:

(1) If deducted from an indemnity will be the date you sign the claim; or

(2) If deducted from payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are November 30.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which idemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 preceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of peach crop insurance:

a. "Actual price per bushel" for:

(1) "Fresh peaches" means the average price per bushel for U.S. Extra No. 1 two-inch peaches (if not available, the next larger size for which a price is available) determined from applicable prices reported by the Market News Service of the United States Department of Agriculture for 7 consecutive days commencing with the day harvest of the variety begins less the allowable cost designated by the actuarial table; and

(2) "Processing peaches" means the average price per bushel for processor peaches determined for 7 consecutive days commencing with the day harvest of the variety begins less the allowable cost designated by the actuarial table.

b. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, uninsurable types or varieties, insurable and uninsurable acreage, and related information regarding peach insurance in the county.

c. "Average yield" means the yield established from your actual production records, which is approved by us and shown on our form.

d. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county as shown by the actuarial table.

e. "Crop year" means the period beginning with the date insurance attaches and extending through the normal harvest time and will be designated by the calendar year in which the peaches are normally harvested.

f. "Cyclone" means only a large-scale, atmospheric wind-and-pressure system characterized by low pressure at its center and counterclockwise circular wind motion which has been named by the United States Weather Service and which has sustained winds in excess of 58 miles per hour at the nearest U.S. Weather Service reporting station to the crop damage at the time of the crop damage.

g. "Freeze" means the condition that exists when air temperatures over a widespread area remain at or below 32 degrees Fahrenheit.

h. "Frost" means the condition that exists when the air temperature around the plant falls to 32 degrees Fahrenheit or below.

i. "Harvest" means the picking of mature peaches from the trees either by hand or machine.

j. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

k. "Insured" means the person who submitted the application accepted by us.

l. "Loss ratio" means the ratio of indemnity to premium.

m. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

n. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

o. "Tenant" means a person who rents land from another person for a share of the peaches or a share of the proceeds therefrom.

p. "Unit" means all insurable acreage of peaches in the county on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the peaches on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, D.C., on September 25, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25718 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

7 CFR Parts 404, 405, and 408

[Docket No. 2722S]

Apple Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule and Revocations.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby replaces the regulations in Parts 404 and 408 of Title 7 CFR, Eastern and Western U.S. Apple Crop Insurance Regulations, effective with the end of the 1985 crop year (November 20, 1985), with a new part for Apple Crop Insurance Regulations (7 CFR Part 405), to combine the Eastern U.S. and Western U.S. Apple Crop Insurance Regulations into one regulation to be known as the Apple Crop Insurance Regulations (7 CFR Part 405) effective for the 1986 and succeeding crop years (November 21, 1985). The intended effect of this rule is to: (1) Combine the provisions of crop insurance for applies into one regulation, effective for the 1986 and succeeding crop years; (2) offer the same insurance policy to growers in all parts of the country; (3) change to a mandatory "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (4) add drought and failure of irrigation water supply as insurable causes of loss; (5) establish minimum orchard insurance requirements by area; (6) require inspection of newly acquired acreage before insurance initially attaches; (7) change the method of computing indemnities when acreage, share or practice is underreported; (8) add or change the definitions of "Area A", "Area B", "Bin", "Bushel", "Freeze", 'Frost", "Loose field box", and "Loss ratio"; (9) provide a Fresh Fruit Option Amendment; (10) allow insurance to attach under certain conditions if application is accepted after November 21; and (11) define the end of the insurance period. The authority for the promulgation of this rule is contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 29, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC 20250, telephone (202) 447-3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512-1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is April 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

This rule combines the Eastern and Western U.S. Apple crop insurance policies into a single policy for insuring apples in the United States, to be contained in 7 CFR Part 405—Apple Crop Insurance Regulations.

The Corporation's Apple Insurance regulations and policies were developed in accordance with the primary uses for the apples grown commercially in the principal production areas. The Western U.S. Apple Policy (7 CFR 404.7(d)) was developed primarily for the production of fresh fruit while the Eastern U.S. Apple Policy (7 CFR 408.7(d)) was developed primarily for growing production apples.

Eastern producers are moving into fresh fruit and have requested insurance to cover fresh fruit production in their area. Some Western apple growers are also moving into production apples and have requested insurance for that purpose in those areas, thereby further

clouding the delineation which presently exists. The Corporation recently offered a Fresh Fruit Option for Eastern apple growers which effectively transferred the Western policy to Eastern growers.

The Corporation believes that the differences which exist between the Eastern and Western growers no longer require two separate policies. The Corporation therefore has combined the two policies into one basic policy maintaining only those essential differences which concern marketing and production practices between the areas. The Fresh Fruit Option will be offered in all areas. Differences in coverage will be because of practice and not because of geographic location. Both 7 CFR Parts 404 and 408 will be effective only through the 1985 crop year. The new 7 CFR Part 405 Apple Crop Insurance Regulations will become effective for the 1986 and succeeding crop years.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes from the Apple policies now contained in 7 CFR Part 404 and 408 are:

1. *Section 1.a.*—Add drought and the failure of irrigation water supply because of unavoidable cause as insurable causes of loss.

2. *Section 2.d.*—Revise to require minimum acreage production requirements by area to qualify for insurance. The differences in the way production is measured in areas require a different method of production measurement by area. In the West, apples are sold by the bin or box. In the East, apples are sold by the bushel. A box of apples weighs 35 pounds, a bushel of apples weighs 42 pounds in all states in the West except Colorado. In Colorado, a bushel weighs 40 pounds.

3. Section 2.e.—Add a condition for inspection before insurance attaches to acreage under a first year policy or newly acquired acreage under an existing policy. Purchased acreage will not be insurable until it is inspected by us.

4. Section 2.f.—Add a clause to require reporting irrigated practices. This clause is required since most Eastern apple orchards are not irrigated while most Western orchards are.

5. Section 5.—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis, and coverages will reflect the actual production history of the crop on the unit. Insureds with good loss experience who are now receiving a premium discount are protected since they may retain a discount under the present schedule through the 1990 crop year or until their loss experience causes them to lose the advantage, whichever is earlier.

Remove the provisions for the transfers of insurance experience and for premium computation when insurance has not been continuous. Deletion of the Premium Adjustment Table eliminates the need for these provisions.

6. Section 7.—Add a provision to allow the application for insurance after the usual start of the insurance period.

Change the date for the end of the insurance period and allow a variance for earlier standard harvesting practices.

7. Section 9.—Change the method of computing indemnities when acres are underreported. The production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the indemnities when acres are underreported and will reduce the complexity of calculations.

8. Section 15.c.—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

9. Section 17.—Add or change definitions for the terms "Area A", "Area B", "Bin", "Bushel", "Freeze", "Frost", "Loose field Box", and "Loss ratio."

10. The Quality Provision in the Western Apple Policy for 1985 will now be available under the Fresh Fruit Option Amendment.

On Friday, August 9, 1985, FCIC published a notice of proposed rulemaking in the **Federal Register** at 50 FR 32208, proposing to replace the regulations in Parts 404 and 408 of Title 7 CFR, Eastern and Western U.S. Apple Crop Insurance Regulations, effective with the end of the 1985 crop year (November 20, 1985), with a new part for Apple Crop Insurance Regulations (7 CFR Part 405), combining the Eastern U.S. and Western U.S. Apple Crop Insurance Regulations into one regulation to be known as the Apple Crop Insurance Regulations (7 CFR Part 405) effective for the 1986 and succeeding crop years (November 21, 1985). The public was given 30 days in which to submit written comments on the proposed rule.

No comments were received in direct response to the proposed rule. However, on September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, D.C., for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the determination to restrict unit division by removing unit division guidelines from policies. Those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee, or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulation became effective.

Arguments against the proposed change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under

the crop insurance program when he suffers a loss on a portion of his planted acreage when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended the FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records to production after the close of harvest or marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The apple program now is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under an GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not a viable consideration.

The crop programs with GY–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is relatively easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current insurance policy language is typical of the unit definition in most other policies:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be

divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term. The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986. Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

Therefore, the proposed rule, amended as outlined above, is hereby adopted as a final rule.

List of Subjects in 7 CFR Parts 404, 405, and 408

Crop insurance, Western U.S. Apples, Apples, Eastern U.S. Apples.

Final Rule

(a) Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501, *et seq.*), the Federal Crop Insurance Corporation hereby amends the Subpart headings to the Eastern U.S. Apple Crop (7 CFR Part 404) and Western U.S. Apple Crop (7 CFR Part 408) Regulations, effective through the 1985 crop year as follows:

PART 404—EASTERN U.S. APPLE CROP INSURANCE REGULATIONS

1. The Authority citation for 7 CFR Part 404 continues to read as follows:

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

2. The Subpart heading in 7 CFR Part 404 is revised to read as follows:

Subpart—Regulations for the 1984 and 1985 Crop Years

PART 408—WESTERN U.S. APPLE CROP INSURANCE REGULATIONS

3. The Authority citation for 7 CFR Part 408 continues to read as follows:

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

4.a. The Subpart heading in 7 CFR Part 408 is revised to read as follows:

Subpart—Regulations for the 1984 and 1985 Crop Years

b. Pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501, *et seq.*), the Federal Crop Insurance Corporation hereby adds a new Part 405 to Chapter IV of Title 7 of the Code of Federal Regulations to be known as 7 CFR Part 405 Apple Crop Insurance Regulations, effective for the 1986 and succeeding crop years, to read as follows:

PART 405—APPLE CROP INSURANCE REGULATIONS

Subpart—Regulations for the 1986 and Succeeding Crop Years

Sec.

405.1 Availability of apple crop insurance.
405.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
405.3 OMB control numbers.
405.4 Creditors.
405.5 Good faith reliance on misrepresentation.
405.6 The contract.
405.7 The application and policy.
405.8 Apple Fresh Fruit Option Amendment.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

Subpart—Regulations for the 1986 and Succeeding Crop Years

§ 405.1 Availability of apple crop insurance.

Insurance shall be offered under the provisions of this subpart on apples in counties within the limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 405.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for apples which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect a coverage level and price at which indemnities will be computed from among those levels and prices contained in the actuarial table for the crop year.

§ 405.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§405.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 405.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the apple insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000.00, finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take their erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Application for relief under this section must be submitted to the Corporation in writing.

§ 405.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the apple crop as provided in the policy. The contract shall consist of the application, the policy, the Fresh Fruit Option, if applicable, and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 405.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the apple crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1986 and succeeding crop years, a contract in the form provided for in this subpart will come into effect as a continuation of an apple contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1986 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Apple Insurance Policy for the 1986 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Apple Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We shall provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Drought;
(2) Freeze;
(3) Frost;
(4) Wind;
(5) Hail;
(6) Fire;
(7) Earthquake;
(8) Volcanic eruption;
(9) Fruit-set failure; or
(10) If applicable, failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches.

unless those causes are expected, excluded, or limited by the actuarial table or section 9e(4).

b. We will not insure against any loss of production due to:

(1) The neglect, mismanagement, or wrongdoing of you, any member of your household, your tenants, or employees;

(2) The failure to follow recognized good apple management practices;

(3) The failure or breakdown or irrigation equipment or facilities;

(4) The failure to follow good apple irrigation practices;

(5) The impoundment of water by any governmental, public or private dam or reservoir project; or

(6) Any cause not specified in section 1a as an insured loss.

2. Crop, acreage, and share insured.

a. The crop insured will be a variety of apples established as adopted to the area, which is located on insured acreage and for which a guarantee and premium rate are provided by the actuarial table.

b. The acreage insured for each crop year will be apples located on insurable acreage as designated by the actuarial table and in which you have a share, as reported by your or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured apples at the time insurance attaches.

d. We do not insure any acreage:

(1) Which in area A has not produced a minimum of 10 bins per acre;

(2) Which in area B has not produced a minimum of 150 bushels per acre;

(3) Which in Colorado, has not produced a minimum of 200 bushels per acre;

(4) Unless we agree, in writing, to insure such acreage;

(5) Which we inspect and consider not acceptable;

(6) The crop year the application is filed until the acreage has been inspected and accepted by us; or

(7) Acquired for the crop year until inspected and accepted by us.

e. If insurance is provided for an irrigated practice you must report as irrigated only the acreage for which you have adequate facilities and water, at the time insurance attaches, to carry out a good apple irrigation practice.

f. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the time insurance attaches.

3. Report of acreage, share, and number of trees.

You must report on our form:

a. All the acreage of apples in the county in which you have a share;

b. Your share at the time insurance attaches; and

c. The number of bearing trees.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any apples located in the county.

This report will be submitted annually on or before the reporting date established by the actuarial table. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by the reporting date, we may elect to determine by unit the insured acreage, share, and number of trees or we may deny liablity on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. Coverage level 2 will apply if you do not elect a coverage level.

c. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

5. Annual premium.

a. The annual premium is earned and payable when insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share when insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

c. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1984 crop year under the terms of the experience table contained in the Eastern or Western apple policy in effect for the 1985 crop year, you will continue to receive the benefit of that reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1990 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1985 crop year;

(4) Once the loss ratio exceeds .80, no further premium reduction will apply; and

(5) Participation must be continuous.

6. Deductions for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance period.

Insurance attaches for each crop year on November 21 except that for the first crop year, if we accept your application for apple insurance after November 21, insurance will attach on the thirtieth day after you submit a properly completed application. Insurance ends at the earliest of:

a. Total destruction of the apples;

b. Harvest of the unit;

c. Final adjustment of a loss; or

d. The earlier of:

(1) The end of the normal harvest period by variety for the crop year; or

(2) November 5 of the crop year.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us notice of the date and cause of damage within 10 days of such damage.

(2) You must given us notice of probable loss at least 15 days before the beginning of harvest if you anticipate a loss on any unit.

(3) If probable loss is later determined or damage occurs during harvest, immediate notice must be given.

(4) In addition to the notices required by this section, if you are going to claim an indemnity on any unit, we must be given notice not later than 10 days after the earliest of:

(i) Total destruction of the apples on the unit;

(ii) Harvest of the unit; or

(iii) The calendar date for the end of the insurance period.

b. You must obtain written consent from us before you destroy any of the apples which are not to be harvested.

c. We may reject any claim for indemnity if any of the requirements of this section or section 9 are not complied with.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the apples on the unit;

(2) Harvest of the unit; or

(3) The calendar date for the end of the insurance period.

b. We will not pay any indemnity unless you:

(1) Establish the total production of apples on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Subtracting therefrom the total production of apples to be counted (see section 9e);

(3) Multiplying the remainder by the price election; and

(4) Multiplying this product by your share.

d. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported, but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

e. The total production to be counted for a unit will include all harvested and appraised production determined to be marketable.

(1) Appraised production to be counted will include:

(i) Unharvested marketable production, and potential production lost due to uninsured causes and failure to follow recognized good apple management practices; and

(ii) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause, or destroyed by you without our consent.

(2) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production is:

(a) Not harvested before the harvest of apples becomes general in the county and reappraised by us;

(b) Further damaged by an insured cause and reappraised by us; or

(c) Harvested.

(3) The amount of production of any unharvested apples may be determined on the basis of field appraisals conducted after the end of the insurance period.

(4) If you elect to exclude hail and fire as insured causes of loss and the apples are damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire".

f. You must not abandon any acreage to us.

g. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

h. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity.

The interest rate will be that established by the Secretary of the Treasury under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** on or about January 1 and July 1 of each year.

The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

i. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the person determined to be beneficially entitled thereto.

j. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance.

For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to farm.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all apples produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records apply, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the farm for purposes related to the contract.

15. Life of contract: Cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to the Corporation satisfactory production records for the crop year or the contract will be cancelled for the next crop year; or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster (If this subsection (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due:

(1) If deducted from an indemnity will be the date you sign the claim; or

(2) If deducted from payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are November 20.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 preceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of apple crop insurance:

a. "Area A" includes Montana, Wyoming, Utah, New Mexico, and all states west thereof.

b. "Area B" includes all other states except Colorado.

c. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding apple insurance in the county.

d. "Bin" means a standard container, accepted by the industry: (1) Containing a minimum of 875 pounds of apples; or (2) As designated by the actuarial table.

e. "Bushel" means a standard container, containing 42 pounds of apples (40 pounds in Colorado).

f. "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will also be considered contiguous.

g. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county as shown by the actuarial table.

h. "Crop year" means the period beginning with the date insurance attaches and extending through the normal harvest time and shall be designated by the calendar year in which the apples are normally harvested.

i. "Freeze" means the condition that exists when air temperatures over a widespread area remain at or below 32 degrees (Fahrenheit).

j. "Frost" means the condition that exists when the air temperature around the plant falls to 32 degrees (Fahrenheit) or below.

k. "Fruit-set failure" means failure of the apple trees to develop blossoms or set fruit due only to adverse weather conditions, but shall not include poor pollination resulting from inadequate pollenizers in the orchard or failure to set fruit due to spray damage or other manageable causes.

l. "Harvest" means the picking of marketable apples from the trees or from the ground.

m. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

n. "Insured" means the person who submitted the application accepted by us.

o. "Loose field box" means a standard container containing: (1) 35 pounds of apples; or (2) A quantity designated by the actuarial table.

p. "Loss ratio" means the ratio of indemnity to premium.

q. "Marketable" means apples which grade U.S. No. 1, 2, or Cider in accordance with the United States Standards for Apples for Processing.

r. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

s. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

t. "Tenant" means a person who rents land from another person for a share of the apples or a share of the proceeds therefrom.

u. "Unit" means all insurable acreage of apples in the county located on contiguous land, on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the apples on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

§ 405.8 Apple Fresh Fruit Option Amendment.

(a) Notwithstanding the provisions of § 405.7(d), section 9.e. of this part, an insured producer may, upon submission and approval of a Fresh Fruit Option Amendment (Amendment) elect to insure any insurable acreage or any designated portion thereof, under the provisions of the Amendment. Only apple acreage which is managed with the intent of producing fresh-market apples will be insurable under the Amendment. If management practices are carried out for the production of both fresh and processing apples on insurable acreage, and the election is made to: (1) Insure fresh market apples under the Amendment and; (2) insure those insurers intended for processing under the Apple policy; the election to insure on both a fresh and processing basis must be made when the Amendment is submitted. The Amendment is continuous until cancelled and may only be cancelled prior to the cancellation date.

(b) For those insureds who elect to insure apples under the Amendment, all provisions of the Apple crop insurance policy will apply except those provisions in conflict with the Amendment.

(c) The Amendment reads as follows:

U.S. DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Fresh Fruit Option Amendment

This is a continuous amendment (see section 15 of the basic policy))

Insured's Name _____

Contract No. _____

Address _____

Crop year _____

Identification No. _____

SSN _____

Tax _____

It is hereby agreed to amend the basic Federal Crop Insurance Apple Policy (basic policy) under the following terms and conditions:

1. This Amendment must be submitted to us on or before the final date for accepting applications for the initial crop year in which you wish to insure your apples under this Amendment.

2. You must have a basic policy in force.

3. You must insure all the acreage of apples in the county in which you have a share regardless of the intended use (fresh-market or processing).

4. In addition to section 8 of the policy, grading of the fruit must be done by us prior to harvest or no quality adjustment will be made.

5. Separate line entries according to intended use (fresh-market or processing) must be included on the acreage report required under section 3 of the basic policy.

6. Your apples intended for processing will be insured under the quality provisions of Option A only.

7. Your apples intended for fresh-market will be insured under the quality provisions of either Option A or Option B, whichever you select.

8. If you select Option A only, Option A will apply to all of your apples intended for processing and fresh-market.

9. If you select Option B (or both options), Option B will apply to all of your apples intended for fresh-market and Option A will apply to all of your apples intended for processing.

10. You must select either Option A or Option B.

Option A

In addition to Section 9.e. and in lieu of 17.q. of the basic policy, your production to count for any acreage designated for processing or fresh-market will be adjusted when your apples are damaged by hail to the extent that such apples will not grade U.S. No. 1 (processor grade). The adjustment factor (not to exceed 1) will be the ratio of the average market price (received by you or determined by us, whichever is larger), for your damaged production to the average market price for U.S. No. 1 (processor grade) apples.

There will be no adjustment for quality if the apples do not grade U.S. No. 1 because of size, color or russeting.

Option B

a. In lieu of sections 9.e.(1), 9.e.(2), 17.1, and 17.q. of the basic policy, the total production to be counted for a unit must include all harvested and appraised production. Harvested apple production which, due to hail damage, does not grade 80 percent U.S. Fancy or better, in accordance with applicable USDA Standards, will be adjusted as follows:

(1) Production with 21 through 40 percent not grading U.S. Fancy or better due to hail damage will be reduced 2 percent for each percent in excess of 20 percent. The difference between the reduced production and the total production will be considered cull production.

(2) Production with 41 through 50 percent not grading U.S. Fancy or better due to hail damage will be reduced 40 percent plus an additional 3 percent for each percent in excess of 40 percent. The difference between the reduced production and the total production will be considered cull production.

(3) Production with 51 through 64 percent not grading U.S. Fancy or better due to hail damage will be reduced 70 percent plus an additional 2 percent for each percent in excess of 50 percent. The difference between the reduced production and the total production will be considered cull production.

(4) Production with 65 percent or more not grading U.S. Fancy or better due to hail damage will be considered 100 percent cull production.

b. Apples which are knocked to the ground by wind or frozen to the extent that they can be harvested but not packed or marketed as fresh apples will be considered 100% cull production.

c. 30 percent of all cull production, will be counted as production. No reduction in grade will be applied to any apple grading less than U.S. Fancy due solely to shape, russeting or color.

d. Appraised production to be counted must include:

(1) Potential production lost due to uninsured causes and failure to follow recognized good apple management practices; and

(2) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause, or destroyed without our consent.

e. Any appraisal we have made on insured acreage will be considered production to count unless such appraised production:

(1) Is harvested;

(2) Is further damaged by an insured cause and reappraised by us; or

(3) In whole or part, consists of (i) apples knocked to the ground by wind or hail; or, (ii) frozen while on the tree to the extent that harvest is not practical.

11. Your premium rate for apples under the option elected by you will be established by the actuarial table.

12. All provisions of the basic policy not in conflict with this amendment are applicable.

13. All determinations under this amendment will be made by us.

14. This amendment may be cancelled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date provided by the policy, preceding such crop year.

Collection of Information and Data (Privacy Act)

The following statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. 552(a)):

The authority for requesting the information to be supplied on this form is the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), and the regulations for insuring apples under the Apple Crop Insurance Regulations (7 CFR Part 405). The information requested is necessary for the Federal Crop Insurance Corporation (FCIC) to process the option to insure apples, determine the correct premium and indemnity, and, to determine the correct parties to the insurance contract. The information may be furnished to FCIC contract agencies and contract loss adjusters, reinsured companies, other U.S. Department of Agriculture agencies, Internal Revenue Service, Department of Justice, other State and Federal law enforcement agencies, a court, in response to its orders of an administrative tribunal, or opposing counsel as evidence in the course of litigation.

Furnishing the Social Security Number is voluntary and no adverse action will result from failure to do so. Furnishing the information, other than the Social Security Number, is also voluntary; however, failure to furnish the correct, complete information requested other than the Social Security Number may result in rejection of the option for insuring apples and subsequent denial of any claim for indemnity which may be filed under such option or may substantially delay acceptance of the option for insuring apples and any subsequent claim for indemnity.

Done in Washington, D.C., on September 24, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25719 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

7 CFR Part 409

[Docket No. 0035A]

Arizona-California Citrus Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Arizona-California Citrus Crop Insurance Regulations (7 CFR Part 409), effective for the 1987 and succeeding crop years. The intended effect of this rule is to: (1) add as a cause of loss the unavoidable failure of irrigation water supply; (2) prescribe procedures for insuring Arizona-California citrus on an "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (3) add provisions for acreage in which there are no acceptable production records; (4) change the method of computing indemnities when acreage, share, or practice is underreported; and (5) add a definition of "Loss ratio". The authority for the promulgation of this rule is contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC, 20250, telephone (202) 447-3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512-1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is April 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, Federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the Federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the Arizona-California Citrus policy are:

1. Section 1.—Add the failure of irrigation water supply due to unavoidable cause as an insurable cause of loss.

2. Section 2.—Require inspection and an agreement in writing to insure a unit with no production records.

3. Section 5.—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis. Coverages will therefore reflect the actual production history of the crop on the unit. Insureds with good loss experience who are now receiving a premium discount are protected since they will retain any discount under the present schedule through the 1991 crop year or until their loss experience causes them to lose the advantage, whichever is earlier.

Remove the provisions for the transfer of insurance experience and for premium computation when participation has not been continuous. Deletion of the premium adjustment table eliminates the need for these provisions.

4. Section 9.—When acres are underreported, the production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the indemnities when acres are underreported and the complexity of calculations.

5. Section 15.—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

6. Section 17.—Add a definition for "Loss ratio" to clarify its use in Section 5.

On Friday, August 9, 1985, FCIC published a Notice of Proposed Rulemaking in the **Federal Register** at 50 FR 32214, to revise and reissue the Arizona-California Citrus Crop Insurance Regulations (7 CFR Part 409), effective for the 1987 and succeeding crop years. The public was given 30 days in which to submit written comments on the proposed rule.

No comments were received in direct response to the proposed rule. However,

on September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, DC., for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the proposal to restrict unit division by removing unit division guidelines from policies. Those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The proposal to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one Member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulations became effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requesting records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records of production after the close of harvest or marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The Arizona-California citrus program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objection to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under an GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is a not a viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the

establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed unit division change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but agrued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current standard insurance policy language defines "unit" as:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) which is owned by one entity and operated by another entity on a share basis. Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term. The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after Febraury 1, 1986. Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

With the exception of minor changes in language and format, the proposed rule, amended as outlined above, is hereby adopted.

List of Subjects in 7 CFR Part 409

Crop insurance, Arizona-California citrus.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Arizona-California Citrus Crop Insurance Regulations (7 CFR Part 409), effective for the 1987 and succeeding crop years, to read as follows:

PART 409—ARIZONA-CALIFORNIA CITRUS INSURANCE REGULATIONS

Subpart—Regulations for the 1987 and Succeeding Crop Years

Sec.

409.1 Availability of Arizona-California Citrus crop insurance.
409.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
409.3 OMB control numbers.
409.4 Creditors.
409.5 Good faith reliance on misrepresentation.
409.6 The contract.
409.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

Subpart—Regulations for the 1987 and Succeeding Crop Years

§ 409.1 Availability of Arizona-California Citrus crop insurance.

Insurance shall be offered under the provisions of this subpart on citrus in counties within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 409.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for Arizona-California citrus which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect an amount of insurance per acre from among those amounts shown on the actuarial table for the crop year.

§ 409.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 409.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 409.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the Arizona-California Citrus insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000.00 finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Requests for relief under this sectio must be submitted to the Corporation in writing.

§ 409.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the citrus crop as provided in the policy. The contract shall consist of the application, the policy, and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 409.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the citrus crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1987 and succeeding crop years, a contract in the form provided for under this subpart will come into effect as a continuation of a citrus insurance contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1987 and succeeding crop years is found at Subpart D of Part 400-General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Arizona-California Citrus Insurance Policy for the 1987 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Arizona—California Citrus Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We will provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Adverse weather conditions;

(2) Fire;

(3) Wildlife;

(4) Earthquake;

(5) Volcanic eruption;

(6) Failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches; or

(7) Direct Mediterranean Fruit Fly damage;

unless those causes are expected, excluded, or limited by the actuarial table or section 9f(7).

b. We will not insure against any loss of production due to:

(1) Fire, where weeds and other forms of undergrowth have not been controlled or tree pruning debris has not been removed from the grove;

(2) The neglect, mismanagement, or wrongdoing of you, any member of your household, your tenants, or employees;

(3) The failure to follow recognized good citrus grove practices;

(4) The failure or breakdown of irrigation equipment or facilities;

(5) The failure to follow good citrus irrigation practices;

(6) The impoundment of water by any governmental, public, or private dam or reservoir project; or

(7) Any cause not specified in section 1a as an insured loss;

2. Crop, acreage, and share insured.

a. The crop insured will be any of the following citrus types, which are grown on insured acreage and for which a guarantee and premium rate are provided by the actuarial table, which you elect:

Type I—Navel oranges;

Type II—Sweet oranges;
Type III—Valencia oranges;
Type IV—Grapefruit;
Type V—Lemons;
Type VI—Kinnow mandarins;
Type VII—Minneola tangelos; or
Type VIII—Orlando tangelos;

b. The acreage insured for each crop year will be that acreage of citrus located on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured citrus on the date insurance attaches.

d. We do not insure any acreage:

(1) Which is not irrigated;

(2) On which the trees have not reached the sixth growing season after being set out; and

(3) Which does not have acceptable records of production, unless inspected by us and considered acceptable and we agree, in writing, to insure such acreage.

e. Insurance will not attach or be considered to have attached to any acreage of the crop, for the crop year the application is filed until the acreage has been inspected and accepted by us.

f. Insurance may attach only by written agreement with us on any acreage with less than 90 percent of a stand, based on the original planting pattern.

g. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of acreage, share, number of trees, and practice.

You must report on our form:

a. All the acreage of citrus in the county in which you have a share;

b. The practice;

c. Your share on the date insurance attaches; and

d. The number of bearing trees.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any citrus grown in the county. This report must be submitted annually on or before December 10. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by December 10, we may elect to determine by unit the insured acreage, share, and practice or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. Coverage level 2 will apply if you do not elect a coverage level.

c. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

5. Annual premium.

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insurance acreage, times your share at the time insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

c. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1985 crop year under the terms of the experience table contained in the citrus policy in effect for the 1986 crop year, you will continue to receive the benefit of that reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1991 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1986 crop year;

(4) Once the loss ratio exceeds .80, no further premium reduction will apply; and

(5) Participation must be continuous.

6. Deductions for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you, or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance Period.

a. Insurance attaches on December 1 prior to the calendar year of normal bloom, and ends at the earliest of:

(1) Total destruction of the citrus;

(2) Harvest of the citrus;

(3) Final adjustment of a loss; or

(4) The date following the year in which the bloom is normally set as follows:

(a) August 31 for Navel oranges and Southern California lemons;

(b) November 30 for Valencia oranges; or

(c) July 31 for all other types of citrus.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us prompt written notice.

(a) After insured damage to the citrus becomes apparent, giving the dates and causes of such damage; or

(b) If you decide not to further care for or harvest any part of it.

(2) You must give us notice of probable loss at least 15 days before the beginning of harvest if you anticipate a loss on any unit.

(3) If probable loss is later determined, immediate notice must be given. If harvest will begin after the end of the insurance period, notice must be given on or before the calendar date for the end of the insurance period.

b. You must obtain written consent from us before you destroy any of the citrus which is not to be harvested.

c. We may reject any claim for indemnity if any of the requirements of this section or section 9 are not complied with.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the citrus on the unit;

(2) Harvest of the unit; or

(3) The calendar date for the end of the insurance period.

b. We will not pay any indemnity unless you:

(1) Establish the total production of citrus on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Subtracting therefrom the total production of citrus to be counted (see section 9f);

(3) Multiplying the remainder by the price election; and

(4) Multiplying this result by your share.

d. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

e. If a determination is made that frost protection equipment was not properly utilized or not properly reported, the indemnity for the unit will be reduced by the percentage of premium reduction allowed for frost protection equipment. You must, at our request, provide us records showing the start-stop times by date for each period the equipment was used.

f. The total production (cartons) to be counted for each unit will include all harvested production marketed as fresh packed fruit and all appraised production determined to be marketable as fresh packed fruit.

(1) Any production will be considered marketed or marketable as fresh packed fruit unless, due to insurable causes, such production was not marketed or marketable as fresh packed fruit.

(2) In the absence of acceptable records to determine the disposition of harvested citrus, we may determine such disposition and the amount of such production to be counted for the unit.

(3) Appraised production to be counted will include:

(a) Unharvested production, and potential production lost due to uninsured causes and failure to follow recognized good citrus grove practices;

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause or destroyed by you without our consent.

(4) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production is:

(a) Not harvested before harvest of the insured citrus type becomes general in the county and reappraised by us;

(b) Harvested; or

(c) Further damaged by an insured cause and reappraised by us.

(5) Citrus which cannot be marketed due to insurable causes will not be considered production.

(6) The amount of production of any unharvested citrus may be determined on the basis of field appraisals conducted after the end of the insurance period.

(7) If you elect to exclude hail and fire as insured causes of loss and the citrus is damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire."

g. You must not abandon any acreage to us.

h. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

i. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** semiannually on or about January 1 and July 1. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

j. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after the date insurance attaches for any crop year, any indemnity will be paid to the person determined to be beneficially entitled thereto.

k. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance.

For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to grove.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale, or other disposition of all citrus produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records apply, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the grove for purposes related to the contract.

15. Life of contract: cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to us, satisfactory production records for the prior crop year or the contract will be canceled for the next crop year; or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster. (If this subsection (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due:

(1) If deducted from an indemnity will be the date you sign the claim; or

(2) If deducted from payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are November 30.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 preceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of Arizona-California citrus crop insurance:

a. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding citrus insurance in the county.

b. "Carton" as to each insured citrus type means the standard container for marketing fresh packed fruit as shown below by citrus type. In the absence of marketing records on such a carton basis, production will be converted to cartons on the basis of the following average net pounds of packed fruit in a standard packed carton.

Container size	Types of fruit	Pounds
Container #58	Navel oranges, Valencia oranges & Sweet oranges.	38
Container #58	Lemons	40
Container #59	Grapefruit	32
Container #63	Tangerines (including Tangelos) and Mandarin oranges.	25

c. "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will be considered contiguous.

d. "County" means the county shown on the application and any additional land located in a local producing area bordering

on the county as shown by the actuarial table.

e. "Crop year" means the period beginning with the date insurance attaches to the citrus crop and extending through normal harvest time, and will be designated by the calendar year following the year in which the bloom is normally set.

f. "Direct Mediterranean Fruit Fly damage" means the actual physical damage to the citrus on the unit which causes such citrus to be unmarketable and will not include unmarketability of such citrus as a direct result of a quarantine, boycott, or refusal to accept the citrus by any entity without regard to actual physical damage to such citrus.

g. "Harvest" means the severance of mature citrus from the tree either by pulling, picking, or severing by mechanical or chemical means, or picking up the marketable fruit from the ground.

h. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

i. "Insured" means the person who submitted the application accepted by us.

j. "Loss ratio" means the ratio of indemnity to premium.

k."Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

l. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

m. "Tenant" means a person who rents land from another person for a share of the citrus or a share of the proceeds therefrom.

n. "Unit" means all insurable acreage in the county of any one of the citrus types referred to in section 2 of this policy, located on contiguous land on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the citrus on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, DC on September 10, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25722 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

---

7 CFR Part 411

[Docket No. 2725S]

Grape Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Grape Crop Insurance Regulations (7 CFR Part 411), effective for the 1986 and succeeding crop years. The intended effect of this rule is to: (1) Change a mandatory "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (2) change the method of computing indemnities when acreage, share or practice is underreported; (3) shorten the length of time an insured has to give notice when claiming an indemnity; (4) add an explanation for calculating dollar amount of insurance and production on units with both varieties; (5) lengthen the time an insured has to given notice of loss from 48 hours to 72 hours; and (6) add a definition of "Loss ratio." This rule is promulgated under the authority contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447-3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512-1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is April 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action: (1) Is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, Federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the grape policy are:

1. Section 5.—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis. Coverages will, therefore, reflect the actual production history of the crop on the unit. Insureds with good loss experience who are now receiving a premium discount are protected since they will retain any discount under the present schedule through the 1990 crop year, or until their loss experience causes them to lose the advantage, whichever is earlier.

Remove the provisions for the transfer of insurance experience and for premium computation when insurance has not been continuous. Deletion of the

Premium Adjustment Table eliminates the need for these provisions.

2. Section 8.—Lengthen from 48 hours to 72 hours the time the insured has to give notice of loss.

Shorten from 30 days to 10 days the time an insured has to give notice of loss when claiming an indemnity. This change will allow FCIC to determine indemnities in a more timely fashion.

3. Section 9.c—Change the method of calculating an indemnity by referring to price selection. This change is necessary to differentiate between Group A and Group B.

Add a section to explain the method of calculating the dollar amount of insurance and dollar amount of production on units with both Group A and B varieties.

Change the method of computing the indemnity when acres are underreported. The production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the indemnities when acres are underreported and reduce the complexity of calculations.

4. Section 15.c.—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

5. Section 17.—Add a definition for the term "Loss ratio."

On Thursday, August 8, 1985, FCIC published a notice of proposed rulemaking in the **Federal Register** at 50 FR 32078, proposing to revise and reissue the Grape Crop Insurance Regulations (7 CFR Part 411), effective for the 1986 and succeeding crop years. The public was given 30 days in which to submit written comments on the proposed rule.

A number of comments were received contending that Group A and Group B grapes should not be combined into one unit. The grape policy provides for separate units when grapes are located on non-contiguous land or when applicable guidelines apply.

The grape policy provides protection on a unit which is the vineyard. These changes were made to be consistent with other perennial crop policy provisions and to reduce potential adverse selection on units smaller than a vineyard. The insured causes of damage and cultural practice required to produce the crop are the same for both groups. Therefore, the Corporation feels that adequate protection will be obtained for grapes with units as proposed. FCIC proposes to monitor this change in the future, but is not now adopting the suggestion.

On September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, D.C., for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the proposal to restrict unit division by removing unit division guidelines from policies. No comments were received in direct response to this proposed rule. However, those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulations become effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates.

Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records of production after the close of harvest

or marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The grape program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expactations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regraded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under a GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not a viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed unit division change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection.

Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current standard insurance policy language defines "unit" as:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) in which you have a 100 percent share; or

(2) which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when varifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term.

The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay

and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986. Interested parties are requested to offer input or comments to the Board.

Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

Therefore, with the exception of minor changes in language and format, the proposed rule, amended as outlined above, is hereby adopted.

List of Subjects in 7 CFR Part 411

Crop insurance, Grapes.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Grape Crop Insurance Regulations (7 CFR Part 411), effective for the 1986 and succeeding crop years, to read as follows:

PART 411—GRAPE CROP INSURANCE REGULATIONS

Subpart—Regulations for the 1986 and Succeeding Crop Years

Sec.

411.1 Availability of grape crop insurance.
411.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
411.3 OMB control numbers.
411.4 Creditors.
411.5 Good faith reliance on misrepresentation.
411.6 The contract.
411.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

Subpart—Regulations for the 1986 and Succeeding Crop Years

§ 411.1 Availability of grape crop insurance.

Insurance shall be offered under the provisions of this subpart on grapes in counties within the limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 411.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for grapes which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect a coverage level and price at which indemnities will be computed from among those levels and prices contained in the actuarial table for the crop year.

§ 411.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 411.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 411.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the grape insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000.00, finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Requests for relief under this section must be submitted to the Corporation in writing.

§ 411.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the grape crop as provided in the policy. The contract shall consist of the application, the policy, and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 411.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the grape crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1986 and succeeding crop years, a contract in the form provided for in this subpart will come into effect as a continuation of a grape contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1986 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Grape Insurance Policy for the 1986 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Grape Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

Agreement to insure: We will provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of Loss

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Adverse weather conditions;

(2) Fire;

(3) Wildlife;

(4) Earthquake;

(5) Volcanic eruption;

(6) Direct Mediterranean Fruit Fly damage; or

(7) If applicable, failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches; unless those causes are excepted, excluded, or limited by the actuarial table or section 9f(6).

b. We will not insure against any loss of production due to:

(1) The neglect, mismanagement, or wrongdoing of you, any member of your household, your tenants, or employees;

(2) The failure to follow recognized good grape management practices;

(3) The failure or breakdown of irrigation equipment or facilities;

(4) The failure to follow recognized good grape irrigation practices;

(5) The impoundment of water by any governmental, public, or private dam or reservoir project; or

(6) Any cause not specified in section 1a as an insured loss.

2. Crop, Acreage, and Share Insured

a. The crop insured will be any insurable variety of grapes which are grown for wine, juice, raisins, or canning, on insured acreage, and for which a guarantee and premium rate are provided by the actuarial table.

b. The acreage insured for each crop year will be grapes grown on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever, we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured grapes at the time insurance attaches.

d. We do not insure any acreage:

(1) On which the vines, after being set out, have not reached the number of growing seasons designated by the actuarial table;

(2) Which has not produced an average of 2 tons of grapes per acre; or

(3) With less than 90 percent of a stand of bearing vines based on the original planting, unless inspected by us and we agree, in writing, to insure such acreage (the actuarial table may provide exceptions to this clause).

e. If insurance is provided for an irrigated practice you must report as irrigated only the acreage for which you have adequate facilities and water, at the time insurance attaches, to carry out a good grape irrigation practice.

f. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of Acreage, Share, and Practice

You must report on our form:

a. All the acreage or grapes in the county in which you have a share;

b. The practice;

c. Your share on the date insurance attaches; and

d. The number of bearing vines (if less than 90 percent of a stand based on the original planting pattern).

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any grapes grown in the county. This report must be submitted annually on or before the reporting date established by the actuarial table. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by the reporting date, we may elect to determine by unit the insured acreage, share, and practice or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production Guarantees, Coverage Levels, and Prices for Computing Indemnities

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. Coverage level 2 will apply if you do not elect a coverage level.

c. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

5. Annual Premium

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share on the date insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

c. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1984 crop year under the terms of the experience table contained in the grape policy in effect for the 1985 crop year, you will continue to receive the benefit of that reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1990 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1985 crop year;

(4) Once the loss ratio exceeds .80, no further premium reduction will apply; and

(5) Participation must be continuous.

6. Deductions for Debt

Any unpaid amount due us may be deducted from any indemnity payable to you, or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance Period

a. Insurance attaches each crop year on:

(1) February 1 in California;

(2) November 21 in Washington; and

(3) December 11 in all other states.

b. Insurance ends at the earliest of:

(1) Total destruction of the grapes on the unit;

(2) The date harvest should have started on the unit on any acreage which is not harvested;

(3) Harvest;

(4) Final adjustment of a loss; or

(5) December 10 (November 10 in Washington and California) of the calendar year in which the grapes are normally harvested.

c. In Indiana, Michigan, Missouri, New York, Pennsylvania, and Ohio, if you purchase any insurable acreage on or before January 5 of any crop year and if we inspect, consider acceptable, and agree in writing, to insure such acreage, insurance will be considered to have attached to such acreage on the preceding December 11. If you sell any acreage of grapes on or before January 5 of any crop year, insurance will not be considered to have attached to such acreage for that crop year.

8. Notice of Damage or Loss

a. In case of damage or probable loss:

(1) You must give us written notice if during the period before harvest, the grapes on any unit are damaged and you decide not to further care for or harvest any part of them.

(2) You must give us notice:

(a) At least 15 days before the beginning of harvest if you anticipate a loss on any unit; or

(b) Immediately, if damage occurs within 15 days prior to harvest or during harvest.

(3) If you are going to claim an indemnity on any unit, you must give us notice not later than 72 hours:

(a) After total destruction of the grapes on the unit;

(b) After discontinuance of harvest on the unit; or

(c) Before harvest would normally start if any acreage on the unit is not to be harvested.

(4) Unless notice has been given under subsection (3) above, and in addition to the other notices required by this section, if you are going to claim an indemnity on any unit, you must give us notice not later than 10 days after the earlier of:

(a) Harvest of the unit; or

(b) The calendar date for the end of the insurance period.

b. You must obtain written consent from us before you destroy any of the grapes which are not to be harvested.

c. We may reject any claim for indemnity of any of the requirements of this section or section 9 are not complied with.

9. Claim for Indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the grapes on the unit;

(2) Harvest of the unit; or

(3) The calendar date for the end of the insurance period.

b. We will not pay any indemnity unless you:

(1) Establish the total production of grapes, Group A or Group B grapes, as defined in the actuarial table, on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Multiplying this product by the price election;

(3) Subtracting the dollar amount obtained by multiplying the total production to be counted (see section 9f) by the price election; and

(4) Multiplying this result by your share.

d. If a unit contains acreage to which both Group A and Group B grape guarantees apply, the dollar amount of insurance and the dollar amount of production to be counted will be determined separately for each group and then added together to determine the total amount for the unit.

e. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

f. The total production (tons) to be counted for a unit will include all harvest and appraised production:

(1) Grape production which, due to insurable causes, does not meet the minimum sugar solids and quality requirements of the receiving processor and has a value of less than 75 percent of the market price for grapes meeting the minimum requirements, or would not meet these requirements if properly handled, will be adjusted by:

(a) Dividing the value per ton of the applicable group of grapes by the highest price election available for such grapes; and

(b) Multiplying the result (not to exceed 1) by the number of tons of such grapes.

(2) Appraised production to be counted will include:

(a) Unharvested production on harvested acreage and potential production lost due to uninsured causes and failure to follow recognized good grape management practices;

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause, or destroyed by you without our consent; and

(c) Any appraised production on unharvested acreage.

(3) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production is:

(a) Not harvested before the harvest of grapes becomes general in the county and reappraised by us;

(b) Harvested; or

(c) Further damaged by an insured cause and reappraised by us.

(4) If any grapes are harvested before normal maturity, the production of such grapes will be increased by the factor obtained by dividing the price per ton received for such grapes by the price per ton for fully matured grapes.

(5) The amount of production of any unharvested grapes may be determined on the basis on field appraisals conducted after discontinuance of harvest or the end of the insurance period.

(6) If you elect to exclude hail and fire as insured causes of loss and the grapes are damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire."

g. You must not abandon any acreage to us.

h. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

i. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** semiannually on or about January 1 and July 1. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

j. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the person(s) determined to be beneficially entitled thereto.

k. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance.

For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or Fraud

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of Right to Indemnity on Insured Share

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of Indemnity

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. This assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of Loss From a Third Party)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will paid to you.

14. Records and Access to Farm

You must keep, for two years after the time of loss, records of the harvesting, storage,

shipment, sale, or other disposition of all grapes produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records applied, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the farm for purposes related to the contract.

15. Life of Contract: Cancellation and Termination

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to us satisfactory production records for the crop year or the contract will be cancelled for the next crop year, or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster, (If this subsection (2) applies, the Field Actuarial Office may assign a yield for which the records are available).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due if deducted from:

(1) An indemnity will be the date you sign the claim; or

(2) Payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are:

State	Cancellation and termination dates
California	January 31.
Washington	November 20.
All other states	December 10.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract Changes

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 preceding the cancellation date for counties with a November 20 or December 10 cancellation date, and by October 31 preceding the cancellation date for all other counties. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of Terms

For the purposes of grape crop insurance:

a. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding grape insurance in the county.

b. "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will be considered contiguous.

c. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county as shown by the actuarial table.

d. "Crop year" means the period beginning with the date insurance attaches and extending through normal harvest time and will be designated by the calendar year in which the grapes are normally harvested.

e. "Harvest" means picking the grapes from the vines.

f. "Direct Mediterranean Fruit Fly damage" means the actual physical damage to the grapes on the unit which causes such grapes to be unmarketable and will not include unmarketability of such grapes as a direct result of a quarantine, boycott, or refusal to accept the grapes by any entity without regard to actual physical damage to such grapes.

g. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

h. "Insured" means the person who submitted the application accepted by us.

i. "Loss ratio" means the ratio of indemnity to premium.

j. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

k. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

l. "Tenant" means a person who rents land from another person for a share of the grapes or a share of the proceeds therefrom.

m. "Ton" means 2,000 pounds.

n. "Unit" means all insurable acreage of grapes in the county, located on contiguous land, on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the grapes on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive Headings

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, D.C., on October 23, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25724 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

7 CFR Part 413

[Docket No. 2728S]

Texas Citrus Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Texas Citrus Crop Insurance Regulations (7 CFR Part 413),

effective for the 1987 and succeeding crop years. The intended effect of this rule is to: (1) Specify and restrict the perils insured against; (2) modify procedures for obtaining insurance in certain instances of low production history; (3) specify the crop year insurance first attaches when there are no acceptable production records; (4) add provisions for insurance on newly acquired acreage; (5) add stage guarantees; (6) change the method of computing indemnities when acreage, share or practice is underreported; (7) prescribe procedures for insuring Texas citrus on an "Actual Production History" (APH) basis; (8) remove the Premium Adjustment Table and provide for cancellation for not furnishing records; and (9) add definitions of "Loss ratio," "Cyclone", "Freeze", "Frost", "Hedged," and "Topped." This rule is promulgated under the authority of the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512–1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is April 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the Texas Citrus policy are:

1. *Section 1*—Adverse weather conditions were removed from the policy as a cause of loss because it is impossible to differentiate between uninsurable and insurable causes of loss in cases such as limb rub damage to the fruit and other causes. Such damage could be caused by adverse weather conditions, normal growing conditions, or grove management practices. In order to insure that proper loss determinations can be made, the perils insured against are named in the policy.

2. *Section 2*—Clarify procedures for an insurance offer at a given production guarantee, after inspection, on production potential of less than 3 tons per acre. This change will allow us to offer insurance to the grower to insure the production potential after a crop year in which substantial damage occurs. Require inspection and a written agreement to insure a unit with no production records or a newly acquired acreage.

3. *Section 4*—Provide stage guarantees to limit the liability during a period when insurance attaches on two crop years at the same time.

4. *Section 5*—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis. Coverages will therefore reflect the actual production history of the crop on the unit.

Remove the provisions for the transfer of insurance experience and for premium computation when participation has not been continuous. Deletion of the premium adjustment table eliminates the need for these provisions.

5. *Section 9*—When acres are underreported, the production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the complexity of calculations.

6. *Section 15*—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH. Clarify when insurance attaches.

7. *Section 17*—Add definitions for "Cyclone", "Freeze", "Frost", "Hedged", "Loss ratio", and "Topped" for further clarification.

On Friday, August 9, 1985, FCIC published a notice of proposed rulemaking in the **Federal Register** at 50 FR 32218, revising and reissuing the Texas Citrus Crop Insurance Regulations (7 CFR Part 413), effective for the 1987 crop year. The public was given 30 days in which to submit comments on the proposed rule.

Two comments were received which contend that FCIC's definition of "cyclone" fails to provide adequate protection to citrus growers for damage sustained by winds having a velocity of less than hurricane force (75 mph) winds. The commentators suggested that a definition be provided which would allow for severe winds of less than hurricane force, but which are sufficiently strong enough to damage citrus trees and fruit. The suggestions cited wind speeds of 39 mph and 58 mph.

FCIC considered this suggestion and agreed to establish a minimum sustained wind speed in excess of 58 mph.

The identification of the cyclone by the U.S. Weather Service is key to the nature and strength of the wind. FCIC has modified its definition to read "Cyclone" means a severe storm, identified by the U.S. Weather Bureau, which has sustained (or gusting) winds in excess of 58 mph.

On September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, D.C., for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the determination to restrict unit division by removing unit division guidelines from policies. No comments were received in direct response to the proposed rule. However, those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee, or the premium rates. It requires the insured producer to submit annual records of insured

production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulations became effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records of production after the close of harvest or marketing season is rejected.

The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The Texas citrus program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under an GYC-APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not a viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is relatively easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted

acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current Standard insurance policy language defines "unit" as:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term.

The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live.

Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986. Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

Changes in the Texas Citrus Crop Insurance Policy must be on file in the service office for the county by October 31, 1985. Therefore, good cause is shown for making this rule effective in less than 30 days from the date of publication in the **Federal Register.** With exception of minor changes in language and format, the proposed rule amended as outlined above, is hereby adopted.

List of Subjects in 7 CFR Part 413

Crop insurance, Texas citrus.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Texas Citrus Crop Insurance Regulations (7 CFR Part 413), effective for the 1987 and succeeding crop years, to read as follows:

PART 413—TEXAS CITRUS INSURANCE REGULATIONS

Subpart—Regulations for the 1987 and Succeeding Crop Years

Sec.

413.1 Availability of Texas citrus crop insurance.
413.2 Premium rates and amounts of insurance.
413.3 OMB control numbers.
413.4 Creditors.
413.5 Good faith reliance on misrepresentation.
413.6 The contract.
413.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516)

Subpart—Regulations for the 1987 and Succeeding Crop Years

§ 413.1 Availability of Texas citrus crop insurance.

Insurance shall be offered under the provisions of this subpart on citrus in counties within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 413.2 Premium rates and amounts of insurance.

(a) The Manager shall establish premium rates and amounts of insurance for citrus which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect an amount of insurance per acre from among those amounts contained in the actuarial table for the crop year.

§ 413.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 413.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 413.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the Texas Citrus insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000, finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Requests for relief under this section must be submitted to the Corporation in writing.

§ 413.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the citrus corp as provided in the policy. The contract shall consist of the application, the policy, and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 413.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the citrus crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1987 and succeeding crop years, a contract in the form provided for under this subpart will come into effect as a continuation of a citrus insurance contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1987 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Texas Citrus Crop Insurance Policy for the 1987 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Texas Citrus Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We will provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Freeze;
(2) Frost;
(3) Excess moisture;
(4) Hail;
(5) Fire;
(6) Tornado;
(7) Cyclone;
(8) Wildlife;
(9) Failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches; or
(8) Direct Mediterranean Fruit Fly damage;

unless those causes are excepted, excluded, or limited by the actuarial table or section 9e(9).

b. We will not insure against any loss of production due to:

(1) Fire, where weeds and other forms of undergrowth have not been controlled or tree pruning debris has not been removed from the grove;
(2) The neglect, mismanagement, or wrongdoing of you, any member of your household, your tenants, or employees;
(3) The failure to follow recognized good citrus grove practices;
(4) The impoundment of water by any governmental, public, or private dam or reservior project;
(5) The failure or breakdown of irrigation equipment or facilities;
(6) The failure to carry out a good citrus irrigation practice; or
(7) Any cause not specified in section 1a as an insured loss.

2. Crop, acreage, and share insured.

a. The crop insured will be any of the following citrus types which are grown on insured acreage and for which a guarantee and premium rate are provided by the actuarial table which you elect:

Type I—Early and midseason oranges;
Type II—Late oranges (including Temples);
Type III—Grapefruit, except the Star Ruby and Ruby Red varieties;
Type IV—Star Ruby variety of grapefruit; or
Type V—Ruby Red variety of grapefruit.

b. The acreage insured for each crop year will be that acreage of citrus located on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured citrus on the date insurance attaches.

d. We do not insure any acreage:

(1) Which is not irrigated;

(2) Which has not produced an average of 3 tons of oranges or grapefruit per acre the previous year unless the acreage is inspected by us and we agree, in writing, to the amount of insurance coverage; or

(3) If the practices carried out are not in accordance with the practices for which the premium rates have been established.

e. Insurance will not attach until any acreage has been inspected and accepted by us:

(1) For the crop year the application is filed;

(2) Acquired for the crop year; or

(3) Without acceptable production records.

f. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of acreage, share, number of trees, and practice.

You must report on our form:

a. All the acreage of citrus in the county in which you have a share ;

b. The practice;

c. Your share on the date insurance attaches;

d. The number of bearing trees; and

e. The number of trees topped, hedged, or pruned.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any citrus grown in the county. This report must be submitted annually on or before June 30. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by June 30, we may elect to determine by unit the insured acreage, share, and practice or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. The production guarantee contained in the actuarial table is the second stage guarantee. The first stage guarantee is 25 percent of the second stage guarantee. The stages are:

(1) First stage applies from the date insurance attaches until April 1 of the following calendar year of normal bloom (Our liability will be limited to the first stage guarantee if the fruit was damaged during this period to the extent that growers in the area generally would not further care for the crop); and

(2) Second stage applies from April 1 of the calendar year of normal bloom through the end of the insurance period.

c. Coverage level 2 will apply if you do not elect a coverage level.

d. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

. Annual premium.

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share at the time insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

6. Deductions for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance period.

a. Insurance attaches on December 1 prior to the calendar year of normal bloom, except that:

(1) For the crop year following a crop year in which substantial damage occurred, insurance will not attach until the acreage is inspected and accepted by us and you agree, in writing, to the production guarantee determined for that crop year;

(2) For the initial crop year, if we accept your application for citrus insurance after December 1, insurance will attach on the twentieth day after you sign the application; and

(3) If additional acreage is acquired after the acreage reporting date, insurance will not attach until the acreage is inspected and accepted by us.

b. Insurance ends at the earliest of:

(1) Total destruction of the citrus;

(2) Harvest;

(3) Final adjustment of a loss; or

(4) May 31 of the calendar year following the normal year of bloom.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us written notice promptly:

(a) After insured damage to the citrus becomes apparent, giving the dates and causes of such damage; or

(b) If you decide not to further care for or harvest any part of the citrus on the unit.

(2) You must give us notice of probable loss at least 15 days before the beginning of harvest if you anticipate a loss on any unit.

(3) If probable loss is later determined, immediate notice must be given. If harvest will begin after the end of the insurance period, notice must be given on or before the calendar date for the end of the insurance period (see section 7b(4)).

b. You must obtain written consent from us before you destroy any of the citrus which is not to be harvested.

c. We may reject any claim for indemnity if any of the requirements of this section or section 9 are not complied with.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the citrus on the unit;

(2) Harvest of the unit; or

(3) The calendar date for the end of the insurance period (see section 7b(4)).

b. We will not pay any indemnity unless you:

(1) Establish the total production of citrus on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Subtracting therefrom the total production of citrus to be counted (see section 9e);

(3) Multiplying the remainder by the price election; and

(4) Multiplying this result by your share.

d. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

e. The total production to be counted for a unit will include all harvested and appraised production.

(1) Any citrus production which is not marketed as fresh fruit and due to insurable causes does not contain 120 or more gallons of juice per ton, will be adjusted by:

(a) Dividing the gallons of juice per ton obtained from the damaged citrus by 120; and

(b) Multiplying the result by the number of tons of such citrus. If individual records of juice content are not available, an average juice content will be used.

(2) Where the actuarial table provides for and you elect the fresh fruit option, citrus production which is not marketable as fresh fruit due to insurable causes will be adjusted by:

(a) Dividing the value per ton of the damaged citrus by the price of undamaged citrus; and

(b) Multiplying the results by the number of tons of such citrus. The applicable price for undamaged citrus will be the local market price the week before damage occurred, or the contract price if the contract was entered into between the producer and buyer before damage occurred.

(3) Any production will be considered marketed or marketable as fresh fruit unless due to insurable causes, such production was not marketed as fresh fruit.

(4) In the absence of acceptable records to determine the disposition of harvested citrus, we may elect to determine such disposition and the amount of such production to be counted for the unit.

(5) Any citrus on the ground which is not picked up and marketed will be considered lost if the damage was due to an insured cause.

(6) Appraised production to be counted will include:

(a) Unharvested production, and potential production lost due to uninsured causes and failure to follow recognized good citrus grove practices; and

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause or destroyed by you without our consent.

(7) Any appraisal we have made on insured acreage will be considered production to count unless the appraised production is:

(a) Not harvested before the harvest of the insured citrus type becomes general in the county and reappraised by us;

(b) Harvested; or

(c) Further damaged by an insured cause and reappraised by us.

(8) The amount of production of any unharvested citrus may be determined on the basis of field appraisals conducted after the end of the insurance period.

(9) If you elect to exclude hail and fire as insured causes of loss and the citrus is damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire."

f. You must not abandon any acreage to us.

g. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

h. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** semiannually on or about January 1 and July 1. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

i. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after the date insurance attaches for any crop year, any indemnity will be paid to the persons determined to be beneficially entitled thereto.

j. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance.

For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to grove.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale, or other disposition of all citrus produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records apply, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the grove for purposes related to the contract.

15. Life of contract: Cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to the Corporation satisfactory production records for the prior crop year or the contract will be cancelled for the next crop year; or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster. (If this subsection (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on/or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due if deducted from:

(1) An indemnity will be the date you sign the claim; or

(2) Payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are November 30 prior to the date insurance attaches.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof.

Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 proceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of Texas citrus crop insurance:

a. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding citrus insurance in the county.

b. "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will be considered contiguous.

c. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county as shown by the actuarial table.

d. "Crop year" means the period beginning with the date insurance attaches to the citrus crop and extending through normal harvest time, and will be designated by the calendar

year following the year in which the bloom is normally set.

e. "Cyclone" means only a large-scale, atmospheric wind-and-pressue system characterized by low pressure at its center and counterclockwise circular wind motion which has been named by the United States Weather Bureau and which has sustained winds in excess of 58 miles per hour at the nearest U.S. Weather Service reporting station to the crop damage at the time of the crop damage.

f. "Direct Mediterranean Fruit Fly damage" means the actual physical damage to the citrus on the unit causes such citrus to be unmarketable and will not include unmarketability of such citrus as a direct result of a quarantine, boycott, or refusal to accept the citrus by any entity without regard to actual physical damage to such citrus.

g. "Freeze" means the condition that exists when air temperatures over a widespread area remain at or below 32 degrees Fahrenheit.

h. "Frost" means the condition that exists when the air temperature around the plant falls to 32 degrees Fahrenheit or below.

i. "Harvest" means the severance of mature citrus from the tree either by pulling, picking, or by mechanical or chemical means, or picking up the marketable fruit from the ground.

j. "Hedged" means to cut back the side branches for better or more fruitful growth.

k. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

l. "Insured" means the person who submitted the application accepted by us.

m. "Loss ratio" means the ratio of indemnity to premium.

n. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

o. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

p. "Tenant" means a person who rents land from another person for a share of the citrus or a share of the proceeds therefrom.

q. "Topped" means to cut back the upper branches for better or more fruitful growth.

r. "Unit" means all insurable acreage in the county of any one of the citrus types referred to in section 2 of this policy, located on contiguous land on the date insurance attaches for the crop year:

(1) in which you have a 100 percent share; or

(2) which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the citrus on such land will be considered as owned by the lessee.

Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determination, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, D.C. on October 22, 1985.

Edwards Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25720 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

---

7 CFR Part 439

[Docket No. 2730S]

Almond Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Almond Crop Insurance Regulations (7 CFR Part 439), effective for the 1986 and succeeding crop years. The intended effect of this rule is to: (1) Add as a cause of loss the unavoidable failure of irrigation water supply after insurance attaches; (2) change to a mandatory "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (3) change the method of computing indemnities when acreage, share, or practice is underreported; (4) change the cancellation and termination dates; (5) add a definition of "Loss ratio" and (6) amend the definition for "Total meat pounds". This rule is promulgated under the authority contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC 20250, telephone (202) 447-3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512-1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is May 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the almond policy are:

1. Section 1.a.(7)—Add the failure of the irrigation water supply because of unavoidable cause as an insurable cause of loss. This clarifies intent since it is implied in Section 2.d.(1).

2. Section 5.—Remove the Premium Adjustment Table. The crop will be insured on an actual production history

(APH) basis. Coverages will, therefore, reflect the actual production history of the crop on the unit. Insureds with good loss experience who are now receiving a premium discount are protected since they will retain any discount under the present schedule through the 1990 crop year or until their loss experience causes them to lose the advantage, whichever is earlier.

Remove the provisions for the transfer of insurance experience and for premium computation when insurance has not been continuous. Deletion of the Premium Adjustment Table eliminates the need for these provisions.

3. Section 9.d.—When acres are underreported, the production from all acres will be applied against the reported acres in calculating indemnities. This change will reduce the indemnities when acres are underreported and will reduce the complexity of calculations.

4. Section 15.c.—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

5. Section 15e.—Change the cancellation and termination dates to December 31. This change is made to coincide with the sales closing date.

6. Section 17.m.—Redefine "Total meat pounds."

7. Section 17.i.—Add a definition for the term "Loss Ratio" to clarify its use in Section 5.

On Friday, August 9, 1985, FCIC published a notice of proposed rulemaking in the **Federal Register** at 50 FR 32223, to revise and reissue the Almond Crop Insurance Regulations (7 CFR Part 439), effective for the 1986 and succeeding crop years. The public was given 30 days in which to submit written comments on the proposed rule. No comments were received in direct response to this proposed rule. However, on September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, DC, for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the proposal to restrict unit division by removing unit division guidelines from policies. Those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulations became effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furnishing annual records of production after the close of harvest or marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The almond program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records are available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a

lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under an GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not a viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is easier for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed unit division change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit definition issue on several occasions over the past three years.

The current standard insurance policy language defines "unit" as:

"Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such a basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term. The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986. Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit

division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

Therefore, with the exception of minor changes in language and format, the proposed rule, amended as outlined above, is hereby adopted as a final rule.

List of Subjects in 7 CFR Part 439

Crop insurance, Almonds.

Final rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Almond Crop Insurance Regulations (7 CFR Part 439), effective for the 1986 and succeeding crop years, to read as follows:

PART 439—ALMOND CROP INSURANCE REGULATIONS

Subpart—Regulations for the 1986 and Succeeding Crop Years

Sec.

439.1 Availability of almond crop insurance.
439.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
439.3 OMB control numbers.
439.4 Creditors.
439.5 Good faith reliance on misrepresentation.
439.6 The contract.
439.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

§ 439.1 Availability of Almond crop insurance.

Insurance shall be offered under the provisions of this subpart on almonds in counties within the limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 439.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for almonds which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect a coverage level and price at which indemnities will be computed from among those levels and prices contained in the actuarial table for the crop year.

§ 439.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 439.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 439.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the Almond insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action of advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000.00, finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Applications for relief under this section must be submitted to the Corporation in writing.

§ 439.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the almond crop as provided in the policy. The contract shall consist of the application, the policy and the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 439.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the almond crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1986 and succeeding crop years, a contract in the form provided for in this subpart will come into effect as a continuation of an almond contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1986 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR § 400.37, § 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Almond Insurance Policy for the 1986 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Almond Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We will provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted

Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Adverse weather conditions;

(2) Fire;

(3) Wildlife;

(4) Earthquake;

(5) Volcanic eruption;

(6) Direct Mediterranean Fruit Fly damage; or

(7) Failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches;

unless those causes are excepted, excluded, or limited by the actuarial table or section 9e(4).

b. We will not insure against any loss of production due to:

(1) The neglect, mismanagement or wrongdoing of you, any member of your household, your tenants, or employees;

(2) The failure to follow recognized good almond farming practices;

(3) The impoundment of water by any governmental, public, or private dam or reservoir project;

(4) The failure to carry out a good almond irrigation practice;

(5) The failure or breakdown of irrigation equipment or facilities; or

(6) Any cause not specified in section la as an insured loss.

2. Crop, acreage, and share insured.

a. The crop insured will be almonds which are grown on insured acreage and for which a guarantee and premium rate are provided by the actuarial table.

b. The acreage insured for each crop year will be almonds grown on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured almonds at the time insurance attaches.

d. We do not insure any acreage:

(1) Which is not irrigated; or

(2) On which the trees have not reached the seventh growing season after being set out unless we agree in writing to insure such acreage.

e. Insurance may attach only by written agreement with us on any acreage with less than 90 percent of a stand, based on the original planting pattern.

f. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of acreage, share, and practice.

You must report on our form:

a. All the acreage of almonds in the county in which you have a share;

b. The practice; and

c. Your share at the time insurance attaches.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any almonds grown in the county. This report must be submitted annually on or before December 31. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by the reporting date, we may elect to determine by unit the insured acreage, share, and practice or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. Coverage level 2 will apply if you do not elect a coverage level.

c. You may change the coverage level and price election on or before the closing date for submitting application for the crop year as established by the actuarial table.

5. Annual Premium.

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share on the date insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

c. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1984 crop year under the terms of the experience table contained in the almond policy in effect for the 1985 crop year, you will continue to receive the benefit of that reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1990 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1985 crop year;

(4) Once the loss ratio exceeds. 80, no further premium reduction will apply; and

(5) Participation must be continuous.

6. Deduction for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance period.

Insurance attaches for each crop year on December 11 and ends at the earliest of:

a. Total destruction of the almonds;

b. Harvest of the almonds;

c. Final adjustment of a loss; or

d. November 30.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us written notice if during the period before harvest, the almonds on any unit are damaged and you decide not to further care for or harvest any part of them.

(2) You must give us notice at least 15 days before the beginning of harvest if you anticipate a loss on any unit.

(3) If probable loss is later determined or if damage occurs during harvest, immediate notice must be given.

(4) In addition to the notices required by this section, if you are going to claim an indemnity on any unit, we must be given notice not later than 10 days after the earliest of:

(a) Total destruction of the almonds on the unit;

(b) Harvest of the unit; or

(c) November 30.

b. You must obtain written consent from us before you destroy any of the almonds which are not to be harvested.

c. We may reject any claim for indemnity if you fail to comply with any of the requirements of this section or section 9.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the almonds on the unit;

(2) Harvest of the unit; or

(3) November 30.

b. We will not pay any indemnity unless you:

(1) Establish the total production of almonds on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance periods; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Substracting therefrom the total production of almonds to be counted (see section 9e);

(3) Multiplying the remainder by the price election; and

(4) Multiplying this product by your share.

d. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported, but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

e. The total production (meat pounds) to be counted for a unit will include all harvested and appraised production

(1) Appraised production to be counted will include:

(a) Unharvested production on harvested acreage and potential production lost due to uninsured causes and failure to follow recognized good almond farming practices;

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause or destroyed by you without our consent; and

(c) Any appraised production on unharvested acreage.

(2) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production:

(a) Is marketed; or

(b) Is further damaged by an insured cause and reappraised by us.

(3) Almonds which cannot be marketed due to insurable causes will not be considered production.

(4) If you elect to exclude hail and fire as insured causes of loss and the almonds are damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire".

f. You must not abandon any acreage to us.

g. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

h. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** semiannually on or about January 1 and July 1. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

i. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the persons determined to be beneficially entitled thereto.

j. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance from this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance. For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year, only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to farm.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all almonds produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records apply, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the farm for purposes related to the contract.

15. Life of contract: cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to the Corporation, satisfactory production records for the previous crop year or the contract will be cancelled for the subsequent crop year; or

(2) Show to our satisfaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster, (If this subsection (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due:

(1) If deducted from an indemnity claim will be the date you sign the claim; or

(2) If deducted from payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are December 31.

f. If you die or are judicially declared incompentent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by August 31 preceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of almond crop insurance:

a. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding almond insurance in the county.

b. "Continguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will be considered contiguous.

c. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county as shown by the actuarial table.

d. "Crop year" means the period beginning with the date insurance attaches and extending through the normal harvest time and will be designated by the calendar year in which the almonds are normally harvested.

e. "Direct Mediterranean Fruit Fly damage" means the actual physical damage to the almonds which causes such almonds to be considered unmarketable and will not include unmarketability of such almonds as a result of a quarantine, boycott or refusal to accept the almonds by any entity without regard to the actual physical damage to such almonds.

f. "Harvest" means the removal of the almonds from the orchard.

g. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

h. "Insured" means the person who submitted the application accepted by us.

i. "Loss ratio" means the ratio of idemnity to premium.

j. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

k. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

l. "Tenant" means a person who rents land from another person for a share of the almonds or a share of the proceeds therefrom.

m. "Total meat pounds" means the total pounds of good almond meats (both loosed whole and chipped meats, and inshell meats) as determined by us. Unshelled almonds will be converted to meat pounds.

n. "Unit" means all insurable acreage of almonds in the county which is located on contiguous land on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the almonds on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditions are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, DC, on October 21, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 85-25723 Filed 10-28-85; 8:45 am]

BILLING CODE 3410-08-M

7 CFR Part 446

[Docket No. 2798S]

Walnut Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) hereby revises and reissues the Walnut Crop Insurance Regulations (7 CFR Part 446), effective for the 1986 and succeeding crop years. The intended effect of this rule is to: (1) Change to a mandatory "Actual Production History" (APH) basis by removing the Premium Adjustment Table and providing for cancellation for not furnishing records; (2) change the method of computing indemnities when acreage, share, or practice is underreported; (3) limit the insured's share of an indemnity on crops sold before harvest; (4) shorten the length of time an insured has to give notice when claiming an indemnity; and (5) add a definition for the term "Loss ratio." The authority for the promulgation of this rule is contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: November 1, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC, 20250, telephone (202) 447-3325.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established by Departmental Regulation No. 1512-1. This action constitutes a review as to the need, currency, clarity, and effectiveness of these regulations under those procedures. The sunset review date established for these regulations is July 1, 1990.

Merritt W. Sprague, Manager, FCIC, has determined and certifies that this action (1) is not a major rule as defined by Executive Order No. 12291 because it will not result in: (a) An annual effect on the economy of $100 million or more; (b) major increases in costs or prices for consumers, individual industries, federal, State, or local governments, or a geographical region; or (c) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets; and (2) will not increase the federal paperwork burden for individuals, small businesses, and other persons.

This action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Flexibility Analysis was prepared.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115, June 24, 1983.

This action is not expected to have any significant impact on the quality of the human environment, health, and safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Since policy changes must be on file by October 31, 1985, good cause is shown for making this rule effective in less than 30 days.

Other than minor changes in language and format, the principal changes in the walnut policy are:

1. *Section 2.*—Add a clause to change the method of calculating the insured's share of an indemnity on crops sold before harvest. This limits the insured's indemnity to his interest in the crop at the time of loss.

2. *Section 5.*—Remove the Premium Adjustment Table. The crop will be insured on an actual production history (APH) basis. Coverages will, therefore, reflect the actual production history of the crop on the unit.

Remove the provisions for the transfer of insurance experience and for premium computation when insurance has not been continuous. Deletion of the Premium Adjustment Table eliminates the need for these provisions.

3. *Section 8.*—Shorten from 30 days to 10 days the time an insured has to give notice of loss when claiming an indemnity. This change will allow FCIC to determine indemnities in a more timely fashion.

4. *Section 9.*—When acres are underreported, the production from all acres will be applied against the report acres in calculating the indemnities. This change will reduce the complexity of calculations.

5. *Section 15.*—Add a clause to cancel the contract if production history is not furnished by the cancellation date. An exception will be allowed if the insured can show, prior to the cancellation date, that records are unavailable due to conditions beyond the insured's control. This clause is required by the change to mandatory APH.

6. *Section 17.*—Add a definition for the term "Loss ratio" to clarify its use in section 5.

On Wednesday, August 21, 1985, FCIC published a notice of proposed rulemaking in the **Federal Register** at 50 FR 33744, to revise and reissue the Walnut Crop Insurance Regulations (7 CFR Part 446), effective for the 1986 and succeeding crop years. The public was given 30 days in which to submit written comments on the proposed rule.

No comments were received in direct response to the proposed rule. However, on September 4–5, 1985, the Board of Directors, FCIC held informal meetings in Hearing Room B, Interstate Commerce Commission Building, Washington, DC, for the purpose of receiving comments from interested parties on the Actual Production History (APH) method of insurance and on the proposal to restrict unit division by removing unit division guidelines from policies. Those concepts were included in the proposed rule.

The APH concept of yield guarantees establishes a direct relationship between proven production capability of the individual insured producer, and the insurance guarantee or the premium rates. It requires the insured producer to submit annual records of insured production as a condition of continued insurability. The determination to eliminate applicable unit division guidelines restricts unit division to include all the insurable crop grown within a county with no allowance for further division beyond those contained in the crop insurance policies.

Comments on the proposed regulations were received from six representatives of the private insurance industry, one member of Congress, fifteen insurance agents, four representatives of special interest groups, and five farmers.

The comments generally opposed: (1) The proposed requirement that insureds furnish annual records of insured production as a condition of continued insurability under the APH program for the establishment of yield guarantees; and (2) the proposed change to the insurance unit definition which would delete the guidelines filed at county service offices.

Those in opposition to the proposed regulations generally argued that they would decrease the marketability of crop insurance by making the resulting insurance offer less attractive to potential purchasers. Many predicted a substantial level of cancellation by current contract holders if the proposed regulations became effective.

Argument against the proposed requirement for records submission as a condition of continued insurance eligibility included: (1) Many farmers would not be willing to furnish records establishing annual production unless they have a loss and a potential indemnity; (2) an economic incentive like a reduced future yield guarantee is preferable to cancellation; and (3) the APH system as a whole is cumbersome, complex, and more difficult to administer than an area coverage plan.

Many commentators recommended that FCIC develop a plan to offer reduced insurance guarantees when a producer failed to voluntarily furnish records. Most comments supported the APH concept as a means of making an equitable insurance offer to the better producers of an area; however, many of the same group requested simplification of program procedures. Several comments recommended the establishment of a new method to reduce the impact of severe loss years upon yield guarantees for the future. A few comments recommended a return to an area coverage program as a means of retaining the participation of those whose recent production has not equaled former area coverage guarantees.

The comments received were fully considered in the course of arriving at the decision modifying the proposed rule.

The rationale for the initial adoption of the APH concept was to correct the problem of adverse selection inherent in the previous area coverage plans of insurance. Adverse selection occurs when the best insurance offer is made to the highest risk producer and the poorest insurance offer is made to the lowest risk producer. It is characterized by having insured clients with higher than average risk expectations without commensurate higher premium rates. Adverse selection results in higher than expected losses and ultimately in higher premium rates and thus, over the long term, severely limits participation levels.

Adverse selection is best addressed by establishing a direct relationship between proven production capability of individual producers and their insurance guarantee and premium rates. The APH program accomplishes this objective.

Records of production are basic to a yield protection program of insurance. There is no logical alternative to requiring records if such a program is to succeed over an extended period of time. The APH concept, linking records to guarantees, is clearly preferable to any extension of the area coverage concept under any disguise. The latter can only lead to further aggravation of adverse selection. The ultimate result is the program serving only the lowest producing farmers on the highest risk land.

The premise that farmers will choose to cancel insurance participation in preference to furishing annual records of production after the close of harvest or marketing season is rejected. The need to have such records of production for other business purposes, including for share rent settlement purposes, for financial statements in the event of the use of borrowed funds for operations, and for the submission of income tax returns, combined with the need of such records for farm management purposes, make such records readily available for most producers. The walnut program is a "guaranteed yield concept" (GYC) program which requires submission of production records. This requirement has not had an adverse effect on the program. The records area available. No legitimate reason exists for failure to support a requested yield guarantee by furnishing production records.

If the sole reason for unwillingness to submit records of production lies in the fact that such submission will result in a lower than otherwise obtainable yield guarantee for the future, then the producer is seeking to be overinsured in relation to his proven capability. While past performance is not an absolute guarantee of future yield expectations, it is the best indicator which can be measured objectively.

The FCIC would be violating its public trust if it were not to use the best system possible to establish yield guarantees which fairly reflect yield expectations. Considering the administrative changes to procedure which are to be implemented, the objections to the APH program raised in the comments have been fully and fairly considered and are regarded as an insufficient basis for reversal of previous proposed regulations.

FCIC, in response to requests from the producers and the participating insurance industry, has taken administrative action to ease the burden of keeping the required records and to address problems in program administration. These actions were taken with regard to all crops which are not under a GYC–APH principle of insurance.

For those crops with GYC–APH based yield guarantees, the action to provide more time for submission of records is not viable consideration.

The crop programs with GYC–APH based yield guarantees, including the provisions herein contained, were excluded from the provision allowing an extended time for the submission of records provided for other crop programs because the marketing period is generally much shorter and it is easier

for producers to obtain sufficient records of production in time to be used in the determination of the next succeeding crop insurance guarantee. Further, many of the GYC–APH crops are produced on perennials and the yields of such crops tend to vary by the age of planting to an extent that inclusion of the most recent year's production data is necessary to the establishment of yield guarantees which fairly reflect production expectations.

Arguments against the proposed unit division change included: (1) Separate insurance units for widely dispersed tracts of farmland, differing topography or soil types, and differing cultural or farm management practices are necessary to maintain or build participation levels; (2) spot causes of loss like hail and flood generally damage only a relatively small portion of the total planted acreage of most farms, thus the more units allowed, the greater the protection offered; (3) the proposed unit structure would result in discrimination or unfair treatment among producers; (4) the producer is entitled to an indemnity payment under the crop insurance program when he suffers a loss on a portion of his planted acreage even when overall yields are normal; and (5) expected reductions in participation would result in increased adverse selection. Many agreed that the current unit structure is less than satisfactory, but argued that FCIC should delay implementation of the proposed rule to provide time for further study and analysis of alternative approaches.

FCIC has determined to retain the present unit structure and institute further studies which are to be presented to the Board of Directors for consideration at the first meeting of the Board after February 1, 1986.

It is the objective of the FCIC to provide producers of agricultural commodities a program of insurance with an insurance unit structure which:

—Provides a disaster protection plan of insurance which meets the needs of producers at the lowest possible cost per acre.
—Minimizes the potential for fraud and abuse.
—Reduces the administrative costs of FCIC and writing companies.
—Minimizes the burden upon producers.
—Improves the actuarial soundness of the program.
—Simplifies and standardizes the unit definition for all programs.

The Board of Directors has discussed the unit defintion issue on several occasions over the past three years.

The current standard insurance policy language defines "unit" as: "Unit" means all insurable acreage of (name of crop) in the county on the date of planting for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the (name of crop) on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your county service office.

As a matter of usual practice, units are often divided beyond that allowed by the policy unit definition to permit separate units by section or ASCS farm serial number. This is intended to be permitted only when verifiable records of production on such basis exist.

The more insurance units allowed on a single contract, the higher the potential for fraud and abuse, the higher the costs of administration, and the larger the likelihood of legitimate loss.

The FCIC Board of Directors has been increasingly concerned about the high loss ratios (about 150%) experienced by the Corporation in the 1980–1984 period. It has refused to order a major premium rate increase because of its belief that normal weather and sound program design will prove the existing rates adequate over the long term. The Board has chosen a course of action to reduce adverse selection, lessen the potential for fraud and abuse, and improve the equitability of the insurance offer between options and areas of operation.

The Board believes that these actions are preferable to the alternative of major increases in premiums to producers.

The level of program participation by potential insureds is of great interest to the FCIC. The potential users of the program, the farmers of this nation, have a clear need for the protection offered. Higher levels of participation are desired because such expanded use of a crop insurance as a risk management tool can reduce the adverse economic impacts of crop failure on not only individual producers but the state and community in which they live. Crop insurance as a device to offer disaster assistance to farmers is much preferred to the alternative programs offered in the past in terms of equitability and cost to the public. Further, higher levels of participation tend to remove adverse selection which continues to be a problem of program administration.

There is an apparent need to modify the insurance unit determination practices of the past. Most of the comments received recommended delay and further study of the issues relating to insurance unit definition and that recommendation is accepted as being in the best interests of the program at this time. The management of FCIC has been directed to present the results of further study to the Board of Directors at its first meeting after February 1, 1986, Interested parties are requested to offer input or comments to the Board. Any proposal presented during the requested timeframe should not only consider the impact upon program participation but also have a positive impact upon the actuarial soundness of the programs and the costs and burden of administration.

The most significant objection raised in the comment period was the opinion that significant adverse perception of the previously proposed change would lead to large numbers of cancellations by insured producers. The FCIC determination to permit the continued use of guidelines allowing further unit division will encourage continued growth in the program without undue risk of higher than normal cancellations.

These actions respond positively to the marketing-related concerns expressed regarding the previously proposed changes to the insurance regulations. They should have minimal adverse impact upon the attractiveness of the insurance offer and thus little negative impact upon participation rates.

With the exception of minor changes in language and format, the proposed rule, amended as outlined above, is hereby adopted.

List of Subjects in 7 CFR Part 446

Crop Insurance, Walnut.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Walnut Crop Insurance Regulations (7 CFR Part 446), effective for the 1986 and succeeding crop years, to read as follows:

PART 446—WALNUT CROP INSURANCE REGULATIONS

Subpart—Regulations for the 1986 and Succeeding Crop Years

Sec.

446.1 Availability of walnut crop insurance.
446.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
446.3 OMB control numbers.
446.4 Creditors.

Sec.

446.5 Good faith reliance on misrepresentation.
446.6 The contract.
446.7 The application and policy.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77 as amended (7 U.S.C. 1506, 1516).

Subpart—Regulations for the 1986 and Succeeding Crop Years

§ 446.1 Availability of walnut crop insurance.

Insurance shall be offered under the provisions of this subpart on walnuts in counties within the limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation.

§ 446.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for walnuts which will be included in the actuarial table on file in the applicable service offices for the county and which may be changed from year to year.

(b) At the time the application for insurance is made, the applicant will elect a coverage level and price at which indemnities will be computed from among those levels and prices contained in the actuarial table for the crop year.

§ 446.3 OMB control numbers.

The OMB control numbers are contained in Subpart H of Part 400, Title 7 CFR.

§ 446.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, involuntary transfer or other similar interest shall not entitle the holder of the interest to any benefit under the contract.

§ 446.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the walnut insurance contract, whenever: (a) An insured under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation: (1) Is indebted to the Corporation for additional premiums; or (2) has suffered a loss to a crop which is not insured or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived; and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than $100,000.00 finds that: (1) An agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice; (2) said insured relied thereon in good faith; and (3) to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured shall be granted relief the same as if otherwise entitled thereto. Application for relief under this section must be submitted to the Corporation in writing.

§ 446.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the walnut crop as provided in the policy. The contract shall consist of the application, the policy, and the county acturial table. Any changes made in the contract shall not affect its continuity from year to year. The forms referred to in the contract are available at the applicable service offices.

§ 446.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's share in the walnut crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the service office on or before the applicable closing date on file in the service office.

(b) The Corporation may discontinue the acceptance of applications in any county upon its determination that the insurance risk is excessive, and also, for the same reason, may reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications in any county, by placing the extended date on file in the applicable service offices and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the extended period. However, if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in polices issued under FCIC regulations for the 1986 and succeeding crop years, a contract in the form provided for in this subpart will come into effect as a continuation of a walnut contract issued under such prior regulations, without the filing of a new application.

(d) The application for the 1986 and succeeding crop years is found at Subpart D of Part 400—General Administrative Regulations (7 CFR 400.37, 400.38) and may be amended from time to time for subsequent crop years. The provisions of the Walnut Insurance Policy for the 1986 and succeeding crop years are as follows:

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Walnut Crop Insurance Policy

(This is a continuous contract. Refer to Section 15.)

AGREEMENT TO INSURE: We will provide the insurance described in this policy in return for the premium and your compliance with all applicable provisions.

Throughout this policy, "you" and "your" refer to the insured shown on the accepted Application and "we," "us," and "our" refer to the Federal Crop Insurance Corporation.

Terms and Conditions

1. Causes of Loss.

a. The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

(1) Adverse weather conditions;
(2) Fire;
(3) Wildlife;
(4) Earthquake;
(5) Volcanic eruption;
(6) Direct Mediterranean Fruit Fly damage; or
(7) If applicable, failure of the irrigation water supply due to an unavoidable cause occurring after insurance attaches;

unless those causes are excepted, excluded, or limited by the actuarial table or section 9e(3).

b. We will not insure against any loss of production due to:

(1) The neglect, mismanagement, or wrongdoing of you, any member of your household, your tenants or employees;
(2) The failure to follow recognized good walnut farming practices;
(3) The impoundment of water by any governmental, public or private dam or reservoir project;
(4) The failure to carry out a good walnut irrigation practice;
(5) The failure or breakdown of irrigation equipment or facilities; or
(6) Any cause not specified in section 1a as an insured loss.

2. Crop, acreage, and share insured.

a. The crop insured will be English walnuts (excluding black walnuts) hereafter called "walnuts" which are grown on insured acreage and for which a guarantee and

premium rate are provided by the actuarial table.

b. The acreage insured for each crop year will be walnuts grown on insurable acreage as designated by the actuarial table and in which you have a share, as reported by you or as determined by us, whichever we elect.

c. The insured share is your share as landlord, owner-operator, or tenant in the insured walnuts at the time insurance attaches. However, for the purpose of determining the amount of indemnity, your share will not exceed your share on the earlier of:

(1) The time of loss; or

(2) The beginning of harvest.

d. We do not insure any acreage:

(1) On which the trees have not reached the ninth growing season after being set out, unless we agree, in writing, to insure such acreage; or

(2) Planted with a crop other than walnuts.

e. If insurance is provided for an irrigated practice you must report as irrigated only the acreage for which you have adequate facilities and water, at the time insurance attaches, to carry out a good walnut irrigation practice.

f. Insurance may attach only by written agreement with us on any unit which consists of less than 5 acres of insurable walnut trees.

g. We may limit the insured acreage to any acreage limitation established under any Act of Congress, if we advise you of the limit prior to the date insurance attaches.

3. Report of acreage, share, and practice.

You must report on our form:

a. All the acreage of walnuts in the county in which you have a share;

b. The practice; and

c. Your share on the date insurance attaches.

You must designate separately any acreage that is not insurable. You must report if you do not have a share in any walnuts grown in the county. This report must be submitted annually on or before March 1. All indemnities may be determined on the basis of information you submit on this report. If you do not submit this report by March 1, we may elect to determine by unit the insured acreage, share, and practice or we may deny liability on any unit. Any report submitted by you may be revised only upon our approval.

4. Production guarantees, coverage levels, and prices for computing indemnities.

a. The production guarantees, coverage levels, and prices for computing indemnities are contained in the actuarial table.

b. If the number of bearing trees (ninth growing season and older) is reduced more than 10 percent from the preceding calendar year as a result of damage occurring within that year, the production guarantee will be reduced 1 percent for each percent reduction in excess of 10 percent.

c. Coverage level 2 will apply if you do not elect a coverage level.

d. You may change the coverage level and price election on or before the closing date for submitting applications for the crop year as established by the actuarial table.

5. Annual premium.

a. The annual premium is earned and payable on the date insurance attaches. The amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share on the date insurance attaches.

b. Interest will accrue at the rate of one and one-half percent (1½%) simple interest per calendar month, or any part thereof, on any unpaid premium balance starting on the first day of the month following the first premium billing date.

6. Deductions for debt.

Any unpaid amount due us may be deducted from any indemnity payable to you or from any loan or payment due you under any Act of Congress or program administered by the United States Department of Agriculture or its Agencies.

7. Insurance period.

Insurance attaches for each crop year on March 1 and ends at the earliest of:

a. Total destruction of the walnuts;

b. Harvest of the walnuts;

c. Final adjustment of a loss; or

d. November 15.

8. Notice of damage or loss.

a. In case of damage or probable loss:

(1) You must give us written notice if, during the period before harvest, the walnuts on any unit are damaged and you decide not to further care for them.

(2) You must give us notice of probable loss at least 15 days before the beginning of harvest if you anticipate a loss on any unit.

(3) If probable loss is later determined or if damage occurs during harvest, immediate notice must be given.

(4) In addition to the notices required by this section, if you are going to claim an indemnity on any unit, we must be given notice not later than 10 days after the earliest of:

(a) total destruction of the walnuts on the unit;

(b) harvest of the unit; or

(c) November 15 of the crop year.

b. You must obtain written consent from us before you destroy any of the walnuts which are not to be harvested.

c. We may reject any claim for indemnity if you fail to comply with any of the requirements of this section or section 9.

9. Claim for indemnity.

a. Any claim for indemnity on a unit must be submitted to us on our form not later than 60 days after the earliest of:

(1) Total destruction of the walnuts on the unit;

(2) Harvest of the unit; or

(3) November 15 of the crop year.

b. We will not pay any indemnity unless you:

(1) Establish the total production of walnuts on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period; and

(2) Furnish all information we require concerning the loss.

c. The indemnity will be determined on each unit by:

(1) Multiplying the insured acreage by the production guarantee;

(2) Subtracting therefrom the total production of walnuts to be counted (see section 9e);

(3) Multiplying the remainder by the price election; and

(4) Multiplying this product by your share.

d. If the information reported by you under section 3 of the policy results in a lower premium than the actual premium determined to be due, the production guarantee on the unit will be computed on the information reported, but all production from insurable acreage, whether or not reported as insurable, will count against the production guarantee.

e. The total production (pounds) to be counted for a unit will include all harvested and appraised production.

(1) Appraised production to be counted will include:

(a) Unharvested production on harvested acreage and potential production lost due to uninsured causes and failure to follow recognized good walnut farming practices;

(b) Not less than the guarantee for any acreage which is abandoned, damaged solely by an uninsured cause or destroyed by you without our prior written consent; and

(c) Any appraised production on unharvested acreage.

(2) Any appraisal we have made on insured acreage will be considered production to count unless such appraised production is:

(a) Marketed; or

(b) Further damaged by an insured cause and reappraised by us.

(3) If you elect to exclude hail and fire as insured causes of loss and the walnuts are damaged by hail or fire, appraisals will be made in accordance with Form FCI–78, "Request to Exclude Hail and Fire".

f. You must not abandon any acreage to us.

g. You may not sue us unless you have complied with all policy provisions. If a claim is denied, you may sue us in the United States District Court under the provisions of 7 U.S.C. 1508(c). You must bring suit within 12 months of the date notice of denial is received by you.

h. We have a policy for paying your indemnity within 30 days of our approval of your claim, or entry of a final judgment against us. We will, in no instance, be liable for the payment of damages, attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim. We will, however, pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment from and including the 61st day after the date you sign, date, and submit to us the properly completed claim for indemnity form, if the reason for our failure to timely pay is not due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and published in the **Federal Register** on or about January 1 and July 1 of each year. The interest rate to be paid on any indemnity will vary with the rate announced by the Secretary of the Treasury.

i. If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the

person determined to be beneficially entitled thereto.

j. If you have other fire insurance, fire damage occurs during the insurance period, and you have not elected to exclude fire insurance form this policy, we will be liable for loss due to fire only for the smaller of the amount:

(1) Of indemnity determined pursuant to this contract without regard to any other insurance; or

(2) By which the loss from fire exceeds the indemnity paid or payable under such other insurance. For the purpose of this section, the amount of loss from fire will be the difference between the fair market value of the production on the unit before the fire and after the fire.

10. Concealment or fraud.

We may void the contract on all crops insured without affecting your liability for premiums or waiving any right, including the right to collect any amount due us if, at any time, you have concealed or misrepresented any material fact or committed any fraud relating to the contract. Such voidance will be effective as of the beginning of the crop year with respect to which such act or omission occurred.

11. Transfer of right to indemnity on insured share.

If you transfer any part of your share during the crop year, you may transfer your right to an indemnity. The transfer must be on our form and approved by us. We may collect the premium from either you or your transferee or both. The transferee will have all rights and responsibilities under the contract.

12. Assignment of indemnity.

You may assign to another party your right to an indemnity for the crop year only on our form and with our approval. The assignee will have the right to submit the loss notices and forms required by the contract.

13. Subrogation. (Recovery of loss from a third party.)

Because you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve any such right. If we pay you for your loss, then your right of recovery will at our option belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

14. Records and access to farm.

You must keep, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all walnuts produced on each unit, including separate records showing the same information for production from any uninsured acreage. Failure to keep and maintain such records may, at our option, result in cancellation of the contract prior to the crop year to which the records apply, assignment of production to units by us, or a determination that no indemnity is due. Any person designated by us will have access to such records and the farm for purposes related to the contract.

15. Life of contract: Cancellation and termination.

a. This contract will be in effect for the crop year specified on the application and may not be canceled by you for such crop year. Thereafter, the contract will continue in force for each succeeding crop year unless canceled or terminated as provided in this section.

b. This contract may be canceled by either you or us for any succeeding crop year by giving written notice on or before the cancellation date preceding such crop year.

c. Prior to the cancellation date you must:

(1) Furnish to us, satisfactory production records for the crop year or the contract will be cancelled for the next crop year; or

(2) Show to our satifaction that the records are not available because of conditions beyond your control, such as fire, flood or other natural disaster, (If this subseciton (2) applies, the Field Actuarial Office may assign a yield for the year for which the records are unavailable).

d. This contract will terminate as to any crop year if any amount due us on this or any other contract with you is not paid on or before the termination date preceding such crop year for the contract on which the amount is due. The date of payment of the amount due:

(1) If deducted from an indemnity will be the date you sign the claim; or

(2) If deducted from payment under another program administered by the United States Department of Agriculture will be the date both such other payment and setoff are approved.

e. The cancellation and termination dates are January 31.

f. If you die or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the contract will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after insurance attaches for any crop year, the contract will continue in force through the crop year and terminate at the end thereof. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

g. The contract will terminate if no premium is earned for 5 consecutive years.

16. Contract changes.

We may change any terms and provisions of the contract from year to year. If your price election at which indemnities are computed is no longer offered, the actuarial table will provide the price election which you are deemed to have elected. All contract changes will be available at your service office by October 31 preceding the cancellation date. Acceptance of any change will be conclusively presumed in the absence of notice from you to cancel the contract.

17. Meaning of terms.

For the purposes of walnut crop insurance:

a. "Actuarial table" means the forms and related material for the crop year approved by us which are available for public inspection in your service office, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, practices, insurable and uninsurable acreage, and related information regarding walnut insurance in the county.

b. "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way will be considered contiguous.

c. "County" means the county shown on the application and any additional land located in a local producing area bordering on the county, as shown by the actuarial table.

d. "Crop year" means the period beginning with the date insurance attaches and extending through the normal harvest time and will be designated by the calendar year in which the walnuts are normally harvested.

e. "Direct Mediterranean Fruit Fly damage" means the actual physical damage to the walnuts which causes such walnuts to be considered unmarketable and will not include unmarketability of such walnuts as a direct result of a quarantine, boycott or refusal to accept the walnuts by any entity without regard to actual physical damage to such walnuts.

f. "Harvest" means removal of the walnuts from the orchard.

g. "Insurable acreage" means the land classified as insurable by us and shown as such by the actuarial table.

h. "Insured" means the person who submitted the application accepted by us.

i. "Loss ratio" means the ratio of indemnity to premium.

j. "Person" means an individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

k. "Service office" means the office servicing your contract as shown on the application for insurance or such other approved office as may be selected by you or designated by us.

l. "Tenant" means a person who rents land from another person for a share of the walnuts or a share of the proceeds therefrom.

m. "Unit" means all insurable acreage of walnuts in the county located on contiguous land on the date insurance attaches for the crop year:

(1) In which you have a 100 percent share; or

(2) Which is owned by one entity and operated by another entity on a share basis.

Land rented for cash, a fixed commodity payment, or any consideration other than a share in the walnuts on such land will be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in your service office. Units will be determined when the acreage is reported. Errors in reporting units may be corrected by us to conform to applicable guidelines when adjusting a loss. We may consider any acreage and share thereof reported by or for your spouse or child or any member of your household to be your bona fide share or the bona fide share of any other person having an interest therein.

18. Descriptive headings.

The descriptive headings of the various policy terms and conditons are formulated for convenience only and are not intended to affect the construction or meaning of any of the provisions of the contract.

19. Determinations.

All determinations required by the policy will be made by us. If you disagree with our determinations, you may obtain reconsideration of or appeal those determinations in accordance with Appeal Regulations.

20. Notices.

All notices required to be given by you must be in writing and received by your service office within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice.

Done in Washington, DC on September 23, 1985.

Edward Hews,

Acting Manager, Federal Crop Insurance Corporation.

BILLING CODE 3410-08-M

Foreign Agricultural Service

7 CFR Part 1540

Emergency Relief From Certain Perishable Products Imported From Israel

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule establishes the procedure by which an entity representative of a U.S. industry producing perishable products can submit a request to the Department of Agriculture for emergency relief from increased, injurious imports of certain perishable products from Israel if such products are entering the United States at a reduced rate of duty or duty-free pursuant to a trade agreement between the United States and Israel entered into under section 102(b) of the Trade Act of 1974, as amended by Section 401 of the Trade and Tariff Act of 1984.

DATE: This rule shall be effective on November 29, 1985.

FOR FURTHER INFORMATION CONTACT: Lyle Sebranek, Director, Asia, Africa & Eastern Europe Division, International Trade Policy, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C. 20250, Tel: (202) 382-1289.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures required by Executive Order 12291 and Departmental Regulation 1512-1 and has been classified as "not major" since it would not have any of the effects specified in those documents.

The Administrator, Foreign Agricultural Service certifies that this final rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. Consequently, no regulatory flexibility analysis is required under the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

An assessment of the impact of this rule on the environment was made and, based on this evaluation, this action is not a major federal action and will have no foreseeable significant effects on the quality of the human environment. Consequently, no environmental impact statement is necessary for this final rule. The environmental assessment is available for review in Room 5546, South Building, USDA during normal business hours.

The paperwork requirements imposed by this rule have been approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980 and assigned number 0551-0023.

Section 401 of the Trade and Tariff Act of 1984, Pub. L. 98-573 (98 Stat. 3016) ("1984 Trade Act") amended the Trade Act of 1974 to authorize the President to negotiate a trade agreement with Israel to provide for the reduction or elimination of duties on imports between the two countries. Pursuant to that authority, the Agreement on the Establishment of a Free Trade Area between the Government of the United States of America and the Government of Israel (the "Agreement") was entered into on April 29, 1985. The Agreement was subsequently approved and implemented by the United States-Israel Free Trade Area Implementation Act of 1985, Pub. L. 99-47, June 11, 1985. The Agreement entered into force on August 19, 1985.

Section 404 of the 1984 Trade Act, as amended (19 U.S.C. 2112 note), provides, in part, that if a petition is filed with the U.S. International Trade Commission under the provisions of section 201 of the Trade Act of 1974, as amended, alleging injury from imports from Israel of certain perishable products which are subject to a reduction or elimination of a duty granted by the United States under a trade agreement entered into with Israel under section 102(b) of the Trade Act of 1974, as amended by Section 401 of the 1984 Trade Act, then the petition may also be filed with the Secretary of Agriculture with a request that emergency relief be granted by the President. If the Secretary determines that emergency action is warranted and so advises the President, the President shall withdraw the reduction or elimination of duty provided to the perishable product under the Agreement or publish a notice of the determination not to take emergency action.

Under this final rule, a U.S. entity seeking emergency relief from imports of certain perishable products from Israel would submit a request to the Administrator, Foreign Agricultural Service, of the Department of Agriculture providing such information as is necessary to permit the Secretary of Agriculture to make a determination as to whether a recommendation should be made to the President that emergency action should be taken. The request should provide identification of the perishable product concerned, evidence that the product was imported from Israel, evidence that increased imports of such perishable product are the substantial cause of serious injury, or threat of serious injury, to a U.S. industry producing a perishable product like or directly competitive with the imported product, and a statement indicating why emergency action would be warranted.

Section 404(e)(6) of the 1984 Trade Act, as amended, defines a "perishable product" for the purposes of the emergency relief provisions of section 404 to include concentrated citrus fruit juice provided for in items 165.25 and 165.35 of the Tariff Schedules of the United States (the "TSUS"). However, section 117 of that act reclassified the articles previously assigned TSUS item number 165.35 by splitting those articles into two categories and assigning them TSUS item numbers 165.29 and 165.36. The definition of a perishable product in section 1540.21(6) of the final rule reflects this change in classification.

Discussion of Comments

A proposed rule entitled "Emergency Relief from Certain Perishable Products Imported from Israel" was published in the **Federal Register** on July 29, 1985 (50 FR 30716). Four written comments were received in response to the proposed rule and they are available for public inspection. All of the comments were considered in preparing the final rule.

Two comments were received which were in favor of the rule.

A third comment suggested that the scope of products covered by the rule be expanded to include cheese, other perishable dairy products, still wines and processed tomato products. However, the perishable products listed in the proposed rule as being eligible for emergency relief from imports from Israel were specified in Section 404(e) of the 1984 Trade Act, as amended (19 U.S.C. 2112 note). The Department has no authority to expand or contract the

specific product coverage mandated by the Congress.

The fourth comment received included several suggestions. One suggestion was that § 1540.23 of the proposed rule should be changed to delete the requirement that a petitioner, to the extent possible, submit data to the Department concerning imports during a previous representative period of time of the perishable product which is the subject of a request for emergency action. This suggestion has not been adopted because, given the short time limit within which the Secretary must reach a determination concerning a request for emergency action, such information, if submitted by a petitioner, would greatly assist the Secretary in determining whether emergency action is warranted. Information concerning imports of the perishable product from Israel during a previous representative period would indicate, among other things, whether imports of the perishable product from Israel have increased. The rule states that such information be provided, to the extent possible. Accordingly, a petition for emergency action will not be rejected simply because it does not contain all of the information requested in § 1540.23.

Another suggestion was that the Department supplement data provided by a petitioner with information available to the Department through its own research and through consultations with other agencies, such as the U.S. Customs Service, and make such data a part of the record upon which the Secretary's determination is made. In evaluating requests for emergency action under the rule, the Department intends to utilize all information available, including consultation(s) with other government agencies, and will make any nonconfidential information part of the investigatory record.

A third suggestion was that the proposed rule be changed to provide that the Secretary, in order to determine that emergency action is warranted, need only determine that imports of the perishable product from Israel are a cause of injury, or the threat thereof, to a domestic industry producing a like or directly competitive product.

It has been determined not to amend § 1540.24 of the rule as suggested. Section 1540.24 of the proposed rule provides that imports of the perishable product from Israel must be a substantial cause of serious injury, or the threat thereof, to the domestic industry. The "substantial cause of serious injury" requirement is provided in section 404(b) of the 1984 Trade Act. There is no authority for the Secretary to recommend emergency action on the basis of any finding of causation that is less than a "substantial cause".

A fourth suggestion was that the rule provide some objective standards or concrete examples which would indicate the circumstances under which emergency relief would be deemed to be warranted. This suggestion has not been adopted. Because of changing economic conditions and the variety of perishable products and domestic industries covered by the rule, it is not possible to determine in advance the various circumstances under which emergency action would be warranted.

The final suggestion was that, should the Secretary decide not to recommend that the President take emergency action, then both such decision and the reasons for such decision should be published in the **Federal Register**. Section 1540.24 of the proposed rule provides that if the Secretary determines not to recommend the imposition of emergency action, the Secretary shall publish a notice of such determination and will so advise the petitioner within 14 days after the filing of the petition. To the extent practicable, such notice will contain the main reasons for the Secretary's determination.

Accordingly, the final rule incorporates no changes in the language of the proposed rule. The Department will, of course, consider any appropriate changes to this rule if its experience under this rule indicates the need for such change.

List of Subjects in 7 CFR Part 1540

International agricultural trade, Imports, Israel, Perishable products reporting and recordkeeping requirements.

In accordance with the above, 7 CFR Chapter XV, Part 1540 is amended as set forth below.

1. The authority citation for Part 1540 is revised to read as follows:

Authority: Sec. 213(f), Pub. L. 98–67, 97 Stat. 391 (19 U.S.C. 2703(f)); 5 U.S.C. 301; sec. 404, Pub. L. 98–573, 98 Stat. 3016, as amended (19 U.S.C. 2112 note); 5 U.S.C. 301.

2. Part 1540 is amended by adding new subpart B to read as follows:

PART 1540—[AMENDED]

Subpart B—Emergency Relief From Certain Perishable Products Imported From Israel

Sec.

1540.20 Applicability of subpart.
1540.21 Definition.
1540.22 Who may file request.
1540.23 Contents of request.
1540.24 Determination of the Secretary of Agriculture.
1540.25 Information.
1540.26 Paperwork Reduction Act assigned number.

§ 1540.20 Applicability of subpart.

This subpart applies to requests filed with the Department of Agriculture under section 404 of the Trade and Tariff Act of 1984, Pub. L. 98–573, for emergency relief from imports of certain perishable products from Israel entering the United States at a reduced rate of duty or duty-free pursuant to a trade agreement between the United States and Israel entered into under section 102(b)(1) of the Trade Act of 1974, as amended.

§ 1540.21 Definition.

"Perishable product" means:

(a) Live plants provided for in subpart A of part 6 of schedule 1 of the 1985 Tariff Schedules of the United States (the "TSUS");

(b) Fresh or chilled vegetables provided for in items 135.03 through 138.46 of the TSUS;

(c) Fresh mushrooms provided for in item 144.10 of the TSUS;

(d) Fresh fruits provided for in items 146.10, 146.20, 146.30, 146.50 through 146.62, 146.90, 146.91, 147.03 through 147.44, 147.50 through 149.21 and 149.50 of the TSUS;

(e) Fresh cut flowers provided for in items 192.17, 192.18, and 192.21 of the TSUS; and

(f) Concentrated citrus fruit juice provided for in items 165.25, 165.29 and 165.36 of the TSUS.

§ 1540.22 Who may file request.

A request under this subpart may be filed by an entity, including a firm, or group or workers, trade association, or certified or recognized union which is representative of a domestic industry producing a perishable product like or directly competitive with a perishable product that such entity claims is being imported from Israel into the United States at a reduced duty or duty-free under the provisions of a trade agreement between the United States and Israel entered into under section 102(b)(1) of the Trade Act of 1974, as amended, in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to such domestic industry.

§ 1540.23 Contents of request.

A request for emergency action under Section 404 of the Trade and Tariff Act of 1984 shall be submitted in duplicate to the Administrator, Foreign Agricultural Service, United States Department of Agriculture, Washington, DC 20250. Such request shall be

supported by appropriate information and data and shall include to the extent possible:

(a) A description of the imported perishable product(s) allegedly causing, or threatening to cause, serious injury;

(b) Data showing that the perishable product allegedly causing, or threatening to cause, serious injury is being imported from Israel in increased quantities as compared with imports of the same product from Israel during a previous representative period of time (including a statement of why the period selected by the petitioner should be considered to be representative);

(c) Evidence of serious injury or threat thereof to the domestic industry substantially caused by the increased quantities of imports of the product from Israel; and

(d) A statement indicating why emergency action would be warranted under Section 404 (including all available evidence that the injury caused by the increased quantities of imports from Israel would be relieved by the withdrawal of the reduction of the duty or elimination of the duty-free treatment provided to the product under the trade agreement). A copy of the petition and the supporting evidence filed with the United States International Trade Commission under Section 201 of the Trade Act of 1974, as amended, must be provided with the request for emergency action.

§ 1540.24 Determination of the Secretary of Agriculture.

If the Secretary of Agriculture has reason to believe that the perishable product(s) which is the subject of a petition under this subpart is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing a perishable product like or directly competitive with the imported perishable product and that emergency action is warranted, the Secretary, within 14 days after the filing of the petition under § 1540.23 shall recommend to the President that the President take emergency action. If the Secretary determines not to recommend the imposition of emergency action, the Secretary, within 14 days after the filing of the petition, will publish in the **Federal Register** a notice of such determination and will so advise the petitioner.

§ 1540.25 Information.

Persons desiring information from the Department of Agriculture regarding the Department's implementation of Section 404 of the Trade and Tariff Act of 1984 should address such inquiries to the Administrator, Foreign Agricultural Service, United States Department of Agriculture, Washington, DC 20250.

§ 1540.26 Paperwork Reduction Act assigned number.

The Office of Management and Budget has approved the information collection requirements contained in these regulations in accordance with 44 U.S.C. Chapter 25, and OMB Number 0551–0023 has been assigned.

Issued at Washington, DC this 10th day of October 1985.

Leo V. Mayer,

Acting Administrator, FAS.

BILLING CODE 3410–10–M

Rural Electrification Administration

7 CFR Part 1772

[REA Bulletin 345–72]

REA Specification for Filled Splice Closures, PE–74

AGENCY: Rural Electrification Administration, USDA.

ACTION: Final rule.

SUMMARY: The Rural Electrification Administration (REA) hereby amends 7 CFR 1772.97, Incorporation by Reference of Telephone Standards and Specifications, by issuing a revised REA Bulletin 345–72, REA Specification for Filled Splice Closures, PE–74, to: (1) Permit two categories of reenterable splice closures, type one to have a reusable, salvageable case and encapsulant and type two needing only to be reenterable with no required salvageable parts; (2) require a closure kit containing all the parts necessary to make a complete splice enclosure; (3) specify the test requirements and parameters for both gelling and non-gelling encapsulating compounds; (4) modify the performance evaluation of the closure to include a test to assimilate the realistic possibility of a damaged cable sheath channeling water into the splice closure to determine that the closure will protect the splice if this should happen and, (5) provide detailed requirements on packaging of the closure. The revised specification will result in an improved closure for REA borrowers with minimum impact on the closure manufacturers. There may be a slight cost increase to the manufacturer because of the new packaging requirements.

EFFECTIVE DATE: October 18, 1985.

FOR FURTHER INFORMATION CONTACT: M. Wilson Magruder, Director, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 2835, South Building, U.S. Department of Agriculture, Washington, DC 20250, telephone (202) 382–8663. The Impact Analysis describing the options considered in developing this rule and the impact of implementing each option is available upon request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA hereby amends 7 CFR 1772.97, Incorporation by Reference of Telephone Standards and Specifications, by incorporating by reference a revised Bulletin 345–72 (Previous issue dated May 1, 1975), REA Specification for Filled Splice Closures, PE–74. Copies of the bulletin are available upon request from the address stated above. It is also available for inspection at the Office of the Federal Register Information Center, Room 8401, 1100 L Street, NW., Washington, DC 20408. This incorporation by reference was approved by the Director of the Federal Register as of October 18, 1985. These materials are incorporated as they exist on the date of the approval and a notice of any change in these materials will be published in the **Federal Register.** The action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; (3) result in significant adverse effects on competition, employment, investment or productivity, innovations, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets and therefore has been determined to be "not major". This action does not fall within the scope of the Regulatory Flexibility Act. REA has concluded that promulgation of this rule would not represent a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.* (1976)) and, therefore, does not require an environmental impact statement or an environmental assessment. This program is listed in the Catalog of Federal Domestic Assistance under No. 10.851, Rural Telephone Loans and Loan Guarantees and 10.852, Rural Telephone Bank Loans. For the reasons set forth in the Final rule related Notice to 7 CFR Part 3015, Subpart V (48 FR 54317,

December 1, 1983), this program is excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Copies of the document are available upon request from the address indicated above.

Background

REA is revising its Specification for Filled Splice Closures which are used by REA telephone borrowers in the construction of REA-financed outside plant facilities. The specification covers the minimum requirements by REA for reenterable filled closures that are used where two or more direct buried cables or cables in manholes are connected together. The filled enclosure provides mechanical protection and environmental isolation to the splice. The present specification did not differentiate between salvageable and non-salvageable closure parts. REA is establishing two categories of reenterable splice closures: Type one having a reusable, salvageable case and encapsulant and type two being only reenterable with no required salvageable parts as a result the present confusion concerning salvageable parts should be eliminated. REA will allow the use of either type of closure in the construction of outside plant facilities financed by REA. A closure kit is required by the revised specification. In order to assure that all the necessary materials to make a complete closure will be available at the construction site REA is specifying that the closure kit include (1) fasteners, (2) the cable shield bonding hardware and, (3) the encapsulant.

REA is requiring mechanical, chemical compatibility and stability tests for both gelling and non-gelling encapsulating compounds. These tests are performed by the splice closure manufacturer in order to assure satisfactory encapsulant performance inside and outside of its splice closure. These tests will eliminate potential bias towards the use of either the gelling or non-gelling encapsulant. The closure performance evaluation was modified by REA to include a test that considers the realistic possibility of a damaged cable sheath channeling water to the splice bundle. The splice closure must demonstrate during this test that the splice is truly protected from a potentially damaging environment.

Closure identification consisting of the manufacturer's name or trademark and closure design nomenclature have been required in order to permit quick recognition of the closure design and the manufacturer. Inclusion of assembly instructions will prevent mistakes in case assembly and in encapsulant application which could lead to splice failure.

REA has deleted the requirement that the package for filled splice closure kits be marked *"NOT FOR USE IN MANHOLES"* in the event any materials from the case or encapsulant are not compatible with fuel oil. In addition, only those closure materials from both the case and encapsulant that are compatible with fuel oil will be accepted for use in manholes by REA for use in the construction of REA-financed outside plant facilities. It is REA's intent to establish a separate category for those filled buried closures that are compatible with fuel oil and meet all other requirements.

This REA specification will result in a better defined and improved closure product for use by REA borrowers. This specification may result in slightly increased production costs to closure manufacturers and purchase costs to REA borrowers as a result of requiring the insertion of the assembly instructions in each closure package and identification of each closure, however, REA believes that these costs should be offset by convenience, quality and assistance to REA borrowers.

A Notice of Proposed Rulemaking was published in the **Federal Register** on November 20, 1984, Volume 49, No. 225 page 45753. One party commented on this proposal. The comment was as follows:

1. The requirement for a complete splice closure package, which would include the case, the encapsulant and shield bonding hardware in a single package, will add cost because special packaging will be necessary for the REA-financed market;

2. The criteria for hardness following thermal aging was too stringent; and

3. The chemical stability evaluation should be conducted on the assembled enclosure unit.

REA's response to the comments is summarized as follows:

1. REA believes that definite advantages result from collecting together guaranteed compatible materials into a single package. Requiring the REA borrower to stock individual items introduces risks such as parts incompatibility, individual item stock depletion and incomplete closure assembly. Since these risks outweigh what REA believes to be a slight additional cost of individual packaged kits, REA will require the packaging requirement.

2. A review of data from the manufacturer's tests by REA for both hardness and weight change following thermal aging revealed that the requirements for these two properties were too stringent. The required hardness value has been changed to allow a full 35 percent difference from the initial measurement to final aging. Comparisons of values between aging environments has been changed to allow 15 percentage points for weight and 35 percentage points for hardness.

3. Chemical stability evaluations for the assembled enclosure unit will remain unaltered. Since the case is a first line of defense against a hostile environment, the case must be tested. The encapsulant should never be exposed to environments outside the case, but realistically, this second line of defense could be exposed to both soil chemicals and industrial pollutants if the case fails. If the encapsulant is present then the enclosure vendor assumes that the case may fail. The enclosure components must be evaluated after exposure to chemical reagents delineated in the specification.

Loan programs—communications, Incorporation by reference, Telecommunications, Telephone.

PART 1772—[AMENDED]

In view of the above, REA hereby amends 7 CFR Part 1772 as follows:

1. The authority citation for Part 1772 continues to read as follows:

Authority: 7 U.S.C. 901 et seq., 7 U.S.C. 1921 et seq.

2. Section 1772.97 is amended by revising the entry for Bulletin 345–72 in the table as follows:

§ 1772.97 Incorporation by Reference of Telephone Standards and Specifications.

REA Bulletin No.	Specification No.	Date last issued	Title of standard or specification
345-72	PE-74	Oct. 1985	REA specification for filled splice closures.

Dated: October 18, 1985.

Harold V. Hunter,

Administrator.

BILLING CODE 3410-15-M

Farmers Home Administration

7 CFR Part 1940

Methodology and Formulas for Allocation of Loan and Grant Program Funds; Correction

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule; correction.

SUMMARY: The Farmers Home Administration (FmHA) corrects a final rule published June 10, 1985, [50 FR 24178]. In the implementation of the new regulation regarding the allocation of loan and grant program funds as published on June 10, 1985, the individual weights for the three State factor formula criteria were inadvertently omitted. These weights are unchanged from those published in the proposed rule. The intent of this action is to correct this omission.

FOR FURTHER INFORMATION CONTACT: David J. Howe, Director, Program Support Staff, Farmers Home Administration, USDA, 14th and Independence Ave., SW., Washington, D.C. 20250, Telephone (202) 382-9619.

SUPPLEMENTARY INFORMATION: The following correction is made in FR Doc. 85-13723 appearing on pages 24178 to 24187 in the issue of June 10, 1985.

PART 1940—GENERAL

1. The authority citation for Part 1940 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart L—Methodology and Formulas for Allocation of Loan and Grant Program Funds

§ 1940.575 [Corrected]

2. Paragraph (b) of § 1940.575, appearing on page 24184, is corrected by inserting the weights in the formula for calculating the State factor (SF) to read as follows:

SF = (criterion No. 1 x weight of 33⅓%) + (criterion No. 2 x weight of 33⅓%) + (criterion No. 3 x weight of 33⅓%)

Dated: July 18, 1985.

Dwight O. Calhoun,

Acting Associate Administrator, Farmers Home Administration.

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C-3169]

American Society of Sanitary Engineering; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, that a Bay Village, Ohio organization ("ASSE"), whose members consist of manufacturers of plumbing products and others associated with the plumbing industry, to cease refusing written requests for issuance of a standard or modification of an existing standard for a product because the product is patented or produced by only one or a limited number of manufacturers. The order also bars the society from failing to take sought action when it has already issued a standard, modification of a standard or a seal of approval covering a competing product and the applicant has demonstrated that its product adequately meets required performance goals. Should ASSE fail to issue the requested standard, modification or seal of approval, it is required to provide the applicant with a statement of the justification and bases for the failure, together with a reasonable opportunity to respond, and to maintain copies of relevant submissions and responses. Additionally, the society is required to incorporate the requirements of Parts I and II of the order into its Bylaws, and publish them in both its Yearbook and Standards Handbook.

DATE: Complaint and Order issued Oct. 3, 1985 [1].

FOR FURTHER INFORMATION CONTACT: FTC/H-272, Michael C. McCarey, Washington, D.C. 20580. (202) 523-1415.

SUPPLEMENTARY INFORMATION: On Monday, Aug. 13, 1985, there was published in the **Federal Register**, 50 FR 32213, a proposed consent agreement with analysis In the Matter of American Society of Sanitary Engineering, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Combining or Conspiring: § 13.384 Combining or conspiring; § 13.395 To control marketing practices and conditions; § 13.410 To eliminate competition in conspirators' goods; § 13.475 To restrict competition in buying. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; 13.533-20 Disclosures; 13.533-45 Maintain records; 13.533-60 Release of general, specific, or contractual constrictions, requirements, or restraints.

16 CFR Part 13

[Docket No. 5794]

Atlas Supply Co., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

[1] Copies of the Complaint and the Decision and Order are filed with the original document.

SUMMARY: The Federal Trade Commission has denied a request from Atlas Supply Co. and its parent companies to set aside a 1951 cease and desist order (48 F.T.C. 53), but has modified the order by deleting one provision that restricted the joint purchasing activities of respondents.

DATES: Cease and Desist Order issued July 19, 1951. Modifying Order issued Oct. 8, 1985.

FOR FURTHER INFORMATION CONTACT: FTC/L–301, Daniel P. Ducore, Washington, D.C. 20580. (202) 624–4642.

Order Modifying Cease and Desist

Commissioners: Terry Calvani, Acting Chairman, Patricia P. Bailey, Mary L. Azcuenaga.

In the Matter of Atlas Supply Co., et al., Docket No. 5794.

Issued July 19, 1951.

On June 7, 1985, Atlas Supply Company ("Atlas") and its shareholders, Amoco Oil Holding Company, The Standard Oil Company (Ohio), Chevron U.S.A. Inc., and Exxon Corporation filed a "Request To Reopen And Set Aside Cease And Desist Order" ("Request"), pursuant to section 5(b) of The Federal Trade Commission Act, 15 U.S.C. 45(b) and section 2.51 of the Commission's Rules of Practice. The Request asked the Commission to reopen the proceeding and terminate the cease and desist order issued on July 19, 1951 ("the Order").

The Order contains five substantive ordering paragraphs. The first two ordering paragraphs require Atlas and its shareholders to cease and desist from receiving or transmitting commissions, brokerage, or other compensation in connection with their purchases of automobile tires, tubes, batteries or other automobile parts or accessories ("TBA") in violation of section 2(c) of the Robinson-Patman Act. The third and fourth ordering paragraphs require respondents to cease and desist from knowingly inducing or accepting discriminatory prices in connection with their TBA purchases in violation of section 2(f) of the Robinson-Patman Act unless a cost saving or good faith meeting of competition justification exists. The fifth ordering paragraph, which was issued pursuant to section 5 of the Federal Trade Commission Act, prohibits respondents from using their combined purchasing power in connection with their TBA purchases to obtain any "price, discount, rebate, allowance or other treatment from a seller which is preferential to that allowed, afforded or made available by such seller" to competitors of any of the respondents. After reviewing the Request, the Commission has concluded that respondents have not made a satisfactory showing that changed circumstances or public interest considerations require that the Robinson-Patman Act provisions of the Order be terminated. The Commission has determined, however, that it is in the public interest to modify the Order to set aside the provision that prohibits Atlas and its shareholders from using their combined purchasing power to obtain preferential treatment from suppliers in connection with their joint TBA purchases.

Respondents have not shown how they are harmed by their obligation to comply with the section 2(c) and 2(f) provisions of the Order which they concede "do little more than repeat the Robinson-Patman Act . . . ." Request, p.4. Respondents do not assert that the conduct in which they engaged prior to 1951 is no longer violative of the Robinson-Patman Act nor do they make any showing that the R-P provisions of the Order inhibit lawful activity in which they wish to engage. Because the section 2(c) and 2(f) provisions of the Order merely require compliance with the law, they do not put respondents at a disadvantage with respect to their competitors who are also obliged to obey the law, nor do they impose any restrictions on respondents' lawful activities. Respondents' primary argument is that in view of the passage of thirty-four years since the Order was issued there is no reason to suppose that the resumption of joint purchasing by Atlas and the other respondents would be accompanied by violations of the Robinson-Patman Act. However, the deterrent effect of law enforcement actions by the Commission could be adversely affected if the Commission were to sunset conduct orders that do no more than require compliance with the law. And in recent cases the Commission has declined to terminate conduct orders solely because of their age. *See, e.g., William H. Rorer, Inc.*, Docket No. 8599, Modifying Order issued September 14, 1984 (Commission declined to set aside a 17-year old order issued under section 2(a) of the Robinson-Patman Act, although it did terminate fencing in provisions); *National Dairy Products Corp.*, 100 F.T.C. 431 (1982) (Commission declined either to rescind or terminate in five years a perpetual order issued under section 2(a) of the Robinson-Patman Act); *ABC Vending Corp.*, Docket No. 7652 (Letter from Secretary of the Commission to Arthur H. Kahn, Esquire, dated January 28, 1982. Commission declined to set aside perpetual order provision based on section 2(f) of the Robinson-Patman Act that "merely restates the law that must be adhered to by the respondent . . . . and consequently does not hinder the respondent's ability to compete.").

On the other hand, the Commission has concluded that the public interest warrants modifying the Order to set aside its fifth ordering paragraph which prohibits Atlas and its shareholders from using their combined purchasing power to obtain preferential treatment from suppliers in connection with their joint TBA purchases. As the Request observes, this provision does not define "preferential" nor, in contrast to the Robinson-Patman Act provisions of the Order, does it include any specific recognition of the availability of a cost justification or meeting competition defense. Request, p.4. It thus forbids conduct that would be lawful under the Robinson-Patman Act. To the extent that this provision was included in the Order out of concern that the market growth which had been experienced by the Atlas brands from 1930 to 1949 threatened a recurrence, in TBA at least, of the monopoly power of the original Standard Oil Company, Request, p.5, respondents have demonstrated that in the thirty-four years since the Order was issued there has been no such recurrence of monopoly power with respect to TBA and no tendency in that direction. In contract to the situation at the time the Order issued when it was stipulated that Atlas products approximated ten percent of the total replacement sales of TBA products in the United States, Atlas brands today represent TBA market shares ranging from a high of 3.26 percent (oil filters) to a low of 0.176 percent (remanufactured starters and alternators). Nevertheless, according to the Request, the breadth of the possible reach of the fifth ordering paragraph has caused Atlas and its shareholders to forego any consideration of joint purchasing regardless of efficiencies or competitive considerations. Request, p.5. The fifth ordering paragraph initially served a legitimate purpose in that it assured the termination of the violations of the Robinson-Patman Act that had been associated with respondents' joint purchasing activities. It appears, however, that this provision of the Order has long since accomplished its remedial purpose and is now serving to

inhibit respondents from engaging in lawful competitive behavior. Despite the passage of thirty-four years since the Order issued, respondents' competitors in the TBA industry have not been placed under any comparable restraint. Moreover, in many instances joint buying groups may facilitate pro-competitive economies and efficiencies without significant countervailing anticompetitive effects. Request, pp. 10–12.

Accordingly, it is ordered that this matter be, and it hereby is, reopened, and that the fifth ordering paragraph of the Commission's Order issued on July 19, 1951, shall be of no further force and effect as of the effective date of this modifying order.

By the Commission.

Emily H. Rock,

Secretary.

[Docket No. C–3168]

InterNorth, Inc. and Houston Natural Gas Corp.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires InterNorth, Inc. (INI), the Omaha, NE acquirer of the Houston Natural Gas Corporation, among other things, to divest within 12 months from the date of the order to a Commission-approved buyer, all the properties listed on Schedule A, and to terminate all rights and obligations it may have on the contracts listed on Schedule B. Should INI fail to complete the required divestiture within the allotted time, a trustee, appointed by the court or the Commission, will be given 18 months from the date of appointment to divest the remaining Schedule A properties. Until those properties are divested, INI is required to use its best efforts to maintain them as ongoing, viable enterprises. The order further prohibits the company, for a period of ten years, from acquiring any assets or interests of a company that is engaging in the gathering or transportation of natural gas in the Permian basin or the Panhandle whose acquisition price is $15 million or more, and from entering into any agreement or venture for the joint purchasing, gathering, or transportation of natural gas in the Permian basin or the Panhandle without prior Commission approval.

Michigan Optometric Association; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires the Michigan Optometric Association, among other things, to cease prohibiting, restricting or restraining any optometrist from: (1) Entering into or affiliating with a corporate practice; (2) practicing in any location; or (3) disseminating truthful, non-deceptive information. Additionally, the Association is required to repeal those Bylaws and Standards of Conduct that conflict with the order. Further, the Association is required to send notice of the order to: (1) all optometrists who resigned or were terminated because they engaged in a corporate practice or practiced in a retail location; (2) all members of the Association; (3) all other optometrists currently licensed in the State of Michigan; and (4) everyone to whom the Association sends an application for membership for the next five years.

DATE: Complaint and Order issued October 10, 1985.[1]

BILLING CODE 4160–01–M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

Schedules of Controlled Substances; Temporary Placement of Acetyl-alpha-methylfentanyl, Alpha-methylthiofentanyl, Benzylfentanyl, Beta-hydroxyfentanyl, Beta-hydroxy-3-methylfentanyl, 3-Methylthiofentanyl, Thenylfentanyl and Thiofentanyl into Schedule I of the Controlled Substances Act

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Final rule.

SUMMARY: The Administrator of the Drug Enforcement Administration (DEA) is issuing this notice to temporarily place acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl into Schedule I of the Controlled Substances Act (CSA) pursuant to the emergency scheduling provision of the CSA. This action is based on a finding that the scheduling of these substances in Schedule I is necessary to avoid an imminent hazard to the public safety. This action will impose the criminal sanctions and regulatory controls of Schedule I on the manufacturing, distribution and possession of these fentanyl analogs.

EFFECTIVE DATE: On November 29, 1985, acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl will be subject to Schedule I control.

FOR FURTHER INFORMATION CONTACT: Howard McClain, Jr., Chief, Drug Control Section, Drug Enforcement Administration, Washington, D.C. 20537. Telephone: (202) 633–1366.

SUPPLEMENTARY INFORMATION:

List of Subjects in 21 CFR Part 1308

Administrative practice and procedure, Drug traffic control, Narcotics, Prescription drugs.

The Comprehensive Crime Control Act of 1984 (Pub. L. 98–473), which was signed into law on October 12, 1984, amended section 201 of the Controlled Substances Act (CSA) (21 U.S.C. 811) to give the Attorney General the authority to temporarily place a substance into Schedule I of the CSA if he finds that such action is necessary to avoid an imminent hazard to the public safety. A substance may be scheduled under the emergency provision of the CSA if that substance is not listed in any other schedule under section 202 of the CSA (21 U.S.A. 812) or if there is no approval or exemption in effect under 21 U.S.C. 355 for the substance. The Attorney General has delegated his authority under 21 U.S.C. 811 to the Administrator of the Drug Enforcement Administration (28 CFR 0.100(b)). In making a finding of an imminent hazard to the public safety, the Attorney General is required to consider only those factors set forth in paragraphs (4) the history and current pattern of abuse, (5) the scope, duration and significance of abuse, and (6) what, if any, risk there is to the public health, of section 201(c) of the CSA (21 U.S.C. 811(c)).

House Report 98–835 which accompanied Public Law 98–473 states that "This new procedure [emergency scheduling] is intended by the Committee to apply to what has been called 'designer drugs', new chemical analogs or variations of existing controlled substances, or other new substances, which have a psychedelic, stimulant or depressant effect and have a high potential for abuse." The substances, acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl, are analogs of fentanyl, a Schedule II narcotic analgesic, and as such are substances which Congress clearly intended to subject to the emergency scheduling authority as imminent hazards to the public safety.

A series of analogs of the Schedule II narcotic analgesic, fentanyl, have been clandestinely produced, distributed and abused primarily in California since late 1979. The first of the analogs identified was alpha-methylfentanyl, sold on the street as "China White" or "synthetic heroin." Alpha-methylfentanyl was associated with over 20 narcotic overdose deaths during the period 1980–1982. Using the traditional scheduling process pursuant to Section 201(a) of the CSA (21 U.S.C. 811(a)), DEA placed alpha-methylfentanyl into Schedule I of the CSA effective September 22, 1981 (46 FR 46799). Since the control of alpha-methylfentanyl, DEA laboratories have identified other fentanyl analogs clandestinely produced and distributed in California. DEA used its emergency scheduling authority for the first time when 3-methylfentanyl, a particularly potent fentanyl analog, was temporarily placed into Schedule I of the CSA effective April 25, 1985 (50 FR 11690). Subsequently, substantial quantities of

several other fentanyl analogs have been encountered in the illicit drug traffic as determined by DEA laboratory analyses. The substances, acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl are the specific fentanyl analogs which have been found in the illicit drug traffic. One sample of material associated with a clandestine laboratory seizure in California in June 1985 contained substantial quantities of six of the above fentanyl analogs. Two other samples, one seized in California and the other seized in Louisiana, contained substantial quantities of four of the fentanyl analogs. Thus, in the following sections which describe the specific fentanyl analogs, the same three seizures are reported for several analogs. The following is a description of the information available regarding the above eight fentanyl analogs:

N-[1-Methyl-2-phenyl)ethyl-4-piperidyl]-N-phenylacetamide or acetyl-alpha-methylfentanyl was first identified by DEA laboratories in August 1983 in evidence samples from Modesto, California. Acetyl-alpha-methylfentanyl has been identified by forensic laboratories in 13 other samples in 1984 and 1985. In June 1985, approximately four ounces of material containing acetyl-alpha-methylfentanyl was seized at a clandestine laboratory in California. Abuse liability studies show that acetyl-alpha-methylfentanyl is a potent narcotic analgesic which substitutes completely for morphine in morphine-dependent monkeys. It has a rapid onset of action but a shorter duration of action than morphine. Acetyl-alpha-methylfentanyl is approximately 10 times more potent than morphine in rats.

N-[1-(Methyl-2-(2-thienyl)ethyl)-4-piperidyl]-N-phenylpropanamide or alpha-methylthiofentanyl has been identified by DEA laboratories in five evidence submissions since 1984. Four of the submissions were from California and a recent (June 1985) submission was from Louisiana. Over four kilograms of material containing alpha-methylthiofentanyl have been seized by DEA, much of it at a clandestine laboratory. It is estimated that alpha-methylthiofentanyl has a longer duration of action than fentanyl and that it is between 450 and 600 times more potent than morphine as an analgesic.

N-[1-benzyl-4-piperidyl]-N-phenylpropanamide or benzylfentanyl is both an intermediate in the synthesis of fentanyl and reported to be an active morphine-like substance. It has been identified by DEA laboratories in over 25 drug evidence submissions from the San Diego area during the period January 1982 to June 1985. During this same time period, at least 24 overdose deaths associated with fentanyl-like compounds were reported in San Diego. Benzylfentanyl and fentanyl are the only fentanyl-like compounds identified in the San Diego area by forensic laboratories. Thus, it is likely that the 24 fentanyl-related overdose deaths reported in San Diego were associated with the use of benzylfentanyl and fentanyl. Approximately one and a half pounds of a synthesized intermediate and other necessary chemicals and equipment to produce benzylfentanyl were found at a clandestine laboratory in Los Angeles, California in June 1985. Benzylfentayl has an analgesic potency about one-tenth that of morphine when administered intravenously to rats and mice.

Chemically, beta-hydroxyfentanyl is N-[1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide. Beta-hydroxyfentanyl has been identified by forensic laboratories in four submissions from California in 1985. Over four kilograms of material containing beta-hydroxyfentanyl have been encountered. Two of the submissions were obtained at a clandestine laboratory in California. Beta-hydroxyfentanyl produces typical morphine-like effects in rats with an analgesic potency approximately 150 times that of morphine. It is believed that beta-hydroxyfentanyl is formed in the synthesis of beta-hydroxy-3-methylfentanyl.

N-[3-methyl-1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide or beta-hydroxy-3-methylfentanyl has also been identified by forensic laboratories in four submissions from California in 1985. Over four kilograms of material containing beta-hydroxy-3-methylfentanyl was found. Two submissions were obtained at a clandestine laboratory in California. Beta-hydroxy-3-methyl-fentanyl has been identified as a combination of the cis and trans diastereomers. Because of its close structural similarity to known active fentanyl-like compounds, beta-hydroxy-3-methylfentanyl is likely to produce morphine-like effects. It is estimated that the analgesic potency of beta-hydroxy-3-methylfentanyl in rats is at least 300 times and possibly up to 1500 times that of morphine.

N-[3-methyl-1-(2-(2-thienyl)ethyl)-4-piperidyl]-N-phenylpropanamide or 3-methylthiofentanyl has been identified in drug evidence samples from California and Louisiana in 1985. The four submissions consisted of a total of 5.8 kilograms of material. Two of the exhibits were obtained at a clandestine laboratory in California. 3-Methylthiofentanyl has been identified as a mixture of the cis and trans diastereomers. 3-Methylthiofentanyl is structurally similar to thiofentanyl and 3-methylfentanyl, both of which are morphine-like compounds. This structural similarity strongly suggests that 3-methylthiofentanyl is a potent morphine-like substance. It is estimated that the analgesic potency of 3-methylthiofentanyl is approximately 1000 times that of morphine in rats.

Thenylfentanyl or N-[1-(2-thienyl)methyl-4-piperidyl]-N-phenylpropanamide has been identified in over four kilograms of material in three drug evidence submissions to DEA laboratories in 1985. Two of the samples were from California and one was from Louisiana. One of the California samples was obtained at a clandestine laboratory. It is unclear whether thenylfentanyl was a target compound or whether it was present as an impurity or by-product. Nevertheless, thenylfentanyl's close structural similarity to fentanyl, thiofentanyl and benzylfentanyl, all active morphine-like compounds, makes it likely that thenylfentanyl also possesses morphine-like activity. Thenylfentanyl's analgesic potency is estimated to be one-tenth that of morphine in rats.

N-[1-(2-(2-thienyl)ethyl)-4-piperidyl]-N-phenylpropanamide or thiofentanyl has been identified by DEA laboratories in four drug evidence submissions in 1985. Three of the samples were from California and one was from Louisiana. The four samples, two of which were obtained at a clandestine laboratory, consisted of over five kilograms of material. Thiofentanyl produces typical morphine-like effects in rats and it is approximately 175 times more potent than morphine as an analgesic.

Fentanyl analogs have been associated with at least 60 narcotic overdose deaths since January 1984. The specific fentanyl analogs involved were not determined but it is highly likely that many of the deaths were associated with the use of the eight fentanyl analogs described above. Many of the deaths occurred during the time and in the areas where the availability of the above fentanyl analogs can be documented. Two of the deaths occurred in Oregon and the remainder occurred in California. Cocaine was found in the body fluids and tissues of several of the deceased. Deaths were attributed to

pulmonary congestion due to intravenous "fentanyl" toxicity. It is reported that deaths associated with fentanyl analog use continue to occur at the rate of one per week in California.

All of the above fentanyl analogs were produced in clandestine laboratories. There is no accepted medical use for or commercial manufacturer of any of the eight fentanyl analogs. The use of clandestinely produced narcotic substances such as these fentanyl analogs poses greater health and safety hazards than those attendant to the use of traditional narcotics. The identity, purity and concentration of the active ingredients in most cases are unknown or at best inconsistent. The high potency of several of the fentanyl analogs (analgesic potencies up to 1500 times that of morphine) requires that doses be very small. Mixing the active ingredients with the diluents to obtain uniform doses is extremely difficult. Thus, the risk of drug overdose is increased.

The pattern of abuse of fentanyl analogs in general parallels that of heroin. Fentanyl analogs are sold on the street as "China White," "synthetic heroin," "heroin," or "fentanyl." The packaging is identical to that used for heroin, e.g., balloons, plastic bags and foil packets. The fentanyl analogs have been diluted with lactose or mannitol and mixed with cocaine, quinine or diphenhydramine. Some samples have been dyed brown to look like "Mexican heroin." The fentanyl analogs primarily are administered intravenously by known heroin addicts.

The incidence of fentanyl analog use among narcotic addicts in California is estimated at between 10 and 20 percent. A recent study of clients in nine methadone treatment programs in Northern California showed that of the 519 urine samples tested, 50 or 10 percent of them were positive for fentanyl-like substances. The range for the nine centers was 0–24 percent. The specific fentanyl analogs used were not determined.

The data described above shows that the production, distribution and abuse of fentanyl analogs continue to pose a very serious hazard to the public safety. The data further shows that acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl are the fentanyl analogs currently in use and that they are available in substantial quantities. Although there is relatively little information regarding the availability and use of fentanyl analogs outside of California (2 overdose deaths in Oregon, a sample containing alpha-methylthiofentanyl, thenylfentanyl, 3-methylthiofentanyl and thiofentanyl in Louisiana), there is a high potential for the spread of the fentanyl analogs to other areas of the country. In view of modest production costs and high dosage yields, the potential profit from the sale of these analogs is tremendous.

In accordance with the provisions of section 201(h)) of the CSA (21 U.S.C. 811(h)) and 28 CFR 0.100, the Administrator of DEA has considered the following factors relative to making a determination of whether acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl each pose an imminent hazard to the public safety:

(1) Its history and current pattern of abuse,

(2) The scope, duration and significance of abuse, and

(3) What, if any, risk there is to the public health.

Based on a consideration of these factors and other relevant information, the Administrator, pursuant to section 201(h) of the CSA (21 U.S.C. 811(h)) and 28 CFR 0.100, finds that scheduling acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl in Schedule I of the CSA, at least on a temporary basis, is necessary to avoid an imminent hazard to the public safety.

As required by section 201(h)(4) of the CSA (21 U.S.C. 811(h)(4)), the Administrator has notified the Secretary of the Department of Health and Human Services of his intention to temporarily place acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl into Schedule I of the CSA. Comments submitted by the Secretary in response to this notification, including whether there is an exemption or approval in effect for any of the above listed fentanyl analogs under the Federal Food, Drug and Cosmetic Act, shall be taken into consideration by the Administrator before the notice becomes effective.

Pursuant to the provisions of section 201(h) of the CSA (21 U.S.C. 811(h)) and 28 CFR 0.100, the Administrator hereby orders that on [insert 31 days from the date of publication of this **Federal Register** notice] N-[1-(1-methyl-2-phenyl)-ethyl-4-piperidyl]-N-phenylacetamide (acetyl-alpha-methylfentanyl), its optical isomers, salts and salts of isomers, N-[1-(1-methyl-2-(2-thienyl)-ethyl)-4-piperidyl]-N-phenylpropanamide (alpha-methylthiofentanyl), its optical isomers, salts, and salts of isomers, N-[1-benzyl-4-piperidyl]-N-phenyl-propanamide (benzylfentanyl), its optical isomers, salts and salts of isomers, N-[1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide (beta-hydroxyfentanyl), its optical isomers, salts and salts of isomers, N-[3-methyl-1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide (beta-hydroxy-3-methylfentanyl), its optical and geometric isomers, salts and salts of isomers, N-[3-methyl-1-(2-(2-thienyl)ethyl)-4-piperidyl]-N-phenylpropanamide (3-methylthiofentanyl), its optical and geometric isomers, salts and salts of isomers, N-[1-(2-thienyl)methyl-4-piperidyl]-N-phenylpropanamide (thenylfentanyl), its optical isomers, and salts and salts of isomers, N-[1-(2-(2-thienyl)ethyl)-4-piperidyl]-N-phenylpropanamide (thiofentanyl), its optical isomers, salts and salts of isomers be placed into Schedule I of the CSA (21 U.S.C. 801 et seq.) unless the Administrator gives notice in the **Federal Register** that this order is rescinded prior to November 29, 1985.

PART 1308—[AMENDED]

For the reasons set forth above, 21 CFR 1308.11 (g) is amended as follows:

1. The authority citation for 21 CFR Part 1308 continues to read as follows:

Authority: 21 U.S.C. 811, 812, 871(b).

2. Sections 1308.11(g)(5)–(12) are added to read as follows:

§ 1308.11 Schedule I.

* * * * *

(g) * * *

(5) N-[1-(1-methyl-2-phenyl)ethyl-4-piperidyl]-N-phenylacetamide (acetyl-alpha-methylfentanyl), its optical isomers, salts and salts of isomers 9815

(6) N-[1-(1-methyl-2-(2-thienyl)ethyl-4-piperidyl]-N-phenylpropanamide (alpha-methylthiofentanyl), its optical isomers, salts and salts of isomers 9832

(7) N-[1-benzyl-4-piperidyl]-N-phenylpropanamide (benzylfentanyl), its optical isomers, salts and salts of isomers 9818

(8) N-[1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide (beta-hydroxyfentanyl), its optical isomers, salts and salts of isomers 9830

(9) N-[3-methyl-1-(2-hydroxy-2-phenyl)ethyl-4-piperidyl]-N-phenylpropanamide (beta-hydroxy-

3-methylfentanyl), its optical and geometric isomers, salts and salts of isomers.....9831
(10) N-[3-methyl-1-(2-(2-thienyl)ethyl-4-piperidyl]-N-phenylpropanamide (3-methylthiofentanyl), its optical and geometric isomers, salts and salts of isomers.....9833
(11) N-[1-(2-thienyl)methyl-4-piperidyl]-N-phenylpropanamide (thenylfentanyl), its optical isomers, salts and salts of isomers.....9834
(12) N-[1-(2-(2-thienyl)ethyl-4-piperidyl]-N-phenylpropanamide (thiofentanyl), its optical isomers, salts and salts of isomers.....9835

* * * * *

The temporary placement of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl in Schedule I pursuant to section 201(h) of the CSA (21 U.S.C. 811(h)) will expire at the end of one year from the effective date of this order. If a rulemaking proceeding to schedule any of these substances under the CSA has been initiated pursuant to section 201(a) of the CSA (21 U.S.C. 811(a)) and is pending, the temporary scheduling of that substance may be extended for up to six months.

This action is not a formal rulemaking procedure as set forth in the Administrative Procedures Act (5 U.S.C. 551–559) and the opportunity for a hearing on the record is not required. Nevertheless, the Administrator affords the opportunity for comments to be submitted concerning this matter. Comments should be submitted in quintuplicate to the Administrator, Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537, Attention: **Federal Register** Representative.

All regulations and criminal sanctions applicable to Schedule I substances are effective on November 29, 1985, with respect to acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl. However, individuals registered with DEA in accordance with Part 1301 or 1311 of Title 21 of the Code of Federal Regulations and who currently possess acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl may continue to do so pending DEA's receipt of an amended registration no later than December 30, 1985.

1. *Registration.* Any person who manufactures, distributes, delivers, imports or exports acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl or thiofentanyl or who engages in research or conducts instructional activities with respect to these substances or who proposes to engage in such activities, must be registered to conduct such activities in accordance with Parts 1301 and 1311 of Title 21 of the Code of Federal Regulations.

2. *Security.* Acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl must be manufactured, distributed and stored in accordance with §§ 1301.71–1301.76 of Title 21 of the Code of Federal Regulations.

3. *Labeling and Packaging.* All labels and labeling for commercial containers of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl must comply with the requirements of §§ 1302.03–1302.05, 1302.07 and 1302.08 of Title 21 of the Code of Federal Regulations.

4. *Quotas.* All persons required to obtain quotas for acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl or thiofentanyl shall submit applications pursuant to §§ 1303.12 and 1303.22 of Title 21 of the Code of Federal Regulations.

5. *Inventory.* Every registrant required to keep records and who possesses any quantity of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl or thiofentanyl shall take an inventory, pursuant to §§ 1304.11–1304.19 of Title 21 of the Code of Federal Regulations, of all stocks of these substances on hand.

6. *Records.* All registrants required to keep records pursuant to §§ 1304.21–1304.27 of Title 21 of the Code of Federal Regulations shall do so regarding acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl.

7. *Reports.* All registrants required to submit reports pursuant to §§ 1304.37–1304.41 of Title 21 of the Code of Federal Regulations shall do so regarding acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl.

8. *Order Forms.* All registrants involved in the distribution of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl shall comply with the order form requirements of §§ 1305.01–1305.16 of Title 21 of the Code of Federal Regulations.

9. *Importation and Exportation.* All importation and exportation of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxy-fentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl or thiofentanyl shall be in compliance with Part 1312 of Title 21 of the Code of Federal Regulations.

10. *Criminal Liability.* Any activity with respect to acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxyfentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl not authorized by, or in violation of, the Controlled Substances Act or the Controlled Substances Import and Export Act occurring after November 29, 1985 is unlawful.

Pursuant to 5 U.S.C. 605(b), the Administrator certifies that the temporary placement of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxy-fentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl into Schedule I of the Controlled Substances Act will have no impact upon small businesses or other entities whose interests must be considered under the Regulatory Flexibility Act (Pub. L 96–354). This action involves the temporary control of substances with no legitimate medical use or manufacture in the United States.

It has been determined that the temporary placement of acetyl-alpha-methylfentanyl, alpha-methylthiofentanyl, benzylfentanyl, beta-hydroxy-fentanyl, beta-hydroxy-3-methylfentanyl, 3-methylthiofentanyl, thenylfentanyl and thiofentanyl in Schedule I of the CSA under the emergency scheduling provision is a statutory exception to the requirements of Executive Order 12291 (46 FR 13193).

Dated: October 23, 1985.

John C. Lawn,

Administrator.

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services

34 CFR Part 324

Research in Education of the Handicapped

AGENCY: Department of Education.

ACTION: Final rule; correction—Research in Education of the Handicapped program under Sections 641–644 of Part E of the Education of the Handicapped Act, as amended.

SUMMARY: On August 26, 1985 final regulations for the Research in Education of the Handicapped program under Sections 641–644 of Part E of the Education of the Handicapped Act, as amended, were published at 50 FR 34638–34644. That document contained two errors which are corrected below.

FOR FURTHER INFORMATION CONTACT: Ms. Linda Glidewell, Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3511—M/S 2313), Washington, DC 20202; Telephone: (202) 732–1099.

SUPPLEMENTARY INFORMATION: On page 34639, third column, the fourteenth line from the top is changed to read: "§ 324.4 *What definitions apply to this program?*"

§ 324.2 [Corrected]

On page 34640, first column, third paragraph from the top, § 324.2(b) is changed to read:

* * * * *

(b) The Secretary may award grants to States, State or local educational agencies, institutions of higher education, and other public or nonprofit private educational or research agencies and organizations, and may make contracts with States, State and local educational agencies, institutions of higher education, and other public or private educational or research agencies and organizations for research and related purposes authorized under section 642 of the Education of the Handicapped Act, relating to physical education or recreation for handicapped children, and to conduct research, surveys, or demonstrations relating to physical education or recreation for handicapped children.

(20 U.S.C. 1441–1444)

(Catalog of Federal Domestic Assistance No. 84.023, Research in Education of the Handicapped)

Dated: October 24, 1985.

Madeleine Will,

Assistant Secretary for Special Education and Rehabilitation Services.

BILLING CODE 4000-01-M

POSTAL SERVICE

39 CFR Part 111

Combined Mailings of Special Fourth-Class and Bound Printed Matter

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This rule provides for the combined mailing of separate and distinguishable units of special fourth-class and bound printed matter in a single machinable parcel with postage paid at the rate appropriate for each subclass. The rule eliminates the need for mailers to prepare separate mailings to the same recipient in order to claim the two rates. The Postal Service will also benefit from this rule in that one parcel will be processed and delivered instead of two.

EFFECTIVE DATE: November 29, 1985.

FOR FURTHER INFORMATION CONTACT: Mr. George E. Thomas, (202) 245–4512.

SUPPLEMENTARY INFORMATION: On August 20, 1985, the Postal Service published for comment in the **Federal Register** (50 FR 33575–33576) proposed changes in sections of the Domestic Mail Manual relating to mixed classes of mail. Interested persons were invited to submit comments on the proposed changes by September 19, 1985.

Written views were received from four commenters. All were in favor of adopting the proposal. However, each of the commenters suggested that only one rate should be applied to forwarding and return to simplify postage calculation and verification. Three of the commenters specifically suggested the parcel post zone rates. The Postal Service agrees with the suggestions and we have changed the rule to call for the application of postage at parcel post zone rates whenever parcels of combined special fourth-class and bound printed matter are forwarded or returned.

Two commenters observed that the proposed rule may not permit mailers of combination packages to make use of the Postal Service's Itemized Postage Program, since the proposal requires that "postage and weight of the components be listed on the package", and the Itemized Postage Program does not call for this kind of identification. The Itemized Postage Program is an alternate method of paying postage adopted under the provisions of DMM 145.9. The Postal Service has no objection to alternate methods under DMM 145.9 being applicable to the combined mailings considered here. Accordingly, we have inserted language under the heading "Markings Required", specifically stating that combined mailings of special fourth-class and bound printed matter, which are made through an alternate method of paying postage under the provisions of DMM 145.9, must be identified according to the specific terms and conditions of the approved alternate arrangement.

Upon consideration of all the comments, the Postal Service hereby adopts the following amendments to the Domestic Mail Manual, which is incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

List of Subjects in 39 CFR Part 111

Postal Service.

PART 111—[AMENDED]

1. The authority citation for 39 CFR Part 111 continues to read as follows:

Authority: 5 U.S.C. 552(a); 39 U.S.C. 401, 404, 407, 408, 3001–3011, 3201–3219, 3403–3405, 3601, 3621; 42 U.S.C. 1973 cc–13, 1973 cc–14.

2. Revise the heading of Part 136 and the first sentence of 136.1 of the DMM to read as follows:

PART 136—MIXED CLASSES AND SUBCLASSES OF MAIL

136.1 General.

When mail of a higher class is enclosed with mail of a lower class, the rate of postage on the entire piece or package is that of the higher class except as provided in 136.2, 136.3, 136.4, 136.7, and 136.8. * * *

3. Add new 136.8 to read as follows:

136.8 Combined Mailings of Special Fourth-Class and Bound Printed Matter

.81 *Definition.* Mailers may combine separate and distinguishable units of special fourth-class and bound printed matter in one parcel for the same addressee.

.82 *Machinability.* All parcels containing combined special fourth-class and bound printed matter must meet the machinable (regular) parcel criteria stated in 128.41.

.83 *Payment of Postage.* Postage covering each separate unit of mail must be placed on the outside of the parcel. See 780, Domestic Mail Manual, for methods of postage payment.

.84 *Markings Required.*

a. Sections 764.1 and 767.1 prescribe the marking requirements for mailings of special fourth-class and bound printed matter. In addition to those markings, the mailer must place on each parcel below the postage and above the address an endorsement denoting the enclosure and the amount of additional postage paid for it. For example, BOUND PRINTED MATTER ENCLOSED $1.46 or SPECIAL FOURTH-CLASS ENCLOSED $0.69. Parcels containing bound printed matter and special fourth-class are properly chargeable with postage at parcel post zone rates when they are not marked as prescribed, or when the contents do not consist of separate and distinguishable units of mail, or when they are not machinable.

b. Combined mailings of special fourth-class and bound printed matter which are made through an alternate method of paying postage under the provisions of 145.9 must be identified according to the specific terms and conditions of the approved alternate arrangement.

.85 *Bulk or Presort Rate Mailings.* Bulk or presort rates may be claimed if the mail is prepared in accordance with the applicable provisions of sections 763, 764, or 767. Where bulk or presort rates are claimed on both subclasses, the mail must be sorted in accordance with the requirements which provide the finest degree of sortation of the two subclasses. For example, if a mailing consists of bulk bound printed matter and level A presorted special fourth-class rate mail, it must be sorted to 5-digit ZIP Code destinations meeting the provisions of sections 724.222 and 764.22. In this instance, sortation in accordance with the requirements prescribed in section 767 for bound printed matter would not suffice.

.86 *Forwarding and Return.* Combination parcels containing special fourth-class and bound printed matter will be charged postage at the parcel post zone rates when forwarded or returned.

A transmittal letter making these changes in the pages of the Domestic Mail Manual will be published and will be transmitted to subscribers automatically. Notice of issuance of the transmittal letter will be published in the **Federal Register** as provided by 39 CFR 111.3.

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

BILLING CODE 7710-12-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Part 405

[BERC-235-F]

Medicare Program; Limitation on Payment for Services Furnished To Employed Aged and Aged Spouses of Employed Individuals

Correction

In FR Doc. 85-24305 beginning on page 41503 in the issue of Friday, October 11, 1985, make the following correction:

On page 41511, in the second column, in the second line of § 405.341(d), "(30 days after publication)" should read "November 12, 1985".

BILLING CODE 1505-01-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

43 CFR Part 4

Department Hearings and Appeals Procedures

AGENCY: Office of Hearings and Appeals, Office of the Secretary, Interior.

ACTION: Final rule.

SUMMARY: This amendment revises procedural rules of the Office of Hearings and Appeals (OHA) at 43 CFR 4.5 and 4.27 to clarify that the Secretary does not have the power to exercise jurisdiction over matters before the Interior Board of Contract Appeals (IBCA), to establish procedures relating to the exercise of the Secretary's reserved powers over OHA proceedings and to broaden and strengthen the general prohibition against *ex parte* communications in OHA proceedings. The amendment also removes duplicative provisions regarding *ex parte* communications from the procedures for particular OHA proceedings.

EFFECTIVE DATE: November 29, 1985.

FOR FURTHER INFORMATION CONTACT: John H. Kelly, Deputy Director, Office of Hearings and Appeals, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203, (703) 235-3810; Deborah S. Ryan, Attorney-Advisor, Office of the Solicitor, U.S. Department of the Interior, 18th & C Streets NW., Washington, D.C. 20240, (202) 343-5216.

SUPPLEMENTARY INFORMATION: On March 19, 1985 (50 FR 10996), OHA published proposed amendments to its procedural rules at 43 CFR 4.5 and 4.27. OHA is the body within the Department of the Interior that has been delegated the authority of the Secretary to hear, consider, and determine matters within the jurisdiction of the Department involving hearings, appeals, and other review functions of the Secretary. OHA's general rules relating to procedures and practice are contained in 43 CFR Part 4, Subpart B. Other subparts in 43 CFR Part 4 contain procedural rules applicable to particular types of hearings, for example, land appeals.

OHA's general rules relating to procedures and practice clearly state that the Secretary has the authority to take jurisdiction at any stage of any case pending before OHA and render the final decision after holding such a hearing as may be required by law, to review any OHA decision, and to direct reconsideration of any decision. 43 CFR 4.5(a). The rules also state that the Director of OHA, pursuant to his delegated authority from the Secretary, may assume jurisdiction of or review any case before an appeals board or direct reconsideration of any decision by an appeals board. 43 CFR 4.5(b). The authority of the Secretary to review, take jurisdiction over, or direct reconsideration of OHA cases does not extend to cases of the Interior Board of Contracts Appeals (IBCA), whose decisions are final for the Department pursuant to the Contract Disputes Act of 1978, Pub. L. No. 95-563, 41 U.S.C. 601-613 (1982). This rule expressly excepts IBCA from the provisions relating to the exercise of reserved authority by the Secretary or Director.

The amended subsection also provides that when the Secretary or Director becomes personally involved in the decisionmaking process by taking jurisdiction of a pending case or reviewing a decision already issued, the parties and appropriate Departmental personnel—which would include the board or administrative judge handling the case—will be notified, the administrative record will be requested, and a written decision will be issued. We believe that these are appropriate procedural safeguards which enhance the administrative process. This

amendment does not modify existing policy with respect to the finality of OHA decisions for the purpose of exhaustion of administrative remedies or create an opportunity for appeal to the Secretary or Director. When this regulation was last amended to clarify the review authority of the Secretary and Director, the Department stressed that this authority was exercised "only on rare occasions," and that "[p]romulgation of this rule should not be construed as a change of that practice." 43 FR 37689 (Aug. 24, 1978). The proposed subsection merely clarifies certain procedures relating to the exercise of the Secretary's reserved authority.

The Department received one comment suggesting that the final rule include procedures and criteria for determining which cases will be reviewed under the Secretary's reserved authority. These regulations apply specifically only to proceedings before the Office of Hearings and Appeals. Which cases will be reviewed by the Secretary is beyond the scope of these regulations. The new provisions relating to exercise of reserved authority were added for the purpose of assuring that the administrative record is complete; they are not intended to restrict or limit in any respect the authority or discretion of the Secretary in reviewing OHA decisionmaking. Decisions by OHA are rendered on behalf of the Secretary, and it would not be appropriate to set conditions for Secretarial review of those decisions. This suggestion is not adopted.

It was also suggested that procedures to be followed once Secretarial review is granted be promulgated. The procedures to be followed by the Secretary will necessarily depend upon such factors as the status of the case at the time the Secretary decided to consider it personally, the circumstances under which such decision was made (*e.g.*, whether time was of the essence in order to avoid loss or damage), and the state of the record (*e.g.*, whether there are unresolved facts which will require the setting of a hearing; whether briefing is adequate). For these reasons and because such review is rarely exercised, procedural matters are best left to the Secretary to be dealt with as the need arises on a case-by-case basis. This suggestion is not adopted.

This rule revises the general prohibition against *ex parte* communications in 43 CFR 4.27(b) to change the provision's scope, applicability, and enforceability. The first change broadens the scope of the prohibited *ex parte* communications from communications on the merits of a proceeding or an appeal, as currently provided, to communications concerning the merits of a case or any related action pending before OHA, including an OHA rulemaking that would affect a pending case. The text of the amended regulation has been changed to make it clear that only rulemaking affecting 43 CFR Part 4 is affected; this provision does not affect rulemaking conducted by other Departmental offices.

The second change increases the number of people who may not have *ex parte* communications to include any party, person who has an interest in the decision to be rendered, or representative of a party or interested person and a member of OHA involved or likely to become involved in the decisionmaking process of a given proceeding. The term "interested person" was not defined in the text of the proposed rule but a definition has now been added. It is intended to be a wide, inclusive term covering any individual or other person with an interest in the proceeding. The interest need not be monetary, nor need a person be a party to, or intervenor in, the proceeding to come under this section. The term includes, but is not limited to, parties, competitors, public officials, and nonprofit or public interest organizations and associations with a special interest in the matter. The term also includes Departmental bureaus and offices (and the employees thereof), whether or not parties to the proceeding. The term does not include a member of the public at large who makes a casual or general expression of opinion about a pending proceeding; nor is it intended to include members of the public at large who may participate in a letter writing campaign generated by an interested person. A "representative" is intended to include, but is not limited to, a member of the Department's Office of the Solicitor who is representing a bureau or office before OHA. It would also include anyone who, though not interested in the proceeding himself, communicates with OHA at the request or suggestion of a party.

In addition, the rule adds a subsection to § 4.27(b) that conforms to the 1976 amendments to section 557 of the Administrative Procedure Act (APA), Pub. L. No. 94–409, 5 U.S.C. 557(d) (1982), regarding the placement of *ex parte* communications in the record and sanctions. Although a small percentage of OHA proceedings are governed by APA, we do not consider it advisable to have one standard for APA proceedings and a different standard for non-APA proceedings. The new subsection requires that any prohibited *ex parte* communication be made part of the record and that an opportunity for response be allowed. The final rule, however, does not require that an opportunity for response be provided in informal rulemaking proceedings because there are no parties to such a proceeding who need to be given an opportunity to respond in writing.

One comment questioned the meaning of "any other related action pending before the office," and suggested that petitions to reconsider board decisions and petitions to assume jurisdiction under § 4.5 be expressly included. The final rule includes requests for consideration or review by the Director in the definition of proceedings. Petitions for Secretarial review, however, are not included because such petitions are not proceedings before OHA. The subsection also authorizes an OHA administrative law judge, appeals board, or Director to require an offending party to show cause why the party's claim, interest, or motion should not be dismissed, denied, or otherwise adversely affected, and to invoke appropriate sanctions against other persons who violate the prohibition. One comment suggests that the sanctions should include automatic dismissal of a party's case if they fail to show cause by a deadline established in a show cause order. We do not adopt this suggestion. The regulation grants discretionary authority to the deciding official to dismiss the case if a deadline set forth in a show cause order is not met. Because dismissal is a severe sanction, we feel the deciding official should retain discretion to determine whether the circumstances surrounding a late response warrant dismissal.

One comment suggests that the regulation should expressly prohibit communications from private parties that were transmitted to the Director or OHA judges. We believe that the language of the regulation clearly includes such communications.

The same comment suggests that communications from within the Department either from bureaus or their lawyers of the Solicitor's Office to the Director or OHA judges also be prohibited. Such comments are prohibited because the bureaus are parties to the appeals from their decisions and the lawyers in the Solicitor's Office are representative of those bureaus as parties. The same comment also suggests prohibition of communications from Departmental representatives and lawyers to the staff of the Under Secretary or Secretary once jurisdiction has been assumed

under § 4.5. Such communications are not within the scope of these regulations.

The rule deletes certain other provisions regarding *ex parte* communications for particular OHA proceedings in order to avoid any duplication or inconsistencies in OHA procedures. The provision in 43 CFR 4.100(f) is not being deleted because it conforms to guidelines for Uniform Rules of Procedure for Boards of Contract Appeals promulgated by the Office of Federal Procurement Policy. Although less comprehensive than the revised rule, it is not considered to be inconsistent with it.

The Department of the Interior has determined that this document is not a major rule under Exec. Order No. 12291, and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* The amendments are intended only to clarify the Secretary's review authority over OHA cases and to broaden and strengthen the general prohibition against *ex parte* communications. The amendments are not expected to have any discernible economic effects on OHA, other governmental units, private parties appearing before OHA, persons interested in OHA proceedings, or any other persons, including small entities.

This rule does not contain information collection requirements which require approval of the Office of Management and Budget under the Paperwork Reduction Act. This rule also does not constitute a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act.

The rule was drafted by Deborah Ryan, an attorney in the Division of General Law, Office of the Solicitor, and submitted by the Solicitor's Office to OHA as a proposal for its consideration. Substantial changes were made by Paul T. Baird, Director of OHA.

Lists of Subjects in 43 CFR Part 4

Administrative practice and procedure.

Dated: October 3, 1985.

Ann Dore McLaughlin,

Under Secretary.

Accordingly, 43 CFR Part 4, Subparts B, D, and I are amended as follows:

PART 4—DEPARTMENT HEARINGS AND APPEALS PROCEDURES

1. The authority citation for Part 4 continues to read as follows:

Authority: R.S. 2478, *as amended,* 43 U.S.C. 1201, unless otherwise noted.

Subpart B—General Rules Relating to Procedures and Practice

2. Section 4.5 is revised to read as follows:

§ 4.5 Power of the Secretary and Director.

(a) *Secretary.* Nothing in this part shall be construed to deprive the Secretary of any power conferred upon him by law. The authority reserved to the Secretary includes, but is not limited to:

(1) The authority to take jurisdiction at any stage of any case before any employee or employees of the Department, including any administrative law judge or board of the Office, except the Board of Contract Appeals, and render the final decision in the matter after holding such hearing as may be required by law; and

(2) The authority to review any decision of any employee or employees of the Department, including any administrative law judge or board of the Office, or to direct any such employee or employees to reconsider a decision, except decisions by the Board of Contract Appeals.

(b) *The Director.* Pursuant to his delegated authority from the Secretary, the Director may assume jurisdiction of or review any case before any board of the Office or direct reconsideration of any decision by any board of the Office except the Board of Contract Appeals.

(c) *Exercise of Reserved Power.* If the Secretary or Director assumes jurisdiction of a case or reviews a decision, the parties and the appropriate Departmental personnel will be advised in writing of such action, the administrative record will be requested, and, after the review process is completed, a written decision will be issued.

3. Section 4.27(b) is revised to read as follows:

§ 4.27 Standards of Conduct

* * * * *

(b) *Ex parte communication.*—(1) *Prohibition.* There shall be no communications concerning the merits of a proceeding between any party to the proceeding or any person interested in the proceeding or any representative of a party or interested person and any Office personnel involved or who may reasonably be expected to become involved in the decisionmaking process on that proceeding, unless the communication, if oral, is made in the presence of all other parties or their representatives, or, if written, is furnished to all other parties. Proceedings include cases pending before the Office, rulemakings amended Part 4 of this title that might affect a pending case, requests for reconsideration or review by the Director, and any other related action pending before the Office. The terms "interested person" and "person interested in the proceeding" include any individual or other person with an interest in the agency proceeding that is greater than the interest that the public as a whole may have. This regulation does not prohibit communications concerning case status or advice concerning compliance with procedural requirements unless the area of inquiry is in fact an area of controversy in the proceeding. Any oral communication made in violation of this regulation shall be reduced to writing in a memorandum to the file by the person receiving the communication and shall be included in the record. Any written communication made in violation of this regulation shall be included in the record. In proceedings other than informal rulemakings copies of the memorandum or communication shall be provided to all parties, who shall be given an opportunity to respond in writing.

(2) *Sanctions.*—The administrative law judge, board, or Director who has responsibility for the matter with respect to which a prohibited communication has been knowingly made may impose appropriate sanctions on the offending person or persons, which may include requiring an offending party to show cause why its claim, motion, or interest should not be dismissed, denied, or otherwise adversely affected; disciplining offending Office personnel pursuant to the Department's standards of conduct (43 CFR Part 20); and invoking such sanctions against other offending persons as may be appropriate under the circumstances.

Subpart D—Rules Applicable in Indian Affairs Hearings and Appeals

* * * * *

§ 4.317 [Amended]

4. In § 4.317, paragraph (b) is removed, and paragraph (c) is redesignated as paragraph (b).

Subpart I—Special Procedural Rules Applicable to Practice and Procedure for Hearings, Decisions, and Administrative Review Under Part 17 of This Title—Nondiscrimination in Federally Assisted Programs of the Department of the Interior—Effectuation of Title VI of the Civil Rights Act of 1964

§ 4.832 [Amended]

5. The heading of § 4.832 is revised to read: § 4.832 Consultation and advice.

6. In § 4.832, paragraph (a) is removed, and paragraphs (b) and (c) are redesignated as paragraphs (a) and (b).

BILLING CODE 4310–10–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Parts 59 and 61

[Docket No. FEMA–FIA]

National Flood Insurance Program

AGENCY: Federal Insurance Administration (FIA), Federal Emergency Management Agency (FEMA).

ACTION: Final rule; correction.

SUMMARY: This correction relates to the final rule that was published in the **Federal Register** on September 4, 1985 (50 FR 36016–36029), regarding changes in the National Flood Insurance Program (NFIP) regulations.

On page 36023 in the left-hand column in the definition of "Breakaway wall", the word "of" appearing between the words "building" and "supporting" should be "or". Also on page 36023, in the left-hand column in the definition of "Elevated building", the word "floor" appearing between the phrases "parallel to the" and "of the water" should be "flow". On page 36027 in the right-hand column, a subparagraph was added to paragraph B of the PROPERTY COVERED section of the General Property Form of the NFIP in Appendix A(2) to 44 CFR Part 61. The last existing subparagraph is numbered "3". The added subparagraph was inadvertently numbered "5", when it should have been numbered "4".

FOR FURTHER INFORMATION CONTACT: Charles M. Plaxico, Federal Emergency Management Agency, Federal Insurance Administration, Room 429, 500 "C" Street, SW, Washington, D.C. 20472; telephone number (202) 646–3422.

Accordingly, in FR Doc. 85–21009, appearing on pages 36016–36029 in the issue of September 4, 1985, the following corrections are made:

PART 59—GENERAL PROVISIONS

§ 59.1 [Corrected]

1. On page 36023 in the left-hand column, the definition of "Breakway wall" is corrected by removing between the word "building" and the word "supporting" the word "of" and adding in its place the word "or".

2. On page 36023 in the left-hand column, the definition of "Elevated building" is corrected by removing between the words "parallel to the" and the words "of the water" the word "floor" and adding in its place the word "flow".

PART 61—INSURANCE COVERAGE AND RATES

Appendix A(2) of Part 61—[Corrected]

3. On page 36027 in the right-hand column, subparagraph "5" of paragraph B of the PROPERTY COVERED section is corrected by renumbering it as subparagraph "4".

Dated: October 9, 1985.

Jeffrey S. Bragg,

Administrator, Federal Insurance Administration.

[FR Doc. 85–25712 Filed 10–28–85; 8:45 am]
BILLING CODE 6718–01–M

44 CFR Part 65

[Docket No. FEMA–6684]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Interim rule.

SUMMARY: This rule lists those communities where modification of the base (100-year) flood elevations is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified base (100-year) elevations for new buildings and their contents and for second layer insurance on existing buildings and their contents.

DATES: These modified elevations are currently in effect and amend the Flood Insurance Rate Map (FIRM) in effect prior to this determination.

From the date of the second publication of notice of these changes in a prominent local newspaper, any person has ninety (90) days in which he can request through the community that the Administrator, reconsider the changes. These modified elevations may be changed during the 90-day period.

ADDRESSES: The modified base (100-year) flood elevation determinations are available for inspection at the office of the Chief Executive Officer of the community, listed in the fifth column of the table. Send comments to that address also.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Matticks, Acting Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 646–2768.

SUPPLEMENTARY INFORMATION: The numerous changes made in the base (100-year) flood elevations on the FIRM(s) make it administratively infeasible to publish in this notice all of the modified base (100-year) flood elevations contained on the map. However, this rule includes the address of the Chief Executive Officer of the community where the modified base (100-year) flood elevation determinations are available for inspection.

Any request for reconsideration must be based on knowledge of changed conditions, or new scientific or technical data.

These modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 65.4.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program.

These elevations, together with the flood plain management measures required by § 60.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time, enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities.

The changes in the base (100-year) flood elevations listed below are in accordance with 44 CFR 65.4.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom

authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical amendments made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 69

[CC Docket No. 78-72; Phase I; FCC 85-551]

MTS and WATS Market Structure

AGENCY: Federal Communications Commission.

ACTION: Memorandum Opinion and Order (MO&O).

SUMMARY: The Federal Communications Commission addresses petitions for reconsideration of modifications made to the access charge plan on further reconsideration, published on April 30, 1985, at 50 FR 18249. The MO&O affirms the decision to eliminate flat-rate charges for non-premium access services and require that these services be billed on a usage-sensitive basis. This action is taken in order to ensure effective competition in the interexchange market.

FOR FURTHER INFORMATION CONTACT: Sandra Eskin (202) 632-9342, William Kirsch (202) 632-6363.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 69

Access charges, Communications common carriers, Telephone.

Memorandum Opinion and Order

In the matter of MTS and WATS Market Structure (CC Docket No. 78-72, Phase I).

Adopted: October 17, 1985.

Released: October 23, 1985.

By the Commission: Commissioner Dawson dissenting.

I. Introduction

1. The *Third Report and Order* in this docket (*Access Charge Order*) [1] established comprehensive rules governing the process by which local telephone companies recover the costs of their facilities and services used in the origination or termination of interstate and foreign communications.[2]

[1] MTS and WATS Market Structure, Third Report and Order, 93 FCC 2d 241 (1983) (hereinafter *Access Charge Order*), *modified on reconsideration,* 97 FCC 2d 682 (1983) (hereinafter *First Reconsideration Order*), *modified on further reconsideration,* 97 FCC 2d 834 (1984) (hereinafter *Second Reconsideration Order*), *aff'd in principal part and remanded in part, Nat'l Ass'n of Regulatory Utility Comm'rs v. FCC.,* 737 F.2d 1095 (D.C. Cir. 1984), *cert. denied,* 105 S.Ct. 1224, 105 S. Ct. 1225 (1985), *modified on further reconsideration,* 49 Fed. Reg. 46, 383 (1984), 50 Fed. Reg. 18, 249 (April 30, 1985) (hereinafter *Third Reconsideration Order*), *appeal pending, U.S. Telephone, Inc., v. FCC,* Nos. 84-1115 and 85-1386 (D.C. Cir., filed March 23, 1984 and June 24, 1985).

[2] The Commission's separations procedures govern the apportionment of local telephone

Continued

These charges are assessed through access tariffs filed by the exchange carriers with this Commission and replace a variety of previous compensation mechanisms. In adopting this access charge plan, we sought to achieve a balance among the following four policy objectives: (1) Preservation of universal service; (2) elimination of unreasonable discrimination of preferences among rates for interstate services; (3) efficient use of the local network; and (4) prevention of uneconomic bypass.[3]

2. In the access charge plan, we also sought to maximize the opportunities for full and fair competition among interexchange carriers during the transition to "equal access," when the inequalities between the interconnection options offered AT&T and the other interexchange common carriers (OCCs) will be eliminated.[4] We did this in part by providing that AT&T would pay a premium access charge during this transition because the access to the local exchange it receives is superior to that available to the OCCs. This premium charge was to be phased out at approximately the same rate as equal access was phased in.

3. This Commission has subsequently amended these "access charge" rules in three orders on reconsideration. In each instance, we reaffirmed our commitment to the objectives set out in the *Access Charge Order,* while modifying in certain respects the means we had selected to achieve those objectives. In the *First Reconsideration Order,* we provided that the lump-sum premium charge on AT&T would be replaced with a 35 percent differential in the per minute charges for the carrier common line element assessed for premium and non-premium access.[5] In the *Second Reconsideration Order,* we provided that the differential between premium and non-premium access charges would be increased to 55 percent and applied to all access elements and that charges for non-premium access be assessed on a flat-rate, per line basis [6] for interexchange carriers providing MTS–WATS equivalent services.[7] In particular, we were concerned that usage-based access charges would result in a sudden and substantial increase in costs for those OCCs with above-average usage per line. We determined that 9,000 minutes per line was a reasonable estimate of average OCC usage and should be used to compute the monthly per line charge.[8] We also provided that non-premium rates would be phased-out on an end-office-by-end-office basis as equal access became available.

4. We addressed the issues raised in the petitions seeking reconsideration of the *Second Reconsideration Order* in two parts. In the first part of the *Third Reconsideration Order,* we addressed the assignment of Category 5 station equipment costs to the special access element and adopted an amendment to the Part 69 rules. In the second part of the *Third Reconsideration Order,* we concluded that the flat-rate charge for non-premium access for OCCs should be replaced with usage-sensitive charges, effective January 1, 1986. With the exception of these modifications, (and several minor perfecting amendments to the Part 69 rules), we reaffirmed the provisions of our access charge plan adopted in the *Second Reconsideration Order.*

5. In response to the *Third Reconsideration Order,* several parties have filed for further reconsideration of our decisions in this proceeding.[9] The issues raised in this fourth reconsideration round concern: (1) The implementation of usage-based charges for non-premium access; (2) LATA-wide access for terminating Feature Group A (FGA); and (3) the phase-out of the non-premium discount on an end-office-by-end-office basis. In this *Order,* we reaffirm our decision in the *Third Reconsideration Order* to eliminate flat-rate charges for non-premium access services and require that these services be billed on a usage-sensitive basis. Furthermore, we dismiss as untimely those petitions asking us to modify our access charge rules to require exchange carriers to provide LATA-wide access for terminating, non-premium FGA traffic and to provide for a phase-out of the non-premium discount on other than an end-office-by-end-office basis.

II. Summary of Comments

A. Usage-Based Charges for Non-Premium Access

6. GTE Sprint Communications Corporation (GTE Sprint), MCI Telecommunications Corporation (MCI), Satellite Business Systems (SBS) and United States Transmission Systems,

company investment and expense between the interstate and the intrastate jurisdictions and are set out in Part 67 of the Commission's Rules. *See* 47 CFR 67.1–67.701 (1984).

[3] *See Access Charge Order* at para. 122.

[4] The MFJ requires that the divested Bell Operating Companies (BOCs) provide all interexchange carriers with local exchange access "on an unbundled tariffed basis that is equal in type, quality and price to that provided to AT&T and its affiliates." *United States v. American Tel. and Tel. Co.,* 552 F. Supp. 131, 227 (D.D.C. 1982) ("*Modification of Final Judgment*" or "*MFJ*"), *aff'd sub nom. Maryland v. United States,* 460 U.S. 1001 (1983). GTE is required to implement equal access pursuant to a Consent Decree entered into with the Department of Justice to settle an antitrust challenge to GTE's acquisition of Sprint. *United States v. GTE Corporation,* 603 F. Supp. 730 (D.D.C. 1984). The remaining independent telephone companies are required to implement equal access in certain end offices pursuant to our order in Phase III of this docket. MTS and WATS Market Structure, CC Docket 78–72, Phase III, Report and Order, 50 FR 15547 (April 19, 1985).

[5] We also modified the original access charge plan by ordering: (1) A more gradual transition to subscriber line charges for residential and Centrex-CO subscribers; (2) establishment of a surcharge on private lines with the capacity to "leak" interstate traffic into the local exchanges; and (3) certain other changes in the distribution of access costs among users of access services. *See* 97 FCC 2d 682 (1983).

[6] In making this determination, we used the rates established in the Exchange Network Facilities for Interexchange Access (ENFIA) tariffs as a benchmark. The ENFIA tariffs were a result of an agreement between the pre-divestiture AT&T and some of the OCCs that governed the charges OCCs would pay for their use of local exchange facilities in completing their customers' interstate calls. The agreement constituted an interim measure to bridge the gap between the court decisions permitting the OCCs to offer services in direct competition with MTS and WATS, *MCI Telecommunications Corp. v. FCC,* 561 F.2d 365 (D.C. Dir. 1977), *cert. denied,* 434 U.S. 1040 (1978) *motion for an order directing compliance with the mandate granted,* 580 F.2d 590 (D.C. Cir. 1978), *cert. denied,* 439 U.S. 980 (1978), and our determination in this proceeding of an appropriate access charge structure for all interexchange carriers. *See* Exchange Network Facilities (ENFIA), Memorandum Opinion and Order, 71 FCC 2d 440 (1979). Thus, the system of access charges we have provided in the Part 69 rules was intended to supplant the ENFIA rate structure. *See Second Reconsideration Order* at paras. 51–55.

[7] In the *Second Reconsideration Order,* we further modified the access charge plan by deferring customer line charges for residential and single-line business subscribers pending further examination of various issues concerning the implementation of such charges. We also addressed the application of access charges to, *inter alia,* the closed end of WATS lines, the open end of foreign exchange lines (FX) lines, and "leaky" private lines. 97 FCC 2d 834 (1984). We subsequently referred a number of access charge issues to the existing Federal-State Joint Board in CC Docket No. 80–286. On November 15, 1984, the Joint Board adopted a recommendation for several modifications to our existing plan, including the implementation of subscriber line charges for residential and single-line business subscribers of $1.00 per month beginning June 1, 1985, with an increase to $2.00 per month beginning June 1, 1986. MTS and WATS Market Structure and Amendment of Part 67, Recommended Decision and Order, 49 FR 48325 (1984). On December 19, 1984, we adopted the Joint Board's recommendations with a few minor clarifications and changes. MTS and WATS Market Structure and Amendment of Part 67, Decision and Order, 50 FR 939 (1985). The $1.00 charge for residential and single-line subscribers did, in fact, go into effect on June 1, 1985.

[8] The non-premium per line charge is obtained by multiplying a hypothetical premium charge per access minute for each relevant access element by 4,050 (45 percent of 9000) minutes. *See Second Reconsideration Order* at para. 87.

[9] The parties filing petitions for reconsideration, oppositions, and reply comments are listed in Appendix A.

Inc. (USTS) seek reversal of our decision to require usage-based charges for FGA access beginning January 1, 1986. These OCCs argue that this action will increase their costs and that rather than fostering competition in the interexchange services marketplace, as suggested by the Commission, this change will have a negative impact on the OCCs' ability to compete with AT&T. GTE Sprint states that no OCC, large or small, protested the continued use of flat charges for FGA access.[10] MCI argues that Lexitel, in a petition the Commission cited in the *Third Reconsideration Order* in support of its decision, did not request that flat-rate FGA be eliminated, but only that the availability of a usage-based FGA option for OCCs be affirmed.[11] SBS contends that the Commission did not adequately explore alternative possibilities to address the problems it identified with the flat-rate charge, such as allowing the OCCs the option of choosing either flat or usage-based charges.[12] USTS agrees with SBS and argues that providing the OCCs with such an option would fully address the needs of small carriers, while allowing the larger carriers with high, per line usage levels to continue to benefit from the flat rate. It further contends that the Commission could eliminate potential abuses by restricting an OCC to either flat-rate or usage-based charges for all its lines in a LATA or a local exchange area.[13]

7. MCI and SBS assert that the flat-rate charge for FGA reflects the rate structure that has been in place since the original ENFIA agreement in 1976 and that the OCCs have designed their networks on the assumption that non-premium access will be priced on a flat-rate basis.[14] MCI also asserts that there is no record evidence to support the Commission's concerns about the potential role of the flat-rate charge as a barrier to entry.[15] It further argues that eliminating the flat rate will result in higher costs for those OCCs that have the best chance of surviving the transition to equal access.[16] USTS states that it has scaled its operations to achieve above-average access line loadings and the abrupt change to a usage-based structure will result in a sixty percent increase in its FGA access costs.[17] Finally, GTE Sprint argues that there is an insufficient record to support the Commission's conclusion that measurement capabilities are no longer a barrier to the implementation of usage-based charges for FGA and FGB services.[18]

8. American Telephone and Telegraph Company (AT&T) and several Bell Operating Companies (BOCs) [19] oppose the OCCs' petitions. AT&T argues that the OCCs' attack on the Commission's decision to implement usage-based charges for FGA access is merely an attempt to gain an unfair competitive advantage by expanding the differential for non-premium access.[20] AT&T argues that, contrary to the contentions of some OCCs, the Commission has not altered the discount for non-premium access by eliminating the flat rate, but simply has made the discount equal for all OCCs based on actual usage.[21] AT&T asserts that this is not a shift in regulatory policy, but a conformance to the clearly stated of nondiscrimination.[22] AT&T states that, as GTE Sprint recognizes, allowing OCCs to order non-premium FGA on either a flat rate or usage-sensitive basis, at their option, would result in a discount to the OCCs greater than the 55 percent established by this Commission.[23]

9. The BOCs contend that the flat-rate structure has encouraged inefficient use of the local network, since it permits the OCCs to increase their minutes of use per line, and thereby impose additional costs on the local exchange carriers, without requiring the payment of any additional charges. They argue that this is not consistent with the Commission's general policy of requiring cost-based rates. Ameritech argues that the petitioning OCCs seek to extend the artificial advantage that comes with a choice of rate structures and that the Commission's duty is to protect the public interest, not the special advantages of a few access customers.[24] In addition, NYNEX asserts that a usage-based structure is more consistent with the Commission's efforts to promote greater competition in the interexchange marketplace.[25]

10. Pacific Bell contends that whatever the level of the discount, it should be applied evenly to all OCCs and that such equality of treatment cannot be achieved with a flat rate.[26] Pacific Bell adds that it has measurement capabilities in 95% of its FGA offices.[27] Ameritech states that the nine-month interim period allows sufficient time for the OCCs to perform desired reconfigurations and adds that Illinois Bell is able to measure usage on approximately 97% of all its FGA lines.[28]

11. In reply to these oppositions, MCI states that a comprehensive look at the transition to equal access, including reconsideration of the decision to eliminate the flat-rate option for FGA, is necessary if the goals the Commission set forth in this docket are to be accomplished.[29] GTE Sprint argues that the record still lacks adequate information on the extent of measurement capabilities in exchange carriers end offices.[30] GTE Sprint contends that the Commission's conclusion that such capability is widespread is inconsistent with the fact that NECA's interstate tariff and at least 42 BOC intrastate access tariffs contain provisions for assumed usage in instances where usage cannot be measured. GTE Sprint asserts that the Commission should initiate an additional proceeding to gather information from the exchange carriers about their ability to measure FGA usage to determine whether the elimination of flat-rate charges will force them to invest in measuring equipment that will become useless with the implementation of equal access. Finally, GTE Sprint argues that the BOCs have not explained why a usage-based system of access charges is more cost-based than a flat-rate system, since most access costs are non-traffic sensitive (NTS) and have no relation to an OCC's minutes of use.[31]

B. LATA-Wide Access for Terminating FGA

12. Ad Hoc Telecommunications Users Committee (Ad Hoc) and MCI request that we reconsider our decision that the tariff process is the proper forum for the resolution of the issue of LATA-wide access for terminating non-premium FGA traffic. Ad Hoc believes that the Commission should institute a rulemaking to resolve the issue of LATA-wide access for FGA and clarify that the *Third Reconsideration Order* does not permit exchange carriers to

impose intrastate toll charges to carry OCC interstate traffic to distant points in a LATA.[32] MCI asserts that LATA-wide access is a tariff issue only to the extent that the appropriate local transport rate level is concerned.[33] Aeronautical Radio, Inc. (ARINC) and the Alternative Carrier Telecommunications Association (ACTA) support these petitions. ARINC believes that the Commission should establish an appropriate and uniform rate structure for FGA transport charges and argues that the tariff review process would only permit consideration of these charges on a piecemeal basis.[34]

13. The National Exchange Carrier Association (NECA), the Southern New England Telephone (SNET), and NYNEX oppose reconsideration of our decision on LATA-wide access for terminating FGA. These parties agree with the Commission's determination that the tariff process is the appropriate forum for addressing this issue. NECA and NYNEX argue that Ad Hoc's concern about the potential for exchange carrier double recovery is clearly unfounded. NECA and NYNEX point out that if the service area associated with the provision of terminating FGA is defined as the local calling area, only those costs associated with facilities used to transport the call within the local calling area are assigned to the interstate jurisdiction under Part 67.[35] NECA and SNET argue that to the extent an exchange carrier cannot identify jurisdictional usage of FGA access arrangements, customers have an incentive to engage in tariff shopping to achieve a lower rate.[36] SNET adds that it has experienced attempts by large customers to purchase the lower priced interstate FGA lines as replacements for intrastate services.[37] And SNET states that, in any event, Ad Hoc's petition does not provide any new information that was not already considered in the Commission's decision on FGA LATA-wide access.[38]

14. MCI replies that the Commission's rules do not allow the application of intrastate toll charges to interstate FGA traffic.[39] Ad Hoc added that it is unaware of any cost support data showing that FGA rates have been reduced by deducting from the local transport charges those costs that are associated with transporting a call outside of the local calling area.[40] Ad Hoc argues that, to the extent an exchange carrier attempted to differentiate transport costs in this manner, it would be in violation of Commission and court rulings.[41] Ad Hoc contends that the opponents of its petition cannot justify surcharging FGA service with intrastate toll charges and that its petition should be granted to assure that FGA charges are cost supported and not unlawfully discriminatory.[42]

C. Phase-Out of the Non-Premium Discount on an End-Office Basis

15. Lexitel requests reconsideration of the Commission's decision to phase-out the non-premium discount when Feature Group D (FGD) becomes available in an individual end office. Lexitel asserts that based on actual experience with end-office conversion procedures, it has become apparent that the end-office-by-end-office implementation of FGD and the related presubscription procedures utilized by the exchange carriers are not producing fair opportunities for interexchange competition.[43] Lexitel believes that FGD deployment and the application of premium rates should be related to LATAs or markets, and not to end offices. Lexitel further contends that even when FGD is implemented, it is not equal access for certain services, such as 800 service.

16. AT&T and several BOCs[44] oppose Lexitel's petition. AT&T argues that the Commission already has rejected the requests of several OCCs, including Lexitel, to abandon the end-office approach to phasing out the discount.[45] AT&T contends that Lexitel's present request is repetitious and does not present new or unique circumstances that warrant reconsideration. AT&T adds that, contrary to Lexitel's assertion, the so-called "NXX-Plan" will allow all interexchange carriers to provide 800 service.[46] Bell Atlantic states that its current equal access implementation plans are entirely consistent with the Commission's objectives and do not provide any justification for further modifications to the discount rate structure.[47] NYNEX points out that many of the issues raised by Lexitel have also raised by four OCCs in a Joint Petition for Expedited Rulemaking on the status of competition in the interLATA market and asserts that these issues would be more appropriately addressed in that proceeding.[48] Pacific Bell argues that once equal access is available, there is no justification for delaying the application of premium rates.

17. Lexitel replies that factual information obtained by the Commission subsequent to the adoption of a decision should be considered in determining whether the original decision was proper.[49] In this instance, Lexitel argues that, while its petition is technically untimely, the actual experience with the FGD conversion process demonstrates that the assumptions underlying the non-premium access phase-out need to be reconsidered.[50]

III. Discussion

A. Usage-Based Charges for Non-Premium Access

18. In this proceeding we have considered at length what the appropriate level and rate structure should be for the charges that OCCs pay for non-premium access in end offices not yet converted to equal access.[51] In the *Third Reconsideration Order,* we determined that the establishment of usage-based charges for non-premium access was necessary to avoid any unreasonable discrimination against smaller, newer OCCs whose average usage levels are below the monthly, per line figure of 9,000 minutes of use (MOU) on which the flat-rate charge is based. We also provided for a transition period for the establishment of the new rate structure for non-premium access, by directing that the present rate structure remain in effect through the end of this year. In this *Order,* we reaffirm those decisions.

19. A number of larger OCCs assert that our concerns about small OCCs are misplaced, as evidenced by the lack of opposition from these latter carriers to

[49] Lexitel Reply Comments at 2.

[50] Lexitel subsequently filed a motion for leave to file supplemental reply comments to address the issue of the availability of 800 Service Access to the OCCs. AT&T opposed Lexitel's motion. In light of our holding that the 800 Service issue is not properly raised in this reconsideration round and the fact that this issue has been properly raised, and will be addressed, in other proceedings, we deny Lexitel's motion. *See infra* at paras. 28–29.

[51] *See Access Charge Order* at paras. 151–68, *First Reconsideration Order* at paras. 91–127, and *Second Reconsideration Order* at paras. 51–92.

the continued use of flat charges for FGA access. However, Lexitel, TDX, and ATE—all relatively small OCCs—sought Commission action clarifying that they could obtain non-premium FGA access lines on a usage-sensitive basis.[52] These carriers asserted that their ability to compete in the interexchange marketplace would be seriously impaired if they were required to purchase non-premium access on a flat-rate basis. Indeed, Lexitel asserted that under a flat-rate structure:

> smaller OCCs and resellers, who often are recent entrants into the long distance services market, would pay access rates in excess of their own usage to subsidize rates paid by the larger, older OCCs below that warranted by their usage. This is unlawfully discriminatory and violative of Commission policies.[53]

To support this position, Lexitel pointed out that under the NECA flat-rate tariff, its non-premium rate, given its average usage level of 7500 MOU per line per month, computed to $0.045 per minute, while GTE Sprint, averaging over 12,000 MOU per line per month, paid only $0.028 per minute, a differential of 60% in access costs.[54] Thus, to the extent that GTE Sprint and MCI are asserting that the smaller OCCs are indifferent about whether Part 69 provides for usage-based or flat-rate charges for non-premium FGA access, they are clearly incorrect.

20. These petitioners' real argument is that we should provide all OCCs with the option of ordering non-premium access on either a flat-rate or usage-sensitive basis. This, in effect, would make the phenomenon referred to in the *Third Reconsideration Order* as the "FX Loophole" a permanent feature of our access charge rules. While we concluded in the *Third Reconsideration Order* that Part 69 did not prohibit the use of the FX loophole by OCCs, it was never our intent to have the FX loophole become a permanent part of our rules. We decided to continue the present rate structure, including the FX loophole, until January 1, 1986, only because the available alternatives were unacceptable—*i.e.*, moving immediately to a full usage-based rate structure would not have provided the larger OCCs with an adequate transition period, and closing the FX loophole, by requiring that the flat rate be applied to all OCC non-premium access during that transition period, would have been unduly harmful to the smaller OCCS.

21. The establishment of usage-based charges for non-premium access will ensure that the prescribed 55% discount—no more, no less—will be applied to all the non-premium traffic of the OCCs, both individually and as a group. The continuation of a flat-rate, non-premium access charge for OCCs with over 9,000 minutes of use, in conjunction with usage-based charges for OCC lines with lower usage, would not fully address the problem of differing treatment between large and small OCCs. Furthermore, such a rate structure would result in an overall OCC discount for non-premium access that would exceed the prescribed 55% level.[55]

22. Some larger OCCs have asserted that the decision to implement usage-based charges for non-premium access impacts most negatively on those OCCs with the greatest chance of surviving the transition to equal access and that assistance to such OCCs would have a positive effect on the smaller OCCs as well, with such actions providing investor confidence in the OCCs generally. It would not be appropriate policymaking, however, for us to slant our rules to favor firms that we forecast will be "winners" in the competitive battle and, in effect, write-off other competitors that we forecast will be "losers." It is for the marketplace, not this Commission, to determine which competitors will be "winners" and "losers." It is the responsibility of this Commission to ensure that all carriers receive an equal opportunity to compete in that marketplace. The establishment of usage-based charges for non-premium access will provide all OCCs with that equal opportunity.

23. Some OCCs also complain that the shift to usage-based charges will be seriously disruptive to their network design activities and overall planning. We are sensitive to the fact that OCCs need time to adjust their plans in light of this change in the non-premium rate structure. It was for this reason that we provided an extensive transition period for the shift to usage-based charges. We are confident that the implementation of such charges on January 1, 1986,—more than nine months after the adoption of the *Third Reconsideration Order*—provides that this change will not be unduly disruptive to the operations of the larger OCCs, who have made the greatest use of flat-rate, non-premium access.

24. We also find no basis for reversing our decision to require usage-based charges in GTE Sprint's unsupported assertions that there may be a substantial number of end offices without measurement capability. Indeed, all the evidence on this point in the record indicates that the vast majority of end offices do have such measurement capability.[56] While GTE Sprint attempts to dismiss this evidence as not comprehensive enough, it presents no evidence of its own to the contrary.[57] While in other circumstances we might decide to supplement an existing rulemaking record by undertaking the type of data-gathering exercise GTE Sprint asserts is necessary here, we conclude that the need for such an exercise, which would delay the implementation of an important change in the rate structure for non-premium access, is not invoked by the bare assertions in GTE Sprint's petition.

25. In any event, the gravamen of GTE Sprint's complaint—that the establishment of a usage-based rate

---

[52] *See Third Reconsideration Order* at paras. 14–20.

[53] Lexitel Petition for Clarification, CC Docket Nos. 78–72, Phase I, and 83–1145, Phase I (February 21, 1985) at Summary.

[54] *See Third Reconsideration Order* at n. 40.

[55] For example, Ameritech states that approximately one-half of Illinois Bell's OCC FGA lines carry more than 9000 MOU per line per month and approximately half carry less than that. It adds that the average usage per month on lines that exceed 9000 MOU is 13,199 MOU, while the average usage for lines with usage below 9000 MOU is 5133 MOU. Ameritech Opposition at 7. Thus, if the FX loophole were made a permanent part of the access charge plan, the non-premium discount for OCCs in the aggregate in Illinois Bell's operating area would be approximately 62%. (This is assuming that all lines with average usage above 9000 MOU would be paid for on a flat-rate basis, and all lines with less than 9000 MOU would be paid for on a usage-sensitive basis.) On the other hand, under a pure flat-rate structure, in Illinois Bell's operating area, traffic on FGA lines with more than 9000 MOU per line would receive on average a 69% discount, while traffic on FGA lines with less than 9000 MOU per line would receive only a 21% discount.

[56] Pacific Bell states that it has measurement capability in 95% of its FGA offices. Pacific Bell Opposition at 4–5. Ameritech states that Illinois Bell can measure usage on 97% of its FGA lines. Ameritech Opposition at 7. Furthermore, in a recent order addressing rate structure tariff revisions filed by NECA and certain BOCs, we estimated that approximately 95% of all end offices are currently equipped with measurement capability, and found that this number will continue to rise as local exchange carriers install measurement equipment in an increasing number of end offices. National Exchange Carrier Association, Inc., Memorandum Opinion and Order, Trans. No. 60, Memorandum Opinion and Order, Mimeo No. 6564, released August 23, 1985, at n. 30.

[57] GTE Sprint's references to exchange carrier tariff provisions for assumed usage in end offices where actual usage cannot be measured does not constitute such evidence. Any exchange carrier with measurement capability in less than 100% of its end offices (such as Pacific Bell and Illinois Bell, which clearly can measure usage on the vast majority of FGA lines) must include some provisions in its tariffs to bill for traffic in those end offices where usage cannot be measured. Such provisions simply indicate that measurement capability is not universal, and not that there is a widespread absence of such capability.

structure for non-premium access will require substantial expenditures by the exchange carriers to install equipment with measurement capability—is simply incorrect. There has never been any provision in the Part 69 rules requiring the installation of such equipment and the *Third Reconsideration Order* made no change in this regard. The presently effective rules do provide for the provision of FGA on a usage-sensitive, as well as a flat-rate, basis. Indeed, it is the availability of this usage-based option that gave rise to the "FX loophole" phenomenon discussed above. But we have permitted exchange carriers without measurement capability in their end offices to bill all their FGA customers on a flat-rate basis. This situation will not change on January 1, 1986—that is, in end offices without measurement capability, FGA may continue to be billed on a flat-rate basis. We recently addressed the mechanics for implementing such flat-rate charges, both for the transition period ending January 1, 1986, and thereafter.[58] Thus, in those end offices without measurement capability, GTE Sprint will be able to continue to receive FGA access on a flat-rate basis, a result which presumably it will find advantageous, and not detrimental to its interests.

B. LATA-Wide Access for Terminating FGA

26. The petitions for reconsideration raising the issue of LATA-wide access for terminating FGA traffic are procedurally defective. As we noted in the *Third Reconsideration Order,* the Part 69 rules do not specify any particular geographic scope for the transport element. This was true when the rules were originally promulgated, and none of the subsequent reconsideration orders, including the *Third Reconsideration Order,* made any change in this regard. Therefore, the requests for reconsideration of this issue are dismissed as untimely.

27. Furthermore, we reaffirm our conclusion that the tariff review process provides the proper forum for resolving any concerns about LATA-wide access for terminating non-premium FGA traffic. Indeed, in the recent access tariff filings, some exchange carriers filed tariff revisions to impose intrastate toll rates on FGA traffic terminating outside the local calling area (the practice that the petitioners here appear most concerned with), and these proposals attracted substantial comment. In a recent Order, the Common Carrier Bureau rejected these proposed changes.[59] If review of this aspect of the Bureau Order is sought before the Commission, we will address the Bureau's holding on this issue. Thus, we see no basis for concluding that the tariff review process is not providing for adequate ventilation and resolution of these issues.

C. Phase-Out of the Non-Premium Discount on an End-Office Basis

28. The *Third Reconsideration Order* also affirmed the determination we made in the *Second Reconsideration Order* that the non-premium discount should be phased-out on an end-office-by-end-office basis.[60] In doing so, we rejected petitions for reconsideration filed by a number of OCCs on this aspect of the access charge plan. Therefore, the petition for reconsideration of this issue filed by Lexitel is repetitious and untimely.

29. Moreover, the issue of the phase-out of the non-premium discount is raised in the joint rulemaking petition filed by four OCCs addressing the status of competition in the interLATA services market.[61] This petition and the responsive pleadings (including comments filed by Lexitel) raise all the factual and policy issues identified by Lexitel in its reconsideration petition. We believe that, to the extent it is appropriate to address this issue again in light of new facts or changed circumstances, the OCC joint petition provides the proper vehicle for that reexamination. In this reconsideration round, Lexitel also has attempted to raise, in the first instance, the issue of interexchange carrier access to 800 Service. This request also is not timely. In addition, this issue is also raised in the OCC joint petition and related issues have been raised in a petition Bell Atlantic has filed for a rulemaking to address the exchange carriers' 800 Service obligations under the Communications Act.[62] We conclude that it also is more appropriate to address the 800 Service issue in one of those proceedings, in which it has been properly raised.

IV. Ordering Clauses

30. Accordingly, it is hereby ordered, that pursuant to 47 U.S.C. 154 (i) and (j), 201, 202, 203, 205, 218, and 403, and 5 U.S.C. 553, the petitions for reconsideration of the *Third Reconsideration Order* are denied.

31. It is further ordered, that the Motion for Leave to File Supplemental Reply Comments requested by Lexitel is DENIED.

32. It is further ordered, that the Secretary shall cause this order to be published in the **Federal Register.**

William J. Tricarico,

Secretary.

Appendix A

The following parties filed petitions for reconsideration or clarification:

The Ad Hoc Telecommunications Users Committee (Ad Hoc)
GTE Sprint Communications Corporation (GTE Sprint)
Lexitel Corporation
MCI Telecommunications Corporation (MCI)
Satellite Business Systems (SBS)
United States Transmission Systems, Inc. (USTS)

The following parties filed oppositions to, or comments, on the petitions:

Aeronautical Radio Inc. (ARINC)
The Alternative Carrier Telecommunications Association (ACTA)
Ameritech Telephone and Telegraph Company (AT&T)
The American Companies
Bell Atlantic
National Exchange Carrier Association (NECA)
NYNEX
Pacific Bell
The Southern New England Telephone Company (SNET)

The following parties filed reply comments to the oppositions or comments:

The Ad Hoc Telecommunications Users Committee (June 13, 1985 and July 18, 1985)
American Telephone and Telegraph Company
GTE Sprint Communications Corporation

---

[58] *See NECA Order, supra* note 56, at para. 19. In that Order, we required NECA and the BOCs to establish a new surrogate for use at end offices lacking measurement capability (based on data drawn exclusively from such end offices) by the January 1, 1986, implementation date for usage-based non-premium access charges.

[59] *See In the Matter of Annual 1985 Access Tariff Filings,* Memorandum Opinion and Order (Common Carrier Bureau), Mimeo No. 7401 (released September 30, 1985) (hereinafter *Access Tariff Order*). In this Order, the Bureau noted at the outset that the proposed tariff revisions raised a rate question, and not a question dealing with the geographic scope of FGA terminating access. It concluded that when a local exchange company provides terminating service for interstate calls, whether within the local calling area or the LATA, it must apply interstate access charges; and, therefore, the Bureau declared unlawful those proposed tariff revisions that purported to apply another, intrastate rate. *See Access Tariff Order* at paras. 104–09.

[60] *See Third Reconsideration Order* at paras. 26–30.

47 CFR Part 73

[MM Docket No. 85–72; RM–4899]

TV Broadcast Station in Altus, OK; Change in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein substitutes noncommercial educational UHF TV Channel *27 for Channel *19 at Altus, Oklahoma, at the request of Thornberry Television, Ltd. The substitution of channels will permit Station KJTL–TV at Wichita Falls, Texas, to relocate its transmitter and upgrade its facilities in compliance with the Commission's mileage separation requirements.

EFFECTIVE DATE: November 29, 1985.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Report and Order (Proceeding Terminated)

In the matter of amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations. (Altus, Oklahoma) (MM Docket No. 85–72, RM–4899).

Adopted: October 15, 1985.

Released: October 23, 1985.

By the Chief, Policy and Rules Division.

1. The Commission has before it for consideration the *Notice of Proposed Rule Making*, 50 FR 14952, published April 16, 1985, proposing the substitution of noncommercial education UFH TV Channel *27 for Channel *19 at Altus, Oklahoma, at the request of Thornberry Television, Ltd. ("Thornberry"). Comments were filed by Thornberry [1] and the Oklahoma Educational Television Authority ("OETA").

2. Thornberry, permittee of Station KJTL–TV, Channel 18, at Wichita Falls, Texas, applied for a construction permit to relocate its transmitter and upgrade its facilities. However, its new transmitter site would create a 9 mile short-spacing to the reference coordinates for unused and unapplied for Channel *19 at Altus. Thus, it sought the substitution of Channel *27 at Altus.

3. OETA states that it has operated a translator station on Channel *19 at Altus for more than seven years. While it does not object to the substitution of channels, *per se*, requests that it be allowed to continue operating on Channel *19 or if that is not possible, that the change of channel be done by modifying its license herein, and that it be given enough time to effect an orderly transition.

4. Thornberry states that the Commission has granted it a waiver of the mileage separation requirements, based upon its efforts to eliminate the short-spacing to the Altus channel, and authorized Station KJTL–TV to construct at its new site. It has now completed the construction, commenced program test operations, and applied for a covering license. According to Thornberry, KJTL–TV and OETA's translator have coexisted peacefully since the station commenced operations from the new transmitter site. However, it contends that any impact which station KJTL–TV's operation might have on OETA's translator service is not relevant here in that translators are a secondary service and thus not entitled to interference protection from any new or existing full power television service.

5. Channel *27 can be allocated to Altus in compliance with the Commission's minimum distance separation and other technical requirements. We agree with Thornberry that OETA's translator operation at Altus can continue to operate on Channel *19 so long as it does not cause harmful interference to any full service television operation. As a secondary operation, however, it is not entitled to any such interference protection to its own operation. See § 74.702 of the Commission's Rules. Should OETA ultimately decide to change its channel of operation, it must file a new application specifying its requested frequency as we cannot modify its license herein. See *Report and Order*, BC Docket 78–253, 51 R.R. 2d 476 (1982).

PART 73—[AMENDED]

6. We believe the public interest would be served by substituting Channel *27 for Channel *19 at Altus as it will permit expanded television service to Wichita Falls, Texas, by Station KJTL–TV. Accordingly, it is ordered, that effective November 29, 1985, the Television Table of Assignments, § 73.606(b) of the Commission's Rules, is amended, with respect to the community listed below, to read as follows:

City	Channel No.
Altus, OK	*27

7. It is further ordered, that this proceeding is terminated.

8. For further information concerning this proceeding, contact Leslie K. Shapiro, Mass Media Bureau (202) 634–6530.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

GENERAL SERVICES ADMINISTRATION

48 CFR Parts 516 and 552

[APD 2800.12 CHGE 18]

Acquisition Regulation; Types of Contracts

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Final rule.

SUMMARY: The General Services Administration Acquisition Regulation (GSAR) Chapter 5, is amended to add Subpart 516.2 to provide implementing instructions regarding the use of Economic Price Adjustment clauses; to add sections 516.301–3, 516.306, 516.403, and 516.603–3 to provide instructions on the format and signatory authority for various determinations and findings required in connection with the use of different types of contracts; to add section 516.405 to provide instructions on the development of appropriate award fee clauses; and to add section 552.216–71 to provide the text of an Economic Price Adjustment clause to be

[1] Thornberry filed a Motion for Leave to accept its late-filed comments. It states that it had not realized the necessity for filing further comments in support of the Altus substitution. Thus, when brought to its attention by the staff, it promptly filed the required comments. We find that Thornberry's comments should be accepted for the purpose of confirming its intention to relocate and upgrade its Wichita Falls operation.

used in Federal Supply Service (FSS) multiple award schedule contracts. The intended effect is to improve the regulatory coverage and to provide uniform procedures for contracting under the regulatory system.

EFFECTIVE DATE: October 18, 1985.

FOR FURTHER INFORMATION CONTACT: L. Gaye Hirz-Kester, Office of GSA Acquisition Policy and Regulations (VP), (202) 523–4763.

SUPPLEMENTARY INFORMATION:

Background

On April 24, 1985, the General Services Administration published in the **Federal Register** (50 FR 16115) GSAR Notice No. 5–16 inviting comments from interested parties on these proposed changes to the regulation and provided a 30-day comment period. The comments received from the American Bar Association and various GSA offices have been reviewed, reconciled, and incorporated, when appropriate, in this final rule.

Impact

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies to this rule. The General Services Administration (GSA) certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et. seq.). The rule has no impact outside the agency. It establishes signatory approval levels within the agency for determination and findings required to use certain types of contracts. The rule also establishes procedures for the preparation and approval of certain types of contract clauses. Accordingly, no regulatory flexibility analysis has been prepared. The rule does not contain information collection requirements which require the approval of OMB under 44 U.S.C. 3501 et. seq.

List of Subjects in 48 CFR Parts 516 and 552

Government procurement.

1. The authority citation for 48 CFR Parts 516 and 552 continues to read as follows:

Authority: 40 U.S.C. 486(c).

2. The table of contents for Part 516 is amended by adding entries for sections 516.203, 516.203–4, 516.203–70, 516.301, 516.301–3, 516.306, 516.403, 516.405, 516.603, and 516.603–3 as set forth below:

PART 516—TYPES OF CONTRACTS

Subpart 516.2—Fixed-Price Contracts

Sec.

516.203 Fixed-price contracts with economic price adjustment.
516.203–4 Contract clauses.
516.203–70 EPA in FSS multiple award schedules.

Subpart 516.3 Cost-Reimbursement Contracts

516.301 General.
516.301–3 Limitations.
516.306 Cost-plus-fixed-fee contracts.

* * * * *

Subpart 516.4 Incentive Contracts

516.403 Fixed-price incentive contracts.
516.405 Contract clauses.

Subpart 516.6 Time-and-Materials, Labor-Hour, and Letter Contracts

516.603 Letter contracts.
516.603–3 Limitations.

3. Subpart 516.2 is added to read as follows:

Subpart 516.2—Fixed-Price Contracts

516.203 Fixed-price contracts with economic price adjustment.

516.203–4 Contract clauses.

(a) When the contracting officer makes a determination, in accordance with FAR 16.203–4(d), to use a clause which provides for adjustments based on cost indexes of labor or material, the clause shall be prepared with the advice and assistance of counsel and be approved by the contracting director. The contracting officer shall describe in the contract clause—

(1) The type of labor and/or material subject to adjustment;

(2) The labor rates, including fringe benefits (if any) and/or unit prices of materials that may be increased or decreased;

(3) The index(es) that will be used to measure changes in price levels and the base period or reference point from which changes will be measured; and

(4) The period during which the price(s) will be subject to adjustment.

(b) In Federal Supply Service (FSS) multiple award schedule (MAS) procurements the contracting director will make a determination, in accordance with FAR 16.203–2, to use an Economic Price Adjustment (EPA) clause. In making that determination, the term of the resulting MAS contract will be considered. An EPA clause will generally be included in multiyear contracts but normally will not be used in 1-year contracts. In 1-year contracts, when the contracting director has made a determination to use an EPA clause and the prices are to be negotiated on the basis of discounts from established catalog prices of products sold in substantial quantities to the general public, the contracting officer shall include the basic clause at GSAR 552.216–71 in MAS solicitations and contracts. In multiyear contracts, the alternate clause will be used under these conditions. These clauses are to be used instead of the FAR clauses at 52.216–2, 3, and 4.

516.203–70 EPA in FSS multiple award schedules.

(a) If the FSS multiple award schedule solicitation contains an Economic Price Adjustment clause, the contracting officer should establish negotiation objectives which reflect the terms of the clause with a view toward obtaining appropriate discounts. If the clause is not included in the initial solicitation but is negotiated in, it must be added to the schedule contract at the time of contract award. However, its inclusion is contingent on the approval of the contracting director, the need for an Economic Price Adjustment clause, and the concessions granted by the offeror for its inclusion in the contract.

(b) The contract price ceiling may be raised during the contract period only under the following conditions:

(1) Analysis of the current market conditions reveals that the original contract price ceiling is inadequate. This analysis shall be conducted in conjunction with the Office of Procurement (FC):

(2) The causes which require an increase in the price ceiling are not unique to an individual contractor, but affect all suppliers for similar products. Determinations to raise the ceiling must be approved by the head of the contracting activity.

4. Sections 516.301, 516.301–3 and 516.306 are added to read as follows:

516.301 General.

516.301–3 Limitations.

The determination and findings (D&F) required by FAR 16.301–3(c) shall be prepared in the format prescribed by GSAR 501.704–70(a)(1) and be signed by the appropriate official in accordance with Table 501–1 of this regulation (see GSAR 501.707).

516.306 Cost-plus-fixed-fee contracts.

Signatory authority for the determination and findings (D&F), required by FAR 16.306(c)(2), is delegated to the heads of contracting activities or their designees (see GSAR 501.707).

5. Subparts 516.4 and 516.6 are added to read as follows:

Subpart 516.4—Incentive Contracts

516.403 Fixed price incentive contracts.

The determination and findings (D&F) required by FAR 16.403(c) shall be prepared in the format prescribed by GSAR 501.704–70(a)(1) and be signed by the appropriate official in accordance with Table 501.1 of this regulation (see GSAR 501.707).

516.405 Contract clauses.

Award fee clauses developed by contracting officers, in accordance with FAR 16.405(e), shall be prepared with the advice and assistance of counsel and be approved by the contracting director.

Subpart 516.6—Time-and-materials, Labor-Hour, and Letter Contracts

516.603 Letter Contracts.

516.603–3 Limitations.

Signatory authority for the determination and findings (D&F) required by FAR 16.603–3 is delegated to the heads of contracting activities or their designees (see GSAR 501.707).

6. The table of contents for Part 552 is amended by adding section 552.216–71 as set forth below:

PART 522—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

Subpart 552.2 Text of Provisions and Clauses

* * * * *

Sec.

552.216–71 Economic Price Adjustment—FSS Multiple Award Schedule Contracts.

* * * * *

7. Section 552.216–71 is added to read as follows:

552.216–71 Economic Price Adjustment—FSS Multiple Award Schedule Contracts.

As prescribed in GSAR 516.203–4(b), insert the following clause:

Economic Price Adjustment (Oct. 1985)

Price adjustments include price increases and price decreases. Adjustments will be considered as follows:

(a) Contractors shall submit price decreases anytime during the contract period in which they occur. Price decreases will be handled in accordance with the provisions of the Price Reduction Clause.

(b) Contractors may request price increases under the following conditions:

(1) Increases resulting from a reissue or other modification of the Contractor's commercial catalog/pricelist that was used as the basis for the contract award.

(2) Only three increases will be considered during the contract period.

(3) Increases are requested after the first 30 days of the contract period and prior to the last 60 days of the contract period.

(4) At least 30 days elapse between requested increases.

(c) The aggregate of the increases in any contract unit price under this clause shall not exceed —— * percent of the original contract unit price. The Government reserves the right to raise this ceiling where changes in market conditions during the contract period support an increase.

(d) The following material shall be submitted with the request for a price increase:

(1) A copy of the commercial catalog/pricelist showing the price increase and the effective date for commercial customers.

(2) Discount Schedule and Marketing Data regarding the Contractor's commercial pricing practice relating to the reissued or modified catalog/pricelist, or a certification that no change has occurred in the data since completion of the initial negotiation or a subsequent submission.

(3) Documentation supporting the reasonableness of the price increase.

(e) The Government reserves the right to exercise one of the following options:

(1) Accept the Contractor's price increases as requested when all conditions of (b), (c), and (d), above, are satisfied;

(2) Negotiate more favorable discounts from the new commercial prices when the total increase requested is not supported; or,

(3) Remove the product(s) from contract involved pursuant to the Cancellation Clause of this contract, when the increase requested is not supported.

(f) The contract modification reflecting the price adjustment shall be signed by the Government and made effective upon receipt of notification from the Contractor that the new catalog/pricelist have been mailed to the addressees previously furnished by the Contracting Officer, provided that in no event shall such price adjustment be effective prior to the effective date of the commercial price increases. The increased contract prices shall apply to the delivery orders issued to the Contractor on or after the effective date of the contract modification.

(End of Clause)

* Insert the percent appropriate at the time the solicitation is issued. This percentage should normally be 10 percent, unless based on a trend established by an appropriate index such as the Producer Prices and Price Index during the most recent 6-month period indicates that a different percentage is more appropriate. Any ceiling other than 10 percent must be approved by the contracting director.

Alternate I (Oct. 1985)

The following is substituted for paragraph (b), (b)(2), (b)(3), and (c) of the clause:

"(b) Contractors may request price increases after the first 12 months of the contract period providing all of the following conditions are met:

(1) * * *

(2) No more than three increases will be considered during each succeeding 12 month period of the contract. (For succeeding contract periods of less than 12 months, up to three increases will be considered subject to the other conditions of this subparagraph (b)).

(3) Increases are requested after the first 12 months of the contract period and prior to the last 60 days of the contract period.

(4) * * *

(c) In any contract period during which price increases will be considered (see subparagraph (b) above), the aggregate of the increases of any contract unit price shall be applied as described below:

(1) For contracts of 24 months (or less) duration, the aggregate of the increases shall not exceed —— * percent of the original contract unit price.

(2) For contracts of more than 24 months duration, the aggregate of the increases in the second year shall not exceed —— * percent of the original contract unit price; the aggregate of the increases in the third year (or portion thereof) shall not exceed —— * percent of the contract unit price in effect at the end of the second year.

The Government reserves the right to raise or lower the ceiling when market conditions during the contract period support such a change."

(End of Clause)

* Insert the percentage appropriate at the time the solicitation is issued. This percentage should normally be 10 percent, unless based on a trend established by an appropriate index such as the Producer Prices and Price Indexes during the most recent 6 month period which indicates that a different percentage is more appropriate. Any ceiling other than 10 percent shall be approved by the contracting director.

Dated: October 18, 1985.

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[Revised Service Order No. 1500; Amdt. 4]

Milwaukee Road Inc. Authorized to Use Tracks and/or Facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Co., Debtor, (Richard B. Ogilvie, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 4 to Revised Service Order No. 1500.

SUMMARY: Pursuant to Section 122 of the Rock Island Railroad Transition and Employee Assistance Act, Pub. L. 96–254, this order authorizes The Milwaukee Road Inc. to provide interim service over the Chicago, Milwaukee, St. Paul and Pacific Railroad Company,

Debtor, (Richard B. Ogilvie, Trustee), and to use such tracks and facilities as are necessary for operations. This order permits carrier to continue to provide service to shippers which would otherwise be deprived of essential rail transportation.

EFFECTIVE: 11:59 p.m., October 31, 1985, and continuing in effect until 11:59 p.m., November 30, 1985, unless otherwise modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT: M.F. Clemens, Jr. (202) 275–7840 or 275–1559.

Railroads.

Decided: October 23, 1985.

Upon further consideration of Revised Service Order No. 1500 (50 FR 11366, 21264, 26774 and 34705) and good cause appearing therefor:

§ 1033.1500 [Amended)

It is ordered, the Milwaukee Road Inc. authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, debtor (Richard B. Ogilvie, trustee), Revised Service Order No. 1500 is amended by substituting the following paragraph (n) for paragraph (n) thereof:

* * * * *

(n) *Expiration date.* The provisions of this order are extended for an additional period of time and shall expire at 11:59 p.m., November 30, 1985, unless otherwise modified, amended or vacated by order of this Commission.

Effective Date. This amendment shall become effective at 11:59 p.m., October 31, 1985.

This action is taken under the authority of 49 U.S.C. 10304–10305 and section 122, Pub. L. 96–254.

This amendment shall be served upon the Association of American Railroads, Transportation Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Bernard Gaillard, William J. Love and John H. O'Brien.

James H. Bayne,

Secretary.

[Docket No. 41046–4171]

Foreign Fishing, Groundfish of the Gulf of Alaska, Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of inseason adjustments.

SUMMARY: NOAA announces the apportionment of amounts of the pollock optimum yield to U.S. fishermen engaged in joint ventures and amounts of the Pacific Ocean perch and sablefish operational reserves to U.S. fishermen landing to U.S. processors under provisions of the fishery management plans for Groundfish of the Gulf of Alaska and Groundfish of the Bering Sea and Aleutian Islands Area. This action is necessary to provide sufficient pollock as a target species and Pacific Ocean perch and sablefish as a bycatch to joint venture operations that target on pollock and certain other species. It is also necessary to provide for greater domestic harvest of Pacific Ocean perch and bycatches of sablefish. This reapportionment is intended as a conservation and management measure that promotes fuller utilization of Gulf of Alaska and Bering Sea Groundfish.

EFFECTIVE DATE: October 24, 1985.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Management Biologist), Alaska Region, NMFS), 907–586–7229.

SUPPLEMENTARY INFORMATION:

Background

Optimum yield (OYs) for commercial groundfish species are established by the Fishery Management Plan (FMP) for Groundfish of the Gulf of Alaska; total allowable catches (TACs) for various groundfish species are established under the FMP for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area. These FMPs were developed by the North Pacific Fishery Management Council (Council) under the Magnuson Fishery Conservation and Management Act (Magnuson Act) and are implemented by rules appearing at §§ 611.92 and 611.93 and Parts 672 and 675. The OYs and TACs are apportioned initially among domestic annual harvest (DAH), reserves, and total allowable level of foreign fishing (TALFF). Each reserve amount, in turn, is apportioned during the fishing year to DAH and/or TALFF under §§ 611.92(c), 611.93(b), 672.20(c), and 675.20(b). In addition, surplus amounts of both components of DAH [domestic annual processing (DAP) and joint venture processing (JVP)] may be apportioned to TALFF during the fishing year under the same regulations. The regulations require that, as soon as practicable after April 1, June 1, and August 1, or on other dates as are determined appropriate, the Secretary of Commerce will apportion to DAH all or part of the reserves that he finds, will be harvested by U.S. vessels during the remainder of the fishing year, and will apportion to TALFF the remaining portion of the reserves. Under priorities established by the Magnuson Act, portions of TALFF not expected to be harvested by foreign nations may also be made available to either DAP or JVP

1. Gulf of Alaska

Only one previous apportionment has been made this fishing year. The entire reserve for pollock in the Western/Central Regulatory Area was apportioned to JVP and TALFF on July 17, 1985 (50 FR 29681, July 22, 1985), increasing the JVP to 220,500 mt and TALFF to 40,129 mt. This action supplements the pollock JVP by an additional 15,129 mt, of which 10,000 mt is from surplus DAP and 5,129 mt is from unallocated TALFF.

At its September 24–26, 1985, meeting, the Council reviewed the results of the 1985 pollock fishery, including (1) the prospect that U.S. fishermen would take the entire DAP amount of 44,371 mt, (2) the amount of the JVP harvest and intentions of JVP companies for the remainder of the year, and (3) the amount of pollock TALFF not yet allocated to foreign nations. On the basis of testimony received, the Council recommended to the Secretary that 10,000 mt of DAP and 5,129 of TALFF, which has not yet been allocated to foreign nations, be reapportioned to JVP, increasing it from 220,550 mt to 235,629 mt. The Regional Director has determined that the 10,000 mt to be transferred from DAP will not be taken by U.S. fishermen.

TABLE 1.—GULF OF ALASKA REAPPORTIONMENTS OF OY

[Figures are in metric tons]

	Current	This action	Revised
Pollock (Western/Central Regulatory areas; OY=305,000):

	Current	This action	Revised
Total (OY=471,651; includes other species not affected by this action):			
DAP	154,088	−10,000	144,088
JVP	237,805	+15,129	252,934
Reserve	28,434		28,434
TALFF	51,324	−5,129	46,195

Apportionment to DAH

To provide for proposed increases in joint venture fisheries, 10,000 mt of surplus pollock DAP and 5,129 mt of unallocated pollock TALFF is transferred to the pollock JVP.

2. *Bering Sea and Aleutian Islands area*

When the initial DAH and TALFF for 1985 were established (50 FR 11369, March 21, 1985), DAH and TALFF were supplemented with 31, 890 mt from the initial 300,000-mt reserve, thereby reducing it to 268,110 mt. The April inseason adjustment (50 FR 19946, May 13, 1985) supplemented DAH and TALFF by an additional 134,055 mt from the reserve, reducing it to 134,055 mt. The June inseason adjustment (50 FR 26213, June 25, 1985) supplemented DAH and TALFF by an additional 111,035 mt from the reserve, reducing it to 23,020 mt. The August inseason adjustment (50 FR 35825, September 4, 1985) supplemented TALFF by an additional 6,440 mt from the reserve, reducing it to 16,580 mt. A later unscheduled adjustment (50 FR 40977, October 8, 1985) supplemented DAH by an additional 14,735 mt from reserve, reducing it to 1,845 mt. This action again supplements DAH adding 500 mt from the reserve, thus further reducing the reserve to 1,345 mt.

The current DAP catch of Pacific ocean Perch (POP) is 732 mt. At the present catch rate, the entire POP TAC of 1,000 mt will be taken before the end of the year, which would require a closure of the Bering Sea to all bottom trawling. It is necessary, therefore, to supplement the POP DAP by 300 mt to allow bottom trawling for all groundfish species to continue through the end of the year.

The Bering Sea area is presently closed to all fishing in water deeper than 200 fathoms because the combined domestic and foreign sablefish catch of 2,640 mt has exceeded the TAC of 2,625 mt. However, both domestic and foreign fishermen have expressed an economic need to continue harvesting groundfish species other than sablefish in waters deeper than 200 fathoms. The Regional Director has determined that it is necessary to increase the TAC by 200 mt to provide for bycatch and to allow deep water fisheries to resume on other groundfish species. The revised sablefish TAC is 2,825 mt. A notice rescinding the September 4, 1985 closure (50 FR 36997, September 11, 1985), appears elsewhere in this issue.

Apportionments to DAH

To provide for increased catches in domestic fisheries in the Bering Sea and to prevent total closure of the Bering Sea to all bottom fishing for groundfish, 300 mt of the operational reserves is transferred to the POP DAP. To allow domestic and foreign fishing to resume in waters deeper than 200 fathoms and to provide a bycatch of sablefish for domestic and foreign fishermen, the sablefish DAP is supplemented by the transfer of 200 mt from the operational reserve.

TABLE 2.—BERING SEA/ALEUTIANS REAPPORTIONMENTS OF TAC

[Figures are in metric tons]

	Current	This action	Revised
Pacific ocean perch (Bering Sea area only, TAC=1,000; EY=1,360);			
DAP	660	+300	990
JVP	120		120
TALFF	220		220
Sablefish (Bering Sea only, TAC=2,625; EY=2,600):			
DAP	2,275	+200	2,475
JVP	100		100
TALFF	250		250
Total (TAC=2,000,000; includes other species not affected by this action):			
DAP	141,710	+500	142,210
Reserve	1,845	−500	1,345
TALFF	1,158,595		1,158,595

The Secretary has determined that good cause exists to issue this notice of apportionment without providing a prior opportunity for public comments. This determination is based on the fact that few weeks remain in the 1985 fishing year and that U.S. and foreign fishermen must have adequate assurances that pollock, Pacific ocean perch, and sablefish are available to continue their operations for the remainder of the year. Therefore, prior opportunity for comment is waived. Comments will be received, however, for a period of 15 days after the effective date of this notice. Responses to comments will be published in the **Federal Register** as soon as practicable and will be considered in deciding whether to modify this notice.

Classification

This action is taken under 50 CFR Parts 611, 672, and 675, and complies with Executive Order 12291.

In view of the need to avoid disruption of foreign and domestic fisheries, the Agency has determined that delaying the effective date of this notice would be impracticable, unnecessary, and contrary to the public interest.

[Docket No. 41046-4171]

Foreign Fishing, Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of recision of closure.

SUMMARY: The Director, Alaska Region, NMFS (Regional Director), has increased the total allowable catch (TAC) of sablefish in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area, thereby providing a sablefish bycatch to support domestic and foreign target fisheries for other groundfish species. He therefore rescinds the September 4, 1985, notice of closure which prohibited all fishing by foreign and domestic vessels in waters deeper than 200 fathoms (365 meters) in the Bering Sea subarea. This recision is necessary to allow the harvest of other groundfish, which otherwise must be prohibited. It is intended as a conservation and management measure to promote full utilization of the groundfish resources in the Bering Sea and Aleutian Island area.

DATES: This notice is effective from noon, Alaska Daylight Time, October 24, 1985, until midnight, Alaska Standard Time, December 31, 1985.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Management Biologist, NMFS), 907-586-7230.

SUPPLEMENTARY INFORMATION:

The Fishery Management Plan for the Groundfish Fishery of the Bering Sea

and Aleutian Islands Area (FMP) governs the groundfish fishery in the fishery conservation zone under the Magnuson Fishery Conservation and Management Act. Under the FMP's implementing rules at § 611.93(b)(3)(ii)(A) and § 675.20(a)(7), the Regional Director issued a closure notice effective September 4, 1985 (50 FR 36997, September 11, 1985), that prohibited all fishing in the Bering Sea subarea (north of the Aleutian chain and east of 170°W longitude and north of 55°N. latitude and west of 170 °W. longitude) in waters deeper than 200 fathoms. He took this action after determining that the TAC of sablefish had been reached and, therefore, he was required to (1) prohibit all domestic fishing that involved the taking of sablefish, and (2) close all or part of the management area to foreign fishing. In delimiting the closure area above, he made the finding that those fisheries operating in depths of less than 200 fathoms do not involve the taking of sablefish.

The FMP provides for inseason increases in the TAC. The source of any increase is the nonspecific groundfish reserve. This reserve is provided for at § 675.20(a)(3) and may be reapportioned to U.S. and/or foreign fishermen to respond to inseason operational problems in the fisheries. Under § 674.20(b)(1), the Regional Director may apportion to domestic annual harvest (DAH) or total allowable level of foreign fishing (TALFF) all or part of the reserve on dates he determines appropriate. The Regional Director has done so, reapportioning 200 metric tons (mt) of the nonspecific reserve to the sablefish domestic annual processing (DAP) component of DAH by notice appearing elsewhere in this issue, thereby providing a bycatch to support target fisheries on other groundfish species for the remainder of the fishing year.

However, under § 675.20(a)(7), if the combined catch by foreign and U.S. vessels in the fishery or applicable subarea reaches the revised TAC (the amount of sablefish that is currently apportioned to the fishery) before January 1, 1986, further fishing by domestic vessels that involves taking sablefish will be prohibited for the remainder of the fishing year. Similarly, under § 611.93(b)(3)(ii)(A), foreign harvesting in all or part of the fishery will be prohibited when the revised TAC is reached.

The revised TAC for sablefish in the Bering Sea subarea has been increased to 2,825 mt and the DAP is revised to 2,475 mt. Because the sablefish TAC has been increased, the previously issued notice of closure is hereby rescinded.

Classification

This action complies with Executive Order 12291 and is authorized under 50 CFR 611.93 and 675.20.

7 CFR Part 1033

[Docket No. A0-166-A52-R01]

Milk in the Ohio Valley Marketing Area; Termination of Proceeding on Proposed Amendments to Tentative Marketing Agreement and To Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Termination of rulemaking proceeding.

SUMMARY: This action terminates a rulemaking proceeding that involved a proposal by a dairy farmer cooperative to establish an advertising and promotion program under the Ohio Valley milk order. A public hearing on the proposal was held on October 12–13, 1983. The hearing was reopened to consider proposals to align certain provisions of the existing and contemplated advertising and promotion programs of the individual orders with a new national mandatory dairy promotion program that was enacted and became effective after the close of the October 1983 hearing. At the reopened hearing, which was held in April 1984, proponent stated that a separate advertising and promotion program for the Ohio Valley market would not be needed if dairy farmers approve a continuation of the national program to promote milk and dairy products in a required referendum that had to be conducted by the Department prior to September 30, 1985. In a referendum that was completed recently, dairy farmers voted overwhelmingly in favor of a continuation of the national program. In view of this, there is no basis for continuing the hearing proceeding.

DATE: The termination of the rulemaking proceeding is effective October 29, 1985.

FOR FURTHER INFORMATION CONTACT: Maurice M. Martin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250, (202) 447–7311.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of hearing: Issued September 26, 1983; published September 29, 1983 (48 FR 44565).

Suspension Order: Issued December 6, 1983; published December 12, 1983 (48 FR 55275).

Suspension Order: Issued December 12, 1983; published December 16, 1983 (48 FR 55829).

Suspension Order: Issued January 12, 1984; published January 17, 1984 (49 FR 1980).

Termination Order: Issued February 24, 1984; published February 29, 1984 (49 FR 7353).

Suspension Order: Issued March 16, 1984; published March 22, 1984 (49 FR 10656).

Notice of Reopened Hearing: Issued April 3, 1984; published April 5, 1984 (49 FR 13541).

Partial Recommended Decision: Issued July 11, 1984; published July 16, 1984 (49 FR 28721).

Partial Final Decision: Issued August 30, 1984; published September 6, 1984 (49 FR 35101).

Final Order: Issued September 10, 1984; published September 14, 1984 (49 FR 36072).

Statement of Consideration

This action terminates a rulemaking proceeding, which began September 26, 1983, (48 FR 44565), that involved a proposal to provide an advertising and promotion program under the Ohio Valley milk order. The hearing, which was held on October 12–13, 1983, dealt with six separate issues. All but one has been resolved previously either through a partial decision or by a termination order. The remaining issue concerns the adoption of an advertising and promotion program under the order and is dealt with herein.

Milk Marketing, Inc. (MMI), a cooperative that represents a substantial number of producers who supply milk to the market, proposed that an advertising and promotion program (hereinafter referred to as the A and P program) be incorporated in the Ohio Valley order. Proponent cooperative contended that an A and P program was needed for the Ohio Valley market to achieve and maintain increased sales on fluid milk and manufactured dairy products and to compete with the promotional efforts on behalf of other beverages and food products.

On November 23, 1983, the Dairy and Tobacco Adjustment Act was passed. This Act mandated the establishment of a National Dairy Research and Promotion Order (7 CFR Part 1150). The order became fully effective on May 1, 1984. It provides a national program for dairy product promotion, research and nutrition education. It is financed by a 15-cent per hundredweight assessment on all milk produced and marketed commerically by dairy farmers.

When the National Dairy Research and Promotion Order became effective, six individual milk marketing orders contained provisions for advertising and promotion of milk and dairy products. A public hearing was held on April 18, 1984 in Alexandria, Virginia, to align the advertising and promotion provisions of the individual orders with the provisions of the National Dairy Research and Promotion Order. Since a decision was pending on a proposal to add an A and P program to the Ohio Valley order at that time, the October 1983 hearing record was reopened for the purpose of receiving additional evidence with respect to the need to provide a separate program under the order that would supplement the National Dairy Promotion Program.

At the reopened hearing a spokesman for MMI testified that its proposal to add an A and P program to the Ohio Valley order was made before the legislation authorizing a national program for these purposes was enacted. He further stated that since there was considerable doubt among lawmakers and the Ohio dairy industry regarding the inclusion of any promotional program for milk and dairy products in the 1983 dairy legislation at the time of the hearing in October 1983, the cooperative offered its proposal for the Ohio Valley market in the event the dairy legislation did not provide a promotion program.

In this regard, the Dairy and Tobacco Adjustment Act, which authorized and mandated the implementation of the Dairy Research and Promotion Order, also provided that a referendum be conducted among producers within the 60-day period preceding September 30, 1985, to determine whether dairy farmers favor a continuation of the national program for such purposes. In

view of this, at the reopened hearing a witness for the proponent cooperative asked that its proposed A and P program for the Ohio Valley market become effective only if the producers voting in the referendum did not favor a continuation of the national program.

On September 12, 1985, the Department issued a Determination of Approval document which indicated that dairy farmers across the country voted overwhelmingly in favor of continuing the National Dairy Promotion Program. The determination of producer approval was published in the **Federal Register** on September 17, 1985 (50 FR 37642).

On the basis that the necessary majority of the producers voting in the referendum favor continuation of the national program and at the request of proponent cooperative, the proceeding initiated in September 26, 1983 should be terminated. The cooperative's revised position on this issue means that at this time there is no support for the proposal. Since there is no compelling reason to establish a separate A and P program under the Ohio Valley order, the wishes of proponent cooperative should be the overriding consideration in this particular situation. Accordingly, the proposal is withdrawn from consideration and the proceeding is terminated.

Termination Order

In view of the foregoing, it is hereby determined that the aforesaid proceeding with respect to proposed amendments to the tentative marketing agreement and to the order should be and hereby is terminated.

The authority citation for 7 CFR Part 1033 continues to read as follows:

Authority: (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Signed at Washington, D.C. on: October 23, 1985.

William T. Manley,

Deputy Administrator, Marketing Programs.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Parts 35 and 290

[Docket No. RM85–17 (Phase II)]

Regulation of Electricity Sales-for-Resale and Transmission Service October 24, 1985.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice rescheduling public conference and extending the date for filing requests to participate in the conference.

SUMMARY: On June 28, 1985 (50 FR 27604, July 5, 1985), the Commission issued a notice of inquiry in Phase II of this proceeding to explore how the Commission's regulation of requirements service affects efficiency in electricity markets and how it might be changed to encourage greater efficiency. By notice issued October 3, 1985 (50 FR 41164, October 9, 1985), the date for comments was further extended and the date for the public conference was deferred pending further notice. This notice reschedules the date for the public conference and extends the date for requests to participate therein.

DATE: The public conference will be held January 22, and 23, 1986, beginning at 9:00 a.m. each day. The date for filing requests to participate in the conference is extended to and including December 21, 1985. The date for filing comments on the notice of inquiry remains November 4, 1985.

ADDRESS: Requests to participate should be filed with the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol St., NE., Washington, DC 20426. The conference will be held in Hearing Room A at the Commission's Offices at 825 North Capitol Street, NE., Washington, DC 20426.

18 CFR Part 357

[Docket No. RM85–11–000]

Revision of FERC Form No. 73, Oil Pipeline Data for Depreciation Analysis; Extension of Time for Comments

October 24, 1985.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking; extension of comment period.

SUMMARY: On September 4, 1985, the Commission issued a Notice of Proposed Rulemaking involving the revision of FERC Form No. 73, Oil Pipeline Data for Depreciation Analysis (50 FR 36601, September 9, 1985). The comment period is being extended at the request of the Association of Oil Pipe Lines.

DATE: Comments must be submitted on or before November 22, 1985.

ADDRESS: Submit comments to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT: Kenneth F. Plumb, Secretary, 202–357–8400.

On October 16, 1985, the Association of Oil Pipe Lines (the Association) filed a motion for an extension of time to file comments in response to the Commission's Notice of Proposed Rulemaking issued September 4, 1985, in the above-docketed proceeding. In its motion, the Association states that additional time is required for the Association and its member companies to review the Commission's proposal.

Upon consideration, notice is hereby given that an extension of time is granted to and including November 22, 1985.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 133

[Docket No. 85P–0182]

Grated Cheeses; Proposal to Amend Standard of Identity

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to amend the U.S. standard of identity for grated cheeses to permit the use of safe and suitable anticaking agents including powdered cellulose. This action responds to a petition filed by cheese manufacturers and would promote honesty and fair dealing in the interest of consumers.

DATES: Comments by December 30, 1985. The agency proposes that any final rule that may issue based upon this proposal shall become effective 60 days after date of publication of the final rule in the **Federal Register**.

ADDRESS: Written comments, data, or other information to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Johnnie G. Nichols, Center for Food Safety and Applied Nutrition (HFF–215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–485–0101.

SUPPLEMENTARY INFORMATION: The National Cheese Institute, The Kroger Co. (Pace Dairy Foods), Sargento Cheese Co., Inc., Schreiber Foods, Inc., and Paniplus Co. (a wholly-owned subsidiary of Continental Baking Co., Inc.) have petitioned jointly to amend the U.S. standard of identity for grated cheeses (21 CFR 133.146) to permit the use of powdered cellulose, either alone or in combination with the other permitted anticaking agents, in a total amount not to exceed 2 percent by weight of the finished food.

Each of these cheese manufacturing companies holds a temporary marketing permit, granted under 21 CFR 130.17, to market test grated and shredded cheeses containing powdered cellulose as an anticaking agent.

The grounds for the proposed amendment are: (1) Powdered cellulose is generally recognized as safe (GRAS); (2) powdered cellulose is nearly identical to microcrystalline cellulose which is permitted by the current standard for grated cheeses; (3) less powdered cellulose is needed than microcrystalline cellulose to achieve the intended anticaking effect, and its price is significantly lower; and (4) the use of powdered cellulose is supported by actual experience under the petitioners' temporary marketing permits.

Over 2.7 million pounds of grated and shredded cheeses containing powdered cellulose have been manufactured for retail distribution under temporary marketing permits issued to Pace Dairy Foods, Sargento Cheese Co., and Schreiber Foods, Inc.

The standard of identity for grated cheeses provides for the optional use of an anticaking agent which consists of silicon dioxide, calcium silicate, sodium silicoaluminate, microcrystalline cellulose, or any combination of two or more of these in an amount not to exceed 2 percent by weight of the finished food.

The petitioners stated that the desired anticaking effect may be achieved by using as little as one-half the usual amount of anticaking agent. Because only 1 percent or less of powdered cellulose is necessary to achieve the intended anticaking effect, FDA would consider the use of more than 1 percent powdered cellulose in grated cheeses to be unsuitable.

FDA believes that the petitioners have submitted adequate justification for their petition to amend the standard to provide for the use of powdered cellulose in grated cheese. However, FDA has concluded that limiting a manufacturer's choice of ingredients by specifically listing each optional ingredient that may be used is unduly restrictive. FDA believes that providing for functional categories of safe and suitable optional ingredients, as defined in 21 CFR 130.3(d), will benefit consumers by allowing a manufacturer to select less expensive or more readily available ingredients that are equally appropriate for a functional purpose. Further, permitting the use of any safe and suitable functional optional ingredient should minimize any future need for amendment of the standards to provide for additional specific ingredients.

FDA, therefore, proposes to amend the standards to provide for the use of safe and suitable anticaking agents in grated cheeses.

Economic Impact

In accordance with the Regulatory Flexibility Act (Pub. L. 96–354; 5 U.S.C. 601), FDA has reviewed this proposal to determine its impact on small businesses. The proposal permits the use of safe and suitable anticaking agents in grated cheeses. The agency believes that this proposal provides increased flexibility to manufacturers of grated cheeses and will not impose an additional burden on the industry. Therefore, FDA certifies that this proposed action will not have a significant economic impact on a substantial number of small entities.

Environmental Impact

The agency has determined under 21 CFR 25.24(b)(13), (April 26, 1985; 50 FR 16636), that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Comments

Interested persons may, on or before December 30, 1985, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 133

Cheese, Food grades and standards.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director, Center for Food Safety and Applied Nutrition, it is proposed that Part 133 be amended as follows:

PART 133—CHEESES AND RELATED CHEESE PRODUCTS

1. The authority citation for 21 CFR Part 133 is revised to read as follows:

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 800

Availability of Petition To Initiate Rulemaking; Surface Coal Mining and Reclamation Operations; Permanent Regulatory Program; Performance Bonding

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of a petition to initiate rulemaking and request for comment.

SUMMARY: The Office of Surface Mining (OSM) seeks comments regarding the rule changes suggested in a petition, submitted pursuant to the Surface Mining Control and Reclamation Act (the Act), to amend OSM's existing bonding regulations.

The suggested changes in the rules would allow (1) third party non-parent self-bonding, (2) creation of sinking funds to replace part of the bond costs, (3) revision of the self-bonding criteria to provide for consideration of certain financial and economic factors when determining self-bond limits for a permittee.

The comments on the rule changes suggested in the petition will assist the Director of OSM in making the decision whether to grant or deny the petition.

DATE: OSM will accept written comments on the petition until 5:00 p.m. eastern time on December 13, 1985.

ADDRESS: Written comments must be mailed to the Office of Surface Mining, U.S. Department of the Interior, Division of Permit and Environmental Analysis, 1951 Constitution Ave., NW., Washington, D.C. 20240 or hand-delivered to the Office of Surface Mining, U.S. Department of the Interior, Division of Permit and Environmental Analysis, Room 5111, 1100 L St., NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Mark Boster at the Washington, D.C., address listed above (telephone: 202–343–1480).

SUPPLEMENTARY INFORMATION:

I. Public Commenting Procedures

Written Comments

Written comments on the suggested changes should be specific, should be confined to issues pertinent to the petition, and should explain the reasons for the comment. Comments received after the close of the comment period (see "DATES") may not necessarily be considered or included in the administrative record on the petition. OSM cannot ensure that written comments received or delivered during the comment period to any location other than that specified under "Address" above will be considered and included in the administrative record on this petition.

Availability of Copies

Additional copies of the petition and copies of 30 CFR Part 800 are available for inspection and may be obtained at the location listed under "Address."

Public Meetings

OSM will be available to meet with the public during business hours, 8:00 a.m. to 4:00 p.m., during the comment period. In order to arrange such a meeting, call or write to the person listed above under "For Further Information Contact."

II. Background and Substance of Petition

OSM received a letter dated September 19, 1985, from the Joint Committee on Surface Mining of the American Mining Congress (AMC) and the National Coal Association (NCA), presenting a petition for revision of the bonding regulations found in 30 CFR 800.5, 800.12, 800.16, 800.21 and 800.23. Pursuant to section 201(g) of the Act, any person may petition for a change in OSM's permanent program rules which appear in 30 CFR Chapter VII. The Act allows for a period of 90 days within which to decide to grant or deny a petition (Section 201(g)(4); 30 U.S.C. 1211(g)(4)). Under the applicable regulations for rulemaking petitions, 30 CFR 700.12(c), the Director first determines whether the petition may have a resonable basis. The Director has determined that the petition for amendment of the bonding regulations has a sufficient basis to seek comments on the proposed rule changes. The text of the petition appears as an appendix to this notice.

This notice seeks public comments on the suggested amendments. At the close of the comment period, a decision will be made whether to grant or deny the petition. If the decision is made to grant the petition, either in part or whole, rulemaking proceedings will be initiated in which public comment will again be sought before any final rulemaking notice appears. If the decision is made to deny the entire petition no further rulemaking action will action will occur pursuant to the petition.

OSM revised all of the bonding regulations in 30 CFR Part 800 as part of regulatory reform. However, the petition seeks further revision of certain bonding provisions in order to alleviate what is alleged to be a crisis in "bondability levels" of many coal mine operators.

The bonding regulations have been a steady source of contention with the coal mining industry. The original bonding rules were promulgated in 1979 (44 FR 15385), were challenged in U.S. District Court (*In Re: Permanent Surface Mining Regulation Litigation,* Civil Action No. 79–1144, D.D.C. 1980), and were subsequently proposed for further rulemaking due to a petition for rulemaking accepted by OSM on January 24, 1980 (45 FR 6028). OSM circulated a draft of bonding changes in March 1981. On September 9, 1981, OSM proposed changes to the bonding regulations (46 FR 45082). These changes were made final on July 19, 1983, and August 10, 1983 (48 FR 32959; 48 FR 36420), and form the basis for the present bonding regulations.

III. Procedural Matters

Publication of this notice of the receipt of the petition for rulemaking is a preliminary step in the rulemaking process. If a decision is made to grant the petition, a formal rulemaking process will be initiated. Thus, no regulatory flexibility analysis is needed at this stage, nor is a regulatory impact analysis necessary under Executive Order No. 12291.

Publication of this notice does not constitute a major Federal action having a significant effect on the human environment for which an environmental impact statement under the National Environmental Policy Act, 42 U.S.C. 4322(2)(C), is needed.

List of Subjects in 30 CFR Part 800

Coal mining, Insurance, Reporting and recordkeeping requirements, Surety bonds, Surface mining, Underground mining.

Dated: October 21, 1985.

Jed D. Christensen,

Acting Director.

The text of the petition dated September 19, 1985, from the Joint NCA/AMC Committee on Surface Mining Regulations, is as follows:

Appendix

The purpose of this letter is to petition the Director of OSM, pursuant to section 201(g) of the Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1211(g), to immediately amend certain bonding provisions of the permanent program regulations, and to initiate a proceeding for amendment of those regulations. The National Coal Association/American Mining Congress Joint Committee on Surface Mining

Regulations (Joint Committee), on behalf of themselves and their member companies, hereby petition for amendment of the bonding provisions in 30 CFR Part 800 800.5, 800.12, 800.16, 800.21 and 800.23 of the permanent program regulations.

As grounds for the Petition, the Joint Committee states that given the currently applied methodology for bond calculation which results in huge bond amounts, the ceiling of bondability for some mining companies is being rapidly approached. A company's inability to obtain additional bonds may result in closure of some mining operations and abandonment of some planned mining developments because of the inability of operators to obtain bonds required to secure permits.

The Joint Committee hereby petitions for an immediate amendment of these regulations in light of the above concerns, and requests the Director to initiate a proceeding to amend the specific regulations as cited within 90 days.

Section 201(g) of the Act provides that any person may petition the Director of OSM to initiate a proceeding for the amendment of regulations promulgated pursuant to section 501 of the Act.

Background

The Joint Committee has a grave concern that the bonding regulations lack a sound policy and are economically infeasible.

The purpose of the bond requirements of Section 509 of the Act is to protect the public interest in the event an operator should fail to satisfy the reclamation obligations. Section 509 and the implementing regulations require the filing of a performance bond with the regulatory authority in an amount considered by the regulatory authority to be sufficient to complete reclamation in the event the operator is unable to do so.

The surety companies that underwrite performance bonds have specific requirements regarding a company's financial condition that must be met before a bond is issued. Depending on the surety company, criteria for bond liability are established that in effect set a ceiling of bondability for each operating company based on the total face amount of the company's outstanding bonds. Given the currently applied methodology for bond calculation which results in the determination and imposition of huge bond amounts, the ceiling of bondability for some mining companies is being rapidly approached. A company's inability to obtain additional bonds will preclude it from obtaining permits to continue or expand its current operations or to develop new mines.

Although the self-bonding provisions found at 30 CFR 800.23 offer a valuable alternative to surety or collateral bonds, no significant relief from the bondability ceiling problem is provided. The self-bonding regulations still require that for a company to be eligible for self-bonding it must meet certain specific financial and business tests and even then its outstanding and proposed self-bond limit cannot exceed 25 percent of its tangible domestic net worth. The self-bonding regulations do not adequately allow for situations where the risk of non-performance by a permittee is negligible. The current regulations, therefore, may penalize the sound, well managed, low-leveraged company with a long-term secure contract.

The current bonding procedure moves a predominantly end-of-mine financial obligation (mine closure) to the front (initial five year permit) and requires that this estimated closure cost be guaranteed as if it were to be paid currently. Provisions are not currently available to allow for the accumulation of funds (i.e., sinking funds) from current revenues for large end-of-business costs that can be deducted as an offset from the total bond requirement.

Request for Relief

Accordingly, petitioners seek amendments to 30 CFR Part 800 and in particular Section 800.5, 800.12, 800.16, 800.21 and 800.23. It is not our intention by this petition to correct every aspect of the formula for determining the bond amount. However, the amendments that we propose would insure that there are sufficient funds to complete reclamation in the event of forfeiture while offering viable alternatives to provide operators some relief to the bondability ceiling they now face. Also, the proposed alternatives will allow the mining industry sufficient flexibility while protecting the public interest. The Joint Committee hereby petitions the Office of Surface Mining to amend the regulations as follows:

First, third party non-parent self-bonding should be allowed. For example, a mine-mouth power plant has a significant interest in ensuring the continued operation and cost effectiveness of the associated mine. Because most operations of this type are designed to be in operation for thirty or more years, it is probable that, should the original mining company forfeit for any reason, another company or even the power company will take over mining and reclamation operations. It seem entirely appropriate, therefore, that third parties with significant vested interests in a continuing mining operation, should be considered acceptable guarantors for required mine reclamation.

Second, authority should be granted for the permittee or third party non-parent to create a sinking fund for reclamation costs that would at least partially displace bonded liability. It is sound business practice to set aside funds from current revenues to provide for large end-of-business costs through the creation of reclamation sinking funds. The balance of these funds could then be deducted as an offset from the total bond requirement thereby providing additional flexibility to the permittee.

Third, the bonding regulations should provide for the consideration of certain financial and economic factors, such as long term contractual commitments, when determining the self-bonding limit for a permittee. The current limit of 25 percent of a company's tangible net worth in all cases is overly restrictive. The financial tests should be taken into consideration to determine the *acceptability* of a company for self-bonding. Other factors should then be used to adjust the acceptable self-bonding limit according to the financial soundness of the operator and economic viability of the mining operation. Thus, it is recommended that the 25 percent net worth limitation be changed to a minimum self-bonding limit that can be adjusted upward where the assurance of continued operation is reinforced by these additional factors. Among the factors which should be considered in setting self-bond limits are:

- Length and type of sales contract
- Financial strength of the operator and the parent company
- The operating and regulatory compliance history of the operator
- Stability of customer, e.g., long-term sales contract versus spot sales
- Contract provisions such as the requirement that the customer make minimum purchases, and direct payment by the customer for reclamation costs in addition to a tonnage or Btu charge
- Size of operation and production
- Land tenure provisions
- Type of capital investment, e.g., fixed capital investment and the recognition of equipment mobility, such as the ability of an operator to remove significant assets from the bonded operation
- Fixed asset value of the coal reserve in place
- Marketing history, e.g., whether coal produced by the operation is routinely sold, and whether the operator is a low-cost producer

It is the contention of the petitioners that such amendments to the current bonding regulations will provide much needed relief to coal operators without jeopardizing environmental and public protection.

[FR Doc. 85–25711 Filed 10–28–85; 8:45 am]
BILLING CODE 4310–05–M

30 CFR Part 936

Public Comment Period and Opportunity for Public Hearing on an Amendment to the Oklahoma Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for a public comment period and for a public hearing on an amendment submitted by the State of Oklahoma to amend its permanent regulatory program which was approved by the Secretary of the Interior under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed program amendment consists of proposed provisions to implement a blaster training, examination and certification program as required by 30 CFR Part 850.

This notice sets forth the times and locations that the proposed amendment is available for public inspection, the comment period during which interested persons may submit written comments on the proposed program amendment and information pertinent to the public hearing.

DATES: Written comments not received on or before 4:00 p.m. on November 29, 1985 will not necessarily be considered. A public hearing on the proposal will be held on November 25, 1985 at the locations listed below under **"ADDRESSES"**. Any person interested in making an oral or written presentation at the hearing should contact Mr. James H. Moncrief, Acting Director, Tulsa Field Office by 4:00 p.m. on November 13, 1983. If no one has contacted Mr. Moncrief to express an interest in participating in the hearing by that date, the hearing will not be held. If only one person has so contacted Mr. Moncrief, a public meeting, rather than a hearing may be held and the result of the meeting included in the Administrative Record.

ADDRESSES: Written comments should be mailed or hand delivered to: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

The public hearing, if requested, will be held at the Federal Building, 125 South Main Street, Muskogee, Oklahoma 74401. See **"SUPPLEMENTARY INFORMATION"** For addresses where copies of the Oklahoma program amendment and administrative record on the Oklahoma program are available. Each requestor may receive, free of charge, one copy of the proposed program amendment by contracting the OSM Tulsa Field Office listed above.

FOR FURTHER INFORMATION CONTACT: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street Tulsa, Oklahoma 74103, Telephone: (918) 581–7923.

SUPPLEMENTARY INFORMATION: Copies of the Oklahoma program amendment, the Oklahoma program and the administrative record on the Oklahoma program are available for public review and copying at the OSM offices and the office of the State regulatory authority listed below, Monday through Friday, 9:00 a.m. to 4:00 p.m., excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 5124, 1100 "L" Street, N.W., Washington, D.C. 20240.

Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

Oklahoma Department of Mines, Suite 107, 4040 North Lincoln Boulevard, Oklahoma City, Oklahoma 73105.

Background

The Oklahoma program was approved by the Secretary of the Interior on January 19, 1981, **Federal Register** (46 FR 4910). On August 8, 1985, the State of Oklahoma submitted to OSM an amendment to its approved permanent regulatory program. The proposed program amendment is intended to implement the provisions of 30 CFR Part 850 relating to blaster training, examination and certification. The proposed amendment consists of proposed regulations governing the standards for certification of blasters and a blaster training course outline which addresses the topics identified in the Federal regulations at 30 CFR Part 850 as published in the March 4, 1983, **Federal Register** (48 FR 9486).

In accordance with the provisions of 30 CFR 732.17, OSM is seeking comment from the public on the adequacy of the proposed program amendment. If the proposed amendment is found by the Director to be in accordance with SMCRA and no less effective than the Federal regulations, the amendment will be approved and codified at 30 CFR Part 936 as part of the approved Oklahoma program.

Additional Determinations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from section 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule would not have significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules would be met by the State.

3. *Paperwork, Act Reduction:* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

BILLING CODE 4310–05–M

30 CFR Part 936

Permanent State Regulatory Program of Oklahoma

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for a public comment period and for a public hearing on the adequacy of a proposed amendment to

the Oklahoma permanent regulatory program which was approved by the Secretary of the Interior pursuant to the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment submitted by the Oklahoma Department of Mines (ODM) for the Secretary's approval is intended to satisfy the remaining program condition, condition (d), and consists of a legal opinion by the Attorney General of the State of Oklahoma. The opinion addresses the State's authority to participate in certain aspects of the Small Operator Assistance Program (SOAP).

This notice sets forth the times and locations that the Oklahoma program and proposed amendments are available for public inspection, the comment period during which interested persons may submit written comments on the proposed program amendment, and information pertinent to the public hearing.

DATES: Written comments relating to Oklahoma's proposed modification of its program not received on or before 4:00 p.m. on November 29, 1985, will not necessarily be considered. A public hearing on the proposal will be held, if requested, on November 25, 1985 at the address shown below under **"ADDRESSES".**

Any person interested in making an oral or written presentation at the hearing should contact Mr. James H. Moncrief, Acting Director of the Tulsa Field Office by 4:00 p.m., on November 18, 1985. If no one has contacted Mr. Moncrief to express an interest in participating in the hearing by that date, the hearing will not be held. If only one person has so contacted Mr. Moncrief, a public meeting rather than a hearing may be helf and the results on the meeting included in the Administrative Record.

ADDRESSES: Written comments should be mailed or hand delivered to: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

The public hearing, if requested, will be held at the Federal Building, 125 South Main Street, Muskogee, Oklahoma 74401. See **"SUPPLEMENTARY INFORMATION"** for addresses where copies of the Oklahoma program amendment and administrative record on the Oklahoma program are available. Each requestor may receive, free of charge, one single copy of the proposed program amendment by contacting the OSM Tulsa Field Office listed above.

FOR FURTHER INFORMATION CONTACT: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103; Telephone: (918) 581–7927.

SUPPLEMENTARY INFORMATION: Copies of the Oklahoma program amendment, the Oklahoma program and the administrative record on the Oklahoma program are available for public review and copying at the OSM offices and the Office of the State regulatory authority listed below, Monday through Friday, 9:00 a.m. to 4:00 p.m., excluding holidays.

Office of Surface Mining Reclamation and Enforcement, Administrative Record Room, Room 5124, 1100 "L" Street, N.W., Washington, D.C. 20240.

Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

Oklahoma Department of Mines, Suite 107, 4040 N. Lincoln, Oklahoma City, Oklahoma 73105.

Background

The Oklahoma program was approved by the Secretary of the Interior on January 19, 1981, conditioned on the correction of four deficiencies. Information pertinent to the general background, revisions, modifications and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and detailed explanation of the conditions of approval of the Oklahoma program can be found in the January 19, 1981 **Federal Register** (46 FR 4902), April 2, 1982 **Federal Register** (47 FR 14152), May 4, 1983 **Federal Register** (48 FR 20049), April 12, 1984 **Federal Register** (49 FR 14674), August 28, 1984 **Federal Register** (49 FR 34000) and March 18, 1985 **Federal Register** (50 FR 10759):

Condition (d) stipulates that Oklahoma must amend its program to remove the limitation on the authority of ODM regarding funding to qualified laboratories that provide services to small operators.

Proposed Amendment

On August 15, 1985, the State of Oklahoma submitted to OSM an amendment to its permanent regulatory program. The amendment is intended to address the remaining condition of approval by the Secretary of the Interior on the Oklahoma program. The State has provided to OSM a legal opinion from the Oklahoma Attorney General's office addressing the State's ability to disburse Federal funds to qualified laboratories participating in the Small Operator Assistance Program once the Federal funds have been deposited in the State Treasury. This legal opinion is intended to satisfy condition (d).

OSM is seeking comment on whether Oklahoma's proposed amendment (legal opinion) satisfies the condition and meets the criteria for approval of State program amendments at 30 CFR 732.17 and 732.15.

The full text of the proposd program modifications submitted by Oklahoma for OSM's consideration is available for public review at the addresses listed under **"SUPPLEMENTARY INFORMATION."**

Additional Deteminations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need to be prepared for this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from section 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this section is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule would not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules would be met by the State.

3. *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

30 CFR Part 936

Permanent State Regulatory Progam of Oklahoma

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for the public comment period and for a public hearing on the substantive adequacy of a program amendment to the Oklahoma permanent regulatory program which was approved by the Secretary of the Interior pursuant to the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment submitted by Oklahoma for the Secretary's approval is an amendment to the Oklahoma Coal Reclamation Act, Senate Bill 332. The amendment, signed on July 8, 1985, by the Governor of Oklahoma, establishes a new Oklahoma Mining Commission which provides policy directions to the Oklahoma Department of Mines (ODM). The statutory amendment also establishes a new position, that of the Director, Oklahoma Department of Mines.

DATE: Written comments not received on or before 4:00 p.m. on November 29, 1985 will not necessarily be considered. A public hearing on the proposal will be held, if requested, on November 25, 1985 at the address listed below under **"ADDRESSES"**. Any person interested in making an oral or written presentation at the hearing should contact Mr. James H. Moncrief, Acting Director, Tulsa Field Office by 4:00 p.m. on November 13, 1985. If no one has contacted Mr. Moncrief to express an interest in participating in the hearing by that date, the hearing will not be held. If only one person has so contacted Mr. Moncrief, a public meeting, rather than a hearing may be held and the results of the meeting included in the Administrative Record.

ADDRESSES: Written comments should be mailed or hand delivered to: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

The public hearing, if requested, will be held at the Federal Building, 125 South Main Street, Muskogee, Oklahoma 74401. See **"SUPPLEMENTARY INFORMATION"** for addresses where copies of the Oklahoma program amendment and administrative record on the Oklahoma program are available. Each requester may receive, free of charge, one single copy of the proposed program amendment by contacting the OSM Tulsa Field Office listed above.

FOR FURTHER INFORMATION CONTACT: Mr. James H. Moncrief, Acting Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103. (918) 581–7923.

SUPPLEMENTARY INFORMATION: Copies of the Oklahoma program amendment, the Oklahoma program and the administrative record on the Oklahoma program are available for public review and copying at the OSM offices and the office of the State regulatory authority listed below, Monday through Friday, 9:00 a.m. to 4:00 p.m., excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 5124, 1100 "L" Street, NW., Washington, D.C. 20240.

Office of Surface Mining Reclamation and Enforcement, Room 3432, 333 West Fourth Street, Tulsa, Oklahoma 74103.

Oklahoma Department of Mines, Suite 107, 4040 North Lincoln Boulevard, Oklahoma City, Oklahoma 73105.

The Oklahoma program was approved by the Secretary of the Interior on January 19, 1981, **Federal Register** (46 FR 4910). On July 16, 1985, the State of Oklahoma submitted to OSM an amendment to its approved permanent regulatory program. The proposed program amendment consists of language amending the Oklahoma Coal Reclamation Act. The amendment creates a new nine member Oklahoma Mining Commission which will replace the previous 10 member State Mining Board. The amendment specifies length of terms, specific area of representation for each Commission member, and duties and responsibilities of the Commission.

The amendment also creates a new position, that of Director, Oklahoma Department of Mines who serves as chief executive officer in the absence of the Chief Mine Inspector. The amendment also identifies the duties and responsibilities of the Director and interaction between the Director and the Mining Commission.

In accordance with the provisions of 30 CFR 732.17 OSM is seeking comment from the public on the adequacy of the proposed program amendment. If the proposed amendment is found by the Director to be in accordance with SMCRA and no less effective than the Federal regulations, the amendment will be approved and codified at 30 CFR Part 936 as part of the approved Oklahoma program.

Additional Determinations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to section 702(d) of SMCRA 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule would not have significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.)*. This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules would be met by the State.

3. *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by the Office Management and Budget under 44 U.S.C. 3507.

30 CFR Part 938

Public Comment and Opportunity for Public Hearing on a Modification to the Pennsylvania Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for the public comment period and for a public hearing on the substantive adequacy of a program amendment submitted by the Commonwealth of Pennsylvania as a Modification to the Pennsylvania Permanent Regulatory Program (hereinafter referred to as the

Pennsylvania program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment includes revisions to the State's inspection and enforcement policy and civil penalty program.

This notice sets forth the times and locations that the Pennsylvania program and the proposed amendment are available for public inspection, the comment period during which interested persons may submit written comments on the proposed program elements, and the procedures that will be followed regarding the public hearing.

DATES: Written comments not received on or before 4:00 p.m. November 29, 1985 will not necessarily be considered.

If requested, a public hearing on the proposed modifications will be held on November 22, 1985, beginning at 9:00 a.m. at the location shown below under **"ADDRESSES".**

ADDRESSES: Written comments should be mailed or hand delivered to: Robert Biggi, Harrisburg Field Office, Office of Surface Mining, 101 South 2nd Street, Suite L–4, Harrisburg, Pennsylvania 17101.

If a public hearing is held its location will be at: Penn Harris Motor Inn and Convention Center at the Camp Hill Bypass and U.S. 11 and 15, Camp Hill, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Robert Biggi, Harrisburg Office, Office of Surface Mining, 101 South 2nd Street, Suite L–4, Harrisburg, Pennsylvania 17101, Telephone: (717) 782–4036.

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

Availability of Copies

Copies of the Pennsylvania program, the proposed modifications to the program, a listing of any scheduled public meeting and all written comments received in response to this notice will be available for reveiw at the OSM offices and the office of the State regulatory authority listed below, Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding holidays. Each person may receive free of charge, one single copy of the proposed modifications by contacting the Harrisburg Field Office.

Harrisburg Field Office, Office of Surface Mining, 101 South 2nd Streeet, Suite L–4, Harrisburg, Pennsylvania 17101

Office of Surface Mining Reclamation and Enforcement, Room 5124, 1100 "L" Street, NW., Washington, D.C. 20240

Pennsylvania Department of Environmental Resources, Fulton Bank Building, Third and Locust Streets, Harrisburg, Pennsylvania 17120.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommandation. Comments received after the time indicated under "DATES" or at locations other than Harrisburg, Pennsylvania, will not necessarily be considered and included in the Administrative Record for this final rulemaking.

Public Hearing

Persons wishing to comment at a public hearing should contact the person listed under **"FOR FURTHER INFORMATION CONTACT"** by the close of business November 12, 1985. If no one requests to comment at a public hearing, the hearing will not be held.

If only one person requests to comment, a public meeting, rather than a public hearing, may be held and the results of the meeting included in the Administrative Record.

Filing of a written statement at the time of the hearing is requested and will greatly assist the transcriber.

Submission of written statements in advance of the hearing will allow OSM officials to prepare appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and wish to do so will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment, have been heard.

Public Meeting

Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the OSM office listed under **"ADDRESSES"** by contacting the person listed under **"FOR FURTHER INFORMATION CONTACT."**

All such meetings are open to the public and, if possible, notices of meetings will be posted in advance in the Administrative Record. A written summary of each public meeting will be made a part of the Administrative Record.

II. Background on the Pennsylvania State Program

On February 29, 1980, the Secretary of the Interior received a proposed regulatory program from the State of Pennsylvania. On October 22, 1980, following a review of the proposed program as outlined in 30 CFR Part 732, the Secretary disapproved the Pennsylvania program. The State resubmitted its program on January 25, 1982, and subsequently the Secretary approved the program subject to the correction of minor deficiences. Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval of the Pennsylvania program can be found in the July 30, 1982 **Federal Register** notice (47 FR 33050).

IH. Submission of Program Amendment

On September 30, 1985, Pennsylvania submitted for OSM's review and approval a proposed amendment to the State program (OSM Administrative Record PA 568). The amendment modifies the State's inspection and enforcement policy and civil penalty program as follows:

1. Establishes a 30-day cap for civil penalties to conform with provisions of 30 CFR 845.15(b)(2).

State Program Provision Amended: Civil Penalty Program II, 2.2.

2. Establishes an individual civil penalty requirement to conform with provisions of Section 518 of the Federal Surface Mining Control and Reclamation Act.

State Program Provisions Amended: Civil Penalty Program I and Inspection and Enforcement Policy II, B, 2a(5) and II, B, 2b(4).

3. Provides a limited exception for mandatory civil penalties for Compliance Orders that are issued solely for the purpose of extending an abatement date prescribed in previous inspection report notice.

State Program Provisions Amended: Civil Penalty II(4) and Inspection and Enforcement Policy II, B, 2(4).

4. Modifies the requirements for withholding a license or denying license renewal.

State Program Provision Amended: Inspection and Enforcement Policy II, E.

The Director is seeking comment on the adequacy of the proposed amendments in satisfying the criteria for approval of State program amendments set forth at 30 CFR 732.15 and 732.17. With respect to the proposed penalty provisions, the Director must find that the State's rules incorporate penalties no less stringent than those set forth under Section 518 of SMCRA and 30 CFR Part 845 of the Federal regulations and contain the same or similar procedural requirements relating thereto.

With respect to the proposed enforcement provisions the Director must determine that they incorporate sanctions no less stringent than those set forth under section 521 of SMCRA and 30 CFR Part 843 of OSM's regulations and contain the same or similar procedural requirements relating thereto.

The full text of the proposed amendment in available for review in the OSM Administrative Record under No. PA 568 at the addresses listed above.

IV. Additional Determinations

1. Compliance with the National Environmental Policy Act

The Secretary has determined that, pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. Executive Order No. 12291 and the Regulatory Flexibility Act

On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review of OMB.

The Department of the Interior has determined that this rule would not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules would be met by the State.

3. Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

List of Subjects in 30 CFR Part 938

Coal mining, Intergovernment relations, Surface mining, Underground mining.

Dated: October 23, 1985.

Jed D. Christensen,

Acting Director, Office of Surface Mining.

BILLING CODE 4310-05-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA–6685]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicted on the proposed base (100-year) flood elevations and proposed modified base flood elevations listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program.

DATES: The period for comment will be ninety (90) days following the second publication of the proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Matticks, Acting Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–2768.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the proposed determinations of base (100-year) flood elevations and modified base flood elevations for selected locations in the nation, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

These elevations, together with the flood plain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirement on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the proposed flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the flood plain area. The elevation determinations, however, impose no restriction unless and until the local community voluntarily adopts flood plain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with Federal standards, the elevations prescribe how high to build in the flood plain and do not proscribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself it has no economic impact.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1 and 43

[CC Docket No. 85-308; RM-4878; FCC 85-563]

Annual Report Form M and FCC Form 901

AGENCY: Federal Communications Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: In accordance with § 43.21 of Part 43 and § 1.785 of Part I of the Commission's Rules and Regulations, the Commission is considering eliminating certain schedules and raising the reporting limits on other schedules in Annual Report Form M. In addition, in accordance with §§ 43.21 and 43.31 of Part 43 and §§ 1.785 and 1.786 of Part 1 of the Commission's Rules and Regulations, the Commission is considering increasing the minimum operating revenue level necessary to file Annual Report Form M and FCC Form 901. These changes have been proposed because it has been tentatively decided that the changes will not inhibit the Commission from performing its regulatory responsibilities. The amendment of Form M and FCC Form 901 should reduce Common Carriers' reporting burdens.

DATES: Comments are due on or before November 29, 1985. Reply comments are due on or before December 16, 1985.

FOR FURTHER INFORMATION CONTACT: Stephen Steckler, Chief, Financial Reporting Branch, Accounting and Audits Division, Common Carrier Bureau, (202) 634-1861.

SUPPLEMENTARY INFORMATION: The collection of information requirement contained in this proposed rule has been submitted to OMB for review under Section 3504(h) of the Paperwork Reduction Act. Persons wishing to comment on this collection of information requirement should direct their comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, Attention: Desk Officer for Federal Communications Commission.

Notice of Proposed Rulemaking

In the matter of Amendment of Annual Report Form M and FCC Form 901 (CC Docket No. 85-308, RM-4878).

Adopted October 15, 1985.

Released: October 23, 1985.

By the Commission.

I. Introduction

1. In this Notice of Proposed Rulemaking, the Commission is proposing to modify the reporting requirements of its Annual Report, FCC Form M (Form M) and FCC Form 901, "Monthly Report of Revenues, Expenses,

and Other Items—Telephone Companies" (Form 901). In response to a petition by the Operating Telephone Companies (OTCs) [1] and comments filed earlier in another proceeding by GTE Service Corporation (GTE), the Commission is proposing, in connection with Form M, the elimination of ten schedules and an increase in the reporting threshold for items to be individually reported on 12 other schedules. Also, on its own initiative, the Commission is proposing to raise the annual revenue threshold for carriers required to file Form M and Form 901. These revisions would apply to the Form M for the year ended December 31, 1985 and to the Form 901 beginning in 1986.

II. Background

2. Telephone companies with annual operating revenues in excess of $1 million are required to file Form M annually and Form 901 monthly. Form M provides the Commission with financial, corporate, and statistical data concerning the carriers' operations. Form 901 provides the Commission with summary information concerning income statement and balance sheet items, and certain statistical data.

3. On November 9, 1984, the OTCs submitted a Petition for Rulemaking to reduce reporting burdens associated with Form M. On December 10, 1984, the Commission solicited comments on the OTCs' Petition. Comments were received from the American Telephone and Telegraph Company (AT&T), Southern New England Telephone Company (SNET), and the United States Telephone Association (USTA).

4. In another proceeding, CC Docket 82–680(RM–4076), the GTE Service Corporation (GTE) filed comments recommending the elimination of 11 Form M schedules. In that proceeding the Commission decided that the GTE request fell outside the scope of the proceeding and stated the request would be considered at some future time, FCC 83–138, 48 FR 19373 (1983). Since the GTE request is similar to the OTCs' petition and directed to the same body of reporting requirements, we have decided to include it in this rulemaking.

III. Petition

5. In their Petition the OTCs stated that revision of Form M is necessary because certain reporting requirements have become burdensome, impractical and unnecessary because of changes in the telephone industry, inflation, and other events. While they point out that several Form M schedules were revised in CC Docket 82–680, they state that there has not been a comprehensive revision of Form M since 1965. The OTCs feel that a comprehensive revision of Form M would be consistent with the Paperwork Reduction Act of 1980 [2] and the Commission's goals to ease the burden of industry recordkeeping and reporting, and to reduce government processing costs.

6. Specifically, the OTCs recommended the elimination of 14 schedules in Form M. As an alternative, the OTCs recommended raising the dollar threshold for items required to be reported individually on six of these schedules. In addition, the OTCs proposed raising the dollar threshold for individually reported items on 12 other schedules. A listing of these schedules in provided as Appendix A.

7. The GTE comments in Docket 82–680, requested that the Commission examine 11 schedules in Form M for the purpose of considering their elimination. The GTE and OTC requests duplicate each other only with respect to one schedule, Schedule 71, "Accidents to Employees". A listing of the 11 schedules in the GTE recommendation is provided as Appendix B.

IV. Comments

8. All of the parties commenting on the OTC petition supported it, echoing the view that Form M is burdensome and has become obsolete in some respects because of changes in the telephone industry. AT&T suggested that the Commission examine schedules other than those mentioned in the OTCs' Petition to determine whether they should be modified or eliminated.

Schedules Proposed for Elimination

9. After reviewing the 14 schedules recommended by the OTCs for elimination and the schedules recommended for elimination by GTE, we are proposing to eliminate ten of them. We have tentatively decided that the ten schedules are no longer needed for the Commission's regulatory purposes. Of these ten schedules, five were requested for elimination by the OTCs, four by GTE, and one by both parties. These schedules are as follows:

1. Schedule 16, "Miscellaneous Physical Property" (Account 103 and 315)
2. Schedule 18, "Sinking and Other Funds" (Accounts 104 and 137)
3. Schedule 19, "Special Cash Deposits" (Account 114)
4. Schedule 28, "Notes Payable" (Accounts 158.1 and 158.2)
5. Schedule 44, "Nondistortive Delayed Items"
6. Schedule 54, "Telephone Stations, Data Sets and Data Access Arrangements"
7. Schedule 58A, "Stations Left in Place"
8. Schedule 58B, "Stations Apparatus in Stock"
9. Schedule 70A, "Total Compensation of Employees by Months"
10. Schedule 71, "Accidents to Employees"

Proposed Modification of Other Schedules

10. As suggested by the OTCs, we are proposing to raise the dollar reporting threshold for items to be reported on five schedules from $10,000 to $100,000. These schedules are: (1) Schedule 20, "Notes Receivable" (Accounts 117.1 and 117.2); (2) Schedule 33, "Analysis of Entries in Other Capital and Retained Earnings Accounts"; (3) Schedule 37, "Analysis of Dividend and Interest Income"; (4) Schedule 41, "General Services and Licenses" (Accounts 525 and 674); and (5) Schedule 45, "Analysis of Extraordinary Items and Distortive Delayed Items" (Accounts 360, 365, 370, 375 and 380). Our review of the these schedules leads us to the tentative conclusion that a $100,000 reporting threshold would be appropriate for items reported on these schedules. We believe items above $100,000 are significant and therefore should be monitored.

11. On Schedule 12C, "Analysis of Entries in Property Held for Future Telephone Use" (Account 100.3), carriers are required to report the original cost of property, other than station apparatus, owned and held for no longer than two years under a definite plan for future use. The OTCs proposed reporting on this schedule only when the amounts recorded in account 100.3 exceed 2 percent of the sum of Telephone Plant in Service (Account 100.1), Telephone Plant Under Construction (Account 100.2), Property

[1] The Operating Telephone Companies referred to in this proceedng are: The Bell Telephone Company of Pennsylvania; the Chesapeake and Potomac Telephone Company; Chesapeake and Potomac Telephone Company of Maryland; Chesapeake and Potomac Telephone Company of Virginia; Chesapeake and Potomac Telephone Company of West Virginia; the Diamond State Telephone Company; Illinois Bell Telephone Company; Indiana Bell Telephone Company, Inc.; Michigan Bell Telephone Company; the Mountain States Telephone and Telegraph Company; Nevada Bell; New Jersey Bell Telephone Company; New York Telephone Company; Northwestern Bell Telephone Company; The Ohio Bell Telephone Company; Pacific Bell; Pacific Northwest Bell Telephone Company; South Central Bell Telephone Company; Southern Bell Telephone and Telegraph Company, Southwestern Bell Company; Telephone Company; and Wisconsin Bell, Inc.

[2] 44 U.S.C. 3501 *et seg.*

Held for Future Telephone Use (Account 100.3) and Telephone Plant Acquisition Adjustment (Account 100.4). In those instances where the 2 percent level is exceeded, the OTCs would limit reporting to items in excess of $100,000, as opposed to the current requirement to report items of $50,000 or more. We are proposing to raise the reporting limit to items of $100,000 or more, but reporting on this schedule would continue to be required regardless of the percentage relationship to the Plant in Service Accounts. The percentage relationship suggested by the OTCs could, in many cases, remove the capability of the Commission to monitor how long significant items are remaining in Account 100.3. We are of the tentative view that raising the limit for items to be reported separately represents a reasonable compromise between what the Commission would regard as significant and reducing the reporting burdens of the carriers.

12. On Schedule 17, "Investments" (Accounts 101.1, 101.2, 102, and 116), carriers show investments and advances to affiliates. The OTCs recommended eliminating entries for Account 102, "Other Investments", and Account 116, "Temporary Cash Investments", except when investments represent a controlling interest, and raising the monetary limit of items to be reported to $100,000. We believe that information on all of the aforementioned investment and advance accounts are necessary, but we are proposing to raise to $100,000 the threshold for reporting items separately.

13. On Schedule 21, "Accounts Receivable" (Accounts 120.1 and 120.2) and Schedule 29, "Accounts Payable" (Accounts 159.1 and 159.2), carriers report the ten largest items in excess of $10,000 in each account. The OTCs recommended raising the $10,000 threshold to $1 million. We are proposing the $1 million criterion recommended by the OTCs, although not without some misgivings. In the final rule we may adopt a lower reporting trigger of $100,000, and comments are specifically requested on whether this or some other amount would be more appropriate.

14. In connection with Schedule 30A, "Other Deferred Credits" (Account 174), most items reported in this schedule are awaiting final determination from the IRS, state commissions, and Federal agencies. The OTCs proposed the elimination of the reporting of all items in this schedule except for the Investment Tax Credit on lines 1–5. If other items are needed, the OTCs would limit the reporting to items in excess of $1 million, an increase from the currently prescribed level of $10,000. The Commission needs to review items reported in this schedule for ratemaking purposes, and therefore, we are not proposing to eliminate any entries. We are proposing the $1 million criterion recommended by the OTCs, but in the final rule may ultimately adopt a threshold of $100,000. Again, we are specifically soliciting comments on which amount, or any other in between, would be more appropriate.

15. In connection with Schedule 13A, "Analysis of Telephone Plant Acquired" (Account 276) and Schedule 22, "Deferred Charges" (Account 138 and 139), the OTCs requested that these schedules be eliminated or, as an alternative to elimination, that the Commission increase the prescribed monetary limits for items to be reported on them. We propose that the prescribed monetary limits be increased for these schedules as follows: For Schedule 13A, the OTCs recommended increasing the monetary limit from $50,000 to $1 million. The OTCs state that an increase in the monetary limit to $1 million would make the items reported on this schedule consistent with Section 31.2–21 of the Commission's Rules and Regulations, which requires carriers to submit to the Commission for consideration and approval copies of journal entries relating to acquisition of telephone plant where the consideration paid is $1 million or more. For Schedule 22, the OTCs recommended raising the monetary limit from $10,000 to $100,000. The OTCs state that less than 3% of the dollars involved would be removed, while upwards of 25% of the items would be eliminated if the dollar limit is increased to $100,000. Because increasing the monetary limits for these schedules could reduce the carriers' reporting burdens without significantly affecting the regulatory information needed by the Commission, we propose that the prescribed monetary limits be raised to $1 million for Schedule 13A and to $100,000 for Schedule 22.

Schedules To Be Retained Without Change

16. Schedule 14C, "Bases of Charges for Depreciation" provides the Commission with data regarding depreciable plant. The OTCs stated that this schedule should be eliminated since the information provided is duplicative of data available in more detail at the triennial depreciation represcription meetings attended by the carriers and the Commission. However, only one-third of the carriers are scheduled to meet each year to represcribe depreciation rates. On a yearly basis this schedule provides the only means of ensuring the Commission and the public that carriers are using the prescribed rates. Further, this schedule was modified in Docket 82–513, 48 Fed. Reg. 5928 (1983), to reduce the burdens on carriers by eliminating parts of the schedule containing information no longer needed by the Commission to meet its current regulatory obligations. Since this schedule has recently been modified to require only the reporting of pertinent data, we are proposing no changes here.

17. Schedule 21A, "Reserve for Uncollectible Accounts" (Account 118(b)) provides the Commission with information regarding the carriers' bad debts. Its shows the carriers' accruals charged to the uncollectible account and depicts the ratio of expense to revenue. The OTCs recommended that this schedule be eliminated because they believe it serves no regulatory purpose. We have reviewed this schedule, and we believe that it is particularly important for the Commission to retain it because of the problems that could occur with joint billing. Also, it provides useful specific information on entries relating to amounts previously written off and provisions for uncollectible intrastate and interstate amounts in addition to accruals charged to account 530, "Uncollectible operating revenues."

18. Schedule 30B, "Accumulated Deferred Income Taxes-Accelerated Tax Depreciation" (Account 176.1) and Schedule 30C, "Accumulated Deferred Income Taxes-Other" (Account 176.2) provide the Commission with detailed information regarding tax adjustments. The OTCs recommended that these schedules be eliminated because they believe that balance sheet and income statement disclosure is adequate. We believe that these schedules provide useful information in tracking the composition, growth and reduction of individual components of deferred taxes. If this information were not provided on these schedules, it would most likely be requested in the form of a footnote elsewhere in the Form M.

19. Schedule 42, "Membership Fees and Dues" (Operating Expenses and/or Account 323) provides the Commission with information on carrier expenses for membership fees and dues. The OTCs recommended elimination of this schedule because it is burdensome to prepare and they believe that it is not needed by the Commission for regulatory purposes. They further contend that this area of expense is one where prudent management is the appropriate control mechanism. We believe that this is an area where

expenses can escalate quickly, and to the extent they are borne or could be borne by the ratepayer, these expenses are of interest to us. For this reason, we are not proposing the elimination of this schedule.

20. Schedule 43, "Donations or Payments for Services Rendered by Persons Other Than Employees" provides the Commission with information on the carriers' expenses for services rendered by nonemployees. The OTCs request that this schedule be eliminated or, as an alternative, that the monetary level be increased from $25,000 to $100,000. The OTCs believe this schedule to be one of the most burdensome, and they see no regulatory purpose for this schedule. This schedule was reviewed by the Commission two years ago in CC Docket 82–680 *supra.*, and, at that time, it was decided that it was necessary for the Commission's regulatory needs. However, the commission did raise the monetary limit on this schedule from $10,000 to $25,000 primarily because of inflation. We believe this schedule is still of regulatory interest and because the monetary limits have not been materially affected by inflation in the past two years, we are not proposing any change.

21. Schedule 50, "Outside Plant Statistics" provides information broken down by state, relating to the carriers' cables, conduits, channels, and radio relays. These data are incorporated in an annual report on telephone statistics published annually by the Industry Analysis Branch of the Commission. These statistics also assist the Commission in performing a state by state analysis of carriers' outside plant. In addition, the Commission uses the information contained in this schedule for its analysis of bypass. Because of the need for information supplied by this schedule, we have decided to retain it.

22. Schedule 51, "Statistics Relating to Central Offices"; Schedule 52 "Access Lines in Service"; and Schedule 53 "Telephone Calls" were amended by the Commission on January 29, 1985. In view of the recency of the amendment of these schedules, we are not adopting the GTE recommendation, which basically addressed the content of these schedules prior to their modification.

23. Schedule 56, "Interest Private Line Statistics" provides the Commission with data regarding the carrier's use of various private line services. The information provided in this schedule is used by the Commission in its analysis of bypass methods, particularly with regard to telephones. The statistics gathered in this schedule enables the Commission to gauge the effects of competition in the area of bypass. We have therefore decided to retain this schedule.

24. Schedule 60B, "Pensions Paid" provides detailed information regarding the pensions paid by the carriers. It also provides information on the number of employees eligible for and receiving pension funds. This schedule serves as a useful tool for the Commission to use in monitoring the growth in the pension cost and pension accrual rates and the number of employees engaged in each carrier's pension program. Additionally, this information is used to monitor pension costs chargeable to the telephone ratepayer. We have therefore decided to retain the schedule.

25. On Schedule 38, "Miscellaneous Income Charges" (Account 323), carriers are required to report the 10 largest items amounting individually to $10,000 or more. The OTCs recommended raising the threshold for individually reported items to $100,000. We are not proposing to raise the limit in this proceeding because items reported on this schedule contain items of regulatory interest such as charitable deductions and entertainment expenses, as well as other items which have been and will continue to be matters of interest in rate proceedings.

26. Schedule 39, "Special Expenses Attributable to Formal Regulatory Cases" contains information on a broad range of regulatory expenses. The OTCs have recommended raising the limitation for individually reported items on this schedule to $100,000. We are not proposing to raise the limitation because this schedule was recently examined in CC Docket 82–680 wherein the reporting limits for individually reported items were raised from $500 to $10,000.

Increase in Minimum Operating Revenue Requirement for Filing Form M and Form 901

27. Finally, in this NPRM, we are proposing on our own initiative to increase the minimum operating revenue requirement for carriers to file Form M and Form 901. Many smaller telephone companies now have operating revenues in excess of $1 million and under current rules are required to file these reports. However, these reports are burdensome for the smaller companies to prepare, partly due to their limited staff. Our proposed increase would affect approximately 22 carriers. Should the Commission need financial information from these companies that is currently provided in these reports, it can be requested on an as needed basis. In an effort to ease the reporting burdens for these smaller telephone companies, we propose that the minimum operating revenue requirement to file Form M and Form 901 be increased to operating revenues in excess of $100 million. Commonly controlled telephone companies would, however, be treated as a single entity for purposes of applying the $100 million exemption.

V. Other Matters

28. If the foregoing proposals are adopted, the Table of Contents and the Indices for Form M will be amended accordingly. In addition, if this proposal is adopted, §§ 43.21 and 43.31 of Part 43 of our Rules and Regulations will be amended to reflect the minimum operating revenue requirement for telephone carriers filing Form M and Form 901.

29. In compliance with the provisions of section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), we certify that these reporting changes can be readily implemented by all carriers filing Form M and Form 901 without significant economic impact, and, in fact, will ease the reporting requirements of these carriers, both large and small. The rationale for the proposed changes is outlined in the preceding discussion.

30. For purposes of this non-restricted notice and comment rulemaking proceeding, members of the public are advised that *ex parte* contacts are permitted from the time the Commission adopts a notice of proposed rulemaking until the time a public notice is issued stating that a substantive disposition of the matter is to be considered at a forthcoming meeting or until a final order disposing of the matter is adopted by the Commission, whichever is earlier. In general, an *ex parte* presentation is any written or oral communication (other than formal written comments/pleadings and formal oral arguments) between a person outside the Commission and a Commissioner or a member of the Commission's staff which addresses the merits of the proceeding. Any person who submits a written *ex parte* presentation must serve a copy of that presentation on the Commission's Secretary for inclusion in the public file. Any person who makes an oral *ex parte* presentation addressing matters not fully covered in any previously filed written comments in the proceeding must prepare a written summary of the presentation on the day of oral presentation. That written summary must be served on the Commission's Secretary for inclusion in the public file with a copy to the Commission official receiving the oral presentation. Each *ex parte* presentation described above must state on its face that the Secretary

has been served, and must also state by docket number the proceeding to which it relates. *See* generally, § 1.1231 of the Commission's Rules, 47 CFR 1.1231. A summary of these Commission procedures governing *ex parte* presentations in informal rulemaking is available from the Commission's Consumer Assistance Office, FCC, Washington, DC 20554.

31. In reaching its decision, the Commission may take into consideration information and ideas not contained in the comments, provided that such information or a writing indicating the nature and source of such information is placed in the public file, and providing that the fact of the Commission's reliance on such information is noted in the Report and Order.

VI. Ordering Clauses

32. Accordingly, it is ordered, that pursuant to the provisions of section 4(i) and 219, and 220 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 219 and 220, there is hereby instituted a notice of proposed rulemaking into the foregoing matter.

33. It is further ordered, that all interested persons may file comments on the specific proposals discussed in the NPRM on or before November 29, 1985. Reply comments shall be filed on or before December 16, 1985. In accordance with the provisions of § 1.419 of the Commission's Rules and Regulations, 47 CFR 1.419, an original and five (5) copies of all comments shall be furnished to the Commission. Copies of the documents will be available for public inspection in the Commission's Docket Reference Room, 1919 M Street, NW., Washington, DC.

34. It is further ordered, pursuant to section 220(i) of the Communications Act, 47 U.S.C. 220(i), that the Secretary shall cause a copy of this Notice to be served on each state commission.

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix A—Summary of OTCs' Request

14 Schedules Proposed for Elimination

1. Schedule 13A, "Analysis of Telephone Plant Acquired" (Account 276)—The OTCs propose to eliminate this schedule or, as an alternative, to raise the monetary limit from $50,000 to $1,000,000.

2. Schedule 14C, "Bases of Charges For Depreciation"—The OTCs propose to eliminate this schedule.

3. Schedule 16, "Miscellaneous Physical Property" (Accounts 101 and 315)—The OTCs propose to eliminate this schedule or, as an alternative, to eliminate the reporting of all nonregulated property, to raise the monetary limit from $50,000 to $100,000 and to report only items when the amount in the accounts exceed 2% on line 5, Schedule 10, "Balance Sheet" (Plant in Service).

4. Schedule 18, "Sinking And Other Funds" (Accounts 104 and 137)—the OTCs propose to eliminate this schedule.

5. Schedule 19, "Special Cash Deposits" (Account 114)—The OTCs propose to eliminate this schedule or, as an alternative, to raise the monetary limit from $50,000 to $100,000.

6. Schedule 21A, "Reserve For Uncollectible Accounts" (Account 118(b))—The OTCs propose to eliminate this schedule.

7. Schedule 22, "Deferred Charges" (Accounts 138 and 139)—The OTCs propose to eliminate this schedule or, as an alternative, to raise the monetary limit from $10,000 to $100,000.

8. Schedule 28, "Notes Payable" (Accounts 158.1 and 158.2)—The OTCs propose to eliminate this schedule or, as an alternative, to raise the monetary limit from $10,000 to $100,000.

9. Schedule 30B, "Accumulated Deferred Income Taxes-Accelerated Tax Depreciation" (Account 176.1)—The OTCs propose to eliminate this schedule.

10. Schedule 30C, "Accumulated Deferred Income Taxes-Other (Account 176.2)—The OTCs propose to eliminate this schedule.

11. Schedule 42, "Membership Fees And Dues"—The OTCs propose to eliminate this schedule.

12. Schedule 43, "Donations Or Payments For Services Rendered By Persons Other Than Employees"—The OTCs propose to eliminate this schedule or, as an alternative, to raise the monetary limit from $25,000 to $100,000.

13. Schedule 44, "Nondistortive Delayed Items"—The OTCs propose to eliminate this schedule.

14. Schedule 71, "Accidents To Employees"—The OTCs propose to eliminate this schedule.

12 Schedules in Which Increases in Monetary Limits Are Proposed

15. Schedule 12C, "Analysis Of Entries In Property Held For Future Telephone Use" (Account 100.3)—The OTCs propose to report entries only if the amount in account 100.3 exceeds 2% of line 5, Schedule 10, "Balance Sheet" (Plant in Service) and to raise the monetary limit from $50,000 to $100,000.

16. Schedule 17, "Investments" (Accounts 101.1, 101.2, 102 and 116)—The OTCs propose to eliminate entries for accounts 102 and 116 except where they represent a controlling interest and to raise the monetary limit from $10,000 to $100,000.

17. Schedule 20, "Notes Receivable" (Accounts 117.1 and 117.2)—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

18. Schedule 21, "Accounts Receivable" (Accounts 120.1 and 120.2)—The OTCs propose to list the ten largest items in each account in excess of $1,000,000 from in excess of $10,000.

19. Schedule 29, "Accounts Payable" (Accounts 159.1 and 159.2)—The OTCs propose to list the ten largest items in each account in excess of $1,000,000 from in excess of $10,000.

20. Schedule 30A, "Other Deferred Credits" (Account 174)—The OTCs propose to eliminate the reporting of all items except Investment Tax Credits on lines 1–5. If other items are needed, they propose to limit reporting to items in excess of $1,000,000 from $10,000.

21. Schedule 33, "Analysis Of Entries In Other Capital And Retained Earnings Accounts"—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

22. Schedule 37, "Analysis Of Dividend And Interest Income"—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

23. Schedule 28, "Miscellaneous Income Charges" (Account 323)—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

24. Schedule 39, "Special Expenses Attributable To Formal Regulatory Cases"—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

25. Schedule 41, "General Services And Licenses" (Accounts 325 and 674)—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

26. Schedule 45, "Analysis Of Extraordinary Items And Distortive Delayed Items" (Accounts 360, 365, 370, 375 and 380)—The OTCs propose to raise the monetary limit from $10,000 to $100,000.

Appendix B—List of Schedules Requested for Elimination by GTE

1. Schedule 50, "Outside Plant Statistics"

2. Schedule 51, "Statistics Relating to Central Offices"

3. Schedule 52, "Access Lines in Service"

4. Schedule 54, "Telegraph Station, Data Sets and Data Access Arrangements"

5. Schedule 55, "Telephone Calls"

6. Schedule 56, "Interstate Private Line Statistics"

7. Schedule 58A, "Station Left in Place"
8. Schedule 58B, "Station Apparatus in Stock"
9. Schedule 60B, "Pensions Paid"
10. Schedule 70A, "Total Compensation of Employees by Months"
11. Schedule 71, "Accidents to Employees"

47 CFR Part 64

[CC Docket No. 81-893; FCC 85-565]

Detariffing of Customer Premises Equipment and Enhanced Services (Second Computer Inquiry)

AGENCY: Federal Communications Commission.

ACTION: Fourth notice of proposed rulemaking.

SUMMARY: The Commission proposes to detariff the customer premises equipment (CPE) which the Bell Operating Companies (BOCs) retained at divestiture. The Commission believes that the detariffing of this equipment is necessary to create an unregulated, competitive CPE marketplace. The Notice proposes to permit the states the flexibility to decide the appropriate regulatory treatment of CPE located at Public Answering Points used in connection with 911 emergency service, to continue the current regulatory treatment of pay telephones and official services equipment, and to require the BOCs to detariff and transfer to the BOCs' CPE subsidaries the CPE associated with Centrex service, Automatic Call Distribution service, telephone answering services, and extensions to pay telephone. The Commission also seeks comment on the proper regulatory treatment of 101 ESS switches used in providing Centrex-CU service. Last, the Commission postpones the detariffing of "embedded" Network Channel Terminating Equipment until such time as it releases an Order in the Third Computer Inquiry.

DATES: Comments must be received on or before December 20, 1985; reply comments are due on or before January 6, 1986; Information from the Bell Operating Companies due on November 21, 1985.

ADDRESSES: Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kurt DeSoto at (202) 632-6917 or John Cimko at (202) at 632-6387.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 64

Communications, Common carriers, Customer premises equipment, Detariffing.

In the matter of procedures for implementing the detariffing of customer premises equipment and enhanced services (Second Computer Inquiry): Southwestern Bell Telephone Company; Petitions to detariff and transfer to Southwestern Bell Telecommunications, Inc., certain Embedded Customer Premises Equipment; CC Docket No. 81-893; File Nos. ENF 84-39, 84-42.

Adopted: October 16, 1985.
Released: October 21, 1985.

By the Commission.

I. Introduction

1. In this proceeding we shall propose criteria and procedures for the removal of the Bell Operating Companies' (BOCs) embedded customer premises equipment (CPE) [1] from regulated and tariffed service in a manner consistent with the objectives of the *Second Computer Inquiry*.[2] This Notice also addresses two related petitions filed by Southwestern Bell Telephone Company seeking to detariff and transfer to its subsidiary, Southwestern Bell Telecommunications, Inc., the embedded CPE leased to five customers.[3]

2. Briefly, we propose to detariff and transfer to the BOCs' CPE subsidiaries certain categories of embedded CPE and invite comment regarding the proper regulatory treatment of other categories. In addition, we tentatively propose to defer to the states the decision to detariff CPE used in connection with 911 emergency services. Last, this Notice requests additional information from the BOCs regarding the types, functions and quantities of equipment within their embedded base.

II. Background

A. Second Computer Inquiry

3. In the *Second Computer Inquiry* we concluded that "CPE is a severable commodity from the provision of transmission services and that regulation of CPE under Title II [of the Communications Act of 1934] is not required and is no longer warranted." *Final Decision*, 77 FCC 2d at 388. We stated that "the terminal equipment market is subject to an increasing amount of competition as new and innovative types of CPE are currently introduced into the marketplace by equipment vendors." *Id.* at 439. We concluded that "continued provision of CPE by common carriers under regulation impedes the evolution of a truly competitive CPE marketplace." *Reconsideration Order*, 84 FCC 2d at 65.

4. The Commission subsequently adopted a bifurcated approach to detariffing CPE which would enable regulators to address separately equipment that is "embedded," *i.e.*, subject to the jurisdictional separations process and provided under tariff as of January 1, 1983, and "new" equipment that was acquired by a carrier or manufactured by an affiliated entity after January 1, 1983. *Id.* at 66. We detariffed new CPE on January 1, 1983. Embedded CPE, on the other hand, was to be detariffed in a separate "implementation proceeding" which would address issues of asset valuation, capital recovery, alternative mechanisms by which the transition to an unregulated CPE environment may be achieved, and the appropriate time period for removal of embedded CPE investment from the separations process and carriers' rate bases. *Id.* at 69.

B. Implementation Proceeding

1. Notice of Proposed Rulemaking

5. Our first Notice of proposed Rulemaking (Notice) in the implementation proceeding conducted in this docket provided specific proposals for the detariffing of CPE owned by the American Telephone and Telegraph Company (AT&T).[4] In the Notice, we adopted a tentative view "that the most effective detariffing plan would be to combine the sale of embedded CPE in place with the transfer of embedded CPE to the carrier's unregulated service . . ." Notice, 94 FCC 2d at 85. We indicated several advantages to this

---

[1] We have defined "CPE" to include all equipment provided by a common carrier and located on customer premises, except over-voltage protection equipment, inside wiring, coin-operated or pay telephones, and mutiplexing equipment to deliver multiple channels to the customer. Amendment of Section 64.702 of the Commission's Rules and Regulations (Second Computer Inquiry), Memorandum Opinion and Order on Further Reconsideration, 88 FCC 2d 512 n.1 (1981). For purposes of this proceeding, "embedded" CPE includes "all CPE owned by carrier, including inventory, which is tariffed or subject to the separations process as of the bifurcation date [January 1, 1983]." *Id.* at 513. "New" CPE is "[a]ny other CPE which is acquired by a carrier or manufactured by an affiliated entry after [the bifurcation date]." *Id.* at 528.

[2] Amendment of § 64.702 of the Commission's Rules and Regulations (Second Computer Inquiry), 77 FCC 2d 384 (*Final Decision*), *recon.*, 84 FCC 2d 50 (1980) (*Reconsideration Order*), *further recon.*, 88 FCC 2d 512 (1981) (*Further Reconsideration Order*), *aff'd sub nom. Computer & Communications Industry Ass'n* v. *F.C.C.*, 693 F.2d 198 (D.C. Cir. 1982), *cert. denied*, 461 U.S. 938 (1983), *second further recon., FCC 84-190, released May 4, 1984.*

[3] *See* File Nos. ENF 84-39, 84-42.

[4] We released this Notice of Proposed Rulemaking on June 21, 1983, 94 FCC 2d 76 (1983).

approach. First, it increases choices for consumers. Second, it advances our deregulatory goals of promoting a more competitive marketplace. Third, it meets the requirement expressed in *Democratic Central Committee* [5] regarding the treatment of any gains or losses in connection with the removal of utility assets from regulated service. *Democratic Central Committee* requires that regulators ensure that the gains or losses on the transfers or sale of assets accrue to the entity, carrier investors or ratepayers, which bore the risk of loss of capital value over the regulated life of the asset.[6]

6. We tentatively concluded that investors must receive their net investment when CPE is removed from regulated service. Any gains or losses from the sale or transfer, however, should accrue to the ratepayer, since the risk of loss had been borne by the ratepayer. We also tentatively concluded that AT&T should use net book value as a substitute for economic value in appraising its embedded CPE base. It was our further tentative view that the requirement of *Democratic Central Committee* would be satisfied if embedded CPE is offered for sale first to embedded CPE customers at net book value plus reasonable transaction costs. This approach would give customers the opportunity to capture any gains in the value of the equipment and thereby ensure that the entities transferring the equipment did not undervalue the equipment. This approach also protected customers from the adverse effects associated with the removal of the embedded base from regulated service, *e.g.*, the transition from tariffed lease rates to detariffed rates.

7. After we issued our Notice of Proposed Rulemaking in the implementation proceeding, our task was complicated by the Modification of Final Judgment (MFJ) [7] entered by the District Court for the District of Columbia. The MFJ required the BOCs (which were then owned by AT&T) to transfer to AT&T not later than February 24, 1984, all of their embedded CPE except for certain categories of equipment included in Accounts 231 and 234. The equipmment in those accounts consists of official service equipment, public telephones, network channel terminating equipment, and certain other equipment discussed below.

2. AT&T CPE Detariffing Order

8. On November 23, 1983, we adopted the *AT&T CPE Detariffing Order* [8] to provide criteria and procedures for the removal from tariff of embedded CPE which the BOCs were not required to transfer to AT&T.[9] In that Order, we established detariffing requirements for valuation; a sale and lease program for residence, single-line and multi-line CPE, billing and support; maintenance; deferred tax reserves and unamortized tax credits; land and building valuation and transfer; accounting rules; and intrasystem wiring. We concluded that a sale plan together with the transfer of embedded CPE to unregulated service is the best means to achieve a competitive CPE marketplace. Further, we concluded that the plan established in the Order meets the requirements of *Democratic Central Committee* since it equitably balances the interests of ratepayers and investors.

3. Second and Third Report and Order

9. In our Second Report and Order in this proceeding, we gave states the flexibility to fashion mechanisms for detariffing the embedded CPE used in mobile telephone service.[10] We set only general parameters for these mechanisms, including requiring detariffing to occur as of January 1, 1985. We also allowed states the flexibility to establish valuation standards and other detariffing mechanisms for removal of the CPE from regulated service, as long as those standards are consistent with the requirements of *Democratic Central Committee.*

10. We also outlined procedures for detariffing wireline CPE owned by independent telephone companies. In our Third Report and Order, we directed state commissions to oversee the detariffing process, and gave them the flexibility to deregulate independent CPE before December 31, 1987.[11] This flexible framework allows the states to address the particular circumstances in their jurisdictions subject only to a limited number of federal guidelines. These guidelines include: (1) that states certify to the Commission that they have adopted a plan or have taken other steps to ensure that CPE is detariffed;[12] (2) that the valuation methods established by the states balance the interests of ratepayers and investors consistent with *Democratic Central Committee;* and (3) that states follow accounting and tax procedures established by the Commission in the *AT&T CPE Detariffing Order.*

C. BOC Embedded Base

11. The categories of embedded equipment which the BOCs were not required to transfer to AT&T at divestiture are much narrower than those addressed in our earlier Orders. Whereas those Orders dealt with both residential and business embedded CPE in a wide variety of categories, the BOC embedded equipment and related items are confined to eight categories:[13]

(A) CPE located at Public Service Answering Points used in connection with 911 emergency service (911 CPE);

(B) Official Services Equipment;

(C) Public and Semi-public telephones and extensions (Pay telephones);

(D) Centrex attendant positions equipment (Centrex equipment);

(E) 60-type console control cabinets and minicomputers associated with Automatic Call Distribution service (ACD equipment);

(F) Concentrator-identifier systems associated with telephone answering service systems (Concentrator-identifier equipment);

(G) 101 ESS switches used in providing Centrex-CU service (101 ESS switches); and

(H) Network channel terminating equipment (NCTE).

III. Proposals

12. This section outlines our proposals for detariffing and transferring to CPE subsidiaries and embedded base

[10] Procedures for Implementing the Detariffing of Customer Premises Equipment and Enhanced Services (Second Computer Inquiry), CC Docket No. 81–893, Second Report and Order, 98 FCC 2d 814 (1984).

[11] Procedures for Implementing the detariffing of Customer Premises Equipment and Enhanced Services (Second Computer Inquiry), CC Docket No. 81–893, Third Report and Order, 99 FCC 2d 354 (1984), *recon. denied,* FCC 85–118, released Mar. 27, 1985.

[12] As of the adoption of this Notice of Proposed Rulemaking, the Commission has approved one state certification and has received six other certifications.

[13] *See AT&T CPE Detariffing Order,* 95 FCC 2d at 1282 n.9; *see also* Plan of Reorganization (POR) filed by AT&T on December 16, 1982, pursuant to *United States v. AT&T.*

retained by the BOCs. These proposals include (1) permitting the states the flexibility to decide the appropriate treatment of CPE located at Public Service Answering Points used in connection with 911 emergency service; (2) continuing our current treatment of pay telephones and official services equipment; and (3) requiring the BOCs to detariff and transfer the CPE associated with Centrex service, ACD service, telephone answering services, and extensions to pay telephones. In so doing, we will require the BOCs to follow the procedures set forth in our AT&T CPE detariffing Order as modified below. We also seek comment concerning the proper regulatory treatment of 101 ESS switches. Last, we postpone the detariffing of "embedded" NCTE until such time as we issue an Order in the Third Computer Inquiry.[14]

13. To facilitate comment on our proposals, we direct the BOCs to file within 30 days of our release of this Notice a complete description of the types of equipment within each category. The reports should list the types of equipment, including peripheral equipment, the BOCs own in each category and list the approximate net book value of the equipment by category. The reports should also indicate whether the BOCs retained at divestitute any equipment not listed above that might reasonably be classified as "CPE."

A. Equipment Which Is Not Required To Be Detariffed

1. 911 Equipment

14. It is our tentative view that we should defer to the states the decision to detariff the embedded equipment associated with the provision of 911 emergency service. 911 communications service enables callers in local exchange to dial "911" and to be connected to a Public Safety Answering Point (Answering Point) which dispatches fire, police or ambulance services. Equipment associated with this service can include ANI control cabinets, ACI minicomputers and associated consoles and display units. This equipment permits the caller's number as well as the location from which the call is made to be routed, stored, and displayed at the Answering Point.[15]

15. The Common Carrier Bureau concluded in an Order released January 8, 1985, that the provision of 911 emergency service directly advances the statutory objective embodied in Section 1 of the Communications Act, 47 U.S.C. § 151, of "promoting safety of life and property through the use of wire and radio communications." [16] It found that 911 calls are unlike conventional telephone services and should be treated differently from other services. *Id.* The Bureau explained that because the equipment at 911 Answering Points is manufactured specifically for receiving 911 calls, and 911 calls received by the Answering Points are normally emergency calls, there are extraordinary requirements for service continuity, reliability and maintenance. *Id.* For example, valuable time will be lost in processing an emergency call unless the telephone network has the ability either to segregate calls to specific 911 Answering Points so that only calls germane to that jurisdiction's emergency services are routed there or to indicate to a central Answering Point which jurisdiction's police, fire or ambulance services are needed. Furthermore, the service is often supported by state and local revenues.

16. We agree with the Bureau's conclusion that it is important to preserve for local and state jurisdictions the option of having this embedded equipment supplied and maintained by the local telephone company in order to ensure the continuity of 911 emergency service and to facilitate prompt response to emergency calls. Thus, we propose to leave to the states the decisions regarding whether and how to detariff this equipment.[17] We caution only that state action should not unnecessarily restrain competiton in the provision of 911 equipment.[18]

2. Official Services Equipment

17. Official services equipment includes equipment used internally by the BOCs and generally located in the building or work areas of the carrier itself.[19] Since this equipment is not located on a customer's premises, it does not fall within the definition of CPE within the meaning of the *Second Computer Inquiry*. Consequently, we will continue to treat this equipment as part of operational investment in the rate base in Account 262, "Other communications equipment." [20]

3. Pay Telephone

18. Coin or pay telephones are specifically excluded from the definition of CPE. *Reconsideration Order*, 84 FCC 2d at 61 n.10. In addition, we recently reaffirmed that public and semi-public telephones may remain tariffed.[21] We therefore find no reason to revisit these decisions.

B. Equipment To Be Detariffed Pursuant to the AT&T CPE Detariffing Order

19. We tentatively propose to detariff and transfer to the BOC CPE subsidiaries the Centrex attendant positions equipment, the ESS/ACD 60-type console control cabinets and minicomputers, the extensions to pay telephones, and the identifier components of the concentrator-identifier systems used by telephone answering services.

1. Types of Equipment

20. *Centrex Equipment:* "Centrex" service is a communications service which furnishes both exchange and intrapremises communications service to individual business customers. Calls among the customer's internal telephone stations (intercom or interoffice calls) as well as calls between the customer's stations and locations outside the office are switched at the central office of the local exchange telephone company. The telephone company may dedicate particular central office switches to one or more Centrex users, but most often uses the same switches used to route other telephone calls for non-Centrex customers. Some Centrex-CU services, which differ from Centrex-CO services, employ a control unit at the telephone company's central office which operates

[14] Amendment of Section 64.702 of the Commission's Rules and Regulations Third Computer Inquiry), CC Docket No. 85–229, Notice of Proposed Rulemaking, FCC 85–397, released Aug. 16, 1985.

[15] *See generally* n.16, *supra; see also* Letter from the Chief, Common Carrier Bureau, to Alfred A. Green, AT&T (Dec. 30, 1982).

[16] Southwestern Bell Telephone Company, File No. ENF 84–44, Mimeo No. 1709, at para. 16, released Jan. 8, 1985 (*911 Order*).

[17] Our proposal governs the CPE located at the 911 attendants' positions, including associated switches and processing database equipment used to implement centralized 911 dispatch services. It does not govern conventional telephone CPE that might be used to place or receive a 911 call.

[18] *See generally id.* at para. 19.

[19] *See generally* POR at 82. According to the POR, the miscellaneous equipment associated with "official services" that was assigned to the BOCs includes video and microwave equipment and 1A, 2A, and 3A data stations.

[20] *See generally* Modifications to the Uniform System of Accounts for Class A and Class B Telephone Companies required by detariffing of customer premises equipment and proposed detariffing of cable/wiring installed as part of an intrasystem of PBXs and key systems, 48 FR 50534 (1983) (*Accounting Order*) (reclassifying "official services" or "company used" equipment from Accounts 231 and 234 into new Account 262, "Other communications equipment").

[21] *See* Petition for Declaratory Ruling of Tonka Tools, Inc. and Southern Merchandise Corp. Regarding American Telephone and Telegraph Compnay Provision of Coinless Pay Telephone, FCC 85–269, released May 22, 1985.

a PBX located on the customer's premises.[22]

21. At the time of divestiture, AT&T estimated that Centrex served over five million lines and provided the BOCs with revenues of $1.2 billion, exclusive of station equipment. The equipment associated with this service includes Centrex attendant positions, Centrex consoles and console cabinets. It also includes about 5,000 Centrex-CO consoles, according to the POR.[23]

22. *ACD Equipment:* Automatic Call Distributing (ACD) is a service which automatically distributes calls from incoming facilities to one or several answering positions.[24] ACD service is used, for example, by companies with large numbers of incoming calls (*e.g.*, reservations for cars, airlines, tickets and hotel rooms). Call distribution is sometimes accomplished through equipment on the customers' premises. A typical function of this equipment is to permit incoming calls to be held in queue when all positions are busy.[25] Types of equipment in this category include cabinet B–50 console common equipment, 20 button agent consoles, 20 button supervisory consoles with alphanumeric displays, printers and multi-button attendant positions.[26]

23. *Extensions to Pay Telephones.* As discussed in paragraph 18, above, we excluded pay telephones from the definition of CPE for purposes of the *Second Computer Inquiry*. In a separate decision, however, we determined that "extensions" to semi-public telephones are CPE and, thus, subject to the requirements relating to the separated provision of CPE.[27] Consequently, we propose to detariff and transfer the "embedded" extensions to pay telephones in a manner similar to our treatment of other CPE.

24. *Concentrator-Identifier Equipment:* According to AT&T, telephone answering services employ a two-part concentrator-identifier system.[28] The identifier component is physically located on the customer's premises while the concentrator component is located in the BOCs' central office. Although we consider the concentrator component to be network equipment, the identifier component appears to fall within the definition of CPE.[29]

2. Proposed Detariffing Procedures

25. We tentatively conclude that these four categories of equipment are severable from the provision of transmission service, and therefore should be removed from regulation under Title II of the Communications Act.

26. We further tentatively conclude to detariff this CPE on a national rather than state-by-state basis. Although we allowed the states to detariff CPE owned by the independent telephone companies and tariffed at the state level,[30] we propose to detariff BOC CPE on a national basis because there are few BOCs, their operations are familiar to us, and they tend to own standard types of equipment which was acquired when they were part of the Bell System. We believe that in these circumstances it will be less burdensome to the BOCs and will promote uniform treatment of like equipment to detariff embedded CPE with a single plan. It will also speed the review process and, thus, our progress toward a fully competitive CPE marketplace. Moreover, it is our view that it should be our continuing responsibility to address the attendant public policy issues raised by our requirement that the BOCs establish separate CPE subsidiaries to support detariffed CPE. Nevertheless, we invite comment regarding the propriety of detariffing BOC embedded CPE on a national basis.

27. Except for the modifications described below, we also propose to require the BOCs to follow the procedures set out in the *AT&T CPE Detariffing Order* for the deregulation of multi-line CPE owned by AT&T. Generally, we propose to require the BOCs to offer embedded CPE for sale to subscribers during a two-year transition period. The modifications we propose include (1) directing the BOCs to offer the CPE for sale at prices that do not exceed net book value plus reasonable transaction costs in the aggregate for each category of equipment;[31] (2) requiring sale prices to remain fixed during the transition period; (3) allowing month-to-month lease rates, if applicable, to be adjusted only at eight-month intervals to reflect increases in the Consumer Price Index;[32] (4) leaving as a matter of state contract law the issues regarding the validity, enforceability and assignability of fixed-term leases;[33] and (5) requiring embedded CPE to be offered for sale either through regional sales programs or through written notice to individual customers no later than June 1, 1986, so that detariffing may begin on June 1, 1986, and the transition period may be completed by May 31, 1988.

28. We also propose to require the BOCs to follow the procedures in the *AT&T CPE Detariffing Order* that pertain to the restrictions on the transfer and reformatting of customer proprietary information,[34] the continuation of maintenance and support of the embedded CPE during the transition period,[35] and the transfer to CPE subsidiaries of deferred tax reserve accounts and investment tax credits.[36] In addition to the CPE to be transferred, the BOCs may have supporting assets which must also be transferred to unregulated accounts. We propose to require the BOCs to follow the procedures we have outlined in our *AT&T CPE Detariffing Order* with respect to these assets.[37] Specifically, we will require the BOCs to transfer land and buildings to their CPE subsidiaries at appraised value. All other supporting assets, however, will be transferred at net book value.

29. We solicit comments as to the propriety of applying these provisions and modifications of the *AT&T CPE Detariffing Order* to the BOCs. We also

---

[22] According to the POR, Centrex-CU is an active offering only in Colorado. In other jurisdictions it is provided only to existing customers. POR at 85 n.83.

[23] In a letter dated July 13, 1984, the Chief, Common Carrier Bureau, permitted Pacific Northwest Bell Telephone Company to offer four 50B consoles on an interim basis pending the outcome of this proceeding. Letter from Chief, Common Carrier Bureau, to Alan J. Gardner, Esq., Pacific Northwest Bell Telephone Company (July 13, 1984).

[24] ESS–ACD equipment used with Dimension 2000 ACD installations was transferred to AT&T in the *AT&T CPE Detariffing Order*.

request comment as to whether we should adopt additional procedures to accomplish our goal of removing embedded CPE from regulated service in a manner which furthers the principles articulated in the *Second Computer Inquiry*.

30. To remain consistent with the proposals we have outlined in this Notice, we will postpone our decision on Southwestern Bell Telephone Company's two petitions seeking permission to detariff and transfer ACD equipment to its CPE subsidiary, Southwestern Bell Telecommunications, Inc. (Telecom). By letter dated September 20, 1984, to William C. Sullivan, Southwestern Bell, the Chief, Common Carrier Bureau, requested more specific information regarding the CPE involved.[38] In its response, Southwestern Bell agreed to charge customers lease rates equal to tariffed leased rates for two years after the transfer, but did not commit to offering the equipment for sale.[39] As we indicated earlier, we view the sale requirement as essential to the satisfaction of the equitable principles of *Democratic Central Committee*. Therefore, we decline at this time to address Southwestern Bell's requests so that it may detariff and transfer the equipment to Telecom in the manner we will subsequently set forth in this proceeding.

C. Remaining Equipment

1. 101 ESS Switches

31. We currently have insufficient information to determine the proper regulatory treatment of the 101 ESS switches used in providing Centrex-CU service. AT&T explained in the POR that some Centrex-CU offerings employ a 101 ESS switch located on the customer's premises and that this switch's operations are managed by a control unit located in the central office.[40] According to AT&T the switch is not severable from the central office control unit and can only function with a compatible control unit. AT&T therefore claims that the 101 ESS switch unit is an integral component of some Centrex-CU service provided by the BOCs.[41]

32. We recognize that confusion may occur if equipment which is located on a customer's premises remains tariffed since there is a presumption that such equipment should be unregulated.[42] We therefore ask parties to comment on whether 101 ESS switches associated with Centrex-CU service should continue to be offered by the BOCs on a tariffed basis and whether these switches can or will be offered competitively.

2. Network Channel Terminating Equipment

33. NCTE is equipment located on a customer's premises for the purpose of providing certain transmission or signaling enhancements, or both, and network maintenance capabilities. According to the POR, NCTE remaining with the BOCs at divestiture includes terminating sets, multiplexing equipment, subscriber pair gain equipment, repeaters, facility conditioning T carrier terminals, responders and associated cabinets, mountings, wall backboards and relay racks.[43]

34. We recently issued a Notice of Proposed Rulemaking in *Amendment of Section 64.702 of the Commission's Rules and Regulations (Third Computer Inquiry)*, CC Docket No. 85–229, FCC 85–397, released Aug. 16, 1985, to address whether the BOCs should be permitted to offer NCTE on an unseparated basis. We had concluded earlier that digital NCTE is CPE for the purposes of the *Second Computer Inquiry*, and, absent a waiver, must be provided through an entity that is structurally separated from the BOC's operating company.[44] Our decision in the *Third Computer Inquiry* to seek comment regarding whether to continue to apply the structural separation requirements to the provision of NCTE was prompted, first, by the petitions we have received from Ameritech, Bell Atlantic, BellSouth, Northwestern Bell, and NYNEX requesting waivers of our Rules so that they could provide a limited amount of digital NCTE on a structurally unseparated basis[45] and, second, by the petitions we have received from Ameritech, BellSouth and Southwestern Bell seeking an unlimited and permanent waiver to provide on an unbundled, detariffed basis the NCTE associated with DS–1 digital transmission service and/or Dataphone digital service.[46] Therefore, we will postpone any decision regarding the detariffing of "embedded" NCTE until such time as we release an Order in the *Third Computer Inquiry*.[47]

IV. Initial Regulatory Flexibility Analysis

A. Reasons for Action; Objectives; Legal Basis

35. This Notice proposes procedures and criteria of general applicability designed to implement the policies established in the *Second Computer Inquiry* with respect to the embedded CPE base retained by the BOCs at divestiture. The primary objective of this proceeding is to adopt detariffing and transfer plans for embedded CPE which facilitate the establishment of a deregulated, competitive market for CPE, while at the same time to protect ratepayer interests, minimize user dislocations and reduce administrative costs. The legal authority for this proposed rulemaking is contained in

[43] POR at 83–84.

[44] *See generally* Petitions Seeking Amendment of Part 68 of the Commission's Rules Concerning Connection of Telephone Equipment, Systems and Protective Apparatus to the Telephone Network and Notice of Inquiry into Standards for Inclusion of One and Two-Line Business and Residential Service in Part 68 of the Commission's Rules, 94 FCC 2d 5 (1983) (*NCTE Interconnection Order*), *recon. denied*, FCC 84–145, released Apr. 27, 1984 (*NCTE Interconnection Reconsideration Order*).

[45] *See* File Nos. ENF 84–32, 84–33, 84–34, 84–35, and 84–38. In July 1984, the Common Carrier Bureau granted these five carriers permission to provide and support on an unseparated basis the digital NCTE which had been placed into service during the transition period between November 18, 1983, and June 30, 1984. These waivers were granted on an interim basis pending the outcome of our detariffing decision in this proceeding. The Bell Atlantic Telephone Companies, Emergency Petition for Interim Waiver of Section 64.702 of the Commission's Rules and Regulations to Permit Interim Unseparated Provision of Existing Network Channel Terminating Equipment, Mimeo No. 5244, File No. ENF 84–32 (released July 6, 1984); Letter from Chief, Common Carrier Bureau, to Ronald L. Slyter, Northwestern Bell Telephone Company (July 6, 1984); Letter from Chief, Common Carrier Bureau, to John F. Beasley, BellSouth Corporation (July 6, 1984); Letter from Chief, Common Carrier Bureau, to Saul Fisher, NYNEX (July 13, 1984); Letter from Chief, Common Carrier Bureau, to Thomas J. Reiman, American Information Technologies Corporation (July 13, 1984).

[46] *See* File Nos. ENF 84–33, 84–38, and 84–60. On September 11, 1985, the Common Carrier Bureau issued a Memorandum Opinion and Order which granted Ameritech, BellSouth and Southwestern Bell interim permission to provide DS–1 and DDS NCTE on an unseparated, unbundled basis pending the outcome of the *Third Computer Inquiry*. Petitions for Waiver of Section 64.702 of the Commission's Rules and Regulations to Enable Certain Bell Operating Companies to Offer Digital NCTE Without Structural Separation, Mimeo No. 6893 (released Sept. 11, 1985).

[47] In light of our adoption of the Notice of Proposal Rulemaking in the *Third Computer Inquiry*, the Bureau's interim waivers pertaining to the NCTE placed into service between November 18, 1983, and June 30, 1984, shall remain in effect until such time as we reach a decision in that proceeding.

Sections 4(i), 4(j), and 201–205 of the Communications Act of 1934, 47 U.S.C. 154(i), 154(j), 201–205.

B. Applicability to Small Entities

36. The provisions of this proposed rulemaking would apply only to the BOCs. It is our view that none of these companies falls within the definition of "small business" as that term is used in the Regulatory Flexibility Act.

C. Other Considerations

37. We conclude that the proposed rules do not duplicate, overlap or conflict with any existing federal rules. It is our view that we are not required to examine significant alternatives to the proposed rules which would minimize significant economic impact upon small entities because we have concluded that the proposed rules will not apply to small entities.

V. Ex Parte Presentations

38. For purposes of this non-restricted notice and comment rulemaking proceeding, members of the public are advised that *ex parte* contacts are permitted from the time the Commission adopts this Notice until the time a public notice is issued stating that substantial disposition of the matter is to be considered in a forthcoming meeting or until a final Order disposing of the matter is adopted by the Commission, whichever occurs earlier. In general, an *ex parte* presentation is any written or oral communication (other than formal oral arguments) between a person outside the Commission and a Commissioner or a member of the Commission's staff which addresses the merits of the proceeding.

39. Any person who sumits a written *ex parte* presentation must serve a copy of that presentation on the Commission's Secretary for inclusion in the public file. Any person who makes an oral *ex parte* presentation addressing matters not fully covered in any previously filed written comments for the proceeding must prepare a written summary of that presentation, and that written summary must be served on the Commission's Secretary for inclusion in the public file, with a copy to the Commission official receiving the oral presentation. Each *ex parte* presentation described above must state on its face that the Secretary has been served, and must also state by docket number the proceeding to which it relates. *See generally* § 1.1231 of the Commission's Rules, 47 CFR 1.1231.

VI. Comment Filings; Ordering Clauses

40. We have presented proposals which we believe will enable the BOCs to complete the transition to full deregulation of the CPE market with respect to their embedded CPE. We seek comments discussing whether these proposals adequately meet the deregulatory goals of the *Second Computer Inquiry*. If interested persons believe that the proposals fail to address relevant concerns we ask that they suggest modifications to the detariffing and transfer plan which would address those concerns.

41. Accordingly, it is ordered that, pursuant to sections 1, 4(i), 4(j), and 201–205 of the Communications Act of 1934, 47 U.S.C. §§ 151, 154(i), 154(j), 201–205 and 5 U.S.C. § 553, notice is hereby given of the proposed adoption of new or modified rules, in accordance with the discussion and delineation of issues in this Notice of Proposed Rulemaking and on the basis of previous notices and filings in this proceeding.

42. It is further ordered that each of the Bell Operating Companies shall file within 30 days of the release of this Notice of Proposed Rulemaking a description of the types of equipment it retained at divestiture. This description shall contain the information described in paragraph 13, *supra*.

43. It is further ordered that the interim waivers the Common Carrier Bureau granted the Bell Atlantic Telephone Companies, American Information Technologies, Inc., Northwestern Bell Telephone Company, BellSouth Corporation, and NYNEX to provide and support on an unseparated basis the digital NCTE which had been placed into service during the transition period between November 18, 1983, and June 30, 1984, are extended until such time as an Order is released in the *Third Computer Inquiry*.

44. It is further ordered that all interested persons may file comments on the issues and proposals discussed in this Notice not later than December 20, 1985, and that replies may be filed not later than January 6, 1986. In accordance with the provisions of § 1.419 of the Commission's Rules, 47 CFR 1.419, an original and five copies of all statements, briefs, comments or replies shall be filed with the Federal Communications Commission, Washington, D.C. 20554, and all such filings will be available for public inspection in the Docket Reference Room at the Commission's Washington, D.C., offices. In reaching its decision, the Commission may consider information and ideas not contained in filings, provided that such information is reduced to writing and placed in the public file, and provided that the fact of the Commission's reliance on any such information or ideas is noted in the Order.

45. It is further ordered that the Secretary shall cause this Notice of Proposed Rulemaking to be published in the **Federal Register.**

46. It is further ordered that the Secretary shall transmit a copy of this Notice of Proposed Rulemaking to the Counsel for Advocacy of the Small Business Administration in accordance with the Regulatory Flexibility Act.

47. It is further ordered that the Secretary shall cause a copy of this Notice of Proposed Rulemaking to be served on each state commission.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712–01–M

---

47 CFR Part 73

[MM Docket No. 85–316; RM–4987]

FM Broadcast Station in Crossville, TN; Change in Table of Allotments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the allotment of Channel 273A to Crossville, Tennessee, as that community's second FM service, at the request of WCSV, Inc.

DATES: Comments must be filed on or before December 16, 1985, and reply comments on or before December 31, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Patricia Rawlings, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio Broadcasting.

The authority citation for Part 73 continues to read as follows:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Proposed Rule Making

In the matter of amendment of § 73.202(b), table of allotments, FM broadcast stations. (Crossville, Tennessee); MM Docket No. 85–316 RM–4987.

Adopted: October 15, 1985.
Released: October 23, 1985.

By the Chief, Policy and Rules Division.

1. Before the Commission for consideration is a petition for rule making filed by WCSV, Inc. ("petitioner"), seeking the allocation of Channel 273A to Crossville, Tennessee, as that community's second FM channel. Petitioner submitted supporting information and indicated an interest in applying for the channel. The channel can be allotted consistent with the Commission's minimum distance separation requirements.

PART 73—[AMENDED]

2. In view of the fact that the proposed allotment could provide Crossville, Tennessee with a second FM service, the Commission proposes to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules, for the following community:

City	Channel No.	
	Present	Proposed
Crossville, Tennessee	257A	257A, 273A

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

4. Interested parties may file comments on or before December 16, 1985, and reply comments on or before December 31, 1985, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows:

Millard V. Oakley, WCSV, Inc., P.O. Box 520, Livingston, TN 38570

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

6. For further information concerning this proceeding, contact Patricia Rawlings, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[MM Docket No. 85–315; RM–5089]

FM Broadcast Station in Moultonborough, NH; Change in Table of Allotments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the allocation of Channel 295A to Moultonborough, New Hampshire, as that community's first local FM service, at the request of SfB Corporation.

DATES: Comments must be filed on or before December 16, 1985, and reply comments on or before December 31, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

The authority citation for Part 73 continues to read as follows:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Proposed Rule Making

In the matter of amendment of §73.202(b), table of allotments, FM broadcast stations. (Moultonborough, New Hampshire); MM Docket No. 85–315 RM–5089.

Adoped: October 15, 1985.
Released: October 23, 1985.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration the petition for rule making filed by SfB Corporation ("petitioner") requesting the allocation of Channel 295A to Moultonborough, New Hampshire, as that community's first local FM service. Petitioner states that it will apply for the channel, if allocated.

2. Channel 295A can be allocated to Moultonborough in compliance with the Commission's minimum distance separation and other technical requirements. The concurrence of the Canadian Government must be obtained as the community is located within 320 kilometers (200 miles) of the U.S.-Canadian border.

PART 73—[AMENDED]

3. We believe the public interest would be served by seeking comments on the requested allotment, as it could provide Moultonborough with its first local FM service. Accordingly, we propose to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules, with respect to the community listed below to read as follows:

City	Channel No.	
	Present	Proposed
Moultonborough, New Hampshire		295A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing or continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

5. Interested parties may file comments on or before December 16, 1985, and reply comments on or before December 31, 1985, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows:

John L. Tierney, Esq., Barbara R. Feeherry, Esq., Tierney and Swift, 1925 K Street, N.W.—Suite 300, Washington, D.C. 20006, (Counsel to petitioner)

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11546, published February 9, 1981.*

7. For further information concerning this proceeding, contact Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. An *ex parte* contacts is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Tables of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initital comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments

shall be accompanied by a certificate of service. (See §§ 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[MM Docket No. 85-319; RM-5054]

FM Broadcast Station in Hondo, TX; Changes in Table of Allotment

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the allotment of Channel 253A to Hondo, Texas, as that community's first FM service, at the request of DLB Broadcasting Corporation.

DATES: Comments must be filed on or before December 16, 1985, and reply comments on or before December 31, 1985.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Patricia Rawlings, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply sec. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Notice of Proposed Rulemaking

In the Matter of
Amendment of § 73.202(b),
Table of Allotments,
FM Broadcast Stations
(Hondo, Texas); MM Docket No. 85-319,
RM-5054.

Adopted: October 15, 1985.

Released: October 23, 1985.

By the Chief, Policy and Rules Divisions.

1. The Commission has before it for consideration a petition for rule making filed by DLB Broadcasting Corporation ("petitioner"), requesting the allotment of Channel 253A to Hondo, Texas, as that community's first FM channel. Petitioner submitted information in support of the proposal and expressed its interest in applying for the channel.

2. The channel can be allotted in compliance with the Commission's minimum distance separation requirements with a site restriction of 11.4 kilometers (7.1 miles) south of the community. This restriction is necessary to avoid short spacing to FM Station KHLC on Channel 252A in Bandera, Texas. However, a site 11.4 km removed from the center of the city may prove difficult to provide a city-grade (70 dBu) signal to the principal community. The petitioner or other interested parties, therefore, should provide information that a site is available that will meet the minimum spacing requirements and provide a city-grade signal to the community.

3. Since Hondo is located within 320 kilometers (200 miles) of the U.S.-Mexican border, the proposal requires concurrence by the Mexican government.

4. In view of the fact that Hondo, Texas could receive its first FM channel the Commission believes it would be in the public interest to seek comments on the proposal to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Hondo, TX		253A

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Notes.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

6. Interested parties may file comments on or before December 16, 1985, and reply comments on or before December 31, 1985, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: David G. Rozzelle, Esquire, Fletcher, Heald & Hildreth, 1225 Connecticut Avenue, N.W., Suite 400, Washington, D.C. 20036, (Counsel for petitioner).

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Patricia Rawlings, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

Federal Communications Commission.

Charles Schott,

Chief, Policy, and Rules Division,

Mass Media Bureau.

Appendix

PART 73—[AMENDED]

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a

proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is alotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, replay comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M. Street, NW., Washington D.C.

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations (Woodstock, Vermont); MM Docket No. 85–320, RM–4743.

Adopted: October 15, 1985.
Released: October 23, 1985.

By the Chief, Policy and Rules Division.

1. The Commission has before it for consideration a petition for rule making filed by Harvest Broadcasting Services ("petitioner"), requesting the allotment of FM Channel 230A to Woodstock, Vermont, as that community's first FM channel. Petitioner expressed its intention to apply for the channel, if allotted.

2. A staff enginering study reveals that Channel 230A is available to Woodstock in compliance with § 73.207 of the Commission's Rules. Since Woodstock is located within 320 kilometers (200 miles) of the U.S.-Canadian border, the proposal requires concurrence from the Canadian government.

3. In view of the fact that the proposed allotment could provide a first FM channel to Woodstock, the Commission believes it is appropriate to propose amending the FM Table of Allotments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Woodstock, VT		230A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

5. Interested parties may file comments on or before December 16, 1985, and reply comments on or before December 31, 1985, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: Brian Dodge, Harvest Broadcasting Services, Box 105FM, Hinsdale, NH 03451, (petitioner).

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Patricia Rawlings, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte*

presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

PART 73—[AMENDED]

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of §1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

49 CFR Part 71

[OST Docket No. 6; Notice 85–9B]

Standard Time Zone Boundaries in the State of Indiana; Withdrawal of Proposed Rule

AGENCY: Department of Transportation (DOT), Office of the Secretary.

ACTION: Withdrawal of Proposed Rule.

SUMMARY: DOT is withdrawing a proposal to move the five southwest counties of the State of Indiana from the central time zone to the eastern time zone. The proposal was issued in response to a Concurrent Resolution of the Legislature of the State of Indiana that found that it was in the best interests of the citizens of those counties for the time zone to be changed. The notice is being withdrawn because DOT finds that such a change would not serve the "convenience of commerce.".

DATE: Withdrawal effective October 29, 1985.

FOR FURTHER INFORMATION CONTACT: Joanne Petrie, Office of the General Counsel, Regulation and Enforcement (C–50), U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20950; (202) 472–5577.

SUPPLEMENTARY INFORMATION:

Background

Under the Standard Time Act of 1918, as amended by the Uniform Time Act of 1966 and Public Law 97–449 (15 U.S.C. 260–64), the Secretary of Transportation has authority to issue regulations modifying the boundaries between time zones in the United States in order to move an area from one time zone to another. The standard in the statute for making such a decision is "regard for the convenience of commerce and the existing junction points and division points of common carriers engaged in interstate or foreign commerce".

The Proposal

DOT received a resolution from the General Assembly of the State of Indiana (Senate Concurrent Resolution 6) on May 6, 1985, requesting that the 5 southwestern counties of Indiana that are currently in the central time zone (Gibson, Posey, Vanderburgh, Warrick, and Spencer counties) be moved to the eastern time zone. The resolution found that "the citizens of southwestern Indiana are inconvenienced in their businesses and personal lives by being in a time zone that is different than the rest of the state." If the proposal were implemented, all of the state (with the exception of six northwestern counties near chicago, Illinois) would be on eastern time.

In support of its request, the State Legislature documented how the change would meet the statutory criterion for a change. The accompanying background paper outlined a variety of problems caused because of the two time zones. The document indicated that there was significant support from local governments and chambers of commerce to place the area in one time zone. It noted the difficulties that businesses and manufacturers have in terms of schedule mix-ups, if headquarters are located in a different zone from area offices; the extra cost to operate in both zones; and the time, inconvenience and expense for employees traveling from one zone to another. It stated that, in terms of transportation, a fairly substantial proportion of the people in the area commute into other counties and have to contend with a split time zone. The

paper also discussed the impact on the media and on school-age children.

Because the background document made a prima facie case for a time zone change, the Department issued a notice of proposed rulemaking (NPRM) that proposed the change. The NPRM was published in the **Federal Register** on June 21, 1985 (50 FR 25856), and requested public comments by August 20, 1985. The NPRM specifically noted, however, that "[a]lthough the Indiana legislature has submitted sufficient information to begin the rulemaking process, the decision whether actually to make the change will be based upon the information received at the hearings or submitted in writing to the docket." The NPRM also noted that the Department reserved the right to grant more or less than what the Indiana legislature has requested, including moving only some of the counties as well as areas in Kentucky or Illinois.

The Department held 10 hearings during the week of July 22 to 26, 1985, in the affected area. The hearing sites were selected by Departmental representatives with the advice of Congressional and State offices from Indiana, Kentucky and Illinois. The sites were selected in order to be accessible to as many people as possible. The Department anticipated, for example, that, if a person could not attend a daytime hearing, that person could attend an evening hearing with less than one hour's drive. In addition, the Department urged people who could not attend a hearing, or who had more that they wished to say, to write to the docket. The Indiana hearings were held in Evansville, Lincoln City, Mount Vernon, Princeton, Jasper and Vincennes. Hearings were also held in Henderson and Owensboro, Kentucky and Carmi and Mount Carmel, Illinois.

The State of Indiana has presented complex time zone questions for many years. It is a State with strong economic ties both to the east and the midwest. The industries and citizens of the State have always shown a great deal of interest, perhaps more so than those of any other State, in the specific location of the time zone boundary line in the State between the eastern and central time zones.

From 1918 to 1961, all of Indiana was in the central time zone. In 1961, pursuant to several requests from the State, the Interstate Commerce Commission (ICC), which had authority over time zone changes at that time, drew the line north to south through the middle of the State. The line, however, was not generally observed. A number of the counties in the central time zone continued to follow eastern time. Furthermore, each summer brought a crazy-quilt pattern of daylight saving time observance. The Uniform Time Act of 1966, which required each state to observe "daylight saving" time throughout the state, or opt our entirely, gave added significance to the 1961 line set by the ICC. The fact that the line was not generally observed expanded the Indiana problem.

In 1967, Indiana Governor Roger Branigan petitioned DOT, which had taken over the time zone functions of the ICC, to return the entire state to central time. DOT issued an NPRM requesting comments on that proposal. Comments from the counties in the northwestern (Gary) part of the State and the southwestern (Evansville) part indicated a strong preference for central time with summer daylight saving time. The rest of the State expressed a preference for eastern time. However, many of those who preferred eastern time did not want to observe daylight saving time. Based on these comments, the Department issued a modified proposal on January 16, 1968, to include the entire State in the eastern zone for specifically named counties in the Gary and Evansville areas.

During these two proceedings, over 100,000 comments were filed. On January 10, 1969, the Secretary of Transportation issued a decision to place all of the State in the eastern zone except for 12 counties that specifically expressed a desire to be in the central zone. That change was effective on April 27, 1969. This decision was challenged in a lawsuit brought by a group of Indiana outdoor theater operators. DOT's decision was affirmed by the U.S. Court of Appeals, and review denied by the U.S. Supreme Court.

In 1977, Pike County, one of the southwestern counties, petitioned the Department to change the time zone of the county from central to eastern. The Department issued an NPRM proposing the change and held a hearing and received public comments. Because the change met the statutory criterion of "serving the convenience of commerce" and because of strong local support, DOT issued a final rule and made the change.

In 1981, the Board of County Commissioners of Starke County, which is located in northwestern Indiana, asked to be changed from central to eastern time. The Department again issued an NPRM proposing the change, held a hearing and received numerous public comments. However, based on its review of the public comments, the Department withdrew the proposal because it determined that the area was economically tied to Chicago, which is on central time. In addition, the Department found that a change would severely disrupt commerce, transportation and broadcasting in the area.

Daylight Saving Time in Indiana

Indiana is the most unusual state in the United States in terms of its observance of Daylight Saving Time. Under the Uniform Time Act, if a state chooses to observe Daylight Saving Time, it must do so statewide and begin on the last Sunday in April and end on the last Sunday in October. However, the Act provides that in states that encompass more than one time zone, the state may choose to exempt only the more easterly zone from Daylight Saving Time, while the western part of the state observes it. This provision was enacted mainly in response to Indiana's wishes. Of the thirteen states that encompass two time zones, only Indiana has chosen this alternative.

As a result of this split observance, the eastern and central time zone portions of Indiana are one hour apart during the fall and winter. However, from the last Sunday in April to the last Sunday in October, the time on the clocks in the entire state is the same, although the two areas are still in nominally different time zones. During the spring and summer, the majority of the state continues to observe eastern standard time, while the 11 counties on central time observe central daylight saving time.

The areas in western Kentucky and southern Illinois surrounding the five southwestern Indiana counties are also in the central time zone and observe Daylight Saving Time. For the purposes of this rulemaking, the Department considered what effect the proposed time zone change would have on the tri-state area, since it would put the neighboring areas in western Kentucky and southern Illinois on a different time than Evansville and the surrounding counties for six months of the year.

Factors in Making the Decision

The principal standard for deciding whether to change a time zone is the convenience of commerce, which is defined very broadly to include consideration of all the impacts upon a community of a change in its standard time zone. Although the Department focused on what impact a time change would have on the State of Indiana, it also considered the impact on the neighboring areas in western Kentucky and southern Illinois because of the

important economic, cultural and social unity of the area.

The procedure for making a final decision is that, after analyzing all of the comments, the General Counsel of the Department decides whether the change would in fact serve the convenience of commerce. If he believes that it would not, he ends the proceeding and leaves the time zone unchanged. If he believes that it would, he forwards his recommendation to the Secretary of Transportation, who alone has authority to change a time zone.

Comments on the Proposal

Commenters included state and local elected officials, chambers of commerce, businesses, civic groups, news media, school corporations, religious groups and individuals in their personal capacities.

Close to 1,000 people attended the public hearings. The DOT representative received testimony from approximately 200 people. In addition, she took informal questions and comments from the floor. Of the people who testified, approximately 30 percent were for the proposal, 65 percent were opposed and 5 percent were neutral or asked for a change outside of the scope of the rulemaking.

Over 4,000 people expressed their opinions in written comments to the docket. The comments were contained in individual and group letters, postcards, and petitions. In addition, newspapers forwarded ballots they collected in polls they conducted. The 4,000 figure is the number of people signing the comments and petitions. The written comments were opposed to a change by a margin of over 3 to 1.

The central argument of those favoring the proposal was that it is important for state unity and development of the state's economy to be on one time. Many of those in favor of a change were more concerned with being on the same time as the majority of the state, be it eastern or central time, than they were with being on eastern time. They found it extremely confusing and inconvenient to be on a different time from the other cities and counties in the state six months of the year. A number of business representatives stated that most of their dealings were with the East and that being on a different time zone handicapped economic expansion of the area. Other business representatives noted the interstate confusion and that the time difference limited the hours available for business communications, deliveries and shopping. Many individuals commented on the personal hardships involved in working, socializing, and living across the time zone. For example, living in two time zones made it difficult to schedule meetings and doctors' appointments, complicated interscholastic events, confused children and in general made life very difficult.

Those opposed to the proposal noted that, according to the theoretical time divisions of the earth, the area is appropriately on central time. Many of these commenters argued that although they were in favor of one time zone for the state, the zone should be central and the rest of the state should change. Other commenters noted that the area historically has been on central time, that people have adjusted to it and like it that way. Others argued that the southwestern portion of Indiana is midwestern in outlook and in its dealings, and that changing to eastern time would be inappropriate and personally repugnant.

A majority of the comments opposed to the proposal focused on the personal impact a change would have. The most common argument had to do with school-age children waiting for buses in the dark in the morning. Many parents and grandparents expressed great concern over this issue. A corollary of this argument was that, because southern Indiana has a great deal of fog and ice particularly in the early morning, a change would expose children (and bus drivers and parents who drive them) to increased danger. Another area of great concern was the potential change in scheduling of the late night news from 10 p.m. to 11 p.m. Many people commented that they enjoyed the present scheduling of television shows and were strongly opposed to any change.

Most of the business and governmental comments focused on the need for unity in the tri-state area. They noted that many people live in one state and work in the other. In addition, there is a lot of interstate movement for schooling, medical treatment, entertainment and shopping. Many commenters were concerned that a change, particularly only in Indiana, would fragment the area and significantly interfere with the commercial and social relationships that have been established over time.

In terms of the hearings held in Kentucky and Illinois and the comments received from individuals and groups in those states, there was virtually no support for the proposal. The comments from those states stressed the need for a uniform time zone in the tri-state area. The issue was of such importance to some commenters that they suggested that the time zones of their cities be kept the same as Evansville even if this meant going to eastern time.

Another important argument made by the commenters was that the time zone border should be located in less populated areas so as to cause inconvenience to the fewest number of people. The people making this argument noted that although they sympathize with the difficulty of "living on the line", the problem should not be moved south, where it would affect more people and interfere with interstate commerce. These commenters noted that the current border areas have had years to adjust and that the present system works pretty well.

A significant number of comments were submitted that were outside the scope of the rulemaking. For example, a number of commenters argued that the entire state should be put on central time for convenience or since that is more appropriate because of geographic location. Several suggested adding five or six more counties (Knox, Daviss, Martin, Pike, Dubois and Perry) to the central zone. Others had comments on whether Daylight Saving Time is a good idea. Another commenter suggested eliminating time zones altogether and putting the entire U.S. onto central standard time in order to eliminate confusion. Since the state has not asked for these changes and they were not proposed in the NPRM, we have not considered taking such action.

Reasons for This Decision

The proposal to change the five southwestern counties is being withdrawn because such a change would not serve the convenience of commerce. The comments and information presented at the hearing and to the docket, as well as the Department's analysis, has demonstrated the economic, social and cultural unity of the tri-state area. Changing the time zone of the five counties would fragment the area and be detrimental to its economic prosperity and development. In addition, without adequate public support in this situation, a time zone change may be difficult to enforce and have even more detrimental effects on commerce.

In making its determination, the Department found the following:

1. Many of the businesses in the community (the five counties) get their supplies and ship their goods and products within the tri-state area.

2. Most of the people in the five counties receive their television and radio broadcasts from within the tri-state area and not from the eastern time zone.

3. The most widely circulated newspapers in the community are published in the five counties and the tri-state area.

4. The five counties and the tri-state area depend on Dress Regional airport in Evansville as the primary regional airport.

5. The highway situation in southwest Indiana makes the area somewhat isolated from the rest of the state. Interstate 64 divides the areas in half, but it flows east to west. U.S. Highway 41, is located to the extreme west. There is no direct highway access to Indianapolis.

6. A significant precentage of residents of the five counties work and do business across the state border in Kentucky and Illinois.

7. Many of the residents who leave the five counties for schooling, recreation, health care, or religious worship, go to areas in the central time zone for these purposes.

Based on our analysis, the Department has concluded that the five southwestern counties are more closely intertwined with the surrounding communities in western Kentucky and southeastern Illinois, which are on central time, than with the remainder of Indiana. To change the five counties to eastern time would not serve the "convenience of commerce", and it would have an adverse effect on the communities commerce.

The Department would also like to note that, to a large degree, the support for or opposition to the proposal appeared to depend on where the commenters lived and worked. In general, those near the present time zone boundary were in favor of the proposal. The majority of commenters from the Evansville area and from communities on or near the state borders were satisfied with the current line. The Department recognizes that it is very difficult to live near a time zone border because one continually has to make allowances for time differences. In a very real sense, being near the border affects how many hours per day one can conduct business, the activities one can participate in and how one runs his or her life. The Department can never remove these difficulties, only reduce them by deciding where to locate the country's time zone boundaries.

Regulatory Impact

I certify that, under the criteria of the Regulatory Flexibility Act, this rule will not have a significant economic impact on a substantial number of small entities, because of its highly localized impact. Further, it is not a major rule under Executive Order 12291, or a significant rule under DOT Regulatory Policies and Procedures, 44 FR 11034, for the same reason. The economic impact is so minimal that it does not warrant preparation of a regulatory evaluation. Finally, DOT has determined that this rulemaking is not a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act and, therefore, that an environmental impact statement is not required.

List of Subjects in 49 CFR Part 71

Time.

In consideration of the foregoing, the Department of Transportation withdraws its proposal to move the five southwestern counties of Indiana from the central to the eastern time zone.

Authority: Act of March 19, 1918, as amended by the Uniform Time Act of 1966 and Pub. L. 97–449, 15 USC 260–64; 49 CFR 1.59(a).

Issued in Washington, DC, on October 24, 1985.

Jim J. Marquez,

General Counsel.

DEPARTMENT OF AGRICULTURE

Forest Service

Routt National Forest Grazing Advisory Board; Meeting

The Routt National Forest Grazing Advisory Board will meet November 26, 1985 at 10:00 a.m. at the Yampa Valley Electric Association building, Steamboat Springs, Colorado.

The Agenda for the meeting will include: (1) Review range improvement needs on selected areas; (2) a discussion of the projects planned for FY 1986 utilizing range betterment funds; (3) discuss and receive advice and recommendations for the utilization of range betterment funds and development of allotment management plans for FY's 1987 and 1988.

The meeting will be open to the public. Persons who wish to attend and participate should notify Jim Webb, Routt National Forest (303–879–1722) prior to the meeting. Public members may participate in discussions during the meeting at any time or may file a written statement following the meeting.

Dated: October 21, 1985.

Jack Weissling,
Forest Supervisor.

DEPARTMENT OF COMMERCE

Bureau of the Census

Census Advisory Committee on Agriculture Statistics; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463 as amended by Pub. L. 94–409), we are giving notice that the Census Advisory Committee on Agriculture Statistics will convene on November 19, 1985, at 9 a.m. The Committee will meet in Room 2424, Federal Building 3, at the Bureau of the Census in Suitland, Maryland.

This Committee advises the Director, Bureau of the Census, concerning the kind of information that should be obtained from respondents associated with agricultural production; prepares recommendations regarding the contents of agricultural reports; and presents the views and needs for data of major agricultural organizations and their members, and other suppliers of agricultural statistics.

The Committee is composed of 20 members appointed by the presidents of the nonprofit organizations having representatives on the Committee, and a representative from the U.S. Department of Agriculture.

The agenda for the meeting, which is scheduled to adjourn at 4 p.m. is: (1) Introductory remarks by the Director, Bureau of the Census; (2) review of the Census Bureau's 1982 Census of Agriculture experience, and update on the Bureau's Agriculture programs; (3) 1987 Census of Agriculture content; (4) 1987 Census of Agriculture public awareness program; (5) 1987 Census of Agriculture publications program; (6) comparability of Census and United States Department of Agriculture data; (7) election of chairperson-elect; and (8) Committee recommendations.

The meeting will be open to the public, and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days before the meeting.

Persons planning to attend and wishing additional information concerning this meeting or who wish to submit written statements may contact the Committee Control Officer, Mr. George Pierce, Agriculture Division, Bureau of the Census, Room 3009, Federal Building 4, Suitland, Maryland. (Mail address: Washington, DC 20233). Telephone (301) 763–7731.

Dated: October 24, 1985.

John G. Keane,
Director, Bureau of the Census.

Foreign-Trade Zones Board

[Order No. 315]

Approval of the Reorganization of Foreign-Trade Zone No. 41, Milwaukee, WI

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), and the Foreign-Trade Zones Board Regulations (15 CFR Part 400), the Foreign-Trade Zones Board (the Board) adopts the following order:

Whereas, the Foreign Trade Zone of Wisconsin, Ltd., Grantee of Foreign-Trade Zone No. 41, has applied to the Board for authority to reorganize its general-purpose zone to relocate zone warehousing operations, to add two sites near General Mitchell Field in Cudahy and in Milwaukee, and to add an industrial site in West Allis, Wisconsin, within the Milwaukee Customs port of entry;

Whereas, the application was accepted for filing on April 27, 1984, with notice inviting public comment given in the **Federal Register** on May 3, 1984 (Docket No. 16–84, 49 FR 18881), and an amendment to the application was filed on January 4, 1985 (50 FR 1098, 1/9/85);

Whereas, an examiners committee has investigated the application in accordance with the Board's regulations and recommends approval;

Whereas, the reorganization is necessary to improve and expand zone services in the Milwaukee area; and,

Whereas, the Board has found that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby orders:

That the Grantee is authorized to reorganize its zone in accordance with the application filed April 27, 1984, as amended. The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations. The authority given in this Order is subject to settlement locally by the District Director of Customs and the District Army Engineer regarding compliance with their respective requirements relating to foreign-trade zones.

Signed at Washington, D.C., this 18th day of October 1985.

William T. Archey,

Acting Assistant Secretary of Commerce for Trade Administration, Chairman, Committee of Alternates, Foreign-Trade Zones Board.

Attest:

John J. Da Ponte, Jr.,

Executive Secretary.

International Trade Administration

[C–792–010]

Galvanized Steel Wire Strand From South Africa; Final Results of Changed Circumstances; Administrative Review and Termination of Suspended Countervailing Duty Investigation

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of Final Results of Changed Circumstances; Administrative Review and Termination of Suspended Countervailing Duty Investigation.

SUMMARY: On August 15, 1985, the Department of Commerce published the preliminary results of its administrative review of the suspended countervailing duty investigation on galvanized steel wire strand from South Africa and announced its tentative determination to terminate the suspended investigation. The review covers the period from October 1, 1983.

We gave interested parties an opportunity to comment. We received no comments. We therefore determine that domestic interested parties are no longer interested in continuation of the suspended investigation, and we are terminating the suspended investigation. In accordance with the petitioners' notifications, the termination will apply to all galvanized steel wire strand entered, or withdrawn from warehouse, for consumption on or after October 1, 1983.

EFFECTIVE DATE: October 1, 1983.

FOR FURTHER INFORMATION CONTACT: Sylvia Chadwick or Philip Otterness, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 15, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 32880) the preliminary results of its changed circumstances administrative review of the suspended countervailing duty investigation on galvanized steel wire strand from South Africa (48 FR 19451; April 29, 1983). The Department has now completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

Imports covered by the review are shipments of South African galvanized steel wire strand. Such merchandise is currently classifiable under items 642.1142 and 642.1144 of the Tariff Schedules of the United States Annotated. The review covers the period from October 1, 1983.

Final Results of the Review and Termination

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to terminate. We received no comments.

As a result of our review, we determine that the domestic interested parties are no longer interested in continuation of the suspended countervailing duty investigation on galvanized steel wire strand from South Africa and that the investigation should be terminated on this basis. Therefore, we are terminating the suspended investigation on galvanized steel wire strand from South Africa effective October 1, 1983.

This administrative review, and notice are in accordance with sections 751(b) and (c) of the Tariff Act (19 U.S.C. d1675(b), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41 355.42).

Dated: October 23, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary, Import Administration.

[FR Doc. 85–25767 Filed 10–28–85; 8:45 am]

BILLING CODE 3510–DS–M

Certain Fasteners From Japan; Revocation of Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of Revocation of Countervailing Duty Order.

SUMMARY: As the result of a request by the Government of Japan, the International Trade Commission conducted an investigation and determined that revocation of the countervailing duty order on certain fasteners from Japan would not cause, or threaten to cause, material injury to an industry in the United States. The Department of Commerce consequently is revoking the countervailing duty order. All entries of this merchandise on or after November 17, 1982, will be liquidated without regard to countervailing duties.

EFFECTIVE DATE: October 29, 1985.

FOR FURTHER INFORMATION CONTACT: Al Jemmott or Richard W. Moreland, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On May 6, 1977, the Department of the Treasury published in the **Federal Register** a countervailing duty order on certain fasteners from Japan (42 FR 23147). On June 4, 1979, Treasury amended the order (44 FR 31972).

On November 17, 1982, the International Trade Commission ("the ITC") notified the Department of Commerce ("the Department") that the Government of Japan had requested an injury determination for this order under section 104(b) of the Trade Agreements Act of 1979 ("the TAA"). It was not necessary for the Department, upon notification from the ITC, to suspend liquidation of entries of the merchandise pursuant to that section of the TAA since previous suspensions remained in effect.

On August 1, 1985, the ITC notified the Department of its determination (50 FR 32778 August 14, 1985) that an industry in the United States would not be materially injured, or threatened with

material injury, nor would the establishment of such an industry be materially retarded, by reason of imports of certain fasteners from Japan if the order was revoked.

As a result, the Department is revoking the countervailing duty order concerning certain fasteners from Japan with respect to all merchandise entered, or withdrawn from warehouse, for consumption on or after November 17, 1982, the date the ITC notified the Department of the request for an injury determination.

The Department will instruct the Customs Service to proceed with liquidation of all unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after November 17, 1982, without regard to countervailing duties, and to refund any estimated countervailing duties collected with respect to these entries.

This revocation and notice are in accordance with section 104(b)(4)(B) of the TAA (19 U.S.C. 1671 note).

Dated: October 23, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary, Import Administration.

Photo Albums and Filler Pages From Hong Kong; Final Determination of Sales at Less Than Fair Value

AGENCY: International Trade Administration, Import Administration, Commerce.

ACTION: Notice.

SUMMARY: We have determined that photo albums and filler pages from Hong Kong are being, or are likely to be, sold in the United States at less than fair value, and have notified the U.S. International Trade Commission (ITC) of our determination. We are directing the U.S. Customs Service to continue to suspend the liquidation of all entries of photo albums and filler pages from Hong Kong that are entered, or withdrawn from warehouse, for consumption, on or after July 16, 1985 and to require a cash deposit or bond for each entry in an amount equal to 3.69 percent *ad valorem,* as described in the "Suspension of Liquidation" section of this notice.

EFFECTIVE DATA: October 29, 1985.

FOR FURTHER INFORMATION CONTACT: Steven Lim or Ken Stanhagen, Office of Investigations, Import Administration, International Trade Administration. U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 377-1776 or (202) 377-1777.

Final Determination

We have determined that photo albums and filler pages from Hong Kong are being, or are likely to be, sold in the United States at less than fair value, as provided in section 735(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1673(a)) (the Act). The average margins are listed in the "Suspension of Liquidation" section of this notice. We also found that critical circumstances do not exist with respect to imports of photo albums and filler pages from Hong Kong.

Case History

On January 30, 1985, we received a petition filed in proper form from Esselte Pendaflex, Inc., the Holson Company, Kleer-Vu Plastics Corporation, and SPM Manufacturing Corporation, on behalf of the U.S. industry producing photo albums and filler pages. In compiliance with the filing requirements of §353.36 of the Commerce Regulations (19 CFR 353.36), the petition alleges that imports of the subject merchandise from Hong Kong are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act (19 U.S.C. 1673), and that these imports materially injure, or threaten material injury to, a U.S. industry.

After reveiwing the petition, we determined that it contained sufficient grounds upon which to initiate an antidumping duty investigation. We initiated the investigation on February 19, 1985 (50 FR 7625), and notified the ITC of our action.

On March 18, 1985, the ITC found that there is a reasonable indication that imports of photo albums and filler pages from Hong Kong materially injure, or threaten material injury to, a U.S. industry (U.S.I.T.C. Pub. No. 1660, March 1985).

We investigated one producer, Climax Paper Converters, Ltd. This company accounts for approximately 85 percent of all exports of photo albums and filler pages from Hong Kong to the United States. On March 5, 1985, we presented an antidumpting duty questionaire to Climax. The response was received on April 18, 1985. On May 14, 1985, we received the petitioner's allegation that sales to third countries are at prices below the cost of production. On May 16, 1985, we presented a cost of production questionnaire to Climas and the response was received on June 6, 1985.

On July 16, 1985, we published a preliminary determination of sales at less than fair value with respect to this merchandise (50 FR 28829). The notice stated that if the investigation proceeded normally, we would make our final determination by September 23, 1985.

On August 13, 1985, counsel for the respondent requested a postponement of the final determination. We granted this request and postponed the due date for the final determination until not later than October 23, 1985 (50 FR. 36911). In accordance with section 774(a) of the Act, a public hearing was held on September 26, 1985.

Scope of Investigation

The merchandise under investigation is photo ablums and photo album filler pages. Photo albums are currently provided for in item 256.60 of the Tariff Schedules of the United States (TSUS). Photo album filler pages are currently provided for in item 256.87, 256.90 and 774.55 of the TSUS. We investigated all sales by Climax for the period July 1, 1984 through February 28, 1985.

Fair Value Comparison

To determine whether sales of the subject merchandise in the United States were made at less than fair value, we compared the United States price with the foreign market value.

United States Price

As provided in section 772 of the Act, we used the purchase price of the subject merchandise to represent the United States price for certain sales by Climax because the merchandise was sold to unrelated purchasers prior to its importation into the United States. We used the exporter's sales price for other sales by Climax to represent the United States price because the merchandise was sold to unrelated purchasers after importation into the United States.

We calculated the purchase price based on the FOB, CIF, or CIF delivered packed price to unrelated customers in the United States. We made deductions, where appropriate, for foreign inland freight, loading, ocean freight, marine insurance, brokerage and U.S. inland freight. We calculated exporter's sales price based on the price to the unrelated purchaser in the United States. We made additional deductions for U.S. brokerage, U.S. inland freight, commission, credit expenses, and other selling expenses incurred in the United States.

Foreign Market Value

In accordance with section 773(a) of the Act, we have determined that Climax had no sales of photo albums and filler pages in the home market during the period of investigation. Climax did have sales to third countries during the period of investigation. However, the petitioners alleged that sales to third countries were at prices below the cost of producing the merchandise. We examined production costs which included all appropriate costs for materials, fabrication and general expenses. We found sufficient sales in some third countries above the cost of production to allow us to use third country prices in accordance with section 773(a)(1)(B) of the Act to determine foreign market value. We used constructed value as our basis of comparison where there were insufficient sales of such or similar merchandise in third country markets, or where there were insufficient sales above the cost of production. In selecting third countries for comparison purposes, we used sales to France and the Republic of South Africa since merchandise sold to these countries was most similar to that sold in the United States or because quantities sold to these countries were most comparable to quantities sold in the United States.

We calculated the prices to third countries for each product on the basis of FOB or CIF prices to unrelated purchasers. From these prices, we deducted, where appropriate, foreign inland freight, foreign handling charges, ocean freight, and marine insurance. We made adjustments, where appropriate, for differences in the physical characteristics of the merchandise, pursuant to § 353.16 of our regulations, and for differences in circumstances of sale related to commissions and credit expenses pursuant to section 353.15 of our regulations. In addition, when comparing exporter's sales price to the third country price, we deducted indirect selling expenses from the third country price but limited the deductions to the amount of the U.S. indirect selling expenses. We made adjustments, where appropriate, for differences in packing costs.

We calculated the cost of production for third country sales by totaling the costs of materials, fabrication, general expenses, and packing. We calculated constructed value by totaling the costs of materials, fabrication used in producing the merchandise sold to the United States, general expenses, profit, and the cost of the packing. Because the amount for general expenses was more than the statutory minimum of ten percent of the cost of materials and fabrication, we used the actual expenses. We calculated profit on the basis of the statutory minimum of 8 percent of the sum of materials, fabrication costs, and general expenses because the company had no home market sales of merchandise of the same class or kind and the overall profit that was related to sales to countries other than the U.S. was below the statutory minimum. We added the cost of U.S. packing. In addition, when comparing the exporter's sales price to the constructed value, we adjusted constructed value by an amount to offset the commissions paid on exporter's sales price sales. We also made adjustments for differences in credit expenses and other selling expenses.

In our calculations of costs of production and constructed value, we have used the information submitted by respondent as revised in the verification process. While problems in the response were found at verification, the nature, magnitude and number of these problems were not sufficient to invalidate or discredit the response itself. Most of the changes made to product cost calculations pursuant to the verification are issues of accounting treatment or valuation, such as the allocation of the annual bonus over a twelve month period, the reduction in depreciation rates related to the U.K.-Chinese Agreement on Hong Kong, and the proper treatment of accounts including exchange rate gains, bad debts expense, sales of scrap, and sales of miscellaneous products. The limited methodological and mathematical errors are not distinguishable from those normally uncovered during a verification.

In calculating foreign market value, we made currency conversions from Hong Kong dollars to United States dollars in accordance with § 353.56(a) of the regulations, using the certified daily exchange rates for comparisons involving purchase price. For comparisons involving exporter's sales price, we used the official exchange rate as certified by the Federal Reserve for the date of purchase since the use of that exchange rate is consistent with section 615 of the Tariff and Trade Act of 1984 (1984 Act). Therefore, for exporter's sales price sales we chose not to follow § 353.56(a) of the regulations which predates the 1984 Act.

Final Negative Determination of Critical Circumstances

The petitioners alleged that imports of photo albums and filler pages from Hong Kong present "critical circumstances." Under section 735(a)(3) of the Act, critical circumstances exist if we determine (1) there is a history of dumping in the United States or elsewhere of the class or kind of the merchandise which is the subject of the investigation or the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise which is the subject of the investigation at less than its fair value, and (2) there have been massive imports of the class or kind of merchandise that is the subject of the investigation over a relatively short period.

In determining whether there is a history of dumping photo albums and filler pages from Hong Kong in the United States or elsewhere, we reviewed past antidumping findings of the Department of the Treasury as well as past Department of Commerce antidumping orders. We also reviewed the antidumping actions of other countries. On March 26, 1985, in the finding of the Antidumping Tribunal in Review No. R–3–84, Canada imposed antidumping duties on photo albums and filler pages from Hong Kong. This constitutes a history of dumping for this product. Since there is a history of dumping in the United States or elsewhere, we do not need to consider whether there is reason to believe or suspect that importers of this product knew or should have known that it was being sold at less than fair value.

We generally consider the following concerning massive imports: (1) Recent trends in import penetration levels; (2) whether imports have surged recently; (3) whether recent imports are significantly above the average calculated over the last three years; and (4) whether the pattern of imports over that three year period may be explained by seasonal swings.

In considering this question, we analyzed recent trade statistics on import levels, import penetration ratios for photo albums and filler pages from Hong Kong for equal periods immediately preceding and following the filing of the petition, and seasonal factors. Based on our analysis of recent trade data, we find that imports of photo albums and filler pages from Hong Kong during the period subsequent to receipt of the petition have not been massive when compared to recent import levels and import penetration ratios. Therefore, we determine that critical circumstances do not exist with respect to imports of photo albums and filler pages from Hong Kong.

Verification

As provided in section 776(a) of the Act, we verified the information provided by the respondent by using standard verification procedures, including examination of relevant sales and accounting records of the company.

Petitioners' Comments

Comment #1: Petitioners argue that the highest cost specification of a raw material capable of being utilized in a given album should be used as a basis for the cost of the material. Petitioners maintain that respondent's methodology used to develop raw material costs relies on a weighted-average cost for multiple specifications of a material with different widths or thicknesses, because the specific materials used in each model were not identifiable from factory records.

DOC Position: The use by respondent of a weighted-average cost of raw materials with multiple specifications constitutes a conservative methodology in accordance with Department policy. In the instances examined at the verification, designation by respondent of material used in each album was found to be reasonable.

Comment #2: Petitioners argue that use of weighted-average costs for materials with multiple specifications of different thicknesses or widths requires some accommodation or adjustment for differences in waste rates.

DOC Position: We verified that, in the preparation of the submission, the weighted-average material costs were calculated inclusive of waste using the actual waste rate for each specification of material.

Comment #3: All acquisition costs for raw material purchases should be included in the product cost calculations.

DOC Position: We agree, and have adjusted the figures for raw material costs in order to ensure that they accurately reflect all acquisition costs.

Comment #4: Petitioners argue that the minimal waste rates used in the response for certain stages of production are understated, based on their experience in the U.S. industry.

DOC Position: Although factory input/output records were not available to support the waste rates used by respondents for these stages of production, respondent's contention that these waste rates are minimal was found to be reasonable based on the inspection of these processes during the verification process. In addition, both total waste rates and the waste rates for several major operations were found to comport with informaton supplied to the Department by petitioners.

Comment #5: Petitioners argue that outside processing charges paid by Climax for fabrication of specific components must be included in the cost of these materials and should not be classified as labor costs.

DOC Position: It is the normal business practice of Climax to classify outside processing charges as a direct labor expense. These expenses are not significant and this practice does not distort the product cost calculations of Climax. Thus, we have accepted this classification.

Comment #6: Petitioners argue that revenues from the sale of scrap should not be allowed as a credit to general, selling and administrative expenses or as an adjustment to cost of production because the specific amount of scrap generated by specific albums or the actual amount received for the scrap was apparently not verified.

DOC Response: The amount of such revenues was verified by inspection of the books and records of Climax. Climax does not maintain, and did not develop for this investigation, records of the specific amount of scrap generated by specific albums. Due to the small size of these revenues and the homogenous nature of the products manufactured by Climax in terms of general production processes and major raw material components, allocation of these revenues was judged by the Department to be acceptable. (See Petitioner's Comment #4 for discussion of waste rates.)

Comment #7: Petitioners argue that the use of shipment quantities as a surrogate for production quantities in the calculation of direct labor cost and factory overhead cost for specific albums is inappropriate because there may be substantial variations between shipments and production.

DOC Position: As stated in the verification report, the variation between shipments and production during the period for which costs were calculated resulted in a slight overstatement of direct labor and factory overhead costs per unit. No correction of this overstatement was made.

Comment #8: Petitioners claim that is not clear whether transportation and meal costs are included in labor cost.

DOC Position: Canteen expenses, meal allowances and drivers' wages are included in labor cost.

Comment #9: Petitioners argue that calculation of general, selling and administrative expenses only for the months covered by the investigation fails to account for expenses incurred outside the period of investigation which benefit sales and production during the period of investigation.

DOC Position: General, selling and administrative expenses were examined for such expenses. Where significant expenses such as annual insurance premiums existed outside the period of investigation, an adjustment was made to amortize these expenses over the full year.

Comment #10: Petitioners argue that exchange rate gains should be considered only if they are related to the production and sale of the merchandise and that they are properly reflected either as adjustments to sales price, if related to a sale, or to raw materials cost, if related to a purchase.

DOC Position: We agree that exchange rate gains unrelated to the production and sale of merchandise are not properly considered credits to the cost of production. Furthermore, an exchange rate gain related to a specific sale is not viewed by the Department as an appropriate adjustment to sales price. Rather, these exchange rate gains and losses are considered to be related to the general operations of the company.

Comment #11: The petitioners contend that the selling expenses of Climax, N.Y. should be rejected as unverified.

DOC Position: All the indirect selling expenses incurred in the U.S. were satisfactorily verified as reported except depreciation, salaries, and employees' benefits. Consequently, the Department used as best information available the most adverse data contained in the response in making deductions for these categories.

Comment #12: The petitioners argued that all U.S. selling expenses should be applied to the exporter's sales price sales in the U.S. In the absence of the application of all U.S. selling expenses to these sales, petitioners claim that all sales by Climax should be treated as exporter's sale price sales since the definition of exporter's sales price encompasses sales made before or after importation.

DOC Position: We disagree. Where a U.S. selling arm of an exporter performs selling functions relative to different merchandise or on sales of the merchandise under investigation which is subject to different bases for determining United States price, we allocate the expenses over all sales. For expenses which could only be incurred on particular sales, those expenses are allocated fully to those sales. For expenses incurred relative to all sales, those expenses are allocated across all

sales in the relevant period and the appropriate expenses are deducted in the calculation of exporter's sales price.

Where merchandise is sold prior to its importation, we determine United States price under the provisions for purchase price since the provisions specifically covers such sales. We apply exporter's sales price when the sales to the unrelated U.S. purchaser are made after importation. We interpret the phrase "before or after importation" as providing one statutory basis for calculating United States price in instances where an individual sale is filled in part by merchandise which had not been imported at the time of sale.

Based on the foregoing, we have determined which sales fall within each basis for calculating United States price and have treated selling expenses within the adjustments established for each as described in the United States price section of this notice.

Comment #13: The petitioners comment that critical circumstances do exist, and that our preliminary determination was based on flawed data.

DOC Position: We adhere to our preliminary determination that critical circumstances do not exist. We used reliable trade statistics for the periods before and after the filing of the petition in arriving at our final negative determination.

Comment #14: The petitioners contend that third country sales of certain products are insignificant or below cost of production and consequently, constructed value should be used in determining the foreign market value.

DOC Position: We agree. Where we found that sales of certain models to third countries were insignificant or where sold below cost, we disregarded those sales and used constructed value as the basis of foreign market value. Where we used sales to France and the Republic of South Africa, we found that these sales were sufficient and were sold above the cost of production.

Comment #15: Counsel for the petitioners assert that the Department should reject the respondent's submissions as inadequate and, therefore, should use the best information available based on data furnished by petitioners.

DOC Position: We disagree. Based on our verification of the submitted response by Climax, we are satisfied that the information provided is adequate for purposes of making fair value comparisons. (See "Foreign Market Section" of this notice)

Comment #16: The petitioners contend that the Department should obtain information on Climax's profit experiences of the past 8 years for calculating profit instead of using the statutory minimum profit in the constructed value.

DOC Position: The Department compared the profit level of Climax in fiscal 1985 to the statutory minimum of 8 percent. Since the actual level was lower than 8 percent, the statutory minimum profit of 8 percent was used in calculating constructed value. Petitioners' request that the Department obtain financial statements for earlier years was received too late in the investigation to allow the gathering of additional information. The Department will consider this issue in a 751 review, if one is conducted.

Respondent's Comment: Respondent contends that there should be separate margin rates for 20 page, special bound photo albums and for all other photo albums.

DOC Position: All of the albums sold during the period constitute a single class or kind of merchandise. No compelling information has been presented on which to base such a product specific rate. Therefore, we have applied the weighted-averaged margin found relative to the class or kind to all sales by Climax.

Suspension of Liquidation

In accordance with section 733(d) of the Act, we are directing the United States Customs Service to continue to suspend liquidation of all entries of photo albums and filler pages from Hong Kong that are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the **Federal Register.** The United States Customs Service shall require a cash deposit or the posting of a bond equal to the estimated weighted-average amounts by which the foreign market value of the merchandise subject to this investigation exceeds the United States prices as shown in the table below. This suspension of liquidation will remain in effect until further notice.

Manufacturer/producer/exporter	Weighted-average margin (percentage)
Climax	3.69
All others	3.69

ITC Notification

In accordance with section 735(d) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will determine whether these imports materially injury, or threaten material injury to, a U.S. industry within 45 days of the publication of this notice. If the ITC determines that material injury or the threat of material injury does not exist, this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If, however, the ITC determines that such injury does exist, we will issue an antidumping duty order, directing Customs officers to assess antidumping duties on the subject products entered, or withdrawn from warehouse, for consumption on or after the date of suspension of liquidation, equal to the amount by which the foreign market value of the merchandise exceeds the U.S. prices.

This notice is published pursuant to section 735(d) of the Act.

William T. Archey,

Acting Assistant Secretary for Trade Administration.

October 23, 1985.

Photo Albums and Filler Pages From Korea; Final Determination of Sales at Less Than Fair Value

AGENCY: International Trade Administration, Import Administration, Commerce.

ACTION: Notice.

SUMMARY: We have determined that photo albums and filler pages from Korea are being, or are likely to be, sold in the United States at less than fair value, and have notified the U.S. International Trade Commission (ITC) of our determination. We are directing the U.S. Customs Service to continue to suspend the liquidation of all entries of photo albums and filler pages from Korea that are entered, or withdrawn from warehouse, for consumption, on or after the date ninety days before July 16, 1985 and to require a cash deposit or bond for each entry in an amount equal to 64.81 percent *ad valorem,* as described in the "Suspension of Liquidation" section of this notice.

EFFECTIVE DATE: October 29, 1985.

FOR FURTHER INFORMATION CONTACT: Steven Lim or Ken Stanhagen, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone (202) 377–1776 or (202) 377–1777.

Final Determination

We have determined that photo albums and filler pages from Korea are being, or are likely to be, sold in the United States at less than fair value, as provided in section 735(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1673d(a)) (the Act). The average margin is 64.81 percent *ad valorem*. We have also found that critical circumstances exist with respect to imports of photo albums and filler pages from Korea.

Case History

On January 30, 1985, we received a petition filed in proper form from Esselte Pendaflex, Inc., the Holson Company, Kleer-Vu Plastics Corporation, and SPM Manufacturing Corporation, on behalf of the U.S. industry producing photo albums and filler pages. In compliance with the filing requirements of section 353.36 of the Commerce Regulations (19 CFR 353.36), the petition alleged that imports of the subject merchandise from Korea are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act (19 U.S.C. 1673), and that these imports are materially injuring, or threaten material injury to, a U.S. industry.

After reviewing the petition, we determined that it contained sufficient grounds upon which to initiate an antidumping duty investigation. We initiated the investigation on February 19, 1985 (50 FR 7625), and notified the ITC of our action.

On March 13, 1985, we presented antidumping duty questionnaires to counsel for: Chinsung Industry Co., Ltd. (Chinsung), Donam Industrial Co., Ltd. (Donam), Dong In Industrial Co. Ltd. (Dong In), Dong Won Industrial Co. (Dong Won), Eunjin Industrial Co., Ltd. (Eunjin) and Keywon, Inc. (Keywon). These six companies account for 64 percent of all exports of photo albums and filler pages from Korea to the United States.

On March 18, 1985, the ITC found that there is a reasonable indication that imports of photo albums and filler pages from Korea materially injure, or threaten material injury to, a U.S. industry (U.S.I.T.C. Pub. No. 1660, March 1985).

On May 22, 1985, we received the petitioners' allegation that sales to third countries are at prices below the cost of production, and on May 30, 1985, we presented cost of production questionnaires to the respondents. Responses to these questionnaires were received on June 25, 1985.

On July 16, 1985, we published a preliminary determination of sales at less than fair value (50 FR 28829). The notice stated that if the investigation proceeded normally, we would make our final determination by September 23, 1985.

On July 26, 1985, we received a request from the respondents that we postpone our final determination for 60 days. We granted a postponement until not later than October 23, 1985 (50 FR. 37018).

Scope of Investigation

The merchandise under investigation is photo albums and photo album filler pages. Photo albums are currently provided for in item 256.60 of the Tariff Schedules of the United States (TSUS). Photo album filler pages are currently provided for in items 256.87, 256.90 and 774.55 of the TSUS.

Fair Value Comparisons

To determine whether sales of the subject merchandise in the United States were made at less than fair value, we compared the United States price based on the best information available, with the foreign market value, also based on the best information available.

We used the best information available as required by section 776(b) of the Act, because adequate responses were not submitted in an acceptable form.

United States Price

Because of the numerous discrepancies found in the amounts presented in the reports on sales to the United States and the failure of the respondents to provide sales information in an acceptable form as regards Chinsung, Dong In and Dong Won, we calculated the purchase price of photo albums and filler pages from these companies, as provided in section 776(b) of the Act, on the basis of prices of offers of this merchandise provided by petitioners with deductions, where appropriate, for ocean freight, United States duty, customs clearance and inland freight. Although less significant discrepancies were found in the reports of sales to the United States as regards Donam, Eunjin and Keywon, we also calculated the purchase price of photo albums and filler pages from these companies as described above, because major portions of the responses for these companies relative to foreign market value were unverifiable (see the "Foreign Market Value" section of this notice). Under these circumstances, the Department cannot use those portions of a response that are verifiable as it would allow respondents to selectively submit data that would be to their benefit in the analysis of their selling practices.

Foreign Market Value

In accordance with section 773(a) of the Act, we have detemined that none of the producers being investigated had sales of photo albums and filler pages in Korea during the period of investigation. The Korean producers did have sales to third countries during the period of investigation, however, the petitioners alleged that sales to third countries were at prices below the cost of producing the merchandise. We were unable to examine the production costs and third country market sales prices because the responses were not in acceptable form.

Based upon our attempted verification of the cost of production responses of the Korean companies, it was determined that these responses were not sufficiently supported by corporate cost accounting records and did not properly represent the costs to these companies of manfacturing the subject products. Use of estimates or standards without sufficient reliance on cost accounting records, failure to account for significant expenses and the existence of numerous mathematical errors all contributed to the understatement of those costs.

The scope of the required recalculations and revisions found in the verification process in this investigation goes far beyond the issues of accounting treatment and valuation and limited methodological problems and mathematical errors commonly uncovered at a verification. Faced with responses containing numerous fundamental flaws in both the methodology and mathematical calculations used in developing the production costs, the Department cannot properly base its determination on the information submitted by respondents. Nor is it acceptable in such situations that the Department bear the responsibility of attempting to identify and perform the numerous and substantial recalculations necessary for the development of representative and accurate production costs. Such a role would place too great a burden on the resouces of the Department under the time constraints and procedural framework of this investigation. It is the

obligation of repsondents to provide an accurate and complete response prior to verification so that the Department may have the opportunity to fully analyze the information and other parties are able to review and comment on it. The purpose of verification is to establish the accuracy of a response rather than to reconstruct the information to fit the requirements of the Department.

Thus, we were unable to compare third country prices of all six producers with their costs of production to determine whether third country market sales were made at prices below cost. Therefore, we used constructed value, as defined in section 773(e) of the Act, to determine the foreign market value of all photo albums and filler pages. In accordance with the best available information requirements of section 776(b) of the Act, we calculated constructed value on the basis of the cost data submitted by the petitioners which included general expenses of at least the statutory minimum of 10 percent of material and fabrication cost. We calculated profit on the basis of the statutory minimum of 8 percent of the cost of materials, fabrication and general expenses.

Final Affirmative Determination of Critical Circumstances

The petitioners alleged that imports of photo albums and filler pages from Korea present "critical circumstances." Under section 733(e)(1) of the Act, critical circumstances are determined to exist when Department finds that (1) there is a history of dumping in the United States or elsewhere of the merchandise under investigation, or (2) the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise which is the subject of the investigation at less than its fair vaule, and (3) there have been massive imports of the class or kind of merchandise that is the subject of the investigation over a relatively short period.

In determining whether there is a history of dumping photo albums and filler pages from Korea in the United States elsewhere, we reviewed past antidumping findings of the Department of Treasury as well as past Department of Commerce antidumping orders. We also reviewed the antidumping actions of other countries. On March 26, 1985, in the finding of the Antidumping Tribunal in Review No. R–3–84, Canada imposed anitdumping duties on photo albums and filler pages from Korea. Thus, we find a history of dumping for this merchandise.

Since there is a history of dumping in the United States or elsewhere, we do not need to consider whether there is reason to believe or suspect that importers of this product knew or should have known that it was being sold at less than fair value.

We generally consider the following concerning massive imports: (1) Recent trends in import penetration levels; (2) whether imports have surged recently; (3) whether recent imports are significantly above the average calculated over the last three years; and (4) whether the pattern of imports over that three year period may be explained by seasonal swings.

In considering this question, we analyzed recent trade statistics on import levels and import penetration ratios for photo albums and filler pages from Korea for equal periods immediately preceding and following the filing of the petition, and seasonal factors. Based on our anslysis of recent trade data, we find that imports of photo albums and filler pages from Korea during the period subsequent to receipt of the petition have been massive when compared to recent import levels and import penetration ratios. Therefore, we determine that critical circumstances exist with respect to imports of photo albums and filler pages from Korea.

Verification

As provided in section 776(a) of the Act, we attempted to verify the information provided by the respondents by using standard verification procedures, including examination of relevant sales and cost records. We were unable to do so as described in "United States Price" and "Foreign Market Value" sections of this notice.

Petitioners' Comment: Petitioners contend that foreign market value and United States price should be based on the best information available, which in this case is information provided by petitioners, not the respondents' questionnaire responses.

DOC Position: We agree as stated in the "United States Price" and "Foreign Market Value" sections of this notice.

Petitioners' Other Comments: Other comments by petitioners relate to possible comparisons based on the responses. Since we did not use the responses these comments are moot.

Respondents' Comment 1: The respondents have requested in various submissions to the Department, including the hearing transcript, and pre-hearing and post-hearing briefs, that the Department use the information provided by the Korean producers, rather than petitioners' submitted data, as the best information available in determining United States price and foreign market value.

DOC Position: See the "United States Price" and "Foreign Market Value" sections of this notice.

Respondents' Comment 2: Respondents commented that the Department should rescind its preliminary determination that critical circumstances exist.

DOC Position: The Department has made a final determination that critical circumstances do exist. See the "Final Affirmative Determination of Critical Circumstances" section of this notice.

Suspension of Liquidation

In accordance with section 735(d) of the Act, we are directing the United States Customs Service to continue to suspend liquidation of all entries of photo albums and filler pages from Korea that are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the **Federal Register.** The United States Customs Service shall require a cash deposit or the posting of a bond in an amount equal to the estimated amounts by which the foreign market value of the merchandise subject to this investigation exceeds the United States price as shown in the table below. This suspension of liquidation will remain in effect until further notice. The margin for all products investigated is 64.81 percent.

ITC Notification

In accordance with section 733(f) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will determine whether these imports materially injure, or threaten material injury to, a U.S. industry within 45 days of the publication of this notice. If the ITC determines that material injury or the threat of material injury does not exist, this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If, however, the ITC determines that such injury does exist, we will issue an antidumping order, directing Customs officers to assess antidumping duties on the

subject products entered, or withdrawn from warehouse, for consumption on or after the date of suspension of liquidation, equal to the amount by which the foreign market value of the merchandise exceeds the U.S. prices.

This determination is published pursuant to section 735(d) of the Act (19 U.S.C. 1673d(d)).

William T. Archey,

Acting Assistant Secretary for Trade Administration.

Prestressed Concrete Steel Wire Strand From South Africa; Final Results of Changed Circumstances; Administrative Review and Termination of Suspended Countervailing Duty Investigation

AGENCY: International Trade Administrative/Import Administration, Commerce.

ACTION: Notice of Final Results of Changed Circumstances Administrative Review and Termination of Suspended Countervailing Duty Investigation.

SUMMARY: On August 6, 1985, the Department of Commerce published the preliminary results of its administrative review of the suspended countervailing duty investigation on prestressed concrete steel wire strand from South Africa and announced its tentative determination to terminate the suspended investigation. The review covers the period from January 1, 1983.

We gave interested parties an opportunity to comment. We received no comments. We therefore determine that domestic interested parties are no longer interested in continuation of the suspended investigation, and we are terminating the suspended investigation. In accordance with the petitioner's notification, the termination will apply to all PC strand entered, or withdrawn from warehouse, for consumption on or after January 1, 1983.

EFFECTIVE DATE: January 1, 1983.

FOR FURTHER INFORMATION CONTACT: Sylvia Chadwick or Philip Otterness, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 6, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 31757) the preliminary results of its changed circumstances administrative review of the suspended countervailing duty investigation on prestressed concrete steel wire strand ("PC strand") from South Africa (47 FR 22137; May 21, 1982). The Department has now completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

Imports covered by the review are shipments of South African PC strand. Such merchandise is currently classifiable under item 642.1120 of the Tariff Schedules of the United States Annotated. The review covers the period from January 1, 1983.

Final Results of the Review and Termination

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to terminate. We received no comments.

As a result of our review, we determine that the domestic interested parties are no longer interested in continuation of the suspended countervailing duty investigation on PC strand from South Africa and that the investigation should be terminated on this basis. Therefore, we are terminating the suspended investigation on PC strand from South Africa effective January 1, 1983.

This administrative review, and notice are in accordance with sections 751 (b) and (c) of the Tariff Act (19 U.S.C. 1675 (b), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

Dated: October 23, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary, Import Administration.

Small Diameter Carbon Steel Pipes and Tubes From Korea; Final Results of Changed Circumstances; Administrative Review and Revocation of Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of Final Results of Changed Circumstances Administrative Review and Revocation of Countervailing Duty Order.

SUMMARY: On August 20, 1985, the Department of Commerce published the preliminary results of its administrative review of the countervailing duty order on small diameter carbon steel pipes and tubes from Korea and announced its tentative determination to revoke the order. The review covers the period from October 1, 1984.

We gave interested parties an opportunity to comment. After considering the comment received, we determine that domestic interested parties are no longer interested in continuation of the order, and we are revoking the order. In accordance with the interested parties' notifications, the revocation will apply to all small diameter carbon steel pipes and tubes exported on or after October 1, 1984.

EFFECTIVE DATE: October 1, 1984.

FOR FURTHER INFORMATION CONTACT: Richard C. Henderson or Al Jemmott, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 20, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 33614) the preliminary results of its changed circumstances administrative review of the countervailing duty order on small diameter carbon steel pipes and tubes from Korea (48 FR 7241, February 18, 1983). The Department has not completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

Imports covered by the review are shipments of Korean small diameter carbon steel pipes and tubes. Such merchandise is currently classifiable under items 610.3208, 610.3209, 610.3231, 610.3233, 610.3234, 610.3241, 610.3242, 610.3243, 610.3249, 610.3252, 610.3254, 610.3256, and 610.3258 of the Tariff Schedules of the United States Annotated. The review covers the period from October 1, 1984.

Analysis of Comment Received

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to revoke. We received a comment from ARMCO Inc., a domestic interested party.

Comment: ARMCO claims that there is a discrepancy in the wording between our notice of preliminary results and the terms of the Arrangement Concerning Trade in Steel Products between Korea

and the United States ("the Arrangement"). The Arrangement provides that *shipments* of Korean small diameter carbon steel pipes and tubes on or after October 1, 1984, will be subject to export ceilings. Our notice provided that "the revocation will apply to all small diameter carbon steel pipes and tubes *entered, or withdrawn from warehouse*, for consumption on or after October 1, 1984."

ARMCO argues that we should adhere to the Arrangement by making the revocation applicable only to shipments made on or after October 1, 1984.

Department's Position: Since the domestic interested parties' lack of interest in continuation of the countervailing duty order is the basis of the revocation, and since one of them, ARMCO, has unambiguously stated that its lack of interest in continuation applies to shipments made on or after October 1, 1984, we are revoking this order with respect to shipments of Korean small diameter carbon steel pipes and tubes exported on or after October 1, 1984. Exports prior to October 1, 1984, that are entered, or withdrawn from warehouse, for consumption on or after that date continue to be subject to the countervailing duty order.

If any interested party chooses to request, in accordance with the interim final/final rule (50 FR 32556, August 13, 1985), an administrative review for the period immediately preceding October 1, 1984, we will consider arguments that the revocation should affect exports (shipments) prior to October 1 that were entered on or after October 1.

Final Results of the Review and Revocation

After a review of the comment received, we determine that the domestic interested parties are no longer interested in continuation of the countervailing duty order on small diameter carbon steel pipes and tubes from Korea and that the order should be revoked on this basis.

Therefore, we are revoking the order on small diameter carbon steel pipes and tubes from Korea effective October 1, 1984. We will instruct the Customs Service to proceed with liquidation of all unliquidated entries of this merchandise exported on or after October 1, 1984, without regard to countervailing duties and to refund any estimated countervailing duties collected with respect to those entries.

This notice does not cover unliquidated entries of small diameter carbon steel and tubes from Korea which were exported prior to October 1, 1984. The Department will cover any entries not covered in a prior administrative review and exported before October 1, 1984, in a separate review, if one is requested.

This administrative review, revocation, and notice are in accordance with sections 751(b) and (c) of the Tariff Act (19 U.S.C. 1675(b), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

Dated: October 18, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary; Import Administration.

Certain Steel Pipes and Tubes From Japan; Final Results of Changed Circumstances; Administrative Review and Revocation of Antidumping Duty Order

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of Final Results of Changed Circumstances Administrative Review and Revocation of Antidumping Duty Order.

SUMMARY: On September 16, 1985, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on certain steel pipes and tubes from Japan and announced its tentative determination to revoke the order. The review covers the period from October 1, 1984.

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to revoke. We received no comments. We therefore determine that domestic interested parties are no longer interested in continuation of the order and we are revoking the order. In accordance with the petitioner's notification, the revocation will apply to certain steel pipes and tubes entered, or withdrawn from warehouse, for consumption on or after October 1, 1984.

EFFECTIVE DATE: October 1, 1984.

FOR FURTHER INFORMATION CONTACT: Chip Hayes or Stephen Munroe, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone (202) 377–5255.

SUPPLEMENTARY INFORMATION:

Background

On September 16, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 37565–66) the preliminary results of its changed circumstances administrative review of the antidumping duty order on certain steel pipes and tubes from Japan (48 FR 8522–8523, March 1, 1983). The Department has now completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of Review

Imports covered by the review are shipments of seamless heat-resisting pipes and tubes, currently classifiable under items 610.5206, 610.5208, 610.5229, and 610.5234 of the Tariff Schedules of the United States Annotated, and seamless stainless pipes and tubes, currently classifiable under items 610.5205, 610.5229, and 610.5230 of the Tariff Schedules of the United States Annotated. The review covers the period from October 1, 1984.

Final Results of the Review and Revocation

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to revoke. We received no comments.

As a result of this review, we determine that the domestic interested parties are no longer interested in continuation of the antidumping duty order on certain steel pipes and tubes from Japan and that the order should be revoked on this basis.

Therefore, we are revoking the order on certain steel pipes and tubes from Japan effective October 1, 1984. We will instruct the Customs Service to proceed with liquidation of all unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after October 1, 1984, without regard to antidumping duties and to refund any estimated antidumping duties collected with respect to those entries.

This notice does not cover unliquidated entries of certain steel pipes and tubes from Japan which were entered, or withdrawn from warehouse, for consumption prior to October 1, 1984. The Department will cover any such entries in a separate review, if one is requested.

This administrative review, revocation and notice are in accordance with sections 751(b) and (c) of the Tariff Act (19 U.S.C. 1675(b), (c)) and §§ 353.53

and 353.54 of the Commerce Regulations (19 CFR 353.53, 353.54).

Dated: October 23, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary for Import Administration.

Steel Pipes and Tubes From South Africa; Final Results of Changed Circumstances; Administrative Review and Termination of Suspended Countervailing Duty Investigation

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of Final Results of Changed Circumstances Administrative Review and Termination of Suspended Countervailing Duty Investigation.

SUMMARY: On August 29, 1985, the Department of Commerce published the preliminary results of its administrative review of the suspended countervailing duty investigation on steel pipes and tubes from South Africa and announced its tentative determination to terminate the suspended investigation. The review covers the period from October 1, 1983.

We gave interested parties an opportunity to comment. We received no comments. We therefore determine that domestic interested parties are no longer interested in continuation of the suspended investigation, and we are terminating the suspended investigation. In accordance with the petitioner's notification, the termination will apply to all steel pipes and tubes entered, or withdrawn from warehouse, for consumption on or after October 1, 1983.

EFFECTIVE DATE: October 1, 1983.

FOR FURTHER INFORMATION CONTACT: Sylvia Chadwick or Philip Otterness, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 29, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 35110), the preliminary results of its changed circumstances administrative review of the suspended countervailing duty investigation on steel pipes and tubes from South Africa (48 FR 24407; June 1, 1983). The Department has now completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

Imports covered by the review are shipments of South African pipes and tubes. Such merchandise is currently classifiable under items 610.3000, 610.3100, 610.3205, 610.3208, 610.3209, 610.3212, 610.3213, 610.3216, 610.3219, 610.3221, 610.3227, 610.3231, 610.3233, 610.3234, 610.3241, 610.3242, 610.3243, 610.3249, 610.3252, 610.3254, 610.3256, 610.3258, 610.3262, 610.3264, 610.3500, 610.3600, 610.3925, 610.3935, 610.3945, 610.3955, 610.4025, 610.4035, 610.4045, 610.4055, 610.4225, 610.4235, 610.4245, 610.4255, 610.4325, 610.4335, 610.4345, 610.4355, 610.4500, 610.4600, 610.4800, 610.4920, 610.4925, 610.4928, 610.4931, 610.4933, 610.4936, 610.4942, 610.4944, 610.4946, 610.4948, 610.4951, 610.4953, 610.4954, 610.4955, 610.4956, 610.4957, 610.4966, 610.4967, 610.4968, 610.4969, 610.4970, 610.4976, 610.5130, 610.5160, 610.5202, 610.5204, 610.5206, 610.5209, 610.5211, 610.5214, 610.5216, 610.5221, 610.5222, 610.5226, 610.5229, 610.5230, 610.5231, 610.5234, 610.5236, 610.5240, 610.5242, 610.5243, and 610.5244 of the Tariff Schedules of the Unites States Annotated.

The review covers the period from October 1, 1983.

Final Results of the Review and Termination

We gave interested parties an opportunity to comment on the preliminary results and tentative determination to terminate. We received no comments.

As a result of our review, we determine that the domestic interested parties are no longer interested in continuation of the suspended countervailing duty investigation on steel pipes and tubes from South Africa and that the investigation should be terminated on this basis. Therefore, we are terminating the suspended investigation on steel pipes and tubes from South Africa effective October 1, 1983.

This administrative review, and notice are in accordance with section 751 (b) and (c) of the Tariff Act (19 U.S.C. 1675 (b), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

BILLING CODE 3510-DS-M

National Oceanic and Atmospheric Administration

Marine Mammals; Application for Permit; Gulf World, Inc.

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

1. Applicant:

a. Name: Gulf World, Inc. (P160C)

b. Address: 15412 West Alt. Highway 98, Panama City Beach, Florida 32407

2. Type of Permit: Public Display

3. Name and Number of Marine Mammals: Atlantic bottlenose dolphin (Tursiops truncatus)—1

4. Type of Take: Capture/maintain

5. Location of Activity: Florida Panhandle

6. Period of Activity: 2 years

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Concurrent with the publication of this notice in the **Federal Register**, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, DC 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, DC; and

Regional Director, Southeast Region, National Marine Fisheries Service, 9450 Koger Boulevard, St. Petersburg, Florida 33702.

Carmen J. Blondin,

Deputy Assistant Administrator for Fisheries Resource Management, National Marine Fisheries Service.

BILLING CODE 3512–04–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limit for Certain Cotton Textile Products Produced or Manufactured in the People's Republic of China

October 23, 1985.

The Chairman of the Committee for the Implementation of Textile

Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on October 29, 1985. For further information contact Diana Solkoff, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

Background

A CITA directive establishing import limits for specific categories of cotton, wool and man-made fiber textile products, including terry and other pile towels in Category 363, produced or manufactured in the People's Republic of China and exported during the twelve-month period which began on January 1, 1985, was published in the **Federal Register** on December 28, 1984 (49 FR 50432). The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 19, 1983, as amended, provides, among other things, for the carryover of shortfalls in certain categories from the previous agreement year. Accordingly, at the request of the Government of the People's Republic of China carryover is being applied to the current-year limit for Category 363, increasing it from 20,034,450 numbers to 20,627,991 numbers.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

October 23, 1985

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive of December 24, 1984 from the Chairman of the Committee for the Implementation of Textile Agreements which established levels of restraint for certain specific categories of cotton, wool and man-made fiber textile products, produced or manufactured in the People's Republic of China and exported during 1985.

Effective on October 29, 1985, the directive of December 24, 1984 is hereby further amended to adjust the previously established restraint limit for Category 363 to 20,627,991 numbers [1] under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 19, 1983, as amended.[2]

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 85–25771 Filed 10–28–85; 8:45 am]

BILLING CODE 3510–DR–M

Announcement of Import Restraint Limit for Certain Cotton Textile Products Produced or Manufactured in Israel

October 24, 1985.

On April 9, 1985 a notice was published in the **Federal Register** (50 FR 11534) announcing that, on March 29, 1985 the United States Government, under Article 3 of the Arrangement Regarding International Trade in Textiles, had requested the Government of Israel to enter into consultations concerning exports to the United States of cotton sheets in Category 361, produced or manufactured in Israel.

The purpose of this notice is to advise the public that, inasmuch as no agreement was reached on a mutually satisfactory solution concerning this category, in consultations held May 15–16 and June 20–23, the United States Government has decided to control imports in Category 361, produced or manufactured in Israel and exported during the twelve-month period which began on March 29, 1985 and extends through March 28, 1986 at a level of 626,455 numbers. Should a different solution be reached in further consultations, further notice will be published in the **Federal Register.**

Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton textile products in Category 361, exported during the period which began on March 29, 1985 and extends through March 28, 1986 in excess of the designated restraint limit. Charges for goods exported during the aforementioned period and imported during the period March 29, 1985 through October 19, 1985 have amounted to 547,074 numbers and will be charged.

For further information contact: Ross Arnold, International Trade Specialist, Office of Textile and Apparel, U.S. Department of Commerce, Washington, D.C. (202/377–4212).

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57548), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229

Dear Mr. Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on October 31, 1985, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 361, produced or manufactured in Israel and exported during the twelve-month period which began on March 29, 1985, in excess of 626,455 numbers.[1]

Textile products in Category 361 which have been exported to the United States prior to March 29, 1985 shall not be subject to this directive.

Textile products in Category 361 which have been released from the custody of the U.S. Customs Service under the provision of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

---

[1] The limit has not been adjusted to account for any imports exported after December 31, 1984.

[2] The agreement provides, in part, that (1) with the exception of Category 315, any specific limit may be exceeded by not more than 5 percent of its square yards equivalent total, provided that the amount of the increase is compensated for by an equivalent square yard equivalent decrease in one or more other specific limits in that agreement year; (2) the specific limits for certain categories may be increased for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

[1] The level has not been adjusted to reflect any imports exported after March 28, 1985. Charges for goods imported during the period March 29, 1985 through October 19, 1985 have amounted to 547,074 numbers.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (47 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–M

Increase in Import Levels for Certain Cotton and Man-Made Fiber Textile Products Produced or manufactured in Colombia

October 23, 1985.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on October 29, 1985. For further information contact Nathaniel Cohen, Trade Reference Assistant, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

Background

The Bilateral Cotton, Wool and Man-Made Fiber Textile Agrements of July 1 and August 11, 1982, as amended, between the Governments of the United States and Colombia provides consultation levels for certain categories, such as Categories 338, 340, 341, 642 and 648, which may be adjusted during the agreement year upon agreement between the two governments. The Governments of the United States and Colombia have agreed to further amend their bilateral agreement to establish designated consultation levels for Categories 338, 340, 341, 642 and 648, produced or manufactured in Colombia and exported during the current agreement year which began on July 1, 1985 and extends through June 30, 1986. The letter to the Commissioner of Customs which follows this notice implements the agreed increases and controls these categories at those levels for the first time in the current agreement year.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

October 23, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive of June 27, 1985 which directed you to prohibit entry of certain cotton, wool and man-made fiber textile products, produced or manufactured in Colombia and exported during the twelve-month period which began on July 1, 1985 and extends through June 30, 1986.

Effective on October 29, 1985, the directive of June 27, 1985 is hereby further amended to establish the following restraint levels for cotton and man-made fiber textile products in Categories 338, 340, 341, 642 and 648:

Category	12-month level [1] (dozen)
338	138,889
340	75,000
341	103,448
642	56,180
648	67,416

[1] The levels have not been adjusted to reflect any imports exported after June 30, 1985.

Textile products in the foregoing categories which have been exported to the United States prior to July 1, 1985 shall not be subject to this directive.

Textile products in the foregoing categories which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 85–25772 Filed 10–28–85; 8:45 am]

BILLING CODE 3510–DR–M

Request for Public Comment on Bilateral Textile Consultations on Certain Cotton and Man-Made Fiber Textile Products in Categories 359pt. and 649 Produced or Manufactured in Taiwan

October 23, 1985.

On September 17 and 30, 1985, the American Institute in Taiwan (AIT), under the agreement of November 18, 1982, as amended, concerning cotton, wool and man-made fiber textile products from Taiwan, requested the Coordination Council for North American Affairs (CCNAA) to enter into consultations concerning exports to the United States of man-made fiber brassieres in Category 649, and cotton headwear in Category 359pt. (only T.S.U.S.A. numbers 702.0600 and 702.1200), produced or manufactured in Taiwan.

The purpose of this notice is to advise that, if no pollution is agreed upon in consultations, the Committee for the Implementation of Textile Agreements may later establish limits for the entry and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in Categories 359pt. and 649, produced or manufactured in Taiwan and exported during the twelve-month period which began on January 1, 1985 and extends through December 31, 1985.

Anyone wishing to comment or provide data or information regarding the treatment of these categories is invited to submit such comments or information in ten copies to Mr. Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Because the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C., and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public

which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 85–25776 Filed 10–28–85; 8:45 am]

BILLING CODE 3510–DR–M

Request for Public Comment on Bilateral Textile Consultations With the Government of the Republic of South Africa on Trade in Category 433 (Men's and Boys' Wool Suit-Type Coats)

October 23, 1985.

On September 30, 1985 the Government of the United States, under section 204 of the Agricultural Act of 1956 (7 U.S.C. 1854), requested the Government of the Republic of South Africa to enter into consultations concerning exports to the United States of men's and boys' wool suit-type coats in Category 433, produced or manufactured in South Africa.

The purpose of this notice is to advise that, if no solution is agreed upon in consultations, the Committee for the Implementation of Textile Agreements may later establish a limit of 5,244 dozen for the entry and withdrawal from warehouse for consumption of textile products in this category, produced or manufactured in South Africa and exported to the United States during the twelve-month period which began on September 30, 1985 and extends through September 29, 1986.

Anyone wishing to comment or provide data or information regarding the treatment of Category 433 is invited to submit such comments or information in ten copies to Mr. Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Because the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textile and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C., and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

South Africa—Market Statement

Category 433—Wool Suit-Type Coats

September 1985.

Summary and Conclusions

U.S. imports of Category 433 from South Africa were 6,700 dozens for the year ending July 1985. This compares with 230 dozen in the same period one year earlier. Imports for calendar year 1984 were 150 dozens. Ninety-eighty percent of the year-ending July 1985 imports were entered in the first seven months of this year, an annual rate of 11,304 dozens.

The sharp and substantial increase of low-valued imports of Category 433 from South Africa is disrupting the U.S. market.

Imports and Import Penetration

Imports of this category have increased rapidly over the past 5 years. In 1981 Category 433 imports were 66,000 dozens. By 1984 they had nearly tripled to 189,000 dozens. Year ending July 1985 imports were up 45,000 dozens, or 29 percent, from the same period one year earlier to 202,000 dozens.

The ratio of imports to production of this category has risen steadily and more than doubled from 16.5 percent in 1981 to 39.0 percent in 1984.

Production and Domestic Producers' Market Share

U.S. production of Category 433 recovered from the recession in 1984 when the U.S. market significantly expanded. However, the domestic producers' market share continued to decline dropping from 85.8 percent in 1981 to 77.6 percent in 1983 to 72.0 percent in 1984.

BILLING CODE 3510–DR–M

Request for Public Comment on Bilateral Textile Consultations With the Republic of Korea To Review Trade in Category 359pt. (Headwear)

October 23, 1985.

On September 30, 1985, the Government of the United States requested consultations with the Government of the Republic of Korea with respect to cotton headwear in Category 359pt. (only T.S.U.S.A. numbers 702.0600 and 702.1200), produced or manufactured in Korea. This request was made on the basis of the agreement of December 21, 1982, as amended, between the Governments of the United States and the Republic of Korea relating to trade in cotton, wool and man-made fiber textiles and textile products.

The purpose of this notice is to advise the public that, if no solution is agreed upon in consultations with Korea, the Committee for the Implementation of Textile Agreements may later establish a limit for the entry and withdrawal from warehouse for consumption of textile products in Category 359pt., produced or manufactured in Korea and exported to the United States during the twelve-month period which began on January 1, 1985 and extends through December 31, 1985.

Anyone wishing to comment or provide data or information regarding the treatment of this category from Korea under the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 1, 1983 as amended, or on any other aspect thereof, or to comment on domestic production or availability of textile products included in the category, is invited to submit such comments or information in ten copies to Mr. Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230. Because the exact timing to the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC, and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement

or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–M

Increase in Import Level for Cotton, Wool and Man-Made Textiles (Category 320) Produced or Manfactured in Colombia

October 24, 1985.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on October 30, 1985. For further information contact Nathaniel Cohen, Trade Reference Assistant, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

Background

The Bilateral Cotton, Wool and Man-Make Fiber Textile Agreeemt of July 1 and August 11, 1982, as amended, between the Governments of the United States and Colombia provides consultation levels for certain categories, such as Category 320 (other woven cotton fabrics), which may be adjusted upon agreement between the two governments. The Governments of the United States and Colombia have agreed to further amend their bilateral agreement to increase this designated consultation level from 7,000,000 square yards to 10,500,000 square yards for the current agreement year which began on July 1, 1985 and extends through June 30, 1986 for goods exported during that period. The letter to the Commissioner of Customs which follows this notice implements the agreed increase.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

October 24, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive of June 27, 1985 which directed you to prohibit entry of certain cotton, wool, and man-made fiber textile products produced or manufactured in Colombia and exported during the twelve-month period which began on July 1, 1985 and extends through June 30, 1986.

Effective on October 30, 1985, the directive of June 27, 1985 is hereby further amended to increase the restraint level[1] previously established for textile products in Category 320 to 10,500,000 square yards.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553 (a)(1).

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–M

COMMODITY FUTURES TRADING COMMISSION

New York Futures Exchange and Intermarket Clearing Corp.; Transfer of Clearing Functions

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed contract market rule changes.

SUMMARY: The New York Futures Exchange ("NYFE") and the Intermarket Clearing Corporation ("ICC") have submitted proposals to amend their rules in order to effect the transfer of the clearing functions for trade executed on NYFE from the New York Futures Clearing Corporation ("NYFCC") to ICC. The Commodity Futures Trading Commission ("Commission") has determined that publication of these proposals will assist the Commission in considering the views of interested persons and is consistent with the purposes of the Commodity Exchange Act ("Act").

[1] The level has not been adjusted to reflect any imports exported after June 30, 1985.

DATE: Comments should be received on or before November 29, 1985.

ADDRESS: Interested persons should submit their comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Reference should be made to NYFE–ICC Transfer of Clearing Functions.

FOR FURTHER INFORMATION CONTACT: John C. Lawton, Attorney/Advisor, Division of trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, (202) 254–8955.

SUPPLEMENTARY INFORMATION: Trades executed on the NYFE are currently cleared through the NYFCC, a wholly-owned subsidiary of NYFE. By letter dated September 116 1985, NYFE submitted for Commission approval pursuant to section 5a(12) of the Act, rule amendment relating to the transfer of clearing functions from NYFCC to ICC, an independent organization. By letter dated September 13, 1985, ICC also submitted pursuant to section 5a(12) rule amendments relating to the transfer.

Copies of the proposed rule amendments will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC, 20581. Copies can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other material submitted by NYFE and ICC in support of the proposals may be available upon request pursuant to the Freedom of Information Act [5 U.S.C. 552] and the Commission's regulations thereunder [17 CFR Part 145 [1984]], except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such material sholud be made to the FOI, Privacy and Sunshine Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the proposed amendments should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581 by November 29, 1985.

Issued in Washington, D.C. on October 23, 1985.

Jean A. Webb,

Secretary of the Commission.

DEPARTMENT OF DEFENSE

Office of the Secretary

Meeting of the National Advisory Panel on the Education of Handicapped Dependents

AGENCY: Department of Defense Dependents Schools (DoDDS), Office of the Secretary, DOD.

ACTION: Notice of Meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Advisory Panel on the Education of Handicapped Dependents. This notice also describes the functions of the Panel. Notice of this meeting is required under the National Advisory Committee Act. This meeting is open to the public; however, due to space constraints, anyone wishing to attend should contact the Office of Dependents Schools (ODS) coordinator.

DATE: December 11, 1985, 9 a.m. to 4 p.m.; December 12, 1985, 9 a.m. to 4 p.m.; December 13, 1985, 9 a.m. to 4 p.m.

ADDRESS: ODS, 2461 Eisenhower Avenue, Alexandria, Virginia.

FOR FURTHER INFORMATION CONTACT: Dr. Diane Goltz, Chief, Special Education Branch, DoDDS, 2461 Eisenhower Avenue, Alexandria, Virginia 22331–1100, (202/325–7810).

SUPPLEMENTARY INFORMATION: The National Advisory Panel on the Education of Handicapped Dependents is established under section 613 of the Education for All Handicapped Children Act of 1975 (20 U.S.C. 1401, Pub. L. 94–142). The Panel is directed to advise the Director, DoDDS, of unmet needs within the system for the education of handicapped children, to comment publicly on rules and regulations proposed for issuance by ODS concerning education for handicapped children and on procedures for distribution of funds, and to assist ODS in developing and reporting all data and evaluation as may assist the Director in the performance of her responsibilities under section 613 of Pub. L. 94–142. The Panel will review the following areas: Related services, personnel development, program development, administration, and budget.

Patricia H. Means,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810–01–M

Corps of Engineers, Department of the Army

Draft Environmental Impact Statement; Agana Bay, GU

To prepare a Draft Environmental Impact Statement (DEIS) for a Department of the Army (DA) regulatory permit action to construct a deep draft harbor for cruise ships at Agana Bay, Guam, and to construct 200 acres of reef flat fill for private sector development at Agana Bay, Guam.

AGENCY: Corps of Engineers, Department of the Army, DOD.

ACTION: Notice of Intent to prepare a draft DEIS for regulatory permit action.

SUMMARY:

1. Description of the Proposed Action

The applicant, the port authority of Guam proposes to dredge a deep draft harbor for cruise ships at Agana Bay, Guam, adjacent to the Agana sewage treatment plant and small boat harbor. Approximately 3 million cubic yards of dredging within the Agana Bay reef flat to construct the 40-foot deep harbor is anticipated. The port authority proposes using the dredged material to fill an adjacent 200 acres of reef flat area at Agana Bay for private sector development to finance the deep draft harbor construction. The applicants purpose in constructing the deep draft harbor is to isolate passenger ships from the present congested Cabras Island Cargo Ship Terminal at Apra Harbor and to bring passenger ships directly to the capitol city of Agana for passenger convenience.

2. Applicable Statutory Authorities

Section 10 of the River and Harbor Act of 1899 (33 U.S.C. 403) and Section 404 of the Clean Water Act (33 U.S.C. 1344).

3. Description of Reasonable Alternatives

The alternatives which may be included in the draft Environmental Impact Statement include:

a. Permit denial.

b. No action.

c. Reduction in the scope of work, including one or more of the following:

(1) Alternative locations for the port.

(2) Limiting the size of the proposed action requested by the permit.

(3) Reducing the size or configuration of the deep draft harbor.

(4) Eliminating or reducing the need for fill.

(5) Modifying the proposed action to reduce resource impacts.

d. Reasonable and practical alternatives that can be undertaken by the applicant alone.

e. Reasonable and practical alternatives that can be instituted by some other Government agencies.

4. Scoping Process for the Draft Environmental Impact Statement

a. The public and affected Federal and State local agencies and other interested private organizations and parties are invited to comment on or identify specific concerns which should be addressed in the DEIS. It is estimated the DEIS will be made available to the public in February 1986. Upon preparation of the DEIS, a public notice shall be issued summarizing the facts of the project and announcing the availability of the DEIS. If a public hearing is requested, it will be held after the completion of the DEIS. A public notice announcing the time, date, location and nature of the hearing will be issued at least 30 days prior to the hearing date.

b. The significant issues to be analyzed in the draft Environmental Impact Statement will inlcude:

(1) Impacts of the fill on water quality.

(2) Impacts of the channel and harbor construction on coastal zone resoucres including coastal water quality and on drainage characterics and water circulation patterns in the area.

(3) Impacts of the action on threatened and endangered species, air quality, archaeological and historic resources and recreation.

(4) The relationship of authorized actions to the total project planned by the developer including tertiary and cumulative impacts, aesthetics, socio-economic, infrastructure and land use impacts.

Questions about the proposed action and the DEIS can be answered by: Mr. John Emmerson, Construction-Operations Branch, US Army Corps of Engineers, Fort Shafter, Hawaii 96858-5440, telephone (808) 438-9258.

Dated: October 21, 1985.

Michael M. Jenks,

Colonel, Corps of Engineers, District Engineer.

BILLING CODE 3710-NN-M

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services

Application Notice Establishing Closing Dates for Transmittal of Certain Fiscal Year 1986 Awards; Correction

AGENCY: Department of Education.

ACTION: Correction Notice.

SUMMARY: An application notice establishing closing dates for the transmittal of application for Fiscal Year 1986 awards for the Handicapped Children's Early Education Program was published on October 3, 1985 at 50 FR 40472.

On Page 40472, first column, under the heading, *APPLICATIONS DELIVERED BY MAIL,* the CFDA Number was listed incorrectly as 84.029. The correct CFDA Number is 84.024.

On Page 40472, third column, the fourth paragraph should read: "All comments from State Single Points of Contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by *March 21, 1986* to the following address:".

FOR FURTHER INFORMATION CONTACT: Ms. Mary A. Smith, Division of Regulations Management, U.S. Department of Education, 400 Maryland Avenue, SW., (Room 2134, FOB-6), Washington, DC 20202. Telephone: (202) 732-2884.

(20 U.S.C. 1423)

(Catalog of Federal Domestic Assistance No. 84.024; Handicapped Children's Early Education Program)

Dated: October 24, 1985.

Madeleine Will,

Assistant Secretary for Special Education and Rehabilitation Services.

BILLING CODE 4001-01-M

Desegregation of Public Education Program

AGENCY: Department of Education.

ACTION: Application notice for new State Educational Agency Projects for fiscal year 1986.

Applications are invited for new projects under the State educational agency (SEA) program for race, sex, and national origin desegregation assistance under section 403 of the Civil Rights Act of 1964.

Authority for this program is contained in Title IV of the Civil Rights Act of 1964. (42 U.S.C. 2000c-2000c-5).

The program issues awards to SEAs.

The purpose of the awards is to provide technical assistance, training, and advisory services to school districts in coping with the special educational problems caused by the desegregation of their schools based on race, sex, or national origin.

Closing date for transmittal of applications: Applications for new awards must be mailed or hand delivered by February 14, 1986.

Applications delivered by mail: An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Washington, DC 20202. Applications for the SEA program should be marked Attention: 84.004C.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education. If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing; (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications delivered by hand: An application that is hand delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, DC.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, DC time) daily, except Saturdays, Sundays, or Federal holidays.

An application that is hand delivered will not be accepted after 4:30 p.m. on the closing date.

Program information: The regulations provide specific criteria for awards in 34 CFR 270.17-19 (formerly 45 CFR 180.17-19). Applications will be evaluated under these criteria. Under Section 270.20(a) of the regulations, the

Secretary approves only those applications that receive a score of at least 60 points on the basis of the criteria. The applicant should also refer to 34 CFR 270.11–15 (formerly 45 CFR 180.11–15) in the development of the grant application.

An SEA should submit separate applications for race, sex, or national origin desegregation assistance awards. SEAs that presently have awards are reminded that they must submit new applications for fiscal year 1986.

Intergovernmental review: On June 24, 1983, the Secretary published in the **Federal Register** final regulations (34 CFR Part 79, published at 48 FR 29158–29168) implementing Executive Order 12372 entitled "Intergovernmental Review of Federal Programs." The regulations took effect September 30, 1983.

This program is subject to the requirements of the Executive Order and the regulations in 34 CFR Part 79. The objective of Executive Order 12372 is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

The Executive Order—

- Allows States, after consultation with local officials, to establish their own process for review and comment on proposed Federal financial assistance;
- Increases Federal responsiveness to State and local officials by requiring Federal agencies to accommodate State and local views or explain why those views will not be accommodated; and
- Revokes OMB Circular A–95.

Transactions with nongovernmental entities, including State postsecondary educational institutions and federally recognized Indian tribal governments, are not covered by Executive Order 12372. Also excluded from coverage are research, development, or demonstration projects that do not have a unique geographic focus and are not directly relevant to the governmental responsibilities of a State or local government within that geographic area.

The following is the current list of States that have established a process, designated a single point of contact, and have selected this program for review:

State

Alabama	Hawaii
Arizona	Indiana
Arkansas	Iowa
California	Kansas
Connecticut	Kentucky
Delaware	Louisiana
District of Columbia	Maine
Florida	Massachusetts
Michigan	Oregon
Missouri	Pennsylvania
Montana	South Dakota
Nebraska	Texas
Nevada	Tennessee
New Hampshire	Trust Territory
New Jersey	Vermont
New Mexico	Virginia
New York	Washington
North Dakota	Wyoming
Ohio	Guam
Oklahoma	Virgin Islands

Immediately upon receipt of this notice, applicants that are governmental entities must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should contact, immediately upon receipt of this notice, the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included in the application package for this program.

In States not listed above, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by April 15, 1986 to the following address:

The Secretary, U.S. Department of Education, Room 4181, (84.004C) 400 Maryland Avenue, SW., Washington, DC 20202. (Proof of mailing will be determined on the same basis as applications.)

Please note that the above address is not the same address as the one to which the applicant submits its completed applications. *Do Not Send Applications to the Above Address.*

AVAILABLE FUNDS

In 1985, $24,000,000 was appropriated for Training and Advisory services. For 1986 the President has requested $16,000,000 as the first stage of a planned phase out of the program over the next two years. However, the Congress has not yet enacted a 1986 appropriation. If the 1986 appropriation is the same as the President's request, approximately $10,000,000 will be made available for grants to SEAs. The remaining $6,000,000 will be used for awards to desegregation assistance centers. The average SEA grant is projected to be approximately $92,500. These estimates do not bind the Department of Education to a specific number of grants or to the amount of any grant unless that amount is otherwise specified by statute or regulations. The Department is awarding 109 grants for 1985 SEA projects. The Department makes separate grants for race, sex, and national origin.

Application forms: Application forms and program information packages are expected to be ready for mailing on November 22, 1985. They may be obtained by writing to the Equity Training and Technical Assistance Program Staff, U.S. Department of Education (Room 2031, FOB–6), 400 Maryland Avenue, SW., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those specifically imposed under the statute and regulations.

The Secretary strongly urges that applicants not submit information that is not requested.

(The application is approved under OMB Control Number 1810–0030)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Desegregation of Public Education program, 34 CFR Part 270 (formerly 45 CFR Part 180).

(b) Education Department General Administrative Regulations, 34 CFR Parts 74, 75, 77, 78, and 79.

For further information: For further information contact George R. Rhodes, Jr., Director, Division of Educational Support, U.S. Department of Education (Room 2003, FOB–6), 400 Maryland Avenue, SW., Washington, DC 20202. Telephone: (202) 245–8484.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. QF86–3–000, et al.]

Concept Technology, et al.; Small Power Production and Cogeneration Facilities; Qualifying Status; Certificate Applications, etc.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Take notice that the following filings have been made with the Commission.

1. Concept Technology, Inc.

Docket No. QF86–3–000

October 17, 1985

On October 2, 1985, Concept Technology, Inc. of 20 Nassau Street, Princeton, New Jersey 08542 submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at S. Gumpert Co., Inc., 812 Jersey Avenue, Jersey City, New Jersey. The facility will consist of a natural gas-fired engine, an induction generator and a heat exchanger. The net electric power production capacity will be 75 kW. The primary source of energy will be natural gas. The date of installation is estimated to be January 15, 1986.

2. Calderon Energy Co.

Docket No. QF86–15–000

October 23, 1985.

On October 8, 1985, Calderon Energy Co. (Applicant), P.O. Box 126, Bowling Green, Ohio 43402, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The facility will be located on North Dunbridge Road, Bowling Green, Ohio. The facility is a combined cycle-topping cycle cogeneration plant. It will consist of a gas turbine, an extraction/condensing turbine generator set and related auxiliary equipment. Extraction steam will be used in a chemical reaction at a nearby coal gasification plant. The primary energy source for the facility will be low Btu artificial gas. The net power production capacity of the facility is 49 megawatts. Construction of the facility is scheduled to commence in September 1986.

3. Garratt-Callahan Company

Docket No. QF86–6–000

October 23, 1985.

On October 7, 1985, Garratt-Callahan Company (Applicant), of One Eleven Rollins Road, Milbrae, California 94030, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The five megawatt hydroelectric facility is located at the Wailuku River on the Island of Hawaii approximately eight miles east of Hilo Bay.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

4. Henwood Associates, Inc.

Docket No. QF86–13–000

October 23, 1985.

On October 7, 1985, Henwood Associates, Inc. (Applicant), of 1818 11th Street, Suite 4, Sacramento, California 94814 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The 1,000 kilowatt hydroelectric facility will be located in Mono County, California.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

5. Howard and Mildred Carter

Docket No. QF86–5–000

October 23, 1985.

On October 7, 1985, Howard and Mildred Carter (Applicant), of Box 2084, Route 38, Livingston, Montana 59047 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The 340 kilowatt hydroelectric facility is located in Park County, Montana.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

6. Nelson Greek Power, Inc.

Docket No. QF86–14–000

October 23, 1985.

On October 7, 1985, Nelson Greek Power, Inc. (Applicant), of P.O. Box

4728, Redding, California 96099 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The 1,100 Kilowatt hydroelectric facility will be located in Shasta County, California.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

7. O'Brien Energy Systems, Inc.

Docket No. QF86–9–000

October 23, 1985.

On October 7, 1985, O'Brien Energy Systems, Inc. (Applicant) of Green and Washington Streets, Downingtown, Pennsylvania 19335, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The facility will be located at the Hartford Steam Company, 60 Columbus Boulevard, Hartford, Connecticut 01644. The facility is a combined cycle-topping cycle cogeneration plant. The thermal output will consist of steam sold to the Hartford Steam Company for resale to customers in its steam loop. The primary energy input to the facility will be natural gas. No. 2 fuel oil will be used in emergency situations. The net electric power production capacity of the facility will be 53,914 Kilowatts. Installation of the facility will begin in the first quarter of 1986 with commencement of operation planned for the third quarter of 1987.

8. Pan Pacific Hy dro, Inc.

Docket No. QF86–10–000

October 23, 1985.

On October 7, 1985, Pan Pacific Hydro, Inc. (Applicant), of 215 Main Street, Weaverville, California 96093 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Comission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Trinity County, California. The facility will consist of a hydroelectric generator, powerhouse, and appurtenances. The electric power production capacity is 4.9 MW. The primary source of energy is water.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

9. Western Consolidated Energy Corp.

Docket No. QF85–731–000

October 17, 1985.

On September 25, 1985, Western Consolidated Energy Corp. of 655 Corona, Denver, Colorado 80218, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle congeneration facility will be located at 10400 Isabelle Road, Lafayette, Colorado. The facility will consist of two combustion turbine generators and heat recovery boilers. The electric power production capacity is 2,600 kW. The primary source of energy is natural gas. Installation will begin approximately in December, 1985.

10. University Congeneration, Inc., et al.

Docket No. QF85–593–001

October 23, 1985.

On October 4, 1985, University Cogeneration, Inc. and University Cogeneration Partners, Ltd. 1985–1, (Applicant) of 3430 Camino Del Rio North, Suite 200, San Diego, California 92108 submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in the Midway-Sunset Oil Field, approximately 3½ miles south of Tart, Kern County, California. The Facility will consist of a combustion turbine generator, and a supplementary fired heat recovery boiler (HRB). The steam from the HRB will be used in the tertiary oil recovery operation. The electric power production capacity of the facility will be 38,700 kW. The primary energy source for the facility will be natural gas. An electric utility and/or electric utility holding company will have up to 41.1% ownership interest in the facility. The facility is expected to start up on November 1, 1985.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commmission and are available for public inspection.

Kenneth F. Plumb,

Secretary

[FR Doc. 85–25700 Filed 10–28–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CI86–19–000]

Amoco Production Co.; Application for Blanket Certificate of Public Convenience and Necessity and for an Order Permitting and Approving Abandonment and Pre-Granted Abandonment

October 24, 1985.

Take notice that on October 16, 1985, Amoco Production Company (Amoco) filed an Application pursuant to sections 4 and 7 of the Natural Gas Act (NGA), and the provisions of 18 CFR Parts 154, and 157 (i) authorizing the sale for resale in interstate commerce of certain natural gas produced by Amoco and its joint interest owners, (ii) authorizing blanket temporary abandonment and pre-granted permanent abandonment of certain sales as described therein, and (iii) authorizing transportation by interstate pipelines (and the pregranted abandonment of same), where and if necessary, to effectuate the sale and purchase of gas, as more fully described in the Application, which is on file with

the Commission and open for public inspection. Amoco also requests that said blanket authorization be made effective on or before November 1, 1985.

Amoco states that recent industry experience with direct producer sales demonstrates that the blanket authority as requested is consistent with the Commission's rules and regulations, *i.e.*, Parts 154 and 157 requirements, and with the Commission's Order No. 436.[1] Further, Amoco states that, absent said blanket authorization, the flexibility and efficiency necessary for successful operation of the market would be hindered.

Amoco emphasizes that no Commission-mandated scheme of contract carriage or market access is sought by its Application. A decision by an interstate pipeline, intrastate pipeline, Hinshaw pipeline or local distribution company to have gas transported on its behalf, or to provide transportation services as a participating pipeline, or for pipelines to enter into blanket transportation agreements with Amoco is purely voluntary.

Specifically, Amoco requests that the Commission authorize Amoco, effective on or before November 1, 1985:

(1) To make sales for resale in interstate commerce, without supply or market limitations, of NGA gas with an applicable maximum lawful ceiling price equal to or higher than the Natural Gas Policy Act (NGPA) section 109 ceiling price that is produced from various interests owned by Amoco;

(2) to make sales for resale in interstate commerce, without supply or market limitations, of NGA gas with an applicable maximum lawful ceiling price equal to or higher than the NGPA section 109 price and produced from various interests attributable to other owners having interests in the same wells as Amoco, to the extent that such joint interest owners agree to same;

(3) to abandon, temporarily, sales for resale of NGA gas with an applicable maximum lawful ceiling price equal to or higher than the NGPA section 109 price and previously certificated by the Commission, to the extent that such gas is released by interstate pipelines for resale to third parties;

(4) to abandon (pursuant to pre-granted abandonment authority) any sale for resale authorized pursuant to any blanket certificate issued herein; and,

(5) to have both NGA and non-NGA gas that is sold by Amoco and its joint interest owners transported in interstate commerce, on a self-implementing basis and without source or recipient limitations, by any willing transporter to any willing and able purchaser of such gas, with pre-granted abandonment of same.

Amoco is requesting the authorization described herein only to the extent that any element of such authorization is not otherwise made effective on or before November 1, 1985, as a result of Commission action in any other proceeding. In particular, Amoco refers to the Commission's Order No. 436, issued October 9, 1985 in Docket No. RM85–1–000 and states that the blanket authority requested would be supplemental to the flexible transportation scheme promulgated therein.

Sales proposed to be made by Amoco on behalf of itself and its joint interest owners will not involve a dedication of reserves but will be based on periodic nominations, either by purchasers or by Amoco. The sales volumes, prices, purchasers, delivery points, transporter, and supply source will vary. Although sales made by Amoco to end-users would qualify as direct sales, and thus not require a sales certificate, other sales under the blanket authority requested will be for resale and will vary on a periodic basis, depending on the nominations.

Amoco proposes to sell and deliver to various purchasers all or a portion of the gas Amoco determines is available for sale at the most favorable terms for Amoco for a particular month. Amoco will not be obligated to sell gas pursuant to any nomination or proposed nomination until the exact volumes, terms and conditions, and prices are agreed to by Amoco and a purchaser. The actual contract between Amoco and the purchaser may be for all or any portion of the quantity which was set out in the nomination or proposed nomination.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1985, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[Project No. 3043–006]

Arkansas Electric Cooperative Co., and Arkansas Valley Electric Cooperative Corp.; Application for Transfer of License (Major)

October 24, 1985.

Take notice that Arkansas Electric Cooperative Corporation (AECC) and Arkansas Valley Electric Cooperative Corporation (AVECC), joint Licensees for the Arkansas River Lock and Dam No. 13, FERC No. 3043, have requested that AECC be made sole Licensee for Project No. 3043.

The license was issued on October 18, 1983. Article 39 of the license requires the Licensee to start construction of the protect within 2 years from the date of issuance of the license and to complete construction within 5 years of that date. The project is located on the Arkansas River in Crawford County, Arkansas. Construction of the project is scheduled to start between October 1 and October 17, 1985.

Comments, Protests, or Motions to Intervene

Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protest or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests or motions to intervene must be filed on or before December 6, 1985.

Filing and Service of Responsive Documents

Any filings must bear in all capital letters the title "COMMENTS", "PROTEST, OR "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of

the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426. An additional copy must be sent to: Fred E. Springer, Director, Division of Project Management, Office of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any motion to intervene must also be served upon each representative of the Applicants specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–25695 Filed 10–28–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP86–56–000]

Columbia Gas Transmission Corp., Producer–Supplies; Application

October 24, 1985.

Take notice that on October 21, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, on behalf of Columbia and certain producers (Producers-Suppliers) currently selling gas to Columbia pursuant to Certificates of Public Convenience and Necessity, filed in Docket No. CP86–56–000 an Application to the Federal Energy Regulatory Commission (Commission) pursuant to § 2.77 of the Commission's Regulations and section 7(b) of the Natural Gas Act, as amended. This Application sought expedited limited-term producer abandonment of certificated sales to Columbia of all section 102(d) and pre-NGPA Section 108 natural gas which has previously been sold under Columbia's Special Marketing Program (SMP), and for limited-term certificate authority to sell such gas to third parties.

Columbia notes that Order No. 436, issued October 9, 1985, in Docket No. RM85–1–000, provides Columbia with the requisite authority to transport all gas which has previously been released and sold under Columbia's SMP, but does not provide the necessary abandonment and certificate authority for producers to sell such gas to third parties. The quantity of such abandonment and certificate authority, on an expedited basis as of November 1, 1985, is therefore requested by Columbia in this application.

Columbia states that the Applicants believe that the authority sought is consistent with § 2.77 of the Commission's Regulations:

1. The section 102(d) and pre-NGPA section 108 natural gas which is the subject of this application is gas which has been previously involved in release and spot-market sales.

2. Columbia and other pipelines have received significant take-or-pay relief through the release and spot-market sale of this gas.

3. All of the gas in issue is eligible for NGPA ceiling prices which exceed market levels.

4. The abandonment and certificate authority requested herein could be conditioned to require all pipelines which transport such gas to accept the non-discriminatory transportation condition contained in Order No. 436.

Columbia states that the Applicants seek expedited consideration prior to the October 31, 1985 expiration of present authorization. In that regard, Applicants urge the Commission to immediately issue a temporary certificate pending full review of this application for the following reasons:

1. The gas in issue is currently flowing in release and spot-market sale programs.

2. Columbia's customers are depending on supplies via these programs.

3. Columbia's Producer-Suppliers are also depending on the continuation of these programs.

4. Columbia and Producer-Suppliers seek to avoid even the briefest interruption in these programs which would result in shut-in gas supplies and increased take-or-pay exposure to Columbia.

Columbia states that § 2.77 of the Commission's Regulations, promulgated in Docket No. RM85–1–000, recognizes the need for prompt regulatory approval for the release and sale of certain gas supplies and targets certain applications for expedited treatment: "those for gas which had limited term abandonment and certificate authority under transportation arrangements that existed prior to the effective date of this rule; and those whose terms include take-or-pay relief." This application, states Columbia, thus qualifies for the expedited consideration under § 2.77.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1985, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–25696 Filed 10–28–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CI86–22–000]

Fina Oil & Chemical Co., et. al.; Application for Blanket Certificate of Public Convenience and Necessity and for an Order Permitting and Approving Abandoment and Pre-granted Abandonment

October 24, 1985.

Take notice that on October 17, 1985, Fina Oil and Chemical Company ("FOC"), Petrofina Delaware Incorporated ("PDI") and Fina Oil & Gas Inc. ("FOG") (any or all of whom may be referred to herein as "Fina") filed an Application pursuant to sections 4 and 7 of the Natural Gas Act ("NGA"), and the provisions of 18 CFR Parts 154 and 157, seeking a blanket certificate of public convenience and necessity: (1) Authorizing sales for resale of natural gas in interstate commerce by Fina and by reseller/agents who purchase gas from Fina for resale under this proposed program; (2) authorizing blanket partial blanket abandonment and pre-granted abandonment of certain sales as described in the Application; (3) authorizing transportation, as necessary, under section 7(c) of the NGA for interstate pipelines; (4) authorizing pre-granted abandonment of such trasnportation by interstate pipelines; and (5) authorizing transportation of the subject gas by intrastate and Hinshaw pipelines, all as more fully-described in the Application which is on file with the Commission and open for public inspection. The Application also requests that said blanket authorization be made effective on or before November 1, 1985.

Applicant states that the blanket authority requested is consistent with

the Commission's rules and regulations and is necessary to be compatible with the spot market.

Specifically, Fina requests that the Commission authorize it, effective on or before November 1, 1985: (1) To make sales for resale in intertate commerce of natural gas for which the maximum lawful price is higher than the NGPA section 109 price; (2) to temporarily abandon sales for resale of natural gas for which the maximum lawful price is higher than the section 109 price and previously certificated by the Commission, to the extent that such gas is released by interstate, intrastate or "Hinshaw" pipelines or local distribution companies for resale on the spot market; (3) to abandon (pre-granted abandonment) any sale or resale in interstate commerce authorized pursuant to the blanket certificate issued herein; (4) to have any such gas transported in interstate commerce on a self-implementing basis, by any transporter to any purchaser of such gas; (5) to have natural gas which is no longer subject to the Commission's NGA authority transported to purchasers and end-users; and (6) to abandon (Pre-granted abandonment) such transportation. In addition, Fina requests that certain market restrictions currrently applicable to existing special marketing programs, not apply to the instant authorization.

Fina is requesting the authorization described only to the extent that such authorization is not included in Regulation of Natural Gas Pipelines After Partial Wellhead Decontrol, Order No. 436, Docket No. RM85–1–000, 33 F.E.R.C. (CCH) ¶ 61,007 (1985) or in the event that Order No. 436 is stated or not in effect on November 1, 1985.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1985, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–25697 Filed 10–28–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. C186–27–000]

Transco Energy Marketing Co.; Application

October 24, 1985.

Take notice that on October 18, 1985, Transco Energy Marketing Company (TEMCO), P.O. Box 1396, Houston, Texas 77251 filed an Application requesting that the Commission issue a blanket certificate of public convenience and necessity, effective on or before November 1, 1985; (1) To make sales for resale in interstate commerce of natural gas not removed (by section 601 of the NGPA) form the Commission's NGA jurisdiction for which the maximum lawful price is higher than the section 109 price; (2) for producers to temporarily abandon sales for resale of NGA gas for which the maximum lawful price is higher than the section 109 price and which were previously certificated by the Commission, to the extent that such gas is released by interstate, intrastate or Hinshaw pipelines and local distribution companies, to producers for resale in the spot market, by TEMCO or by such producers through TEMCO acting as their agent; (3) for TEMCO and participating producers to abandon (pre-granted abandonment) any sale for resale in interstate commerce authorized pursuant to the blanket certificate issued herein; (4) for any willing transporter to transport NGA and non-NGA gas in interstate commerce, on a self-implementing basis and without source or recipient limitations, to TEMCO's customers; and (5) for any transporter to abandon (pre-granted abandonment) such transportation. In addition, TEMCO requests that in its order the Commission expressly find that with respect to TEMCO and its operations, the Commission's NGA jurisdiction is limited to the specific non-exempt activities for which TEMCO is seeking authorization herein. Finally, TEMCO is requesting the authorizations described herein only to the extent that any element of such authorizations is not otherwise made effective on or before November 1, 1985, as a result of Commission action in any other proceeding.

TEMCO states that the results of special marketing programs to date amply demonstrate the beneficial impact of such programs on all segments of the industry. In addition, TEMCO states that the authorizations applied for in its Application are consistent with the Commission's goals as set forth in the Final Rule in the proceeding titled "Regulation of Natural Gas Pipelines After Partial Wellhead Decontrol," Docket No. RM85–1–000 (Order No. 436) and are critical to the continuing success of the spot market. Without such authorizations, TEMCO states that it will be precluded from effectively, efficiently and fully participating in the spot market as of November 1, 1985.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1985, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–25698 Filed 10–28–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CI86–26–000]

Yankee Resources, Inc.; Application for Blanket Certificate of Public Convenience and Necessity; Approval and Pregranted Abandonment of Certain Sales; and Declaration of Limited Jurisdiction

October 24, 1985.

Take notice that on October 17, 1985, Yankee Resources, Inc. ("Yankee") 425 Metro Place North, Suite 400, Dublin, Ohio 43017, filed an application

pursuant to sections 4 and 7 of the Natural Gas Act, 15 U.S.C. 717c, 717f, and the provision of 18 CFR Parts 157 and 284, for a blanket certificate of public convenience and necessity authorizing Yankee to conduct a spot sales marketing program, hereinafter referred to as Yankee Exchange Service-PLUS ("YES-PLUS"), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Approval would (1) permit abandonment of certain committed or dedicated natural gas sales; (2) authorize the sale of natural gas for resale with pregranted abandonment in interstate commerce. Yankee also requests the Commission to declare that, with respect to Yankee, the Commission will only assert Natural Gas Act jurisdiction over sales for resale hereunder not otherwise exempt from the NGA.

Under YES-PLUS, Yankee proposes to sell on a spot basis natural gas subject to ceiling prices above section 109 rate under the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432. Both contractually committed and uncommitted gas will be sold. Yankee and participating producers will seek any necessary releases from existing purchasers in order to be able to make such gas available to meet market demand for spot sales. Arrangements for transporting the released gas will be made on a case-by-case basis under available transportation programs, including programs adopted by the Commission in its recent Order 436.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1985, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kennety F. Plumb,

Secretary.

[FR Doc. 85–25699 Filed 10–28–85; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP85–882–000, et al.]

Freeport Pipeline Company, et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Freeport Pipeline Co.

[Docket No. CP85–882–000]

October 21, 1985.

Take notice that on September 12, 1985, Freeport Pipeline Company (Freeport Pipeline), P.O. Box 61520, New Orleans, Louisiana 70161, filed in Docket No. CP85–882–000 an application pursuant to §284.127 of the Commission's Regulations for authorization to transport natural gas for Freeport Interstate Pipeline Company (Freeport Interstate), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Freeport Pipeline states that it has entered into a transportation agreement dated August 1, 1985, with Freeport Interstate, whereby Freeport Pipeline would transport up to 300 million Btu's of natural gas per day for Freeport Interstate. It is further stated that Freeport Interstate would cause the natural gas to be delivered to Freeport Pipeline at the interconnection of Freeport Pipeline's facilities with the facilities of another intrastate pipeline, Louisiana Intrastate Gas Corporation (LIG), which interconnection is located in Jefferson Parish, Louisiana. Freeport Pipeline would redeliver equivalent volumes to Freeport Interstate at the interconnection of Freeport Pipeline's and Freeport Interstate's facilities located at Grand Isle, Jefferson Parish, Louisiana.

Freeport Pipeline states that the transportation agreement between it and Freeport Interstate would become effective and binding upon receipt by the parties and acceptance of the required governmental approvals and would remain in force and effect until April 30, 1987; provided, however, that if the transportation contract between Freeport Sulphur Company (Freeport Sulphur) and Freeport Interstate dated August 1, 1985, should terminate prior to Apri 30, 1987, then the transportation agreement between Freeport Pipeline and Freeport Interstate would terminate contemporaneously therewith. It is explained that the aforesaid contract between Freeport Sulphur and Freeport Interstate is the subject of a related filing which is being made concurrently herewith by Freeport Interstate and provides for the transportation from Grand Isle, Louisiana, to Freeport Sulphur's offshore sulphur mine located in the federal domain at Grand Isle Block 17 in the Gulf of Mexico (Caminada Mine), through the facilities of Freeport Interstate, of the gas which Freeport Pipeline seeks authorization hereby to redeliver to Freeport Interstate at Grand Isle. Freeport Pipeline states that it has agreed to provide the transportation service, which is the subject of this application, free of charge to Freeport Interstate, and the trasnportation agreement between Freeport Pipeline and Freeport Interstate contains a statement that such agreement is subject to the provisions of Subpart C of Part 284 of the Commission's Regulations.

Comment date: November 8, 1985, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

2. Arkla Energy Resources, a Division of Arkla, Inc.

[Docket No. CP85–897–000]

October 22, 1985.

Take notice that on September 23, 1985, Arkla Energy Resources, a division of Arkla, Inc. (Arkla), P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP85–897–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a sales tap and related facilities to accommodate natural gas deliveries to six domestic customers and one small industrial customer, served by Arkansas Louisiana Gas Company, a division of Arkle, Inc. (ALGC), under the certificate issued in Docket Nos. CP82–384–000 and CP82–384–001 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

It is stated that the tap would be located on Arkla's Line BM–21 in Faulkner County, Arkansas, and would provide for an estimated total estimated volume of 61,600 Mcf. Arkla indicates that the gas would be delivered from its general system supply, which is adequate to provide the service. Arkla also states that gas sold would be billed at ALG's regular retail rates applicable to its presently effective Rate Schedule No. 1-Residential and Rate Schedule No. 3-Industrial. Cost to construct the tap is estimated to be $29,468.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this notice.

3. Freeport Interstate Pipeline Co.

[Docket No. CP85–874–000]

October 21, 1985.

Take notice that on September 12, 1985, Freeport Interstate Pipeline Company (Freeport Interstate), Post Office Box 61520, New Orleans, Louisiana 70161, filed in Docket No. CP85–874–000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Freeport Interstate to acquire and operate facilities for the transportation of natural gas for Freeport Sulphur Company (Freeport Sulphur), a Division of Freeport Minerals Company (Freeport Minerals), and authorizing the transportation of natural gas through such facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Freeport Interstate states that it seeks to acquire (at a cost which would not exceed $110,250.00), own and operate a pipeline presently owned by Freeport Minerals which is approximately 9 miles it length, running from onshore Grand Isle, Louisiana, to Freeport Sulphur's sulphur mine located in the Federal domain at Grand Isle Block 17 in the Gulf of Mexico (the Caminada Mine). Freeport Interstate further states that the pipeline was originally constructed to carry fresh water from the mainland to the Caminada Mine but has been converted to permit its use as a natural gas pipeline.

Freeport Interstate states that pursuant to a gas transportation agreement between Freeport Interstate and Freeport Sulphur dated August 1, 1985, Freeport Interstate would receive natural gas produced onshore Louisiana in the East Lake Sand Field, St. Mary Parish, Louisiana, from FMP Operating Company (FMP) and transport such gas to the Caminada Mine. It is further stated that the natural gas to be transported pursuant to such agreement would be purchased by Freeport Sulphur from FMP pursuant to a contract dated August 1, 1985, providing for a daily contract quantity not to exceed 300 million Btu of natural gas. Freeport Interstate indicates that the natural gas purchase contract between Freeport Sulphur and FMP would remain in force and effect until April 30, 1986, and month-to-month thereafter.

Freeport Interstate indicates that in order to transport to Caminada Mine the natural gas to be purchased by Freeport Sulphur from FMP, Freeport Sulphur has for such purposes entered into a transportation agreement with Freeport Interstate dated June 1, 1985, the performance of which necessitates that it enter into transportation agreements with two intrastate pipeline companies. Freeport Interstate further indicates that it has contracted with Louisiana Intrastate Gas Corporation (LIG) by agreement dated August 1, 1985, to transport up to 300 million Btu of natural gas on behalf of Freeport Interstate from the East Lake Sand Field in St. Mary Parish, Louisiana, to an interconnection point on the LIG system with the facilities of another intrastate pipeline, Freeport Pipeline Company (Freeport Pipeline), in Jefferson Parish, Louisiana. It is stated that by agreement dated August 1, 1985, Freeport Pipeline has agreed to transport the natural gas on Freeport Interstate's behalf from the LIG-Freeport Pipeline interconnection point in Jefferson Parish to Freeport Sulphur's Ground Isle base facility at Grand Isle, Jefferson Parish, Louisiana, where the Freeport Pipeline facilities would interconnect with Freeport Interstate's Caminada pipeline. Freeport Interstate would then transport the natural gas through the Caminada pipeline.

Freeport Interstate states that production operations at the Caminada Mine were indefinitely suspended in March 1969 as the result of the failure of a liquid sulphur line and a condition of oversupply in the sulphur market at that time. Freeport Interstate states that the mine has been maintained in a shutdown status since March 1969 but that Freeport Sulphur has recently initiated planning measures incident to a proposed resumption of sulphur production at Caminada Mine on or about December 1986. It is stated that Freeport Sulphur has found it necessary to enter into the above-mentioned short-term gas supply arrangement with FMP for its caretaker and pre-production sulphur well drilling requirements at Caminada Mine while negotiations proceed with various potential sources for an adequate long-term production supply.

Freeport Interstate states that the Caminada Mine has been without a gas supply since late July 1984 and asserts that unless operation of its gas turbine generator, air compressors, seawater pump system, and auxiliary equipment is resumed at the earliest possible time, substantial deterioration would occur which could result in replacement or repair costs ranging up to several millions of dollars. It is further asserted that if production at Caminada Mine is to be resumed by December 1986 it is imperative that sulphur well drilling commence by October 15, 1985.

Freeport Interstate also requests authorization to file the Freeport Interstate-Freeport Sulphur transportation agreement as a special rate schedule in lieu of a separate tariff and states that such agreement includes provision for a monthly charge to permit recovery by Freeport Interstate of the cost of acquiring the pipeline and reimbursement by Freeport Sulphur to Freeport Interstate of the 29.8¢ per million Btu transportation rate payable by Freeport Interstate to LIG under the Freeport Interstate-LIG transportation agreement. It is stated that Freeport Pipeline would transport the gas for Freeport Interstate without charge.

It is stated that Freeport Minerals would transfer the facilities as a contribution of capital to Freeport-McMoRan, Inc., which would in turn transfer the facilities to Freeport Interstate in exchange for all of Freeport Interstate's capital stock.

Comment date: November 8, 1985, in accordance with Standard Paragraph F at the end of this notice.

4. National Fuel Gas Supply Corp.

[Docket No. CP85–922–000]

October 23, 1985.

Take notice that on September 30, 1985, National Fuel Gas Supply Corporation (National), 10 Lafayette Square, Buffalo, New York 14203, filed in Docket No. CP85–922–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a sales tap and related facilities necessary to enable National to deliver gas to its affiliate, National Fuel Gas Distribution Corporation (Distribution), under the certificate issued in Docket No. CP83–4–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

National proposes to construct and operate a sales tap on its Line T–28 in Clarion County, Pennsylvania, to connect to Distribution's Clarion City plant line and deliver up to 140 Mcf of natural gas per day to Distribution.

National states that the tap would serve as a supplemental feed to customers during the winter months. National states further that the proposed deliveries would serve existing markets and would have no impact on its peak day and annual deliveries.

Comment date: December 9, 1985, in accordance with Standard Paragraph G at the end of this notice.

5. Northwest Central Pipeline Corp.

[Docket No. CP86–11–000]

October 22, 1985.

Take notice that on October 4, 1985, Northwest Central Pipeline Corporation (Applicant), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP86–11–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a new delivery point for the sale and delivery of natural gas to The Kansas Power and Light Company (KPL Gas Service) in Reno County, Kansas, under the certificate issued in Docket No. CP82–479–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a new delivery point to KPL Gas Service, an existing customer, for the sale of natural gas to a new subdivision in Reno County, Kansas. Applicant states that the projected volume of gas to be delivered through the proposed facilities would be 191 Mcf on a peak day in the first year of service, increasing to 1,466 Mcf per day in the fifth year. The estimated cost of the proposed facilities is $34,286, which would be paid from treasury cash, it is explained.

Applicant indicates that the proposed new delivery point is not prohibited by an existing tariff and that it has sufficient capacity to render this service without detriment or disadvantage to its other customers.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this notice.

6. Northwest Central Pipeline Corp.

[Docket No. CP85–906–000]

October 22, 1985.

Take notice that on September 24, 1985, Northwest Central Pipeline Corporation (Northwest Central) P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP85–906–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a new delivery point in Joplin, Missouri, for the sale and delivery of natural gas to the Kansas Power & Light Company (KPL) under the certificate issued in Docket No. CP82–479–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northwest Central proposes to tap its 20-inch pipeline in Newton County, Missouri, and construct and operate measuring, regulating, and appurtenant facilities to serve as an additional delivery point of natural gas to XPL for resale and distribution to its customers in and around Joplin, Missouri. Northwest Central states KPL has requested this additional point in order better to serve the area and to make a sale of gas to a waste water disposal plant. Northwest Central proposes to deliver 247 Mcf per year through these facilities with a maximum peak load of 5.4 Mcf per day the first year and increasing to 7,121 Mcf per year with a maximum peak load of 44 per day by the fifth year. The estimated cost of these facilities is $6,667, which Northwest Central proposes to pay from treasury cash.

Northwest Central states that this change is not prohibited by its tariff and it has sufficient capacity to accomplish the deliveries without detriment or disadvantge to its other customers. Northwest Central asserts the additional volumes to be provided through the proposed new point of delivery are within its currently authorized level of sales.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this noitice.

7. Southern Natural Gas Co.

[Docket No. CP86–15–000]

October 22, 1985.

Take notice that on October 7, 1985, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP86–15–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport gas for a shipper, acting as agent for a qualified end-user, under Southern's certificate issued in Docket No. CP82–406–000, all as is more fully set forth in the request which is on file with the Commission and open to public inspection.

Southern states that Owens-Illinois, Inc. (end-user) has entered into a gas sales contract with SNG Trading Inc. (Seller) dated August 1, 1985, to acquire natural gas. It is explained that in order to effectuate delivery of the gas purchased, end-user entered into an agreement with Atlanta Gas Light Company (shipper) dated August 1, 1985, wherein shipper agreed to transport through its facilities the gas purchased by end-user to its plants in Atlanta, Georgia, and to act as agent for end-user. Southern states that shipper has therefore, acting as agent for end-user, entered into a service agreement-industrial service transportation (agreement) with Southern dated August 1, 1985. Southern explains that the agreement provides that shipper would cause Seller to deliver up to 5.5 billion Btu of gas per day to Southern for end-user's account at

(a) The inlet of Southern's pipeline facilities located at the outlet of the Amoco treatment plant in the Lockhart Crossing field, Livingston Parish, Louisiana; and

(b) The inlet of Southern's measurement facilities located at mile post 0.00 on its Lockhart Crossing field pipeline in Livingston Parish, Louisiana.

It is stated that Southern would deliver the gas to United Gas Pipe Line Company (United) for shipper's account at the existing point of interconnection between the pipeline facilities of Southern and those of United located in the vicinity of Southern's Shadyside compressor station in St. Mary Parish, Louisiana. Southern states that United would redeliver the gas to Southern for shipper's account at the existing point of interconnection between Southern's Lockhart Crossing field pipeline and United's 30-inch Kosciusko line in Livingston Parish, Louisiana. It is stated that Southern would redeliver the gas to shipper for end-user's account on an interruptible basis at Southern's existing measurement station known as Benn Hill, Fulton County, Georgia. Shipper would then transport and redeliver the volumes to end-user at its plant in Macon, Georgia. It is stated that end-user would use the gas for essential agricultural use and other industrial, non-boiler fuel uses.

Southern states it would charge shipper according to its currently effective Rate Schedule T–IS which was approved by order of the Commission dated July 9, 1985, in Docket No. CP84–342–000 and that the transportation service commenced on August 1, 1985, pursuant to § 157.209 for a term of 120 days. Southern seeks authorization to transport natural gas for shipper, as agent for end-user, for a period ending the earlier of (i) July 31, 1986; (ii) termination of authorization as provided by Subpart F of Part 157 of the Commission's Regulations; or (iii) termination of the agreement by either party. Southern states that it would not construct any facilities to provide for this service.

Southern also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Southern will file a report

providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase these quantities.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this notice.

8. Transcontinental Gas Pipe Line Corp.

[Docket No. CP85–921–000]

October 22, 1985.

Take notice that on September 30, 1985, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed in Docket No. CP85–921–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Conoco Inc., as agent for E.I. duPont de Nemours & Company (duPont), under the certificate issued in Docket No. CP82–426–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Transco proposes to transport up to 3,600 dt equivalent of gas per day for use at duPont's Brevard, North Carolina, plant (Brevard plant) for a term expiring October 31, 1985. It is stated that the gas to be transported would be purchased from Brandywine Industrial Gas, Inc., and would be used for boiler fuel and in dow therm vaporizers.

It is indicated that Transco would receive the gas at the Conoco Acadia gas plant at Egan, Acadia Parish, Louisiana, and would redeliver, on an interruptible basis, equivalent quantities (less quantities retained for compressor fuel and line loss make-up) to existing points of delivery to Public Service Company of North Carolina (Public Service). In turn, Public Service would redeliver such gas to the Brevard plant.

Transco further states that it would charge duPont the currently applicable transportation rate in accordance with its Rate Schedule T–II, FERC Gas Tariff, Second Revised Volume No. 1, which is currently 42.01 cents per dt. Also, Transco states that it would require that duPont periodically provide Transco with affidavits which state that the subject transportation is not displacing sales which Transco would otherwise make under any of its firm sales rate schedules.

Transco also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply not to delivery points in the market area. Transco will file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this notice.

9. Transcontinental Gas Pipe Line Corp.

[Docket No. CP86–16–000]

October 22, 1985.

Take notice that on October 7, 1985, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP86–16–000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Owens-Corning Fiberglas Corporation (Owens-Corning) under the certificate issued in Docket No. CP82–426–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Transco proposes to transport up to 750 equivalent dt of natural gas per day for use at Owens-Corning's plant in Atlanta, Georgia (Trumble asphalt plant), for a term expiring October 31, 1985. It is stated that the natural gas to be transported would be purchased from Texas Southern Pipeline, Inc., and would be used as boiler fuel and in asphalt heaters. It is indicated that Transco would receive the gas at the existing points of receipt at Transco's meter numbers 2667 and 2778 in the North Sabine Lake field Cameron Parish, Louisiana, and would redeliver, on an interruptible basis, equivalent quantities (less quantities retained for compressor fuel and line loss make-up) to existing points of delivery with Atlanta Gas Light Company (Atlanta Gas Light). It is further indicated that Atlanta Gas Light would then redeliver such natural gas to the Trumble asphalt plant.

Transco states that it would charge Owens-Corning the applicable transportation rate in accordance with its Rate Schedule T–II, FERC Gas Tariff, Second Revised Volume No. 1, which is currently 40.31 cents per dt equivalent of gas. In addition, Transco states it would apply its current transportation policy to the proposed transportation which requires that Owens-Corning periodically provide Transco with affidavits which state that the transportation is not displacing sales which Transco would otherwise make under any of its firm sales rate schedules.

Transco also requests flexible authority to add or delete receipt/delivery points associated with sources of natural gas acquired by Owens-Corning. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Transco would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of natural gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: December 6, 1985, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion

believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

ENVIRONMENTAL PROTECTION AGENCY

[OW–FRL–2916–5]

National Drinking Water Advisory Council; Request for Nomination of Members

The Environmental Protection Agency (EPA) invites all interested persons to nominate qualified individuals to serve as members of the National Drinking Water Advisory Council. This Advisory Council was established to provide advice, consultation and recommendations to the Agency on the activities, functions and policies relating to the implementation of the Safe Drinking Water Act as amended, which became effective December 16, 1974. The Charter for this Advisory Committee is reproduced below.

Any interested person or organization may nominate qualified persons for membership. Nominees should be identified by name, occupation, position, address, and telephone number. Nominations should include a resume of the nominee's background, experience and qualifications.

This request for nominations does not imply any commitment by the Agency as to the procedure to be followed in making selections.

Persons selected for membership will receive per diem compensation for travel and nominal daily compensation while attending meetings.

Nominations should be submitted to Charlene E. Shaw, Program Coordinator, Office of Drinking Water (WH–550), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, no later than November 30, 1985. The Agency will not formally acknowledge or respond to nominations.

For Further Information Contact: Charlene Shaw at (202) 382–5533.

Dated: October 3, 1985.

Arnold M. Kuzmack,

Acting Director, Office of Drinking Water.

National Drinking Water Advisory Council

1. *Purpose.* This Charter is reissued for the National Drinking Water Advisory Council in accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. (App. I) 9(c).

2. *Authority.* The Council was created on December 16, 1974, under the Safe Drinking Water Act of 1974, Pub. L. 95–523, 42 U.S. 300j–5 and the charter was renewed on December 23, 1976, December 1, 1978, November 7, 1980 and November 29, 1982.

3. *Objective and scope of activity.* The Council advises, consults with, and makes recommendations on a continuing basis to the Administrator, through the Assistant Administrator for Water, on matters relating to activities, functions, and policies of the Agency under the Safe Drinking Water Act.

4. *Functions.* The Council provides practical and independent advice to the Agency on matters and policies relating to drinking water quality and hygiene, and maintains an awareness of developing issues and problems in the drinking water area. It reviews and advises the Administrator on regulations and guidelines that are required by the Safe Drinking Water Act; makes recommendations concerning necessary special studies and research; recommends policies with respect to the promulgation of drinking water standards; assists in identifying emerging environmental or health problems related to potentially hazardous constituents in drinking water; and proposes actions to encourage cooperation and communication between the Agency and other governmental agencies, interested groups, the general public, and technical associations and organizations on drinking water quality.

5. *Composition and meetings.* The Council consists of fifteen members including a Chairperson, appointed by the Deputy Administrator after consultation with the Secretary, Department of Health and Human Services. Five members shall be appointed from the general public; five members shall be appointed from appropriate State and local agencies concerned with water hygiene and public water supply; and five members shall be appointed from representatives of private organizations or groups demonstrating an active interest in the field of water hygiene and public water supply. Except as provided in Section 1446 of the Safe Drinking Water Act, each member of the Council will hold office for a term of three years and will be eligible for reappointment. The Council is authorized to form Subcommittees to consider specific matters and report back to the full Council. Such subcommittees shall consist of the members of the Council. Meetings will be held as necessary and convened by the Assistant Administrator for Water. A full-time salaried officer or employee of EPA will be designated as the Executive Secretary. Each meeting will be conducted in accordance with an agenda approved in advance of the meeting by the designated Agency official. The Executive Secretary will be present at all meetings and is authorized to adjourn any meeting whenever it is determined to be in the public interest. The estimated annual operating cost of the Council is approximately $60,000, which includes .75 work-year of staff support. The Office of Water will provide the necessary staff and support of the Council.

6. *Duration.* As provided in the Safe Drinking Water Act, "Section 14(a) of the Federal Advisory Committee Act (relating to termination) shall not apply to the Council." However, the Charter is subject to the renewal process upon the expiration of each successive two-year period following the date of enactment of the Act establishing this Council.

7. *Supersession.* The former National Drinking Water Advisory Council charter signed on November 29, 1982, is hereby superseded.

Approval Date: November 16, 1984.

Date Filed With Congress, December 7, 1984.

Alvin L. Alm,

Deputy Administrator.

[SAB-FRL-2916-6]

Science Advisory Board, Environmental Health Committee, Research Subcommittee, Open Meeting

Under Pub. L. 92–463, notice is hereby given that the Extrapolation Modeling Research Review Subcommittee of the Science Advisory Board will meet on November 19–20, 1985, in Class Room Number One, Environmental Research Center, U.S. EPA, Alexander Drive and Highway 54, Research Triangle Park, NC 27711. The purpose of the meeting will be to review research conducted by EPA's Office of Research and Development in support of extrapolation models. Prior to the meeting, for information on the research program and projects to be reviewed, please contact Dr. Frederick Miller by phone at (913) 541–2531 or by mail to: Health Effects Research Laboratory [MD–82], U.S. EPA, Research Triangle Park, NC 27711.

The meeting will be open to the public. It will begin at 9:00 a.m. on November 19, 1985, and adjourn no later than 1:30 p.m. on November 20, 1985. Any member of the public wishing to attend or to obtain further information, should contact either Dr. Daniel Byrd, Executive Secretary to the Subcommittee, or Mrs. Brenda Johnson, by telephone at (202) 382–2552 or by mail to: Science Advisory Board [A–101F], U.S. EPA, 401 M Street, SW., Washington, DC 20460, no later than c.o.b. November 15, 1985.

Dated: October 22, 1985.

Terry F. Yosie,

Staff Director, Science Advisory Board.

BILLING CODE 6560–50–M

EXPORT-IMPORT BANK OF THE UNITED STATES

Notice of Open Meeting of the Advisory Committee of the Export-Import Bank of the United States

SUMMARY: The Advisory Committee was established by Pub. L. 98–181, November 30, 1983, to advise the Export-Import Bank on its programs and to provide comments for inclusion in the reports of the Export-Import Bank to the United States Congress.

Time and place: Friday, November 13, 1985 from 9:30 a.m. to 12 noon. The meeting will be held in Room 1141, 811 Vermont Avenue, NW., Washington, DC 20571.

Agenda: The meeting agenda will include discussion of the financial report covering FY 1985, the status of the Eximbank budget, legislation involving the proposed tied-aid credit program, the development of comments by the Advisory Committee on small business ratios and key linkage industry activity which will be included in Eximbank's FY 1985 Annual Report, and Eximbank's programs and policies in general.

Public participation: The meeting will be open to public participation; and the last 20 minutes will be set aside for oral questions or comments. Members of the public may also file written statement(s) before or after the meeting. In order to permit the Export-Import Bank to arrange suitable accommodations, members of the public who plan to attend the meeting should notify Joan P. Harris, Room 935, 811 Vermont Avenue, NW., Washington, DC 20571, (202) 566–8871, not later than November 6, 1985.

FOR FURTHER INFORMATION CONTACT: Joan P. Harris, Room 935, 811 Vermont Avenue, NW., Washington, DC 20571, (202) 566–8871.

Hart Fessenden,

General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

Lancaster Radio Paging, Inc., et. al.; Hearing Designation Order

In re Applications of:

Lancaster Radio Paging, Inc.: For authorization to establish two-way facilities to operate on frequency 454.550 MHz in the Public Land Mobile Service at Cornwall, Pennsylvania.	CC Docket No. 85–314; File No. 21318–CD–P/L–85.
William R. Nesbit d/b/a Keystone Communications: For authorization to establish two-way facilities to operate on frequency 454.550 MHz in the Public Land Mobile Service at Northumberland and New Berlin, Pennsylvania.	File No. 22512–CD–P/L–3–85.
Richard F. Byler d/b/a Lebanon Mobilfone: For authorization to establish two-way facilities to operate on frequency 454.550 MHz in the Public Land Mobile Service at Lebanon, Pennsylvania.	File No. 22756–CD–P/L–1–85.
Professional Communications, Inc.: For authorization to establish two-way facilities to operate on frequency 454.550 MHz in the Public Land Mobile Service at Harrisburg, Pennsylvania.	File No. 22757–CD–P/L–A–85.

Order Setting Aside Previous Memorandum Opinion and Order and Designating Applications for Hearing

Adopted October 16, 1985.

Released October 23, 1985.

By the Common Carrier Bureau.

1. On December 28, 1984, Lancaster Radio Paging, Inc. (Lancaster) filed an application for authorization to establish an additional facility to operate on frequency 454.550 MHz at Cornwall, Pennsylvania. This application was accepted for filing on February 6, 1985, and subsequently William R. Nesbit d/b/a Keystone Communications (Keystone), Richard F. Blyler d/b/a Lebanon Mobilfone (Lebanon) and Professional Communications, Inc. (Professional) timely filed mutually exclusive applications. On August 23, 1985, the Commission announced that Keystone, Lebanon, and Professional would be selected by a lottery and Lancaster was added by a public notice issued September 11, 1985. Lancaster filed a Petition for Designation of Hearing on September 23, 1985. Lebanon subsequently filed an Opposition and Motion to Strike the public need statement.

2. *Order Set Aside.* On September 27, 1985, the Mobile Services Division issued a *Memorandum Opinion and Order* denying Lancaster's Petition for Designation of Hearing as untimely filed. On October 4, 1985, Lancaster filed a Petition for Reconsideration of this decision. Lancaster argues that its request for a designation of hearing was timely filed and should have been evaluated on its merits. We agree. Lancaster's petition was, in fact, filed within the 30-day period prescribed by § 22.33 because it was first listed as a mutually exclusive application on our September 11, 1985, *Addendum to Public Mobile Service Lottery Notice.* Further, the petition justified the request for hearing by showing a co-channel station within 40 miles and providing an adequate public need statement, *Random Selection Lotteries,* Gen. Docket No. 81–768, 93 FCC 2d 952 (1983), *recon. granted in part,* FCC 84–596, released December 4, 1984. We reject Lebanon's Motion to Strike Lancaster's showing of public need. This showing was specifically required by § 22.33(c) of the Commission's rules to support its request for a comparative hearing. It was not merely added to satisfy the traffic load study requirements of § 22.516. Accordingly, the Lancaster's Petition for Designation of Hearing was improperly denied, and the denial will be set aside.

3. *Petition to Deny.* On March 8, 1985, Lebanon filed a Petition to Dismiss or Deny Lancaster's application. Lebanon contends that Lancaster's application is defective because it does not include a traffic load study of its existing facility as required by § 22.516(a)(2) of the Commission's rules. In support of its contention, Lebanon includes an engineering statement that demonstrates that the reliable service area contour of the proposed facility will overlap by more than 50% of the reliable service area contours of the existing facilities. Lancaster's opposition asserts that Lebanon has misinterpreted § 22.16(b)(2) of the Commission's rules and that it was not necessary to incorporate a traffic load study. Lancaster submits an engineering statement in support of its argument to the effect that only 40.7% of its proposed coverage area overlaps its existing coverage area. Lancaster also argues that its application seeks to provide service to a major market area, Lancaster, not included within its existing contour. Finally, Lancaster asks the Commission to decide if Lebanon should be sanctioned because its petition was filed to delay, impede, or otherwise obstruct the proceeding of its application. We find no merit to this contention.

4. Section 22.16(b)(2) of the Commission's rules provides that "Applications are considered to be requesting initial channels if less than 50% of the proposed reliable service area contour overlaps an existing contour." An examination of Lancaster's application indicated that its proposal is in compliance with this provision. Though more than 50% of the existing service area is overlapped by the proposed area, less than 50% of the proposed new area overlaps the existing service area.

5. *Designation Order.* After careful examination of the applications and the pleadings, we find the applications filed by Lancaster, Keystone, Lebanon, and Professional were timely filed and that all of the applicants are legally, technically, and otherwise qualified to construct and operate the proposed facilities. Further, we find that these applications are electrically mutually exclusive and should be designated for comparative hearing to determine which applicant would better serve the public interest.

6. Accordingly, it is ordered, pursuant to § 1.113 of the Commission's rules, That the Bureau's denial of the Petition for Designation of Hearing filed by Lancaster Radio Paging, Inc. IS SET ASIDE.

7. Further, it is ordered, That the Petition to Deny and Motion to Strike filed by Richard F. Blyer d/b/a Lebanon Mobilfone ARE DENIED.

8. Further, it is ordered, that the applications of Lancaster Radio Paging, Inc. (File No. 21318–CD–P/L–1–85), William R. Nesbit d/b/a Keystone Communications (File No. 22512–CD–P/L–3–85), Richard F. Blyer d/b/a Lebanon Mobilfone (File No. 22756–CD–P/L–1–85), and Professional Communications (File No. 22757–CD–P/L–2–85) to operate on frequency 454.550 MHz ARE DESIGNATED FOR HEARING IN A CONSOLIDATED PROCEEDING pursuant to section 309(e) of the Communications Act of 1934, as amended, upon the following issues:

(a) To determine on a comparative basis, the nature and extent of service proposed by each applicant, including the rates, charges, maintenance, personnel, practices, classifications, regulations, and facilities pertaining thereto;

(b) To determine on a comparative basis, the areas and populations that each applicant will serve within the prospective interference-free ara within the 39 dBu contours,[1] based upon the standards set forth in § 22.504(a) of the Commission's Rules,[2] and to determine and compare the relative demand for the proposed services in said areas; and

(c) To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the reference applications would best serve the public interest convenience, and necessity.

9. It is further ordered, that the hearing shall be held at a time and place and before an Administrative Law Judge to be specified in a subsequent Order.

10. It is further ordered, that the Chief, Common Carrier Bureau, is made a party to the proceeding.

11. It is further ordered, that the applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221 of the rules within 20 days of the release date hereof, a written notice stating an intention to appear on that date for a hearing and present evidence in the issues specified in the Memorandum Opinion and Order.

12. This order is issued under § 0.291 of the Commission's Rules and is effective upon its release date. Petitions for reconsideration will not be entertained. See § 1.106(a)(1) of the rules.

Applications for review will be entertained pursuant to § 1.115(e)(3). See also § 1.4(b)(2).

13. The Secretary shall cause a copy of this order to be published in the Federal Register.

Michael Deuel Sullivan,

Chief, Mobile Services Division, Common Carrier Bureau.

[FR Doc. 85–25680 Filed 10–28–85; 8:45 am]

BILLING CODE 6712–01–M

[1] For the purpose of this proceeding, the interference-free area is defined as the area within the 39 dBu contour as calculated from § 22.504, in which the ratio of desired-to-undesired signal is equal to or greater than R in FCC Report No. R–6404, equation 8.

[2] Section 22.504(a) of the Commission's Rules and Regulations describes a field strength contour of 39 decibels above one microvolt per meter as the limits of the reliable service area for base stations engaged in two-way communications service on frequencies in the 450 MHz band. Propagation data set forth in § 22.504(b) are the proper bases for establishing the location of service contours F(50,50) for the facilities involved in this proceeding. (The applicants should consult with the Bureau counsel with the goal of reaching joint technical exhibits.)

Mobilfone Communications et al; Hearing Designation Order

In re Applications of:

Otis L. Hale d/b/a/ Mobilfone Communications:	
For renewal of license of Station KLB500 authorized to operate on frequencies 152.03, 152.09, 152.18, and 152.21 MHz in the Public Land Mobile Service at Little Rock, Arkansas.	CC Docket No. 82–15; File No. 23697–CD–R–79.
For renewal of license of Station KQZ752 authorized to operate on frequencies 152.24 and 158.70 MHz in the Public Land Mobile Service at Little Rock, Arkansas.	CC Docket NO. 82–16; File No. 23700–CD–R–79.
For consent to assignment of licenses for Public Land Mobile Services Stations KLB500, KQZ752, KXX720, KUD228, KFL633, KUC892, KFL870, KUC893, KFJ890, KFT281 and KSV910, in the State of Arkansas.	File Nos. 21689–CD–AL–1–85, 21690–CD–AL–2–85, 21691–CD–AL–2–85, 21692–CD–AL–2–85, 21693–CD–AL–1–85, 21694–CD–AL–1–85.
For a construction permit for new facilities to operate in the Public Land Mobile Service at West Memphis, Arkansas.	File no. 8942–CD–P–(2)–73.
For a construction permit for a new facility to operate on frequency 152.24 MHz in the Public Land Mobile Service at Russellville, Arkansas.	File No. 22650–CD–P–76.

Order To Show Cause and Memorandum Opinion and Order Designating Applications for Hearing

Adopted October 17, 1985.
Released October 23, 1985.
By the Commission.

1. Before the Commission is a complex parcel of applications and pleadings that have been consolidated here for consideration because they touch upon the common issue of the qualifications of Otis L. Hale d/b/a/Mobilfone Communications (Mobilfone) to remain a Commission licensee. Our disposition of the various applications and pleadings in this proceeding represents the next step towards a final resolution of the question of Mobilfone's basic character qualifications initially raised in *Little Rock Radio Telephone Company, Inc . (Designation Order)*, 89 FCC 2d 400 (1982), *recon. denied sub nom,. Otis L. Hale d/b/l-Mobilfone Communications (Designation Order Reconsideration)*, FCC 83–317, released July 7, 1983.[1] Presently before us are the following: (1) Mobilfone's renewal applications for Station KQZ752 and the VHF facilities of Station KLB500 in Little Rock, Arkansas; (2) three applications for review of actions taken by the Common Carrier Bureau pursuant to delegated authority filed by Little Rock Telephone Company, Inc. (LRRTC) and El Dorado Mobile Telephone Company, Inc. (EDMT); [2] (3) Mobilfone's applications for assignment of all its remaining licenses to Dial-A-Page of Little Rock Inc. (DAP); and (4) two pending Mobilfone construction permit applications. After a review of all of the various pleadings that have been filed in these proceedings, we have determined that the three applications for review must be denied. However, as a result of our findings in *Otis L. Hale* that Mobilfone has engaged in serious misconduct, Mobilfone's renewal applications will be designated for hearing. In addition, Mobilfone will be ordered to show cause why its remaining licenses should not be revoked. Finally, Mobilfone's assignment and construction permit applications will also be designated for hearing to consider, if necessary, the effect of the subsequent findings regarding the renewal and revocation issues upon the transferability of Mobilfone's present licenses and upon Mobilfone's qualifications to receive additional construction permits. These renewal, revocation, assignment and construction permit proceedings will be consolidated in a single hearing.

I. Background

2. Mobilfone is currently the licensee of two-way mobile and paging facilities in various communities in Arkansas and is a sole proprietorship owned by Otis L. Hale. Mobilfone began operations at Station KLB500 in Little Rock, Arkansas with two VHF channels in 1966 and added two additional VHF channels in 1970 and 1973. In 1975, Mobilfone's application for four additional UHF channels was routinely granted, and in 1976 a license to cover was issued.

3. Shortly before the grant of the covering license for the additional UHF channels, Mobilfone filed an application for a fifth VHF frequency for Station KLB500. In the application, Mobilfone requested a waiver of the traffic load study requirement for Station KLB500's UHF channels, but represented that the study would be submitted at the Commission's request. In 1977, the Common Carrier Bureau, acting pursuant to delegated authority, denied Mobilfone's waiver request and directed that the traffic load study be submitted. Mobilfone responded that the study would not be forthcoming and requested dismissal of its application. In explanation of its inability to supply the promised study, Mobilfone disclosed that commercial service had never been offered on any of the UHF channels and would not be until the service area was enlarged. Shortly after this admisison, Mobilfone notified the Commission of the temporary discontinuance of operation of two of the four UHF channels. An inspection of the Station KLB500 facilities by a Field Operations Bureau (FOB) engineer, contemporaneous with Mobilfone's notification, disclosed that only two UHF frequencies were physically present, and that even these were not connected to the necessary control circuitry.

4. Early in 1977, while Mobilefone's VHF application and waiver request were still pending, EDMT filed an informal petition to institute an investigation into Mobilfone's operation of its DPLMRS facilities in Arkansas. The petition alleged that Mobilfone mispresented material facts to the Commission on numerous occasions as well as numerous violations of Commission rules in the operation of its facilities. EDMT requested the Commission to issue an order to show cause why Mobilfone's licenses should not be revoked.

5. In 1979, Mobilfone filed renewal applications respecting its Stations KLB500 and KQZ752. LRRTC and Grant County Radio Telephone (Grant), both subsidiaries of MMT, filed applications for new facilities that were mutually exclusive with Mobilfone's renewal applications. In February of 1982, the Commission designated the mutually exclusive applications for a comparative hearing (hereinafter "renewal hearing") and designated an issue to examine whether Mobilfone lacked candor in connection with the operational status of the Station KLB500 UHF channels when it filed its application for the additional VHF channel.[3]

6. In designating Mobilfone's renewal applications, the Commission undertook a *Grayson* inquiry,[4] concluding that Mobilfone should be permitted to sell its "uninvolved" stations without restriction and that the Bureau should routinely process Mobilfone's other nondesignated renewal applications without any special conditions.[5] The *Designation Order* reserved the Commission's discretion to impose restrictions on Mobilfone's right to transfer or take action against Mobilfone's nondesignated licenses should the renewal hearing record ultimately disclose that the misconduct was more serious than initially believed. *Designation Order, supra,* at 410. LRRTC

[1] The hearing record in that proceeding established that Otis L. Hale, the sole proprietor of Mobilfone Communications, had engaged in a course of misconduct, including lack of candor and misrepresentation before the Commission. *Otis L. Hale d/b/a/ Mobilfone Communications (Initial Decision)*, 95 FCC 2d 682 (1983), *modified on other grounds*, 95 FCC 2d 668 (1983), *aff'd*, FCC 84–610, released December 7, 1984, appeal pending, *Otis L. Hale d/b/a Mobilfone Communications* v. *FCC*, No. 85–1005 (D.C. Cir. filed January 4, 1985). Except where specific references are required, the entire proceeding will hereafter be cited as *Otis L. Hale*.

[2] LRRTC is a wholly owned subsidiary of EDMT. Memphis Mobile Telephone, Inc. (MMT) holds a 40% interest in EDMT and appears to exercise de facto control over both EDMT and LRRTC. *SCC Designation Order, supra*, at 402 n. 1.

[3] *Designation Order, supra,* at 412. LRRTC and Grant dismissed their applications after designation, leaving only the issue relating to Mobilfone's character qualifications pending. The Administrative Law Judge (ALJ) subsequently enlarged the scope of the hearing to address the issue of whether Mobilfone misrepresented facts concerning the construction and operational status of the four UHG channels.

[4] In *Grayson Enterprises, Inc.*, 79 FCC 2d 936 (1981) (Grayson), the Commission recognized that deferral of all action on all broadcast licenses held by a multiple licensee pending a final resolution of character issues raised by alleged miconduct may operate to the detriment of the public interest. *Id.* at 939. The Commission adopted a procedure whereby at the time of designating a basic character issue in connection with one or more of a multiple licensee's broadcast licenses or applications, the Commission would make a preliminary determination as to the impact of the alleged misconduct on the transferability of the licensee's other licenses. In the *Designation Order, supra,* at 410, the Commission found that the same rationale that led to the adoption of the *Grayson* doctrine for broadcast licensees was applicable to DPLMRS proceedings.

[5] As a consequence of this decision, by letter decision of March 10, 1982, 61500–SAW, the Bureau granted the application for assignment of a number of licenses from Mobilfone to Dial-A-Page, Inc. By Public Notice, Mimeo No. 2776, released March 17, 1982, the Bureau also unconditionally granted Mobilfone's renewal applications covering a number of its "uninvolved" facilities. LRTTC and EDMT filed applications for review of each of these Bureau actions.

and EDMT subsequently filed a petition for reconsideration of that reconsideration of that portion of the *Designation Order* authorizing Mobilfone to transfer without restriction its "uninvolved" stations. The petitioners also requested that the scope of the inquiry into Mobilfone's character qualifications be expanded and that the subject matter of EDMT's informal petition to institute and investigation be consolidated with the renewal hearing.

7. On March 2, 1982, the Bureau dismissed EDMT's informal petition to institute an investigation.[6] The Bureau concluded after review and consideration of EDMT's allegations that while inspection of the stations cited by EDMT disclosed minor technical violations of the Commission's rules, these violations were not of a magnitude sufficient to warrant the institution of a revocation proceeding. The Bureau further concluded that the allegations that Mobilfone had engaged in intentional misrepresentation in its submissions to the Commission were unsupported.

8. On March 23, 1983, the ALJ released his *Initial Decision* in which he concluded that Mobilfone lacked the requisite character to remain a Commission licensee.[7] The ALJ found that Mobilfone had deliberately and continuously lied to the Commission concerning the operational status of the KLB500 UHF channels, lacked candor, mislabelled transmitters in an effort to deceive the Commission; solicited false testimony, and tampered with a Commission witness in an effort to cover up its past misrepresentations. *Initial Decision, supra* note 1, at 696–97. The ALJ denied the renewal applications for Station KQZ752 and Station KLB500, including the VHF facilities as well as the UHF frequencies that were the subject of Mobilfone's misconduct.

9. Shortly after the release of the *Initial Decision,* the Commission denied the petition for reconsideration of the *Designation Order* filed by LRRTC and EDMT. *Designation Order Reconsideration, supra.* The Commission stated that it fully considered the violations at Mobilfone's "uninvolved" stations alleged in EDMT's informal petition to institute an investigation, and had concluded that such alleged violations were insignificant and did not warrant expanding the scope of the inquiry into Mobilfone's qualifications or imposing restrictions on the transfer of Mobilfone's "uninvolved" stations. *Id.,* at para. 3.

10. In November of 1983, the Review Board released its decision in the proceeding, affirming virtually all of the ALJ's findings with respect to Mobilfone's egregious misconduct while modifying only the ALJ's finding concerning the anticompetitive motive behind Mobilfone's warehousing of frequencies.[8] The Review Board further modified the *Initial Decision* by returning the renewal applications for Station KQZ752 and the VHF channels of Station KLB500 to the Bureau to consider the effect of the findings of misconduct in connection with the UHF frequencies on Mobilfone's qualifications to operate those facilities. *Review Board Decision, supra* note 8, at 680–681. We affirmed the decision of the Review Board and ordered the Bureau to consider the proper disposition of Mobilfone's renewal applications and the pending applications for review filed by LRTTC and EDMT.[9]

11. In January of 1985, Mobilfone filed the captioned applications for assignment of all of its remaining station licenses, including the licenses covering Station KQZ752 and the VHF portion of Station KLB500, to DAP. Twin City Beepers of Little Rock, Inc. (Twin City) filed a petition seeking denial of the proposed assignment, and responsive pleadings were filed.

II. Applications for Review

12. The application for review filed by EDMT addresses the Bureau's dismissal of EDMT's informal petition to institute an investigation and a proceeding to revoke Mobilfone's licenses. EDMT argues that the Bureau's findings concerning its allegations of Mobilfone's misrepresentations and rule violations in connection with the operation of its "uninvolved" stations are factually erroneous. EDMT further contends that the Commission committed procedural error by: (1) Failing to expand the scope of the renewal hearing to include the issues raised in its petition concerning Mobilfone's "uninvolved" stations; and (2) disposing of its allegations of misrepresentations by Mobilfone on the basis of *ex parte* communications with Field Operations Bureau (FOB) personnel rather than resolving the allegations in an oral hearing.[10]

13. EDMT's pleading does not attack the soundness of the findings of fact themselves,[11] but rather challenges the Bureau's conclusion that Mobilfone's violations were minor and did not warrant the imposition of further sanctions. However, "an agency's decision not to prosecute or enforce, whether through civil or criminal process, is a decision generally committed to an agency's absolute discretion." *Heckler* v. *Chaney,* 105 S. Ct. 1649, 1656 (1985). We believe that the Bureau's conclusion not to initiate enforcement action against Mobilfone was within its broad discretionary authority concerning enforcement decisions. Accordingly, we reject EDMT's contention that the Bureau's dismissal of EDMT's informal petition was based upon an erroneous factual finding.

14. EDMT's claim of prejudicial procedural error is similarly lacking in merit. The Commission fully considered the allegations raised in EDMT's petition at the time of the *Designation Order,* and concluded that the matters raised by the petition could be more efficiently and expeditiously resolved in a separate proceeding.[12] EDMT has failed to demonstrate the error of that conclusion. *See Designation Order Reconsideration, supra,* at para. 2. Moreover, direct communications with FOB personnel carrying out an investigation of station facilities do not fall within the scope of the prohibitions on *ex parte* communications. *See* 47 CFR section 1.1205; *Redwood Microwave*

[6] *Memorandum Opinion and Order,* Mimeo No. 2508, released March 2, 1982.

[7] *Initial Decision, supra* note 1.

[8] *Otis L. Hale d/b/a Mobilfone Communications,* 95 FCC 2d 668 (1983) (*Review Board Decision*).

[9] *Otis L. Hale d/b/a/ Mobilfone Communications,* FCC 84–610, released December 7, 1984 (*Final Decision*), *appeal pending, Otis L. Hale d/b/a Mobilfone Communications v. F.C.C.,* No. 85–1005 (D.C. Cir. filed January 4, 1985). We also ordered the Bureau to consider two other proceedings involving Mobilfone applications, an application for a new station in the Multipoint Distribution Service (MDS) at Little Rock, Arkansas, CC Docket No. 82–80, File No. 3982–CM–P–73, and a construction permit application for a DPLMRS station in West Memphis, Arkansas, File No. 8942–CZ–(2)–73, to accommodate a consolidation of all pending proceedings involving Mobilfone. *Id.,* at page 2, note 3.

[10] EDMT also alleges that the Commission failed to consider the allegations of wrongdoing raised in Russellville Radio Telephone Company, Inc. v. Otis L. Hale d/b/a Mobilfone Communications, File TS 11–76. The Bureau determined that the complaint in that proceeding did not warrant a hearing and dismissed the complaint. *Russellville Radio Telephone Company, Inc. v. Otis L. Hale d/b/a Mobilfone Communications,* Mimeo No. 2661, released March 10, 1982. (Russellville Complaint) Thus, the involved allegations have been considered and rejected.

[11] Indeed, EDMT's pleading places substantial reliance on the record of the FOB investigation of Mobilfone's facilities that formed the basis of the Bureau's decision. With respect to the misrepresentation issue, EDMT acknowledges that no disagreement exists with regard to whether misstatements of fact were made to the Commission, and challenges only the Bureau's conclusion regarding the adequacy of the justification proffered in mitigation.

[12] The issues raised by EDMT were resolved in the Bureau's dismissal of EDMT's informal petition. *See* paragraph 7, *supra.*

Assn., Inc., 61 FCC 2d 442, 446–48 (1976). Based on the record compiled in the FOB investigation, the Bureau concluded that while minor technical rule violations had occurred at various Mobilfone facilities, no outstanding substantial and material issues of fact required designation for hearing. EDMT has presented no evidence or persuasive argument that requires us to alter that determination. EDMT's application for review will be denied.

15. The applications for review of the Bureau's actions with respect to the renewal and assignment of Mobilfone's other "uninvolved" stations merely reiterate arguments raised in earlier pleadings [13] which were fully considered and denied in our *Designation Order Reconsideration, supra*, at para. 3. The applications for review will, therefore, be denied without further discussion.

III. Further Sanctions Against Mobilfone

A. Effect of the Designation Order

16. Our denial of the applications for review filed by LRRTC and EDMT does not, however, insulate Mobilfone's remaining licenses from further scrutiny or sanctions. In the *Designation Order*, we applied the *Grayson* doctrine and concluded as a preliminary matter that the allegations against Mobilfone did not pose a substantial likelihood that Mobilfone's ability to operate its "uninvolved" stations would be adversely affected. *Designation Order, supra*, at 410. At the same time, we expressly reserved the discretion to revisit this preliminary determination and to take action against Mobilfone's other licenses should the record ultimately disclose misconduct more serious than initially believed.[14] *Id.* In light of the decision in *Otis L. Hale* that Mobilfone does not possess the necessary qualifications to be a Commission licensee of the UHF facilities of Station KLB500, we have decided to revisit this matter.[15]

17. Twin City argues [16] that the final record in *Otis L. Hale* discloses a pattern of misconduct far more serious than could have been reasonably believed by the Commission at the time of designation. Twin City asserts that the focus of the original inquiry was simply to determine whether Mobilfone lacked candor with respect to its need for an additional VHF frequency. Twin City contends that the record disclosed an extensive pattern of misrepresentation which compelled the ALJ to expand the scope of the issues to include a misrepresentation issue. Twin City asserts that a comparison of the original focus of the inquiry with the final findings and conclusions concerning Mobilfone's lack of candor and extensive misrepresentation in connection with the operational status of the KLB500 UHF facilities compels a conclusion that the misconduct disclosed by the record is far more serious than the Commission initially believed at the time of designation. In response, Mobilfone argues that the *Final Decision* found that the misconduct pertained only to the UHF channels and expressly limited Mobilfone's disqualification to those facilities.

18. Our inquiry into whether the final record discloses misconduct more serious than initially anticipated by the *Designation Order* requires a comparison of the facts known to the Commission at the time of designation with the facts as ultimately disclosed by the record. The required comparison discloses the following.

19. The inspection of Station KLB500 undertaken by FOB personnel following Mobilfone's refusal to submit the traffic load study of its KLB500 UHF channels disclosed two salient facts:

(i) Only two of the four UHF transmitters were physically present; and

(ii) The two physically present transmitters were not connected to telephone control lines.

In response to a staff inquiry for further information, Mobilfone represented that one transmitter had been removed due to a burnt out power supply and the other was removed due to interference problems. Mobilfone further represented that the control lines were only connected to the UHF transmitters for equipment tests. From these facts and Mobilfone's representations, the Commission staff reasonably drew two inferences:

(i) Mobilfone had never put its four UHF channels into public service; and

(ii) Mobilfone had constructed its UHF facilities as represented in its Form 403, but had subsequently dismantled the facilities.

See Designation Order, supra, at 408.

20. In the application for a license to cover the four KLB500 UHF facilities filed in 1976, Mobilfone made a host of representations material to the Commission's consideration of the application. Mobilfone represented the following facts to the Commission:

(i) The construction of the four UHF facilities was completed on April 12, 1976;

(ii) Four Motorola type-accepted CC4061 transmitters had been acquired and installed;

(iii) The UHF facilities were now ready for operation;

(iv) The facilities were ready for public correspondence on an unlimited time basis; and

(v) Mobilfone was holding approximately ninety five orders for service.

Initial Decision, supra note 1, at 685; *Review Board Decision, supra* note 8, at 670–71. The final hearing record establishes that each of these material representations was false. *Initial Decision, Id.*; *Review Board Decision, supra* note 8, at 676. Mobilfone had not even begun, much less completed, construction of the UHF base stations by April 12, 1976. *Id.* at 685, 696, 677. Mobilfone did not at any point acquire or install Motorola type-accepted CC4061 transmitters, and did not even have available any type-accepted UHF transmitters capable of 90 watts output power. *Id.* at 685, 696. Mobilfone knew at the time of its filing that the transmitters could not provide a good grade of service and that the facilities were therefore not ready for service. *Id.* at 678. The UHF channels were not to any degree open for public correspondence at the time the application was filed and no public correspondence was transmitted over

---

[13] The petition for Reconsideration of the *Designation Order* filed by EDMT and LRRTC argued that the Commission should not have permitted Mobilfone's "uninvolved" stations to be assigned because of the violations alleged in EDMT's informal petition and the Russellville complaint.

[14] In *James S. Rivers*, 48 FR 8585, March 1, 1983, we modified the *Grayson* doctrine to provide that the Commission should definitely determine the status of commonly-owned stations at the time of designation. "If the charges are serious enough to possibly affect the transferability of a multiple owner's other stations", then the applications of all commonly-owned stations will be designated for a consolidated hearing. The Commission noted that "by designating all the stations, we afford licensees faced with qualifications questions a better opportunity to defend themselves at the earliest practicable date." *James S. Rivers* specifically overruled *Grayson* only to the extent that "[h]enceforth, unless the Commission specifically designates such licenses for hearing, they will be freely transferable without condition." *Id.*, at 8586. *James S. Rivers* did not modify the Commission's retention of discretion to take action against the licensee's other stations if the misconduct is more serious than initially believed.

[15] While the pending renewal applications for Station KQZ752 and the VHF channels of Station KLB500 were designated for hearing and thus not within the scope of the original *Grayson* determination, the findings of misrepresentation and lack of candor pertained only to the operational status of the UHF facilities, and our decision to return these applications to the Bureau for further consideration reflected our conclusion that the relationship of these facilities to *Mobilfone's* misconduct was analogous to that held by the other nondesignated stations. *See Final Decision, supra* note 9, at para. 2.

[16] Twin City petition to Deny Mobilfone's 1985 assignment applications, at pp. 5–9.

any UHF channel until after release of the *Designation Order. Id.* at 686, 696. Mobilfone's offer to submit a UHF traffic load study on request in connection with its application for an additional VHF channel deliberately created the impression that the UHF channels were in public service, thereby continuing Mobilfone's course of deceit. *Id.* at 674–75, 697. The misrepresentations in the covering application fixed Mobilfone upon a course of deliberate and systematic misrepresentation: Mobilfone continued to misrepresent the operational status of the UHF facilities in its Form L submissions. *Id.* at 679, 689. Even the threat of close Commission scrutiny was not sufficent to dissuade Mobilfone from its course: the unauthorized transmitters that were installed were mislabelled in an effort to deceive the FOB inspector. *Id.* at 677, 696. Even after designation, Mobilfone persisted in its course of blatant misconduct, attempting to thwart the disclosure of its past misconduct by soliciting false testimony from witnesses and attempting to tamper with a Commission witness. *Id.* at 697.

21. Based on the above, we conclude that the record in *Otis L. Hale* discloses a persistent and deliberate pattern of misrepresentation and an utter disregard for Commission rules that far exceeds the scope of misconduct that could have been reasonably anticipated at the time of the *Designation Order.* This conclusion is based upon our review of the record and is confirmed by Mobilfone's own admission that the findings of misconduct made in the proceeding were more serious than initially believed.[17] Accordingly, we conclude that the *Designation Order* cannot be construed as barring further action against Mobilfone's remaining licenses, and we will proceed to examine the effect of the misconduct established in *Otis L. Hale* on Mobilfone's qualifications to hold a Commission license.

B. Mobilfone's Qualifications to be a Commission Licensee

22. Twin City argues[18] that Mobilfone's misconduct is indistingushable from that established in *Pass Word, Inc.*, 76 FCC 2d 465 (1980, *recon.* 86 FCC 2d 437 (1981) (*Pass Word*), *aff'd sub nom. Pass Word, Inc.* v. *FCC*, 673 F. 2d 1363 (D.C. Cir. 1982), where we concluded that a licensee's persistent course of deliberate misrepresentation concerning the operational status of proposed facilities adversely reflected on its basic qualifications and required the revocation of all its licenses, even those bearing no direct connection to the subject matter of the misrepresentations. In support of its assignment applications, Mobilfone asserts that the loss of the KLB500 UHF channels represents a sanction of sufficient magnitude to effectively deter other licensees from engaging in similar misconduct. Mobilfone further contends that in light of the recent grant of a Private Land Mobile Radio Service authorization to Pass Word, Inc.,[19] its misconduct in connection with the KLB500 UHF channels should not result in its disqualification to hold license not implicated in the misconduct.[20]

23. The inquiry into whether a multiple licensee's misconduct in connection with one station disqualifies it with respect to licenses not directly implicated in the misconduct turns upon the question of whether there is a substantial likelihood that the particular misconduct will adversely affect the operation of the other stations. *See, e.g., Grayson, supra* note 4, at 940. Our present inquiry thus requires a determination of whether the egregious nature of the misconduct established in *Otis L. Hale* raises a substantial likelihood that the same or similar misconcuct may occur in connection with Mobilfone's other stations, *i.e.*, whether the Commission can rely on the truthfulness of Mobilfone's representations made in connection with the operation of mobilfone's other facilities. *See Faulkner Radio, Inc.*, 88 FCC 2d 612, 615–16 (1981) (*Faulkner II*). The Commission has previously found that misconduct reflecting a pervasive inability or unwillingness to meet the basic responsibilities of a licensee disqualified a licensee to hold even those licenses that were not directly implicated in the wrongdoing. *Id.*

24. The Commission has consistently viewed the effect of misrepresentation to the Commission on a licensee's qualifications with particular gravity. The integrity of our regulatory scheme depends upon the integrity and representations of Commission licensees. *Pass Word, supra*, at 449. The Commission has recognized that where a multiple licensee has engaged in a pattern of deliberate misrepresentation, a substantial and material question of its qualifications to hold its other licenses is raised. *Booth American Co.*, 78 FCC 2d 388, 390 (1980); *Faulkner Radio*, 61 FCC 2d 23, 24 (*Faulkner I*); *Faulkner II, supra*, at 617. The Commission has recognized that revocation of all of a multiple licensee's remaining authorizations, both involved and uninvolved, may be the appropriate remedy where the licensee has engaged in a pattern of deliberate misrepresentation. *Pass Word, supra*, at 441.

25. Disqualification to hold one license does not, however, automatically or invaribaly disqualify a multiple licensee from holding other licenses. The effect of a prior disqualification on a multiple licensee's remaining licenses is to be determined in light of all of the relevant considerations. *Rocket Radio, Inc.*, 86 FCC 2d 655, 656 (1981). In asessing the effect of such misconduct on a licensee's basic qualifications, the Commission will consider and weigh a broad range of factors including the following:

(i) The nature and the extent of the misconduct;

(ii) Whether the misconduct was isolated or recurring;

(iii) Whether the conduct was deliberate or inadvertent;

(iv) Whether the misconduct is recent or remote in time;

(v) The Attribution of personal responsibility within the organizational structure of the licensee;

(vi) Whether prompt corrective action was taken;

(vii) The performance at each of the uninvolved stations; and

(vii) The likely deterrent effect of losing the involved station.

See Faulkner II, supra, at 616.

26. The serious and pervasive misconduct disclosed by the record in *Otis L. Hale* suggests an unwillingness to meet the basic responsibilities of a Commission licensee and raises a substantial and material question as to Mobilfone's qualifications to retain its remaining licenses. The misconduct at issue here was deliberate, continuous and serious in nature and extent. Responsibility for the misrepresentations is virtually wholly attributable to Otis L. Hale himself, the sole proprietor of Mobilfone. *See, e.g., Initial Decision, supra* note 1, at 687 n. 12, 688 n. 16, 690–692; *Review Board Decision, supra* note 8, at 674–75. Mobilfone made no effort to mitigate the effect of its misconduct through prompt corrective action, choosing instead to

[17] In its March 28, 1985 Opposition to Twin City's Petition to Deny, at page 8, Mobilfone summarized the proceeding subsequent to issuance of the *Designation Order* and stated: "[t]hus, the findings of misconduct made in the case were more serious than the Common Carrier Bureau initially believed had occurred, . . ."

[18] Twin City Petition to Deny Mobilfone's 1985 assignment applications, at pp. 12–15.

[19] File No. 553416, license issued January 3, 1985.

[20] The Pass Word, Inc. situation is not controlling here since the Commission first revoked all of Pass Word's authorizations, *Pass Word, supra*, and then subsequently granted an authorization after the passage of several years.

persist in a course of misrepresentation in the face of Commission scrutiny and investigation. Mobilfone's contention that the loss of the KLB500 UHF channels represents an adequate sanction for the extensive misconduct established by the record cannot be credited. Mobilfone obtained the channels and retained them for years without offering service to the public through its pursuit of a course of deliberate and persistent misrepresentation. We cannot conclude at this juncture that the loss of those UHF channels, secured and retained as they were through Mobilfone's continuing misconduct, constitutes a sanction sufficient to deter such egregious misconduct in the future. *Cf. Pass Word, supra.* Accordingly, we have determined that all of Mobilfone's remaining licenses must be designated for hearing to determine whether, in light of the misconduct established by the record in *Otis L. Hale,* Mobilfone is qualified to remain a Commission licensee.[21]

27. While all of Mobilfone's remaining licenses bear the same factual nexus to the misconduct established in *Otis L. Hale,*[22] the differences in the procedural postures of the licenses have significant consequences with respect to the applicable standard of proof and the allocation of evidentiary burdens between the parties. Mobilfone's qualifications to retain the licenses for Station KQZ752 and the KLB500 VHF channels will be examined in the context of a renewal proceeding: Mobilfone will bear both the burden of proof and the burden of going forward with the evidence and the applicable standard of proof will be a preponderance of the evidence. Mobilfone's remaining licenses were granted renewal without restriction or qualification shortly after the *Designation Order,* and Mobilfone's qualifications to hold these licenses must accordingly be examined in the context of a revocation proceeding. We will therefore issue Mobilfone an order to show cause why its remaining licenses should not be revoked. The Bureau will bear the burden of proof and the burden of going forward with the evidence in the revocation proceeding. 47 U.S.C. Section 312. Because the record of Mobilfone's misconduct poses the identical substantive issue in both proceedings, the proceedings will be consolidated in a single hearing. Finally, the judgment that Mobilfone showed a lack of candor and misrepresented facts regarding the construction and ther operational status of the Station KLB500 UHF frequencies is *res judicata* and is not subject to collateral attack in the subsequent proceeding. *RKO General, Inc.,* 670 F. 2d 215, 237 (D.C. Cir. 1981).

IV. Mobilfone's Assignment Applications

28. Mobilfone proposes to assign all of its remaining Commission authorizations to Dial-A-Page of Little Rock, Inc. (DAP).[23] Mobilfone argues that the public interest favors approval of the assignment applications. Mobilfone claims that, barring approval of the assignments, the public will experience a significant deterioration in the quality of service as a result of Mobilfone's understandable reluctance to invest further capital or resources in the facilities and the anticipated decline in employee morale stemming from the uncertain future of the operations. Mobilfone further contends that approval of the assignments will not result in Mobilfone reaping a profit from its own misconduct, because the facilities to be assigned were not implicated in the misconduct.[24]

29. In opposing the assignment applications, Twin City [25] argues that approval of the proposed assignments would condone serious misconduct on the part of Mobilfone. Twin City charges that Mobilfone lacks the requisite qualifications to hold a Commission license and asserts that our decision in *Pass Word, supra,* constrains us to deny the present assignment applications.[26]

30. *Discussion.* Upon review of the applications, the attendant pleadings and relevant Commission precedent, we conclude that the present assignment applications must also be designated for hearing.[27] Mobilfone has been found to have engaged in a course of deliberate and continuous misrepresentation that raises a serious question as the Mobilfone's fitness to hold any Commission license, and we have accordingly determined that all of Mobilfone's licenses must be designated for hearing to determine whether Mobilfone has the qualifications to remain a Commission licensee in light of the misconduct established in *Otis L. Hale.* To permit Mobilfone to sell out from under the potential disqualification at this juncture would significantly undercut the Commission's ability to police and deter licensee misconduct without realizing any offsetting substantial public benefit.[28] Where a

[21] Mobilfone may introduce evidence in mitigation and address the issue of what measures represent fair and adequate sanctions for its misconduct in the course of the hearing.

[22] Twin City's contention that the KLB500 VHF channels and Station KQZ 752 in some manner bear a more substantial relation to the misconduct than Mobilfone's other licenses is rejected. *See, supra,* note 15.

[23] Stations KLB500, KQZ752, and KSV910 (Little Rock); Stations KUD228 and KXX720 (Jonesboro); Stations KFL633 and KUC892 (Sulphur Springs); Stations KFL870 and KUC893 (Hot Springs); Station KFJ890 (Brinkley); and Station KFT281 (a Private Radio Public Coast Station).

[24] In support of Mobilfone's applications, DAP argues that denial of the assignment applications will serve only to grant Mobilfone's sole competitor in Little Rock, Twin City, an extended period in which to consolidate its advantage over a "lame duck" operator.

[25] Mobilfone challenges Twin City's standing to oppose the assignment applications. Mobilfone argues that Twin City has failed to allege that it is in competition with any Mobilfone facility other than Stations KQZ752 and KLB500 in Little Rock and it therefore lacks standing to oppose assignment of Mobilfone's other facilities. Mobilfone further contends that Twin City lacks standing to oppose any of the assignment applications because it has failed to allege any economic injury. We reject Mobilfone's attempt to shield its course of misconduct from closer scrutiny through the guise of a technical standing argument. Twin City's pleading principally addresses the issue of Mobilfone's qualifications to remain a Commission licensee, an issue we are obligated to raise and consider pursuant to Section 310(d) of the Communications Act. Moreover, to the extent that Twin City's pleading addresses the substantial public interest considerations raised in connection with Mobilfone's qualifications, it is clearly a proper exercise of our discretion to consider the merits of the pleading pursuant to our authority to consider informal requests for Commission action. See 47 CFR § 1.41.

[26] Twin City also alleges that Mobilfone has presisted in its course of misconduct by failing to place authorized facilities into service. Twin City alleges that the control facilities authorized for two of the stations proposed to be transferred, Station KFL633 and Station KFL870, are not in service. Evidence submitted by Mobilfone indicates that the control facilities referred to by Twin City are back-up facilities operating on the same frequencies as the primary control facilities for the two involved stations. Since back-up facilities are not routinely used, Twin City has failed to demonstrate any discontinuance of service requiring notification to the Commission. We find Modilfone's evidence sufficient to rebut Twin City's allegations leaving no material factual question warranting investigation or designation.

[27] Previous Commission policy, reflected in the *Grayson* doctrine, provided for the deferral of consideration of any proposed assignment unit all outstanding character issues against the transferor had been resolved. *See, e.g., Jefferson Radio Company Inc. v. FCC,* 340 F. 2d 781 (1974). In *James S. Rivers, supra* note 14, we modified *Grayson* to require designation of all commonly-owned stations if the charges are serious enough to possibly affect the transferability of the multiple owner's other stations. This change of policy was reflected in the *Final Decision* herein where we directed the Bureau to follow a procedure that "will accommodate a consolidation of all pending proceedings involving Mobilfone." *Final Decision, supra* note 9, at para. 2. We believe that designation of Mobilfone's assignment applications for hearing is entirely consistent with the rationale which justified our modification of the *Grayson* doctrine in *James S. Rivers.*

[28] The Commission previously had recognized exceptions to its former general policy of deferment in special limited circumstances that do not obtain here. *See, e.g., Cathryn Murphy,* 42 FCC 2d 346 (1973) (transferor seriously ill); *Second Thursday*

Continued

basic character issue arising from the deliberate misrepresentation of facts to this Commission has been designated against a licensee, the Commission has a substantial interest in the deterrence of such misconduct, and applications for assignment of the licensee's authorizations should be designated for hearing unless specific and compelling public interest considerations favoring the immediate transfer outweigh our interest in deterrence. The potential for a deterioration in service exists whenever the Commission designates a character issue against a prospective transferor for hearing. To lend credence to Mobilfone's argument that the public interest in avoiding a potential deterioration in service outweighs our interest in deterrence would pave a profitable escape route for wrongdoers. Mobilfone's belated plea on behalf of the public interest lacks both the specificity and compelling force to outweigh our interest in deterring the kind of misconduct found in *Otis L. Hale*. Moreover, the factors cited by Mobilfone as contributing to a deterioration in service are either within its control or are principally attributable to its own business decisions.[29]

31. Based upon the above, we conclude that we cannot at present find that the proposed assignment of Mobilfone's licenses would be in the public interest. Instead, we conclude that Mobilfone's assignment applications should be designated for disposition in the consolidated hearing.

Corp., 25 FCC 2d 112 (1970) (bankrupt licensee effects sale for benefit of creditors while assuring alleged wrongdoers will derive no beneift); *Stereo Broadcasters, Inc.* 74 FCC 2d 543 (1979), *aff'd, Stereo Broadcasters v. FCC*, 652 F. 2d 1026 (D.C. Cir. 1981) (Distress sale policy); *Teleprompter Cable Systems, Inc.*, 40 FCC 2d 1027 (1973) (Licensee moves swiftly to purge itself of wrongdoers); *Mutual Radio of Chicago, Inc.*, 55 RR 2d 1577 (1984), *appeal pending sub nom. Martin Trigona* v. *FCC*, D.C. Cir. No. 84–1229 (assignor's alleged misconduct is non-broadcast related and licensee's broadcast record is exemplary). The Commission has also held that for non-broadcast services other public policy considerations may outweigh the considerations underlying the old general deferment policy. *See Cablecom-General*, 87 FCC 2d 784 (1981) and *Cellular System One of Tulsa*, FCC 85–322, released June 21, 1985.

[29] Similarly, Mobilfone's argument that approval of the proposed assignments would not result in Mobilfone profiting from its own wrongdoing is rejected. We have determined that the misconduct established in *Otis L. Hale* requires the institution of a revocation proceeding involving all of Mobilfone's authorizations. To permit the present transfer of the involved authorizations for a sum in excess of $2 million would clearly profit Mobilfone. We have fully considered Mobilfone's other arguments in support of its assignment applications in our consideration of the effect of Hale's misconduct on Mobilfone's basic character qualifications. *See, supra*, para. 26.

V. Other Pending Mobilfone Applications

32. As noted in footnotes 9 and 27, the *Final Decision* contemplated the consolidation of all pending proceedings involving Mobilfone. It has been determined that Mobilfone's Little Rock MDS application (CC Docket No. 82–80, File No. 3982–CM–P–73) was dismissed on July 21, 1983. However, Mobilfone's two captioned construction permit applications (File Nos. 8942–CD–P–(2)–73 and 22650–CD–P–76) remain pending. We conclude that Mobilfone's pending construction permit applications should also be designated for disposition in the consolidated hearing.

VI. Conclusion

33. We have determined that the serious misconduct established by the record in *Otis L. Hale* raises a substantial question as to Mobilfone's quaifications to remain a Commission licensee. Accordingly, Mobilfone's applications for assignment of its remaining stations, its pending renewal applications, its pending construction permit applications and its other Commission licenses will be designated for hearing to determine the effect of the findings of misrepresentation and lack of candor on Mobilfone's qualifications to hold a Commission license.[30]

VII. Ordering Clauses

34. Accordingly, it is ordered, that, pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned applications for renewal of licenses for Station KQZ752 and VHF channels of Station KLB500 in Little Rock, Arkansas, File Nos. 23700–CD–R–79 and 23697–CD–R–79, filed by Otis L. Hale b/d/a Mobilfone Communications, are designated for hearing upon the following issue:

To determine, in light of the misconduct established in *Otis L. Hale*, whether a grant of the captioned applications for renewal of licenses would serve the public interest.

35. It is further ordered, that, pursuant to section 312(a)(1) of the Communications Act of 1934, as amended, Otis L. Hale d/b/a Mobilfone Communications is directed to show cause why an Order Revoking all of its Commission licenses should not be issued by appearing at a hearing upon the following issue:

To determine, in light of the misconduct established in *Otis L. Hale* and the evidence adduced pursuant to the issue designated in paragraph 34, whether Otis L. Hale d/b/a Mobilfone Communications possesses the requisite qualifications to hold a Commission license.

36. It is further ordered, that, pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned applications for assignment of all of the licenses of Otis L. Hale d/b/a Mobilfone Communications, File Nos. 21689–CD–AL–1–85, 21690–CD–AL–2–85, 21691–CD–AL–2–85, 21692–CD–AL–2–85, 21693–CD–AL–1–85 and 21694–CD–AL–1–85, and the captioned construction permit applications filed by Otis L. Hale d/b/a Mobilfone Communications, File Nos. 8942–CD–P–(2)–73 and 22650–CD–P–76, are designated for hearing upon the following issue:

To determine, if necessary, in light of the misconduct established in *Otis L. Hale* and the evidence adduced and findings made pursuant to the issues designated in paragraphs 34 and 35, whether a grant of any or all of the captioned assignments and construction permit applications would be in the public interest.

37. It is further ordered, that the issues designated in paragraphs 34, 35 and 36 be consolidated in a single hearing to be held at a place and time to be specified in a subsequent order of the Chief Administrative Law Judge.

38. It is further ordered, that the Chief, Common Carrier Bureau is made a party to the proceeding.

39. It is further ordered, that Otis L. Hale d/b/a Mobilfone Communications and all other interested parties, pursuant to Sections 1.91(c) and 1.221 of the Commission's rules, shall file written notices of appearance with the Commission within thirty days of the receipt of this order.[31]

40. It is further ordered, that the burden of going forward with the introduction of evidence and the burden of proof on the issues designated in paragraphs 34 and 36 are placed on Otis L. Hale d/b/a Mobilfone Communications; the burden of going forward with the introduction of evidence and the burden of proof on the issue designated in paragraph 35 are placed on the Chief, Common Carrier Bureau.

41. It is further ordered, that the applications for review filed by El

[30] We believe that our action herein will lead to a final and complete resolution of the questions concerning the character qualifications of Mobilfone which have been pending in various procedural postures for a number of years. Because undue further delay is neither fair to Mobilfone nor to the public that it serves, we hereby direct that the hearing designated herein be conducted expeditiously. It is our desire that the hearing be completed and an initial decision issued within twelve months.

[31] Since §§ 1.221 and 1.91(c) require written notices of appearance to be filed within 20 days and 30 days, respectively, we are establishing a uniform 30 day filing period for this consolidated hearing.

Dorado Mobile Telephone Company Inc. and Little Rock Radio Telephone Company, Inc., are denied.

42. The Secretary shall cause a copy of this order to be published in the **Federal Register.**

Federal Communications Commission,
William J. Tricarico,
Secretary.

[FR Doc. 85–25681 Filed 10–28–85; 8:45 am]
BILLING CODE 6712–01–M

[MM Docket No. 85–321; File Nos. BPCT–850605KI and BPCT–85072KU]

South Mississippi Broadcasting Co., Inc. and Sara I. Dunn, Ltd; Applications for Construction Permit, Wiggins, Mississippi; Hearing Designation Order

Adopted: October 11, 1985.
Released: October 23, 1985.
By the Chief, Video Services Division.

1. The Commission, by the Chief, Video Service Division, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications for a new commercial television station to operate on Channel 43, Wiggins, Mississippi.

2. The effective radiated visual power, antenna height above average terrain and other technical data submitted by the applicants indicate that there would be a significant difference in the size of the area and population that each proposes to serve. Consequently, the areas and populations which would be within the predicted 64 dBu (Grade B) contour, together with the availability of other television service of Grade B or greater intensity, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

3. No determination has been reached that the tower height and location proposed by either applicant would not constitute a hazard to air navigation. Accordingly, an issue regarding this matter will be specified.

4. South Mississippi Broadcasting Company, Inc. (South Mississippi) proposes to erect its tower at the same coodinates as those of Station WIGG(AM), Wiggins, Mississippi. In the event that South Mississippi is the successful applicant in this proceeding, its construction permit will be conditioned to ensure that the radiation pattern of the AM station will not be adversely affected.

5. Section 73.3555(b) of the Commission's Rules states that no license for a television station shall be granted to any party if such party owns, operates or controls an AM or FM broadcast station and the grant of such license will result in the Grade A contour of the televison station compassing the entire community of the AM or FM station. Alton Ray Byrd, President, Director and 50 percent owner of South Mississippi, and his wife Gayon Joyce Byrd, are officers and stockholders of station WIGG(AM) Wiggins, Mississippi, ans Station WLUN–FM, Lumberton, Mississippi. Lumberton, Mississippi is within the applicant's predicted Grade A contour. Consequently, a grant of the television application would violate § 73.3555(b). However, South Mississippi has represented to the Commission that, in the event that it is the successful applicant in this proceeding, Mr. and Mrs. Byrd will divest themselves of all interest in the connection with the licensees of Stations WIGG(AM) and WLUN–FM.[1] Accordingly, any grant of a construction permit to South Mississippi will be appropriately conditioned upon the Byrds' divestiture.

6. Except as indicated by the issues specified below, the applicants are qualified to constuct and operate as proposed. Since the applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, it is ordered, that pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications Are designated for hearing in a consolidated proceeding to be held before an administrative Law Judge at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine, with respect to both applicants, whether there is a reasonable possibility that the tower height and location proposed by each would constitute a hazard to air navigation.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

8. It is further ordered, that the Federal Aviation Administration is made a party respondent to this proceeding with respect to issue 1.

9. It is further ordered, that, in the event that South Mississippi Broadcasting Company, Inc. is the successful applicant in this proceeding, the construction permit shall be conditioned as follows:

During installation of the antenna authorized herein, AM Station WIGG, Wiggins, Mississippi, shall determine operating power by the indirect method. Upon completion of the installation, antenna impedance measurements on the AM antenna shall be made and, prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission (along with a tower sketch of the installation) in an application for the AM Station to return to the direct method of power determination.

10. It is further ordered, that, in the event that South Mississippi Broadcasting Company, Inc. is the successful applicant in the proceeding, the construction permit shall be conditioned as follows:

Prior to commencement of operation of the television station authorized herein, permittee shall certify to the Commission that Mr. and Mrs. Byrd have divested themselves of all interest in, and connection with, the licensees of station WIGG(AM), Wiggins, Mississippi, and Station WLUN-FM, Lumberton, Mississippi.

11. It is further ordered, that the September 16, 1985, amendment filed by South Mississippi Broadcasting Compay, Inc. is accepted *nunc pro tunc.*

12. It is further ordered, that to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

13. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594

---

[1] On September 13, 1985 ("B" cut-off date), South Mississippi filed an unsigned copy of the amendment which stated that the Byrds would divest their interests in WIGG(AM) and WLUN–FM. At the time the amendment was filed, counsel for the applicant indicated that the original was being executed that day (September 13) and it would be filed at the Commission as soon as possible. The signed copy was filed on September 16 (one business day after the "B" cut-off date). All parties to this priceeding clearly had notice of the amendment on September 13. In view of the fact that all parties were put on timely notice concerning the contents of the amendment, none were prejudiced. These circumstances are governed by a long-standing Commission policy which dictates that the amendment and signature be accepted *nunc pro tunc. Bocanegra/Gerald Broadcasting Group,* Mimeo No. 1470, released December 22, 1982; *Communications Gaithersburg, Inc.,* 60 FCC 2d 537 (1976); *B.J. Hart,* 44 FCC 2088 (1960). Accordingly, the signed original of the amendment will be accepted *nunc pro tunc.*

of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by Section 73.3594(g) of the Rules.

Federal Communications Commission,

Roy J. Stewart,

Chief, Video Services Division, Mass Media Bureau.

BILLING CODE 6712–01–M

[CC Docket No. 80–741; FCC 85–533]

Renewal of the Charter of Advisory Committee

AGENCY: Federal Communications Commission.

ACTION: Renewal of the Charter of the Advisory Committee on the International Telecommunication Union World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It.

SUMMARY: This action renews the Charter for the above Federal Advisory Committee for an additional two years. The Charter will now expire effective August 5, 1987.

The action is taken by the Commission to allow the committee time to complete its work.

EFFECTIVE DATE: September 30, 1985.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Larry Palmer, Common Carrier Bureau (202) 632–3214.

SUPPLEMENTARY INFORMATION:

Memorandum Opinion and Order

In the matter of an inquiry relating to preparation for the International Telecommunication Union World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It; Gen Docket No. 80–741.

Adopted: October 2, 1985.
Released: October 8, 1985.

By the Commission.

Background

1. The purpose of this *Memorandum Opinion and Order* is to continue the existence of a federal advisory committee to prepare for the second session of the International Telecommunication Union (ITU) World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It (WARC–ORB (2)). The first session of that Conference recently concluded in Geneva. The second session will be held in 1988. A Commission proceeding has been established to accomplish preparations for the Space WARC, and the maintenance of an advisory committee will be an adjunct to that proceeding.[1]

2. Although the agenda for the second session of the Space WARC has not been decided by the ITU, the Conference is expected to have the jurisdiction to consider and alter the international arrangements whereby nations and organizations make use of portions of the geostationary-satellite orbit and spectrum for radiocommunication. Thus, a thorough assessment of the results of the first session and an appropriate and effective U.S. assessment of U.S. options for the second session is essential.

3. There are several means whereby the Commission and the Federal government develop policies for international organizations considering communication issues. One means is the creation of an advisory committee consisting of members of the public having a knowledge of and interest in the subject matter. Such committees generally meet at regular intervals with advance notice of meetings given in the **Federal Register**, affording an opportunity for members to research and discuss the relevant issues, and to ultimately produce findings or recommendations. All these activities are governed by the Federal Advisory Committee Act of 1972.[2]

Discussion

4. This committee is intended to bring together a broad and multidisciplinary range of individuals who are knowledgeable about and interested in the issues presented by the Space WARC. Although the committee cannot formally exercise any power over the advisory committees of other agencies, it is expected to usefully interact and share appropriate information with them.

Work of the Space WARC Advisory Committee

5. The Space WARC advisory committee will essentially be a continuation of the earlier committee that developed recommendations for consideration by the Commission for the first session of the Conference.[3] We anticipate that the advisory committee will examine the U.S. previous efforts for the first session, the results of that session, the intersessional work necessary to prepare for the second session, the reports adopted earlier by the advisory committee, and will adopt proposals and recommendations on these matters for consideration by the Commission.

6. The objectives and scope of activity are set forth in detail in the Charter attached as Appendix A. It also sets forth deadlines by which reports must be submitted: June 1 and December 15, 1986; June 1, 1987; and April 1, 1988. The contents of those reports will be in response to the objectives and scope of activity as shown in the Charter, and should be broad and comprehensive.

7. The entire committee is expected to meet no less than three times per year. Membership on the committee will not be constrained, although regular dissemination of materials may be limited to regular participants in the committee's activities. It is expected that the committee will attempt to reach a consensus on as many matters as possible. Where that does not occur, dissenting members will be encouraged to prepare separate comments presenting their view. The committee will be created, conducted, and terminated pursuant to the Federal Advisory Committee Act of 1972, *supra.* Advance notice of all meetings will be given to the public through publication in the **Federal Register.** Because funds for the conduct of this committee are extremely limited, private-sector (i.e., non-government) members of the committee must cover all their participatory expenses.

8. Accordingly, It is ordered that an Advisory Committee to assist the Commission in preparations for the 1988 ITU World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It shall be continued. The staff is instructed to take the necessary steps to obtain the prompt approval of the Charter of the Advisory Committee, attached as Appendix A.

9. The point of contact on this matter is T. Tycz, International Conference Staff, Common Carrier Bureau, 202–632–3214.

CHARTER—ADVISORY COMMITTEE FOR THE ITU WORLD ADMINISTRATIVE RADIO CONFERENCE ON THE USE OF GEOSTATIONARY-SATELLITE ORBIT AND THE PLANNING OF THE SPACE SERVICES UTILIZING IT

A. Official Designation of the Advisory Committee

The Advisory Committee of the ITU World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It. The short form reference for the Committee will be the Space WARC Advisory Committee. The first session of the Conference was held from August 8 to September 16, 1985. The second session of the Conference will be held in 1988. The advisory committee will be a continuation of the earlier committee that examined the issues for the first session of Space WARC, and will continue to advise the Commission on matters related to the second session of the conference.

B. Names of the Subcommittees

None.

C. Committee's Objectives and Scope of Activity

(1) Objective: To advise the staff of the Federal Communications Commission concerning intersessional work and other continuing preparations for the second session of the ITU World Administrative Radio Conference on the Use of the Geostationary-Satellite Orbit and the Planning of the Space Services Utilizing It.

(2) Scope of activity for the second session U.S. Proposals: To take all steps necessary to assemble information and provide advice concerning the following matters:

a. An evaluation of U.S. preparations for the first session of the Conference, the results of that session, and in particular any effects on satellite radiocommunications services used by the United States.

b. Identification of the means available to the U.S. to assess the impact of Conference developments after the first session and to limit any significant adverse consequences that may occur as a result of the conference decisions.

c. Recommendations on ways to participate in the intersessional work, including the identification of what, if any, studies should be undertaken within the U.S.

d. An evaluation of the recommendations of the previous Space WARC Advisory Committee Report, including an analysis of the conference results as they relate to those recommendations. Provision of any necessary update of the advisory committee material necessary to support future Committee recommendations.

e. In light of experience gained at the first session of the Conference and any intersessional work, recommendations for any U.S. proposals or positions for the Second Session of the Conference.

(3) Scope of activity for the convening of the second session: To take steps necessary to assemble information and provide advice concerning matters raised in its previous reports that have been subsequently affected by the outcome of the first session of the Conference or any other significant developments.

D. Period of Time Necessary for the Committee to Carry Out its Purposes

Two additional written reports are contemplated for completion of work within the scope of activity outlined in paragraphs C (2)a, b, and c above. The third report should be completed by June 1, 1986, in order to be timely for consideration for intersessional work. A fourth report should be completed by December 5, 1986. Final written reports for the submission of U.S. proposals must be completed by June 1, 1987. Final written reports for the convening of the second session must be completed by April 1, 1988.

E. Official to Whom the Committee Reports

Chief, Common Carrier Bureau, Federal Communications Commission.

F. Agency Responsible for Providing Necessary Support

The FCC will furnish necessary administrative support, including the facilities needed for conducting meetings of the Committee.

G. Description of the Duties for Which the Committee is Reponsible

The duties of the Committee will be to assemble data and prepare anlayses and recommendations concerning the matters set out in Part C above and to furnish them to the FCC Staff.

H. Estimated Operating Costs in Dollars and Staff Years

The estimated annual operating costs are $20,000 for the FCC. Estimated annual staff-years are 0.5 for the FCC and 10 for private sector and other government participants.

I. Estimated Number and Frequency of Committee Meetings

The full Committee will meet at least three times a year.

J. Charter Submitted

K. Committee's Termination Date

August 5, 1987.

[FR Doc. 85–24572 Filed 10–28–85; 8:45 am]

BILLING CODE 6712–01–M

FEDERAL RESERVE SYSTEM

PNC Financial Corp. et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in section 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received that the Reserve Bank indicated for the application or the offices of the Board of Governors not later than November 15, 1985.

A. **Federal Reserve Bank of Cleveland** (Lee S. Adams, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *PNC Financial Corp., Pittsburgh,* Pennsylvania; to acquire BHC Securities, Inc., Philadelphia, Pennsylvania, and thereby engage in providing securities brokerage services, related securities credit activities pursuant to the Board's Regulation T (12 CFR Part 220), and incidental activities such as offering custodial services, individual retirement accounts, and cash management services, if the securities brokerage services are restricted to buying and selling securities solely as agent for the account of customer and do not include securities underwriting or dealing or investment advice or research services. These activities are to be conducted on nationwide basis as permitted by § 225.25(b)(15) of Regulation Y.

B. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Area Bancshares Corporation,* Hopkinsville, Kentucky; to acquire North American Financial Services Company of Kentucky, Louisville, Kentucky, and thereby engage in expansion of data processing activities by Datanet, Inc., a subsidiary jointly owned by Applicant and North American Financial Services, a nonbank holding company, through the acquisition of a 50 percent interest in North American Financial Services Company of Kentucky, forming a joint venture with Mid-America Data Processing, Inc. a proposed wholly-owned subsidiary of Mid-American Bancorp, Louisville, Kentucky, which will also acquire a 50 percent interest herein; and the subsequent acquisition by North American Financial Services Company of Kentucky of L.H.F. Information Processing, Inc., a going corporation and subsidiary of Future Federal Savings Bank of Louisville, Louisville, Kentucky, which has been and continues to engage in financial data processing.

North American Financial Services Company of Kentucky, a joint venture, and its proposed subsidiary, L.H.F. Information Processing, Inc., will conduct data processing activities of a financial or economic nature for

financial institutions. These activities are to be conducted in Kentucky and contiguous states and South Carolina.

Board of Governors of the Federal Reserve System, October 23, 1985.

BILLING CODE 6210–01–M

Sloan State Corp., et al.; Applications To Engage de Novo in Permissible Nonbanking Activities

The companies listed in this notice have filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8)) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo,* either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than November 14, 1985.

A. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Sloan State Corporation,* Sloan, Iowa; to engage *de novo* directly in making or acquiring loans and other extensions of credit such as would be made by a commercial financial company pursuant to § 225.25(b)(1) of Regulation Y. These activities would be conducted in the states of Minnesota and Iowa.

B. **Federal Reserve Bank of Minneapolis** (Bruce J. Hedblom, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *Michigan Financial Corporation,* Marquette, Michigan: to engage *de novo* through its subsidiary, Michigan Financial Life Insurance Company, Phoenix, Arizona, in underwriting, as reinsurer, credit life insurance and credit accident and health insurance on extensions of credit by Applicant's credit granting subsidiaries. The company will be qualified to underwrite insurance only in Arizona.

C. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 101 Market Street, San Francisco, California 94105:

1. *Mariners Bancorp,* San Clemente, California; to engage *de novo* through its subsidiary, Independent Bankers Service Corporation, San Clemente, California, in construction loan accounting, disbursement and inspection services to its bank subsidiary and others pursuant to § 225.25(b)(1) of Regulation Y. Applicant also will engage in the activity of performing appraisals of real estate for its bank subsidiary and others pursuant to § 225.25(b)(13) of Regulation Y. Comments on this application must be received not later than November 8, 1985.

2. *U.S. Bancorp,* Portland, Oregon; to engage *de novo* through its subsidiary, U.S. Brokerage Services, Inc., Portland, Oregon, in buying and selling of securities as agent for the account of customers and will offer incidental services such as custodial services and individual retirement accounts, pursuant to § 225.25(b)(15) of Regulation Y. These activities would be conducted in the continental United States, Alaska and Hawaii. Comments on this application must be received not later than November 13, 1985.

Board of Governors of the Federal Reserve System, October 23, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210–01–M

National Westminister Bank PLC NatWest Holdings, Inc.; Proposal To Offer Investment Advice and Securities Brokerage From One Subsidiary

National Westminister Bank PLC, London, England, and its U.S. subsidiary, NatWest Holdings, Inc., New York, New York (collectively, "NatWest"), have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.23(a)(3) of the Board's Regulation Y (12 CFR 225.23(a)(3)), to engage through a wholly-owned subsidiary, County Securities Corporation ("CSC"), New York, New York, in the following activities, listed in order of importance to Applicant:

(1) Providing portfolio investment advice to "Institutional Customers" (generally, companies or employee benefit plans with $5 million or more in assets, individuals with net worths exceeding $5 million, and securities professionals);

(2) Providing securities brokerage services, related securities credit activities pursuant to the Board's Regulation T, and incidental activities, such as offering custodial services and cash management services, in each case for institutional customers, and in each case only when the secuities brokerage services are restricted to buying and selling securities solely as agent for the account of such customers;

(3) Furnishing general economic information and advice, general economic statistical forecasting services and industry studies to institutional customers; and

(4) Serving as investment advisor (as defined in section 2(a)(2) of the Investment Company Act of 1940) to investment companies registered under that Act.

NatWest will not "take a position" (bear the financial risk) in those securities it brokers or recommends. These activities would be conducted throughout the United States from offices of CSC initially located in New York City.

The Board previously has approved the offering of investment advice, as well as the provision separately of securities brokerage services, solely as agent for the account of customers and not including securities underwriting, dealing, investment advisory, or research services. 12 CFR 225.25(b)(4), (b)(15). This application raises the issue of whether offering investment advice and securities brokerage to institutional customers from the same subsidiary of a

bank holding company is a permissible nonbanking activity.

Section 4(c)(8) of the Bank Holding Company Act provides that a bank holding company may, with board approval, engage in any activity "which the Board after due notice and opportunity for hearing has determined (by order or regulation) to be so closely related to banking or managing or controlling banks as to be a proper incident thereto." In determining whether an activity is a proper incident to banking, the Board must consider whether the proposal may "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices."

In this regard, comment is requested concerning whether the combination of investment advice and brokerage services is closely related to banking on the basis that: (1) Banks generally in fact have provided the proposed services; (2) banks generally provide services that are so similar to the proposed services as to equip them particularly well to provide the proposed service; or (3) banks generally provide services that are so integrally related to the proposed services as to require their provision in a specialized form. These guidelines for determining whether an activity is closely related to banking are set out in *National Courier Ass'n* v. *Board of Governors of the Federal Reserve System,* 516 F. 2d 1229 (D.C. Cir. 1975). In addition, the Board may consider any other basis that may demonstrate that the activity has a reasonable or close relationship to banking or managing or controlling banks. Board Statement Regarding Regulation Y, 49 FR 813 (1984).

Comment also is requested on whether the proposal would be a proper incident to banking, that is, whether the performance of the activity may reasonably be expected to produce public benefits that outweigh possible adverse effects.

Applicant maintains that this application raises no issues under the Glass-Steagall Act, which generally places a series of restrictions on the relations between banking organizations and securities affiliates. Section 20 of the Glass-Steagall Act (12 U.S.C. 377) prohibits the affiliation of a member bank with a "corporation . . . engaged principally in the issue, flotation, underwriting, public sale or distribution at wholesale or retail or through syndicate participation of stocks . . . or securities." Section 32 of the Act prohibits a member bank sharing an officer or director with a company primarily engaged in such activities (12 U.S.C. 78). In Applicant's opinion, it would not be engaged in the activities listed in sections 20 or 32. In support of its position, NatWest argues that it will not "take a position" (bear the financial risk) in those securities it brokers or recommends and will not underwrite or engage in the public sale or distribution of securities.

In this regard, the Board requests comment on whether the proposal is consistent with the terms of the Glass-Steagall Act and whether it may result in the abuses or hazards that the United States Supreme Court has identified as having motivated Congress to enact the Act.[1] In particular, comment is requested on whether: the proposal would impair the ability of a bank to serve as an impartial provider of credit because the bank might be tempted to make unwarranted loans to companies whose securities the bank was promoting; whether a bank would no longer provide disinterested investment advice to trust and other customers; whether customer confidence in a bank affiliate might suffer if investments promoted by the bank failed; whether a bank might promote securities of a company in order that the company could repay a loan from the bank; and whether other potential adverse effects might result from the combination of investment advice and brokerage services in one subsidiary of a bank holding company.

Comment also is requested on whether conditions should be established to ameliorate any possible adverse effects, in addition to, or as modifications of, the commitments already offered by NatWest regarding the relations among CSC, its holding company affiliates, and CSC's institutional customers. These commitments include: the limitation of such services to institutional customers only; the fiduciary duties imposed on investment advisors under Regulation Y; the registration of its subsidiary as an investment advisor and broker-dealer under applicable state and federal securities laws; disclosure of its dual role as investment advisor and securities broker to its customers; maintenance of separate offices, facilities, books and records from other NatWest subsidiaries; not sharing customer or depositor lists with any NatWest subsidiary; and not exchanging confidential information (*e.g.,* information as to companies with which a NatWest subsidiary has a lending relationship) between NatWest affiliates and its proposed subsidiary.

While the Board has decided to publish the NatWest proposal for comment, the Board does not thereby take any position on any issues raised by the proposal under the Glass-Steagall Act or the Bank Holding Company Act. Publication of the proposal has been ordered by the Board solely in order to seek the views of interested persons on the issues presented by the application and does not represent a determination by the Board that the proposal is consistent or inconsistent with the Glass-Steagall Act or that the proposal meets or is likely to meet the standards of the Bank Holding Company Act.

Any views or requests for hearing should be submitted in writing and received by William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 25, 1985. Any request for a hearing must, as required by § 262.3(e) of the Board's Rules of Procedure (12 CFR 262.3(e)), be accompanied by a statement in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

This application may be inspected at the Office of the Board of Governors or the Federal Reserve Bank of New York.

Board of Governors of the Federal Reserve System, October 23, 1985.

William W. Wiles,

Secretary of the Board.

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section

7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register.**

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period:

Transaction	Waiting period terminated effective
(1) 85-1109—Malrite Communications Group, Inc.'s (Milton Maltz, UPE), proposed acquisition of assets of radio stations KLAC-AM and KZLA-FM, L.A. Radio Station (Capital Communications, Inc., UPE).	Oct. 1, 1985.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Project Grants for Preventive Health Services-Sexually Transmitted Diseases Professional Education; Availability of Funds for Fiscal Year 1986

Introduction

The Centers for Disease Control (CDC) announces the availability of funds for Fiscal Year 1986 for a Project Grant for Sexually Transmitted Diseases (STD) Professional Education. This grant will be for the Western and Southwestern area of the United States, consisting of Arizona, California, and Nevada, and will be funded under the Sexually Transmitted Diseases Research, Demonstrations, and Public and Professional Education Grant Program. The Catalog of Federal Domestic Assistance Number is 13.978. This program is authorized by section 318(b) of the Public Health Service Act, as amended (42 U.S.C. 247c(b)). Regulations governing Grants for Sexually Transmitted Diseases Research, Demonstrations, and Public and Professional Education (formerly Veneral Disease Research, Demonstrations, and Public Information and Education) ar codified in Part 51b at Subparts A and F of Title 42, Code of Federal Regulations.

Purpose

The objectives of the program of grants under section 318(b) of the Public Health Service Act are to develop, improve, and evaluate methods for the prevention and control of STD through demonstrations and applied research; to develop, improve, apply, and evaluate methods and strategies for public information and education about STD; and to support particularly deserving STD public and professional education programs. The professional education objective is the purpose of this announcement. It is designed to meet the 1990 Objective of the Nation which states that 95 percent of health providers seeing suspected cases of STD will be capable of diagnosing and treating all diseases and syndromes that fall within that definiton. This will be accomplished primarily by training health department STD clinicians, but also by updating the STD knowledge of private sector practitioners, by educating physicians-in-training to whatever extent their curricula permit, and by demonstatratinng quality standards for the care of patients with

STD. The achievement of the 1990 objective clinical capability and the other objectivies to reduce STD cases and complications are mutually dependent and are national in scope. Therefore, it is necessary to assure that this training initiative is coordinated effectively with the basic control components of the local STD program. It must also be coordinated with CDC to assure that the total training environment represents a national model, that training is consisent with guidelines and is uniform nationwide, and that all course offerings can be broadly publicized by CDC. The objective of this specific grant offering is to establish an STD Prevention/Training (P/T) Center to serve the clinical and disease intervention specialist training needs primarily of STD clinicians from the Western and Southwestern parts of the United States.

Eligible Applicants

Eligible applicants are the official State or local health agencies in Arizona, California, and Nevada. Awards will be limited to applications who meet the following minimum requirements:

1. Plan to locate the P/T Center in a health department clinic that:

a. Is dedicated to the diagnosis and treatment of STD patients,

b. Serves an average of at least 300 patients per 40 weekly service hours, and

c. Serves patients of sufficient demographic variety morbidity to support and stimulate the learing process.

2. Have at least one university school of medicine in the vicinity and provide evidence of support, experience, and a firm interest in participating from such a local institution.

3. Provide assurance that a full schedule of training activities will begin within 180 days of the date of grant award.

4. Provided evidence of their capability of adhering to the CDC document entitled "Quality Assurance Guidelines for STD Clinics, 1982" (Clinic QAG) in providing diagnostic and treatment services, and to applicable portions of the CDC document entitled "STD Prevention/Training Center Curriculum Guidelines and Performance Standards for STD Clinical Training" (P/T Center Guidelines) in the training of health personnel prior to beginning any training activities.

5. Provide evidence of their willingness to adhere to CDC curriculum in the presentation of STD intervention outreach training courses.

Availability of Funds

Approximately $230,000 will be available for Fiscal Year 1986 to fund one new grant award. It is expected that the initial grant will begin on or about April 1, 1986, and will be funded for 12 months in a 2- to 5-year project period. Continuation awards within the project period will be made on the basis of satisfactory progress in meeting project objectives, compliance with the P/T Center Guidelines and the Clinic QAG, or future updates thereof, and on the availability of funds. The funding estimate outlined above may vary and is subject to change.

Use of Funds

Funds may be used to support a direct assistance (i.e., "in lieu of cash") position in the dual roles of P/T Center coordinator/instructor of STD intervention outreach courses. If such a request is made, CDC will make an individual available for assignment at the earliest possible date following the award. CDC will assist in the training and preparation of the person or persons designated to carry out these responsibilities. Funds will not be awarded for the purchase or lease of land or buildings or for the construction of a facility. Except where another agency normally houses and public STD clinic, the P/T Center should be located in the health department facility. Funds will not be awarded to renovate existing space, without adequate justification, including appropriate detailed diagrams, reliable estimates of cost, and a realistic projection of the time required for completion.

Reporting requirements

Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

Guidelines for Application Narrative

Applications must include a narrative which, in addition to the minimum requirements for an eligible application as stated above, details the following: (1) Evidence that the State/local health department is willing to work toward meeting STD 1990 Objectives for the Nation; (2) evidence that the training component of this project will function in concert with the operating STD clinic and STD intervention outreach components of the local control program; (3) long- and short-term objetives of the proposal training which address the applicant's expected role over the project period in meeting the STD 1990 Objectives for the Nation and which establish the applicant's anticipated training accomplishments for the initial budget period; (4) the activities and methods which will be employed to accomplish the objectives, (including relationships, responsibilities, and procedures that ensure the P/T Center functions according to the Clinic QAG and the P/T Center Guidelines); (5) a description of the existing medical school-health department liaison activities needed to develop and implement clinical training; (6) an evaluation plan which will help determine if the methods are effective and the objectives are being achieved; (7) a budget with justification; and (8) any other information which will support the request for assistance.

Review and Evaluation Critiera

Grant applications will be reviewed and evaluated based on the evidence submitted which specifically describes (with documentation and attachments) the applicant's ability to meet the following criteria:

1. The applicant conveys a satisfactory commitment from the State/local health department administration toward meeting STD 1990 Objectives for the Nation, and specifically, that objective related to the preparation of STD clinicians to adequately diagnose and treat STD, and to conduct such noninvasive STD research that may be feasible and which will not conflict with other program priorities.

2. The applicant satisfactorily describes how the P/T Center corresponds to the needs, plans, and objectives of the State/local STD program; how the P/T Center activities will be effectively coordinated with the basic control components of the local STD program; and how both will be coordinated with CDC to assure that that the total training environment repesents a national model.

3. The applicant's expected role over the project period in meeting STD 1990 Objectives for the Nation and anticipated training accomplishments for the initial budget period are satisfactorily addressed in the long- and short-term objectives.

4. The applicant adequately assures that STD diagnostic and treatment services will be provided principally in accordance with the Clinic QAG, in particular:

a. There will be adequate space and staff to accommodate patient volume.

b. There will be at least 5 days of full clinical services provided (a minimum of 35 registration hours during a minimum of 40 patient service hours, including at least one evening or Saturday session

each week) with no interim daily shutdowns.

c. Clinic management responsibility will be assigned to one person with clinical and/or administrative skills and experience.

d. Diagnosis and treatment will be provided for most STD and their syndromes (e.g., syphilis, gonorrhea, chlamydial infections and associated syndromes, pelvic inflammatory disease, herpes, trichomoniasis, human papilloma virus, scabies, etc.).

e. A nurse clinician or nurse clinician and physician assistant model of care will be used with a physician available on-site for consultation.

f. An integrated flow will be used which minimuzes the number of patient stops and the amount of patient waiting time.

g. Patients will be seen, regardless of sex, by the next available clinician.

h. Confidentiality will be observed during both patient registration and patient care service delivery.

i. A standardized (e.g., "checkoff"), fully auditable, STD medical record will be employed.

j. There will be an on-site laboratory facility which offers a range of immediately available (stat) tests for commonly seen STD.

k. There will be quality assurance procedures through which clinical care is audited systematically and the proficiency of stat laboratory activities are assessed periodically through smear/culture and serologic test correlations.

l. CDC diagnostic guidelines will be used (e.g., bimanual examinations for women, complete genital examinations for males).

m. The policies and procedures of the STD clinic will harmoniously complement the activities of the disease intervention outreach component of the program.

n. CDC recommended treatment schedules will be used.

5. The applicant adequately assures that the development and operation of the clinical component of the proposed P/T Center will be according to the P/T Center Guidelines, in particular:

a. There will be adequate training space for both clinical and STD intervention outreach courses and assurances that it will be available for all scheduled courses.

b. Classroom space will be adequately furnished and equipped.

c. The positions of P/T Center coordinator and STD intervention outreach training instructor will be identified or be provided for either through a proposal to create and fill these positions or through a request for a position in which both responsibilities will be carried out by a person CDC would provide through direct assistance.

d. A clerical resource will be identified and available on-site to assist the P/T Center Training Coordinator or will be provided for through a proposal to create and fill such a position.

e. The curricula will be developed according to P/T Center Guidelines.

f. The clinic and stat laboratory practicum will be structured such that participants are provided an opportunity to demonstrate their clinical skills under the supervision of P/T Center personnel by performing STD examinations on patients and practicing STD stat laboratory procedures.

g. There will be evaluation of student and medical school teaching faculty performance.

h. A minimum of 400 hours of instruction will be provided annually to P/T Center students which consists of at least six "core" courses (two of which are "Comprehensive"), and two different types of course offerings, as described by the P/T Center Guidelines.

i. The medical school personnel will play a dominant role in classroom training.

6. There is a commitment in principle from a local university medical school to participate with the applicant in the establishment of a P/T Center which addresses the following:

a. Part of the time of a liaison/coordinating physician (preferably a physician in the second or third year of a fellowship) with the expense of medical school faculty instructional services being covered by the most cost-effective mechanism possible.

b. The medical school's participation in the development of curriculum that is governed by the P/T Center Guidelines.

c. A minimum of 400 hours of instruction that will be provided annually which consists of at least six "core" courses (two of which are "Comprehensive"), and two different types of course offerings, as described in the P/T Center Guidelines.

d. Faculty assistance from the medical school in clinic practicum through the use of residents or fellows.

e. The medical school's reinforcement of the provisions of the Clinic QAG during curriculum development, instruction, and precepting clinic practicum.

f. The medical school's arrangement for medical students, accompanied by faculty preceptors, to rotate through the center for training and clinic practicum.

7. The applicant provides a satisfactory evaluation plan which will help determine if the methods are effective and the objectives are being achieved.

8. The budget request is clearly explained, adequately justified, reasonable, cost-effective, and consistent with the intended use of grant funds.

9. The site of the proposed P/T Center is sufficiently near to major highways that accessibility by car is a reasonable option.

10. The location of the proposed P/T Center is convenient to restaurants and reasonable hotel/motel accommodations and accessible through a local ground transportation system from an airport.

Site visits may also be made in connection with the review of applications.

Application Information

The original and two copies of the application must be submitted to Leo A. Sanders, Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., Room 321, Atlanta, Georgia 30305, on January 2, 1986.

A. Deadline: Applications shall be considered as meeting the deadline if they are either:

1. Received at the above address on or before the deadline date; or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

B. Late Applications: Applications which do not meet the criteria in A. 1. or 2. above are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

C. Review Requirements: Applications are subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs, and regulations (42 CFR Part 122, as amended, and Part 123) implementing the National Health Planning and Resources Development Act of 1974.

D. Where to Obtain Additional Information: Information on application procedures, copies of application forms, and other material may be obtained from Betty Feeley, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., Room 321, Atlanta,

Georgia 30305, or by calling (404) 262–6575 or FTS 236–6575. Technical assistance may be obtained from Albert N. Brasile, Division of Sexually Transmitted Diseases, Center for Prevention Services, Centers for Disease Control, Atlanta, Georgia, 30333, telephone (404) 329–2558 or FTS 236–2558.

Dated: October 21, 1985.

William E. Muldoon,

Director, Office of Program Support, Centers for Disease Control.

BILLING CODE 4160–18–M

Food and Drug Administration

[Docket No. 78P–0148 et al.]

Availability of Approved Variances for Laser Light Shows

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that variances from the performance standard for laser products have been approved by FDA's Center for Devices and Radiological Health (CDRH) for six organizations that manufacture and produce laser light shows, light show projectors, or both. The projectors provide a laser light display to produce a variety of special lighting effects. The principal use of these products is to provide entertainment to general audiences.

DATES: The effective dates and termination dates of the variances are listed in the table below under **"SUPPLEMENTARY INFORMATION."**

ADDRESS: The applications and all correspondence on the applications have been placed on display in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Tracy Summers, Center for Devices and Radiological Health (HFZ–84), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 310–443–4874.

SUPPLEMENTARY INFORMATION: Under § 1010.4 (21 CFR 1010.4) of the regulations governing establishment of performance standards under section 358 of the Radiation Control for Health and Safety Act of 1968 (42 U.S.C 263f), CDRH has granted each of the six organizations listed in the table below a variance from § 1040.11(c) (21 CFR 1040.11(c)) of the performance standard for laser products.

Each variance permits the listed manufacturer to introduce into commerce a demonstration laser product assembled and produced by the manufacturer, which is its particular variety of laser light show, laser light show projector, or both. Each laser product involves levels of accessible laser radiation in excess of Class II levels but not exceeding those required to perform the intended function of the product.

CDRH has determined that suitable means of radiation safety and protection are provided by constraints on the physical and optical design, by warnings in the user manual and on the products, and by procedures for personnel who will operate the products. Therefore, on the effective dates specified in the table below, FDA approved and requested variances by a letter to each manufacturer from the Deputy Director of CDRH.

So that each product may show evidence of the variance approved for the manufacturer of the product, each product shall bear on the certification label required by § 1010.2(a) (21 CFR 1010.2(a)) a variance number, which is the FDA docket number, and the effective date of the variance as specified in the table below.

Docket number	Organization granted the variance	Demonstration laser product	Effective date/ Termination date
78P–0148 (amendment)	Laser Media, Inc., 2046 Armacost Avenue, Los Angeles, California 90025.	Laser Media, Inc., LM and EMS laser projection systems, the LMT and Fiberray fiber-optically coupled projector heads, and laser shows assembled and produced by Laser Media, Inc. which incorporate any of these projection devices and/or the Stingray and Chromaray Model Series projectors.	Aug. 14, 1985–May 9, 1986.
83V–0228 (extension)	Laser Light Production's The Space Center, Tombaugh Planetarium, P.O. Box 533, Alamogordo, New Mexico 88310.	Space Center's Tombaugh Planetarium laser light show incorporating the Laser Systems Development Corporation Laser Projector Model C–3(a).	Aug. 5, 1985–Aug. 5, 1987.
85V–0204	Laser Dynamics, Inc., P.O. Box 4156, Spokane, Washington 99202.	Laser ligh shows produced and assembled by Laser Dynamics, Inc. with a Class IV argon and helium-neon laser projector manufactured and certified by Laser Fantasy Productions, Inc. (formerly Coherent Innovations, Inc.).	Aug. 5, 1985–Aug. 5, 1986
85V–0230	Halloran Equities Corp., 7999 Route 130, Pensauken, New Jersey 08110.	Bratz Discotheque laser light shows assembled and produced by Halloran Equities Corp. incorporating Halloran Equities Class IV argon laser projector, Model 1.	Aug. 1, 1985–Aug. 1, 1987.
85V–0273	MHS, Inc., 8000 Madison Pike, Madison, Alabama 35758.	Laserpoint, Ltd. Aries, Scorpion, and 1000D Series of Class IV argon and/or krypton laser projection systems and for laser light shows produced by MHS, Inc./dba Meteor Light and Sound Company.	July 25, 1985–July 25, 1987.
85V–0324	Laser Spectacles, Inc., 9114 Bintliff, P.O. Box 740188, Houston, Texas 77274.	Class IV krypton Model 1001 LUXME Laser Projector and laser light shows produced and assembled by Laser Spectacles, Inc. containing this projector.	Aug. 2, 1985–Aug. 1, 1987.

In accordance with § 1010.4, the applications and all correspondence on the applications have been placed on public display under the designated docket number in the Dockets Management Branch (address above) and may be seen in that office between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Public Health Service Act as amended by the Radiation Control for Health and Safety Act of 1968 (sec. 358, 82 Stat. 1177–1179 (42 U.S.C. 26f)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.86).

Dated: October 21, 1985.

John C. Villforth,

Director, Center for Devices and Radiological Health.

BILLING CODE 4160–01–M

[Docket No. 85F–0469]

General Electric Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that General Electric Co. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of polycarbonate resins

produced by the condensation of 4,4'-isopropylindenediphenol, carbonyl chloride, terephthaloyl chloride, and isophthaloyl chloride for use in contact with food.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 5B3898) has been filed by General Electric Co., Pittsfield, MA 01201, proposing that § 177.1580 *Polycarbonate resins* (21 CFR 177.1580) be amended to provide for the safe use of polycarbonate resins produced by the condensation of 4,4'-isopropylidenediphenol, carbonyl chloride, terephthaloyl chloride, and isophthaloyl chloride for use in contact with food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c), as published in the **Federal Register** of April 26, 1985 (50 FR 16636).

Dated: October 17, 1985.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 85-25672 Filed 10-28-85; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 84P-0264]

Grated Cheeses Deviating From Identity Standard; Extension of Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the extension of a temporary permit issued to Sargento Cheese Co., Inc., to market test grated cheeses containing powdered cellulose as an anticaking agent. This extension will allow the permit holder to continue experimental market testing of the product while the agency takes action on a petition to amend the standard of identity for grated cheeses which the permit holder submitted jointly with other sponsors.

DATE: The new expiration date of the permit will be either the effective date of a final rule for any proposal to amend the standard of identity for grated cheeses which may result from the petition, or 30 days after termination of such rulemaking.

FOR FURTHER INFORMATION CONTACT: Johnnie G. Nichols, Center for Food Safety and Applied Nutrition (HFF-215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0101.

SUPPLEMENTARY INFORMATION: A temporary permit was issued under the provisions of 21 CFR 130.17 to Sargento Cheese Co., Inc., Plymouth, WI 53073, to market test grated cheeses containing powdered cellulose as an anticaking agent. The permit was issued in order to facilitate market testing of foods that deviate from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341). Notice of issuance of the temporary permit to Sargento Cheese Co., Inc., was published in the **Federal Register** of September 4, 1984 (49 FR 34965).

Sargento Cheese Co., Inc., has requested that the temporary permit be extended so the market test period can continue while agency action on a petition to amend the grated cheeses standard proceeds. Sargento Cheese Co., Inc., in accoradance with 21 CFR 130.17(i), submitted a petition to amend 21 CFR 133.146 at the same time the application for extension was submitted. FDA is inviting interested persons to participate in the market test under the conditions that apply to Sargento Cheese Co., Inc., including the labeling requirements and the amounts of test product to be distributed except that the designated area of distribution shall not apply.

Any interested person who wishes to participate in the extended market test must notify, in writing, the Deputy Director, Division of Food Technology (HFF-211), Center for Food Safety and Applied Nutrition, Food and Drug Administration, 200 C St. SW., Washington, DC 20204. The notification must include the amount of test product to be distributed, the area of distribution, and the labeling that will be used for the test product (i.e., a label for each size, each variety, and each brand of product to be test marketed).

Therefore, under the provisions of 21 CFR 130.17(i), FDA is extending the expiration date of the permit such that the permit expires either on the effective date of a final rule for any proposal to amend the standard of identity for grated cheeses which may result from the petition, or 30 days after termination of such rulemaking. All other conditions and terms of this permit remain the same.

Dated: October 21, 1985.

Sanford A. Miller,

Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 85-25669 Filed 10-28-85; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 83P-0429]

Grated Cheeses Deviating From Identity Standard; Extension of Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the extension of a temporary permit issued to Schreiber Foods, Inc., to market test grated cheeses containing powdered cellulose as an anticaking agent. This extension will allow the permit holder to continue experimental market testing of the product while the agency takes action on a petition to amend the standard of identity for grated cheeses which the permit holder submitted jointly with other sponsors.

DATE: The new expiration date of the permit will be either the effective date of a final rule for any proposal to amend the standard of identity for grated cheeses which may result from the petition, or 30 days after termination of such rulemaking.

FOR FURTHER INFORMATION CONTACT: Johnnie G. Nichols, Center for Food Safety and Applied Nutrition (HFF-215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0101.

SUPPLEMENTARY INFORMATION: A temporary permit was issued under the provisions of 21 CFR 130.17 to Schreiber Foods, Inc., Green Bay, WI 54305-5610, to market test grated cheeses containing powdered cellulose as an anticaking agent. The permit was issued in order to facilitate market testing of foods that deviate from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341). Notice of issuance of the temporary permit to Schreiber Foods, Inc., was published in the **Federal Register** of January 26, 1984 (49 FR 3271).

Schreiber Foods, Inc., has requested that the temporary permit be extended so the market test period can continue while agency action on a petition to amend the grated cheeses standard

proceeds. Schreiber Foods, Inc., in accordance with 21 CFR 130.17(i), submitted a petition to amend 21 CFR 133.146 at the same time the application for extension was submitted. FDA is inviting interested persons to participate in the market test under the conditions that apply to Schreiber Foods, Inc., including the labeling requirements and the amounts of test product to be distributed, except that the designated area of distribution shall not apply.

Any interested person who wishes to participate in the extended market test must notify, in writing, the Deputy Director, Division of Food Technology (HFF–211), Center for Food Safety and Applied Nurtition, Food and Drug Administration, 200 C St. SW., Washington, DC 20204. The notification must include the amount of test product to be distributed, the area of distribution, and the labeling that will be used for the test product (i.e., a label for each size, each variety, and each brand of product to be test marketed).

Therefore, under the provisions of 21 CFR 130.17(i), FDA is extending the expiration date of the permit such that the permit expires either on the effective date of a final rule for any proposal to amend the standard of identity for grated cheeses which may result from the petition, or 30 days after termination of such rulemaking. All other conditions and terms of this permit remain the same.

Dated: October 21, 1985.

Sanford A. Miller,

Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160–01–M

[Docket No. 85M–0479]

Drs. Lloyd R. and Mary L. Garren; Premaket Approval of Garren Gastric Bubble

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by Drs. Lloyd R. and Mary L. Garren for premarket approval, under the Medical Device Amendments of 1976, of the Garren Gastric Bubble. After reviewing the recommendation of the Gastroenterology-Urology Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant of the approval of the application.

DATE: Petitions for administrative review by November 29, 1985.

ADDRESS: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: James J. Park, Center for Devices and Radiological Health (HFZ–420), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7750.

SUPPLEMENTARY INFORMATION: On July 25, 1984, Drs. Lloyd R. and Mary L. Garren, Wilmington, DE 19809, submitted to CDRH an application for premarket approval of the Garren Gastric Bubble. The device is a cylinder-shaped elastomeric plastic intragastric balloon. The Garren Gastric Bubble is indicated for use as a temporary adjunct to diet and behavior modification therapy: (1) To reduce the weight of those individuals who are at least 20 percent above the ideal weight (as defined in Metropolitan Life Tables of 1983) but have failed to reduce their weight with diet and behavior modification therapy alone and (2) where the expected benefits are greater than the risks of the procedure. On December 11, 1984, the Gastroenterology-Urology Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On September 17, 1985, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact James J. Park (HFZ–420), address above.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register.** If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before, November 29, 1985 file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554–555, 571 (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: October 18, 1985.

John C. Villforth,

Director, Center for Devices and Radiological Health.

[FR Doc. 85–25674 Filed 10–28–85; 8:45 am]

BILLING CODE 4160–01–M

Public Health Service

Assessment of Medical Technology; Hemofiltration as Substitute for Renal Dialysis

The Public Health Service (PHS), through the Office of Health Technology Assessment (OHTA), announces that it is coordinating an assessment of what is known of the safety, clinical effectiveness, appropriateness, and use of hemofiltration as a substitution for renal dialysis. Specifically, this assessment seeks to determine: 1. What population or subsets of patients with renal dialysis might benefit from this technology? 2. If this therapy is

recommended as a safe and effective substitute for dialysis, can guidelines for patient selection be established? 3. What data exists to define other aspects of hemofiltration techniques that may be useful for some dialysis patients.

PHS assessments consists of a synthesis of information obtained from appropriate organizations in the private sector as well as from PHS agencies and others in the Federal Government. The assessments are based on the most current knowledge concerning the safety and clinical effectiveness of a technology. Based on this assessment, a PHS recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide OHTA with information relevant to this assessment should do so in writing no later than January 27, 1985.

The information being sought is a review and assessment of past, current, and planned research related to this technology, a bibliography of published controlled clinical trials and other well-designed clinical studies, and information related to the clincial acceptability and effectiveness of this technology. Porprietary information is not being sought.

Written material should be submitted to: Harry Handelsman, D.O., National Center for Health Services Research, and Health Care Technology Assessment, Park Building, Room 3–10, 5600 Fishers Lane, Rockville MD 20857, (301) 443–4990.

Date: October 22, 1985.

Enrique D. Carter, M.D.,

Director, Office of Health Technology Assessment, National Center for Health Services Research and Health Care Technology Assessment.

Bureau of Land Management

Prineville District Advisory Council Meeting

Notice is hereby given in accordance with Pub. L. 92–463 of a meeting of the Prineville District Admisory Council to be held November 27, 1985.

The meeting will take place at 10:00 a.m. in the conference room of the Bureau of Land Management office located at 185 East 4th Street, P.O. Box 550, Prineville, OR 97754.

The agenda will center on the following information items:

1. Two Rivers Resource Management Plan.
2. Omnibus Range Bill.
3. Intensive Grazing Management.
4. Riparian Area Management.

The meeting is open to the public. Anyone wishing to attend and/or make written or oral statements to the board is requested to contact the District Manager at the above address prior to November 22, 1985.

Summary minutes of the meeting will be available for review and reproduction within 30 days following the meeting.

Dated: October 21, 1985.

Maurice Ziegler,

Acting District Manager.

[F–14952–A2]

Alaska Native Claims Selection; Unalakleet Native Corp.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice is hereby given that the decision to issue conveyance (DIC) to Unalakleet Native Corporation, notice of which was published in the **Federal Register** July 23, 1985, on page 30018, is modified by changing the land description.

A notice of the modified DIC will be published once a week, for four (4) consecutive weeks, in the *Nome Nugget.* Copies of the modified DIC may be obtained by contacting the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513.

Any party claiming a property interest which is adversely affected by the decision shall have until November 29, 1985, to file an appeal on the issue in the modified DIC. However, parties receiving service by certified mail shall have 30 days from the date of receipt to file an appeal. Appeals must be filed in the Bureau of Land Management, Division of Conveyance Management (960), address identified above, where the requirements for filing an appeal may be obtained. Parties who do not file an appeal in accordance with the requirements in 43 CFR Part 4, Subpart E shall be deemed to have waived their rights.

Except as modified, the decision, notice of which was given July 23, 1985, is final.

Joe J. Labay,

Section Chief, Branch of ANCSA Adjudication.

[OR–36775]

Realty Action; Exchange of Public and Private Lands in Wasco County, OR

The following described lands have been determined to be suitable for disposal by exchange under section 206 of the *Federal Land Policy and Management Act of 1976,* 43 U.S.C. 1716:

T. 6 S., R. 13 E.,
Section 13.

A portion of Lot 1 comprising the L.V. Smart Cabin. One acre more or less.

This parcel was surveyed by BLM Cadastral Survey in 1984, which clearly reveals an existing cabin, controlled by the Deschutes Club, located on public lands. An error in the original survey, and subsequent maps illustrating the meander of the river led the builders to believe the site was on private land. As a result, the Bureau has issued a Land Use Permit to accommodate use of the parcel. This is considered an interim authorization, pending final action. The exchange would convey to private ownership lands with improvements constructed as a result of a survey error.

The Deschutes Club is offering about 46 acres at the confluence of Devils Canyon and the Deschutes River. The tract is described as:

T. 5 S., R. 13 E.,
S. 24;
Lot 8.

The exchange would provide for public ownership of approximately 1,320 feet of Deschutes River frontage, and legal access to public lands, along the Deschutes River Access Road. The public interest will be served by completing the exchange.

The exchange would be made on an equal value basis. Equalization of values would be achieved by adjustment of acreage, based on a fair market value appraisal of the property.

Publication of this notice segregates the public lands from operation of the public land laws for a period of 2 years from the date of publication.

Further information concerning the exchange, including the Environmental Assessment is available for review at the BLM Prineville District Office.

For a period of 45 days from the date of publication, interested parties may submit comments to B.L.M., Box 550, Prineville, Oregon 97754.

Dated: October 18, 1985.

James L. Hancock,

District Manager.

BILLING CODE 4310–33–M

Albuquerque District, NM; District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of District Advisory Council Meeting.

SUMMARY: The Bureau of Land Management's (BLM) District Advisory Council will meet on November 22, 1985, at 10 a.m., in the Conference Room of the BLM's Rio Puerco Resource Area Office at 3550 Pan American Highway, Albuquerque, New Mexico.

The Council's first agenda item will be to review the current situation surrounding the BLM's management of the Pilar Section of the Rio Grande River. Comments from members of the public will be accepted prior to Council action on this topic.

Other items on the agenda include: BLM's proposed decisions regulating off-road-vehicles on the Rio Puerco Resource Area, the Bisti Wilderness Management Plan, and the possible designation of the El Malpais as a Wilderness Area. Time will also be allowed for comments from the public on these topics.

The District Advisory Council is managed in accordance with the Federal Land Policy and Management Act of 1976, The Federal Advisory Committee Act of 1972, and the Rangeland Improvement Act of 1976. Minutes of the meeting will be made available for review within 30 days following the meeting.

For additional information, contact R. Alan Hoffmeister, Public Affairs Specialist, P.O. Box 6770, Albuquerque, NM 87197–6770, (505) 766–2328.

L. Paul Applegate,

District Manager.

BILLING CODE 4312–84–M

Bureau of Reclamation

Fallon Indian Reservation and Drainage System; Rescheduling of Scoping Workshop Date for Fallon Indian Reservation Irrigation and Drainage System Environmental Impact Statement

The Scoping Workshop date for the Fallon Indian Reservation Irrigation and Drainage System Environmental Impact Statement previously cancelled on page 36679 in the **Federal Register** of September 9, 1985, (50 FR 36679) has been rescheduled to November 18, 1985, at 7:30 p.m. in the Fallon Community Convention Center, 100 Campus Way, Fallon, Nevada.

The environmental impact statement will analyze the effects of constructing irrigation and drainage improvements on the Fallon Indian Reservation lands. The area consists of approximately 8,120 acres of land in Churchill County, Nevada, of which 5,440 acreas have valid water rights. The environmental impact statement will analyze the effects of increased water use, drainage and return flows to the Truckee River and the wetlands areas.

The contact person for this environmental impact statement is Joel Verner, Attention: MP–410, Telephone (916) 978–5049, Bureau of Reclamation, 2800 Cottage Way, Sacramento, California 95825.

Dated: October 23, 1985.

Joseph B. Marcotte,

Acting Commissioner.

Agency for International Development

Public Information Collection Requirements Submitted to OMB for Review

The Agency for International Development submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Pub. L. 96–511. Comments regarding these information collections should be addressed to the OMB reviewer listed at the end of the entry no later than November 8, 1985. Comments may also be addressed to, and copies of the submissions obtained from the Reports Management Officer, Ms. Melita E. Yearwood, (202) 632–3378, IRM/PE, Room 708B, SA–12, Washington, DC 20523.

Date Submitted: October 16, 1985
Submitting Agency: Agency for International Development
OMB Number: 0412–0012
Form Number: AID 282
Type of Submission: Extension
Title: Suppiier's Certificate and Agreement with AID—Invoice and Contract Abstract
Purpose: When AID is not a party to a contract which it finances, this form provides the means to collect information and is a basis on which to collect refunds or adjustments from suppliers in the event they do not comply with applicable AID regulations.

This information enables AID to keep records of its commodity expenditures which may be used for program management and for reports to Congress and OMB.

INTERSTATE COMMERCE COMMISSION

Rail Carriers; Release of Waybill Data for Use by Economists Inc.

The Commission has received a request from Economists Incorporated on behalf of its client, B.F. Goodrich Company (Goodrich), for permission to sue the 1981 to 1984 Carload Waybill Sample. These data are needed to conduct certain analyses of competition involving rail shipments in connection with a Federal Trade Commission proceeding inquiring into the competitive consequences of a proposed acquisition by Diamond Shamrock Corporation of a chlorine/caustic soda plant owned by Goodrich. Specifically, the waybill data will be used to identify the relevant antitrust geographic market. This involves identifying the degree to which producers of chlorine in one region ae able to supply customers in other regions. This can be ascertained, in part, by observing existing rail shipment patterns extracted from waybill data covering the last four years. Neither company to the proposed acquisition is engaged in commercial motor carrier transportation.

The Commission requires rail carriers to file waybill sample information if in any of the past three years they terminated on their lines at least: (1) 4,500 revenue carloads or (2) 5 percent of revenue carloads in any one State (49 CFR Part 1244). From this waybill information, the Commission has developed a Public Use Waybill File that has satisfied the majority of all our waybill data requests while protecting the confidentiality of proprietary data submitted by the railroads. However, if confidential waybill data are requested, as in this case, we will consider releasing the data only after public notice is given and certain protective conditions are met. More specifically, under the Commission's current policy for handling waybill requests, we will not release any confidential waybill data until after: (1) Public notice is provided so affected parties have an opportunity to object and (2) certain requirements designed to protect the data's confidentiality are agreed to by the requesting party. (49 FR 40328, September 6, 1983.)

Accordingly, if any parties object to this request, they should file their objections (an original and 2 copies) with the Commission's Office of Transportation Analysis within 14 calendar days of the date of this notice. They should also include all grounds for objection to the full or partial disclosure of the requested data. The Director of OTA will consider these objections in determining whether to release the requested waybill data. Any parties who filed objections will be timely notified of the Director's decision.

Contact: Elaine K. Kaiser (202) 275–0907.

James H. Bayne,

Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF JUSTICE

Antitrust Division

National Cooperative Research Act of 1984; Geothermal Drilling Organization

Notice is hereby given that pursuant to section 6(a) of the National Cooperative Research Act of 1984, Pub. L. 98–462 ("the Act"), the Geothermal Drilling Organization ("GDO") has filed a written notification simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of its members and (2) the nature and objectives of the GDO. Notification was filed for the purpose of invoking the Act's provision limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the members of the Geothermal Drilling Organization and the GDO's objectives are given below.

GDO is an unincorporated association, consisting of the following members:

California Energy Company
Chevron Resources Co.
Republic Geothermal, Inc.
Steam Reserve Corp.
Union Geothermal Division
Foamair, Div. of Pool Co.
Dresser Industries
Geothermal Resources Int., Inc.
MCR Geothermal Corporation
Mono Power Company
Sandia National Laboratories
Eastman Whipstock
NL Industries
Pajarito Enterprises
H&H Oil Tool Co., Inc.
Dailey Directional Services

The Geothermal Drilling Organization was formed in March, 1984, as a forum for solving problems associated with

geothermal well drilling. GDO's objective is to encourage technological improvements that may reduce the cost of drilling and maintaining geothermal wells. Individual members of the GDO participate in the research projects of interest to them. The first set of projects include the research and testing of such projects as:

(1) An acoustic borehole televiewer capable of functioning at high temperature and pressure;

(2) Elastomeric blowout preventer seals and drill pipe protectors that can withstand the high temperatures and corrosive environment in a geothermal well; and

(3) Rotating head seals that function as blowout preventers.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

BILLING CODE 4410–01–M

DEPARTMENT OF LABOR

Office of the Secretary

Agency Recordkeeping/Reporting Requirement Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its reponsibilities under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the reporting and recordkeeping requirements that will affect the public.

List of Recordkeeping/Reporting Requirement Under Review:

On each Tuesday and/or Friday, as necessary, the Department of Labor will publish a list of the Agency recordkeeping/reporting requirements under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extension, or reinstatements. The Department Clearance Officer will, upon request, be able to advise members of the public of the nature of the particular submission they are interested in.

Each entry may contain the following information:

The Agency of the Department issuing this recordkeeping/reporting requirement.

The title of the recordkeeping/reporting requirement.

The OMB and Agency identification numbers, if applicable.

How often the recordkeeping/reporting requirement is needed.

Who will be required to or asked to report or keep records.

Whether small businesses or organizations are affected.

An estimate of the total number of hours needed to comply with the recordkeeping/reporting requirements.

The number of forms in the request for approval, if applicable.

An abstract describing the need for and uses of the information collection.

Comments and Questions

Copies of the recordkeeping/reporting requirements may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, Telephone 202 532–6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N–1301, Washington, D.C. 20210. Comments should also be sent to the OMB reviewer, Nancy Wentzler, Telephone 202 395–6880, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3208, Washington, D.C. 20503.

Any member of the public who wants to comment on a recordkeeping/reporting requirement which has been submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

Revision

Employment and Training Administration

Preliminary Estimates of Average Employer Tax Rates
1205–0228;
Annually
State or local governments
53 respondents; 14 hours

The average rate collected from States is used to compare average tax rates among States by the National office and State agencies and along with the current tax rate schedule are used to certify that a State is complying with the law.

Extension

Employment and Traning Administration

Producers/Purchasers Survey Data Request
1205–0191; ETA 8566
On occasion
Businesses or other for profit; Small businesses or organizations
60 respondents; 105 burden hours; 1 form

To acquire aggregate statistics needed by the Secretary of Labor to make determinations of eligibility of petitioning workers to apply for worker trade adjustment assistance in accordance with section 223 of the Trade Act of 1974 as amended.

Employment and Traning Administration

Petition for Adjustment Assistance
1205–0192; ETA 8569 & ETA 8559 (Spanish Version)
One-time only
Individuals or households; Businesses or other-for-profit and Small businesses or organizations.
1,100 respondents; 275 hours; 1 form

Petition used by American workers applying to U.S Department of Labor for eligibility to receive worker trade adjustment assistance in accordance with provisions of the Trade Act of 1974 as amended. The petition initiates action on part of the Department to determine if workers are eligible.

Employment and Training Administration

Standard Questionnaire for Manufacturing Firms
1205–0194; ETA 8561 A/B/C
When needed
Businesses or other for-profit; Small businesses or organizations
700 respondents; 2,800 hours; 1 form

Data and information needed to prepare Secretary of Labor reports to the President under sections 202 and 224 of the Trade Act of 1974 as amended which is used in determining type(s) of import relief, if any, to be granted to import impacted industries.

Mine Safety and Health Administration

Record of All Certified and Qualified Persons
1219–0049
Quarterly
Businesses and other for profit; small businesses or organizations
4,925 respondents; 1,635 hours

Requires coal mine operators to maintain records of certified and qualified persons who are designated to perform mandatory safety duties.

Pension and Welfare Benefits Programs

Prohibited Transaction Class Exemption 79–1 and Recapture Exemption
1210–0059
Businesses and other for profit; small businesses or organizations
707,290 responses; 141,458 hours

This class exemption exempts from the prohibited transaction restrictions of ERISA the effecting or executing of securities transactions on behalf of an employee benefit plan by a person who is a fiduciary with respect to the plan and who is acting in such transactions as agent for the plan.

Signed at Washington, D.C., this 24th day of October 1985.

Paul E. Larson,

Departmental Clearance Officer.

BILLING CODE 4510-30-M

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance; Avtec Fibers, Inc., et al.

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 8, 1985.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 8, 1985.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street, N.W., Washington, D.C. 20213.

Signed at Washington, D.C., this 21st day of October 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

Labor Surplus Area Classifications Under Executive Orders 12073 and 10582; Annual List of Labor Surplus Areas

Correction

In FR Doc. 85–24376, beginning on page 41606 in the issue of Friday, October 11, 1985, make the following corrections to the Labor Surplus Areas Eligible For Federal Procurement Preference From Oct. 1, 1985 Through Sept. 30, 1985 table:

1. On page 41606, under "Alabama":

a Under *Eligible labor surplus areas,* "Montgomery County" should read "Montgomery City".

b. Under *Civil jurisdictions included,* "Montgomery County" should read "Montgomery City in Mongomery County".

2. On page 41607, under "California", *Eligible labor surplus areas,* "Merced City" should read "Merced County".

3. On page 41608, under "Indiana", *Eligible labor surplus areas,* "Ft. Wayne City County" should read "Fort Wayne City".

4. On page 41608, under "Louisiana":

a. Under *Eligible labor surplus areas,* add "Iberville Parish" after "Iberia Parish."

b. *Under Civil jurisdictions included,* add "Iberville Parish" after "Iiberia Parish."

5. On page 41601, under "Ohio", *Civil jurisdictions included,* add ", Montgomery County" after "Dayton City in Greene County".

6. On page 41612, under "Texas, *Civil jurisdictions included, a*dd ", Harlingen City" after "Cameron County less Brownsville City".

Office of Pension and Welfare Benefit Programs

Advisory Council on Employee Welfare and Pension Benefit Plans; Meeting

Pursuant to section 512 of the Employee Retirement Income Security Act of 1974 (ERISA) 29 U.S.C. 1142, a public meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held at 9:30 a.m., on Wednesday, November 13, 1985, in Conference Room N–4437C, U.S.

Department of Labor, 200 Constitution Avenue, NW., Washington, DC.

The purpose of the meeting is to discuss the following items on the Agenda summarized below:

1. ERISA Administration—Overview.
2. Advisory Council Work Group Reports:

a) ERISA Enforcement,

b) Reporting and Disclosure/ Electronic Filing,

c) Welfare Benefit Plans.

Individuals or organizations wishing to submit written statements pertaining to the items on the Agenda or any other aspects of ERISA, should send 20 copies to Edward F. Lysczek, Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Room S4522, 200 Constitution Avenue, NW., Washington, DC 20210, telephone (202) 523–8753. Papers will be accepted and included in the record of the meeting if received on or before November 11, 1985.

David M. Walker,

Deputy Assistant Secretary, Office of Pension and Welfare Benefit Programs.

October 24, 1985

Occupational Safety and Health Administration

Voluntary Protection Programs To Supplement Enforcement and To Provide Safe and Healthful Working Conditions; Notice of Changes

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of Changes to the Voluntary Protection Programs.

SUMMARY: OSHA announces the modification of the conditions and requirements for the Voluntary Protection Programs (VPP) which initially were announced for implementation on July 2, 1982 (47 FR 29025). The three programs, Star, Try and Praise, which comprise the VPP were developed from ideas published for public comment on January 19, 1982 (47 FR 2796). The programs are designed to seek out and recognize companies with exemplary safety and health programs and to provide a model and a means to those employers who wish to improve their safety and health programs as a way of expanding worker protection.

Companies, general contractors, and organizations which represent groups of employers of the same industry and same geographic location may volunteer for participation in these programs if they meet specified programmatic safety and health criteria and go beyond OSHA standards in providing safe and healthful workplaces or develop a convincing plan to do so. In return, OSHA will work cooperatively with approved participants to assure continued or improved employee safety and health protection. This cooperative effort includes removal of the participants from programmed inspection lists, giving priority attention to variance requests and providing both offsite and onsite assistance in the resolution of problems affecting employee safety and health.

OSHA has gained new insights in over three years of experience with the VPP and, therefore, has made changes to simplify, adjust and clarify the requirements and conditions of the VPP which were described in the announcement of implementation (47 FR 29025).

EFFECTIVE DATE: December 2, 1985.

FOR FURTHER INFORMATION CONTACT: James Foster, Room N3637, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, 200 Constitution Avenue, NW. Washingon, D.C. 20210, (202) 523–8148.

SUPPLEMENTARY INFORMATION:

I. INTRODUCTION

A. Background.

On January 19, 1982, the Occupational Safety and Health Administration ("OSHA" and the "agency") published in the **Federal Register** a notice (47 FR 2796) requesting information and comment about several possible intitiatives to provide incentives for voluntary safety and health protection efforts by employers and employees. The agency invited public comment on the specified programs and requested suggestions for alternative programs. Comments were to be submitted by March 15, 1982.

The agency received numerous comments from businesses, unions, trade associations, State Labor Departments, and others. All submissions were made part of the official record and were considered.

Based on the agency's analysis of these comments, on July 2, 1982, (47 FR 29025), OSHA announced implementation of three Voluntary Protection Programs which contained in a simplified form the most desirable aspects of the program ideas addressed by public comment.

During the first year of implementation OSHA reviewed approximately 28 formally submitted applications to the VPP which covered more than 40 sites. There were 17 sites approved for participation in the VPP between the effective date for implementation, July 6, 1982, and the program's first year anniversary. As of this date there are 41 sites participating in the VPP. OSHA now has experience with all major aspects of the VPP described in the implementation notice, with the exception of termination by OSHA for cause. The changes herein are based on that experience.

These changes and clarifications concern the policies set forth in the original implementation notice. The procedures used by OSHA in carrying out the policy are contained in OSHA's field directives system.

B. Statutory Framework.

The Occupational Safety and Health Act of 1970, 29 U.S.C. 651 et seq. (the "Act" and the OSH Act"), was enacted "to assure so far as possible every working man and woman in the Nation safe and healthful working conditions and to preserve our human resources."

Section 2(b) specifies the measures by which the Congress would have OSHA carry out these purposes. They include the following provisions which establish the legislative mandate for the Voluntary Protection Programs.

". . . (1) by encouraging employers and employees in their efforts to reduce the number of occupational safety and health hazards at their places of employment, and to stimulate employers and employees to institute new and to perfect existing programs for providing safer and healthful working conditions;"

". . . (4) by building upon advances already made through employer and employee intiative for providing safe and healthful working conditions;"

". . . (5) by developing innovative methods, techniques, and approaches for dealing with occupational safety and health problems;"

". . . (13) by encouraging joint labor-management efforts to reduce injuries and disease arising out of employment."

C. Structure of Notice.

Section II deals with OSHA's experience with VPP over the past three years and the findings that focused on the needs for revisions.

Section III is a discussion of the actual changes made in VPP.

Section IV spells out the revised VPP and supercedes 47 FR 29025.

II. The Voluntary Protection Programs Experience.

A. The Three Programs.

1. *General.* 47 FR 29025 set forth the goals of three programs (Star, Try and Praise), the qualifications for approval of applicants for the programs and OSHA's responsibilities under the three programs.

2. *The Star Program.* The earlier **Federal Register** notice described the Star Program as "aimed at those workplaces having superior safety and health programs that go beyond OSHA standards in providing worker protection, through either employee participation or management initiative efforts" and as "designed to demonstrate that good safety and health programs can prevent injury and illness." The Star Program was open to worksites of all industries, provided that the worksite meets the requirements for either the employee-participation alternative (to which the construction industry was limited) or the management-initiative alternative. The two alternative differed primarily in that the employee-participation alternatives required a joint labor-management committee meeting requirements aimed at ensuring a strong role for employee representatives in safety and health monitoring and in providing advice to management. In the employee-participation alternative, as in all the VPP, OSHA still placed the responsibility for maintaining a safe and healthful workplace upon the employer, as required by Section 5 of the Act. The requirements of this alternative were not intended to increase union liability. The management-initiative alternative, while encouraging joint labor-management approaches, did not require them. Instead, it required that management conduct routine site inspections and accident investigations and provide the results from them to employees upon their request, conduct routine job hazard analysis, utilize documentable line accountability for safety (and health) and conduct annual internal self-evaluations.

The Star Program provided for approval under both alternatives to cover safety and health or either alone.

3. *The Try Program.* The Try Program was designed to be a broader, more flexible program leading to Star. Try provided the time and guidance for worksites who wish to work toward Star. It was also designed to provide for experimental projects to determine the effectiveness of safety and health systems that were different from those required by Star, but that the applicant thought produced Star-quality results. Like Star, Try provided employee-participation and management-initiative alternatives, with the same types of distinctions in requirements. The Try employee-participation option requires "some aspect of active (rather than passive) employee participation." Try management-initiative requirements were the same as for Star but these program aspects needed only to be ready to be put in place rather than to be well established as in Star.

4. *The Praise Program.* The Praise Program was designed as "a very different concept than Star or Try." This program was directed toward worksites in "low-hazard industries" which do not normally receive general schedule OSHA safety inspections. Praise was geared to be more of a recognition program for safety efforts of firms with which OSHA usually does not have much contact. Praise, because approval was based heavily on injury rates, covered safety only. There were no alternatives within Praise.

B. Approval Requirements.

An employer wishing to participate in any one of the three programs was required to send an application to OSHA describing how the worksite met the requirements of the VPP for which application was made. Because of the need for a completely cooperative atmosphere for these programs, unionized site applications were not considered without support of the authorized collective bargaining agents.

When OSHA reviewers decided that they had a complete application that appeared to meet the requirements, the employer was contacted and a mutually convenient time was arranged for a team of OSHA employees, who were not currently involved in enforcement, to go onsite to determine whether or not the program described was actually being implemented and whether or not it was adequate for the potential hazards at the site. If the team determined this to be true, they included a recommendation for approval to the Assistant Secretary in the report they submitted. If the Assistant Secretary concurred with the recommendation, a letter of approval was sent to the applicant.

C. Post-Approval Interaction With OSHA.

After approval, Praise Program participants were required to send their injury rates to OSHA each year. Try participants were to be evaluated onsite each year and Star participants were to be evaluated onsite every three years. OSHA provided a contact person to each participant to furnish safety and health assistance and expertise upon request. Enforcement actions, by the Area Office having jurisdiction, could be promoted only by formal, valid employee complaints, serious accidents and/or fatalities in all three programs. If, for example, health was not covered by an approval, as in Praise, the site was subject to health inspections.

D. Termination of Participation.

Try Program participation was approved for a set period of time agreed upon before approval by OSHA and the applicant. At the end of that time, Try participants were expected to be approved for Star or dropped from the VPP. Try Programs were also subject to termination by decision of the employer (or, where unionized, the collective bargaining agent) or OSHA.

Praise and Star approvals could only be terminated by decision of the employer (or, where unionized, the collective bargaining agent) or OSHA.

In construction, Star and Try Programs were also concluded by completion of construction at the approved site.

E. Experience With the VPP.

As of October 25, 1985, there were 41 sites in all three programs. There were 30 in Star, seven in Try, one Demonstration Program and three in Praise. Fifty-four (54) sites had been approved, but 13 sites were no longer in the program due to completion of construction work, voluntary withdrawals or plant closings. The sites in the program cover about 40,000 employees. About forty-five percent of these employees are at unionized sites.

While only 66 applications, covering approximately 80 sites, have been received, the quality of the worksites approved has generally been very good. Experience with the programs as described has been very favorable.

Employees at approved sites generally are positive toward the VPP. At one power plant construction site, employees asked that the Star flag be moved from the general entrance and relocated to their own entrance because "it's *our* flag." At a small chemical plant, employees asked that the flag be flown at the visitors' entrance so "everyone will know we are Stars." Employee excitement about possible Star approvals is evident to the VPP onsite teams and at least once resulted in the setting of new production records.

Employers are also very positive about VPP participation. One Safety Manager said ". . . we see Star as the east management tool to reduce injuries and illness in the workplace . . . available . . ." Another said ". . . the

cooperation has been outstanding . . ." The consensus seems to agree with another Safety Manager who added "the uplift in morale is well worth the time spent."

To date OSHA's experience has been much greater with general industry than with construction due to completion of many construction projects before more than one year in VPP. Although the resultant data are limited, OSHA notes that where VPP has covered a construction site for at least two consecutive years there have been reductions in injuries.

It is clear that the general industry VPP participants are successful safety and health managers. The average injury rates for Star participants are nearly 70% below their industry averages, and the median lost workday case rate for Star participants is 80% below the averages for their industries. Despite their already excellent records, many have shown even further improvement under Star. Praise participants' average lost workday case rates are significantly below the average for the entire private sector. That means few of the Star and none of the Praise participants would receive a full inspection even if not removed from the scheduled inspection list by virtue of participation in VPP. OSHA's goals, therefore, of providing recognition to outstanding employers and demonstrating the importance of comprehensive safety and/or health programs in the prevention of workplace injuries have been well served by the high standards set by the programs as announced.

Of the approved sites, nine were in the Try Program long enough to be evaluated after a year or more. In all nine cases, progress had been made toward qualification for Star. One of the sites had made an impressive leap forward to very near Star status in one year's time and was approved for Star at the end of two years. Another, which had its safety program approved for Star at the time of the original application, had improved its health program sufficiently to qualify for Star in one year. A construction site improved its health program sufficiently within a few months to quality for Star and requested an early evaluation. Both management and randomly selected employees at these sites were pleased with the program and felt it had made a positive difference. All the general industry Try Program participants together had cut their injury rates in half during the first full year of the program.

OSHA has found that the two most critical ingredients common to all VPP participants are a deep and abiding management commitment to providing a safe and healthful workplace, and active employee involvement in the safety and health program. Management commitment at successful VPP sites is most often expressed by direct involvement of top level management in the safety and health program, by top management's positive example of following all safety and health rules, by management's providing necessary resources to address safety and health concerns in a timely manner, and by management's demonstration that safety is as important as quality and productivity and that if a job cannot be done safely, it will not be done. The most successful VPP participants involve their employees in a variety of ways. Over 75% have some type of joint safety committee. The safety committees vary in size, composition and responsibility depending on the needs of the site and the management of the organization. Other participants involve their employees as safety and health trainers of other employees, as members of ad hoc safety and health problem-solving committees, and in planning and conducting safety and health awareness programs.

Problem Areas

Several problems with the VPP surfaced in these first years of experience, many of them arising from or affecting construction. The first of these, however, has to do with the way the VPP are perceived.

• *Perception of VPP*—In a limited survey of employers in late 1983,[1] OSHA was told that a wide range of misconceptions and fears exist in the public perception of VPP, stemming from a basic distrust of OSHA. These included perceptions that the programs lack sufficient incentives for employers and that the application process is burdensome, confusion about the differences among the three programs, and fears that VPP participation might lead to OSHA interference or enforcement actions. These perceptions are important because it is obvious that, while the number of applications remains fairly steady, there are large numbers of employers who could qualify for one or more of the VPP but who have not applied. If the agency is to increase the number of VPP sites, as recommended by the Office of Technology Assessment in the recent report entitled "Preventing Illness and Injury in the Workplace," these concerns must be addressed.

Fortunately, companies participating in the VPP have very different perceptions, and their positive experiences should dispel these identified concerns. In April of 1984, OSHA held a meeting with VPP participants to discuss the survey findings and to establish a clearer understanding of the incentives for participation in the programs. A videotape on VPP was made utilizing some of the participants' comments rebutting these findings, and a hand-out for potential applicants was prepared quoting additional participant statements concerning their positive experiences with OSHA and the VPP to counteract these negative perceptions. Participants have also spoken before a variety of public meetings to give those groups a first-hand view of what cooperating with OSHA can be like.

• *Approved Site Attrition*—Another problem concerned the economic viability of some of the sites approved early in the experience of the program. Two plants supplying services or supplies to ailing industries left the Try Program because the plants were closed. One plant that closed in late 1984 attributed to the Try Program its having lasted two more years than it would have otherwise. Two other plants withdrew from Try because of lack of resources to put into achieving and maintaining Star requirements. These closings, combined with expected construction completions and one withdrawal resulting from a complete management change, slowed the total growth of the VPP.

• *Separation of Safety and Health*—The July 1982 **Federal Register** Notice (47 FR 29027, 29028) clearly provided the opportunity to apply for safety coverage only or health coverage only. Of the 49 sites approved for Star and Try Program participants, seven chose to cover safety only and three had their safety programs approved for Star and their health programs approved for Try. Currently there are [five] participants covering safety and health and [one] with Star for safety and Try for health. The Praise Program was limited to safety only. After three years' experience with the VPP, OSHA has found that it is very difficult to separate health from safety when considering management systems for worker protection. If, as in the Try Program, we are assisting management in diagnosing and correcting worker protection problems, it appears contrary to the philosophy of the program to ignore the possibility that there are health problems that may also need

[1] ICF Incorporated and Porter, Novelli and Associates, "Summary of Findings and Recommendations, Private Sector Attitudes Toward OSHA Voluntary Protection Programs (Star, Praise and Try)," April 11, 1984, pp. 4–7.

diagnosis and correction. In the Star Program, it appears unwise to provide recognition to the worksite management for having an outstanding worksite safety program if there is uncertainty whether the workers at that site are receiving equal protection from health hazards.

Even in industries such as construction, where OSHA has not successfully impacted sites through health inspections, there are health hazards such as asbestos removal; welding of toxic metals; sand blasting with silica; and exposure to solvents, paints, coatings and other chemical materials. OSHA has had good experience in three construction sites with VPP coverage for health and is satisfied that effective construction health programs can be developed. The case for requiring health coverage at general industry sites is even clearer.

• *Construction*—In formulating the requirements for safety and health programs, OSHA relied upon several sources. For the requirements of the management initiative version of the programs, OSHA relied upon a considerable body of literature that outlined appropriate management tools for controlling or preventing occupational hazards. For the employee participation version, very little could be found in literature which dealt directly, with worker safety and health.

The State of California had begun an experimental program utilizing joint labor-management committees for construction safety self-inspections in 1979 which reportedly had good results at several construction worksites in that State. OSHA's employee participation program was based, in part, on that experimental program, in part on literature description of basic safety and health programs and, in part, on the advice of the Construction Advisory Committee in Occupational Safety and Health.

At the time of implementation, just as today, there was no body of literature concerning management systems for controlling hazards in the construction industry. It was decided therefore to limit the construction industry to the employee-participation version of the programs because of the unique and hazardous nature of construction and the need for cooperation between employees and management to alleviate those hazards. General industry was not likewise limited. While injury rate reduction and visible program improvements were found where the management-initiative alternative was used, the results from the employee-participation alternative were mixed. Since the employee-participation alternative was required for construction and never chosen by a qualified general industry applicant, all employee-participation sites are in construction. Evaluations of these sites indicated that better than average employee involvement was maintained, but that such involvement is not enough by itself to bring the full benefit to construction that has been experienced in the general industry management-initiative sites. The employee-participation alternative places too heavy a burden on the joint labor-management committee by not requiring stronger management controls to support and supplement its work. In fact, the best records in construction were set where management approaches similar to the management-initiative requirements were in place even though not required by the VPP. There is, however, no body of literature or record of any sort clearly providing a demonstration of which or how many management tools are appropriate for the construction industry.

The requirement for a labor-management committee in construction had one further impact. The original requirement for a labor-management committee came from "the unique nature of the construction industry, particularly the seriousness of hazards, changing worksite conditions, its expanding and contracting workforce and high turnover." [2] Such conditions, it was felt, require not only the broad participation of employees in safety and health matters, but the actual representation of employees in the identification and correction of hazards. Representation in the full sense would require that employees be elected to a joint labor-management committee by all employees or be selected by a duly authorized collective bargaining agent. After consulting with the National Labor Relations Board, OSHA decided that accepting applications for the employee-participation alternative from non-unionized employers who offer to hold elections for employee representation would place that employer in jeopardy of being found in violation of the National Labor Relations Act. Therefore, OSHA decided to accept applications for employee-participation versions of Star or Try only from union employers. In general industry this decision had only minor impact because the management-initiative alternative was the almost universal choice for applicants. Out of 56 applicants, the only qualified applicants that have selected the employee-participation alternative have been in the construction industry. In construction, however, non-unionized contractors were effectively excluded from the VPP by OSHA's policy decision.

Injury incidence rate requirements for the construction industry have presented a problem to OSHA in reviewing applications. Since the applicant is often a general contractor with few employees at the site, the applicant's past rate experience may not be completely relevant to the site for which application is made. In addition, not all the subcontractors who will have workers at the site during the life of the construction site may be known at the time of application. Even if they were known, finding three years of relevant injury data for all subcontractors and developing this information into one average rate is not practical.

Several commentors have suggested that Workers' Compensation data is reflective of a firm's safety performance and that the experience modification rating (EMR) of a firm can be used as a comparative measure of safety performance between individual firms. Because these data are already available and widely used, OSHA carefully evaluated the rating system to determine whether the EMR accurately measures safety performance and might be used for comparison among firms.

OSHA found that the EMR is a single measure of an entire firm and may tell little about specific construction projects. Also, different rating formulae are used in different states, and the states have significant variations in coverage and benefit levels. Altogether, preliminary indications are that Workers' Compensation information is not an adequate indicator of worksite safety performance or a fair basis for making comparisons between specific worksite projects.

• *Variance Consideration*—Priority consideration for variances was originally listed as an incentive for VPP participation. No participant has requested such consideration. Further, there has been some misinterpretation of the intent of this aspect of the VPP. Although OSHA intended no more than to place a VPP participant's application on the top of the stack rather than require it to wait for earlier applications to be processed, critics construed that OSHA would not require an alternative method of protection to be at least as effective as that required by the standard.

• *Other*—Finally, there were certain areas in the program announcement that are vague, misleading or ambiguous. Most of these areas have been clarified

[2] 47 FR 29027.

through interpretation in the Voluntary Protection Program Manual (CPL 5.1).

Incentives for Participation

These problems taken as a whole have not diminished the value of the VPP or significantly reduced the incentives for applying for the companies who are participating in VPP. From its experience with current participants, OSHA has determined that the major incentives for applying to the VPP are the recognition provided by the Federal government that the employer is doing a good job (more than required by standards) in providing a safe and healthful workplace and the opportunity to work cooperatively with OSHA. In most cases to date, removal from the OSHA programmed inspection list is an incentive for the successful VPP applicant primarily for its symbolic significance. Participants have indicated other positive outcomes represent more incentive for them. For example, the increased management and employee involvement in safety and health has frequently improved productivity and morale and reduced management costs.

• *Improved Productivity and Morale*—Georgia Power, which has two power plant construction sites in the Star Program covering more than 13,000 workers, believes the Star Program has increased pride, morale and productivity. Combustion Engineering which has had seven sites approved for Star and Try, feels that the VPP fill needs for recongition, increasing employee morale and improving safety awareness. Ortho Diagnostic Systems used the Praise Program to improve production and efficiency.

• *Reduced Costs*—Hensel Phelps saved an estimated $1.5 million in workers' compensation costs at one of its two construction sites approved for the VPP. Additionally, Mobil Chemical Company, which has launched an effort to qualify all eligible plants for Star and to self-certify plants outside OSHA jurisdiction using the same requirements, has reported that this effort has reduced injuries by 11 percent and workers' compensation costs by 48 percent company-wide.

• *Employee Awareness and Involvement*—Employee interviews conducted by OSHA VPP evaluation team members have indicated that employees feel VPP participation has increased their involvement in and awareness of the safety and health program. One employee remarked that his employer's application to and staying in the Try Program indicated an interest in the well-being of workers rather than just what they can produce. A union official remarked that no OSHA inspector could ever provide more thorough or effective hazard identification and control than management and workers at the site with their knowledge of daily changing conditions.

• *Conclusion*—While the VPP cover only a small portion of the workers under OSHA jurisdiction, they have demonstrated the high quality of worker protection which can be achieved through employer-initiated efforts encouraged by a Federal agency. OSHA believes that the VPP are contributing to the Agency's legislative mandate to assure ". . . so far as possible . . . safe and healthful working conditions . . ." but that the changes announced here will strengthen their effectiveness while simplifying them for easier public understanding.

III. Discussion of Program Changes.

A. Summary.

OSHA has relied upon the experience of the VPP participants and its staff in making changes announced here. Those changes simplify, adjust and clarify the VPP without changing the cooperative nature of the program.

"Employee-participation" and "management-initiative" alternatives are combined to form a single Star and a single Try program, with only minor variations in the requirements for general industry and construction. This has strengthened the management requirements for construction and the employee participation and contractor requirements for general industry.

Health and safety programs are no longer separated.

The concept of employer-provided, site-specific safety and health programs has been clarified through the specification of basic elements similar to those developed for OSHA's 7(c)(1) Consultation Program. Other changes pull together all the general and specific requirements for each program in one place and clarify those requirements where possible. Some areas touched on briefly in the July 2, 1982, announcement are described more completely to provide a better understanding of the VPP as they have been implemented.

The Try Program is changed to reflect its primary use as a stepping-stone to reach the Star Program. The use of Try for evaluations or the demonstration of alternative approaches is replaced by a separate demonstration program.

The Praise Program has been eliminated in favor of using the Star Program to recognize outstanding safety and health protection in all industries.

Priority consideration for variances has been dropped.

None of the changes is intended to affect the rights and responsibilities afforded employers and employees by the Act.

B. Employee Participation and Management Initiative: Consolidation.

In addition to the problems with the employee participation and management initiative alternatives discussed in Section II, the existence of the two alternatives within Star and Try has added to the complexity of the VPP and has probably caused undue confusion.

OSHA has, therefore, consolidated the two alternatives while still providing for some differences between construction and general industry. The employee-participation element of the safety and health program for construction retains most of the same labor-management committee requirements originally announced for the Star employee-participation alternative while general industry participants may choose among a variety of employee involvement alternatives. The agency is retaining the labor-management committee requirements for construction pending experience with demonstration projects to test the adequacy of management controls in construction and to determine which and how many produce effective results without a labor-management committee meeting the current requirements. This effort should allow OSHA to build the record now missing.

C. Construction/General Industry Changes.

1. *Experience Qualification.* The amount of time that the labor-management committee must have been operational in construction has been changed. Construction committees had been exempt from the one-year operational experience requirement originally announced. This exemption has been removed for Star. Now, all elements must be in place and implemented for a period of not less than a year before Star approval at both general industry *and* construction sites. This will result in some construction sites not being approved for Star because the duration of work at a site is too brief. OSHA believes, however, that the prestige and credibility of the Star Program requires that the applicant be able to demonstrate that management and employees at each specific site can (and have) successfully sustain(ed) an outstanding safety and health program for at least one year before approval.

OSHA has also changed the requirements for the Construction Industry Try Program to include a

minimum of three months' experience by the joint labor-management committee in providing safety and health inspections. The change is based on OSHA's experience that at least three months are required to get joint committees functioning well enough for the pre-approval review assessment. OSHA has found instances where applicants were awaiting VPP approval before naming committee members. Under these circumstances, there was little for OSHA to review on the site that would assure that the program would work as designed. A three month period allows time for committee member training and familiarization with the routine functions of the committee. Admittedly, three months is a significant period of time for a construction site projected for completion in one year. However, OSHA considers construction hazardous enough to merit these precautions.

2. *Management Responsibility.* For management accountability, all contractor project superintendents at a site must clearly be held accountable for the safety and healthfulness of their employees' working conditions. In general industry, documented accountability is still required for all line managers and supervisors. Self-evaluations for safety and health programs are required for construction sites annually or at the completion of the site, whichever comes first. Hazard analysis is required for both general industry and construction. The revisions also include specific requirements for management self-inspections and accident investigations.

3. *Site Injury Rates.* As changed, Star Program approval is reserved for sites with one year's injury rate experience at or below the industry average at the site for which application is made. This would effectively exclude most short duration construction projects form the Star Program. (The requirements for the programas previously announced already effectively excluded projects of short duration because of compexity and the need for a minimum of one year's experience for a meaningful program evaluation to be conducted.) This requirement also will, in many cases, preclude an initial Star approval. Generally, the site will have to participate in Try for one year while collecting injury rate data even if all the required safety and health program elements have been in place for at least a year because, in most cases, rates are not now kept collectively for all employees at a construction site.

Injury rate requirements for general industry remain unchanged. Requirements for construction are changed but are still different than general industry. OSHA requires that, once a site is approved, aggregate injury statistics be kept for all work at the site. The injury rate information developed from that data source is the only completely relevant data.

The construction applicant's rates for all comparable construction work over the past three years can give us an indication of the seriousness of the applicant's intent to provide a safe and healthful workplace and, therefore, the Agency has decided to use these rates to determine, in part, approvability for the Try Program.

4. *Self-Inspections.* OSHA also has changed the maximum interval between committee inspections at construction sites from once per year to once per month. This revision recognizes changing phases and physical environments during construction. It makes explicit OSHA's interpretation for construction of the requirement in 47 FR 29027 that committee inspections be conducted "regularly, as needed." OSHA would not have considered anything less frequent than monthly committee inspections to be adequate for any construction site. Furthermore, OSHA introduces an explicit requirement for a weekly management inspection which covers the entire worksite. The agency has found that such management inspections for safety and health conditions are an integral part of effective construction and health programs.

The Star Management Initiative Program required routine site inspections by safety (and health) professionals which provide for at least yearly coverage of the whole worksite and for written reports of findings and abatement. Teh changes, by incorporating the safety and health program elements used in OSHA's Consultation Program, include comprehensive safety in and health surveys and regular reviews by a person or persons qualified to recognize hazards which exist or could develop as part of the basic safety and health program requirements of all VPP. For Star, in addition to written reports of findings and abatement as previously required, written procedures or guidance for the self-inspection system are required. Different systems would, of course, be appropriate for different sites depending on the size of the facility and the type of work being done. We would expect, however, that any system would have one designated staff person responsible overall to ensure appropriate management control.

5. *Contractor-Subcontractor Coverage.* Control of the safe and healthful working conditions of contractor or subcontractor workers at the site approved for the VPP will be treated the same in both general industry and construction. The applicant will be required to demonstrate that all workers at the site covered by the VPP approval receive adequate protection. OSHA finds it administratively impossible to utilize partial enforcement at a worksite and believes that it is very difficult to provide outstanding safety and health protection to some workers on a worksite where there is any degree of intermingling with other parties whose activities and practices can create hazards for everyone.

In construction, the VPP applicant must demonstrate to OSHA's satisfaction that there is a participative arrangement with all constractors and subcontractors, whether or not such employers are on the site at the time of appoval, which will allow the applicant to control safety and health conditions at the site.

For general industry, it is recongized that contractor activities may involve specialized hazards and skills beyond the technical knowledge and expertise applicable to the normal operations at that worksite. Examples of these activities could include structural steel erection, major electrical work, site excavation, and work involving scaffolds.

All VPP participants are expected to exercise propser diligence and prudence in the selection and oversight of contractors, but general industry participants are not expected to assume responsibility over hazards that are special or unique to these specialized trades. On the other hand, it is encumbent on VPP participants to be especially aware of and to inform contractors and other visitors of conditions at the worksite which could affect safety and health conditions of either contractor or worksite personnel. Examples of such conditions could include the proximity of flammable or explosive materials in connection with electrical or hot-work, certain chemicals and electrical conditions that could affect custodial or other workers, and the presence of asbestos or of potentially explosive dust.

It is also expected that VPP participants will be able to demonstrate that they have considered the safety and health programs and performance of major contractors during the evaluation and selection process, especially in operations such as construction where

contractors and subcontractors are a routine aspect of business arrangements.

D. Safety and Health Program Coverage.

OSHA herein requires coverage of both safety and health for all VPP based on the agency's experience as discussed in Section II.

For the current participants in Star (Safety), OSHA will allow two years for their health programs to qualify. Because Try health requirements are more flexible and easier to meet, Try participants are encouraged to qualify their health programs for Try approval as soon as possible but no later than one year after the effective date of this notice.

E. Elements of Safety and Health Programs.

In these changes, OSHA has provided a complete outline of the basic elements of safety and health programs which are required for participation. These basic elements, including management commitment; hazard assessment; safety planning, rules and work procedures; and training, are based on those developed in the OSHA 7(c)(1) Consultation Program. The concept utilized here is that all well-managed safety and health programs should contain at least these basic elements. For small and less hazardous sites the application of the elements will of necessity be less formal, less documented and less complex. Star sites would be expected to have their safety and health programs operating effectively for at least one year. Try sites would be expected to work toward having a well managed safety and health program containing these elements in a specified period of time.

The use of these program elements results in little actual change to the Star and Try Programs because the wording in the initial **Federal Register** notice has been interpreted to require most of what is now required formally.

F. Elimination of Praise.

The Praise Program was developed as a fairly straightforward recognition program for industries with injury rates at or below the average for the entire private sector. Because it was based so heavily on injury rates, it resulted in an exemption from safety inspections only, not also health inspections. Four worksites, all part of the same company manufacturing medical equipment and doing laboratory analysis, were approved to Praise shortly after the VPP were announced in July of 1982. A little more than a year later two of those sites were consolidated, leaving three sites in Praise. There have been no other applicants, and none are expected. Praise failed to capture the attention of such industries as finance or retail sales where they would have been more logical. Manufacturing companies with low injury rates which were interested in the VPP usually wished to include their health program and frequently found that they could meet Star approval requirements.

OSHA considered adding health program requirements to Praise but determined that given the complexity of health programs and the lack of a measure of long-term health effects that would parallel Bureau of Labor Statistics data on injuries and acute health effects, any long term removal from programmed health inspection lists would require qualifications identical to Star. These qualifications would also have to be subject to the same sort of pre-approval review and subsequent evaluation as Star. It was decided, therefore, to use the Star Program for this purpose. OSHA has eliminated the Praise Program. It will be phased out as the current Praise participants qualify for Star approval over a period not to exceed two years following the effective date of this notice.

G. The Voluntary Protection Demonstration Program.

OSHA announces a new demonstration program to replace the experimental element of the Try Program. During the more than three years of VPP existence, the Try Program has been used for experimental purposes only once. The flexibility of Try Program requirements which was intended to make experimentation easier served only to confuse some Try Program applicants. OSHA realizes that the structure of its existing programs is not adapted to the realities of non-unionized and/or small construction firms and short-term construction sites. Nor does it provide answers to questions of how to provide recognition for maritime or agricultural and other special industry workplaces. A need has arisen for a program within the VPP to demonstrate the effectiveness of approaches more suitable to these special situations. OSHA expects that many of these approaches may contain sophisticated elments and/or some measureable positive results that would be inappropriate to the concepts of the Try Program carried out under firm OSHA guidance and goals. By separating this program from Try, OSHA hopes to attract a few projects which could build a solid case for solutions to the problems currently preventing participation by these industries and to provide room for new and novel ideas.

The date OSHA has approved one experimental Try site in construction where the joint safety committee has some employee members who are volunteers or are selected by management. This committee also differs from the Star/Try construction model in that the committee does not perform self-inspections, but management provides a system of line accountability, self-evaluation and routine hazard analysis.

The demonstration programs will be subject to careful national level scrutiny even before the decision to do the onsite verification visit. They will be approved for an agreed-upon number of years (not exceeding five) and will be monitored by the Contact Person and evaluated annually. Continued participation from year to year within the approved period would be contingent upon a favorable evaluation.

In most cases, OSHA would expect to approve more than one demonstration program of the same type, in order to assure transferability to other sites, before changing Star requirements based on a demonstration. Whether more than one successful demonstration of a type (or how many) would be required will depend upon the degree of change from current Star requirements and the track record already established before approval. Movement of a project, if any, from the demonstration program to Star would be preceded by an announcement in the **Federal Register** notice of the change in Star requirements for the particular industry or segment of it affected by the demonstration(s).

H. Variances

Because of the misconceptions regarding priority consideration for variances and because that priority consideration was not considered an incentive by participants, OSHA has deleted that provision.

I. Other Changes

1. *Additional Requirements.* OSHA has translated the required evaluation data listed in 47 FR 29027, 29028 into direct safety and health program requirements. These include keeping records of self-inspections, accident investigations and responses to employee notifications of hazards, as will as tracking requirements for hazard correction.

2. *Application.* The change provides information to potential applicants about the separate document, "The Application Guidelines," and clarifies the requirements for review of sensitive documents. In the latter case, the notice

makes clear OSHA's practice of keeping such materials separate from the applications and of providing for OSHA review of such documents only onsite when they are needed to verify VPP applications.

It also provides for an applicant's withdrawal of an application which was not covered by 47 FR 29025–32 and a clearer description of the application review process.

In addition, the change eliminates the inflexible requirement that no Pre-Approval Review will take more than two days at each site. In extremely large sites it is impossible for a small team to evaluate properly the applicant's safety and health program in a two-day time frame. OSHA has done onsite reviews of sites with 8,000 employees utilizing more than a dozen separate facilities. OSHA's staff have found that most applicants that have undergone OSHA's review feel that the time spent has been worth the end result. The change provides the following guidelines for a case-by-case determination instead of the current limit: "Reviews will average one-and-a-half to two days unless the site has over 1000 workers". This guidance reflects OSHA staff experience with the VPP.

3. *Onsite Interviews.* During the Pre-Approval Program Review, 47 FR 29028 called for interviews of "relevant parties" such as committee representatives in employee-participation programs. The change adds other examples of "relevant parties," (i.e., management personnel and randomly selected employees) and provides a more detailed list of possibly relevant documents to review. All of the Star and Try Program reviews have included interviews with some randomly selected employees. In every case this was done with the permission of the employer/applicant. OSHA staff have frequently found that these employees can verify aspects of the site safety and health program which may not be routinely recorded and that interviews have generally rounded out information provided by the employer/applicant. The change clarifies current OSHA procedures based on experience.

4. *Application Decision.* The change provides guidance for actions taken on applications, including deferred approvals. The provisions for deferred approvals would allow the applicant a 90-day period after the onsite Pre-Approval Review to make adjustments to the site program that will qualify it for approval.

Application withdrawal would also be available to the application who determines that the site program cannot be made to qualify for the program desired, thus avoiding the denial process. The denial process is also described.

5. *Contact Person.* Information on post-approval assistance through the designated Contact Person has been consolidated from several parts of 47 FR 29025–29032 to provide a clearer description of types of assistance available to participants.

6. *Termination.* In addition to the time frames for termination provided by 47 FR 29029, OSHA has determined that, while the other parties involved in participation may terminate for any reason when withdrawal is not preferred, OSHA decisions to terminate will only be based on cause. Cause is defined as a significant failure to maintain the safety and health program in accordance with the program requirements. The notice also makes clear that sale of the approved site to another company terminates approval. In any and all cases, OSHA will allow for withdrawal before taking termination action.

7. *Reinstatement.* The notice explains that reinstatement to the VPP requires reapplication.

IV. The Voluntary Protection Programs, as Revised.

A. Purpose of the Voluntary Protection Programs.

OSHA has long recognized that compliance with its standards cannot by itself accomplish the goals established by the Act. The standards, no matter how carefully conceived and properly developed, will never cover all unsafe activities and conditions. Furthermore, limited resources will never permit regular or exhaustive inspections of all of the Nation's workplaces. In addition, employers and employees, because of their day-to-day experience in the workplace, acquire a special knowledge of the processes, materials and hazards involved with the job. This knowledge, combined with the ability to evaluate and address unique hazards quickly and to provide rewards for positive action, can be used by employers to improve workplace safety and help in ways simply not available to OSHA.

The purrpose of the Voluntary Protection Programs (VPP) is to emphasize the importance of, encourage the improvement of, and recognize excellence in employer-provided, site-specific occupational safety and health programs. These programs are comprised of management systems for preventing or controlling occupational hazards. The systems not only ensure that OSHA's standards are met, but go beyond the standards to provide the best feasible protection at that site.

When employers apply for and achieve approval for participation in the VPP, they are removed from programmed inspection lists. This frees OSHA's inspection resources for visits to establishments that are less likely to meet the requirements of the OSHA standards. VPP participants enter into a new relationship with OSHA in which safety and health problems can be approached cooperatively, when and if they arise.

Participation in any of the Programs does not diminish existing employer and employee rights and responsibilities under the Act. In particular, OSHA does not intend to increase the liability of any party at an approved VPP site. Employees or any representatives of employees taking part in an OSHA approved VPP safety and health program are not assuming the employer's statutory or common law responsibilities for providing safe and healthful workplaces or undertaking in any way to guarantee a safe and healthful work environment.

The programs included in the VPP are voluntary in the sense that no employer is required to participate but that any employer may volunteer for application to one of the VPP. Compliance with OSHA standards and applicable laws remains mandatory.

Approval for participation is determined by the Assistant Secretary for Occupational Safety and Health.

B. Purpose of this Notice.

This notice qualifications criteria for approval of participation in the Voluntary Protection Programs (VPP), and the conditions of participation, termination of or withdrawal from participation and means of reinstatement.

C. Program Description.

1. *General.* The VPP are voluntary programs which provide recognition, and removal from programmed inspection lists, to qualified employers. They emphasize the importance of worksite safety and health programs in meeting the goal of the Act "to assure so far as possible every working man and woman in the Nation safe and healthful working conditions . . ." through official recognition of excellent safety and health programs, assistance to employers in the efforts to rearch a level of excellence and the use of the cooperative approach to resolve safety and health problems.

The VPP consist of two major programs, Star and Try plus a

demonstration program to permit demonstration and/or testing of experimental approaches which differ from the two established programs. In addition, within the Star and Try Programs there are some variations between general industry and construction industry requirements.

2. *Recognition.* By approving an applicant for participation in the VPP, OSHA recognizes that the applicant is providing, at a minimum, the basic elements of ongoing systematic projection of workers at the site which makes routine Federal enforcement efforts unnecessary. The symbols of this recognition are certificates of approval and the right to use flags showing the program in which the site is participating. The participant may also choose to use program logos in such items as letter-head or award items for employee contests.

In addition to removing approved worksites from programmed inspection lists (but not valid, formal employee safety and health complaint inspections not fatality/catastrophe investigations), OSHA will provide the opportunity to work cooperatively with the agency both in the resolution of safety and health problems and in the promotion of effective safety and health programs through such means as presentations before organizations such as the National Safety Congress. Each approved site will have a designated OSHA Contact Person to handle information and assistance requests.

D. Aspects Common to All VPP.

1. *The Eligible Applicant.*

a. *Site Management.* Management at a site which is either independent or part of a corporation can make application to the VPP for that site.

b. *Corporate Management.* The management of a corporation may apply to the VPP on behalf of one or more sites in the corporation. This type of application is particularly appropriate when corporate staff supply one or more aspects of the site safety and health program.

c. *General Contractors and Organizations Providing Overall Management at Multi-Employer Sites.* At multi-employer sites, such as in the construction industry, the only eligible applicant is the one which can control safety and health conditions of all employees at the site, such as the general contractor or the owner.

d. *Organizations Representing Groups of Small Businesses in the Same Industry.* OSHA will consider, for demonstration programs, applications from organizations providing health and safety program services to groups of small businesses of the same industry (at the three or four digit SIC level) in a limited geographical area.

2. *Assurances.* Applications for all VPP must be accompanied by certain assurances describing what the applicant will do if the application is approved for participation in one of the VPP. The applicant must assure that:

a. All employees, including new hires as they arrive, will have the VPP explained to them, including, specifically, employee rights under the program and under the Act.

b. All hazards discovered through self-inspections, accident investigations or employee notification will be corrected in a timely manner.

c. If employees are given health and safety duties as part of the applicant's safety and health program, the applicant will assure that those employees will be protected from discriminatory actions resulting from the duties, just as Section 11(c) of the Act protects employees for the exercise of rights under the Act.

d. Employees shall have access to the results of self-inspections and accident investigations upon request (in construction, this requirement may be met through the joint labor-management committee).

e. For construction, injury records for *all* work done at the site will be recorded *together* and the injury rates for that site will be maintained at or below the national average for that type of construction; and,

f. The following information will be retained and available for OSHA review:

(1) Written safety and health program;

(2) Copies of the log of injuries and illnesses and the OSHA 101 or its equivalent;

(3) Monitoring and sampling records if applicable;

(4) Agreement between management and the collective bargaining agent(s) concerning the functions of the committee and its organization where applicable;

(5) Minutes of each committee meeting where applicable;

(6) Committee inspection records where applicable;

(7) Management inspection and accident investigation records;

(8) Records of notifications of unsafe or unhealthful conditions received from employees and action taken, taking into account appropriate privacy interests; and,

(9) Annual internal safety and health program evaluation reports (described below in E.3.i.(5)).

(g) Each year by February 15, the participating site will send notification to the designated Contact Person, described under Section IV. N., of the site's injury incidence and lost work day case rates, hours worked and estimated average employment for the past full calendar year.

3. *Unionized Sites.* When a site covered by an application for any of the VPP has significant portion of its employees organized by one or more collective bargaining units, the authorized agent must either sign the application or submit a signed statement indicating that the collective bargaining agent(s) do(es) not object to participation in the program. Without such concurrence, OSHA will not be able to approve program participation.

4. *Inspection/Interaction History.* If the applicant has been inspected in the last three years, the inspection, abatement and/or any other history of interaction with OSHA must indicate good faith attempts to improve safety and health and include no upheld willful violations in those last three years.

E. The Star Program.

1. *Purpose.* The Star Program is based on the characteristics of the most comprehensive safety and health programs used by American industry. It aims to recognize leaders in injury and illness prevention programs who have been successful in reducing workplace hazards and to encourage others to work toward such success.

2. *Term of Participation.* The term for participation in an approved Star Program is unlimited, contingent upon continued favorable triennial evaluation. In the construction industry, participation is ended with the completion of construction work at the site.

3. *Qualifications for the Star Program.*

a. *Management Commitment.* Each applicant must be able to demonstrate top-level management commitment to occupational safety and health in general and to meetng the requirements of VPP.

(1) *Commitment to Safety and Health Protection.* As with any other management system, authority and responsibility for employee safety and health must be integrated with the management system of the organization and must involve employees. This commitment includes:

(a) Clearly established policies and results-oriented objectives for worker safety and health protection which have been communicated to all employees;

(b) Authority and responsibility for safety and health protection clearly defined and implemented; accountability through evaluation of

supervisors; and rewarding good and correcting deficient performance;

(c) Commitment of adequate resources to workplace safety and health, in staff, equipment, promotion, etc.; and

(d) Top management involvement in worker safety and health concerns, including clear lines of communication with employees and setting an example of safe and healthful behavior.

(2) *Commitment to VPP Participation.* Management must also clearly commit itself to meeting and maintaining the requirements of the VPP for which application is made.

b. *Experience.* Star applicants must have had a minimum of one year's operational experience with the safety and health program which meets the other programmatic requirements.

c. *Rates.* The general industry applicant must have an average both of lost workday injury case rates and of injury incidence rates for the most recent three-year period at or below the most recent specific industry (at the three or four digit level) national average published by BLS. For the construction application, the average injury incidence rate and lost workday injury case rate for at least the last full year at the site applied for, including all workers of all subcontractors of the site, must be at or below the national average for that type of construction according to the most precise SIC code.

d. *Access to Professional Expertise.* Reasonable site access to Certified Industrial Hygienists and Certified Safety Professionals or Certified Safety Engineers must be available as needed based on the potentially significant risks of the site.

e. *Line Accountability.* The general industry applicant must have a documented system for holding all line managers and supervisors accountable for safety and health. The construction applicant must demonstrate that, at a minimum, the project manager and contractor superintendents are held accountable for safety and health conditions within their areas of responsibility.

f. *Contract Workers.* All applicants, whether in general industry, construction or other specialized industry, must be able to demonstrate that all contractors and subcontractors will follow worksite safety and health rules and procedures applicable to their activities while at the site, including special precautions necessary as a result of their activities. In general industry, when the contractor's activities are not part of the overall operation and include special skills and hazards beyond the participant's expertise, the participant's responsibility is not expected to extend beyond proper diligence and prudence in both the selection and the oversight of the contractor.

g. *Job Hazard Review.* The applicant must routinely review job hazards for inclusion in training and hazard control programs. This includes, e.g., job safety analysis and process hazard review. In construction, the emphasis should be on special safety and health hazards of each craft and each phase of construction.

h. *Written Safety and Health Program.* The Star Program requirement includes all critical elements of the basic safety and health program described below. All aspects of the safety and health program must be appropriate to the size of the worksite and the type of industry.

(1) *Hazard Assessment.* Management of safety and health programs must begin with a thorough understanding of all potentially hazardous situations and the ability to recognize and correct all existing hazards as they arise. This requires:

(a) Comprehensive surveys at intervals appropriate for the nature of workplace operations, and regular reviews (by a person or persons qualified to recognize existing hazards and potentially significant risks) to ensure the employer's awareness and control of those risks.

(i) A baseline survey of health hazards accomplished through initial comprehensive industrial hygiene surveying or other comprehensive means of assessment such as complete industrial hygiene engineering studies, before equipment or process installation in general industry or in the pre-job planning for construction;

(ii) The use of nationally recognized procedures for all testing, analyzing and sampling, with written records of results; and,

(b) A system for conducting as appropriate, routine self-inspections which follow written procedures or guidance and which result in written reports of findings and tracking of hazard correction.

(i) In construction, this must include management inspections which cover the entire worksite at least weekly; and

(ii) Also in construction, inspections by members of the safety and health committee which cover the entire worksite as appropriate but no less frequently than once per month are required.

(c) A reliable system for employees, without fear of reprisal, to notify appropriate management personnel in writing about conditions that appear hazardous and to receive timely and appropriate responses. The system must include the ability to track responses and hazard corrections;

(d) An accident/incident investigation system which includes written procedures or guidance, with written reports of findings and hazard correction tracking; and review of injury/illness experience identifying causes and providing for preventive or corrective actions;

(e) Ongoing monitoring and maintenance of workplace equipment to prevent its becoming hazardous;

(f) A system for initiating and tracking hazard correction in a timely manner.

(g) A medical program which includes the availability of physician services and first-aid.

(2) *Safety Planning, Rules, and Work Procedures.* Based on the results of hazard assessment, safety plans, rules and work procedures must be developed, thoroughly understood by supervisors and employees, and followed by everyone in the workplace to prevent and control potential hazards. These include the following provisions:

(a) Planning for safety and health must be a part of the overall management planning process. In construction, this includes pre-job planning and in preparing for different phases of construction as the project progresses.

(b) Safety and health rules, including safe and healthful work procedures for specific operations, appropriate to the potential hazards of the site, must be written, implemented and updated by management as needed and used by employees;

(c) Procedures for disciplinary action or reorientation of employees and supervisors who break or disregard safety rules, safe work, materials handling or emergency procedures must be written, communicated to employees, and enforced.

(d) Procedures for response to emergencies requiring personal protective equipment, first aid, medical care, or emergency egress must be written and communicated to all employees. Procedures should include emergency telephone numbers, exit routes, and training drills.

(3) *Safety and Health Training.* Training is necessary to implement management's commitment to prevent exposure to hazards. Supervisors and employees must know and understand the policies, rules and procedures established to prevent exposure. Training for safety and health includes ensuring that:

(a) Supervisors understand the hazards associated with a job, their

potential effects on employees, and the supervisor's role, through teaching and enforcement, in ensuring that employees follow the rules, procedures and work practices for controlling exposure to the hazards.

(b) Employees are made aware of hazards, and the safe work procedures to follow to protect themselves from the hazards, through training at the same time they are taught to do a job and through reinforcement.

(c) Supervisors and all employees understand what to do in emergency situations.

(d) Where personal protective equipment is required, employees understand that it is required, why it is required, how to use it, its limitations and how to keep it maintained; and employees use it properly.

(4) *Employee Participation.*

(a) Construction sites must utilize the labor-management safety committee approach to involve employees in the identification and correction of hazardous activities and conditions. This is required because of the seriousness of the hazards, the changing worksite conditions, the expanding and contracting work force and the high turnover in the construction industry. The applicant must be able to demonstrate that the site has a joint labor-management committee for safety and health which has the following characteristics:

(i) Has a minimum of one year's experience providing safety and health advice and making periodic site inspections;

(ii) Has at least equal representation by bona fide worker representatives who work at the site and who are selected, elected, or approved by a duly authorized collective bargaining organization;

(iii) Meets regularly, keeps minutes of the meetings, and follows quorum requirements consisting of at least half of the members of the committee, with representatives of both employees and mangement; and,

(iv) Makes regular workplace inspections (with at least one worker representative) at least monthly and more frequently as needed, and has provided for at least quarterly coverage of the whole worksite.

(v) In addition, the joint committee must be allowed to:

- Observe or assist in the investigation and documentation of major accidents;
- Have access to all relevant safety and health information; and,
- Have adequate training so that the committee can recognize hazards, with continued training as needed.

(b) For general industry, the requirement for employee participation may be met in a variety of ways, as long as employees have an active and meaningful way to participate in safety and health problem identification and resolution beyond the individual right to notify appropriate managers of hazardous conditions and practices. Participation on safety committees, as safety observers, in ad hoc safety and health problem-solving groups, as a safety and health trainer of other employees, conducting job hazard analyses, and on committees which plan and conduct safety and health awareness programs are examples of acceptable means of employee participation.

(5) *Safety and Health Program Evaluation.* The applicant must have a system for annually evaluating the operation of the safety and health program to determine what changes are needed to improve worker safety and health protection. The system must provide for written narrative reports with recommendations for improvements and documentation of follow-up action. In particular, the effectiveness of the operation of the self-inspection system, the employee hazard notification system, accident investigations, safety committees (where used), safety and health training, the enforcement of safety and health rules, and the coverage of health aspects, including personal protective equipment and routine monitoring and sampling, should be determined and the findings should be used to improve the implementation of the company's written safety and health program. The evaluation may be conducted by corporate or site officials or by a private sector third-party. In construction, the evaluation should be conducted annually and immediately prior to completion of construction to determine what has been learned about safety and health activities that can be used to improve the contractor's safety and health program at other sites.

F. The Try Program.

1. *Purpose.* The Try Program is aimed at employers in any industry who do not yet meet the qualifications for the Star Program but who wish to work toward Star Program participation. If OSHA determines that the employer has demonstrated the commitment and the potential to achieve the Star requirements, Try is used to set goals that, when achieved, will permit Star participation.

2. *Term of Participation.* Try Programs will be approved for a period of time agreed upon in advance of approval. The term will be dependent upon how long it is expected to take the applicant to accomplish the goals for Star participation. Participation is cancelled at the end of the term.

3. *Qualification for Try.* a. An eligible applicant to the Try Program must have a written safety and health program which covers the three essential elements of a safety and health program as described in IV.E.3 for Star. The three elements (hazard assessment; safety planning, rules, and work procedures; and safety and health training) should all be operational or, at a minimum, in place and ready for implementation by the date of approval. Participation in Try is an opportunity for employers to work with OSHA to improve the quality of their safety and health programs and reduce their injury rates to meet the requirements for Star.

b. *Injury Rates.* (1) For the Try Program in construction, the applicant company must be able to demonstrate that the company's injury rates are at or below the most recent BLS national average for the industry (at the three digit level). The injury incidence rate and the lost workday case rate must each be averaged over the last three complete calendar years. The rate must include *all* of the applicant's employees who are actually employed at construction sites in that SIC. The applicant may use nationwide employment or may designate appropriate geographical areas which include the site for which application is made.

(2) For general industry, if either the three-year average for all recordable injuries of for injury lost workday cases for the last three calendar years is above the national average for the specific industry average (at the three or four digit level) as published most recently by BLS, the applicant must indicate goals for the reduction of that rate and demonstrate that the methods planned to reduce them will achieve these goals.

c. *Goals.* Any system required for Star participation that is not in place or is not yet of Star quality at the time of approval must be set as a goal along with any rate reduction goals.

4. *Assurances.* Applicants must provde assurance that any data not listed in D.2. but needed to evaluate achievement of individual goals will be made available to OSHA for evaluation purposes.

G. The Voluntary Protection Demonstration Program.

1. *Purpose.* This program provides the opportunity for companies to

demonstrate the effectiveness of alternative methods which, if proven successful (usually in more than one site), could be substituted as alternative qualifications for the Star Program for certain situations; to explore the use of VPP in industries other than construction and those classified as general industries, such as maritime or agriculture; and to test methods of overcoming problems which have kept certain employers, such as small business employers and many contractors in the construction industry, from taking part in the VPP.

2. *Qualifications.*

a. Like all VPP participants, those in the demonstration program must have a site safety and health program with a minimum of the three basic elements described for Star in section IV.E. above.

b. Applicants for this program must demonstrate to the Assistant Secretary's satisfaction that the alternative approach shows reasonable promise of being successful enough to serve as an alternative basis for inclusion in the Star Program. This includes having, as a result, three-year average injury incidence and lost workday case rates at or below the specific industry average.

3. *Assurance.* Applicants must provide the assurances that any data not listed in Section D. 2. but needed to evaluate achievement of the goals of the demonstration project will be made available to OSHA for evaluation purposes.

4. *Term of Participation.* Demonstration programs will be approved, subject to annual evaluation, for a period of time agreed upon in advance of approval but not to exceed five years.

H. Applicant Requirements for All VPP.

1. *The Application Guidelines.* OSHA will prepare, keep current and make available to all interested parties, application guidelines which explain the type of information to be submitted for OSHA review.

2. *Application Content.* Eligible applicants will be required to provide all relevant information described in the most current version of the *Application Guidelines* which apply to the program for which application is made.

Amendments to submitted applications will be requested when the application information is insufficient to determine eligibility for onsite review.

Materials needed to document the safety and health program which the applicant feels may be a source of invasion of privacy or a trade secret should not be included in the application. Instead, such materials should be described in the application and provided for viewing only at the site if an onsite Pre-Approval Review is conducted as part of the application review.

3. *Application Submission.* Applications may be submitted to OSHA Regional Offices or, in the case of multi-regional applications, to OSHA's Directorate of Federal-State Operations in Washington.

4. *Application Withdrawal.* Any applicant may withdraw a submitted application at any time after formal submission and before approval or denial. When the applicant notifies OSHA of its withdrawal, the original application will be returned to the applicant.

OSHA may keep the assigned Program Officer's marked working copy of the application for a year before discarding it, in case the applicant should raise questions concerning the handling of the application. Once an application has been withdrawn, a new submission of a formal application is required to begin application review again.

5. *Public Access.* The following documents will be maintained in OSHA's National and applicable Regional Offices for public access beginning on the day the applicant is approved and for so long as VPP participation is active:

a. VPP application and amendments;

b. Pre-Approval report and subsequent evaluation reports;

c. Transmittal memoranda to Assistant Secretary;

d. Assistant Secretary's approval letter; and,

e. Notification memoranda to Regional Administrator.

I. Qualification Verification.

1. *Initial Review.* The initial review of the application will verify that those qualifications which can be documented by paper submission have been met. The applicant will be given the opportunity to amend the application with additional or substitute materials for the purpose of improving the application. Where resources allow, OSHA staff will assist with application preparation, particularly for the demonstration program.

2. *Pre-Approval Onsite Reviews.*

a. *Purpose.* The Pre-Approval Review, which is conducted by a team of non-enforcement OSHA staff, is a management review of the site safety and health program. It is conducted on the site for which participation has been requested to accomplish:

(1) Verification of the information supplied in the application concerning qualification for the VPP for which application is made;

(2) Identification of the strengths and weaknesses of the site safety and health program;

(3) Determination of the adequacy of the safety and health program to address the potential hazards of the site; and

(4) Provision of information to assist the Assistant Secretary in making the approval decision.

b. *Preparation.* The review will be arranged at the mutual convenience of OSHA and the applicant. The review team will consist of a team leader with a back-up and health and safety specialists as required by the size of the site and the complexity of the safety and health program.

c. *Duration of the Review.* The time required for the Pre-Approval Review will depend upon the size of the site and the program applied for. Reviews will average on-and-a-half to two days onsite unless the site has over 1,000 workers.

d. *Content.* All Pre-Approval Reviews will include a review of injury records, recalculation of the rates submitted with the application, verification that the safety and health program described in the application has been implemented and a general assessment of safety and health conditions to determine if the safety and health program is adequate for the hazards of the site.

The review will also include interviews with relevant parties (such as members of joint safety committees, management personnel and randomly selected non-supervisory personnel).

Onsite document review will include the following records (or samples of them) if they exist and are relevant to the application or the safety and health program:

(1) Management statement of commitment to safety and health;

(2) The OSHA 200 log;

(3) Safety and health manual(s);

(4) Employee notifications of safety and health problems;

(5) Safety rules, emergency procedures and sample safe work procedures;

(6) The system for enforcing safety rules;

(7) Self-inspection procedures, reports and correction tracking;

(8) Accident investigations;

(9) Safety committee minutes;

(10) Employee orientation and safety training programs and attendance records;

(11) Industrial hygiene monitoring records; and,

(12) Other records which provide documentation of the qualifications for these programs.

J. Application Approval.

1. *Deferred Approval.* If, at the conclusion of the Pre-Approval Review, the applicant needs to take actions to meet the qualifications for approval, reasonable time—up to 90 days—will be allowed for those actions to be taken before a recommendation is made to the Assistant Secretary. Where necessary, an onsite visit will be made to verify the actions taken after the Pre-Approval Review visit.

2. *Application Withdrawal.* If the applicant cannot meet the requirements for approval to one of the VPP or for any reason does not wish to pursue the approval decision, reasonable time shall be allowed for application withdrawal as provided for in IV.I.4., before recommendation is made to the Assistant Secretary.

3. *Application Approval.* If, in the opinion of the Pre-Approval Review team, the applicant has met the qualifications requirements of the VPP applied to or an alternative VPP acceptable to the applicant, the team's recommendation will be made to the Regional Administrator, who, on concurrence, will recommend approval to the Director of Federal-State Operations. The Director of Federal-State Operations shall review the report for consistent application of the qualification requirements and, on concurrence, will forward the recommendation to the Assistant Secretary to approve participation. Approval will occur on the day that the Assistant Secretary signs a letter informing the applicant of approval.

K. Application Denial.

1. Should the Assistant Secretary for any reason reject the FSO and/or Regional recommendation to approve, a letter from the Assistant Secretary denying approval will be sent to the applicant. The denial will occur as of the date of the letter.

2. Should an applicant appeal to the Assistant Secretary a finding by the team that qualifications are not met, the Director of Federal-State Operations will forward the appeal to the Assistant Secretary, along with the team's recommendation of denial.

If the Assistant Secretary accepts the recommendation to deny approval, the denial will occur as of the date the Assistant Secretary signs a letter informing the applicant of his decision.

L. Inspection Requirements.

1. *Programmed Inspections.* Participating work sites will be removed from OSHA's programmed inspection lists.

2. *Workplace Complaints.* Employee complaints to OSHA will be handled by enforcement personnel in accordance with normal OSHA enforcement procedures.

3. *Fatalities and Catastrophes.* All fatalities and catastrophes will be handled by enforcement personnel in accordance with normal OSHA enforcement procedures.

M. Post-Approval Assistance.

1. *OSHA Contact Person.* An OSHA official will be assigned to each VPP participating work site as Contact Person. This person will be available to assist the participant as needed to assure smooth interface with OSHA and to provide expertise as required.

2. *Problem Solving.* If a problem comes to the attention of the OSHA Contact Person, either through evaluation efforts, review of injury rates, records of OSHA complaint inspections or accident investigations or by request of the VPP participant, the Contact Person will attempt to assist the participant in resolving the problem, including, if necessary, arranging with the participant for an onsite visit to assess the problem and its possible causes.

3. *Scheduled Onsite Assistance.* In some cases, such as in the demonstration program, in the construction program or when needed for the Try Program, a schedule of onsite assistance visits shall be agreed upon before approval.

N. Evaluation.

1. *The Star Program.*—a. *Purpose.* (1) To determine continued qualification for the Star Program.

(2) To document results of program participation in terms of the evaluation criteria and other striking aspects of the site program or its results.

(3) To identify any problems which have the potential of adversely affecting continued Star Program qualifications and to determine if those problems require additional evaluations.

b. *Frequency.* Star Programs shall be evaluated every three years (except when serious problems have been identified which require an earlier evaluation) with an annual review of injury incidence and lost workday injury case rates which shall include a recalculation of the latest three-year averages.

c. *Measures of Effectiveness.* The following factors will be used in the evaluation of Star Program participants:

(1) Continued compliance with the program requirements;

(2) Satisfaction of the participants;

(3) Nature and validity of any complaints received by OSHA;

(4) Nature and resolution of problems that may have come to OSHA's attention since approval or the last evaluation; and,

(5) Where joint committees are utilized, the effectiveness of the committee.

d. *Description of Evaluation.* OSHA's evaluation of Star Program participants will consist mainly of an onsite visit of similar duration and content to the Pre-Approval Program Review described in IV.J.2.

2. *The Try Program.*—a. *Purpose.* (1) To determine continued qualification for the Try Program, or to determine whether the applicant may be approved for the Star Program.

(2) To determine whether adequate progress has been made toward the agreed-upon goals.

(3) To identify any problems in the safety and health program which need resolution in order to continue qualification or meet agreed-upon goals.

(4) To document program improvements and/or improved results.

(5) To provide advice and suggestions for improvements that might be made.

b. *Frequency.* All Try programs will be evaluated annually for the duration of the period of approval, except where the participant requests an evalaution before the annual evaluation is due for the purposes of determining whether or not the Star qualifications have been met.

c. *Measure of Effectiveness.* The following factors will be used in the evaluation of Try Programs:

(1) Continued adequacy of the safety and health program to address the potential hazards of the workplace;

(2) Comparison of rates to the industry average;

(3) Satisfaction of the participants;

(4) Nature and validity of any complaints received by OSHA;

(5) Nature and resolution of problems that have come to OSHA's attention; and,

(6) Progress made toward individual goals.

d. *Description of Evaluation.* OSHA's evalaution will consist mainly of an onsite visit of duration and content similar to the Pre-approval Review described in IV.J.2.

3. *The Voluntary Protection Demonstration Program.* a. *Purpose.* To

determine whether the approach being demonstrated and/or tested protects workers to the degree provided by the Star Program.

b. *Frequency.* All demonstration programs will be evaluated annually for the period of duration of the approval.

c. *Measure of Effectiveness.* The measures of effectiveness of the approach demonstrated and/or tested will be determined on a case-by-case basis before approval.

d. *Description of Evaluation.* OSHA's evaluation will consist mainly of an onsite review of duration and content similar to the Pre-Approval Review described in IV.J.2.

O. Termination or Post-Approval Withdrawal.

1. *Reason for Termination.* a. Completion of covered construction work at the site will terminate a construction industry approval.

b. Sale of the approved site to another company will terminate the approval.

c. The participating site management, or the duly authorized collective bargaining agent where applicable, may terminate participation for any reason.

d. OSHA may terminate participation for cause.

2. *Cause for OSHA Termination.*—a. *Star Program.* Termination by OSHA will occur when a significant failure to maintain the safety and health program in accordance with the program requirements has been identified.

b. *Try Program.* Termination by OSHA will occur when:

(1) A significant failure to maintain the safety and health program in accordance with the program requirements has been identified; or,

(2) No perceptible movement has been made toward the goals; or,

(3) The term of approval has expired.

c. *The Voluntary Protection Demonstration Program. Termination by OSHA will occur when:*

(1) OSHA determines that continuation of the experiment will:

(a) Endanger workers at the covered site(s); and/or,

(b) Have no likely result of inclusion into the Star Program; or,

(2) The period of approval has expired.

3. *Notification.* OSHA will provide the participant and other relevant parties 30 days notice of intent to terminate participation unless:

(a) Other terms for termination were agreed upon before approval; or,

(b) A set period for approval is expiring or construction has been completed.

4. *Post-approval Withdrawal.* Upon receipt of notice of intent to terminate, or for any other reason, a participant may withdraw from the VPP with written notification to the assigned Contact Person.

Q. Reinstatement. Reinstatement requires reapplication.

Signed at Washington, D.C. this 22nd day of October 1985.

Patrick R. Tyson,

Assistant Secretary.

Alaska State Standards; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On August 10, 1973, notice was published in the **Federal Register** (38 FR 21628) of the approval of the Alaska plan and the adoption of Subpart R to Part 1952 containing the decision.

The Alaska plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1953.20 provides that where any alteration in the Federal program could have an adverse impact on the at least as effective status of the State program, a program change supplement to a State plan shall be required.

In response to Federal standards changes, the State has submitted by letter dated November 30, 1984 from Jim Robison, Commissioner, to James W. Lake, Regional Administrator, and incorporated as part of the plan, a repeal of State standards comparable to the repeal of 29 CFR 1910.411 Commercial Diving Operations, Medical Requirements, as published in the **Federal Register** (49 FR 881) on January 6, 1984. The State's original standards received OSHA approval and were published in the **Federal Register** (43 FR 57670) on December 8, 1978, in response to 29 CFR 1910.411 Subpart T as published in the **Federal Register** (42 FR 37668) on July 24, 1977. These State standards, which are contained in AAC 06.210, Commercial Diving Operations, Medical Requirements, were repealed after publication on May 10 and 17, 1984 in Statewide media. The public comment period was open for thirty days by Jim Robison, Commissioner, under authority vested by AS 19.60.020. No requests for public hearings were received.

2. *Decision.* The above State standard has been reviewed and compared with the relevant Federal standard and OSHA has determined that the State standard is identical. OSHA therefore approves this standard repeal.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Buidling, 909 First Avenue, Seattle, Washington 98174; State of Alaska, Department of Labor, Office of the Commissioner, Juneau, Alaska 99801; and the Office of State Programs, Room N–3476, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Alaska State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reason:

The standards were repealed in accordance with the procedural requirements of State law which included public comments and further public participation would be repetitious.

This decision is effective this October 29, 1985.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Seattle, Washington, this 20th day of August 1985.

[FR Doc. 85–25795 Filed 10–28–85; 8:45 am]

BILLING CODE 4510–26–M

Maryland State Standards; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional

Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 5, 1973, notice was published in the **Federal Register** (38 FR 17834) of the approval of the Maryland State plan and the adoption of Subpart O to Part 1952 containing the decision.

The Maryland State plan provides for the adoption of Federal standards as State standards after comments and public hearing. Section 1952.210 of Subpart O sets forth the State's schedule for the adoption of Federal standards. By letters dated July 23, 1985, from Commissioner Dominic N. Fornaro, Maryland Division of Labor and Industry, to Linda R. Anku, Regional Administrator, and incorporated as part of the plan, the State submitted State standards identical to (1) 29 CFR 1910.243, pertaining to amendments to the Power Lawn Mowers standard as published in the **Federal Register** of February 1, 1985 (50 FR 4649), and (2) 29 CFR Part 1910 Subpart T pertaining to amendments to the Commercial Diving Operations Standard—Educational/ Scientific Diving as published in the **Federal Register** of January 9, 1985 (50 FR 1050). These standards are contained in COMAR 09.12.31. Maryland Occupational Safety and Health Standards were promulgated after public hearings on March 29, 1985 and May 24, 1985. These standards were effective July 29, 1985.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are identical to the Federal standards and accordingly should be approved.

3. *Location of supplement for inspection and copying.* A copy of the standard supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, 3535 Market Street, Suite 2100, Philadelphia, PA 19104; Office of the Commissioner of Labor and Industry, 501 St. Paul Place, Baltimore, Maryland 20202; and the OSHA Office of State Programs, Room N–3476, Third Street and Constitution Avenue, NW., Washington, DC 20210.

4. *Public participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Maryland State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards which were promulgated in accordance with Federal law, including meeting requirements for public participation.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective October 29, 1985.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 USC 667).

Signed at Philadelphia, Pennsylvania, this 28th day of August 1985.

Linda R. Anku,

Regional Administrator.

[FR Doc. 85–25796 Filed 10–28–85; 8:45 am]

BILLING CODE 4510–26–M

Washington State Standards; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 26, 1973, notice was published in the **Federal Register** (38 FR 2421) of the approval of the Washington plan and the adoption of Subpart F to Part 1952 containing the decision.

The Washington plan provides for the adoption of State standards that are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1953.20 provides that where any alteration in the Federal program could have an adverse impact on the at least as effective as status of the State program, a program change supplement to a State plan shall be required.

In response to Federal standards changes, the State has submitted by letter dated February 28, 1985, from G. David Hutchins, Acting Assistant Director, to James W. Lake, Regional Administrator, and incorporated as part of the plan, a State standard amendment identical to the Federal standard corrections amendment to 29 CFR 1910.217, Mechanical Power Presses, as published in the **Federal Register** (45 FR 8593) on February 8, 1980, which corrects errors in the Mechanical Power Presses Standard. The amendments to the Washington Mechanical Power Presses Standard are incorporated in WAC 296–24–19503. It was adopted on December 24, 1981, and became effective on January 23, 1982, pursuant to RCW 34.04.040(2), 49.17.040, 49.17.050, Public Meetings Act RCW 42.30, Administrative Procedures Act RCW 34.04, and the State Register Act RCW 34.08 as ordered and transmitted under Washington Administrative Order No. 83–34. This amendment corrects the original State standard published in the **Federal Register** (41 FR 22655) on June 4, 1976.

2. *Decision.* The above State standard amendment has been reviewed and compared with the relevant Federal standard amendment and OSHA has determined that the State standard amendment is at least as effective as the comparable Federal standard amendment, as required by section 18(c)(2) of the Act. OSHA has also determined that the differences between the State and Federal standards amendments are minimal and that the standards amendments are thus substantially identical. OSHA therefore approves this standards amendment; however, the right to reconsider this approval is reserved should substantial objections be submitted to the Assistant Secretary.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Building, 909 First Avenue, Seattle, Washington 97174; Department of Labor and Industries, General Administration Building, Olympia, Washington 98501; and the Office of State Programs, Room N3476, 200 Constitution Avenue NW, Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Washington State Plan as a proposed change and making the Regional

Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards which were promulgated in accordance with Federal law including meeting requirements for public participation.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective October 29, 1985.

(Section 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Seattle, Washington, this 13th day of August 1985.

James W. Lake,

Regional Administrator.

BILLING CODE 4510–26–M

Wage and Hour Division

Certificates Authorizing the Employment of Learners at Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act (52 Stat. 1062, as amended; U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and Administrative Order No. 1–76 (41 FR 18949), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations.

The following normal labor turnover certificate was issued under the apparel industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.20 to 522.25, as amended):

Bland Sportswear, Inc., Bland, VA; 7–24–85 to 7–23–86; 10 learners. (Men's and boy's shirts)

The following normal labor turnover certificate was issued under the knitted wear industry regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35, as amended.)

Louis Gallet, Inc., Uniontown, PA; 8–12–85 to 8–11–86; 5 learners. (Ladies' sweaters)

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum wages is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available.

The certificate may be annulled or withdrawn as indicated therein, in the manner provided in 29 CFR Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before November 13, 1985.

Signed at Washington, D.C., this 23rd day of October, 1985.

Arthur H. Korn,

Authorized Representative of the Administrator.

NATIONAL COMMISSION ON AGRICULTURAL TRADE AND EXPORT POLICY

Meeting

October 24, 1985.

The National Commission on Agricultural Trade and Export Policy will hold its next meeting on November 15, 1985, at the Red Lion Inn, Jantzen Beach, Portland, Oregon. The meeting will begin at 9:00 a.m.

The focus of the meeting is Market Development Programs. The meeting is open to the public and anyone wishing to testify before the Commission should contact Commission staff at (202) 488–1961.

Kenneth L. Bader,

Chairman.

BILLING CODE 3410–05–M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Meeting Agenda

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards will hold a meeting on November 7–9, 1985, in Room 1046, 1717 H Street NW, Washington, DC. Notice of this meeting was published in the **Federal Register** on September 24, 1985.

The agenda for the subject meeting will be as follows:

Thursday, November 7, 1985

8:30 A.M.–8:45 A.M.: Report of ACRS Chairman (Open)—The ACRS Chairman will report briefly regarding items of current interest to the Committee.

8:45 A.M.–12:00 Noon: Palo Verde Nuclear Generating Station, Unit 1 (Open)—The members will hear and discuss reports from the ACRS Subcommittee, members of the NRC Staff, and representatives of the Licensee as appropriate with regard to the results of the start-up test program for this power station.

1:00 P.M.–1:30 P.M.: Future ACRS Activities (Open)—The members will discuss anticipated ACRS Subcommittee activity and items proposed for consideration by the full Committee.

1:30 P.M.–1:50 P.M.: Preparation for Meeting with the NCR Commissioners (Open)—Discuss ACRS reports dated October 16, 1985 and October 17, 1985 regarding the Impacts of Natural Phenomena on Off-Site Emergency Response, consideration of Earthquakes on Off-Site Emergency Planning, and the status of ACRS activities related to Quantitative Safety Goals and ACRS Effectiveness.

2:00 P.M.–3:00 P.M.: Meeting with NRC Commissioners (Open)—The members of the ACRS will discuss the topics noted above with the NCR Commissioners.

3:00 P.M.–4:00 P.M.: Recent Events at Operating Reactors (Open)—The members will hear and discuss the report of its subcommittee and reports by members of the NRC Staff regarding recent incidents and accidents at nuclear power plants.

4:00 P.M.–6:00 P.M.: General Electric Standard Safety Analysis Report (GESSAR II) (Open/Close)—The members will discuss the proposed ACRS report to the NRC regarding the request for an FDA for this type of nuclear station.

Portions of this session will be closed as necessary to discuss Proprietary Information applicable to this matter and detailed security arrangements for this type facility.

6:10 P.M.–6:30 P.M.: Appointment of New ACRS Member (Open)—The members will discuss of a new ACRS member to fill the current vacancy on the Committee.

Friday, November 8, 1985

8:30 A.M.–9:30 A.M.: CRGR Activities (Open)—The members will hear and discuss a briefing regarding the activities of the NRC Committee for Review of Generic Requirements.

9:30 A.M.–11:30 A.M.: General Electric Standard Safety Analysis Report (GESSAR II) (Open/Closed)—The Committee will continue its discussion

of the request for an FDA for this type of nuclear facility.

Portions of this session will be closed as necessary to discuss Proprietary material applicable to this matter and detailed security arrangements for this type of facility.

11:30 A.M.–12:30 P.M.: NRC Outrage Inspection Program (Open)—The members will hear and discuss a briefing from a representative of the NRC Office of Inspection and Enforcement regarding an NRC program for the conduct of outrage inspections at nuclear power stations.

1:30 P.M.–2:30 P.M.: Quantitative Safety Goals (Open)—The members will hear and discuss the report of its subcommittee regarding the two-year evaluation and proposed implementation of Quantitative Safety Goals.

2:30 P.M.–5:30 P.M.: Beaver Valley Nuclear Power Station, Unit 2 (Open/Closed)—The members will hear and discuss the reports of its subcommittee, members of the NRC Staff, and representatives of the applicant regarding the request for an operating license for this nuclear station.

Portions of this session will be closed as necessary to discuss detailed security arrangements for this nuclear plant.

5:30 P.M.–5:45 P.M.: Seismic Design Margins (Open)—The members will discuss proposed ACRS reevaluation of the effort devoted to Seismic Design Margins.

5:45 P.M.–6:30 P.M.: Report of ACRS Subcommittee Activity (Open)—ACRS Subcommittee Chairman will report regarding the status of subcommittee activity in designated areas.

Saturday, November 9, 1985

8:30 A.M.–12:30 P.M. and 1:30 P.M.–2:30 P.M.: Preparation of ACRS Reports to the NRC (Open)—The members will discuss proposed reports to the NRC regarding matters considered during this meeting. In addition, proposed ACRS reports regarding the use of natural aptitude testing in selection of nuclear power plant operators, and the proposed source term to be used in evaluation of nuclear power plant accidents (NUREG–0956, Source Term Reassessment) will be discussed.

2:30 P.M.–3:00 P.M.: Reactor Pressure Vessel Thermal Shock (Open)—The members will discuss the report of an ACRS consultant regarding the evaluation of reactor pressure vessel thermal shock.

3:00 P.M.–3:30 P.M.: Activities of ACRS Members (Open/Closed)—Members will discuss proposed activities of members in their assignments as non-ACRS members.

Portions of this session will be closed as necessary to discuss information the release of which would represent an unwarranted invasion of personal privacy.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 2, 1985 (50 FR 191). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a prepaid telephone call to the ACRS Executive Director, R.F. Fraley, piror to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with subsection 10(d) Pub. L. 92–463 that it is necessary to close portions of this meeting as noted above to discuss Proprietary Information [5 U.S.C. 552b(c)(4)], detailed security information [5 U.S.C. 552b(c)(3)], and information the release of which would represent an unwarranted invasion of personal privacy [5 U.S.C. 552b(c)(6)].

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone (202) 634–3265), between 8:15 a.m. and 5:00 p.m.

Dated: October 22, 1985.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590–01

OFFICE OF PERSONNEL MANAGEMENT

Excepted Service

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: This gives notice of positions placed or revoked under Schedules A, B, and C in the excepted service, as required by civil service rule VI, Exceptions from the Competitive Service.

FOR FURTHER INFORMATION CONTACT: Tracy Spencer, (202) 632–6817.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management published its last monthly notice updating appointing authorities established or revoked under the Excepted Service provisions of 5 CFR Part 213 on October 11, 1985, (50 FR 41614). Individual authorities established or revoked under Schedules A, B, or C between September 1, 1985 and September 30, 1985 appear in a listing below. Future notices will be published on the fourth Tuesday of each month, or as soon as possible thereafter. A consolidated listing of all authorities will be published as of June 30 of each year.

Schedule A

No schedule A exceptions were established or revoked during September.

Schedule B

The following exceptions are revoked:

National Endowment for the Humanities

Schedule B appointing authorities for the positions of Special Assistant for Comparative Cultures and Humanist Administrator, Independent Study and Research Program, were revoked, effective September 25, 1985, because the positions have been abolished.

The following exceptions are established.

Department of Agriculture

One Confidential Assistant to the Assistant Secretary for Economics. Effective September 17, 1985.

Department of Commerce

One Confidential Assistant to the Special Assistant to the Deputy Secretary. Effective September 4, 1985.

One Confidential Assistant to the Under Secretary, International Trade Administration. Effective September 5, 1985.

One Confidential Assistant to the Assistant Secretary for Tourism Marketing. Effective September 18, 1985.

One Confidential Assistant to the Deputy Assistant Secretary for Trade Adjustment Assistance, International Trade Administration. Effective September 18, 1985.

One Assistant Legislative Director to the Director of Congressional Affairs, National Oceanic and Atmospheric Administration. Effective September 26, 1985.

Department of Defense

One Assistant for Multilateral Negotiations to the Deputy Assistant Secretary of Defense (Negotiations Policy). Effective September 5, 1985.

One Special Assistant to the Assistant Secretary of Defense (Public Affairs). Effective September 19, 1985.

One Special and Confidential Assistant to the Director, Office of Civilian Health and Medical Program of the Uniformed Services, with duty location in Aurora, Colorado. Effective September 20, 1985.

One Special Assistant to the Assistant Secretary of Defense (Acquisition and Logistics). Effective September 27, 1985.

Department of Education

One Confidential Assistant to the Executive Assistant to the Under Secretary. Effective September 17, 1985.

One Special Assistant to the Director, Issues Analysis Staff, Office of the Under Secretary. Effective September 17, 1985.

One Special Assistant to the Executive Assistant to the Under Secretary. Effective September 17, 1985.

One Confidential Assistant to the Assistant Secretary for Special Education and Rehabilitative Services. Effective September 25, 1985.

One Special Assistant to the Executive Assistant to the Under Secretary. Effective September 25, 1985.

Two Special Assistants to the Assistant Secretary for Special Education and Rehabilitative Services. Effective September 25, 1985.

Department of Energy

One Staff Assistant to the Assistant Secretary for Conservation and Renewable Energy. Effective September 17, 1985.

One Secretary (Confidential Assistant) to the Assistant Secretary for Environment, Safety, and Health. Effective September 18, 1985.

One Secretary (Confidential Assistant) to the Assistant Secretary for Management and Administration. Effective September 18, 1985.

One Confidential Assistant (Secretary) to the Special Assistant to the Secretary. Effective September 25, 1985.

One Legislative Affairs Specialist to the Staff Assistant, Office of Congressional, Intergovernmental, and Public Affairs. Effective September 25, 1985.

One Special Assistant to the Assistant Secretary for Environment, Safety and Health. Effective September 25, 1985.

One Staff Assistant to the Associate Director, Office of Resource Management, Office of Civilian Radioactive Waste Management. Effective September 25, 1985.

Department of Health and Human Services

One Congressional Liaison Specialist to the Deputy Assistant Secretary for Legislation (Congressional Liaison). Effective September 9, 1985.

One Assistant to the Secretary for Special Programs. Effective September 20, 1985.

One Special Assistant to the Deputy Under Secretary for Intergovernmental Affairs. Effective September 20, 1985.

Department of Housing and Urban Development

One Special Assistant to the Executive Assistant to the Secretary. Effective September 16, 1985.

One Staff Assistant to the Under Secretary. Effective September 16, 1985.

One Special Assistant to the Director, Office of Small and Disadvantaged Business Utilization, Office of the Secretary. Effective September 20, 1985.

One Special Assistant to the Under Secretary. Effective September 30, 1985.

Department of Justice

One Confidential Assistant (Private Secretary) to the Assistant Attorney General, Antitrust Division. Effective September 25, 1985.

Department of Labor

One Special Assistant to the Associate Deputy Under Secretary for Intergovernmental Affairs. Effective September 25, 1985.

One Staff Assistant to the Solicitor of Labor. Effective September 25, 1985.

One Confidential Staff Assistant to the Assistant Secretary, Employment and Training Administration. Effective September 26, 1985.

One Special Assistant to the Assistant Secretary, Employment and Training Administration. Effective September 27, 1985.

Department of Transportation

One Confidential Staff Assistant to the Chief Counsel, Federal Aviation Administration. Effective September 17, 1985.

Department of Treasury

One Director, Office of Business Affairs to the Assistant Secretary for Public Affairs and Public Liaison. Effective September 16, 1985.

One Legislative Assistant to the Assistant Secretary for Legislative Affairs. Effective September 26, 1985.

Consumer Product Safety Commission

One Attorney—Advisor to the General Counsel. Effective September 17, 1985.

Equal Employment Opportunity Commission

One Attorney—Advisor (Civil Rights) to the Chairman. Effective September 27, 1985.

General Services Administration

One Confidential Assistant to the Regional Administrator, with duty location in New York, New York. Effective September 4, 1985.

Occupational Safety and Health Review Commission

One Special Counsel to the Chairman. Effective September 16, 1985.

One Confidential Assistant to a Commissioner. Effective September 27, 1985.

Office of Personnel Management

One Special Assistant to the Director. Effective September 17, 1985.

One Special Assistant to the Director. Effective September 25, 1985.

President's Commission on White House Fellowships

One Assistant Director for Education Programs to the Director. Effective September 6, 1985.

One Associate Director, President's Commission on White House Fellowships, to the Director. Effective September 6, 1985.

Small Business Administration

One special Assistant to the Associate Administrator for Procurement Assistance. Effective September 17, 1985.

One Special Assistant to the Regional Administrator, with duty location in San Francisco, California. Effective September 17, 1985.

One Special Assistant to the Regional Administrator, with duty location in

Atlanta, Georgia. Effective September 18, 1985.

Two Assistant Administrators for Congressional and Legislative Affairs to the Administrator. Effective September 23, 1985.

One Special Assistant to the Associate Administrator for Minority Small Business and Capital Ownership Development. Effective September 25, 1985.

United States Trade Representative

One Public Affairs Specialist to the Assistant U.S. Trade Representative for Public, Private, Intergovernmental Affairs, Office of the U.S. Trade Representative, Executive Office of the President. Effective September 20, 1985.

Veterans Administration

One Confidential Assistant to the Associate Deputy Administrator for Logistics. Effective September 25, 1985.

U.S. Office of Personnel Management.

Constance Horner,

Director.

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

Northwest Conservation and Electric Power Plan; Proposed Model Conservation Standard Amendments; Extension of Comment Period

AGENCY: Pacific Northwest Electric Power and Conservation Planning Council (Northwest Power Planning Council).

ACTION: Extension of public comment period.

SUMMARY: The Northwest Power Planning Council previously set 5 p.m., Pacific time on October 21, 1985 as the deadline for receipt of pubic comments on proposed amendments to portions of its Northwest Conservation and Electric Power Plan (Plan) concerning model conservation standards (MCS) (50 FR 40091, Oct. 1, 1985). To accommodate a large number of persons who wished to present comments on those amendments at a public hearing scheduled for Seattle on October 21, the Council voted on October 21 to schedule an additional day for that hearing and extend the public comment period on the MCS amendments for two days.

DATES AND ADDRESSES: The Public comment period regarding the proposed MCS amendments will now close at 5 p.m. Pacific time on October 23, 1985 (rather than October 21, as previously announced). Additionally, the public hearing originally set for Seattle, Washington on Monday, October 21 has been continued for an additional day and will take additional public comments on Wednesday, October 23 beginning at 9 a.m. in the Leeward Room of the Downtown Hilton, 6th and University, Seattle. As noted in previous announcements, this hearing will take public comment of both the proposed MCS amendments and the Council's draft revision of its Plan.

FOR FURTHER INFORMATION CONTACT: Dulcy Mahar, Director of Public Information and Involvement, at the Council's central office (850 S.W. Broadway, Suite 1100, Portland, Oregon 97205 or 503–222–5161, toll free 1–800–222–3355 in Idaho, Montana and Washington or 1–800–452–2324 in Oregon).

Rick Applegate,

Executive Assistant.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–22546; File No. SR–NASD–85–31]

Self-Regulatory Organizations; Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Modification of the Small Order Execution System for Transactions in Over-The-Counter Securities.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on October 10, 1985, the National Association of Securities Dealers, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The following is the full text of a rule change by the National Association of Securities Dealers, Inc. relating to modification of the facilities description of the Small Order Execution System for transactions in over-the-counter securities approved by the Commission in SR–NASD–84–26. This rule change was approved by the Commission in SR–NASD–85–25 and was effective for a period of 90 days to permit consideration by the Commission of approval of the proposed modification on a permanent basis. The text of the rule change is:

The National Association of Securities Dealers Inc. ("NASD") has filed as a stated policy, practice or interpretation, a description of a new facility which has been designed and developed by NASD Market Services, Inc. a subsidiary of the NASD.

NASD Market Services, Inc. has developed a Small Order Execution System ("SOES") which is an order routing and execution system, specifically designed to execute limited size orders [(initially 500 shares)] (*currently 500 shares for NASDAQ and 1,000 shares for NASDAQ/NMS securities*) in over-the-counter securities.

Remaining test is unchanged.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B) and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of SOES is to improve the efficiency of execution of transactions in over-the-counter

securities through the use of new data processing and communications techniques. The entry and execution of up to 1,000 shares in NASDAQ/NMS issues is part of the increased efficiency and capability of the system.

The statutory basis for the development and implementation of SOES is found in section 11A(a)(1) (B) and (C)(i), 15A(b)(6), and 17A(a)(1) (B) and (C) of the Securities Exchange Act of 1934 ("Act"). Section 11A(a)(1) (B) and (C)(i) sets forth the Congressional goal of achieving more efficient and effective market operations and the economically efficient execution of transactions through new data processing and communications techniques. Section 15A(b)(6) requires that the rules of the Association be designed "to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market. . ." Section 17A(a)(1) (B) and (C) sets forth the Congressional goal of reducing costs involved in the clearance and settlement process through new data processing and communications techniques. The Association believes that the modification to SOES will further these ends by providing an enhanced mechanism for the efficient and economic execution and clearance of transactions in over-the-counter securities.

B. Self-Regulatory Organization's Statement on Burden on Competition

SOES is a service to which participants subscribe on a voluntary basis and as such the Association believes that it imposes no burden on competition. To the extent that any burden on competition may be found to exist, the Association believes that the benefit of increased efficiency of SOES will outweigh any potential burden upon competition and materially advance the purposes to be served under the foregoing sections of the Act. It is also important to note that the transactional size provided for in SOES comports with transactional size in execution systems operated or under the control of other self-regulatory organizations.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Changes Received From Members, Participants, or Others

Comments were neither solicited nor received in connection with the proposed modification to SOES.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period as the Commission may designate up to 120 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization located at 1735 K Street, NW., Washington, DC 20006. All submissions should refer to the file number in the caption above and should be submitted by Tuesday, November 19, 1985.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 21, 1985.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Midwest Stock Exchange, Inc.

October 22, 1985.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following securities:

Downey Savings and Loan Association
Common Stock, No Par Value (File No. 7-8638)
Countrywide Credit Industries, Inc.
Common Stock, $.05 Par Value (File No. 7-8639)
Educational Computer Corp.
Common Stock, $.10 Par Value (File No. 7-8640)
Vestron Inc.
Common Stock, $0.01 Par Value (File No. 7-8641)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 12, 1985, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34–22550; File Nos. SR-Amex-85-33, SR-CBOE-82-17]

Self Regulatory Organizations; Proposed Rule Change by the American Stock Exchange, Inc. and Amendment to a Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating To Establishment of a Control-Based System of Aggregating Options Positions for the Purpose of Determining Options Position and Exercise Limits

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that the American Stock Exchange ("Amex") and Chicago Board Options Exchange, Incorporated ("CBOE") have filed with the Securities and Exchange Commission the proposed rule changes as described in Items I, II, and III below, which Items have been prepared by the exchanges.[1] The Commission is publishing this notice to solicit comments on the proposed rule changes from interested persons.

I. Self/Regulatory Organizations' Statement of the Terms of Substances of the Proposed Rule Changes

The Exchanges have proposed to amend their rules to establish a control-based system of aggregating options positions for the purpose of determining options position and exercise limits.

The proposed system establishes "control" rather than "ownership" as the determinative factor for aggregation of accounts.[2] The exchanges propose to define "control" as the power to make investment decisions for an account or accounts, or to materially influence directly or indirectly the actions of any person who makes investment decisions. In either of these circumstances, control would be deemed to exist, and positions would be aggregated for purposes of position and exercise limits. In addition, control would be presumed to exist under certain circumstances indicative of interdependence between accounts. These circumstances are detailed below in the Statement of the Purpose of and Statutory Basis for the Proposed Rule Changes, which is Section II.A of the filing.

The presumption of control, however, would be rebuttable by a person or entity who could show good cause for nonaggregation. This approach permits the exchanges to engage in case-by-case consideration regarding the application of the proposed rules.

II. Self/Regulatory Organizations' Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

In their filings with the Commission, the exchanges included statements concerning the purpose of and basis for the proposed rule changes. The text of these statements may be examined at the places specified in Item IV below. The exchanges have prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Exchanges' Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

Since the inception of the Amex and the CBOE's options trading programs, position and exercise limit rules (Amex Rules 904 and 905 and CBOE Rules 4.11 and 4.12) have limited the number of options contracts that can be owned and exercised in a single account within a five day period. The rules also require aggregation of option positions in accounts (1) under common ownership, (2) under common control, or (3) in which the controlling persons act in concert to accumulate positions.

The automatic aggregation of positions under common ownership mandates, for example, that the option positions of two entirely separate and independent subsidiaries must be aggregated with their parent companies. Hence, under the present rules, a securities firm's proprietary options account must be aggregated with a related company's institutional account, even though the investment decisions are made independently.

In December 1982 and Janury 1983, respectively, the Amex and the CBOE submitted proposals to the Commission to establish control rather than ownership per se as the determinative factor for aggregation of accounts. The Commission staff preliminarily agreed with the policy of aggregating only those accounts that are effectively controlled by a particular individual or entity. However, the Commission staff required the exchanges to amend the proposed rule changes to specifically describe the kinds of business relationships that will give rise to the presumption of control. Accordingly, the Amex and the CBOE have worked together to develop a common approach for the aggregation of options accounts and have drafted an

---

[1] The Amex filed September 9, 1985 and the CBOE filed amendments to SR–CBOE–82–17 on September 19, 1985.

[2] The Amex's proposal would amend exchange Rules 904 and 905. The CBOE's proposal would amend exchange Rules 4.11 and 4.12, Rules 20.3 and 20.4 (regarding Government National Mortgage Association options), and Rules 21.3 and 21.4 (regarding Treasury options).

Information Circular detailing the circumstances in which control will be presumed.

After discussions between the Amex and the CBOE as well as with the other self-regulatory organizations, the exchanges propose to amend Amex Rules 904 and 905, and CBOE Rules 4.11, 4.12, 8.9.05, 20.3, 20.4, and 21.3 and 21.4 based solely on ownership. Instead, the exchanges will consider *control* of accounts as the determinative criteria for aggregating positions.

The exchanges proposes to define "control" as the power to make investment decisions for an account or accounts, or to materially influence directly or indirectly the actions of any person who makes investment decisions. Thus, if a person or entity has such power over two or more accounts, the exchanges would presume that control exists and that the positions in such accounts would be aggregated for purposes of position and exercise limits. In addition, control would be presumed: (1) between members of joint accounts; (2) between general partners; (3) upon a finding of an ownership interest of 10% or more in an entity by another entity; (4) when accounts have common directors or management; and (5) where a person or entity has the authority to execute transactions in an account.

The presumption of control, however, would be rebuttable by a person or entity who submits an affidavit or other documentary evidence sufficient to negate the presumption. The exchanges would consider the following factors in determining if aggregation of accounts would be required: (1) Similar patterns of trading acivity among separate entities; (2) the sharing of kindred business purpose and interests; (3) whether there is common supervision of the entities which extends beyond assuring adherence to each entity's investment objectives and/or restrictions; (4) the degree of contact and communication between directors and/or managers of separate accounts.[3]

Determinations under these criteria will be made by the Options Surveillance Department at the Amex, and the Market Surveillance Department at the CBOE. At the CBOE the intial determination may be reviewed by the President of the Exchange or his designee. A member or customer directly affected by such a determination may ask the President of the Exchange or his designee to reconsider, but may not request any other review or appeal, except in the context of a disciplinary proceeding. The Amex makes no special provisions for review of these determinations.

The proposed rule changes make materially uniform the language of the respective exchanges' rules concerning position limits. In addition, the CBOE revises the position and exercise limit rules concerning GNMA and Treasury options, respectively, in Chapters 20 and 21 of its rules, to incorporate the general rules found in Chapter 4 rather than restate them in these separate chapters. This incorporation by reference previously was effected in the CBOE's index options rules in Chapter 24, and will simplify, clarify and make consistent CBOE's position and exercise limit provisions.

The proposed rule changes are consistent with the requirements of the Securities Exchange Act of 1934 ("1934 Act") and the rules and regulations thereunder applicable to the exchanges by providing for a more practical standard for determining if the options positions of two or more accounts should be aggregated. Therefore, the proposed rule changes are consistent with section 6(d)(5) of the 1934 Act, which provides in pertinent part, that the rules of the exchanges be designed to promote just and equitable principles of trade and to protect the investing public.

B. Self-Regulatory Organizations' Statement on Burden on Competition

The exchanges believe that the proposed rule changes will not impose a burden on competition.

C. Self-Regulatory Organizations' Statement on Comments on the Proposed Rule Changes Received from Members, Participants, or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organizations consent, the Commission will:

(A) by order approve such proposed rule changes, or

(B) institute proceedings to determine whether the proposed rule changes should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule changes that are filed with the Commission, and all written communciations relating to the proposed rule changes between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filings also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organizations. All submissions should refer to the file number in the caption above and should be submitted by November 19, 1985.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 21, 1985.

John Wheeler,

Secretary.

[FR Doc. 85-25783 Filed 10-28-85; 8:45 am]

BILLING CODE 8010-01-M

[3] While the CBOE includes these provisions in its Interpretations and policies to Rule 4.11, the Amex incorporates them by reference to its Information Circular #85-00 which lists the above factors.

[Release No. 34-22554; File No. SR-NYSE-85-38]

Self-Regulatory Organization; Proposed Rule Change by New York Stock Exchange, Inc. Relating to the Formulation of Certain Trading Halt Procedures; Pending the Release of Significant News

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on October 16, 1985, the New York Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change relating to its trading halt procedures as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Changes

The proposed rule changes consist of formulation of certain trading half procedures which will be incorporated in the NYSE Listed Company Manual as paragraph 202.07. Specifically, the procedures propose to address those situations where trading in a listed company's securities has been halted or delayed in the expectation of the subsequent release of a material news announcement, but no such announcement has been forthcoming.

Under such circumstances, while the time period for opening or reopening trading may vary from case to case as a result of the particular circumstances involved, normally if the announcement is not made within approximately 30 minutes after the delay or halt is implemented, the Exchange may commence the opening or reopening of trading.

The terms of the proposed rule changes are more fully set forth in Item II(A), below.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed trading halt procedures and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in Sections (A), (B) and (C) below.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

(1) Purpose

Under the New York Stock Exchange's Telephone Alert policy, it is recommended that a listed company notify its Exchange representative at least ten minutes prior to making a material news announcement. The Exchange can then determine whether, in its opinion, trading in the company's securities should be temporarily halted or delayed in opening.

Over the last several months, the Exchange has been faced with a number of situations where trading in a listed company's securities has been halted or delayed in the expectation of the subsequent release of a material news announcement, but no such annoucement has been forthcoming.

Under these circumstances the Exchange faced a dilemma. Since pending news development may have a significant effect on trading, the Exchange feels that all investors should have an opportunity to learn of and react to news and to make informed investment judgments based on that knowledge before trading is resumed. Equally important to the Exchange, on the other hand, is the need to provide investors with a liquid market within which to buy or sell securities whenever they choose.

Decisions by the Exchange to halt or delay trading in a listed security and thereafter to resume trading necessarily depend upon the circumstances of each particular situation. While specific definition is not possible, the Exchange will in all cases be guided by its intention to maintain a fair, orderly and continuous market in its listed securities, insofar as reasonably practicable under the circumstances. In light of the experience gained and in an effort to balance the competing considerations involved, the Exchange has adopted the following policy:

Whenever the Exchange determines that trading in a listed security should be halted or delayed pending the release of a material news announcement:

- Implementaton of the halt or delay will be announced and the reason for the halt or delay will be stated "news pending";
- Thereafter, the Exchange will monitor the situation closely and will commence the opening or reopening of trading in the listed security in accordance with its normal procedures as soon as the material news announcement has been made. If the announcement is not made within a reasonable time after the halt or delay is implemented, trading in the listed security may be opened or reopened in the interests of providing a liquid market. While the time period may vary from case to case as a result of the particular circumstances involved, normally, if the announcement is not made within approximately 30 minutes after the delay or halt is implemented, the Exchange may commence the opening or reopening of trading in the listed security. Such action will be preceded by an annoucement to the effect that trading is resuming even though the material news announcement has not been released.

(2) Statutory Basis for the Proposed Rule Changes

The statutory basis for the proposed policy changes is Section 6(b)(5) of the Securities Exchange Act of 1934 as amended ("the Act") which, among other things, requires Exchange rules to be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest; and are not designed to permit unfair discrimination between customers, issuers, brokers, or dealers, or to regulate by virtue of any authority conferred by this title matters not related to the purposes of this title or the administration of the Exchange.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule changes will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Policy Changes Received From Members, Participants, or Others

The Exchange has not solicited comments on the proposed rule change and no unsolicited comments have been received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed procedure modifications that are filed with the Commission, and

all written communications relating to the proposed modifications between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by November 19, 1985.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

Dated: October 23, 1985.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

[File No. 1-8118]

Issuer Delisting; Application To Withdraw From Listing and Registration; Coradian Corp.

October 22, 1985.

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the American Stock Exchange, Inc. ("Amex").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

Coradian Corporation is no longer eligible for continued dealing on the American Stock Exchange, as it has a tangible net worth of less than $4,000,000 and has sustained losses from continuing operations and/or net losses in three of its four most recent fiscal years. Coradian experienced the following losses in the last three fiscal years: 1984—$1,888,240; 1983—$4,150,433; 1982—$2,758,149. In addition, Coradian had a tangible net worth of $470,181 as of December 31, 1984.

Any interested person may, on or before November 12, 1985, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, DC 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

[Release No. IC-14765; (812-6199)]

Wingate Housing Partners '85 Limited Partnership, et al.; Application for an Order Declaring That Applicant is Not an Investment Company, or in the Alternative

October 22, 1985.

Notice is hereby given that Wingate Housing Partners '85 Limited Partnership ("Partnership"), a limited partnership organized under the laws of the Commonwealth of Massachusetts, and its general partner, Wingate Development Corp. ("General Partner", and together with Partnership, "Applicants"), Old Central Wharf, 75 Central Street, Boston, Massachusetts 02109, filed an application on September 12, 1985, pursuant to section 3(b)(2) of the Investment Company Act of 1940 ("Act") for an order declaring that Applicant is not an investment company, or, in the alternative, pursuant to section 6(c) of the Act exempting the Partnership from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the text of the applicable statutory provisions.

The Partnership was formed in accordance with the provisions of the Massachusetts Uniform Limited Partnership Act on March 20, 1985, for the purpose of providing investors with a means of acquiring equity interests in two properties, both of which will be government-assisted rental housing developments in accordance with the policies and objectives of title IX of the Housing and Urban Development Act of 1968 ("Title IX"), or a similar program under Rhode Island law. The Partnership will invest as a "two-tier" entity—that is, that Partnership will invest as a limited partner in two other limited partnerships ("Local Limited Partnerships") which, in turn, will engage in the ownership and operation of housing suitable for low and moderate income persons ("Developments").

On August 2, 1985, the Partnership filed a registration statement on Form S-11 ("Registration Statement") under the Securities Act of 1933 ("Securities Act"), pursuant to which the Partnership intends to offer publicly 3,430 limited partnerships ("Interests") at a price of $1,000 per Interest. Purchasers of the Interests will become limited partners of the Partnership ("Limited Partners").

Subscriptions for Interests must be approved by the General Partner, and such approval will be made conditional upon representations as to suitability of the investment for each subscriber, including compliance with certain standards in regard to net worth and/or taxable income imposed by various states in which the Interests are expected to be offered.

The Partnership will be controlled and managed by the General Partner, but the Limited Partners, consistent with their limited liability status, will be entitled to vote on certain material matters affecting the operation of the Partnership. Limited Partners owning a majority of Partnership Interests will have the right to amend the partnership agreement, remove any General Partner and elect a replacement therefor, to sell or otherwise dispose of all, or substantially all, of the Partnership's assets and to dissolve the Partnership. In addition, under the partnership agreement, each Limited Partner is entitled to review all books and records of the Partnership at any and all reasonable times.

Applicants state that the Partnership will own between 90-99% of the limited partnership interests in the Local Limited Partnerships and that, accordingly, the Partnership will have effective control of each of the Local Limited Partnerships.

Applicants represent that all types of compensation and reimbursement to be paid to the General Partner and its affiliates at both the Partnership and Local Limited Partnership levels are specified in the prospectus included within the Registration Statement and are believed to be fair and reasonable and within applicable state guidelines, including those established by the North American Securities Administrators Associaiton, Inc. for real estate programs.

Applicants request that the Commission issue an order pursuant to section 3(b)(2) of the Act declaring that the Partnership is not an investment company within the meaning of section 3(a)(3) of the Act, or, in the alternative, that the Commission issue an order

pursuant to section 6(c) exempting the Partnership from all provisions of the Act. Without conceding that the Partnership is an investment company as defined in the Act, Applicants contend that the exemption of the Partnership from all provisions of the Act is both necessary and appropriate in the public interest and consistent with the protection of investors and the purposes and policies underlying the Act.

Applicants assert that investment in low and moderate income housing in accordance with the national policy expressed in Title IX is not economically suitable for private investors without the tax and organizational advantages of the limited partnership form. Applicants assert that the limited partnership structure provides an important means of bringing private equity capital into government-assisted housing, particularly because public investors typically consider investment in low and moderate income housing programs as involving greater risk than real estate investment generally. Applicants maintain that application of the Act would discourage two-tier limited partnership arrangements and thus eliminate one of the best available means of attracting private equity capital into government-assisted housing, and thereby frustrate national policy. Applicants maintain that the contemplated operations of the Partnership are not susceptible to abuses of the sort that the Act was designed to remedy. Applicants state that Partnership documents, including the Registration Statement, contain numerous provisions designed to ensure fair dealing by the General Partner with the Limited Partners of the Partnership. Applicants state that the suitability standards established for Limited Partners, the requirements for fair dealing and pertinent governmental regulations imposed on the Partnership and on the Local Limited Partnerships provide protection to investors comparable to and in some respects greater than that provided by the Act.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than November 14, 1985, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for the request, and the specific issues of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, DC 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

[FR Doc. 85–25786 Filed 10–28–85; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 35–23874; 70–7157]

Consolidated Gas Transmission Corp. et al.; Leasing of Excess Channels in Microwave Radio Facilities

October 23, 1985.

Consolidated Gas Transmnission ("Transmission"), 455 West Main Street, Clarksburg, West Virginia 26301, The East Ohio Gas Company ("East Ohio"), 1717 East Ninth Street, Cleveland, Ohio 44114, and The Peoples Natural Gas Company ("Peoples"), Two Gateway Center, Pittsburgh, Pennsylvania 15222, subsidiaries of Consolidated Natural Gas Company, a registered holding company, have filed an application with this Commission pursuant to sections 9(a) and 10 of the Public Utility Holding Company Act of 1935 ("Act").

Transmission, East Ohio, and Peoples individually hold Federal Communication Commission ("FCC") microwave licenses in frequency bands 928–960 megahertz, 2130–2200 megahertz, and 6525–6875 megahertz. In the case of Transmission, a non-utility, gas transmission company, microwave radio is used extensively for voice communications throughout its pipeline system in West Virginia, Pennsylvania, Ohio, and New York, as well as for data transmisison to and from the Consolidated System's main frame computer at Independence, Ohio, and for transmission of operating data to and from critical control points throughout the pipeline system. This includes telemetering of sales volumes and pressures at major delivery points to customers, activating station control valves at compressor stations, and activating some line valves. Valves can be activated and meters read throughout the pipeline system at the gas control center in the general office building at Clarksburg, West Virginia. East Ohio and Peoples, both of which are gss utility companies, use their microwave systems for basically the same purposes, although not as extensively due to their more limited operating areas.

On January 31, 1985, the FCC adopted amendments to Part 94 (47 CFR Part 94) of its rules and regulations authorizing licensees in the private, operational-fixed microwave radio service to lease excess microwave radio channels to non-affiliates for profit. The stated purposes of deregulation of the private, operational-fixed microwave radio service in which Transmission, East Ohio, and Peoples are licensed are to obviate the need for others to build redundant parallel systems, to enable small businesses to have access to microwave radio communications, to promote spectrum efficiency by allowing existing facilities to be used to maximum capacity, and to promote competition in the communications field.

Since Transmission, East Ohio, and Peoples have excess channels in their already existing microwave radio facilities, said companies propose to lease such excess channels to non-affiliates in a manner which will not interfere with their primary use and which is consistent with FCC regulation. Each company will determine individually what facilities it will lease and what it will charge, and each will retain the revenues generated by its own facilities.

It is stated that the excess channel capacity is a result of the FCC license process whereby carrier frequency and a band width is designated in the license. Telecommunications technology has advanced to allow more available channels within the allocated band width, and currently 600 channels can be provided where only 300 would fit a few years ago. The three companies are presently using less than 200 channels on systems capable of 600 channels.

The application and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by November 18, 1985, to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the applicants at the addresses specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application, as amended or as it may be further amended, may be granted.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

[FR Doc. 85–25788 Filed 10–28–85; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 35–23872; 70–7164]

New England Power Co.; Proposal To Acquire Outstanding Bonds Prior to Redemption

October 22, 1985.

New England Power Company ("NEP"), 25 Research Drive, Westborough, Massachusetts 01582, a subsidiary of New England Electric System, a registered holding company has filed an application-declaration with this Commission pursuant to sections 9(a), 10 and 12(c) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 42 and 51 thereunder.

NEP seeks authorization to acquire all or part of two series of its outstanding General and Refunding Mortgage Bonds ("G&R Bonds") prior to the date on which the bonds can be called through a general redemption. These series are (i) Series E, 16%, due November 1, 2011 ("Series E Bonds"), and (ii) Series F, 16–5/8%, due June 1, 2012 ("Series F Bonds").

NEP proposes to acquire these Bonds through open market purchases or general offers to bondholders prior to the date on which the bonds can be called through a general redemption in order to take advantage of lower interest rates. NEP is prevented from redeeming the Series E Bonds before November 1, 1986, and the Series F Bonds before June 1, 987, if such redemption is for the purposes or in anticipation of refunding Bonds, or any part thereof, through the use, directly or indirectly, of funds borrowed by NEP at an effective interest cost to NEP of less than 16.12% per annum for the Series E Bonds and 16.93% per annum for the Series F Bonds. At September 30, 1985, there were $44,916,000 and $39,076,000 outstanding of the Series E and Series F Bonds, respectively.

NEP has filed a 24-month financing plan with the Commission (HCAR No. 23522, December 7, 1985). Pursuant to this plan, NEP expects to issue up to $40 million of G&R Bonds to support the issuance and sale of pollution control revenue bonds ("PCRBs") for expenditures associated with its ownership of the Millstone 3 nuclear project ("Millstone Bonds"). Pursuant to the order of the Massachusetts Department of Public Utilities, funds made available by this financing are to be used to redeem one or more series of outstanding long-term taxable G&R Bonds.

NEP plans to acquire the Series E and the Series F Bonds through funds made available by: (i) The issuance of the Millstone Bonds, (ii) other proposed issues of G&R Bonds to support the issuance and sale of tax exempt PCRBs, (iii) the issuance of short-term debt, or (iv) any combination of the above. It is expected that the combination of all proposed financings and acquisitions will leave essentially unchanged the level of both short-term and long-term borrowings of NEP after all such transactions are completed. By acquiring these high interest rate bonds, NEP will be able to reduce its cost of capital for the benefit of its ratepayers.

The Series E and Series F Bonds will be purchased at prices to be determined from time to time. In no event will NEP pay a price on the Series E Bonds that exceeds a level which would produce a yield to first call, as calculated using generally accepted financial practices, of less than 50% above the yield on the U.S. Treasury Note, 11% due November 1986, as published in The Wall Street Journal within five business days of the purchase or offer date. Similarly, in no event will NEP pay a price on the Series F Bonds exceeding a first call yield level of less than 50% above 10.5% Treasury Notes, due June 1987. During the last four months, the U.S. Treasury Notes, 11%, due 1986, has been priced with a yield as low as 7.90% and the U.S. Treasury Note, 10.5%, due June 1987, has been priced with a yield as low as 8.40%.

NEP may retain the services of a dealer manager to disseminate the offers to acquire the bonds and receive responses thereto. In the event an agreement with a dealer manager is negotiated, NEP will file by amendment a preliminary draft of such agreement.

Pledged First Mortgage Bonds ("Pledged Bonds") have been issued in conjuction with the issue of Series E and Series F Bonds to provide security for all outstanding G&R Bonds. Upon acquisition and retirement of the Series E and Series F Bonds, corresponding amounts of Pledged Bonds will be retired. At that time, NEP may be required to issue additional Pledged Bonds to further secure then outstanding G&R Bonds pursuant to the General and Refunding Mortgage Indenture and Deed of Trust.

NEP desires to retain the flexibility to take advantage of favorable market conditions. Therefore, NEP request authority to acquire Series E and Series F Bonds through the dates at which they may be called through general redemption without restriction, November 1, 1986 and June 1, 1987, respectively. If favorable market conditions have not developed by these dates, the respective bonds may be called through a general redemption.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing submit their views in writing by November 15, 1985 to the Secretary, Securities and Exchange Commission, Washington, DC, 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service by affidavit or, in case of an attorney at law, by certificate, should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

[FR Doc. 85–25787 Filed 10–28–85; 8:45 am]

BILLING CODE 8010–10–M

[Release No. 35–23871; 70–6620]

Yankee Atomic Electric Co.; Proposed Amendments to Credit Agreement

October 22, 1985.

Yankee Atomic Electric Company ("Yankee Atomic"), 1671 Worcester Road, Framingham, Massachusetts 01701, an electric utility subsidiary of New England Electric System and Northeast Utilities, registered holding companies, has filed with this Commission a post-effective amendment to the declaration in this proceeding pursuant to sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act").

By order in this proceeding dated September 25, 1985 (HCAR No. 22205), Yankee Atomic was authorized to enter into a credit agreement with the Bank of Nova Scotia and the Bank of Nova Scotia International (Curacao) N.V. under which the company would sell to the banks notes maturing on June 30, 1990, up to aggregate principal amount of $15,000,000. Yankee Atomic seeks approval to amend the credit agreement

as follows: (1) The termination dates of the Credit Agreement and the maturity date of the notes issued thereunder are to be extended by one year to June 30, 1991; (2) the interest rate on all advances made by the Bank of Nova Scotia are to be reduced to ¾ of 1% above the Base Rate, as defined, from the current rate of 1⅛% above the Base Rate; (3) the interest rate on all advances made by the Bank of Nova Scotia International are to be reduced to 1⅛% above the LIBO Rate, as defined, from the current rate of 1⅜% above the LIBO Rate; and (4) the repayment period is extended, and the repayments are to be made according to a revised schedule. The Bank of Nova Scotia International Limited has succeeded to all right, title, and interest of the Bank of Nova Scotia International (Curacao) N.V. under the Credit Agreement.

The amended declaration and any further amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by November 18, 1985, to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will receive a copy of any notice or order issued in this matter. After said date, the declaration, as amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1985 Rev., Supp. No. 6]

Surety Companies Acceptable of Federal Bonds; Termination of Authority; Iowa National Mutual Insurance Co.

Notice is hereby given that the Certificate of Authority issued by the Treasury to Iowa National Mutual Insurance Company, of Cedar Rapids, Iowa, under Sections 9304 to 9308 of Title 31 of the United States Code, to qualify as an acceptable surety on Federal bonds is hereby terminated effective this date.

The Company was last listed as an acceptable surety on Federal bonds at 50 FR 27121, July 1, 1985.

With respect to any bonds currently in force with Iowa National Mutual Insurance Company, bond-approving officers for the Government should secure new bonds with acceptable sureties in those instances where a significant amount of liability remains outstanding.

Questions concerning this notice may be directed to the Department of the Treasury, Financial Management Service, Finance Division, Surety Bond branch, Washington, D.C. 20226, telephone (202) 634–2347.

Dated: October 17, 1985.

W.E. Douglas,

Commissioner, Financial Management Service.

1

FEDERAL COMMUNICATIONS COMMISSION.

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, October 31, 1985, which is scheduled to commence at 9:30 A.M., in Room 856, at 1919 M Street, NW., Washington, DC.

Agenda	Item No.	Subject
Common Carrier.	1	TITLE: Report and Order incorporating generally accepted accounting principles into the proposed Uniform System of Accounts being developed in CC Docket 78-196 to the extent that regulatory considerations allow. SUMMARY: The Commission will consider whether to incorporate generally accepted accounting principles (GAAP) into the Uniform System of accounts being developed in CC Docket 78-196. GAAP would be followed only to the extent that regulatory considerations allow.
	2	TITLE: Sales Agency Reconsideration Order and Evaluation of the Sales Agency Plans for the Furnishing of Customer Premises Equipment and Intrastate Basic Services. SUMMARY: This Commission will consider the adoption of an Order whether to affirm the *Sales Agency Order* permitting the Bell Operating Companies' subsidiaries to market intrastate basic services jointly with customer premises equipment. This Commission will also consider whether to grant the waiver petitions filed in relation to the Sales Agency Order; and whether to approve the sales agency plans filed by Ameritech, NYNEX, Bellsouth and US West.
	3	TITLE: Termination of Investigation of AT&T's Software Defined Network Service and Northwestern Bell's Software Network Capability service. SUMMARY: The Commission will consider a Memorandum Opinion and Order terminating investigation of AT&T's Transmittal No. 321 and Northwestern Bell's Transmittal No. 991 proposing tariff revisions establishing software defined network services, docketed as CC Docket No. 85-203.
	4	TITLE: Petitions to reject or to suspend and investigate tariff revisions filed by the American Telephone and Telegraph Company (AT&T) proposing to offer two interstate telecommunications services: Magacom and Megacom 800. SUMMARY: The Commission will consider a Memorandum Opinion and Order disposing of petitions to suspend and investigate or reject tariff revisions proposed by AT&T to establish "Megacom" and "Megacom 800" services. TITLE: International Competitive Carrier Policies. SUMMARY: The Commission will consider the adoption of a Report and Order in CC Docket No. 85-107 that concerns international competitive carrier policies.
Mass Media.	1	TITLE: Deletion of AM Application Acceptance Criteria in § 73.37(e) of the Commission's Rules. SUMMARY: In Docket No. 85-39, the Commission adopted a Notice of Proposed Rule Making proposing to delete the non-technical application criteria set forth in § 73.37(e) of the Rules. The Commission will consider a Report and Order disposing of the issues raised in this proceeding.
	2	TITLE: Review of Technical and Operational Requirements of Part 76, Cable Television. SUMMARY: The Commission will consider adoption of a Report and Order concerning cable TV signal quality standards.
	3	TITLE: In the matter of Review of Technical and Operational Requirements: Part 74-E Aural Broadcast STL and ICR Stations; and Part 74-F TV Auxiliary Broadcast Stations. SUMMARY: The Commission will consider adoption of an R&O to propose Rule changes: (1) affecting frequency authorization procedures; (2) allowing single sideband operation in the 944-952 MHz band; (3) permitting TV auxiliary use of UHF TV channels; (4) relaxing remote control rules; and (5) eliminating station identification requirement for fixed links.
	4	TITLE: Review of the Technical and Operational Requirements: Part 73, Subparts B, C, and H, FM Broadcast Stations. SUMMARY: The Commission will consider adoption of a Notice of Proposed Rule Making to deregulate the technical requirements for FM broadcast stations.
	5	TITLE: AM Broadcast Directional Antenna Sampling Systems and Proof of Performance Filed Strength Measurements. SUMMARY: The Commission will consider adoption of a Report and Order concerning the required AM broadcast directional antenna sampling system standards and periodic field strength measurements.
	6	TITLE: (1) Applications to assign the licenses of television stations WNEW-TV and W64AA (translator), New York, New York; KTTV, Los Angeles, California; KRLD-TV, Dallas, Texas; KRIV-TV, Houston, Texas; and WTTG, Washington, D.C., from Metromedia Radio & Television, Inc. to News America Incorporated (BALCT-850624KL-KP and BALCT-850624KR); (2) application to assign the license of station WFLD-TV, Chicago, Illinois, from WFLD Television, Inc. to News America Television Incorporated (BALCT-850624 KQ); and (3) an application to assign the license of station WCVB-TV, Boston, Massachusetts, from Metromedia Radio & Television, Inc. to The Hearst Corporation (BALCT-85624KK). SUMMARY: The Commission will consider News America Television Incorporated's (K. Rupert Murdoch) and The Hearst Corporation's applications to acquire television stations WNEW-TV, KTTV, KRLD-TV, KRIV-TV, WTTG and WCVB-TV. K. Rupert Murdoch presently controls *The New York Post*, published in New York, New York, and *The Chicago Sun-Times*, published in Chicago, Illinois. Since § 73.3555(c)(3) of the Commission's Rules prohibits common-ownership of a daily newspaper and a television station, Murdoch has requested a two-year period within which to divest of the newspapers. The Commission will also consider petitions to deny filed by Sue Gottfried; the California Association of the Physically Handicapped, Inc., the National Coalition on Television Violence; the Media Access Project; the Washington Association for Television and Children; Metrowest Corporation, licensee of WPWR-TV, Aurora, Illinois, and Anthony R. Martin-Trigona.

Federal Communications Commission.
Issued October 24, 1985.
William J. Tricarico,
Secretary.

BILLING CODE 6210–01–M

3

NCULEAR REGULATORY COMMISSION

DATES: Weeks of October 28, November 4, 11, and 18, 1985.

PLACE: Commissioners' Conference Room, 1717 H Street NW., Washington, D.C.

STATUS: Open and Closed.

MATTERS TO BE CONSIDERED:

Week of October 28

Thursday, October 31

10:00 a.m.
Discussion of Exemption Requests—Environmental Qualification (Public Meeting)
11:30 a.m.
Affirmation Meeting (Public Meeting) (if needed)

Week of November 4—Tentative

Monday, November 4

10:00 a.m.
Quarterly Source Term Briefing (Public Meeting)
2:00 p.m.
Continuation of 9/4 Discussion of Threat Level and Physical Security (Closed—Ex. 1)

Tuesday, November 5

10:00 a.m.
Discussion/Possible Vote on Full Power Operating License for River Bend (Public Meeting)
2:00 p.m.
Reserved Time for Environmental Qualification Discussions (Public Meeting) (if needed)

Wednesday, November 6

9:30 a.m.
Briefing on NUMARC Initiatives (Public Meeting)
2:00 p.m.
Discussion of Management-Organization and Internal Personnel Matters (Closed—Ex. 2 & 6)
3:30 p.m.
Affirmation Meeting (Public Meeting) (if needed)

Week of November 11—Tentative

Thursday, November 14

2:00 p.m.
Continuation of 9/11 Discussion of Proposed Station Blackout Rule (Public Meeting)
3:30 p.m.
Affirmation Meeting (Public Meeting) (if needed)

Friday, November 15

10:00 a.m.
Briefing on Policy Statement on Nuclear Power Plant Standardization (Public Meeting)

Week of November 18—Tentative

Monday, November 18

10:30 a.m.
Discussion of Management-Organization and Internal Personnel Matters (Closed—Ex. 2 & 6)
2:00 p.m.
Discussion of 1986 Policy and Planning Guidance (Public Meeting)

Tuesday, November 19

11:00 a.m.
Periodic Meeting with Advisory Panel on Decontamination of TMI–2 (Public Meeting)
2:00 p.m.
Briefing by Executive Branch (Closed—Ex. 1)
3:30 p.m.
Affirmation Meeting (Public Meeting) (if needed)

ADDITIONAL INFORMATION: Affirmation of "Policy Statement on Confidentiality" (Public Meeting) was held October 24.

Year End Progam Review scheduled for October 25, *postponed.*

TO VERIFY THE STATUS OF MEETINGS CALL (RECORDING): (202) 634–1498.

CONTACT PERSON FOR MORE INFORMATION: Julia Corrado, (202) 634–1410.

Julia Corrado,

Office of the Secretary.

October 24, 1985.

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: [To be published].

STATUS: Open meeting.

PLACE: 450 Fifth Street, NW., Washington, DC.

DATE PREVIOUSLY ANNOUNCED: Monday, October 21, 1985.

CHANGE IN THE MEETING: Deletion.

The following item will not be considered at an open meeting for Thursday, October 31, 1985, at 10:00 a.m.

Consideration of whether to grant the application filed by IDS Mutual, Inc., et al., IDS/American Express Inc., IDS Life Insurance Company and Shearson Lehman/American Express Inc., et al. ("Applicants"), requesting an order pursuant to section 10(f) of the Investment Company Act of 1940 ("Act") exempting Applicants from the provisions of section 10(f) of the Act and Rule 10f–3 thereunder to the extent necessary to permit, under certain conditions, the

investment company Applicants to purchase through affiliated underwriting syndicates an aggregate amount of securities in excess of the percentage limitations in Rule 10f–3(d). For further information, please contact H.R. Hallock, Jr. at (202) 272–3030.

Commissioner Peters, as duty officer, determined that Commission business required the above change and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: David Powers at (202) 272–2091.

Dated: October 23, 1985.

John Wheeler,

Secretary.

Regulatory Information Service Center

Introduction to the Unified Agenda of Federal Regulations

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry, and publication in a uniform format. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this **Unified Agenda of Federal Regulations.**

The following Parts in this issue of the **Federal Register** are the agency agendas, which together comprise the October 1985 edition of the semiannual **Unified Agenda of Federal Regulations.**

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory projects, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the **Unified Agenda of Federal Regulations**, contact: Mark G. Schoenberg, Executive Director, Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503, (202) 395-6993.

About the Unified Agenda

The **Unified Agenda of Federal Regulations** is compiled by the Regulatory Information Service Center for the Office of Information and Regulatory Affairs, Office of Management and Budget. The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing President Reagan's Executive Orders 12291 (Federal Regulation) and 12498 (Regulatory Planning). Under EO 12498, OMB published the **Regulatory Program of the United States Government** (April 1, 1985 - March 31, 1986).

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Agenda differ in several ways. The Unified Agenda includes more regulatory actions because it covers almost every Federal agency and includes an exhaustive list of all rulemakings for each. This year's Regulatory Program covered only 17 of the major Federal regulatory agencies, and included only the most significant of all the regulatory actions that each

agency planned to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda, and includes more prerulemaking actions, i.e., studies, policy statements, hearings, advance notices of proposed rulemakings, and other agency activities that may lead to significant regulatory actions in future years.

In 1986, the Regulatory Program and the Unified Agenda will be integrated and their publication dates will be coordinated so as to make them more useful to the public and easier for the agencies to produce.

Many of the regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries were combined into one Program entry, and a new RIN was assigned to that entry in the Program.

This edition of the Unified Agenda includes 56 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. Agencies of the United States Congress are not included. The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government.

The Unified Agenda is produced through a computer system designed by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use.

For this edition of the Agenda, we created a computer-generated subject index of the information in the Agenda to help readers locate entries from various agencies that may affect a particular area of interest. The numbers in the index refer to the Sequence Numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For those agencies that requested it, we provided a computer-produced Table of Contents that appears after the preamble of the agency's Agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements--regulation title, agency contact, small business effects, CFR citation, legal authority, abstract, and timetable. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones. We are especially interested in comments regarding the usefulness of the new subject index.

DATED: October 1, 1985.

Mark G. Schoenberg,

Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate Part in this edition of the **Federal Register.** The Parts are organized alphabetically in four groups: cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency was asked to list its rules in three groups:

1. Current and Projected Rulemakings--regulations the agency is currently developing or plans to develop during the next 12 months;

2. Existing Regulations Under Review--existing regulations the agency is reviewing to determine whether to propose modifications through rulemaking; and

3. Completed Actions--actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in its present section of the agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. These sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under EO 12291 such as military regulations and regulations related to internal agency management.

OMB Bulletin 85-21 states that entries describing regulations under development and review should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry.
  a. Whether or not the action was included in the **Regulatory Program of the United States Government.**
  b. If not, whether or not the agency considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (U.S.C.) or Public Law (PL) or the Executive order that authorize(s) the regulatory action (agencies may provide common name references to laws in addition to U.S.C. or PL references).
- CFR Citation -- the section(s) of the **Code of Federal Regulations** which affect or will be affected by the action.
- Abstract -- a description of the problem the regulation will address; to the extent available, the alternatives that the agency is considering to address the problem; and the potential costs and benefits of the action.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 10/00/85 means the agency can predict the

month and year the action will take place, but not the date it will occur.

- Effects on Small Businesses and Other Small Entities -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601(6)).
- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of August 27, 1985, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule, describing the general area that may be subject to regulation and asking for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a formal regulatory proposal.

CFR -- The **Code of Federal Regulations** is an annual codification of the general and permanent regulations published in the **Federal Register** by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area of Federal regulatory law. The CFR is keyed to and kept up-to-date by the daily issues of the **Federal Register.**

EO -- An Executive order is a directive from the President to an executive agency, issued under Constitutional or statutory authority. Executive orders are published in the **Federal Register** and in Title 3 of the **Code of Federal Regulations.**

FR -- The **Federal Register** is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents required by statute to be published.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the **Federal Register** that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- A reference to the legal authority under which the rule is proposed; and
- Either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the two-year life of each Congress; for example, PL 97-17 would be the seventeenth public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities, as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by EO 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of Section 2 of EO 12291, namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- Not be undertaken unless the potential benefits outweigh the potential costs to society;
- Maximize net benefits to society;
- Entail the least net cost to society of the alternatives considered; and
- Take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulatory Information Service Center assigns a Regulation Identifier Number to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.

Information About Additional Copies

Additional copies of this edition of the **Federal Register** are available from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, (202) 783-3238.

Copies of individual agency agendas may be available directly from the agency. Please contact the particular agency for further information.

36 CFR Ch. II

41 CFR Ch. 4

Semiannual Regulatory Agenda: Fall 1985

AGENCY: Office of the Secretary, Department of Agriculture.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and non-major regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291, Federal Regulation. The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions; but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

ADDRESS: Requests for copies of the Agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 148-E, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 382-1270.

DATED: September 13, 1985.

John R. Block,

Secretary.

Agricultural Marketing Service—Current and Projected Rulemakings

Sequence Number	Title	Regulation Identifier Number
1	Mohair Standards	0581-AA06
2	Wool Standards	0581-AA12
3	Plant Variety Protection Board Meeting	0581-AA17
4	Establishment of User Fees for Cotton Market News Service	0581-AA18
5	Fees for Service for Voluntary and Mandatory Programs	0581-AA19
6	Review: Voluntary Grading of Poultry Products and Rabbit Products	0581-AA21
7	Milk Marketing Orders	0581-AA25

14. STANDARDS FOR THE APPROVAL OF DRY AND COLD STORAGE WAREHOUSES FOR PROCESSED AGRICULTURAL COMMODITIES, EXTRACTED HONEY, AND BULK OILS

Legal Authority: 7 USC 714 Commodity Credit Corporation Charter Act

CFR Citation: 7 CFR 1423

Abstract: The Commodity Credit Corporation (CCC) Charter Act states that in carrying out CCC's purchasing and selling operations, and in the warehousing, transporting, processing and handling of agricultural commodities, CCC is to use the customary channels, facilities and arrangements of trade and commerce. Accordingly, CCC has set forth standards which must be met by a warehouseman before CCC will enter a contract. This action will revise part of the policy followed in approving warehouses for storage and handling of commodities under CCC programs. (ASCS 84-033)

16. NATIONAL AVERAGE LOAN RATES FOR 1985-CROP QUOTA AND ADDITIONAL PEANUTS AND MINIMUM COMMODITY CREDIT CORPORATION (CCC) EXPORT EDIBLE SALES PRICE FOR ADDITIONAL LOAN PEANUTS

Legal Authority: Ag Adjustment Act of 1938, as amended; CCC Charter Act of 1948, as amended; Ag Act of 1949, as amended

CFR Citation: 7 CFR 729; 7 CFR 1446

Abstract: The object of this action is to set loan levels to support farm income and stabilize prices. The CCC export edible sales price minimizes CCC net outlays and maximizes returns to growers of additional peanuts. (ASCS 84-013)

21. 1985 SUGAR BEET AND SUGARCANE LOAN RATES

Significance: Regulatory Program

Legal Authority: 7 USC 1446(h); Agricultural Act of 1949, Sec 201(h)

CFR Citation: 7 CFR 1435.110 et seq

Abstract: The objective of this action is to determine and announce the price support loan rates for the 1985 crops of sugar beets and sugarcane. The determination of these loan rates is required by the Agricultural Act of 1949, as amended. Establishment of the price for raw sugar at 18.00 cents per pound or above is being considered. Establishing raw cane sugar above 18.00 cents per pound could cost consumers and cause the Commodity Credit Corporation to receive sugar by forfeiture. The loan rate for refined beet sugar is to be established at such level which is determined to be fair and reasonable in relation to the loan rate established for raw cane sugar. (ASCS 84-040)

23. 1985-86 MILK PRICE SUPPORT PROGRAM (EFFECTIVE 10/1/85)

Significance: Regulatory Program

Legal Authority: The Agricultural Act of 1949, as amended

CFR Citation: 7 CFR 1430

Abstract: The Agricultural Act of 1949 (the Act), as amended, requires that the price support for milk shall be carried out through purchase of milk or milk products. The Act requires that the price of milk to producers be supported at such level between 75 and 90 percent of parity as would assure an adequate supply of milk, reflect changes in the cost of production, and assure a level of farm income to maintain productive capacity sufficient to meet future needs.

In the absence of new legislation, the minimum price support level on October 1, 1985, would revert to 75 percent of parity. (ASCS 85-009)

24. ● 1986 WHEAT PROGRAM REGULATIONS

Significance: Regulatory Program

Legal Authority: 7 USC 1336; Agricultural Adjustment Act of 1938, Sec. 336, as amended; 7 USC 1339; Agricultural Adjustment Act of 1938, Sec. 339, as amended; 7 USC 1379; Agricultural Adjustment Act of 1938, Sec. 379, as amended; 7 USC 1441; Agricultural Act of 1949, Sec. 101, as amended; 7 USC 1445a, note; Agricultural Act of 1949, Sec. 107, as amended

CFR Citation: 00 CFR Not yet determinded

Abstract: This action would determine the referendum process and land use program, and establish loan and purchase rates, and the marketing certificate allocation program for the 1986 crop of wheat.

The provisions of section 107b of the Agricultural Act of 1949 expires with the 1985 crop of wheat. Without new legislation, authority for the 1986 Wheat Program reverts to permanent legislation. Using this authority, the Secretary has proclaimed quotas and must conduct a producer referendum for wheat for the marketing year beginning June 1, 1986. Section 336 of the Agricultural Adjustment Act of 1938, as amended, requires that the referendum be conducted no later than 3 days after adjournment sine die of the first session of the Ninety-Ninth Congress. Significance: Regulatory Program

Legal Authority: 7 USC 150dd to ff; 7 USC 159; 7 USC 162

CFR Citation: 7 CFR 319.56

Abstract: An increased number of exotic pests have been introduced recently into the United States. Some of these pests may have arrived on importations of fruits and vegetables. Since these pests are capable of causing extensive economic damage, Plant Protection and Quarantine (PPQ) is considering the development of an improved system for determining the entry status of agricultural products, particularly fruits and vegetables. 37. REVISION OF FMHA INSTRUCTION 1944-A, "SECTION 502 RURAL HOUSING LOAN POLICIES, PROCEDURES AND AUTHORIZATIONS," TO IMPLEMENT THE REQUIREMENTS OF THE RURAL HOUSING AMENDMENTS OF 1983

Significance: Regulatory Program

Legal Authority: 42 USC 1480(j) et seq

CFR Citation: 7 CFR 1924; 7 CFR 1944

Abstract: The need for Government action is mandated by changes in the Agency's authorizing statute requiring corresponding changes in the FmHA rural housing program. The objectives of the action are: (1) allow extension of terms for applicants for initial loans with incomes of not more than 60 percent of median income for up to 38 years if needed for repayment ability; (2) give priority to applicants with the greatest need for housing because of their low income and inadequate dwellings, and to those applicants who will reside in areas which are the most rural in character; (3) implement Section 502 loans to purchase mobile/manufactured homes and sites, and certain allowable expenses for transportation and set-up. (Item (3) has been made a separate publication.) (FmHA 84-003)

41. ● FMHA GUARANTEES OF COMMERCIAL LENDER'S FARM OWNERSHIP (FO) AND OPERATING LOANS (OL) WITH ACCOMPANYING LENDER PRINCIPAL WRITE DOWN AND/OR INTEREST RATE REDUCTION

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1980

Abstract: The general objective of the proposed action is to integrate Government and Private Sector resources in a continual effort to resolve financial difficulties in agriculture. The proposed action amends the debt adjustment program regulations for guaranteed OL and FO

loans to clarify the dollar value equivalency of an interest rate reduction used in lieu of a required 10 percent minimum write down of the total principal and interest outstanding on loan(s) which a lender wants guaranteed; to reduce the minimum positive cash flow requirement under the DAP from 110 percent to 100 percent and to permit lenders to use a combination write down of principal of indebtedness along with an interest rate reduction which would equal the value of an upfront write down of existing indebtedness of at least 10 percent. The intended effect of this action is to provide additional financial assistance to both lenders and their farm borrowers in a time of financial difficulty. (FmHA 85-005)

Current and Projected Rulemakings

50. OBRA 1982

Significance: Regulatory Program

Legal Authority: 7 USC 2012(i),(r); 7 USC 2014(c),(g),(i),(j); 7 USC 2015(e); 7 USC 2017(c); 7 USC 2020(e)(4),(9),(10),(i)

CFR Citation: 7 CFR 273

Abstract: This final rule, based on proposed or interim rulemakings, implements changes to eligibility criteria mandated by P.L. 97-98 and P.L. 97-253, revises recertification procedures, and simplifies the rules when a household files for both food stamp and public assistance benefits. It also tightens expedited service procedures, updates procedures for notices of adverse action, revises resource definitions, and changes some work registration provisions. (FNS 84-003)

51. ISSUANCE LOSS LIABILITY

Significance: Regulatory Program

Legal Authority: 7 USC 2016; 7 USC 2020(e)(20)

CFR Citation: 7 CFR 274; 7 CFR 276; 7 CFR 272, for Interim

Abstract: These rules govern the issuance of food stamps to Food Stamp Program participants. They also establish the system for accounting for the food stamps and establish liabilities for losses during the issuance process. (FNS 84-002)

Timetable:

52. FOOD DISTRIBUTION PROGRAM

Legal Authority: 7 USC 612c; 15 USC 713c; 42 USC 1755; 42 USC 1758; 7 USC 1431; 22 USC 1922; 7 USC 1859; 7 USC 1431b; 7 USC 1431 Note; 7 USC 1446a-1; 42 USC 1761; 42 USC 5179; 42 USC 5180; 42 USC 1762a; 42 USC 1766; ...

CFR Citation: 7 CFR 250

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule outlines the responsibilities of the Food and Nutrition Service and State agencies concerning the distribution of USDA-donated foods acquired under various legislative authorities. The rule prescribes the terms and conditions under which donated foods may be obtained through State distributing agencies for use in schools, child care institutions, nonprofit summer camps for children, charitable institutions, nutrition programs for the elderly, and otherwise in the assistance of needy persons. In addition, a number of provisions have been included to strengthen and improve the State Processing Program. (FNS 84-513)

53. FOOD DISTRIBUTION PROGRAM ON INDIAN RESERVATIONS

Legal Authority: 7 USC 2013(b)

CFR Citation: 7 CFR 253

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule describes the terms and conditions under which (1) USDA-donated foods (available under 7 CFR 250) may be distributed to households on or near Indian reservations; (2) the program may be administered by capable Indian tribal organizations; and (3) funds may be obtained from USDA for the costs incurred in administering the program. The rule also provides for the concurrent operation of the Food Distribution Program and the Food Stamp Program on Indian reservations when such concurrent operation is requested by an Indian tribal organization. 60. REWRITE OF REGULATIONS ON DETERMINING ELIGIBILITY FOR FREE AND REDUCED PRICE BENEFITS

Legal Authority: 42 USC 1758; 42 USC 1779

CFR Citation: 7 CFR 245

Abstract: This rule will revise regulations covering the eligibility process for school meals and milk. Part 245 has not undergone a complete rewrite in many years despite legislative change which has substantially changed the application process. The rewrite is primarily nonsubstantive in nature. The rewrite is intended to remove duplicative and obsolete provisions to clarify and reorganize all sections and to incorporate the requirements of P.L. 97-35. (FNS 84-518)

64. REWRITE OF NATIONAL SCHOOL LUNCH PROGRAM REGULATIONS

Significance: Regulatory Program

Legal Authority: 42 USC 1751 et seq

CFR Citation: 7 CFR 210

Abstract: This rule will propose to revise the regulations covering the National School Lunch Program and the Commodity School Program. Since January 20, 1970, Part 210 has been amended with over 50 final rules and a number of interim rules. This proposal is intended to be nonsubstantive in nature. Emphasis is placed on resolving ambiguities and inconsistencies; eliminating unnecessary, duplicative and obsolete provisions; and clarifying both language and style so that Part 210 is more easily understood. 68. FOOD STAMP PROGRAM: DEFICIT REDUCTION ACT

Significance: Regulatory Program

Legal Authority: 7 USC 2020(e)(19); PL 98-369, Sec 2651 98 Stat. 1147, July 19, 1984

CFR Citation: 7 CFR 272.1; 7 CFR 272.2; 7 CFR 272.8; 7 CFR 273.2; 7 CFR 273.6; 7 CFR 275; 7 CFR 277.18

Abstract: This rulemaking implements an improved income and eligibility verification system to replace current wage matching requirements in the Food Stamp Program. These new matching requirements are mandated by Public Law 98-369 (DEFRA). Provisions of this rulemaking will:

1) require all States to match quarterly earnings,

2) require matching to a new data base-IRS' unearned income,

3) require "up front" matches of all applicants,

4) increase matching to SSA and Unemployment Compensation Agencies, and

5) require reporting on match results. (FNS 84-021)

87. LABEL APPROVAL REGULATIONS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381, Subpart N

Abstract: The Agency will review Parts 317 and 381, Subpart N; of Title 9 of the Code of Federal Regulations relating to requirements for prior approval of labels of meat, meat products, poultry, and poultry products. The purpose of the review is to assess the impact of the Agency's label approval regulations in order to reduce unnecessary burdens.

Although the Agency has completed rulemaking to provide for prior approval of certain labels by field personnel and the pre-approval of certain kinds of label changes without the need for prior Agency approval, the review has been continued to determine if further reduction of burden resulting from Agency prior approval requirements might be accomplished. 94. QUARTERLY SUGAR IMPORT FEE DETERMINATION

Legal Authority: 7 USC 624; Sec 22, Ag Adjustment Act of 1933

CFR Citation: Not applicable

Abstract: Previously, Proclamation 5164 of March 19, 1984, required the Secretary of Agriculture to announce the import fee for raw sugar each quarter according to a formula keyed to domestic spot prices as reported by the Coffee, Sugar and Cocoa Exchange in New York. The fee for refined sugar was one cent more than the raw sugar fee. However, the import fee for raw sugar has been suspended by Proclamation 5313, March 29, 1985, pending the President's response to an ITC investigation. Under this same action the fee for refined sugar has been modified so that it is fixed at one cent per pound pending the President's response to the ITC investigation. (FAS 84-005)

111. CASH DOWN PAYMENTS, PERIODIC PAYMENTS FOR NATIONAL FOREST TIMBER CONTRACTS

Legal Authority: 16 USC 618

CFR Citation: 36 CFR 223

Abstract: The objective of the down payment and periodic payment requirements is to discourage speculative bidding on National Forest timber sales. Regulation is required by statute.

An interim policy notice is needed in order to conform to the legislated January 1, 1985, effective date for these actions. Because of the time required to prepare timber sale documents, such as the advertisement, prospectus and sample contract, and because of the 30-day advertisement period for timber sales, it is not possible to include down payment and periodic payment policies in the same manner as the proposed policy for other features of the Act. A further rulemaking on periodic payments, RIN 0596-AA33 (FS 85-014), is under way. (FS 84-020)

112. ADD SECTION TO 36 CFR 251.53 - SPECIAL USES TO INCLUDE ALASKA NATIONAL INTEREST LAND AND CONSERVATION ACT AS AN AUTHORITY AND ADD REGULATION 36 CFR 251.70 ON INGRESS AND EGRESS TO ETC

Legal Authority: PL 96-487

CFR Citation: 36 CFR 251.53

Abstract: The proposed regulation will tie the granting of special-use authorizations for ingress and egress under the Alaska National Interest Lands and Conservation Act (ANILCA) to the existing authorities for granting authorizations to use or occupy National Forest lands and remove the discretionary aspects of those laws and regulations when applied to parties qualifying for access under ANILCA. 113. ● PERIODIC PAYMENTS FOR NATIONAL FOREST TIMBER SALE CONTRACTS

Legal Authority: 16 USC 472a; 16 USC 618

CFR Citation: 36 CFR 223.51, (new)

Abstract: The Federal Timber Sale Contract Payment Modification Act requires the Forest Service to require purchasers to make periodic payments on timber sales. As established by the act, the objective of periodic payments is to discourage speculative bidding on National Forest timber sales. A soon-to-be published rule (see RIN 0596-AA29) will require cash down payments and one periodic payment requirement. However, to fully comply with the act, additional rules are required. This rule will be based on an evaluation of the effects of requiring annual payments, on consideration of procedures that would permit the pooling of payments, and on consideration of market-related contract adjustments.

There are no alternatives to issuing this rule; it is required by the Federal Timber Sale Contract Payment Modification Act. (FS 85-014)

Semiannual Agenda of Regulations

AGENCY: Department of Commerce.

ACTION: October 1985 regulatory agenda.

SUMMARY: In compliance with Executive Order (EO) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Pub. L. 96-354), the Department of Commerce (DOC) in April and October of each year publishes in the **Federal Register** an agenda of the regulations that the Department expects to propose or to issue over the next 12 months that are covered by section 1 of EO 12291. In addition, the agenda lists existing regulations currently under review for possible revision or repeal. Finally, the agenda lists rulemakings and reviews of existing regulations completed since publication of the last agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

DOC's October 1985 regulatory agenda includes regulatory activities that are expected to be conducted during the period October 1, 1985 through September 30, 1986. Regulatory developments occurring after August 27, 1985 will appear in the next agenda.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about a specific regulatory action listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Robert B. Ellert, Assistant General Counsel for Economic Affairs and Regulation, U.S. Department of Commerce, Washington, D.C. 20230, Telephone: (202) 377-5394.

SUPPLEMENTARY INFORMATION: On February 17, 1981, President Reagan signed Executive Order 12291. The EO requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this Order. Office of Management and Budget (OMB) Bulletin No. 85-21, issued July 15, 1985 establishes guidelines and procedures for the preparation and publication of the October 1985 Unified Agenda of Federal Regulations for all Federal departments and agencies. EO 12291 and the OMB Bulletin require that each agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the twelve-month period succeeding publication: The title of the regulation; the name, title, address and phone number of an agency person who is knowledgeable about the regulation; whether the regulation has or is expected to have a significant economic impact on a substantial number of small entities; the section(s) of the Code of Federal Regulations (CFR) which affects or will be affected by the action; the section of the United States Code (USC), Public Law (PL), or Executive Order (EO) that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; and a timetable of dates and, if available, **Federal Register** citations for past and future stages of the action.

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis (RFA) where there is a positive finding that a rule will have a significant impact on a substantial number of small entities. EO 12291 requires agencies to prepare a regulatory impact analysis (RIA) for any regulation considered to be a "major rule" as defined in the EO.

The OMB Bulletin also requires that all regulations issued or withdrawn, and all reviews completed since publication of the preceding agenda, be listed with the following information: the title of the regulation; the name and phone number of the agency contact person; the **Federal Register** citation of the final action, if available; the reason for completion; and when applicable, an indication of whether the action will have an effect on small entities.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units such as the National Oceanic and Atmospheric Administration (NOAA), the International Trade Administration (ITA), National Bureau of Standards (NBS) and the Patent and Trademark Office (PTO) issue the greatest share of the Department's regulations, while other operating units such as the United States Travel and Tourism Administration and the Minority Business Development Agency currently have no regulations in effect.

A large number of the regulations presented in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 USC 1801 *et seq.*) (Act) requires that a preliminary fishery management plan (PMP) be prepared for all fisheries within a fishery conservation zone (FCZ) fished in by foreign fishing nations. The FCZ refers to those waters from the outer edge of the United States territorial sea to a distance of 200 miles. Fishery management plans (FMPs) are to be prepared if those fisheries require conservation and management measures. Although PMPs apply only to foreign fishing, the FMPs regulate both foreign and domestic fishing. When promulgated, the FMPs supersede the PMPs. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs for fisheries within their respective areas. In the development of such plans and their implementing regulations, the Councils

DOC

are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently NMFS does not have specific plan objectives or alternatives for management since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

Another large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS), issued by the National Bureau of Standards under Pub. L. 89-306. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines, and in providing technical guidance and coordination to Federal agencies, NBS works closely with private industry standard-setting organizations.

The DOC October 1985 regulatory agenda follows.

DATED: August 29, 1985.

Douglas A. Riggs,

General Counsel.

Office of the Secretary—Current and Projected Rulemakings

Sequence Number	Title	Regulation Identifier Number
145	Contract Clauses and Solicitation Provisions for the Commerce Automated Solicitation System	0690-AA08
146	Department of Commerce Implementation of the Competition in Contracting Act of 1984 CAR Amendment 85-2	0690-AA09
147	Enforcement of Nondiscrimination on the Basis of Handicap in Department of Commerce Programs	0690-AA06

Current and Projected Rulemakings

145. ● CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned Department wide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

146. ● DEPARTMENT OF COMMERCE IMPLEMENTATION OF THE COMPETITION IN CONTRACTING ACT OF 1984 CAR AMENDMENT 85-2

Legal Authority: 41 USC 251 et seq; PL 98-369

CFR Citation: 48 CFR 1 to 53

Abstract: The Federal Acquisition Regulation (FAR) has been amended to incorporate the requirements of Public Law 98-369. Agencies are required to provide necessary implementing regulations which are peculiar to the executive agency. This is accomplished by Commerce through amendments to the existing Commerce Acquisition Regulation (CAR) (48 CFR 13). The provisions of the Public Law are effective April 1, 1985. Public Law 98-577 also requires amendments to the FAR and the CAR. Effective dates of Public Law 98-577 sections vary, but implementing regulations will be prepared by Mar. 1986. Commerce will amend the existing CAR once the amendments to the FAR are available to the public. Specific parts of the FAR requiring agency supplements cannot be readily determined at this time. Periodic updates are anticipated to implement regulatory and new statutory requirements. This CAR Amendment 85-2 implements the protest provisions of PL 98-369 within Commerce. This Amendment also involves Department policy unrelated to PL 98-369; e.g., women-owned small business acquisition program, pre-award surveys for ship repair contracts, recovery of administrative costs, use of Alternate I of (cont)

148. DEPARTMENT OF COMMERCE IMPLEMENTATION OF THE COMPETITION IN CONTRACTING ACT OF 1984 AND THE SMALL BUSINESS AND FEDERAL PROCUREMENT COMPETITION ENHANCEMENT ACT OF 1984 CAR ETC

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Abstract: The Federal Acquisition Regulation (FAR) has been amended to incorporate the requirements of Public Law 98-369. Agencies are required to provide necessary implementing regulations which are peculiar to the executive agency. This is accomplished by Commerce through amendments to the existing Commerce Acquisition Regulation (CAR) (48 CFR 13). The provisions of the Public Law are effective April 1, 1985. Public Law 98-577 also requires amendments to the FAR and the CAR. Effective dates of Public Law 98-577 sections vary, but implementing regulations will be prepared by Mar. 1986. Commerce will amend the existing CAR once the amendments to the FAR are available to the public. Specific parts of the FAR requiring agency supplements cannot be readily determined at this time. Periodic updates are anticipated to implement regulatory and new statutory requirements. This CAR Amendment 85-1 implements Public Law 98-369 within Commerce, except for the protest provisions of that Act.

151. SURVEYS OF INTERNATIONAL TRADE IN SERVICES BETWEEN U.S. AND FOREIGN PERSONS

Significance: Regulatory Program

Legal Authority: 22 USC 3101 to 3108 International Investment Survey Act of 1976; PL 98-573, Sec 306 Trade and Tariff Act of 1984

CFR Citation: 15 CFR 802, (Revision); 15 CFR 803, (Revision)

Abstract: Action will fill gaps in data on international services transactions so U.S. Government can better assess size and impact of these transactions, more effectively formulate international economic policies and conduct negotiations to reduce the barriers to services trade, improve recording of services transactions in the U.S. balance of payments accounts, and assist U.S. services businesses in identifying and evaluating market opportunities. Annual cost to BEA of conducting surveys will be about $500,000; initial cost to respondents will be about 132,000 manhours, or $4.0 million, at a maximum. Benefits in terms of reduction in barriers to services trade, increased sales of services, and improved balance of payments statistics will far exceed costs.

Abstract: It is proposed to amend the Foreign Trade Statistics Regulations (FTSR) to incorporate additional Shipper's Export Declaration (SED) data requirements and changes resulting from the redesign of the SEDs and their continuation sheets. It is also proposed to amend the FTSR to raise the upper limit of the present exemption from SED filing requirements based on value from $500 to $1,000 except for shipments through the U.S. Postal Service.

ACTIONS THAT STARTED AND ENDED BETWEEN ISSUES OF THE UNIFIED AGENDA

154. ● SEAL OF THE BUREAU OF THE CENSUS

Legal Authority: 13 USC 3

CFR Citation: 15 CFR 20; 15 CFR 100

Abstract: The Bureau of the Census is hereby redesignating Title 15 Code of Federal Regulations, Part 20, Seal of the Bureau of the Census, as Title 15, Code of Federal Regulations, Part 100. This change is being made to provide the Office of the Secretary of Commerce additional parts in Subtitle A of Title 15, Code of Federal Regulations, Parts 20-29.

155. ● CHALLENGE PROCEDURES FOR POPULATION AND INCOME ESTIMATES

Legal Authority: 13 USC 4; 13 USC 181

CFR Citation: 15 CFR 90; 15 CFR 90.14(f)

Abstract: The Bureau of the Census is amending 15 CFR, Part 90 to eliminate the need to electronically record hearings held under this procedure. The provision will now require that the hearings be recorded, thereby allowing the use of standard services such as those provided by court reporters. The legal authority citation also is being changed from 13 USC 4 to 13 USC 4 and 181.

156. ● FEE STRUCTURE FOR AGE SEARCH AND CITIZENSHIP INFORMATION

Legal Authority: 13 USC 8(a); 15 USC 189(a); 15 USC 192; 15 USC 192(a)

CFR Citation: 15 CFR 50; 15 CFR 50.5

Abstract: The Bureau of the Census is hereby amending Title 15, Code of Federal Regulations, Chapter 1 Section 50.5, fee structure for age search and citizenship information to increase the fee for an age search from $12.00 to $15.00. This change is being made to recover the increase in cost to process a request. Title 13, United States Code, requires recovery of the costs. No transcript of any record will be furnished which would violate statutes requiring that information furnished to the Bureau of the Census be held confidential and not used to the detriment of the person to whom it relates.

157. ● CHALLENGE PROCEDURE FOR POPULATION AND INCOME ESTIMATES

Legal Authority: 13 USC 4; 13 USC 181

CFR Citation: 15 CFR 90; 15 CFR 90.5

Abstract: This action modifies the procedure to be followed in releasing certain population and per capita income estimates. The estimates affected are the figures for subcounty areas covered in 15 CFR Part 90. That regulation stipulates a challenge procedure for use by local officials. The only provision of the original rule that is altered by this action is the way in which the estimates are released.

158. ENERGY CONSERVATION: MISCELLANEOUS AMENDMENTS TO FINANCIAL ASSISTANCE PROGRAMS REGARDING ENERGY CONSERVATION

Legal Authority: EO 12185

CFR Citation: 13 CFR 305.59; 13 CFR 306.12(g)(14); 13 CFR 306.12(j); 13 CFR 307.22(b); 13 CFR 307.28(c)(6); 13 CFR 307.55(a)(15); 13 CFR 307.55(b)(5); 13 CFR 307.56(h); 13 CFR 307.57(a)(6); 13 CFR 308.6(a)(8)

Abstract: Interim regulations were issued to bring the existing regulations within the bounds of the requirements of EO 12185 which directed Federal agencies to revise their regulations to encourage recipients of Federal financial assistance to conserve energy. The new regulations are designed to encourage EDA assistance recipients to undertake energy conservation measures on a voluntary basis. There are no viable alternatives to the regulations.

160. ECONOMIC DEVELOPMENT ADMINISTRATION: PROPERTY MANAGEMENT STANDARDS

Legal Authority: 40 USC 3211; DOC Organization Order 10-4, as amended

CFR Citation: 13 CFR 314

Abstract: EDA's regulations regarding the use and disposition of real property acquired or improved with Federal funds will be revised to clarify EDA policy regarding the authorized use and disposition of grant property (real property) and in particular requirements regarding the lease and/or sale of such property. In addition, revisions will clarify present requirements for determining the appropriate amount of compensation due the Federal Government upon the sale of real property acquired or improved with grant funds.

Legal Authority: 42 USC 3211; DOC Organization Order 10-4, as amended

CFR Citation: 13 CFR 302.7; 13 CFR 305.5

Abstract: These amendments were in effect for a limited time under the Emergency Jobs Act which has ended and for which funds are no longer available. The rules, with two technical exceptions (changing description of Assistant Secretary to "he/she" and implementing the change in delegation to the Assistant Secretary for project approval), are to revert back to the original.

162. PROPERTY MANAGEMENT STANDARDS - MORTGAGES

Legal Authority: 42 USC 3211; DOC Organization Order 10-4, as amended

CFR Citation: 13 CFR 314.5

Abstract: These amendments allow the Assistant Secretary to waive the prohibition against placing mortgages on property which has been financed by an EDA public works grant, if an additional condition is met. This additional condition for waiver is that all proceeds from a loan which is secured by a mortgage or lien on property which has been financed by an EDA public works grant shall be available only to the grantee and such proceeds shall be used on the project which secures such loans, or for working capital purposes relating to that project.

164. BUSINESS DEVELOPMENT PROGRAM - FINANCIAL ASSISTANCE FOR INDUSTRIAL AND COMMERCIAL PURPOSES

Legal Authority: 42 USC 3211; Department of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 306

Abstract: This rule amends EDA's project financing regulation by increasing EDA's ordinary maximum participation for business loan projects from $10,000 to $20,000 per job created or saved. Findings from EDA and GAO studies indicate that the current average government cost per job saved or created far exceeds the $10,000 limit. An increased limit of $20,000 per job created or saved is consistent with these findings.

171. ADMINISTRATIVE OFFSETS FOR DEBTS OWED THE DEPARTMENT OF COMMERCE

Legal Authority: PL 97-365, Sec 10

CFR Citation: 15 CFR 2A, (New)

Abstract: The proposed regulation will cover Department procedures for withholding money due individuals and businesses indebted to the Federal Government. Administrative offsets will be used by the Department when debtors have failed to make timely and adequate payments to satisfy such debts. Prior to collecting claims through administrative offset, debtors will be provided under the regulations with a notification of the amount and nature of the claim and the Department's intention to collect the claim through administrative offset, and explanation of the debtor's rights, an opportunity for the debtor to inspect and copy the agency's records relating to the claim, an opportunity for review of the claim by the agency if contested by the debtor, and an opportunity to enter into a written agreement with the agency for repayment of the amount due. These procedures will ensure the effective use of administrative offsets when appropriate, thereby increasing collections of amounts due the Federal Government. The result will be better cash management and a slight reduction in the need of the Federal Government to borrow funds in the capital market.

173. GENERAL REGULATIONS GOVERNING FOREIGN TRADE ZONES IN THE UNITED STATES, WITH RULES OF PROCEDURES

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

175. ANTIDUMPING DUTIES; COUNTERVAILING DUTIES

Significance: Regulatory Program

Legal Authority: 19 USC 1303; 19 USC 1671 et seq

CFR Citation: 19 CFR 353; 19 CFR 355

Abstract: Certain unfair trade practices by foreign governments that could be penalized as dumping or subsidization are either not subject to such remedies under the current law or regulations, subject to challenge if penalized, or escape detection by petitioners and the Department. While certain constraints are imposed by the statutes, the relevant Codes, and the effects on U.S. exporters, all possibilities will be examined with a goal of achieving the maximum benefit for U.S. trading interests and amendments to the regulations will be proposed to take care of as much of the problem as possible through the regulatory process.

176. EFFECT OF IMPORTED ARTICLES ON THE NATIONAL SECURITY

Legal Authority: 19 USC 1862 Trade Expansion Act of 1962, as amended; 5 USC App. Reorganization Plan No. 3 of 1979; EO 12188

CFR Citation: 15 CFR 359

Abstract: Section 359.10(a) of the existing regulation requires that a report of an investigation be organized into several sections containing classified and unclassified information. Paragraph (c) of that section requires that the report (excluding confidential material) be published in the Federal Register. Paragraph (a) will be amended to delete the report organization requirement and paragraph (b) will be amended to permit publication of either the full report or a summary thereof. It is impractical, time consuming, and not cost effective to organize the report, and publish the full report, as now required by the regulation. Section 359.10(c) will also be amended to provide that a copy of the report will be available to the public from the Publications Distribution Office of the Department rather than at ITA's Freedom of Information Records Inspection Facility.

177. PETROLEUM PARTLY REFINED FOR FURTHER REFINING

Legal Authority: 50 USC 1702 PL 95-223, as amended, Sec 203; 50 USC 1704 PL 95-223, as amended, Sec 206; EO 12470 March 30, 1984 (49 FR 13099, April 3, 1984); 42 USC 6212 PL 94 163, as amended, Sec 103; EO 11912 April 13, 1976 (49 FR 15825, as amended); 10 USC 7430 as amended by PL 98-258. Sec 201(10)

CFR Citation: 15 CFR 377

Abstract: With few exceptions, the Congress prohibits the export of crude oil. However, the Department wants to ensure that it does not unnecessarily restrict sales of refined petroleum products by imposing regulatory barriers that were not intended by statutes. Accordingly, the Department will attempt to clarify the definition of refined petroleum products to provide greater certainty to exporters as to what may be exported. There are no costs associated with this action.

178. ● REVISIONS TO SHORT SUPPLY REGULATIONS

Legal Authority: 50 USC app 2401 et seq; PL 99-64; 42 USC app 2401 et seq; 10 USC 7420 et seq; 43 USC 1354; 30 USC 185; EO 11912; EO 12214; EO 12002

CFR Citation: 15 CFR 371; 15 CFR 377; 15 CFR 399

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA). Certain changes were made to the Short Supply provisions of Section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 377) and related licensing requirements (15 CFR 371 and 399) of the Export Administration Regulations (15 CFR 368-399) is necessary. An interim final rule is now under consideration which would include (1) elimination of the validated licensing requirement for exports of refined petroleum products and permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no costs associated with this action which would promote the export of decontrolled products.

179. REMOVAL OF THE SHORT SUPPLY VALIDATED LICENSING REQUIREMENT ON EXPORTS OF LINEAR ALPHA OLEFINS AND OTHER ACYCLIC ORGANIC COMPOUNDS

Legal Authority: 50 USC 1702 PL 95-223, as amended, Sec 203; 50 USC 1704 PL 95-223, as amended, Sec 206; EO 12470 March 30, 1984 (49 FR 13099, April 3, 1984); 42 USC 6212 PL 94-163, as amended, Sec 103; EO 11912 April 13, 1976 (49 FR 15825, as amended); 10 USC 7430 as amended by PL 94-258, Sec 201(10)

CFR Citation: 15 CFR 377

Abstract: Linear Alpha Olefins are currently subject to validated export licensing requirements under a basket category which applies to naphthas (Group N of Supplement No 2 to 377 of the Export Administration Regulations). The Department is considering removing licensing requirements for LAOs and similar commodities because they do not have a likely energy end use. During the comment period, all respondents favored the removal of licensing requirements on the grounds that current requirements are burdensome, that LAOs are not naphthas, that they do not have a likely energy end use, and that they are not in short supply. Accordingly, the Department is in the process of considering the most appropriate course of action with regard to possible decontrol of this and smaller commodities.

180. COMMODITIES SUBJECT TO THE NAVAL PETROLEUM RESOURCES PRODUCTION ACT OF 1976 (NPRPA)

Legal Authority: 50 USC 1702 PL 95-223, as amended, Sec 203; 50 USC 1704 PL 95-223, as amended, Sec 206; EO 12470 March 30, 1984 (49 FR 13099, April 3, 1984); 42 USC 6212 PL 94-163, as amended, Sec 103; EO 11912 April 13, 1976 (49 FR 15825, as amended); 10 USC 7430 as amended by PL 94-258, Sec 201(10)

CFR Citation: 15 CFR 377

Abstract: The Naval Petroleum Resources Production Act of 1976 (NPRPA) prohibits the export of products refined from crude oil produced from the Naval Petroleum Reserves. However, many commodities now subject to NPRPA restrictions include products which are far removed from crude oil and do not require validated export licenses. Accordingly, the Department proposes to limit the applicability of the NPRPA to those products currently subject to a validated export license. There are no costs associated with this action which would promote the export of decontrolled products.

181. REVISION TO FIPS 21-1, COBOL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt the revised American National Standard Programming Language COBOL for Federal Government use. The standard will promote the portability of COBOL programs for use on a variety of data processing systems and will enable Federal agencies and departments to exercise more effective control over the production, management, and use of Federal Government information resources.

182. FIPS FOR TRANSPORT PROTOCOL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard provides for reliable, transparent transfer of data between two heterogeneous or homogeneous computer systems. The standard is based on an international consensus and is compatible with the International Organization for Standardization (ISO) document ISO/TC97/SC 16 N 1169, class 2 and class 4. This is one of a family of computer network protocol standards which will make possible computer-to-computer communication of Federal ADP systems. It will enable Federal agencies to select equipment based on cost and performance considerations and to interconnect equipment of different manufacturers.

197. REVISION TO FIPS 69, FORTRAN

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This revision of the current standard (FIPS 69) will change the Applicability and Objectives sections to clarify issues related to the use of programming languages. The revision will make the goals of the FIPS more definitive, recognize advances in programming technology, provide more specific guidance concerning the applicability of FIPS languages, and provide consistent policy for all FIPS languages. The language specifications (American National Standard Programming Language FORTRAN, X3.9-1978) are not changed.

198. ● FIPS FOR DATABASE LANGUAGE SQL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an American National Standard (currently ANSI BSR X3.135) that defines the structure and operations of a relational data model and specifies data definition and data manipulation language interfaces to database systems supporting the relational model. Use of this standard will enable database definition and application modules to be interchanged between different systems, and will enable staff training and skills to be more fully utilized.

199. ● FIPS FOR OPTICAL CHARACTER RECOGNITION (OCR) DOT MATRIX CHARACTER SETS FOR OCR-MA

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an American National Standard (currently ANSI BSR X3.111) which provides the description, scope, and application rules for a character set that is generated by dot matrix printers and that closely matches the OCR-A character set. Use of this standard will reduce the cost of data input into ADP systems which use OCR equipment.

201. ● FIPS FOR BASIC PROGRAMMING LANGUAGE

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an American National Standard (currently draft proposed standard) which defines the syntax of the BASIC programming language and the semantics for its interpretation. The standard will be used by implementors as the reference authority in developing compilers, interpreters or forms of high level language processors and by other computer professionals who need to know the precise syntactic and semantic rules of the standard. Use of this standard will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff training and skills.

203. ● FIPS FOR SPECIFICATION FOR A DATA DESCRIPTIVE FILE FOR INFORMATION INTERCHANGE (DDF)

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an International Standard ISO 8211, which provides a standard interchange format for data structures, data files, data definitions, and databases. Use of this standard will enable Federal agencies to transport data easily between computer systems of different manufacturers and to restructure the data without loss of content or meaning.

204. ● FIPS FOR INFORMATION RESOURCE DICTIONARY SYSTEM (IRDS)

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an American National Standard (now draft proposed) which will promote portability of information resources. The Information Resource Dictionary System is a software system for recording, storing, and processing descriptions of an organization's significant data. Use of the standard will improve identification of data that can be shared within an organization, reduce unnecessary development of computer programs, and increase portability of staff skills and training.

205. ● REVISION TO FIPS 100, INTERFACE BETWEEN DATA TERMINAL EQUIPMENT (DTE) AND DATA CIRCUIT-TERMINATING EQUIPMENT (DCE) FOR OPERATION WITH PACKET-SWITCHED DATA COMMUNICATIONS NETWORKS

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This revision will make the standard consistent with minor changes that were made to Recommendation X.25 by the Consultative Committee for International Telegraph and Telephone in 1984. This is an international standard for data processing equipment, services and telecommunications equipment using public packet switched data communications networks.

206. ● FIPS FOR INTERNETWORK PROTOCOL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will provide the specifications for network interconnection via procedures for the connectionless transmission of data and control information from one network entity to another. It is based on the work of the International Organization for Standardization and is one of a family of computer network protocol standards which will make possible computer-to-computer communications of Federal ADP systems. It will enable organizations to select equipment based on cost and performance considerations and to interconnect equipment of different manufacturers.

207. ● FIPS FOR SMALL COMPUTER SYSTEM INTERFACE

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard will adopt an American National Standard (currently dpANS X3.131) which defines the physical, electrical, and mechanical specifications for an 8-bit parallel bus, suitable for connecting physically small computers to each other and to mass storage peripherals. This standard is widely used in industry, and will enable Federal users to reduce costs and improve reutilization of mass storage components for small systems.

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 15 CFR 6

Abstract: This revision to an existing FIPS updates the codes for representation of countries, dependencies, and areas of special sovereignty and proposes these American National Standard codes as a Federal Program Standard for use in international trade applications. The current FIPS 104 is a guideline.

211. FIPS FOR COMPUTER DATA AUTHENTICATION

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Abstract: This standard specifies a process that Federal Government agencies may use to detect unauthorized modifications, both intentional and accidental, of data that is transmitted or stored in either plain text or cipher text form. The standard will enable managers of Federal data systems to protect data and computer systems through the use of cryptographic authentication and to detect intentional modifications of data.

NATIONAL MARINE FISHERIES SERVICE

214. CIVIL PROCEDURES

Legal Authority: 15 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act; 16 USC 773 et seq Northern Pacific Halibut Act of 1982

CFR Citation: 15 CFR 904

Abstract: The existing regulations (15 CFR 904) provide uniform procedures for enforcement and civil proceedings under the various fishery and marine resource statutes administered by NOAA. The regulations are being revised to consolidate all aspects of NOAA's civil process which can be uniformly treated. The revised regulations will provide uniform permit processing procedures and sanction procedures; means of addressing the respondent's ability to pay in civil penalty proceedings; procedures for issuance and appeal of written warnings, summary forfeitures, and for selling seized perishable fish. The revisions will clarify for the public the procedures which NOAA follows in carrying out its enforcement responsibilities. The amendments thus are beneficial rather than burdensome to the public. These procedural regulations will not increase costs to the public or local governments. Nor will they have a significant adverse effect on competition, employment or industry. The alternative of not further consolidating the procedures was considered and rejected. There is no alternative to making the updating and housekeeping portions of the amendments.

215. DESIGNATED CRITICAL HABITAT; HAWAIIAN MONK SEAL

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 226.11

Abstract: Designation of Critical Habitat is conducted pursuant to the Endangered Species Act of 1973, as amended. Critical Habitat is that area within (or outside) the geographic range of the animal wherein are found those physical and/or biological features essential for the conservation of the species and which may require special management considerations. The objective is to protect the Hawaiian Monk Seal.

217. GENERAL AND RECREATIONAL FOREIGN FISHING

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 611.1 to 611.98

Abstract: The regulations will be amended to revise the general regulations governing foreign fishing within the fishery conservation zone (FCZ). The action is necessary because the regulations no longer reflect current practice in the fisheries; they are not deterring illegal actions, and are disjointed, contradictory and difficult to use. The revision is intended to make the regulations consistent with current practices in the fisheries, reduce illegal fishing and simplify and improve the utility of the regulations. The revision reorganizes almost every section of the two affected subparts. Additional definitions are added, including one for recreational fishing which would exempt foreign recreational fishing vessels from permit requirements. Obsolete material is deleted. Reports required for foreign fishing vessels are revised. Additional requirements for facilitation are added. Recordkeeping requirements are revised and requirements for joint ventures are specified.

218. PREEMPTION OF STATE AUTHORITY UNDER SECTION 306(B) OF THE MAGNUSON FISHERY CONSERVATION & MANAGEMENT ACT

Legal Authority: 16 USC 1856 Sec 306, Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 619

Abstract: The regulations interpret certain statutory terms applicable to, and establish procedures governing, formal adjudicatory hearings to be held before the Secretary of Commerce can apply Federal fishery regulations to certain waters within State boundaries. Section 306(b) of the Magnuson Fishery Conservation and Management Act authorizes the Secretary of Commerce to regulate a fishery within State boundaries in certain circumstances. Before the Secretary is authorized to do so, he must make certain findings after providing an opportunity for a formal adjudicatory hearing. The regulations apprise affected parties of the procedures to be followed at such a hearing and also of the types of information to be scrutinized that is relevant to the findings to be made.

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 262A

Abstract: The interim rule would establish a voluntary standards system to classify fish steaks by quality into four categories - U.S. Grade A, B, C, and Substandard. The objective is to facilitate trade in fish steaks classified by quality thereby benefiting the consumer and the industry. The standards would be used in a voluntary program of fishery products inspection and certification by NMFS. The total value of the industry product in 1981 was $19 million. Industry has expressed a high level of interest in and support for the voluntary standards. The timetable for this action is very tentative. Further research will be needed before the rule is published.

221. PROCESSED FISHERY PRODUCTS, PROCESSED PRODUCTS THEREOF & CERTAIN OTHER PROCESSED FOOD PRODUCTS: U.S. STANDARDS FOR GRADES OF FROZEN FISH BLOCKS & PRODUCTS MADE THEREFROM ETC

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 264A; 50 CFR 264B; 50 CFR 264C; 50 CFR 264D; 50 CFR 264E; 50 CFR 264F; 50 CFR 264G

Abstract: The revised rule will expand the coverage of established voluntary standards for grades of fishery products to include new products made from fish blocks. The standards will take into account new technology and equipment. These standards will be used in a voluntary program of fishery products inspection and certification by the NMFS. Industry has shown a high level of interest and support for the revisions. The timetable for this action is very tentative. Further research will be needed before the rule is published.

222. U.S. GENERAL STANDARDS FOR GRADES OF SHRIMP

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into four categories -- U.S. Grades A, B, C and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards. Timetable for next action is very tentative. Public comments received indicate a need for further research before the rule is published.

224. TANNER CRAB FISHERY MANAGEMENT PLAN (FMP) - REGULATORY AMENDMENT TO CHANGE POT STORAGE AREAS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 671

Abstract: This regulatory amendment would modify crab pot storage in the Eastern Bering Sea and Gulf of Alaska. Changes are needed to establish new shallow water areas to store domestic Tanner crab pots during closed seasons around the Pribilof Islands, and to prevent preemption of productive fishing grounds for other species.

225. U.S. STANDARDS FOR GRADES OF FRESH OR FROZEN NORTH AMERICAN FRESHWATER CATFISH AND PRODUCTS MADE THEREFROM

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 267, (New)

Abstract: This proposed standard will establish a voluntary standards system to identify various products made from North American Freshwater Catfish and to grade these products A, B, C and Substandard. The objective of the standard is to facilitate trade in these products thereby benefiting the consumer. The standard will be used by NMFS in the voluntary program of fishery products inspection and certification. Industry has expressed strong support for these voluntary standards.

226. TAKING OF MARINE MAMMALS INCIDENTAL TO SPACE SHUTTLE LAUNCHES

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 228.20 to 228.29, (New)

Abstract: Based on request from the Air Force, the NMFS will propose regulations which would allow a small number of marine mammals to be incidentally taken as a result of sonic booms from space shuttle launches from Vandenberg Air Force Base, California. Section 101 (a)(5) of the Marine Mammal Protection Act provides for allowing the taking of small numbers of marine mammals incidental to specified activities

provided that certain findings can be made and regulations are established which set forth permissible methods of taking, and requirements for monitoring and reporting.

227. AMENDMENT TO THE FISHERY MANAGEMENT PLAN (FMP) FOR ATLANTIC SEA SCALLOPS TO ENSURE BETTER CONSERVATION OF THE SCALLOP RESOURCES

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 650

Abstract: New England Fishery Management Council has prepared an amendment to the FMP for Atlantic Sea Scallops. With the current low scallop abundance and poor recruitment prospects, the present FMP does not appear to be providing the degree of resource protection anticipated by the Council. If the resource is to be conserved for the benefit of the industry and public, revised management measures are needed to ensure that incoming recruitment to the fishery, when and if it occurs, be better protected. The proposed measure will be a minimum individual meat size, rather than the present average minimum meat count. The ten smallest scallops in a one pint sample must weigh at least 4 ounces. The valuable Atlantic sea scallop resource is capable of yielding 100 million dollars annually, and requires additional protection.

228. FINAL RULE IMPLEMENTING THE NORTHEAST MULTISPECIES FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 651

Abstract: The New England Fishery Management Council is developing a comprehensive, long-term, groundfish plan to cover all of the important groundfish species caught in the New England trawl fishery. This plan, termed the Northeast Multispecies Fishery Management Plan (FMP) is intended to replace the present "Interim Fishery Management Plan for Atlantic Groundfish" which has regulated fishing for cod, haddock, and yellowtail flounder since 1982. The Northeast Multispecies FMP will take into account the fact that many different groundfish species are taken together in the same trawl, and that the mix of species changes on a trip and seasonal basis. The chief management measures include minimum fish sizes, minimum net mesh sizes, seasonal closures of specific areas, & exempted fish areas where smaller net mesh sizes can be used for fish species other than groundfish. The conservation focus is on maintenance of a min. stock abundance size which reasonably protects against recruitment failure; emphasis is on min. regulatory intervention or restriction on fishing options.

229. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; DEFINITION OF COMMERCIAL FISHING OPERATION

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.3

Abstract: It is proposed to modify the definition of "commercial fishing operation" to include commercial passenger fishing vessels (party boats) under that definition. This modification

would allow party boat owners and operators to apply for general permits and certificates of inclusion which allow the incidental taking of marine mammals during fishing operations. Under the Marine Mammal Protection Act, no marine mammals may be taken in the course of fishing operations unless permits and certificates have been obtained and until now, party boats were excluded from obtaining permits and certificates. Therefore, they were unable to protect the catch and gear of their paid passengers from depredations. Modification of definition should improve fishing conditions and result in increased revenue. Potential total costs to applicants are estimated at $450. Cost per applicant is estimated at $2.50.

232. COASTAL MIGRATORY PELAGIC RESOURCES OF THE GULF OF MEXICO AND SOUTH ATLANTIC: IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 642

Abstract: Amendment 1 to the plan would revise the implementing regulation to modify management of king mackerel. The resource is divided into Gulf and South Atlantic Migratory Groups. For each group an annual total allowable catch is determined that is allocated among recreational and commercial fishermen. A portion of the commercial quota is allocated to the purse seine fishery. Annual permits are required for vessels fishing the Gulf group. When a commercial quota is attained, commercial fishing must cease for that group. Recreational quotas will be controlled by a bag limit on charter and private boats of 2 fish per person per trip.

235. NOTICE OF THE NATIONAL MARINE FISHERIES SERVICE'S PROPOSED POLICIES FOR THE MANAGEMENT OF INTERJURISDICTIONAL FISHERIES AND FISHERY RESOURCES

Significance: Regulatory Program

Legal Authority: 16 USC 661 et seq

CFR Citation: Not yet determined

Abstract: The policies are to guide Federal participation in, and support of, interjurisdictional fisheries management by defining the Federal role, proposing general management objectives, and identifying means of implementation. These policies are needed to: (1) provide a framework for more effective management planning and other actions concerning interjurisdictional fisheries and fishery resources; (2) develop a broad awareness of the shared State & Federal responsibilities, and benefits of, long-term management of these fisheries and resources; (3) promote consistent conservation & management throughout the entire range of interjurisdictional fisheries and resources; and (4) establish specific & effective means of resolving jurisdictional differences which interfere with effective fisheries management. It is expected that these policies will result in closer cooperations between State and Federal government agencies responsible for interjurisdictional fisheries programs.

236. STRIPED BASS FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: Not yet determined

Abstract: The Mid-Atlantic Fishery Management Council will prepare a fishery management plan (FMP) for the Atlantic coast migratory stock of striped bass. The drastic 10-year decline of commercial and recreational landings of striped bass indicates the need for protective management measures for territorial waters and the fishery conservation zone (FCZ). The territorial waters will be managed by the Interstate Striped Bass Plan of the Atlantic States Marine Fisheries Commission, while the FCZ needs management with compatible measures through the striped bass FMP. Proposed management measures include a minimum fish size limit, a maximum fish size limit and prohibition of taking striped bass in the FCZ on a seasonal closure basis.

237. SHALLOW-WATER REEFFISH FISHERY OF PUERTO RICO AND THE U.S. VIRGIN ISLANDS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 669

Abstract: The Caribbean Fishery Management Council has prepared a Fishery Management Plan (FMP) for shallow-water reeffish of Puerto Rico and the U.S. Virgin Islands. A fishery for various species of snappers, groupers, grunts, porgies, goatfishes, and other edible reeffish using fish traps exists in the territorial waters of Puerto Rico and the U.S. Virgin Islands and the fishery conservation zone. These states have agreed to adopt compatible regulations with those developed by the FMP. Declining catch per unit effort for the reeffish fishery indicates that management measures are necessary to maximize spawning potential and prevent overfishing. Within a 2-3 yr. period after implementation, benefits are predicted to outweigh costs for proposed regulations concerning minimum fish sizes for yellowtail snapper and Nassau grouper. The proposed minimum mesh size for fish traps will allow some juvenile stages of most reeffishes to escape the gear & optimize the size of goatfish which are retained.

241. DEVELOPMENT OF A FISHERY MANAGEMENT PLAN FOR SUMMER FLOUNDER

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: Not yet determined

Abstract: Summer flounder is seasonably vulnerable to very large and varied commercial and recreational fisheries. Landings have declined in recent years and there is concern that overfishing may occur. The summer flounder crosses Council and Regional boundaries necessitating close coordination between the constituent agencies. The long-term benefits of higher production and revenue to the fishermen and processors are expected to outweigh any short-term limitations on catches in order to rebuild the stocks. Rebuilding the stocks to the maximum level, the efficiency of the fleet will improve as catches per unit of effort will correspondingly rise.

243. AMENDMENT #1 TO AMERICAN LOBSTER FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 649

Abstract: Amendment #1 to the American Lobster Fishery Management Plan has been proposed to incorporate

gear marking requirements. Mandatory reporting of fixed gear is not part of the amendment. The proposed gear marking would allow fishermen that are harvesting species other than lobster with moving gear such as an otter trawl to avoid entanglement with lobster traps which are fixed gear. Amendment 1 also proposes an exemption to the lobster trap vent requirement for those fishermen with a directed fishery for black sea bass in the area south of Burnegat Light shoreward of the 30 fathom curve. Finally this amend. provides authority for the Reg. Director to allow exemptions with the concurrence of the New England Fishery Management Council to any specific provisions for the lobster FMP for the purpose of research beneficial to the lobster resource and fishery.

245. SOUTH ATLANTIC SHRIMP FISHERY: IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 643

Abstract: Problems are overcapitalization of shrimp fishing vessels, conservation of shrimp spawning stocks, and inconsistency of State management. Alternatives are continuing with management by each State (no action), limited entry to transfer surplus capital from the fishery, cooperative Federal/State restrictions on fishing on spawning stocks, consistency of State fishing regulations (seasons, areas), improved data collection and analysis on a regional basis and gear modifications that could conserve threatened sea turtles that are incidental catch in shrimp trawls.

247. ATLANTIC MACKEREL, SQUID, AND BUTTERFISH FISHERIES: IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 655; 50 CFR 611

Abstract: The Fishery Management Plan for Atlantic Mackerel, Squid and Butterfish Fisheries and its implementing regulations expire on March 31, 1986, and must be extended to continue the management regime governing the harvest of these species by domestic and foreign fishermen. Alternatives are being considered for the mackerel fishery to condition direct foreign fishing on the purchase of U.S. processed mackerel and for the butterfish fishery to reduce the harvest of small butterfish by various gear modifications.

253. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; IMPORTATION OF YELLOWFIN TUNA

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas often other nations fishing in a similar manner that export tuna to the U.S. do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to the U.S. These regulations will implement this requirement.

254. ENDANGERED FISH OR WILDLIFE; PERMITS FOR THE INCIDENTAL TAKING OF ENDANGERED MARINE SPECIES

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222.22

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal establishes a mechanism whereby non-Federal entities whose actions may affect certain endangered marine species

under the jurisdiction of the Secretary of Commerce, may receive permits allowing the incidental taking of such species, provided the takings will not appreciably reduce the likelihood of the survival and recovery of the species in the wild. The proposal applies only to those private individuals/entities or local or State governments faced with having otherwise lawful actions not subject to Federal involvement or control, prevented by prohibitions against taking. Under the ESA, the taking of endangered species is prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under these regulations will allow commercial shrimp fishermen, recreational fishermen and others to conduct their activities without risk of prosecution for incidentally taking species covered under these provisions.

Timetable:

Action	Date	FR Cite
NPRM	12/00/85	
NPRM Comment Period Begin	12/00/85	
NPRM Comment Period End	01/00/86	

Small Entity: Undetermined

Additional Information: Potential cost to applicants is estimated at 2500. Cost per applicant is estimated at $10. Each applicant will be required to submit a conservation plan as part of the permit process. As part of their conservation plan, fishermen will have the option of voluntary use of the Trawling Efficiency Device which allows trapped sea turtles to escape from fishing nets. Selection of this option will result in an additional cost of approximately $400 per Device. NEPA, E.O. 12291 and RFA determinations have not been undertaken.

257. AMENDMENT 9 TO THE BERING SEA/ALEUTIAN ISLANDS GROUNDFISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 675

Abstract: Amendment 9 to the Fishery Management Plan for the Bering Sea/Aleutian Islands Groundfish Fishery was proposed by the North Pacific Fishery Management Council to ban foreign trawling within 20 miles of the Aleutian Islands in order to reduce bycatches of species fully utilized by U.S. fishermen and to eliminate gear conflicts with longliners in this area. The amendment will also require reporting by catcher/processor vessels to provide NMFS with more timely catch information necessary for adequate inseason management. NMFS

habitat conservation policy is also implemented by Amendment 9.

260. ● FISHERY MANAGEMENT PLAN FOR PACIFIC BILLFISH FISHERIES OF THE WESTERN PACIFIC REGION

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: Not yet determined

Abstract: The FMP proposes a conservation and management program for harvesting billfish, mahimahi, wahoo and oceanic sharks in the U.S. ECZ of the central and western Pacific ocean. The FMP presents management measures and reporting requirements to regulate the take of billfish, mahimahi, wahoo and oceanic sharks by foreign fishing vessels in the ECZ surrounding Hawaii, Guam, American Samoa, and U.S. Island possessions in the Pacific ocean. Other than proposing to prohibit the use of drift gillnet gear, the FMP does not propose controls on the catches of billfish and associated species by domestic fishing vessels, but proposes the strengthening of State and Territorial reporting requirements and data collection and sampling activities to better monitor domestic participation in the domestic fisheries for billfish and associated species.

263. ● STUDY OF FISHERY MANAGEMENT

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: Not yet determined

Abstract: The Fishery Management Study will evaluate methods and associated institutional arrangements required to carry out fishery management in the United States to recommend changes to this system when needed, and to seek ways to reduce Federal regulatory burdens and costs of fisheries management. It will focus on fundamentals such as the results we expect from management, whether the proper institutional arrangements are in place, the appropriate State and Federal roles, and on ways to reduce costs and regulatory burdens while maintaining effective research and enforcement efforts. The study report should be completed by June 1986 so that its recommendations can be reflected in NOAA's position in the 1987 Magnuson Act reauthorization.

The announcement of the study has been published in the Commerce Business Daily with the RFP to be available on August 2, 1985. Proposals are due by September 1, 1985. A contract should be awarded by September 30.

264. ● AMENDMENT 14 TO THE FISHERY MANAGEMENT PLAN FOR GROUNDFISH OF THE GULF OF ALASKA

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 672

Abstract: The measures proposed in the amendment will (1) establish Central Southeast Outside District within existing Southeast Outside District to better manage demersal shelf rockfish which are part of the other rockfish category and which have a harvest limit of 600 mt; (2) implement harvest OYs for pollock, Pacific ocean perch, other rockfish, Atka mackerel & other species; (3) establish requirement for all U.S. catcher/processing vessels that hold their catch for more than 2 wks. to provide weekly catch reports & check in & check out of regulatory areas; (4) give AK Reg. Dir. authority to allow fisheries that do not take halibut to continue to operate in areas where halibut bycatch limits have been reached; (5) incorporate NMFS habitat policy into Gulf of AK groundfish FMP which gives the N. Pacific Fishery Management Council authority to protect marine environment; (6) change opening date of pot and hookline sablefish fishery to April 1 in all regulatory areas; allocate sablefish among pot hook and line and trawl fishermen and gradually reduce pot fishermen's allocation to zero over several years.

267. FEDERAL CONSISTENCY WITH APPROVED COASTAL ZONE MANAGEMENT PROGRAMS

Significance: Regulatory Program

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1326. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the coastal zone within the meaning of Section 307(c)(1) of the Coastal Zone Management Act of 1972, as amended (CZMA), and, therefore, that a consistency determination is not required under that section before such sales may be made. Section 307 (c)(1) requires that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities in a manner which is consistent to the maximum extent practicable with federally-approved state coastal zone management programs. NOAA is engaging in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA intends to remove those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

268. PROPOSED REGULATIONS FOR THE PROPOSED FAGATELE BAY NATIONAL MARINE SANCTUARY

Legal Authority: 16 USC 1431 to 1434

CFR Citation: 15 CFR 941

Abstract: The American Samoa Government does not currently possess the legal authorities necessary for managing site-specific marine resources such as the Fagatele Bay National

Marine Sanctuary. Regulations will be proposed for the Fagatele Bay National Marine Sanctuary to fulfill a need evidenced by uncontrolled harvesting of reef fisheries and the loss of habitat via destructive fishing methods. Long-term benefits include resource protection and restoration of habitat; public education and development of an environmental ethic; and ecological succession studies. This project will serve as a prototype for other resource protection initiatives by the American Samoa Government.

NATIONAL OCEAN SURVEY/OFFICE OF MINERAL ENERGY

272. DEEP SEABED MINING REGULATIONS FOR COMMERCIAL RECOVERY

Significance: Regulatory Program

Legal Authority: 30 USC 1401 et seq Deep Seabed Hard Mineral Resources Act

CFR Citation: 15 CFR 971

Abstract: Under 15 CFR 970, prospective deep seabed miners may apply to NOAA for the exploration license needed to explore the deep seabed for manganese nodules. Under the new regulations, prospective miners will be able to apply to NOAA for a permit to commercially recover and process nodules to obtain strategic metals (nickel, copper, cobalt, manganese). These permits would provide security of tenure for applicants with respect to other U.S. citizens and other nations' permittees in accordance with applicable international agreements. Fees for securing and maintaining a permit will be based on the Government's processing costs. These fees would be an inconsequential portion of the cost of a commercial recovery operation. The cost of a commercial recovery operation is expected to exceed one billion dollars. Alternatives to the regulation would require amending the Deep Seabed Hard Mineral Resources Act, which would be considered in the context of the U.S. law of the sea policy.

RIN: 0648-AA36

273. LICENSING OF OCEAN THERMAL ENERGY CONVERSION FACILITIES AND PLANTSHIPS

Legal Authority: 42 USC 9101 et seq Ocean Thermal Energy Conversion Act; as amended by PL 96-623

CFR Citation: 15 CFR 981 et seq

Abstract: These regulations (15 CFR 981) established a stable legal system and a streamlined licensing process to facilitate commercial development of ocean thermal energy conversion (OTEC) facilities and plantships. These regulations are being reviewed to determine if they should be revised. The details of the simplified licensing system for ownership, construction, location, and operation of OTEC facilities and plantships which are associated with the United States or U.S. Citizens, are being examined to gauge the effect on the developing OTEC industry. Section 117 of the Ocean Thermal Energy Conversion Act of 1980 requires NOAA to review these regulations periodically, at intervals of not more than every three years, and to revise them as necessary based on that review. Agency planning amendments to regulations as a result of OMB review under the Paperwork Reduction Act. There is potential revision of antitrust provisions in the regulations which will be considered separately.

274. U.S. GENERAL STANDARDS FOR GRADES OF FISH FILLETS

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 263A; 50 CFR 263B; 50 CFR 263C; 50 CFR 263D; 50 CFR 263E

Abstract: This revision would amend 50 CFR Subpart 263A and delete 50 CFR Subparts 263A, B, C & D. The revision will simplify the voluntary standards for the inspection/grading of fish fillets by industry and Government inspection personnel by incorporating general criteria for the standards. The timetable for this action is very tentative. Further research will be needed before publication of the rule.

275. AMENDMENT NO. 3 TO THE HIGH SEAS SALMON FISHERY MANAGEMENT PLAN: IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 674

Abstract: Amendment No. 3 and implementing regulations to the High Seas Salmon Fishery Management Plan (FMP) may be needed to prevent depletion of the stocks by overfishing if naturally spawning stocks of southeast Alaska and Pacific Northwest chinook salmon are depressed. Reducing the optimum yield (OY) could contribute to resolution of the problem; alternatively reducing the harvest level within the current OY range may be adequate to address the problem. Adjustment of fishing season dates may also be appropriate. Adjustment of OY levels or the fishing season would impact over 3,000 commercial salmon trollers. Adverse impacts could include lower catch/revenues or increase competition for available catch. It is unknown at this time whether a 1985 or 1986 amendment will be necessary.

277. ATLANTIC SURF CLAM AND OCEAN QUAHOG FISHERIES: IMPLEMENTING REGULATIONS FOR SIZE LIMITS FRAMEWORK MEASURE

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 652

Abstract: Amends the regulations governing the harvest of Atlantic surf clams to provide a means of adjusting the minimum size within a range of 5.5 - 4.75 inches. The Regional Director, after consultation with the Mid-Atlantic Council and opportunity for public comment, must adjust the size limit as necessary so that discards on average would not exceed 30 percent of the total catches. Requires tagging of surf clam cages.

280. FOREIGN FISHING - PROHIBITIONS AND OBSERVER REGULATIONS

Significance: Agency Priority

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 611.7 to 611.8

Abstract: The interim rule revises the regulations which require foreign fishermen to assist U.S. observers and makes it illegal for foreign fishermen to take certain actions. The action is necessary to address a growing number of incidents of obstruction and harassment of observers by foreign fishermen affecting the safety and proper functions of those personnel. The regulations give explicit instructions to foreign fishermen to ensure the safety of observers, detail the assistance foreign fishermen are to give observers, and specify the actions or inactions that are prohibited to foreign fishermen.

283. AMENDMENT 8 TO THE BERING SEA/ALEUTIAN ISLANDS GROUNDFISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 675

Abstract: An amendment to the existing fishery management plan and regulations was proposed by the North Pacific Fisheries Management Council to ban foreign trawling within 20 miles of the Aleutian Islands in order to eliminate gear conflicts with longliners in this area.

285. FINANCIAL ASSISTANCE FOR RESEARCH AND DEVELOPMENT PROJECTS TO STRENGTHEN AND DEVELOP THE U.S. FISHING INDUSTRY - NOTICE OF FUNDS AVAILABILITY

Legal Authority: 15 USC 713(c) Saltonstall-Kennedy Act

CFR Citation: Not yet determined

Abstract: To provide widespread solicitation for proposals/applications

to compete for fisheries Development and Utilization Research and Demonstration Grants and Cooperative Agreements.

No alternative or limited competition alternatives are being considered.

Direct benefits include award of about $9 million in project grants representing about 70 percent of total project costs.

Direct costs include required matching funds of about 10 percent of total project costs or $4 million.

Costs and benefits associated with project accomplishments not quantifiable.

Abstract: NTIA has completed two grant cycles since the last revision of its PTFP Rules. During these two cycles we have recognized several areas which cause confusion. We intend to clarify these areas to allow potential grantees to understand more easily the requirements and facilitate their application. The proposed changes to Rules and Regulations will allow for more uniformity and clarity in administering the program. Areas included are: 1. Applicant eligibility for planning grants and making project eligibility language more consistent with the law and NTIA practices. 2.What constitutes a complete application and distinguishes it from an application that is deficient. 3.What does filing a timely application mean and how it is to be delivered in a timely manner. 4.How to amend an application. 5.How to reactivate a deferred application. 6.How to request special consideration. 7.Expanded discussions on control and use of equipment, eligible equipment items, and non-eligible equipment items. 8.Expanded discussions on the close-out and monitoring procedures for a project.

287. RIGHTS TO INVENTIONS MADE BY NONPROFIT ORGANIZATIONS AND SMALL BUSINESS FIRMS

Significance: Regulatory Program

Legal Authority: 35 USC 206

CFR Citation: 37 CFR 401

Abstract: 35 USC 206 as amended by PL 98-620, requires the Secretary to issue regulations implementing 35 USC 202-204 which deals with the rights in inventions to be provided to nonprofit organizations and small businesses that perform Government supported research and development. Previously this was the responsibility of OFPP which issued OMB Cir. A-124. The proposed regulation is based on Cir. A-124 with such substantive changes as are necessary because of various amendments made by PL 98-620. No alternative is available since a major thrust of the statute was the development of a single regulation to replace the numerous regulations that were in effect prior to 1981. The statute and regulations will benefit contractors and the public by creating the certainty necessary for the early commercialization of inventions by the private sector. Compared to the pre-1981 situation this reduces administrative costs of both the Government and contractors.

288. LICENSING OF GOVERNMENT OWNED INVENTIONS

Legal Authority: 35 USC 208

CFR Citation: 37 CFR 404

Abstract: PL 98-620 amended 35 USC 208 to shift authority for the promulgation of regulations concerning the licensing of federally owned inventions from GSA to Commerce. These regulations are identical in substance and will supersede GSA regulations at 41 CFR Subpart 101-4-1. Thus, there will be no changes in costs of benefits from this section. At a later date, we may consider whether changes to these regulations could lead to a more effective Government licensing program.

Department of Defense

Semiannual Regulatory Agenda

DEPARTMENT OF DEFENSE (DOD)
Office of the Secretary (OS)

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Department of Defense.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents for public information and comments under E.O. 12291, "Federal Regulation." This agenda incorporates the objectives and criteria, when applicable, of the regulatory reform program under E.O. 12291, and other regulatory reform programs. It contains DoD issuances initiated by DoD Components that may have economic and environmental impact on state, local, public or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and are therefore published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published in April 29, 1985 and includes regulations expected to be issued and under review over the next 12 months. The next agenda is scheduled to be published in April 1986. In addition to this agenda, DoD Components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information contact Mr. Terry D. Judd, telephone 202-697-1142 or write to Directorate for Organizational and Management Planning, OASD(C), Washington, D.C. 20301.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact Ms. Kathleen Buck, legal counsel, Office of the General Counsel, Washington, D.C. 20301, or call 202-697-2714.

For specific agenda items, contact the appropriate individual indicated in each DoD Component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements, with follow-on reporting actions taken, as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD Components promulgate their implementing regulations.

To ease identification and to clarify the differences between the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes Component level of authority and type of issuance in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD Components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act.

b. Paperwork Reduction Act.

c. GATT International Trade Agreement.

These DoD issuances which are directly applicable under these statutes will be identified in the agenda and their action status indicated. Generally, the reports contained in this agenda will contain three sections: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD Component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, DoD reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in title 5, section 553 and section 1 of E.O. 12291.

DATED: August 27, 1985.

Arthur H. Ehlers,

Director for Organizational and Management Planning.

AGENCY: Office of the Secretary, DoD.

ACTION: This agenda updates the report published in April 29, 1985, and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulatory material listed below is in 3 parts: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

FOR FURTHER INFORMATION CONTACT: The Agency contact names and telephone numbers appear after each agenda entry. For other information on the agenda, contact Mrs. Patricia H. Means, Directives Division, Correspondence and Directives Directorate, Washington Headquarters Services, telephone 202-697-4111.

SUPPLEMENTARY INFORMATION:

E.O. 12291. None of the regulatory documents listed below is a "major

rule" and no major rules are presently under development.

Regulatory Flexibility Action, section 610. The Office of the Secretary of Defense has screened its existing regulatory documents and has concluded that none of its regulatory documents causes significant impact on a substantial number of small entities.

Paperwork Reduction Act, Pub. L. 96-511. None of the DoD regulatory documents listed in the agenda require information collection reports affecting the public sector under the criteria of Pub. L. 96-511.

GATT Agreement. None of the DoD regulatory documents listed in this agenda impact upon foreign trade under the GATT Agreement.

The OSD agenda follows.

DEPARTMENT OF DEFENSE (DOD)
Office of the Secretary (OS)

Current and Projected Rulemakings

301. INVOLUNTARY CHILD AND SPOUSAL SUPPORT ALLOTMENTS (DOD DIRECTIVE 1340.XX)

Legal Authority: PL 97-248; 37 USC 101; 15 USC 1673; 42 USC 465

CFR Citation: 32 CFR 54

Abstract: This proposed rule (47 FR 46297, 10/18/82) implements section 172 of the Tax Equity and Fiscal Responsibility Act of 1982. It is being recoordinated within the Department of Defense.

Timetable:

Action	Date	FR Cite
NPRM	10/18/82	47 FR 46297
Final Action	12/00/85	

Small Entity: No

Agency Contact: James T. Jasinski, Department of Defense, Office of the Secretary, **202 697-0536**

RIN: 0790-AA08

302. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS) (FEDERAL MEDICAL CARE RECOVERY ACT, CHAPTER 9) (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 10 USC 1088; 5 USC 301

CFR Citation: 32 CFR 199

Abstract: This proposed amendment (48 FR 45791, October 7, 1983) revises the CHAMPUS regulation by consolidating all federal claims provisions into one Chapter. It is also being staffed within the Department of Defense.

Timetable:

Action	Date	FR Cite

RIN: 0790-AA31

304. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS); ELIGIBILITY OF ADULT ADOPTEES FOR MEDICAL BENEFITS (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 10 USC 1086; 5 USC 301

CFR Citation: 32 CFR 199

Abstract: This proposed amendment clarifies the intent of Title 10 USC 1072 (2), concerning eligibility of adopted children. This is necessary to ensure that reasonable limits are placed on CHAMPUS eligibility. This clarification will result in uniform eligibility determinations corresponding to the interest of Congress. It is also being staffed within the Department of Defense.

305. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS); AMENDMENT OF AMBULANCE SERVICE COVERAGE (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 5 USC 301

CFR Citation: 32 CFR 199

Abstract: This proposed amendment (49 FR 17976, April 26, 1984) will revise the definition of "ambulance," remove the $100 allowable charge ceiling used to distinguish between local and long distance ambulance service, and expand coverage for transfer to a Uniformed Service Medical Treatment Facility (USMTF). It is also being staffed within the Department of Defense.

BILLING CODE 3510-BW-T

DEPARTMENT OF DEFENSE (DOD)
Department of the Air Force (AF)

AGENCY: Department of the Air Force.

ACTION: This agenda updates the report published on April 29, 1985 and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulations listed on the agenda are existing or proposed regulations under internal review for revision or development and only apply to those regulations affecting the public. The Department of the Air Force has no "major rules" under development or review as defined by Executive Order 12291. Also, it has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) do not apply to these rules and that these rules do not contain reporting or recordkeeping requirements under the criteria of the Paperwork Reduction Act of 1980 (Pub. L. 96-511). These rules do not have an impact on international trade and therefore the provisions of the GATT Agreement do not apply.

FOR FURTHER INFORMATION CONTACT: Where a contact official is indicated, contact the specified individual. For general information, contact Ms. Patsy J. Conner, telephone (202) 697-1861 or write, Department of the Air Force, USAF/DASJR(S), Pentagon, Washington, D.C. 20330-5025.

Department of Education

Semiannual Regulatory Agenda

ED

DEPARTMENT OF EDUCATION

Office of the Secretary

34 CFR Subtitles A and B

Unified Agenda of Federal Regulations

AGENCY: Department of Education.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: The Secretary of Education publishes a Unified Agenda of Federal Regulations as required by the Office of Management and Budget (OMB) Bulletin No. 85-21 issued under the authority of section 6(b) of the Executive Order 12291 (Federal Regulations). The purpose of the agenda is to encourage more effective public participation in the regulatory process by giving the public early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT: Questions or comments related to specific regulations listed in this agenda should be directed to the contact person listed for that set of regulations. Questions or comments on the overall agenda should be directed to A. Neal Shedd, Director, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 2131, FOB-6, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: (202) 732-2887

SUPPLEMENTARY INFORMATION: Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, Pub. L. 96-354, enacted September 19, 1980, require the Department of Education to publish, in October and April of each year, (1) an agenda of regulations that the Department expects to issue, and (2) currently effective regulations that are under review. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

Under the authority of Executive Order 12291, the Director of OMB has issued OMB Bulletin No. 85-21, dated July 15, 1985, prescribing the content and structure of the Unified Agenda of Federal Regulations. The unified agenda will be issued semiannually and will cover the succeeding 12 months from the date of publication.

For each set of regulations listed, the agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent agenda, and planned dates of future rulemaking. In addition, the agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 USC 601(b)).
- A reference to where a reader can find the current regulations in the Code of Federal Regulations.
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is included in the Department of Education Regulatory Program under Executive Order 12498 and, if not, an indication if the action is a priority of the agency.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including reducing paperwork and compliance burdens, improving cost effectiveness and, to the extent possible, vesting greater discretion in State and local agencies, and (2) if necessary, to clarify and simplify requirements governing that program.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory action are subject to revision in subsequent agendas.

DATED: September 5, 1985.

William J. Bennett,

Secretary of Education.

349. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS TO STATE AND LOCAL GOVERNMENTS

Legal Authority: OMB Circular A-102; 20 USC 3474

CFR Citation: 34 CFR 80

Abstract: This action will implement revised OMB Circular No. A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current ED regulations codified at 34 CFR Part 74 were adopted by ED to implement both Circular No. A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. To implement revised Circular A-102 ED will adopt regulations approved by OMB affecting grantees that are state, local, and Indian tribal governments in 23 CFR Part 80. Regulations for the grantees covered by Circular A-110 will be retained in an amended 34 CFR Part 74.

388. ● NATIONAL DIRECT STUDENT LOAN PROGRAM: REDUCTION OF DEFAULT RATE

Significance: Regulatory Program

Legal Authority: 20 USC 1087aa-; 20 USC 1087ii; 20 USC 421-; 20 USC 429

CFR Citation: 34 CFR 674

Abstract: This regulatory action is being undertaken to reduce the high number of defaulted loans under the National Direct Student Loan Program (NDSL) and the unacceptably high default rate of certain participating institutions of higher education. Those provisions of the current regulations for the NDSL Program that have a bearing on the default rate will be reviewed. As a result of that review, the Department expects to develop and issue regulations designed to alleviate the problem substantially.

Department of Energy

Semiannual Regulatory Agenda

DOE

DEPARTMENT OF ENERGY

10 CFR Chs. II, III, and X

41 CFR Chs. 9 and 109

48 CFR Ch. 9

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: October 1985 regulatory agenda.

SUMMARY: In furtherance of this Administration's commitment to make government more responsive to the citizens of the United States and to assist in fulfilling the President's mandate to lessen regulatory burdens, the Department of Energy (DOE) is publishing an agenda of regulatory activities that DOE expects to take in the next year or has completed since April 1985. This Agenda provides the Administration with an effective tool for monitoring and controlling the promulgation of regulations. It includes (1) all rules expected to be issued as proposed or final rules before October 1986, (2) all rules being reviewed within the Department to determine whether to propose modifications through rulemaking, and (3) all rules for which regulatory action has been completed since the April 1985 Regulatory Agenda. In addition, the Agenda identifies each rule that DOE expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities," and thus also serves as the Department's regulatory flexibility agenda. The Agenda does not include routine regulations and those that relate to internal agency management.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the Agenda in general, contact: Ted Wilson, Department of Energy, Room 6B-144, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252-9507.

Specific: For further information about any particular item on the Agenda, contact the individual listed under that item.

SUPPLEMENTARY INFORMATION:

Executive Order 12291 (46 FR 13193, February 19, 1981) requires each Federal agency to publish, in April and October of each year, an agenda of proposed regulations that the agency has issued or expects to issue, and currently effective rules that are under agency review. Under the Executive Order, the Office of Management and Budget (OMB) sets forth standards and procedures for the preparation of these agendas.

There are important reasons for preparing this Agenda. It is vital in this Administration's efforts to reduce the burdens of existing and future regulations, to increase agency accountability for regulatory actions, to provide for Presidential oversight of the regulatory process, to minimize duplication and conflict of regulations, and to insure well-reasoned regulations. This Administration has made considerable progress in these efforts.

In fiscal year 1985, the Department achieved an estimated reduction of 5% in the paperwork burden imposed by management and procurement information collections. In addition, the Energy Information Administration, for fiscal year 1985, projects a reduced burden of its collections on the public by 26,000 hours, or approximately 3%. The Department of Energy continues to work vigorously to achieve even greater success in the future.

Executive Order 12291 also provides that the regulatory agenda may be incorporated with the "regulatory flexibility agenda" required under the Regulatory Flexibility Act (Pub. L. 96-354, 5 U.S.C. 602). The regulatory flexibility agenda must contain: (1) A brief description of the subject area and a summary of the nature of any rule which the agency expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities"; (2) the objectives and legal basis for the issuance of the rule and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and (3) the name and telephone number of an agency official knowledgeable about each rule.

Appended to this notice is DOE's October 1985 Regulatory Agenda, reflecting the status of rules listed as of August 15, 1985. Incorporated in this Agenda is the regulatory flexibility agenda required under 5 U.S.C. 602.

The October 1985 Regulatory Agenda has been prepared in accordance with OMB Bulletin 85-21. Within each major DOE organizational unit, regulatory activities have been divided among the following three categories: (1) Current and projected rulemakings (that is, rulemakings for which a Federal Register notice already has been issued or is expected to be issued prior to October 1986); (2) reviews of existing regulations (that is, pending reviews within the agency to determine whether to modify an existing regulation through a rulemaking); and (3) completed actions (that is, regulatory activities for which the agency has completed its action prior to the publication of the current Agenda).

Significant regulations are those which were included in the Administration's first annual Regulatory Program of the United States Government, released on August 8, 1985, under Executive Order 12498, signed on January 4, 1985. Priority regulations include all other regulations which the agency head considers a priority.

Each item will contain the following information: (1) DOE office or administration (that is, the DOE organizational unit responsible for the regulation); (2) RIN number (that is, the Regulation Identifier Number assigned by OMB/OIRA); (3) title; (4) significance (that is, if the regulation was included in the Administration's Regulatory Program or, if not, is a priority regulation); (5) agency contact (that is, the name, title, address and telephone number of a person who is knowledgeable about the regulation); (6) existing regulation (that is, if the regulation under review is an existing regulation); (7) effects on small businesses and other entities (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act); (8) CFR citation (that is, the section of the Code of Federal Regulations that will be affected); (9) legal authority (that is, a citation to the section of the United States Code (U.S.C.), Public Law (P.L.) or the Executive Order (E.O.) that authorizes the regulatory action); (10) abstract (that is, a description of the problem the regulation will address, the alternatives being considered for addressing the problem, and the potential costs and benefits of the action); and (11) timetable (that is, the dates and citations, if applicable, for all past stages of the rulemaking that are not final and the next stage of the rulemaking). In addition, each item

DOE

regarding completed actions (that is, regulations completed or withdrawn and reviews completed since the preceding Agenda) states the date and citation, if appropriate.

On August 20, 1985, a draft of this Agenda was transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any, to fulfill the requirement of 5 U.S.C. 602(b).

DOE's next Agenda will be published in April 1986.

Issued in Washington, D.C. on August 26, 1985.

J. Michael Farrell,
General Counsel.

413. ENERGY EFFICIENCY STANDARDS FOR FOUR TYPES OF CONSUMER PRODUCTS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Abstract: Congress directed DOE to prescribe energy efficiency standards for certain specific consumer products unless DOE determines, by rule, that the establishment of such standard will not result in significant conservation of energy or is not technologically feasible or economically justified. This rule deals with four of these products: dishwashers, clothes washers, television sets, and humidifiers and dehumidifiers. The analysis will include all allowable alternatives including various efficiency levels for these consumer products as well as the alternative of no efficiency standard for these consumer products.

Small Entity: Undetermined

Additional Information: The United States Court of Appeals for the District of Columbia Circuit decided on July 16, 1985 to set aside the final rules regarding Federal appliance energy efficiency standards. The final rule for clothes washers and kitchen ranges and ovens was published on December 22, 1982 (47 FR 57198). The final rule for refrigerators and refrigerator-freezers, freezers, water heaters, room air conditioners, furnaces and central air conditioners was published on August 30, 1983 (48 FR 39376). The Department is currently reviewing the court decision and studying the impact it will have on this rulemaking.

414. ENERGY EFFICIENCY STANDARDS FOR THREE TYPES OF CONSUMER PRODUCTS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Abstract: Congress directed DOE to prescribe energy efficiency standards for certain specific consumer products unless DOE determines, by rule, that the establishment of such standard will not result in significant conservation of energy or is not technologically feasible or economically justified. This rule deals with heat pumps, heat pump water heaters and home heating equipment (not including furnaces). The analysis will include all allowable alternatives including various efficiency levels as well as the alternative of no efficiency standard.

415. FEDERAL ENERGY MANAGEMENT & PLANNING PROGRAMS METHODOLOGY & PROCEDURES FOR LIFE CYCLE COSTING ANALYSES

Legal Authority: PL 95-619, Sec 545; PL 96-294, Sec 405; 42 USC 8255; EO 11912; EO 12003; PL 95-619, Sec 547

CFR Citation: 10 CFR 436

Abstract: The National Energy Conservation Policy Act requires DOE to promulgate regulations that establish a methodology for estimating and comparing the life cycle costs of Federal buildings and for determining life cycle cost effectiveness. The Energy Security Act requires that the regulations provide for the use of marginal costs in the life cycle cost analysis. DOE is seeking legislative revisions to NECPA to rescind requirement for utilizing marginal costs in LCC analysis.

417. ENERGY EFFICIENCY TEST PROCEDURES FOR WATER HEATERS

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The purpose of the rulemaking is to establish test procedures for heat pump water heaters and to eliminate the need for the test procedure waiver granted to A. O. Smith for its water heater with a thermal compensatory dip tube.

418. COMMERCIAL AND APARTMENT CONSERVATION SERVICE (CACS) STANDBY PROGRAM REGULATIONS

Significance: Regulatory Program

Legal Authority: 42 USC 8284

CFR Citation: 10 CFR 458.701 to 458.715

Abstract: On October 26, 1983, DOE issued a final rule in compliance with Title VII of the National Energy Conservation Policy Act, as amended, establishing the Commercial and Apartment Conservation Service (CACS) Program. The CACS Program is an energy audit program for commercial and apartment buildings to be carried out by public utilities in accordance with Plans developed by States. NECPA requires DOE to administer the Program in States that choose not to submit Plans. DOE will administer the program in the manner set forth in the CACS Standby Program Regulations. Insufficient data exists to reliably estimate potential program costs and benefits.

419. TWENTY-SIX STATE PETITIONS REGARDING FEDERAL PREEMPTION OF STATE ENERGY EFFICIENCY STANDARDS FOR APPLIANCES

Significance: Regulatory Program

Legal Authority: 42 USC 6297 (b)(3)

CFR Citation: 10 CFR 430.33

Abstract: This is a rulemaking responding to 26 State petitions that the Department promulgate rules exempting various of the States' appliance energy efficiency standards from federal preemption, regarding six types of major household appliances. The appliances are: refrigerators and refrigerator-freezers, freezers, water heaters, room air conditioners, central air conditioners, and furnaces.

Small Entity: No

Additional Information: In a related matter, DOE published notice that it would take final action on the 26 State petitions by May 13, 1985. 49 FR 32444, August 14, 1984. The United States Court of Appeals for the District of Columbia Circuit decided on July 16, 1985 to set aside the final rules regarding Federal appliance energy efficiency standards. The final rule for clothes washers and kitchen ranges and ovens was published on December 22, 1982 (47 FR 57198). The final rule for refrigerators and refrigerator-freezers, freezers, water heaters, room air conditioners, furnaces and central air conditioners was published on August 30, 1983 (48 FR 39376). 421. ENERGY EFFICIENCY TEST PROCEDURES -- WAIVER

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.27

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The Department can temporarily waive test procedure requirements for a particular covered product when characteristics of that product prevent use of the prescribed test procedures or lead to results of the test procedures that provide materially inaccurate comparative data. The purpose of this rulemaking is to streamline the waiver process.

422. ENERGY EFFICIENCY TEST PROCEDURES FOR CENTRAL AIR CONDITIONERS

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The purpose of the rulemaking is to establish test procedures for water-source heat pumps and multi-evaporator heat pumps; to eliminate the test procedure waiver granted to Borg-Warner Central Environmental Systems for its variable speed heat pump; and to incorporate, by reference, the American Society of Heating, Refrigerating, and Air-conditioning Engineers Standard 116-83 and the Air-conditioning and Refrigeration Institute Standard 210/240-84 into the test procedures.

423. STATE PETITION REGARDING FEDERAL PREEMPTION OF STATE ENERGY EFFICIENCY STANDARDS FOR APPLIANCES

Significance: Regulatory Program

Legal Authority: 42 USC 6297(b)(3)

CFR Citation: 10 CFR 430.33

Abstract: This is a rulemaking responding to two State petitions that the Department promulgate rules exempting various States' appliance energy efficiency standards from Federal preemption. For Michigan, the appliances addressed in the State's petition are gas furnaces, gas clothes dryers, and gas kitchen ranges and ovens. For Hawaii, the appliance addressed in the State's petition is water heaters.

424. PROCEDURES FOR PRELIMINARY ENERGY AUDITS AND GUIDELINES FOR BUILDINGS PLANS

Legal Authority: PL 94-163; PL 95-619; EO 11912; EO 12003

CFR Citation: 10 CFR 436

Abstract: The regulations in Subpart B are needed to provide the procedures for conducting and reporting on preliminary energy audits of Federal buildings, as required by Title V, Part 3, of the National Energy Conservation Policy Act (NECPA) and section 10 of EO 11912, as amended. The regulations in Subpart C are needed to provide guidelines for the formulation and updating of Buildings Plans by Federal agencies to achieve goals for reduction of Federal building energy use, pursuant to section 10 of EO 11912, as amended, section 381 of the Energy Policy and Conservation Act, as amended, and NECPA. DOE is reviewing these procedures and guidelines in order to determine how to make them less prescriptive.

426. INSTITUTIONAL CONSERVATION PROGRAMS -- AMENDMENTS

Legal Authority: 42 USC 6371 to 6372i Title III of the EPCA, as amended; 42 USC 7101 to 7352 Department of Energy Organization Act

CFR Citation: 10 CFR 455.1 to 455.102

Abstract: The Department makes grants to schools, hospitals, and local government and public care institutions for conducting detailed energy audits and to schools and hospitals for installing energy conservation materials and equipment. The amendments would take advantage of experience obtained in administering the program by making adjustment to such matters as the length of the payback for eligible materials and equipment and the contents of energy audits. The amendments would improve the efficiency of the program.

432. REVIEW AND ESTABLISHMENT OF NATURAL GAS CURTAILMENT PRIORITIES FOR INTERSTATE PIPELINES

Legal Authority: 42 USC 7151; 42 USC 7172; 15 USC 3391 to 3393

CFR Citation: 10 CFR 598

Abstract: The proposed rule establishes natural gas curtailment priorities applicable to deliveries by interstate pipelines during periods when not enough gas is available to supply all customers. The proposed rule implements the rulemaking requirements of Title IV of the Natural Gas Policy Act of 1978 by establishing curtailment priorities for high priority uses and for essential agricultural and essential industrial feedstock and process uses.

Next Action Undetermined

Small Entity: Not Applicable

Additional Information: FERC currently is reviewing the proposed rule pursuant to section 404 of the DOE Act. FR will be issued approximately six weeks after FERC concurrence is received. A regulatory flexibility analysis is not required in regard to this rule since the notice of proposed rulemaking was issued prior to January 1, 1981.

433. ADMINISTRATIVE PROCEDURES FOR ADJUSTMENTS OF NATURAL GAS CURTAILMENT PRIORITY REGULATIONS

Legal Authority: 15 USC 3412; 42 USC 7101; 5 USC 553

CFR Citation: 10 CFR 580; 10 CFR 585

Abstract: This rule proposes procedures for seeking interpretations, modifications, or rescissions of natural gas curtailment priority regulations for essential agricultural uses. The Federal Energy Regulatory Commission (FERC) took jurisdiction over the proposed rule on June 15, 1979, under Section 404 of the DOE Organization Act, and the matter is currently at FERC.

436. DEPARTMENT OF ENERGY ACQUISITION REGULATION REVISIONS

Legal Authority: 41 USC 401 et seq The Office of Federal Procurement Policy Act; 42 USC 7101 et seq The Department of Energy Organization Act; EO 12352 Procurement Reforms

CFR Citation: 48 CFR 927; 48 CFR 950

Abstract: The Department of Energy Acquisition Regulation, promulgated March 29, 1984, at 49 FR 11922, supplements and implements the Federal Acquisition Regulation. A more recent Federal Acquisition Circular has been issued to establish a FAR Part 27 concerning Patents. It will be necessary to revise Part 927 of the DEAR to supplement and implement the FAR and to explain how DOE patent policy will differ due to our statutory requirements. The Department also plans to revise Part 950 of the DEAR regarding extraordinary contract actions to describe how such requests will be handled. Neither of the actions is anticipated to have any cost impact.

Abstract: This action is for the purpose of updating the Acquisition Regulation as a result of changes in the Federal Acquisition Regulation and Internal Procedures. It discontinues the use of DOE Small Purchase Forms as GSA has issued forms for that purpose. It increases the threshold for formal source evaluation boards from $5 to $10 million. It adds a new solicitation provision entitled "Buy America Act - Construction Materials." It also provides new guidance on Small Business Subcontract Plans Under Management Contracts.

452. PATENT WAIVER REGULATION

Legal Authority: 42 USC 2182; 42 USC 5908

CFR Citation: 10 CFR 784; 41 CFR 9-9.109-6

Abstract: The regulation provides procedures and standards for obtaining a waiver of the Government's rights in inventions made under DOE research and development contracts with entities that are not small businesses or nonprofit institutions, and terms and conditions of such waivers. Currently, DOE waiver policy is provided in DOE Procurement Regulations (41 CFR 9-9.109-6). The proposed regulation places DOE patent waiver policy in a separate regulation, and also provides updates, revisions and clarifications to waiver policy as contained in 41 CFR 9-9.109-6.

Unified Agenda of Regulations

AGENCY: Department of Health and Human Services.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive Order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on April 29, 1985.

FOR FURTHER INFORMATION CONTACT: For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: John J. Phelan, Associate Executive Secretary/Regulations, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue, S.W., Washington, D.C. 20201, Telephone: (202) 245-3475.

David A. Rust,

Executive Secretary.

RIN: 0991-AA08

459. PRIVACY ACT REGULATION

Legal Authority: 5 USC 552a

CFR Citation: 45 CFR 5b

Abstract: This will be the first complete update since 1975 of the Department's Privacy Act Regulation implementing the Privacy Act of 1974. It will facilitate individuals' access to information and

records that the Department maintains about them in more than 400 designated Privacy Act Systems of Records, clarifying and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing Privacy Act requests by providing them with an integrated regulation that is compatible with current procedures for processing such requests. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

Timetable:

RIN: 0991-AA11

460. PRINCIPLES FOR DETERMINING COSTS AND COST ALLOCATION PROCEDURES APPLICABLE TO GRANTS, CONTRACTS, AND OTHER AGREEMENTS FOR WORK PERFORMED BY HOSPITALS

Legal Authority: 5 USC 501

CFR Citation: 45 CFR 74, Appendix E; 45 CFR 78

Abstract: This action will revise the Department's current cost principles for research and development activities under grants and contracts with hospitals to make them clearer, more specific, and compatible with cost principles issued by OMB for educational institutions and nonprofit organizations. The revision will also broaden the coverage of the principles to include all grants, contracts and other agreements with hospitals (except the Medicare & Medicaid programs).

463. MEDICARE PHYSICIAN FEE FREEZE SANCTIONS

Significance: Agency Priority

Legal Authority: PL 98-369, Sec 2306

CFR Citation: 42 CFR 420; 45 CFR 101

Abstract: This rule sets forth OIG procedures for imposing civil money penalties and Medicare program exclusions on physicians who choose not to be participating physicians and who raise charges to Medicare beneficiaries in violation of the freeze on such fees contained in PL 98-369, Sec. 2306. The rule also modifies existing regulations to permit the OIG to impose civil money penalties and assessments on those who choose to be participating physicians under Medicare and who violate their participation agreements as set forth under Sec. 2306.

465. ● BLOCK GRANT PROGRAMS

Significance: Regulatory Program

Legal Authority: 42 USC 9901; 42 USC 300w; 42 USC 8621; 42 USC 300x

CFR Citation: 45 CFR 96

Abstract: In the past session of Congress, four of the Department's block grants were reauthorized and certain requirements imposed on the States and other recipients were changed. The block grants include those for Alcohol and Drug Abuse and Mental Health Services; Preventive Health and Health Services; Low-Income Energy Assistance and Community Services. In addition, Congress enacted the Single Audit Act of 1984 which substantially changes the Federal audit requirements imposed upon State and local governments and modifies Federal agency responsibility for oversight of those audits. These legislative changes necessitate changes in the Department's block grant regulation issued July 6, 1982. Alternative measures for addressing the problem are not being considered. None of the proposed legislative changes will involve substantial cost. Approval of the NPRM will ensure Departmental compliance with the legislation.

RIN: 0991–AA25

466. ● ADMINISTRATION OF GRANTS - IMPLEMENTATION OF OMB CIRCULAR A-102

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74

Abstract: This action will implement revised OMB Circular No. A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current HHS regulation codified at 45 CFR Part 74 was written by HHS to implement both Circular No. A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. Revised Circular A-102 will require us to adopt essentially verbatim a common regulation drafted by OMB and affecting governmental grantees only.

RIN: 0991–AA27

467. ● INCOME AND ELIGIBILITY VERIFICATION PROCEDURES

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 45 CFR 205; 45 CFR 206; 45 CFR 232; 42 CFR 431; 42 CFR 435

Abstract: These regulations implement Section 2651 of The Deficit Reduction Act. It requires Federal and State governments to develop income and eligibility verification systems for Federally funded assistance and beneficiary programs. These provisions will have a significant beneficial impact on our ability to control errors and to reduce fraud, waste and abuse in AFDC and Medicaid. These regulations establish the procedures for the development and operation of State Income and Eligibility Verification Systems. These systems will enable Federally funded welfare and unemployment agencies to make more accurate eligibility determinations and benefit payments by exchanging information with each other and by obtaining unearned income data from the Internal Revenue Service and other income and wage data from the Social Security Administration and from State employment data files.

468. ● ADMINISTRATION OF GRANTS-IMPLEMENTATION OF OMB CIRCULAR A-88

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.62(b), (Revised)

Abstract: This action will implement revised OMB Circular A-88 which is expected to be issued sometime this year. The Circular will provide governmentwide standards for non-Federal audits of college and university recipients of Federal grants and contracts. The Circular and these amendments will replace the audit requirements currently contained in OMB Circular A-110.

Timetable:

Action	Date	FR Cite
Final Action	00/00/00	

Small Entity: No

Additional Information: It is expected that OMB will publish a draft of its Circular in the Federal Register and obtain public comments. The specific form and nature of our action is expected to be mandated by OMB.

Agency Contact: Joel B. Feinglass, Director, Office of Assistance & Cost Policy, Department of Health and Human Services, Office of the Secretary, Room 513D, Hubert H. Humphrey Bldg., 200 Independence Ave., SW, Washington, DC 20201, 202 245-7565

RIN: 0991-AA29

469. ● ADMINISTRATION OF GRANTS-SINGLE AUDIT ACT OF 1984

Significance: Agency Priority

Legal Authority: 5 USC 301; 31 USC 7505; PL 98-502, Sec 7505 Single Audit Act of 1984

CFR Citation: 45 CFR 74.62(a), (Revised); 45 CFR 74, Appendix I; 45 CFR 74, Appendix J

Abstract: This action implements the Single Audit Act of 1984 and OMB Circular A-128 by requiring recipients that are governments to comply with Circular A-129. That Circular provides governmentwide standards for implementing the Act. The Act, Circular and these amendments replace Attachment P to Circular A-102. Attachment P contained the previous Federal policy on non-Federal audits of governmental recipients of Federal grants.

Office of the Secretary (OS)

470. PUBLIC INFORMATION REGULATION

Legal Authority: 5 USC 552

CFR Citation: 45 CFR 5

Abstract: This will be the first complete update since August 1974 of the Department's Public Information Regulation implementing the Freedom of Information Act. It will facilitate public access to information by making necessary revisions, clarifying, and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing FOIA requests by providing them with an integrated regulation that is compatible with current procedures for processing FOIA requests and assessing search and copy fees that reflect the increased cost of such services. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

471. EQUAL OPPORTUNITY IN EMPLOYMENT: PUBLIC BROADCASTING, PUBLIC RADIO AND PUBLIC TELECOMMUNICATIONS ENTITIES RECEIVING FEDERAL FUNDS FROM THE CORPORATION FOR PUBLIC BROADCASTING

Legal Authority: 47 USC 2405

CFR Citation: 45 CFR 87.1-40

Abstract: Implements the Equal Opportunity in Employment Provisions of the Public Telecommunications Financing Act of 1978, PUB. L. 95-267, 47 U.S.C. 398(b)(1). This provision requires that equal opportunity in employment be afforded to all persons and that no person shall be subjected to discrimination in employment on the grounds of race, color, religion, national origin, or sex by the Public Broadcasting Service, National Public Radio, and public telecommunications entitles receiving Federal funds from the Corporation for Public Broadcasting.

Legal Authority: PL 97-365; 31 USC 3711; 31 USC 3716 to 3718; 5 USC 5514; 5 USC 552a

CFR Citation: 45 CFR 30, (Revision)

Abstract: The proposed rule amends the Department's regulation for collecting debts. Principally, the amendments implement the Debt Collection Act of 1982 (P.L. 97-365), which amended the Federal Claims Collection Act of 1966 (31 U.S.C. 3711, 3716-3718) to authorize, among other things, the charging of interest, penalties and administrative costs, and the use of administrative offset, private collection agencies and credit reporting agencies by the Government. The amendments also implement government-wide regulations issued by the Department of Justice and GAO (49 F.R. 8889) and OPM (49 F.R. 27470).

476. GRANTS TO STATES FOR PUBLIC ASSISTANCE PROGRAMS

Legal Authority: 42 USC 1302

CFR Citation: 45 CFR 201.66,(Revision)

Abstract: The proposed rule amends 45 CFR 201.66 by removing paragraph (b)(8). Section 201.66 governs States' repayment by installments of debts to the Department arising from audit disallowances under Titles I, IV-A, X, XIV, XVI (AABD) or XIX of the Social Security Act (42 U.S.C. 201 et seq). Paragraph (b)(8) provides that States will not be charged interest on those repayments unless mandated by court order. Paragraph (b)(8) is being removed to conform to the Department's interest policy set forth in the proposed amendments to 45 CFR Part 30, the Claims Collection Regulation. The provision is inconsistent with the Department's policy of charging interest on outstanding debts.

477. GRANTS FOR STATE AND COMMUNITY PROGRAMS ON AGING; GRANTS TO INDIAN TRIBES FOR SUPPORTIVE & NUTRITION SERVICES--FINAL RULES

Legal Authority: 42 USC 3001 et seq

CFR Citation: 45 CFR 1321; 45 CFR 1328

Abstract: These final rules contain requirements that give States and Indian Tribes greater flexibility in meeting the statutory requirements to provide supportive and nutrition services to older individuals.

478. FOSTER CARE MAINTENANCE PAYMENTS, ADOPTION ASSISTANCE, AND CHILD WELFARE SERVICES -- NOTICE OF PROPOSED RULEMAKING

Legal Authority: 42 USC 670 et seq Adoption Assist & Child Welfare Act of 1980; 42 USC 620 et seq; 42 USC 1302 Social Security Act

CFR Citation: 45 CFR 1356; 45 CFR 1357

Abstract: This NPRM will propose criteria the Department will use to verify that a State has met statutory requirements and is eligible to receive additional funds under Section 427 of the Social Security Act as amended by the Adoption Assistance and Child Welfare Act of 1980 (Pub. L. 96-272). The proposed rule will contain the specific criteria by which State performance in meeting the requirements of Section 427 is determined, the percentage levels and other standards for case record compliance, and procedures for conducting compliance reviews.

479. WORK INCENTIVE PROGRAM FOR AFDC RECIPIENTS UNDER TITLE IV OF THE SOCIAL SECURITY ACT--FINAL RULES

Legal Authority: 42 USC 602 (a) (19); 42 USC 630 to 644; 42 USC 1302; 42 USC 614

CFR Citation: 29 CFR 56; 45 CFR 224

Abstract: These rules implement three provisions of the Deficit Reduction Act of 1984 (PL 98-369) regarding the WIN program. These changes: (1) add a new exemption for women from the WIN work requirements beginning with the sixth month of pregnancy; (2) permit, under the protective payment requirement, a sanctioned caretaker relative (one who refused to participate in WIN or accept employment without good cause) to receive the AFDC payment on behalf of the assistance unit if a suitable protective payee cannot be located; and (3) exempt AFDC recipients from the work program requirements if they are participating in a Work Supplementation Program operated by a State.

480. HEAD START PROGRAM--FINAL RULE

Significance: Regulatory Program

Legal Authority: 42 USC 9831 et seq The Head Start Act, PL 97-35, as amended

CFR Citation: 45 CFR 1301

Abstract: This rule would amend existing regulations governing the recruitment and selection of Head Start staff. The proposed rule would emphasize the importance of careful screening of employees in Head Start programs by requiring that Head Start programs have formal personnel policies and procedures in place that will provide safeguards against the possibility of abuse and neglect, including sexual abuse, occurring in the Head Start program.

482. DEVELOPMENTAL DISABILITIES PROGRAM--NOTICE OF PROPOSED RULEMAKING

Legal Authority: 42 USC 6000 et seq

CFR Citation: 45 CFR 1385; 45 CFR 1386; 45 CFR 1387; 45 CFR 1388

Abstract: With the exception of the rules for the University Affiliated Facilities Program (45 CFR Part 1388) which are undergoing a major review and revision, the majority of the provisions planned for the proposed rules will be technical updates which reflect the reorganization of the Act. Also, a number of unnecessary portions in the current regulations would be deleted as the language contained in PL 98-527 is very clear and specific and does not require the development of regulations.

487. SUPPLEMENTAL SECURITY INCOME PROGRAMS; MANDATORY PASS THROUGH UNDER STATE SUPPLEMENTATION PROVISIONS

Significance: Agency Priority

Legal Authority: 42 USC 1382g(c); PL 97-377, Sec 147; PL 98-21, Sec 402

CFR Citation: 20 CFR 416, Subpart T

Abstract: These rules reflect changes in the law which enable States effective for the 12-month period ending 6/82, to switch from the "maintaining of total expenditures" method of compliance with mandatory pass through provisions to the "maintaining of payment levels" method without first having to pass through to all current SSI recipients all the Federal cost-of-living benefit increases which have occurred since 12/76. States can meet the pass through requirements by maintaining the payment levels in effect in December of the latest preceding total expenditures period. The concept of "State Supplementary payment level" is changed to a concept of combined supplementary and SSI payment levels applicable to months after 3/83. Also, a State is permitted to reduce its 3/83 State Supplementary payment levels by an amount up to the difference between the amount of the 7/83 general increase in the Federal benefits in 7/83. Also reflected in the rules is a special method of compliance for States meeting the passalong requirements by the total annual expenditures test for the period 7/1/80 through 6/30/81. The total expenditures for that period need only equal or exceed the total (cont)

488. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; COVERAGE OF EMPLOYEES OF STATE AND LOCAL GOVERNMENTS

Legal Authority: 42 USC 418; 42 USC 1302; PL 98-21, Sec 103; PL 98-21, Sec 342

CFR Citation: 20 CFR 404, Subpart M

Abstract: This proposed regulation reflects policies and procedures concerning agreements between States and the Secretary for Social Security coverage of State and local employees, payment of Social Security contributions, filing of wage reports by States, charging interest for late payments, etc. The current rules need to be organized into a logical sequence and to be updated to reflect many policies which SSA has followed for many years. In preparing this regulation, we reviewed all policies to assess their impact on the trust funds and to reduce recordkeeping burdens. We also added the provisions of sections 103 and 342 of Pub. L. 98-21. Sec. 103 prohibits termination of existing coverage under the States' agreements. Sec. 342 changes payment of Social Security contributions from once a month to twice a month. Other than these two statutory changes, which leave no room for administrative discretion, this proposed regulation primarily reflects current policies, so that any program and administrative costs or savings resulting from the regulation will be minimal.

489. GENERAL ADMINISTRATION-PUBLIC ASSISTANCE PROGRAMS; AFDC; FEDERAL FINANCIAL PARTICIPATION IN THE COST OF A STATEWIDE MECHANIZED CLAIMS PROCESSING SYSTEM

Legal Authority: 42 USC 602(a); 42 USC 603(a)(3); 42 USC 613; PL 96-265, Sec 406

CFR Citation: 45 CFR 205.35; 45 CFR 205.36; 45 CFR 205.37; 45 CFR 205.38

Abstract: The regulation will make available, at State option, 90 percent matching funds for the planning, design, development, and installation of a statewide claims processing and information retrieval system for the AFDC program. The 90 percent matching includes the purchase or rental of computer equipment and software used for the operation of this system. The regulation will result in short-run administrative costs, but is expected to result in greater long-run program savings through increased accuracy of processing. The regulation also provides for the disallowance of incentive funds that exceed the normal administrative FFP rate (50 percent) back to the beginning date of development should SSA suspend approval of an approved APD or should a State voluntarily withdraw its approved APD.

491. SUPPLEMENTAL SECURITY INCOME PROGRAM; AGE 18 AND ALIEN DEEMING

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 1382j; 42 USC 1383; 42 USC 1381; 42 USC 1381a; 42 USC 1382; 42 USC 1382a; 42 USC 1382b; 42 USC 1382c(f); 42 USC 1383(d)

CFR Citation: 20 CFR 416, Subpart K

Abstract: This regulation provides that deeming of parental income and resources to an eligible child ends when a child reaches age 18 and that a sponsor's income and resources are deemed to an alien for a period of three years after admission for aliens who first apply for SSI benefits after September 30, 1980. The regulation eliminates different treatment of children aged 18 to 21 depending on status as students, and assumes that sponsors will support aliens and sets more rigid rules for the sponsor to alien deeming than apply to other deeming categories.

492. SUPPLEMENTAL SECURITY INCOME PROGRAM; ELIGIBILITY, AMOUNT OF BENEFITS, INCOME, RESOURCES, STATE SUPPLEMENTARY PROVISIONS, AGREEMENTS, PAYMENTS

Significance: Agency Priority

Legal Authority: 42 USC 1382; 42 USC 1382a

CFR Citation: 20 CFR 416, Subpart B; 20 CFR 416, Subpart D; 20 CFR 416, Subpart K; 20 CFR 416, Subpart L; 20 CFR 416, Subpart T

Abstract: This regulation will implement statutory provisions for retrospective monthly accounting and spell out how they affect various regulations that deal with eligibility for and the amount of SSI benefits. This regulation will implement a significant change from quarterly to monthly determinations of eligibility and benefit amount. Although in the first year (1982) of implementation of retrospective monthly accounting there will be an administrative cost, it will be followed by an administrative saving thereafter. No significant program costs or savings are projected for FY 1985.

493. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; FUTURE EFFECT OF APPLICATIONS AND RELATED CHANGES IN APPEALS COUNCIL PROCEDURES

Legal Authority: 42 USC 402; 42 USC 416; 42 USC 423(b); 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart G; 20 CFR 404, Subpart J; 20 CFR 416, Subpart C; 20 CFR 416, Subpart N

Abstract: These rules should promote final resolution of cases at the hearing stage and help to reserve appeals council review for cases of a genuinely appellate nature. These rules specify that if a person files an application for benefits before the first month he or she meets all requirements for entitlement, we will allow the claim only if he or she meets all requirements before a hearing decision is issued (if a hearing is held) or if no hearing is held, before a final determination is made. These rules will generate program savings and administrative costs and savings.

494. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM; COMPUTING A SUPPLEMENTAL PAYMENT IN STATES REQUIRED TO DO SO BY SECTION 402(A)(28) OF THE SOCIAL SECURITY ACT

Legal Authority: 42 USC 602; 42 USC 1302

CFR Citation: 45 CFR 232.21; 45 CFR 233.20; 45 CFR 232.20

Abstract: This regulation will require that eligibility be based on the current month's reported support payments, and each month's supplemental payment be based on the largest part of the amount collected in the current month that would not cause ineligibility. It will provide uniform and equitable redeterminations of eligibility and payment amounts. This regulation will result in minimal costs.

495. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart P

Abstract: The regulation revises the medical evaluation criteria used in making Social Security and SSI disability determinations. The changes reflect advances in medical treatment of some conditions and in the methods of evaluating others. Since no significant change in disability allowance and denial rates is expected to result from these changes in the regulations, there will be little, if any, impact on costs (both program and administrative). Other proposed regulations are being processed regarding the evaluation criteria used in determining mental disorders.

496. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM; LEAST COSTLY APPROACH

Significance: Regulatory Program

Legal Authority: 42 USC 602; 42 USC 603; 42 USC 606; 42 USC 607; 42 USC 1302

CFR Citation: 45 CFR 201; 45 CFR 205; 45 CFR 206; 45 CFR 225; 45 CFR 232; 45 CFR 233; 45 CFR 234; 45 CFR 235; 45 CFR 237

Abstract: This regulation will affect a number of provisions of the AFDC program. It will result in savings to State and Federal governments and will ease the paperwork burden of the States. The changes may include provisions on restricted payments, hearings, redeterminations, issuances of replacement checks and others that will result in a "least costly" approach to the administration of AFDC. This regulation will result in dollar savings and the relief of administrative burdens that we expect to accrue.

RIN: 0960–AA43

497. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM AND SUPPLEMENTAL SECURITY INCOME PROGRAM; DISABILITY HEARINGS AT THE RECONSIDERATION LEVEL

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302; PL 97-455, Sec 4; PL 97-455, Sec 5; 42 USC 1383

CFR Citation: 20 CFR 404; 20 CFR 416; 20 CFR 422

Abstract: Sections 4 and 5 of Pub. L. 97-455 require SSA to make face-to-face evidentiary hearings available at the first stage of appeal, known as reconsideration, in cases in which an initial determination is made that an individual receiving title II disability benefits is not now disabled. Regulations are necessary to implement this statutory requirement, which will make the reconsideration stage more meaningful. Although not specifically required by the statute, the proposed regulations will include SSI disability and blindness cessation cases in the new reconsideration process. The availability of an evidentiary hearing at the reconsideration stage in disability and blindness termination cases should enable reconsiderations to be based on more complete information, enable more appeals to be resolved at that level, and thus reduce the workload at the administrative law judge hearing level and in the Appeals Council.

498. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; PROVISION FOR INFERRING A PERSON IS DEAD

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404, Subpart H

Abstract: The proposed regulations explain that the claimant at all times bears the burden of proving the insured person's death and clarifies that SSA will not presume a missing insured person is dead if there are known circumstances that could reasonably explain the absence, even without direct evidence that such circumstances actually were the reason for the absence. The proposed changes will result in negligible program or administrative costs or savings.

499. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; WAGE COVERAGE UNDER SOCIAL SECURITY

Legal Authority: 42 USC 405; 42 USC 1302; PL 98-21, Sec 327; PL 96-342, Sec 1002(a); PL 97-306, Sec 408; PL 96-499, Sec 1141

CFR Citation: 20 CFR 404.1043; 20 CFR 404.1055; 20 CFR 404.1059; 20 CFR 404.1060; 20 CFR 404.1341

Abstract: This regulation consists of amendments to 5 rules on wage coverage under Social Security. These amendments are: (1) The value of the meals and lodging furnished for the convenience of the employer must be excluded from the employee's gross income; (2) With only limited exceptions, an employer may no longer exclude from an employee's wages, his or her payment of the employee's FICA tax; (3) Payments by an employer to an employee after the calendar year of the employee's entitlement to disability insurance benefits are not wages if paid in a period the employee did not work; (4) The scope of the entitlement to the deemed wages provided to internees of the camps for Japanese-Americans during World War II period is being broadened; (5) The scope of the entitlement to the deemed wages provided to members of the uniformed services is being narrowed. Only two regulations will have a cost impact. Amendment (1) above will reduce the Social Security benefits paid the affected employees but not by $100 million in any year. Amendment (2) will increase taxes paid by employers and employees but these increases are required by the statutory provisions and not the regulation.

500. SUPPLEMENTAL SECURITY INCOME PROGRAM; REOPENING AND REVISING SUPPLEMENTAL SECURITY INCOME DETERMINATIONS AND DECISIONS WITHIN FOUR YEARS OF THE NOTICE OF THE INITIAL DETERMINATION

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 1383b

CFR Citation: 20 CFR 416.1488

Abstract: The proposed rules provide for the reopening and revising of Supplemental Security Income determinations within four years of the notice of the initial determination if we discover an error affecting a claimant's eligibility or benefit amount during this period through the use of information exchange and data gathering involving either our records or our records and those of other Federal or State agencies. This rule is being proposed because the two-year period in which we may reopen and revise a determination based on new and material evidence we acquire through data and exchange is often too short and often expires before the determination to correct errors revealed by the data can be made. The budgetary impact has not yet been determined.

501. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; BENEFITS FOR DIVORCED SPOUSES BEFORE ENTITLEMENT OF INSURED WORKER

Legal Authority: PL 98-21, Sec 132; PL 98-21, Sec 301

CFR Citation: 20 CFR 404, Subpart D; 20 CFR 404, Subpart E

Abstract: This proposed regulation provides that a divorced spouse of a worker who is eligible for old-age benefits can receive wife's or husband's benefits if the divorced spouse is otherwise eligible for them and the parties have been divorced for at least 2 years, even if the worker has not applied for benefits or if the worker's current earnings are too high to permit payment of the worker's old-age benefits. Total program cost is estimated as under $100 million through 1989.

502. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; PAYMENT OF CERTAIN TRAVEL EXPENSES

Significance: Agency Priority

Legal Authority: 42 USC 401; 42 USC 1383; PL 97-51; PL 97-92; PL 97-161; PL 97-276; PL 97-377; PL 98-107; PL 98-139; PL 98-619

CFR Citation: 20 CFR 404, Subpart J; 20 CFR 416, Subpart N

Abstract: These proposed regulations reflect section 310 of Pub. L. 96-265 which became effective June 9, 1980. That law provides permanent authority for the payment of certain travel expenses to (1) individuals who attend medical examinations requested by the Social Security Administration (SSA) in connection with disability determinations, (2) parties, their representatives, and all reasonably necessary witnesses who attend disability termination hearings in connection with disability claims, and (3) parties, their representatives, and all reasonably necessary witnesses who attend hearings held before an administrative law judge. They also reflect the 75 mile minimum for payment of travel expenses. The minimum is required for title XVI by successive HHS appropriations. We have been paying travel expenses based on internal procedure without regulation. These regulations will not cause any appreciable change in expenditures.

503. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; NEW BENEFIT COMPUTATIONS FOR COST-OF-LIVING ADJUSTMENT, FOR DELAYED RETIREMENT CREDIT, AND FOR ETC

Legal Authority: 42 USC 402(w); 42 USC 403(a),(b); 42 USC 415(i); 42 USC 1382(f)

CFR Citation: 20 CFR 404, Subpart C; 20 CFR 404, Subpart D; 20 CFR 404, Subpart E; 20 CFR 416, Subpart D

Abstract: This proposed regulation will state that beginning with 1983, the annual cost-of-living adjustment will be effective in December and paid in January rather than being effective in June and paid in July. This revised schedule affects both OASDI and SSI. Additionally, the adjustment will be based on the lower of wages or price increases when the OASDI trust fund ratio of assets to estimated outgo falls below a given percentage. This proposed regulation will also explain that the combined family maximum, where there is entitlement on two workers' records, will be increased only on the basis of cost-of-living adjustments. Finally, this regulation will explain the gradual increases in the delayed retirement credit. Shifting the cost-of-living adjustment will reduce program expenditures by $39.4 billion for 1983-89. The other provisions on this regulation package will have negligible program costs.

505. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; ELIMINATION OF WINDFALL BENEFITS FOR PERSONS RECEIVING PENSIONS FROM NONCOVERED EMPLOYMENT

Significance: Regulatory Program

Legal Authority: PL 98-21, Sec 113

CFR Citation: 20 CFR 404, Subpart C

Abstract: The provision of section 113 of Pub. L. 98-21 (the Social Security Amendments of 1983) eliminates the windfall that occurs when the heavy weighting in the benefit formula that is intended for workers with low wages goes instead to workers who spent many years in noncovered employment and worked only a few years in covered employment. This will be accomplished by modifying the benefit computation formula to consider a worker's pension from noncovered employment. This provision will decrease program costs by $0.1 billion for 1983-89.

506. SUPPLEMENTAL SECURITY INCOME PROGRAM; TEMPORARY RESIDENTS OF EMERGENCY SHELTERS FOR THE HOMELESS

Significance: Agency Priority

Legal Authority: 42 USC 1383 (e)(i)(d)

CFR Citation: 20 CFR 416, Subpart B; 20 CFR 416, Subpart M

Abstract: Section 1611(e)(1)(A) of the Social Security Act provides that, with certain limited exceptions, no person may be eligible for Supplemental Security Income Benefits for months throughout which he or she resides in a public institution. Section 403 of Pub. L. 98-21, which these regulations would implement, provides that an aged, blind, or disabled resident of a public emergency shelter for the homeless may be eligible for benefits for as many as three months in any 12-month period throughout which he or she is a resident of such a shelter. Program and administrative costs will be less than $1 million per year.

507. AID TO FAMILIES WITH DEPENDENT CHILDREN AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; DISREGARDING OF SUPPORT AND MAINTENANCE ASSISTANCE BASED ON NEED

Significance: Agency Priority

Legal Authority: 42 USC 602; 42 USC 1382a; 42 USC 1302; PL 98-369

CFR Citation: 20 CFR 416, Subpart K; 20 CFR 416, Subpart L; 45 CFR 233.20

Abstract: These proposed regulations implement section 404 of Pub. L. 98-21 and section 2639 of Pub. L. 98-369 which provide that certain support and maintenance assistance is not to be counted when determining an individual's eligibility for and the amount of his or her Supplemental Security Income (SSI) benefits or at the State's option, his or her Aid to Families With Dependent Children (AFDC) payments. Section 404 is effective May 1, 1983 through September 30, 1984. Section 2639 is effective October 1, 1984 through September 30, 1987.

509. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; RESIDENCY REQUIREMENT FOR PAYING BENEFITS TO NON-RESIDENT ALIENS

Legal Authority: 42 USC 405; 42 USC 1302; PL 98-21, Sec 340

CFR Citation: 20 CFR 404.460(b)

Abstract: These regulations implement Sec. 340 of Pub. L. 98-21--The Social Security Amendments of 1983--which

provides a U.S. residence requirement that the dependent or survivor beneficiary must now meet if he or she is an alien outside the U.S. These provisions do not apply to the alien who is an old-age beneficiary who is residing outside the U.S. The dependent or survivor beneficiary, however, who is an alien outside the U.S. will not be paid benefits effective January 1, 1985 unless he or she satisfies these new residence requirements. These provisions will effect negligible budget savings, i.e., $50 million for the period 1983-89.

510. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; INDEXING FOR WIDOW(ER)'S BENEFITS; EFFECT OF REMARRIAGE ON WIDOW(ER)'S ENTITLEMENT; REDUCTION OF DISABLED WIDOW(ER)'S BENEFITS; ETC

Legal Authority: PL 98-21, Sec 131; PL 98-21, Sec 133; PL 98-21, Sec 134; PL 98-21, Sec 334; 42 USC 405; 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart C; 20 CFR 404, Subpart D; 20 CFR 404, Subpart E; 20 CFR 404, Subpart G

Abstract: These final rules will explain: (1) that in many situations remarriage will no longer affect a widow(er)'s entitlement to benefits on the earnings record of a deceased insured worker; (2) that benefit amounts for a widow(er) will be larger because the worker's earnings will be indexed based on the surviving spouse's eligibility rather than on the worker's year of death; (3) that benefits to a widow(er) who becomes entitled before age 60 (based on disability) will no longer be further reduced for months before age 60; (4) that, as an exception to limited retroactivity, a widow(er) age 60 or 61 may choose to have benefits begin effective with the month of death even though he or she did not apply until the next month. Budgetary information is unavailable at this time.

511. SUPPLEMENTAL SECURITY INCOME PROGRAM; PRESUMPTIVE DISABILITY AND PRESUMPTIVE BLINDNESS; CATEGORIES OF IMPAIRMENTS

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 416.934

Abstract: Section 1631(a)(B) of the Social Security Act provides for the payment of benefits to persons applying for supplemental security income benefits on the basis of disability or blindness before making a formal determination when available information indicates a high probability that disability exists. These presumptive disability and blindness decisions may be made at the Social Security district offices in a limited number of impairment categories. We are proposing to add Chronic Renal Disease to these categories in view of the predictability that the disease will result in a finding of disability. Budgetary impact is expected to be negligible.

516. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS TREATMENT OF OASDI AND SSI LUMP SUM PAYMENTS IN THE AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383(a)

CFR Citation: 20 CFR 404, Subpart U; 20 CFR 416, Subpart F

Abstract: These proposed rules would revise 20 CFR 404.2040 and 20 CFR 416.640, which stipulate the use of benefit payments by a representative payee, explaining that retroactive title II and title XVI benefits received by a representative payee who is a member of an Aid to Families with Dependent Children (AFDC) assistance unit, on behalf of a child in the same unit, may be considered available to meet the needs of that AFDC assistance unit. If the representative payee is not a member of the assistance unit, title II and title XVI benefits would be counted as available income for AFDC purposes only to the extent that the payee provides these funds to the AFDC household for the beneficiary's maintenance. Potential costs and benefits are not available at this time. We are also proposing direct payment to a beneficiary under age 18 if the beneficiary is within 7 months of attaining age 18 and is initially filing an application for benefits. This proposed revision represents a policy change and is an extension of the 4-month period in our current regulations.

517. SUPPLEMENTAL SECURITY INCOME PROGRAM; THE AUTOMOBILE, PROPERTY ESSENTIAL TO SELF-SUPPORT, THE HOME

Significance: Agency Priority

Legal Authority: 42 USC 1383; 42 USC 1302; 42 USC 1382b

CFR Citation: 20 CFR 416.1212; 20 CFR 416.1218; 20 CFR 416.1220; 20 CFR 416.1222; 20 CFR 416.1224; 20 CFR 416.1225; 20 CFR 416.1226; 20 CFR 416.1227

Abstract: The regulations are being amended to provide rules where resources are excluded because they are property essential to an individual's self-support. These changes, which do not appear in existing regulations, include value limits for property essential to self-support and describe conditions under which an individual's property will be taken into consideration when income-producing activities are associated with the home. Certain rules involving the automobile and the home are included with these regulations since they relate to the self-support rules. We estimate negligible additional costs.

521. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; RESPIRATORY SYSTEM

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404.1500ff, Appendix 1, Part A

Abstract: Section 3.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1598) describes those respiratory impairments which are considered severe enough to prevent a person from engaging in any gainful activity. We are proposing comprehensive revision to that section to require consideration of the nature and clinical manifestations of respiratory disorders, as well as consideration of the degree of limitations such disorders may impose on an individual's ability to work.

523. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM, TREATMENT OF ASSIGNED SUPPORT PAYMENTS RECEIVED DIRECTLY AND RETAINED BY AFDC APPLICANTS OR RECIPIENTS

Legal Authority: 42 USC 1302

CFR Citation: 45 CFR 232.12; 45 CFR 233.20; 45 CFR 302.31; 45 CFR 303.80

Abstract: This proposed regulation establishes two methods under which support payments directly received from an absent parent and retained by an AFDC recipient must be accounted for. One method is the IV-A income method in which the IV-A agency counts retained support as income and the other is IV-D recovery in which the IV-D agency collects payments on the indebtedness from the recipient. The proposed regulations provide policy for the collection or accounting for retained support.

529. SUPPLEMENTAL SECURITY INCOME PROGRAM; INCOME; BILLS PAID FOR YOU

Legal Authority: 42 USC 1382(a)

CFR Citation: 20 CFR 416.1103(g); 20 CFR 416.1103(a) to (b)

Abstract: Federally funded needs based payments are counted dollar for dollar as income for SSI purposes regardless of the manner in which they are paid (e.g., directly to a vendor). Bills paid by "someone else" (e.g., a relative or friend) are not income. Regulations need clarification that "someone else" does not mean another federally funded needs based program. Also, cash provided by a governmental medical or social services agency is not income. Regulations will restrict this to cash which is either repayment for, or restricted to the future purchase of, a program-approved service.

532. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; PERSONAL APPEARANCE DEMONSTRATION PROJECTS

Significance: Agency Priority

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; PL 98-460

CFR Citation: 20 CFR 404; 20 CFR 416

Abstract: Sec. 6 of Pub. L. 98-460 requires SSA to carry on demonstration projects that provide an opportunity for a personal appearance with the decisionmaker before an unfavorable determination about disability is made. The sample of cases is to include disability cases under title II of the Social Security Act (the Act) as well as disability cases in the Supplemental Security Income program under title XVI of the Act. It is to include people who have applied for benefits but have not received an initial determination about their eligibility and people who

have been receiving benefits but whose condition is being reviewed to determine whether they are still disabled or blind. The purpose is to test whether a personal appearance with the decisionmaker at this stage of the decisionmaking process will permit the decisionmaker to better evaluate the person's condition and simplify and expedite the decision process. We plan to issue regulations to implement the demonstration projects. The cost to SSA is not yet determined.

534. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; STANDARDS FOR CONSULTATIVE EXAMINATIONS; MEDICAL EVIDENCE

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 9; 42 USC 465; 42 USC 421; 42 USC 423; 42 USC 1302; 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 404.1512; 20 CFR 416.912; 20 CFR 404.1519; 20 CFR 416.919; 20 CFR 404.1502; 20 CFR 416.920; 20 CFR 404.1593; 20 CFR 416.993; 20 CFR 416.902; 20 CFR 404.1513; 20 CFR 416.913; 20 CFR 404.1520; 20 CFR 404.1545; 20 CFR 416.945; 20 CFR 404.1546

Abstract: The proposed regulations include standards for obtaining consultative examinations, the types of consultative examination referrals to be made, and monitoring procedures for consultative examinations and the referral process. The proposed regulations also provide for evaluating medical evidence of record and a 12-month medical history where appropriate. The requirement that a medical assessment in work-related terms be included in medical reports is being eliminated. The changes will not have any significant impact on either administrative or program costs.

535. SUPPLEMENTAL SECURITY INCOME PROGRAM; INCREASE IN DOLLAR LIMITATION UNDER ASSETS TEST

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 1383; PL 98-369, Sec 2611

CFR Citation: 20 CFR 416.1202; 20 CFR 416.1205; 20 CFR 416.1244; 20 CFR 416.1246; 20 CFR 416.1324

Abstract: This regulation reflects the provisions of section 2611 of PL 98-369, the Deficit Reduction Act of 1984, which amended section 1611(a) of the Social Security Act (the Act). Section 2611 provides for increasing the Supplemental Security Income (SSI) resource limitations by $100 for an individual and $150 for a couple each year from January 1985 to January 1989. On January 1, 1989, and continuing, the resource limits will be $2,000/$3,000 respectively. There are no alternatives. We estimate program cost of less than $1 million per year and the administrative costs will be insignificant.

537. SUPPLEMENTAL SECURITY INCOME PROGRAMS; ASSIGNMENT OF RIGHTS TO THIRD-PARTY MEDICAL PAYMENTS TO STATE

Legal Authority: 42 USC 1383c; 42 USC 1396k

CFR Citation: 20 CFR 416.2101 to 416.2119

Abstract: Our current regulations implementing section 1634 of the Social Security Act provides that SSA will make determinations for the State on whether aged, blind, or disabled people are eligible for Medicaid if the State's Medicaid requirements for these people are the same as SSI eligibility requirements. Sec. 2367 of Pub. L. 98-369 mandates that States require, as a condition of Medicaid eligibility, that a person assign to the State his or her rights to any medical care support available under an order of a court or an administrative agency and any third-party payments for medical care (except Medicare). This is a Medicaid requirement that is different from SSI requirements. We plan to amend our regulations to provide that in making the Medicaid eligibility determination under a section 1634 agreement, SSA will also determine that the new assignment requirement has been met. The resulting cost for SSA is estimated as less than $1 million a year, of which States would pay half. We are also rewriting and reorganizing our regulations for making Medicaid determinations.

538. SUPPLEMENTAL SECURITY INCOME PROGRAM; HOW WE COUNT UNEARNED INCOME

Legal Authority: 42 USC 1302; 42 USC 1382a

CFR Citation: 20 CFR 416.1123(b)

Abstract: The issue is whether amounts otherwise due an individual assigned to repay a legal obligation should continue to be included in income under the Supplemental Security Income (SSI) program. The proposed regulation will clarify that we count such amounts as income. Because this clarification only will lend greater support to current operating policy, no costs/savings are anticipated.

539. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; CONTINUATION OF BENEFITS DURING APPEAL

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 423; 42 USC 1302; 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart P; 20 CFR 416, Subpart I

Abstract: These proposed rules which implement section 2 of Pub. L. 97-455, section 2 of Pub. L. 98-118 and section 7 of Pub. L. 98-460 provide the following groups with the option to elect to continue receiving benefits/payments pending reconsideration and/or a hearing before an administrative law judge on a medical cessation determination; recipients of disability insurance; adult child's, disabled widow's, disabled widower's, mother's and father's, or spouse's benefits based on having in care a disabled adult child; recipients of benefits based on having in care, a child under age 18 but over age 15, who is disabled and receiving child's benefits; recipients of SSI benefits based on disability or blindness. Any continued payments are subject to recovery as overpayments, subject to the same waiver provisions now in current law and regulations where the medical cessation decision is upheld on appeal. The estimated additional costs not already funded are FY 1985--$80.1 million, FY 1986--$112.6 million.

540. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; QUALIFICATIONS OF MEDICAL PROFESSIONALS EVALUATING MENTAL IMPAIRMENTS

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 8; 42 USC 405; 42 USC 421; 42 USC 1302; 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 404.1503; 20 CFR 404.1526; 20 CFR 404.1546; 20 CFR 404.1615; 20 CFR 404.1616; 20 CFR 404.1617; 20 CFR 416.903; 20 CFR 416.926; 20 CFR 416.946; 20 CFR 416.1015; 20 CFR 414.1016; 20 CFR 416.1017

Abstract: The proposed regulations reflect the provisions of section 8 of PL 98-460 by requiring that we make every reasonable effort to have a qualified psychiatrist or psychologist to complete the medical portion of the case review and any residual functional capacity assessment in unfavorable determinations in mental impairment cases. We are also explaining the qualifications necessary to be considered as reasonable effort to obtain the services of a qualified psychiatrist or psychologist. SSA must now make every reasonable effort to see that the services of qualified psychiatrists and psychologists are obtained including, where necessary, raising State fee schedules to provide compensation at the prevailing rates in the community. SSA may also contract directly for these services when the State is unable to provide them due to inadequate compensation or other impediments at the State level. Costs will increase by a range of less than $3.4 million in 1985 to $7.2 million in 1986. These figures were derived from the number of additional physician hours needed for State agency medical consultants.

Timetable:

542. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM; EXTENSION OF MEDICAID ELIGIBILITY WHEN SUPPORT COLLECTIONS RESULT IN TERMINATION OF AFDC ELIGIBILITY

Legal Authority: 42 USC 606; 42 USC 1302; PL 98-378, Sec 20

CFR Citation: 45 CFR 233

Abstract: This interim final rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378) specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes wholly or partly to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because the payment amount is under $10 or because the payment is determined to be zero as a result of rounding. The estimated costs are: FY 1985--$53 million, FY 1986--$58 million, FY 1987--$62 million, and FY 1988--$68 million.

543. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM REOPENING AND REVISING DETERMINATIONS AND DECISIONS WHERE THERE IS CLEAR ERROR OR NEW AND MATERIAL EVIDENCE

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302; 30 USC 923(b); 30 USC 936(a); 30 USC 956; 30 USC 957

CFR Citation: 20 CFR 404, Subpart J; 20 CFR 410, Subpart F

Abstract: These proposed rules would make two changes on when a determination or decision affecting someone's rights may be reopened and revised. These changes would permit reopening more than 4 years after the date of the notice of the initial determination so that we can correct clerical errors or errors on the face of the evidence considered in making the determination or decision. We are proposing to make these changes so that we can correct erroneous determinations or decisions discovered more than 4 years after the date of the initial determination. In addition, the proposed rules would establish a new administrative action called a "non-action finding." A "non-action finding" occurs when we fail to act on a report by a beneficiary and as a result fail to make an adverse change in the individual's benefits. A "non-action finding" is final and binding on both us and the beneficiary, subject to special rules on reopening and revising that action. We are proposing to make this change so that a beneficiary is protected under rules covering the reopening and revising of determinations and decisions against the retroactive effect of a (cont)

544. SUPPLEMENTAL SECURITY INCOME PROGRAMS; ELIGIBILITY; CONTINUATION OF BENEFITS AND ELIGIBILITY FOR CERTAIN SEVERELY IMPAIRED RECIPIENTS WHO WORK

Legal Authority: PL 98-460, Sec 14(a)

CFR Citation: 20 CFR 416.260; 20 CFR 416.261; 20 CFR 416.262; 20 CFR 416.263; 20 CFR 416.264; 20 CFR 416.265; 20 CFR 416.266; 20 CFR 416.267; 20 CFR 416.268; 20 CFR 416.269

Abstract: Reflects the provisions of Section 14(a) of P.L. 98-460, which changes from December 31, 1983 to June 30, 1987 the day on which sections 1619 (a) and (b) of the Social Security Act are to expire. The projected annual program savings are $4.7 million; $5.6 million SSI benefit savings and $0.9 million Medicaid costs. Total estimated administrative expenses are $420,000.

545. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; COMPLIANCE WITH FEDERAL LAW

Significance: Agency Priority

Legal Authority: 42 USC 405; 42 USC 421; 42 USC 1302; PL 98-460, Sec 17

CFR Citation: 20 CFR 404; 20 CFR 416

Abstract: The regulations deal with the operation of State agencies which make disability determinations for the Social Security Disability Benefits program and the Supplemental Security Income for the Aged, Blind, and Disabled program under regulations and other written SSA guidelines. The regulations implement recently enacted law which requires the Secretary to take definitive steps within specific time frames to assure the compliance of State agencies with SSA regulations and other written guidelines or proceed to determine their participation in the SSA administered programs. The regulations also make other changes to improve the disability determination process and to clarify and update other administrative requirements. Costs/savings cannot be estimated at this time.

546. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; PAYMENT OF COSTS OF REHABILITATION SERVICES

Significance: Agency Priority

Legal Authority: PL 98-460, Sec 11; 42 USC 405; 42 USC 422; 42 USC 1302; 42 USC 1382(d)

CFR Citation: 20 CFR 404; 20 CFR 416

Abstract: Public Law 98-460 created 2 new provisions under which SSA will pay vocational rehabilitation (VR) agencies for the costs of services provided to disabled or blind social security beneficiaries or SSI recipients. Under the first new provision, SSA will allow payment to VRA's for the costs of VR services provided to individuals continuing to receive payment because they are participating in a VR program after their period of disability has ceased due to their unexpected medical recovery. The second new provision allows payment to VRA's for the costs of VR services provided to beneficiaries/recipients who refuse without good cause to continue or to cooperate in a VR program in such a way as to preclude their successful rehabilitation with such refusal resulting in the nonpayment of their disability or blindness payments. It is estimated that the first year costs of this program will be less than 1 million dollars.

547. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; ADJUSTMENTS IN SSI BENEFITS ON ACCOUNT OF RETROACTIVE BENEFITS UNDER TITLE II

Significance: Agency Priority

Legal Authority: 42 USC 405; 42 USC 1320a-6; 42 USC 1302; 42 USC 1383; PL 98-369, Sec 2615

CFR Citation: 20 CFR 404.408b; 20 CFR 416.1123

Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate loopholes that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) Retroactive SSI benefits will be reduced where retroactive OASDI benefits for the same period have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable retroactively upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated as $5 million a year.

548. ● OLD AGE, SURVIVORS, DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; DETERMINING DISABILITY AND BLINDNESS; MULTIPLE IMPAIRMENTS

Legal Authority: PL 98-460, Sec 4; 42 USC 405; 42 USC 423; 42 USC 1302; 42 USC 1382

CFR Citation: 20 CFR 404.1520; 20 CFR 404.1521; 20 CFR 404.1522; 20 CFR 404.1523; 20 CFR 416.920; 20 CFR 416.921; 20 CFR 416.922; 20 CFR 416.923

Abstract: This provision of the law requires us to consider the combined effect of all of a person's impairments in determining disability regardless of whether any single impairment, if considered separately, would be of sufficient severity. If we do find a medically severe combination of impairments, the combined impact of the impairments must be considered throughout the disability determination process. We are revising regulations which explain how we evaluate multiple severe impairments to reflect that we will now consider the combined effect of impairments to determine severity. When the combined effect is found to be severe, that the person's impairments are evaluated under the full sequential evaluation process. Current cost estimates for fiscal years 1985 and 1986 are as follows: Additional title II benefits: less than $5 million per year. Additional SSI benefits: FY 1985-negligible; FY 1986- $1 million.

549. SUPPLEMENTAL SECURITY INCOME PROGRAM; LIMITATION ON RECOUPMENT RATE IN CASE OF OVERPAYMENT

Legal Authority: 42 USC 1302; 42 USC 1381; 42 USC 1381a; 42 USC 1382; 42 USC 1382c; 42 USC 1383; 42 USC 1383b

CFR Citation: 20 CFR 416, Subpart E

Abstract: These proposed rules which implement section 2612 of Pub. L. 98-469 will limit the rate at which an overpayment may be recovered from an individual still receiving benefits (SSI or federally administered supplementary payments, or both) to 10 percent of the recipient's total income (countable income plus SSI and State supplementary payments) or the recipient's payment for the month, whichever is less. They will apply the 10 percent requirement only to recipients in current payment status. However, recovery of an overpayment by withholding from SSI payments due will be suspended when a recipient is subject to the $25 payment limitation (living arrangement D). The 10 percent limit will not apply in situations involving installment agreements, recovery by refund, cross program adjustment or where it is determined that the overpayment occurred because of recipient fraud or willful misrepresentation. They will, in negotiated cases, set a rate of withholding that is appropriate for the financial condition of the overpaid person after factual evaluation. Such cases will also be considered initial determinations for (cont)

551. ● DISCLOSURE OF PERSONAL INFORMATION TO LAW ENFORCEMENT AGENCIES AND COURTS

Significance: Regulatory Program

Legal Authority: 5 USC 552; 5 USC 552a; 5 USC 1306; 26 USC 6103

CFR Citation: 20 CFR 401

Abstract: Under present rules, disclosure to a law enforcement agency is allowed only whena violent crime has been committed and the subject of the information has been either indicted or convicted of that crime. These rules severely restrict permissible disclosures, since most subjects, once indicted or convicted, are already in custody or otherwise accounted for, the change now proposed would allow disclosure also when the individual is suspected of a violent crime. With this change, the number of disclosures would still be small, but the modified rule would permit disclosure in the occasional case in which the police are searching for a person suspected of a violent crime and this agency has whereabouts information the disclosure of which is not otherwise prohibited. In these cases we believe that society's need to apprehend the suspect generally outweighs the suspect's privacy rights.

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 10

CFR Citation: 20 CFR 404; 20 CFR 416

Abstract: The Disability Program is a dynamic program that is subject to ongoing review and change. It is essential that certain actions be taken that ensure the rules under which the program operates (a) reflect legislative changes, (b) reflect chronological

changes, and (c) are complete. In addition, the public must have an opportunity to comment on these rules. More specifically our goals are as follows: (A) To implement PL 98-460, the Disability Benefits Reform Act of 1984, in a way that is consistent with legislative interest and administrative effectiveness. (B) To develop disability guidelines, procedures, and policies which can be consistently interpreted and applied throughout all lines of the disability process and are in compliance with PL 98-460, section 10, which requires that all major disability policies be published as regulations. (C) To assure that disability program policies and adjudicative criteria are consistent with the latest advances in medicine and vocational assessment and realistic in relationship to measurements available for assessing disability.

556. ● OLD AGE, SURVIVORS, DISABILITY INSURANCE, AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; ALCOHOLISM OR DRUG ADDICTION

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart P

Abstract: Section 12.04 of Appendix 1, Part A to the Disability regulations (404.1501 through 404.1598) describes medical criteria for evaluating the psychiatric manifestations of alcohol or drug addiction disorders. We are proposing a revision to that section in recognition of the numerous clinical manifestations in more than one body system which can be used to establish alcoholism or drug addiction as a medically determinable impairment. The proposed regulation will describe alcoholism or other drug dependency which would be considered severe enough to prevent an individual from doing any gainful activity. The proposed revision will reflect advances in medical treatment of and in methods of evaluating alcohol or other drug addiction disorders and will provide up-to-date medical criteria for use in the evaluation of disability claims based on such disorders. The budgetary impact is unknown at this time.

557. ● OLD AGE, SURVIVORS, AND DISABILITY INSURANCE; BLACK LUNG; AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; EXPANSION OF BASES FOR DISQUALIFICATION OF CLAIMANT REPRESENTATIVE

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; 30 USC 923

CFR Citation: 20 CFR 404; 20 CFR 410; 20 CFR 416

Abstract: The proposed changes expand the regulatory bases for the suspension or disqualification of claimant representatives. There has been an increase in the number of concerns about the conduct of some representatives. The complaints concern conduct and behavior which are inconsistent with the role and responsibilities representatives take, but such conduct and practices do not constitute grounds for suspension or disqualification under current regulations. The proposed additional bases for suspension or disqualification will give us the regulatory authority to suspend or disqualify in these situations.

The proposed changes will result in negligible program or administrative costs.

559. ● OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; OVERPAYMENTS, UNDERPAYMENTS, WAIVER OF ADJUSTMENT OR RECOVERY OF OVERPAYMENTS, AND LIABILITY OF A CERTIFYING OFFICER--ETC

Legal Authority: 42 USC 404; 42 USC 405; 42 USC 427; 42 USC 1302

CFR Citation: 20 CFR 404.501; 20 CFR 404.502

Abstract: These proposed amendments to the regulations amend the definition of overpayment as it appears in the regulations to make it clear that the term "overpayment" includes not only checks sent directly to a payee but payments made to a financial institution either by means of a check or through electronic fund transfer. They also incorporate into the regulations longstanding policies concerning the circumstances under which individuals other than the overpaid persons themselves are liable for repayment of an overpayment. No increased program or administrative costs are anticipated as these rules make no changes in our policies.

561. ● OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; AMENDED EXCEPTIONS TO REDUCTION WHERE SPOUSE IS RECEIVING A GOVERNMENT PENSION; DECREASED AMOUNT OF REDUCTION

Legal Authority: 42 USC (b); 42 USC (c); 42 USC (e); 42 USC (f)

CFR Citation: 20 CFR 404.408a

Abstract: In these proposed regulations, we are amending our rules on reducing the Social Security benefit amounts of spouses who are receiving Government pensions. The amendments, which implement section 2 of Pub. L. 98-617, provide that, for beneficiaries subject to this reduction, the benefit reduction in all cases will be two-thirds (instead of 100 percent) the amount of the spouse's Government pension. The amendments also extend by one month the periods for meeting the existing exceptions to reduction in cases where an employee's pension eligibility was delayed by one month solely because of a requirement which postponed eligibility for the pension until the month after the month in which all other requirements were met. The changes are effective for benefits payable for December 1984 and later months. These regulations will cost the Social Security trust funds $10 million per year in increased benefits.

562. ● OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; UNLIMITED REOPENING FOR INSURED STATUS

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404

Abstract: It is our policy that a determination or decision which finds that the claimant did not have insured status at the time of the determination may be reopened only in certain situations where the Act permits a correction in the earnings credited to the individual's earnings record and where the evidence of earnings was in the possession of the Railroad Retirement Board or the Social Security Administration prior to the date of notice of disallowance or denial. The current regulations do not contain specific references to the particular sections of the Act concerning the

correction of earnings. The proposed regulations contain specific references to the particular sections of the Act which will permit unlimited reopening and revision of an unfavorable determination or decision concerning insured status.

The changes will result in negligible administrative costs or savings. They have no effect on program costs or savings because the proposed changes represent long standing established policy.
